

10197 Fire Brigade

Welcome to text-based instructions from LEGO for the Blind. Before you start building, here are some terms we'll be using:

Front: towards you.

Back: away from you.

Up: towards the ceiling.

Down: towards the floor.

Stud: the bump on a Lego brick. Example: A 2x1 brick has two studs on it.

Vertically: going from front to back.

Horizontally: going from left to right.

Upright: pointing up towards the ceiling, and down towards the floor.

Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.

There are also abbreviations defined at the end of this file.

The fire brigade drives to the scene from this detailed and realistic 1930's fire station. Designed to fit with other modular buildings like 10211 Grand Emporium and 10185 Green Grocer, the station features rare LEGO® pieces and innovative construction techniques. It includes a '30s-style fire truck, 4 minifigures, a fire dog, an opening station garage door, and a removable building roof for interior access. It also includes 2 fully furnished floors with fire-fighting tools, racks for the firemen's helmets, fire-pole, ping-pong table, kitchen with fully stocked fridge, couch, bookshelf and a roof with a water tower and bell.

Bag 1.

1. Put two largest platform pieces vertically side by side. Put a 3x2 flat piece vertically in the middle of the front edge, on the seam between them to connect them.
2. Make the border along the back edge. Put a 1x1 flat smooth piece on the left-side end of the back row.
3. Put a 4x1 flat smooth piece to the right of it.
4. Put a 6x1 flat smooth piece to the right of it.
5. Put a 1x1 flat smooth piece from a separate bag to the right of it.
6. Put an 8x1 flat smooth piece to the right of it.
7. Put a 1x1 flat smooth piece from a separate bag to the right of it.
8. Put a 6x1 flat smooth piece to the right of it.
9. Put a 4x1 flat smooth piece to the right of it.
10. Put a 1x1 flat smooth piece to the right of it, on the right-side end.

Bag 2.

1. Make a pavement in the middle of the back of the platform. Put a 4x1 flat smooth piece vertically on the 12th column from the left, in the back (next to the 1x1 smooth piece from the separate bag that is in the back border).
2. Skipping the next button in the same column (in the 6th row counting from the back) put a 1x1 flat smooth piece on the next row (7th from the back) in the same column.
3. Put a 2x2 flat smooth piece on the second and third rows from the back to the right of the 4x1 vertical piece from step 1.
4. Put another 2x2 flat smooth piece on the 4th and fifth rows from the back in the same columns as the 2x2 piece in the previous step.
5. Put another 2x2 flat smooth piece in the 6th and 7th rows from the back in the same columns as the 2x2 piece in the previous step.
6. Put a 2x1 flat smooth piece from the separate bag horizontally in the 8th row from the back in the same columns as the 2x2 piece in the previous step.
7. Put a 2x1 flat smooth piece vertically on the second and third rows from the back to the right of

the 2x2 smooth flat piece in step 3.

8. Put another 2x1 flat smooth piece vertically on the same column as the 2x1 piece in the previous step, next to it.
9. Put a 1x1 flat smooth in the next row in the same column as the previous piece.
10. Put a 2x1 flat smooth piece vertically in the next two rows in the same column as the previous piece.
11. Put a 2x1 piece horizontally in the second row from the back to the right of the 2x1 piece of step 7 (to the right of the smooth square)
12. Put a 2x2 flat smooth piece in the third and 4th rows next to the previous piece.
13. Put a 2x1 flat smooth piece horizontally in the 5th row next to the previous piece.
14. Put a 2x2 piece in the 6th and 7th rows next to the previous piece.
15. Put a 2x1 flat smooth piece horizontally in the 8th row next to the previous piece.
16. Put a 2x2 flat smooth piece vertically on the second and third rows from the back to the right of the pieces of steps 11 and 12.
17. Put a 2x1 flat smooth piece from the separate bag vertically on the same column next to the previous piece.
18. Put a 1x1 flat smooth piece from the separate bag on the same column next to the previous bag.
19. Put a 2x1 flat smooth piece vertically on the same column next to the previous piece.
20. Put the three 2x2 flat smooth pieces vertically to the right of the previous pieces next to each other in the second-seventh rows.
21. Put a 2x1 flat smooth piece from the separate bag horizontally in the eighth row next to the last square of the previous step.
22. Put a 4x1 flat smooth piece vertically in the second-fifth rows in the next column to the right from the squares of step 20.
23. Skipping the button in the sixth row of the same column put a 1x1 flat smooth piece in the seventh row.
24. Put an 8x1 flat smooth piece horizontally in the 9th row from the back aligning it with the previous pieces (halfway between the two large platform pieces).

Bag 3.

1. Make the pavement in the right corner in the back. Put a 1x1 flat smooth piece in the second row from the back to the right of the 4x1 vertical piece.
2. Put a 2x1 flat smooth piece vertically in the same column next to the previous piece.
3. Put a 2x1 flat smooth piece vertically in the same column next to the previous piece.
4. Put a 1x1 flat smooth piece in the same column next to the previous piece.
5. Put a 2x1 flat smooth piece in the second row to the right of the piece of the step 1.
6. Put a 2x1 grate horizontally in the second row to the right of the previous piece.
7. Put a 2x1 flat smooth piece horizontally in the second row to the right of the previous piece.
8. Put a 1x1 flat smooth piece in the second row to the right of the previous piece.
9. Skipping a button to the right at the same row put a 2x1 flat smooth piece horizontally at the last two columns on the right.
10. Put five 2x2 flat smooth pieces horizontally side by side in the third and fourth rows from the back reaching up to the right-side edge.
11. Put a 2x1 flat smooth piece vertically at the 5th and 6th rows to the right of the vertical 2x1 piece of step 3.
12. Put a 1x1 flat smooth piece in the same column next to the previous piece.
13. Put a 6x1 piece horizontally in the 5th row to the right of the 2x1 piece of step 11.
14. Put a 2x1 flat smooth piece from the separate bag vertically in the 6th and 7th rows to the right of the pieces of steps 11 and 12.
15. Put a 2x1 flat smooth piece in the 6th row to the right of the previous piece.
16. Put a 2x1 flat smooth piece in the 6th row to the right of the previous piece.
17. Put a 2x1 flat smooth piece in the 5th and 6th rows to the right of the 6x1 piece, in the third column from the right.
18. Put a 2x2 flat smooth piece to the right of the previous piece.
19. Put a 2x1 flat smooth piece from the separate bag vertically in the 6th and 7th rows in the 4th column from the right.
20. Put a 1x1 flat smooth piece in the 7th row to the right of the previous piece.

21. Put a 2x2 flat smooth piece in the 7th and 8th row to the right of the previous piece, reaching the right-side edge.
22. Put a 4x2 flat piece horizontally in the 7th and 8th rows halfway in the gap between the horizontal and vertical smooth pieces, in the 5th -8th columns from the right.
23. Put an 8x1 flat piece horizontally in the 8th row, skipping the first two columns from the right.

Bag 4.

1. Make a pavement in the left corner in the back. Put a 2x1 flat smooth piece horizontally on the second row in the first and second column from the left.
2. Skipping two columns to the right (third and 4th from the left) put a 2x1 flat smooth piece horizontally in the same row.
3. Put a 2x1 grate to the right in the same row.
4. Put a 2x1 flat smooth piece to the right.
5. Put a 1x1 flat smooth piece to the right.
6. Put a 2x2 flat smooth piece on the first and second columns from the left on the third and 4th rows.
7. Skipping the third row put a 2x1 flat smooth piece horizontally on the 4th row to the right of the previous piece.
8. Put a 2x2 flat smooth piece on the fifth and 6th columns, on the third and 4th rows (2x2 free space should remain on the second and third rows on the third and 4th columns).
9. Put two more 2x2 flat smooth pieces horizontally to the right.
10. Put a 2x1 flat smooth piece vertically to the right.
11. Put 2x2 flat smooth piece on the first and second columns on the 5th and 6th rows (below the 2x2 flat smooth piece).
12. Put four 2x1 flat smooth pieces horizontally on the 5th row to the right of the previous piece.
13. Put a 2x1 flat smooth piece vertically on the next column to the right.
14. Put a 2x2 flat smooth piece on the first and second columns on the 7th and 8th rows (below the 2x2 flat smooth piece).
15. Put a 2x1 flat smooth piece from the separate bag vertically on the third column on the 6th and 7th rows.
16. Put a 6x1 flat smooth piece horizontally on the 6th row to the right.
17. Put a 2x1 flat smooth piece from the separate bag vertically to the right.
18. Put a 1x1 flat smooth piece to the right.
19. Put three 2x1 flat smooth pieces horizontally in the gap between the two vertical 2x1 pieces, below the 5x1 piece.

Bag 5.

1. Pave the middle part of the platform. Put a 16x8 flat smooth piece vertically in the center, halfway between the two parts of the platform, below the 8x1 flat smooth piece in the center on the 9th row.
2. Put the two 4x4 flat half-smooth (with one row of 4 buttons on each) pieces horizontally side by side below the previous piece, their buttoned sides facing front.
3. Put the two 2x1 pieces horizontally - one to the left, and one to the right of the center pavement - on the 8th row from the back.
4. Put a 4x2 flat piece horizontally on the right, on top of the front row of the 4x2 flat piece and the middle part of the 6x1 flat piece (on the 8th and 9th rows from the back, on the 5th - 8th columns from right).
5. Put the two 2x1 flat pieces horizontally one to the left and one to the right of the previous piece, on the ends of the 6x1 flat piece.

Bag 6.

1. Put a 2x1 piece with a crack vertically next to the 2x1 horizontal piece on the left side of the middle. It goes on the 12th column from the left, with the crack facing right.
2. Put a 2x1 piece vertically to the left of it.
3. Here I am not sure - it seems that they tell us to leave eight buttons of the eighth row (3rd -10th) from the back free. Let's do it. Put a 2x1 piece horizontally to the left of the previous piece, in the 9th row.
4. Put a 4x2 horizontally to the left of it in the 9th and 10th rows.
5. Put a 2x1 piece horizontally to the left of it in the 9th row.

6. Put a 2x1 piece horizontally to the left of it.
7. Put a 4x2 flat piece horizontally in front of the 4x2 piece.
8. Put a 2x1 piece horizontally on the other side of the middle smooth lane, on the 8th row from the back, next to and to the right of the middle.
9. Put a 2x1 piece with a crack vertically in front of the previous piece, next to the middle lane, with the crack to the left.
10. Put a 2x1 piece vertically to the right of it.
11. Put a 1x1 piece to the right of it on the 9th row from the back.

Bag 7.

1. Put four 4x2 pieces vertically side by side on the right side of the platform, next to the 1x1 piece from the previous step.
2. Put a 1x1 smooth flat piece on the right side and next to the middle lane, on the second row from the front.
3. Put an 8x1 flat smooth piece vertically on the right side and next to the middle lane, next to the previous piece.
4. Put an 8x1 flat smooth piece vertically on the right side and next to the middle lane, next to the previous piece.
5. Repeat on the left side of the middle lane.
6. Make a box as for the balls and put it on the 4x2 flat piece on the left side of the middle lane.

Bag 8. Mark the borders for the right and left rooms.

1. Put a 2x1 holed piece vertically on the left edge to the front of and next to the 2x1 piece.
2. Put a 10x1 piece vertically to the front of and next to it.
3. Put a 2x1 holed piece to the front of and next to it.
4. Put a 2x1 piece horizontally to the front and next to it.
5. Put a 4x1 piece horizontally to the back and next to it and next to and to the right of the holed piece.
6. Put a 4x1 piece horizontally next to and to the right of the previous piece.
7. Put a 3x1 piece horizontally to the front of and overlapping the previous piece (on the 9th row from the front, on the 9th, 10th and 11th columns).
8. Put a 2x1 piece horizontally on the fourth row next to and to the left of the middle lane.
9. Put a 1x1 piece on the fourth row next to and to the right of the middle lane.
10. Put a 3x1 piece vertically next to and to the back of the previous piece.
11. Put a 3x1 piece vertically next to and to the back of it.
12. Put a 2x1 piece horizontally next to and to the right of the previous piece, on the 9th row.
13. Put a 4x1 piece horizontally to the back of and overlapping the previous piece, on the 6th - 10th columns from the right.
14. Put a 4x1 piece horizontally next to and to the right of it.
15. Put a 2x1 piece horizontally to the front and overlapping the previous piece, on the first and second columns from the right, on the 9th row from the front.
16. Put a 2x1 holed piece vertically next to and to the back of the previous piece, on the right edge.
17. Put a 10x1 piece vertically next to and to the back of it.
18. Put a 4x1 flat smooth piece vertically in the left back corner of the right-hand room, on the 10th columns from the right, to the front of the 1x1 piece and to the left of the 4x2 piece, on the 19th - 22st rows from the front.
19. Put a 4x1 flat smooth piece horizontally next and to the right of the previous piece, to the front of the 4x2 piece, on the 19th row from the front.
20. Put a 2x1 flat smooth piece horizontally in the middle of the middle lane, on the center two buttons of the 8-button row on the otherwise smooth central surface.

Bag 9.

1. Insert the two connectors into the two holed pieces on the left.
2. Put a 6x1 flat piece horizontally in front of the left-hand room wall, in the recessed area on the third- 8th columns from the left, on the 8th and 9th rows from the front.
3. Put a 6x1 flat piece horizontally to the left and to the front of the previous piece, on the 6th and 7th rows from the right, on the 1st -6th columns from the left.
4. Put a 3x2 flat piece horizontally to the front of the previous piece, on the 1st -3rd columns.

5. Put a 6x2 flat piece horizontally into the recess on the right side, in front of the right-hand room wall.
6. Put a 3x2 flat piece vertically in the front three rows, on the columns 10th -11th from the left.
7. Put a 3x2 flat piece vertically to the right of it.
8. Put a 2x1 flat smooth piece vertically to the right of it, on the first and second rows.
9. Put a 1x1 flat piece to the back of it.
10. Put a 2x1 flat smooth piece vertically to the right of it, on the second and third rows.
11. Put a 1x1 flat piece to the front of it.
12. Put a 3x2 flat piece vertically to the right of it.
13. Put a 3x2 flat piece vertically to the right of it.
14. Put a 3x2 flat piece horizontally to the right of it, on the first and second rows.
15. Put a 2x1 flat smooth piece horizontally to the right of it, on the first row.

Bag 10.

1. Rotate 180 degrees. Put two 4x1 sector (1/4 of a cylinder) pieces horizontally side by side in front of the right-hand room wall, on the 8th row from the front, on the 3rd -10th columns from the right, with their curved backs to you.
2. Put a 1x1 flat piece on the right end of the wall behind the previous pieces.
3. Put a 10x1 flat piece horizontally on the same wall, to the left of the previous piece.
4. Put a 2x1 flat piece horizontally to the front and to the left of the previous piece, next to and to the left to the two sector pieces.
5. Put a 1x1 flat piece behind the leftmost button of the 10x1 piece.
6. Put a 2x1 (or, rather, 3-button) flat corner piece in the shape of the braille letter H to the left of the middle lane, on the 8th and 9th rows from the front, on the 11th and 12th columns from the left.
7. Put a 1x1 flat piece behind the two vertical buttons of the previous piece, on the 10th row and 11th column from the left.
8. Put two 1-button hammer pieces side by side with their curved backs to you, to the left of the two horizontal buttons of the corner piece, on the 8th and 9th rows from the front, on the 10th and 11th columns from the left.
9. Put two 1-button hammer pieces side by side with their curved backs to you, to the left of the 4x2 piece, on the same rows as the first two hammer pieces, on the 3rd and 4th columns from the left.
10. Put a 2x1 flat piece horizontally to the left of the previous pieces, on the 9th row, on the 1st and 2nd columns from the left.
11. Put a gas container (or whatever it is), if you find it, in the box.

Bag 11.

1. Put a 1x1 flat piece on top of the other 1x1 flat piece on the rightmost end of the right-hand room wall.
2. Put a 10x1 flat piece horizontally on top of the other 10x1 flat piece to the left of the previous piece.
3. Put a 2x1 flat piece on top of the other 2x1 flat piece to the front and to the left of the previous piece.
4. Put a 1x1 flat piece on top of the other 1x1 flat piece to the back of the 10x1 piece.
5. Put a 4x1 piece horizontally to the right of the previous piece, slipping two buttons, in front of the box and behind the wall. It occupies the 10th row from the front and 5th -8th columns from the right.
6. Put a 2x1 flat piece horizontally to the left of the middle lane, on top of the two horizontal line of the H-corner piece. It occupies the 8th row from the front, the 11th and 12th columns from the left.
7. Put a 2x1 flat piece vertically behind the left button of the previous piece. It occupies 9th and 10th rows from the front, 11th columns from the left.
8. Put a 4x1 flat smooth piece horizontally on the 7th row from the front, on the 5th - 8th columns from the left.
9. Put a 4x1 flat smooth piece horizontally to the back of the previous piece, on top of the first row of the 4x2 piece.
10. Put four 2x1 flat one-button pieces vertically long side by long side to the back of the previous piece. They occupy the 9th and 10th rows from the front, 5th -8th columns from the left.
11. Put a 2x1 flat piece horizontally on top of the other 2x1 flat piece on the leftmost two columns of

the 9th row from the front.

Bag 12.

1. Make a bench. Put a 6x2 flat piece on the table horizontally. Put a 2x1 flat piece horizontally to the left and next to it to continue the second (back) row.
2. Put an 8x1 flat piece on top of them.
3. Put another 8x1 flat piece on top of them.
4. Put three 2x1 flat smooth pieces horizontally next to each other on the first row.
5. Put this bench vertically on the right wall skipping the first row (which was higher than the rest and now is lower).
6. Put a 6x1 piece vertically on the right wall next to it.
7. Put a three-button corner piece to the back and to the left of it in the shape of the braille letter F.
8. Put a 6x1 piece horizontally on the back wall to the left of it.
9. Put a 2x1 piece vertically to the left and to the back of it.
10. Put a 2x1 holder piece horizontally to the left of it to continue the wall curve, with the holder facing you.
11. Put a 2x1 piece horizontally on top of the other 2x1 piece on the row four from the back on columns 11 and 12 from the right.
12. Now put some strange furniture inside. Put a 2x1 flat grate piece on the floor inside the right room, in front of the back wall, on the row 11 from the back, on the columns 4 and 5 from the right.
13. Put a one-button cone in front of it, on the same columns.
14. Put another grate piece in front of the cone, on the same columns. I've no idea what that is.
15. Now move to the left room. Put a square trash bin into the left back corner of the room.
16. Put a strange rack piece horizontally to the right of it.
17. Put a cylindrical trash bin to the front of the square one. Cover. Two pieces are left over. Keep them separately from the rest.

Bag 13.

1. Put a 2x2 flat smooth piece on the 2x2 space of the 2x2/2x1 flat corner piece. Repeat three more times to make four such parts.
2. Put these parts with the smooth side upright on the front wall - two at the corners and two to the left and to the right of the middle; that is to say, at the every end of the front wall.
3. Put a 2x1 flat piece vertically on the front wall of the right room, on its leftmost side, to the back of the right side of the upright smooth part, on the 11th column from the right.
4. Put a 2x1 flat piece horizontally on the front wall of the right room, to the right of the previous piece.
5. Skip four buttons to the right and put another 2x1 flat piece horizontally on the wall.
6. Move to the front wall of the left room. Put a 2x1 flat piece vertically to the back of the upright smooth piece, on 11th column from the left.
7. Put a 2x1 piece horizontally to the left of it, on top of the two curves, on row 9 from the front.
8. Put another 2x1 piece horizontally, skipping the four buttons to the left, on the same row, on top of the other curves.
9. Put an 8x1 piece vertically on the left wall starting behind the upright smooth piece.
10. Put a 6x1 piece vertically next to it.
11. Put a three-button corner piece to the back and to the right of it in the shape of the braille letter D.
12. Put a 6x1 piece horizontally to the right of it on the back wall.
13. Put a 2x1 piece left over from bag 12 vertically to the right of it.
14. Put a 2x1 holder piece horizontally to the right of it, with the holder facing you.
15. Put a 4x1 piece vertically to the back of it.
16. Put a 2x1 piece left over from bag 12 horizontally to the back of it.

Bag 14.

1. Make four pillars by putting a one-button flat circle piece on top of the one-button cylinder piece on top of the other cylinder and repeating three times.
2. Install two of the pillars in front of the entrance in the middle, one to the left and one to the right, in front of the upright smooth pieces, on the buttons left uncovered in the floor.
3. Install the other two pillars on the same columns as the first two, but five rows to the backs, again on the buttons left uncovered in the floor.

4. Go to the front wall of the right room. Put a 1x1 flat piece on the left side of the upright smooth piece.
5. Put a three-button flat corner piece to the right and to the back of it, in the shape of the braille letter F, to continue the wall.
6. Put a 1x1 flat piece behind it.
7. Put a 1x1 flat piece to the right of the three-button flat piece.
8. Put two 2x1 -ribbed pieces, with the horizontal strips facing you, horizontally to the right of it to continue the wall.
9. Put a 1x1 flat piece to the right of them.
10. Put a 2x1 flat piece to the right of it.
11. Put a 1x1 flat piece to the right of it. It should be the last piece on the front wall.
12. Put two 2x1 ribbed pieces, with the vertical strips facing you, horizontally right behind the two horizontally-ribbed pieces. These two should be a little higher.
13. Go to the front wall of the left room. Put a 1x1 flat piece on the right-most end of the wall, on the right button of the upright smooth piece.
14. Put a three-button flat corner piece to the left and to the back of it, in the shape of the braille letter F, to continue the wall.
15. Put a 1x1 flat piece behind it.
16. Put a 1x1 flat piece to the left of the three-button corner piece.
17. Skip the four buttons to the left and put a 1x1 flat piece.
18. Put a 2x1 flat piece horizontally to the left.
19. Put a 1x1 flat piece to the left. It should be the last button on the wall.

Bag 15.

1. Make a part by putting two 2x1 flat corniced pieces horizontally side by side on top of a 4x1 flat piece on top of another 4x1 flat piece. Repeat to make another such part. Put aside.
2. Go to the front wall of the right room. Put two 2x1 flat corniced pieces horizontally side by side on top of the two horizontally-ribbed pieces in front.
3. Go to the right wall. Put a 3x1 piece vertically, skipping the lower first button.
4. Put an 8x1 piece vertically next to it.
5. Put a 4x1 piece vertically next to it.
6. Put a three-button corner piece to the left and to the front of it, in the shape of the braille letter J.
7. Put a part made in #1 horizontally to the left of it, with the cornices to the back.
8. Put a 2x1 piece horizontally to the left of it.
9. Put a 3x1 piece to the back and to the left of it to continue the wall.
10. Put a 2x1 piece horizontally on top of the free-standing part of the wall in the fourth row from the back.
11. Go to the back wall on the left. Put a three-button corner piece in the shape of the braille letter F on the back wall, on the 4th and 5th rows from the back, on the 11th and 12th columns from the left.
12. Put a 4x1 piece vertically to the front of it to continue the wall.
13. Put a 2x1 piece horizontally to the left of the first button of the previous piece to continue the wall.
14. Put a 2x1 piece to the left and to the front of the previous piece to continue the wall.
15. Put the other part from #1 horizontally to the left of it, with the cornices to the back.
16. Put a three-button corner piece in the shape of the braille letter H to the left and to the back of it.
17. Put a 4x1 piece vertically to the left and to the front of it, on the back of the left wall.
18. Put an 8x1 piece vertically to the front of it.
19. Put a 3x1 piece vertically to the front of it. You should have three pieces left over. Keep them separately from the next bag.

Bag 16.

1. Go to the front wall of the right room. Starting from the left, put a 2x1 piece horizontally on top of the wall (above the upright smooth piece).
2. Put a 2x1 piece vertically to the back of it.
3. Put a 2x1 piece horizontally to the right and to the front of it.
4. Put four one-button smooth flat pieces, each of them vertical, side by side, to the right of it.
5. Put a 2x1 piece horizontally to the right of it.
6. Put a 2x1 piece horizontally to the right of it.

4. Make the beams. Put two 14x1 grooved pieces vertically to the left and to the right of the gate, inserting the pegs of the gate into the grooves. The back buttons of the beams rest on the front buttons of the ledges.
5. Put two 1x1 smooth wedge pieces in the corner between the front end of each beam and the front wall, with the taller side of the wedge to the front.

Bag 39.

1. Go to the right vertical wall. Starting at front put an 8x1 vertically.
2. Put a 6x1 vertically next to it.

3. Put a 2x1 horizontally to the back of it and another to the left.
4. Skipping four buttons put a corner piece in the shape of H (1-2-5) to the left.
5. Put a 2x1 upper-lip piece vertically to the left of it.
6. Do the same on the left vertical wall and on the left part of the back wall. The corner piece is in the shape of J (2-4-5), the rest the same.
7. Put a 6x1 flat smooth piece vertically to the left of the arch and the other to the right (above the side door).

Bag 40.

1. Go to the right side of the front wall. Starting from the left put a 2x1 piece on the wall.
2. Put a 2x1 horizontally to the right,
3. Put a 2x1 to the right.
4. Put a 2x2 to the right.
5. Put a 2x1 horizontally to the right.
6. Put a 2x1 horizontally to the right.
7. Repeat on the left side of the front wall, going from right to left.
8. Go to the right beam. Starting in front put a 2x1 piece with the hold vertically on the beam, with the hold to the left.
9. Put a 1x1 lip piece vertically next to it, with the lip to the back.
10. Put a 6x1 flat smooth piece next to it.
11. Put a 4x1 flat smooth piece next to it.
12. Go to the left beam. Put a 2x1 hold piece facing right.
13. Put a lip piece facing back.
14. Put a 6x1 flat smooth piece next to it.
15. Skip two buttons. Put a 2x1 flat smooth piece to the back of them. Four pieces are left for the next bag.

Bag 41.

1. Make a tall window. Put one tall window frame on top of another tall window frame and put a short window frame on top of them. Put a 2x1 flat piece with the cornice from the last bag on top, with the cornice facing the glass side. Repeat three times. Install the glass.
2. Put two of these parts in the right opening of the back wall and two in the left, with the glass side to the back.
3. Go to the right beam. Put a 4x1 flat piece with the handle vertically on the beam starting in front, with the handle in the hold.
4. Put a 1x1 flat piece to the front and to the right of it, on the right side of the front wall.
5. Put a 2x1 flat piece with the cornice vertically to the right. Put an 8x1 flat piece with the cornice vertically to the right.
6. Put a 4x1 flat piece to the back of it.
7. Do the same on the left side of the front wall.

Bag 42.

1. Go to the left side of the back wall. Put a corner piece in the shape of H (1-2-5) on the back of the left vertical wall and on the back wall.
2. Put a 6x1 horizontally to the right of it.
3. Put a 6x1 to the right of it.
4. Put a 6x1 to the right of it.
5. Put a corner piece in the shape of J (2-4-5) to the right of it.

Bag 43.

1. If you can find the long pole in the extras, put it upright in the cone on the floor in the right room.
2. Go to the right vertical wall. Starting in front put an 8x1 vertically on the wall, then a 6x1.
3. Do the same on the left vertical wall.
4. Put a 2x1 on top of the other 2x1 and put a 2x1 upper-lip piece on top.
5. Put this part on the free two buttons on the left beam, with the lip to the left. A piece is left for the next bag.

Bag 44.

1. Make the top of the garage door. Put an 8x1 flat piece with a cornice horizontally on the table with the cornice to the back. Put the two 1x1 flat pieces with the holds on the opposite ends of it, with the holds to the front.

2. Put a 6x1 flat piece from the separate bag in between these pieces.
3. Put two 2x1 flat pieces horizontally on the opposite ends of the part.
4. Put a 4x1 flat piece in between these pieces.
5. Put two 4x1 smooth bench pieces horizontally on the part, with the backs of the benches to the back.
6. Put this part over the garage door. Turn it upside down and cornice facing you and put the holds onto the handles on the sides to the back of the garage door.
7. Go the right side of the front wall. Starting at the left put a 6x1 flat piece horizontally on the wall.
8. Put a flat 3x1 to the right.
9. Put a 2x1 to the right.
10. Do the same three-pieces sequence on the left side of the front wall, starting from the right. Two pieces are left for the next wall.

Bag 45.

1. Make the over-the-garage window. Put a 1x1 flat piece on top of the 1x1 piece with the buttons on two sides (no cornice!). Put another 1x1 flat piece on the bottom of it.
2. Put another 1x1 flat piece on the top.
3. Put another 1x1 piece with the buttons on two sides on the top. The side buttons of the cubes should be on the same sides.
4. Put a 4x1 flat piece upright on the one of the buttoned sides of the part.
5. Install the glass in the window frame. Put the window on the table upright and horizontally, the glass side to the right. Put your part upright to the back side of the frame connecting by the 4x1 side of the part.
6. Put a 1x1 flat piece from the other bag on the top button of the front side of the frame.
7. Put a 1x1 flat smooth piece under it.
8. Put the other 1x1 flat piece from the other bag under it.
9. Put the other 1x1 flat smooth piece under it.
10. Make the part for the front side of the window. Put a 1x1 flat piece on top of the 1x1 piece with the side button and the cornice. Put a 1x1 flat piece on the bottom of it. Put a 1x1 flat piece on the top of the part. Put a 1x1 piece with the side button and a cornice on top, facing the same side as the first one. Connect this part to the window frame upright. Put the window over the garage door with the glass side to the back.
11. Skipping two buttons to the right of this window put a 1x1 lip piece horizontally on the right side of the front wall with the lip to the right.
12. Put a 2x1 flat smooth piece horizontally to the right.
13. Put a 1x1 lip piece horizontally to the right with the lip to the left.
14. Do the same on the left side starting from the right.

Bag 46.

1. Put the two parts of the arch in front of the garage window to make an arch.
2. Put a 1x1 on top of another 1x1 and put this part to the right of the over-the-garage arch. Do the same on the left side.

Bag 47.

1. Install the stairs so that they go up from left to right and the top rests on the lip side of the part on the left beam.
2. Put a flat 2x1 vertically on the right side of the top of the stair.
3. Put three 1x1 pieces on top of each other. Repeat. Put one to the right and one to the left of the over-the-garage-gate arch, next to the lip pieces on the front wall. One button will be free between these parts and the behind-the-arch window.
4. Put a 2x1 flat piece with a catch horizontally on top of the over-the-garage-gate arch, in the middle, with the catch facing you.

Bag 48.

1. Put a claw piece into the side button of the 1x1 corniced piece. Repeat three times.
2. Put these parts on top of the lip pieces on the front wall, claw parallel to the floor and facing you.
3. Put one 3x1 piece horizontally on the left end of the front wall and the other on the right end.
4. Put one 2x1 on the left end of the over-the-garage-arch and the other on the right end.

Bag 49.

1. Turn the whole structure 180 degrees so that the over-the-garage gate is at the back. Go to the

- right vertical wall. Starting from the back put an 8x1 vertically on the wall, then the 6x1, then 1x1.
2. Put an arch piece next to 1x1, horizontally, over the right front-wall window.
 3. Do the same on the left side.

Bag 50.

1. Go to the right vertical wall. Starting from the back put an 8x1 vertically on the wall, then the 6x1.
2. Put a 3x1 horizontally next to it on the front wall. The arch over the right window remains free.
3. Put an 8x1 horizontally to the left of the previous piece.
4. Put a 4x1 horizontally to the left of it.
5. Put two 1x1 corniced pieces to the left, with the cornices facing you.
6. Put a 4x1 horizontally to the left.
7. Put an 8x1 horizontally to the left.
8. Put a 3x1 horizontally to the left.
9. Put a corner piece in the shape of F (1-2-4) to the back.
10. Put a corner piece in the shape of H (1-2-5) to the back.
11. Put a 2x1 vertically to the back.
12. Put an 8x1 vertically to the back.

Bag 51.

1. Put the round 1x1 handles into the doors and put the doors in the front arch.
2. Go to the front wall, to the right over-the-window arch. Starting from the right put a 2x1 flat corniced piece over the arch, then the 8x1 flat corniced piece to the left.
3. Do the same on the left over-the window arch, starting from the left.
4. Put the grate piece upright horizontally on the two 1x1 corniced pieces in the middle of the front wall.

Bag 52.

1. Make a roof over the front wall arch. Put a 10x6 flat piece horizontally on the table. Put two 4x1 smooth bench pieces horizontally side by side on the last row of the 10x6, so that one button at the left end and one at the right end remain free.
2. Put one 1x1 flat piece on top of the other and put them on the 2x1 flat piece. Put a 1x1 smooth wedge piece on the remaining button of the 2x1, taller side to the middle. Repeat.
3. Put these parts horizontally on the last row of the 10x6 piece, one to the right of the bench and one to the left, so that the wedge parts overhang on the sides.
4. Put one 3x1 lip piece vertically on the left side of the 10x6 piece and one on the right.
5. Put one 1x1 pyramid piece at the left front corner of the 10x6 piece and one at the right.
6. Put two 4x1 lip pieces horizontally on the front row of the 10x6.
7. Put one 4x1 flat smooth piece vertically on the left side and one on the right.
8. Put a 4x1 flat smooth piece horizontally on the left side of the front.
9. Put a 6x1 flat smooth piece horizontally next to it.
10. Put the roof on the front, over the arch door.

Bag 53.

1. Turn the structure 180 degrees so that the sliding garage door is in front. Go to the right side of the front wall. Put two 2x1 upper-lip pieces horizontally on top of the claw pieces, lips facing each other.
2. Do the same on the left side of the front wall.
3. Put one 2x1 horizontally at the right end of the front wall and one at the left.
4. Put one 3x1 horizontally at the right end of the front arch (over the sliding door) and one at the left.
5. Make two inner partitions. Put a 2x1 with the cross-shaped hole in its side horizontally in the middle of the 4x1 piece. put one 1x1 piece to the right and one to the left of it. Put a 2x1 on top. Put a flat 4x1 on top. Repeat.
6. Put these parts behind the eight-sided opening in the front wall, one on the left side and one on the right.

Bag 54.

1. Make the top step for the stair. Put one flat 4x1 on top of the other and put a flat smooth 4x1 on top of them. Put this part on top of the 4x2, on the right four buttons. Put this part on the top of the stair, on the 2x2 platform on the right, so that the smooth part is to the right.
2. Put the five 6x1 flat pieces horizontally on the back wall leaving the left-end and the right-end

button free.

3. Put one 3x1 flat piece horizontally on the right end of the front wall and the other on the left end.

Bag 55.

1. Put the three 10x1 flat pieces horizontally on the back wall leaving the end buttons free.
2. Go to the front wall. Starting from the right, put a flat 4x1 horizontally on the wall.
3. Put a flat 4x2 horizontally to the left, protruding to the back.
4. Put a flat 6x1 horizontally to the left.
5. Put a flat corner piece to the left in the shape of D (1-4-5).
6. Put a flat corner piece to the left in the shape of F (1-2-4).
7. Put a flat 6x1 horizontally to the left.
8. Put a flat 4x2 horizontally to the left as before.
9. Put a flat 4x1 to the left.

Bag 56

1. Make a hold for the pole. Insert a Philips stick into the one-opening hole of the one-opening/two openings connector. Put a nut on the stick. Put a 2x1 piece with the opening on the stick. Put another 2x1 piece with the opening on the stick. Lay aside.
2. Go to the right vertical wall. Starting at front put an 8x1 vertically.
3. Put a 2x1 vertically next to it.
4. Put your part vertically next to it with the fixture to the left.
5. Put a 2x1 vertically next to it.
6. Go to the left vertical wall. Starting at the front put an 8x1 vertically.
7. Put a 6x1 vertically next to it.

Bag 57

1. Put four 8x1 corniced pieces horizontally on the front wall, cornices to the front.
2. Put five 6x1 flat smooth pieces horizontally on the back wall.
3. Put a 1x1 button on a racquet piece. Put a golden decorative helmet on the button. Repeat. Insert the handles of the racquets into the holes in the 8-sided openings on the left and right sides of the front wall.

Bag 58.

1. Put a hammer and an axe in the clasps to the right and to the left of each golden helmet.
2. Go to the back of the left vertical wall. Put a 1x1 flat smooth piece on the last button of the left wall.
3. Going to the front put a 6x1 flat smooth piece vertically on the left wall.
4. Put an 8x1 flat smooth piece vertically next to it.
5. Put a 6x1 flat smooth piece horizontally on the front wall next to it.
6. Put a 6x1 flat smooth piece horizontally next to it.
7. Skip two buttons to the right and put a 6x1 flat smooth piece horizontally.
8. Skip two buttons to the right and put a 6x1 flat smooth piece horizontally.
9. Put a 4x1 flat smooth piece horizontally next to it.
10. Put an 8x1 flat smooth piece vertically next to it on the right wall.
11. Put a 6x1 flat smooth piece vertically next to it.
12. Put a 1x1 flat smooth piece next to it.
13. Make a street light. Put a cylinder on the post and cover it with the inverted saucer. Put the street light on the four free buttons in the floor in front of the fire alarm. Some pieces are left for the next bag. Be very careful - these are blue.

Bag 59.

1. Make the flag. Pieces in one part of the bag are white and in the other, red. Ask someone if in doubt. You are going to build an inverted stairs going up to the left. Put a 2x1 flat red piece on top of a 1x1 flat red piece. The smaller piece is on the right.
2. Put a 1x1 flat white piece on top of the 2x1 piece, on the right.
3. Put a 2x1 flat red piece to the left of it, horizontally. (They all go horizontally so I won't mention it again. And they all are flat).
4. Put a 2x1 white piece on the right side.
5. Put a 2x1 red piece to the left of it.
6. Put a 1x1 red clasp piece on the leftmost button of it with the clasp to the left.
7. Put a 2x1 white piece to the right.

8. Put a 1x1 red piece to the right.
9. Put 2x1 red on top.
10. Put 2x1 white to the left.
11. Put 1x1 white clasp on top, on the left, clasp to the left.
12. Put 1x1 blue to the right of it.
13. Put 1x1 red to the right.
14. Put 2x1 blue on top, on the leftmost buttons.
15. Put 1x1 blue clasp on top, on the leftmost button, clasp to the left.
16. Insert the stick into the three clasps, ring on the bottom.
17. Insert the bottom end of the stick into the small round piece.
18. Insert this round piece into the hold on top of the garage gate.

Bag 60.

1. Make a tree. Put a cylinder on the ring-end of the stick.
2. Put five cylinders on the other end.
3. Put the other stick into the top cylinder, ring-end first.
4. Put another cylinder on this stick.
5. Put a couple of branches on the stick.
6. Put another cylinder on.
7. Put the rest of the branches on.
8. Put the tree on the one free button in the floor on the left.

Enjoy!

Fire brigade book 2

Bag 1.

1. Make a platform for the second floor. Put a 16x2 flat piece horizontally on the table. Put a 6x1 flat vertically at the right angle to the first piece on the left and to the front of it.
2. Put the second 16x2 flat piece parallel to the first one, at the right angle to the 6x1 and to the right and to the front of it.
3. Put an 8x1 flat piece vertically on top of the left row of the 6x2, to connect the three pieces.

Bag 2.

1. Put an 8x4 flat piece vertically next and to the front of the 8x1, to connect the two 16x2 pieces.
2. Put the other 8x4 flat piece in front in the same way.
3. Put an 8x6 flat piece in the same way.
4. Put a 12x1 flat piece vertically to the front of the previous piece, with one button hanging over each side.

Bag 3

1. Put the two 12x6 flat pieces horizontally to the right and to the left of the original 12x6.
2. Put the two 12x4 flat pieces horizontally to the right and to the left, back of the two previous pieces.
3. Put a 6x4 flat piece horizontally on the right side, at the back of the 12x4 piece.
4. Put a 4x1 flat piece vertically on the left side, to the left of the middle 8x4 piece.
5. Put the two 12x1 flat pieces horizontally at the back, one the right and on the left.

Bag 4.

1. Flip the whole structure over and turn it 180 degrees, so that the large opening is on your left and in front. Go to the front line. Put (I won't say "flat" in this bag since they all are flat) a 4x2 horizontally to the right of the 16x2 piece.
2. Put a 12x1 vertically to the right and to the back of it.
3. Put a 4x1 horizontally to the right of it, on the front line.
4. Put a 12x1 vertically to the right and to the back of it.
5. Put a 10x2 horizontally at the back on the right side, at the back and next to the 12x2 and the two 12x1 of the previous step.
6. Put the other 10x2 at the same rows as the first one, but on the left side.
7. Put a 12x2 vertically next to it and to the front, on the left side, aligning their left edges.
8. Put an 8x1 horizontally next to and to the right of it on the front line.

Bag 5.

1. Flip the whole structure over and turn it 180 degrees. The larger opening is on your left at the back. (All is flat in this step). Put a 4x1 on top of the 4x2. Turn them vertically so that the 4x1 is on the right side. Put a 4x4 on the left column of the 4x2 so that three rows of the 4x4 overhang to the left. Put this part the way it is on your structure to close the left opening, on the second row from the back, on the first-4th columns from the left.
2. Put a 4x2 vertically to close the right opening, on the second row from the back. On the first and second columns from the right.
3. Put a smooth 4x1 vertically on the opposite side of the right gap, on the 7th column from the right.
4. Put a 2x1 horizontally on the third row from the front, on the second and third columns from the left.
5. Put a 2x1 vertically next and to the back of it, on the second column from the left.
6. Put a 2x1 horizontally next and to the back of it, on the 7th row from the front.

Bag 6

1. Put a stick into the one hole of the one hole/two hole hold.
2. Put a nut on the stick.
3. Put two 2x1 pieces with hole on the stick.
4. Go to the right vertical edge of your structure. Starting at the front, skip one button and put a 2x1 vertically on the edge.
5. Put a 6x1 vertically to the back of it on the edge.
6. Put a 2x2 to the back of it.
7. Put your part to the back of it, with the hold to the left and overhanging the gap.
8. Put a corner piece to the back of it in the shape of J (2-4-5).
9. Continue on the back edge. Put five 6x1 pieces on it, starting next to and to the left of the previous piece.
10. Continue on the left edge. Put two 6x1 pieces on it starting next to and to the left of the last 6x1 piece on the back.
11. Put a 2x1 vertically next to and to the front of the last 6x1 piece on the left.
12. Put a 4x2 horizontally in the left back corner.
13. Put a 4x2 horizontally next to and to the front of the previous piece.

Bag 7.

1. Put one flat 2x2 on top of the other. Put a flat 2x1 and a flat smooth 2x1 on top of it. Repeat to make two of these parts.
2. Go to the front edge. Starting from the left, put a 4x1 with side buttons horizontally on the edge, with the side buttons to the front.
3. Put a 2x1 horizontally next to and to the back of it, on the second row.
4. Put a 2x1 horizontally next to and to the right of the previous row.
5. Put a 1x1 with a side button to the right and to the front of it, on the first row, with the side button to the front.
6. Put a 1x1 with a side button to the right, the same way.
7. Put one of the parts you made to the right, with the smooth row on the protruding edge.
8. Put an 8x1 horizontally to the right, on the first row (not on the protruding edge!)
9. Put the other part you made as before.
10. Put two 1x1 pieces with the side buttons to the right, as before.
11. Put two 2x1 pieces as before, horizontally on the second row.
12. Put a 4x1 piece with the side buttons horizontally, as before.
13. Put a colonnade horizontally on the front edge of the right gap.
14. Put two colonnades horizontally on the front edge of the left gap. Pieces are left for the next bag.

Bag 8.

1. Put a 2x1 flat smooth piece from the last bag on top of a 2x1 flat piece. Repeat. Put one of these parts upright horizontally on the two leftmost side buttons on the front wall, and the other on the rightmost.
2. Put four 2x1 flat smooth pieces upright horizontally on the rest of the side buttons of the front wall.
3. Put one 4x1 flat piece on top of another and put two 2x1 flat corniced pieces on top. Repeat. Put these parts horizontally in the two four-button free spaces in the front row, cornices to the front.
4. Put two boxes along the left wall, on the third - 6th rows from the front.

5. Put a flat 2x1 vertically on top of the two 4x2 pieces on the left, on the 5th column from the left, on third and 4th rows from the back.

Bag 9.

1. Put two 6x1 pieces vertically on the left wall, starting from the front.
2. Put a corner piece on the left back corner, F shape.
3. Put a 2x1 horizontally next to it on the back wall.
4. Put two 2x1 flat corniced pieces horizontally next to it, cornices to the back.
5. Put two 2x1 pieces horizontally to the right.
6. Put an 8x1 flat corniced piece horizontally to the right. Cornice to the back.
7. Put two 2x1 pieces horizontally to the right.
8. Put two 2x1 flat corniced pieces horizontally to the right as before.
9. Put two 2x1 pieces horizontally to the right.
10. Put two 6x1 vertically on the right wall next to the last previous piece.
11. Put a 1x1 to the front of the last previous piece. Pieces left for the next bag.

Bag 10.

1. Make a shelf (shkaf). Put a 4x2 flat piece vertically on the table. Put one 2x1 flat smooth piece vertically on the middle two buttons of it on the left, and the other 2x1 flat smooth piece vertically on the right.
2. Put one curved 2x1 horizontally on the back two buttons, and the other on the front.
3. Put a flat 4x1 vertically on the left.
4. Put one flat 1x1 on the right at the back, and the other on the right at the front.
5. Put a flat 2x1 vertically in the middle two buttons on top of the 4x1.
6. Put one curved 2x1 horizontally on the back two buttons, and the other on the front.
7. Put a shelf vertically next to the left wall on top of the two boxes.
8. Make a chest of drawers. Put the two drawers inside. Put the three 2x1 flat smooth pieces from the previous bag on top side by side. Put the chest of drawers vertically next to the right wall and next and to the front of the railing.

Bag 11.

1. Make a couch. Put a flat 6x2 horizontally on the table. Put a flat 4x1 horizontally on the table in front of the 6x2, in the middle. Connect the two pieces by two 2x2 flat smooth pieces.
2. Put the two 2x1 curved pieces horizontally on top of the 6x2 piece, at the back of the 2x2 pieces.
3. Put two 2x2 hammer pieces at the back ends of the 6x2, with the button-ends facing each other and resting on the 2x1 curved pieces.
4. Put a flat 2x1 horizontally at the back, on the 2x1 curved pieces in the middle between the two hammer pieces.
5. Put two 2x1 flat smooth pieces horizontally at the back, on the hammer pieces.
6. Put the two other 1x1 hammer pieces in the front, on the left and right ends, with the button-ends facing back.
7. Put the two 1x1 flat smooth pieces on top of these buttons.
8. Put the couch horizontally next to the back wall, skipping three columns to the left from the flat smooth 4x1 on the left end of the right gap.
9. Go to the right side of the front wall. There is a 4x2 thickening part of it with a cornice. Put four 2x1 flat pieces with one button vertically next to each other on top of it.
10. Do the same on the left side.
11. Put an 8x1 horizontally in the middle of the front wall, on top of the other 8x1.

Bag 12.

1. Make a sink. Put one flat 2x1 on top of the other on top of the 2x1 flat piece with a hook. The hook faces left.
2. Put a 1x1 button on the front button of your part.
3. Put a three-button flat corner piece in the back, in the shape of F (1-2-4), so that it is above the hook (which is actually the pipe under the sink).
4. Put the two corner walls on the left side of the flat corner piece to make the sink.
5. Put one 2x1 flat piece on top of the other and put them vertically on the right side to close off the sink.
6. Put a flat 2x1 with one button vertically on top of the previous piece.
7. Put a small connector piece on this button to make a faucet.

8. Put the sink next to the right wall and to the front of the chest of drawers.
9. Go to the right wall. Starting from the front, put vertically a 2x1, then two 6x1 pieces.
10. Put a 2x1 horizontally on the back wall next to the last piece.
11. Put a 1x1 to the left of the previous piece.
