

## 4195 Queen Anne's Revenge

Welcome to text-based instructions from LEGO for the Blind. Before you start building, here are some terms we'll be using:

**Front:** towards you.

**Back:** away from you.

**Up:** towards the ceiling.

**Down:** towards the floor.

**Stud:** the bump on a Lego brick. Example: A 2x1 brick has two studs on it.

**Vertically:** going from front to back.

**Horizontally:** going from left to right.

**Upright:** pointing up towards the ceiling, and down towards the floor.

**Symmetrically:** a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.

There are also abbreviations defined at the end of this file.

Captain Jack Sparrow and his motley band of pirates are taking control of the Queen Anne's Revenge! It's mayhem and mutiny as they seize the ship from Angelica and her zombie crew. If they only knew that Blackbeard, the pirate all pirates fear, is watching and waiting in the captain's quarters. This time Jack has gone too far!

Large bag 1 (0.3-05)

Bag 0.3

1. Make assorted men with weapons.
2. Put a 2x2 circle on top of the barrel and put two bottles with plugs on it.

Bag 0.4

1. Make a table. Put a flat 6x2 on top of a flat 6x1.
2. Put two flat lipped 2x1 under the 6x2, in the opposite corners (two buttons in the middle remain free)
3. Put four cylinders in the four corners under the table to make legs.
4. Put a flat smooth 2x2 on the table (it's a map), two jars with covers and a chess piece (it that's what it is!). The chess piece fits between the buttons.

Bag 0.5

1. Put a handle in the bucket.
2. Put three cannons into the cannon carriers.
3. Put six cylinders into the box to make cannonballs. Just throw them in.

Large bag 2 (1-28)

Bag 1-3.

1. Insert two sticks into the two holes on both sides of the large rectangular boat base piece. Connect it with the second and with the third such pieces.
2. Insert two sticks into two holes on both sides. Put it horizontally in front of you.
3. Put a flat smooth 2x2 next to the back wall, skipping the first column from the left.
4. Skip four columns to the right and put another flat smooth 2x2.
5. Skip six columns to the right and put another flat smooth 2x2.
6. Skip four columns to the right and put another flat smooth 2x2.
7. Put four flat 2x2 pieces in front of the previous four pieces.
8. Put four flat smooth 2x2 pieces next to the front wall, symmetrically to the previous four smooth flat pieces (on the same columns).
9. Put four flat 2x2 pieces to the back of the previous four flat smooth pieces.

There is no separate bag 4. Use the large pieces from the large bag.

Put the large end bracket piece on top of the large end piece. Repeat. Connect these parts to the

opposite ends of your structure to make the foundations of the ship.

Bag 5-6.

1. Put a 1x1 button on top of a 1x1 piece. Repeat three times to make four such parts. Put two of these parts on the first row of the front wall, in the leftmost and rightmost ends.
2. Put the other two parts on the back row of the back wall, also in the opposite ends.
3. Put three 10x2 flat pieces on the front wall and three on the back wall.

Bag 7-8.

1. Put a 4x2 piece horizontally on the leftmost buttons of the front wall (to the right of the 1x1 with the button on top).
2. Put a flat smooth 2x1 horizontally to the right of it, on the first row.
3. Put a 4x2 horizontally to the right of it.
4. Put a flat smooth 2x1 horizontally to the right of it, on the first row.
5. Put a 2x2 to the right.
6. Skip two buttons to the right and put a 2x2.
7. Put a flat smooth 2x1 horizontally to the right on the first row.
8. Put a 4x2 horizontally to the right of it.
9. Put a flat smooth 2x1 horizontally to the right of it, on the first row.
10. Put a 4x2 horizontally to the right of it.
11. Repeat the sequence symmetrically on the back wall, with the flat smooth pieces on the back row.
12. Put a ten-button circle in the very center of the floor, one column to the right from the second pair of the 2x2/smooth 2x2 pieces from the left, and one row to the front from the back four pairs.
13. Put one 2x1 horizontally in front of the circle, and one at the back.

Bag 9-10.

1. Put a 2x1 piece with the toe on the front two buttons of the circle, with the toe on the 2x1 piece in front of it.
2. Put another 2x1 piece with the toe on the back two buttons of the circle, with the toe on the 2x1 piece at the back of it.
3. Put a flat 2x1 in between two flat 2x1 pieces with a handle. Repeat.
4. Put one such part in the middle of the front wall, in between the two 2x2 pieces, on the front row, handles to the front.
5. Put the other part symmetrically on the back wall, handles to the back.
6. Go to the right end. Put a 2x1 vertically on the first column on the right (on the floor, not on the steps), in the middle (skipping two rows from the front).
7. Put a flat 4x2 horizontally to the left of it, also in the middle.
8. Put a flat 2x1 vertically to the front of the leftmost column of the previous piece (on the 5<sup>th</sup> column of the floor).
9. Put a flat 2x1 vertically to the back of the 4x2 flat piece, on the 5<sup>th</sup> column of the floor.
10. Put a 1x1 piece with the toe vertically to the back of the previous piece, toe to the back, on the same 5<sup>th</sup> column.
11. Put a 1x1 piece with the toe vertically to the front of the other flat 2x1 piece, toe to the front, on the same column.

Bag 11-12

1. Put an 8x1 arch vertically on top of the two 1x1 pieces with the toes.
2. Put a 10-button circle to the left of the 4x2 flat piece and the arch, in the middle of the floor.
3. Put two 2x1 pieces vertically on the ends of the arch.
4. Put a flat 2x1 vertically in the middle of the arch.
5. Put a 4-button flat circle in the middle of the top step of the right end of the ship.

Bag 13-14

1. Flip a flat 12x2 piece over. Put a smooth flat circle on one end of it.
2. Flip the part over. Put a flat 4x2 horizontally on the same end of the 12x2 piece.
3. Put this part vertically with the empty end on the left, on top of the middle of the arch, on the flat 2x1 piece, and align it on the left, so that the right side is on the 4-button flat circle and protrudes to the right.
4. Make a little tower with the flat circle on the bottom, then the fat circle, then the flat one, then the fat one on top.

5. Put this part on top of the right-side 12-button circle, in the middle.

#### Bag 15-16

1. Put a flat holey 4x2 piece horizontally on top of the tower to connect it to the 12x2 flat piece on top of the arch by two buttons.
2. Put a flat 2x2 piece on the front wall, on the right, on the first step.
3. Repeat at the back.
4. Put a 2x1 piece horizontally on the right end of the front wall (partly on top of the 1x1 button).
5. Put a flat 2x1 piece to the left of it.
6. Put a 4x1 arch piece to the left, to connect the two 4x2 pieces.
7. Put a flat 2x1 piece to the right of it.
8. Repeat steps 2-5 on the back wall, on the right side.

#### Bag 17-18

1. Put four 2x1 pieces on top of the four flat 2x1 pieces from the previous bag.
2. Put a 1x1 piece on the second row of the back wall, to the front of the arch, on the leftmost button of the 4x2 piece.
3. Put a 1x1 piece on the second row of the back wall, to the left of the previous piece, on the rightmost button of the next 4x2 piece, to the front of the arch.
4. Put a flat 2x1 vertically on the front wall, on the right, on the first step, on the right two buttons of the flat 2x2 piece.
5. Put a flat 2x1 with the roll horizontally to the left of it, on the first row of the front wall, rolls to the front.
6. Put a 1x1 button to the left of it.
7. Skipping two buttons to the left, put another 1x1 button.
8. Put a flat 2x1 piece with the roll to the left, roll to the front.
9. Put a 1x1 button to the left.
10. Put a flat 4x2 piece horizontally to the back of the previous three pieces.
11. Repeat steps 4-10 on the back wall, with the rolls to the back.

#### Bag 19-20

1. Put a flat 12x2 horizontally on the right side of the front wall.
2. Do the same on the back wall.
3. Make a rudder. Put a flat 4x2 horizontally in front of you. Put a 3x1 with the holder vertically on the right side of it, holder to the right.
4. Put a 2x2 to the left of it.
5. Put a 2x2 on top, aligned on the right.
6. Put a 2x1 with the holder vertically on top, on the right, holder to the right.
7. Put a stick into the two holders.
8. Flip the ship upside down. Flip your part upside down and insert it in the right end, stick side to the right.

#### Bag 21-22.

1. Make the movable part of the rudder. Put a 1x1 button on the bottom of a 1x1 piece with the side button. Put another 1x1 button on top of it.
2. Put another 1x1 piece with the side button on top.
3. Put a 1x1 button on top.
4. Make sure that the side buttons are facing right. Put a flat 3x1 on the bottom, so that the two left buttons of it remain free.
5. Put a tall 1-button wedge piece on these two buttons, slide side to the left.
6. Put a flat smooth 2x1 piece on top.
7. Put two clasps on the right side, in the side buttons.
8. Flip your part upside down and connect to the other half of the rudder by putting the clasps on the stick. Put aside.
9. Make the other underneath part of the ship. Put a flat 4x2 horizontally in front of you. Put a 2x2 with the lip on the two rightmost buttons of it, lip to the right.
10. Put a 2x2 piece to the left of it.
11. Put another 2x2 with the lip on the two right buttons of the first lipped piece, lip to the right.
12. Put a 2x2 piece to the left.
13. Make the third level the same way. Put the third lipped piece on the two right buttons of the

second. Put a 2x2 to the left.

14. Put a 2x2 on the top, in the middle.
15. Flip your part upside down, steps to the right, and insert it into the left opening of the ship. Flip the ship right side up (the rudder on the right).

#### Bag 23-25.

1. Put a flat 2x1 on top of a 2x2 piece, vertically, on the right side.
2. Put a 2x1 underneath the 2x2 piece, the same way.
3. Put this part in the middle of the left side of the floor, so that the left side of the 2x2 rests on the first step.
4. Put a 2x2 piece underneath the 6x2 piece, on the right end.
5. Put this part on the left-side steps, the 2x2 piece resting partly on the other 2x2 piece and partly on the second step, and the whole part connecting with the underneath part of the ship.
6. Put one flat 2x1 on top of the other (different colors!). Put two 1x1 pieces with the side buttons on top, side by side, with the side buttons to the right.
7. Put another flat 2x1 piece on top.
8. Put this part to the left of the 6x2 piece, on the very left end of the ship.
9. Put a 12-button circle in the middle of the left side of the floor, to the right of the stepped part you made earlier in this bag.

#### Bag 26-27.

1. Put a 2x2 circle on top of the flat 2x2 circle.
2. Put another flat 2x2 circle on top.
3. Put a 2x2 circle on top.
4. Put this part on top of the left 12-button circle.
5. Put a flat 2x1 on top of a 2x1.
6. Put a flat holey 4x2 on top, with the leftmost two buttons resting on it and protruding to the right.
7. Put this part partly on top of the left-side tower, partly on the step to the left.

#### Large bag 3.

#### Bag 28-29.

1. Insert a double-clasp piece into the side holes of a 3x1 piece with the side holes.
2. Repeat.
3. Put one of this parts horizontally in the middle of the front wall, on top of the two handles, clasps to the front.
4. Put the other part horizontally in the middle of the back wall, clasps to the back.
5. Put one 4x1 arch piece horizontally to the right of the previous piece and one to the left.
6. Do the same at the front.
7. Put a 2x1 flat piece horizontally to the left of the previous piece (left).
8. Put a 4x1 arch piece horizontally to the left of the previous piece.
9. Put a 2x1 flat piece to the left,
10. put a 2x1 piece horizontally to the left..
11. Put a flat 2x1 piece to the left, on the first step.
12. Repeat steps 7-11 at the back.

#### Bag 30-31

1. Go to the second row of the front wall. Put a 1x1 piece on the rightmost button of the left 4x2 piece, at the back of the left leg of the left 4x1 arch.
2. Skipping two buttons to the right, put a 1x1 piece at the back of the other leg of the same arch.
3. Skipping two buttons to the right, put a 1x1 piece at the back of the left leg of the next arch.
4. Skipping two buttons to the right, put a 6x1 piece horizontally in the middle of the front wall, at the back of the double-clasp piece.
5. Skipping two buttons to the right, put a 1x1 piece at the back of the next arch.
6. Repeat steps 1-5 at the back.
7. Put a flat 2x1 vertically on the left side of the first step on the left side of the front wall, on top of the flat 2x1.
8. Put a flat 2x1 with the handle horizontally to the right of it, on the first row, handle to the front.
9. Put a 1x1 button to the right.
10. Put 1x1 buttons at the ends of the next three arches to the right.
11. Put flat 2x1 pieces with the handles in the middle of the same arches, in between the 1x1 buttons,

handles to the front.

12. Repeat steps 7-11 at the back.

#### Bag 32-33

1. Put a flat 4x2 horizontally in the middle of the front wall, over the double-clasp piece.
2. Skipping four buttons to the left, put a 2x1 piece horizontally on the flat 2x1 piece.
3. Skipping four buttons to the left, put a 2x1 piece horizontally on the flat 2x1 piece.
4. Repeat steps 1-3 on the back wall.
5. Go to the second row of the front wall. Skipping six buttons from the left, put a flat 4x2 piece horizontally on the second row, protruding to the back (and forming the third row of the wall).
6. Skip two buttons to the right and do it again.
7. Skip four buttons to the right and do it again.
8. Repeat steps 5-7 at the back wall.

#### Bag 34-35.

1. Put three flat 12x2 pieces horizontally on the first and second rows of the front wall.
2. Do the same at the back.
3. Flip the ship upside down. Put a flat 6x2 piece horizontally in the middle of the ship, upside down.
4. Put four 2x2 flat smooth circles in the front wall, at the points where the large pieces of the ship connect.
5. Do the same at the back.
6. Put one 2x2 flat smooth circle at the right, on the right side of the rudder (on the unmovable part).
7. Put one 2x2 flat smooth circle at the left, on the left side of the prow. Flip the ship the right side up.

#### Bag 36-37.

1. Make an anchor winch. Put a 2x2 flat piece with the holes in it on top of a 2x2 flat piece.
2. Put a 2x2 flat circle on top.
3. Put a chain on one of the buttons on top.
4. Put three 1x1 buttons on the rest of the buttons of the 2x2 flat piece.
5. Put a 2x2 cylinder on top.
6. Insert a short ribbed stick in the cylinder.
7. Put a cross with the ring inside on the stick.
8. Connect the other end of the chain to the anchor on the top ( the bottom of the anchor has two sharp ends).
9. Insert a longer smooth stick in the hole under the chain button.
10. Put the winch in the middle of the floor, on the left side, skipping one column to the left from the left-side 12-button circle. Throw the anchor on the floor.
11. If you want to, put the stickers with the ugly skulls on the twelve flags. Insert the flags - six on each side - at the rolls on the 2x1 flat pieces with the rolls that are built into the sides of the ship.
12. Put the three cannons on the floor, into the three right holes at the back wall.

#### Bag 38-40

1. Put a flat smooth 2x2 on the rudder, on right end.
2. Put another flat smooth 2x2 to the left of it.
3. Put two 1-button hammer pieces to the left of it, vertically, buttons facing each other.
4. Put two 1x1 buttons on the hummers.
5. Put five 2x1 flat smooth pieces vertically on the curving segment of the front wall, on the right, forming a step pattern.
6. Repeat at the back.
7. Put one flat smooth 2x2 piece at the back and one at the front, to the left of the previous pieces, on the rightmost buttons of the walls.
8. Put a flat smooth 8x1 piece vertically to the left of the previous piece at the front, to make a bridge to the middle and to rest on the fourth column to the right of the flat 4x2 holey piece on top of the right tower.
9. Do the same at the back, so that the two pieces meet in the middle to form a continuous bridge.
10. Put a 2x1 tall wedge piece on the front wall, to the left of the flat smooth 8x1 piece, horizontally, slide side to the front.
11. Put a 2x1 short wedge piece to the left of it, the same way.
12. Put a 1x1 piece with the clasp on top of the previous piece, on its right button, clasp to the back.

13. Repeat steps 10-12 at the back, symmetrically.

Bag 41-42

1. Cover the tall wedge in front and the 1x1 piece with the clasp to the left of it by a flat 3x1 piece.
2. Put a stepped curved piece horizontally to the left of it, curve to the left, resting on the free button of the short wedge.
3. Repeat steps 1-2 at the back.
4. Go to the front again. Put a 1x1 cone in the middle of the flat 3x1 on top of the wedge.
5. Put a flat 1x1 with the roll on top of the tall side of the stepped curve, roll to the left.
6. Put a flat smooth 4x1 piece with its right end on the rolled piece, and the middle on the cone.
7. Repeat steps 4-6 at the back.

Bags 43-44

1. Put two clasps on top of a 2x1 piece, vertically.
2. Insert a stick in the clasps.
3. Repeat.
4. Put one such part in the first row of the front wall, skipping one button to the left from the shorter wedge, to the front of the curved stepped piece.
5. Do the same at the back.
6. Put two rifles into the clasps inside the front and the back wall, muzzles up.
7. Insert the stick into the right tower, in the right hole of the flat 4x2 holey piece.

Bag 45-48

1. Put a 2x2 flat circle onto the stick.
2. Put a 2x2 piece with the clasps onto the stick, clasp to the right.
3. Put a 2x2 cylinder onto the stick.
4. Put a 2x2 flat circle onto the stick.
5. Put two large flat triangle pieces on the left end of the ship, to form one large triangle and to cover the left end.
6. Put two 1x1 pieces with the side buttons side by side on the leftmost end of the ship, on the triangle's tip, side buttons to the left.
7. Put 2x1 piece with the toe to the right, toe to the right.
8. Put a flat smooth 2x2 piece to the right.

Bag 49-50

1. Put a flat 2x1 vertically on the front wall, on the left, to the right of the large triangle's long side.
2. Put a 4x1 piece to the right, on the first row of the wall.
3. Put a 1x1 piece with the short toe to the right, toe to the back.
4. Repeat steps 1-3 at the back, symmetrically.
5. Put a flat 2x1 on the left side of the front wall, partly on the flat 2x1 and partly on the large triangle.
6. Skipping to buttons to the right, put a 2x1 horizontally on the wall, on top of the 4x1.
7. Put a 1x1 piece with the long toe to the right, toe to the right.
8. Repeat steps 5-7 at the back, symmetrically.

Bag 51-52

1. Put a 2x1 piece with the toe on the left side of the front wall, on the flat 2x2 piece, toe to the back.
2. Put a flat 2x1 on top of it.
3. Repeat at the back, symmetrically.
4. Put a 1x1 piece with the clasp on top of the flat 2x1 from the step 2, clasp to the left.
5. Put a 4x1 horizontally to the right.
6. Put a 1x1 piece with the toe to the right, toe to the right.
7. Drop the anchor at the back before repeating steps 4-6 at the back, so that its chain goes in the opening under the 4x1 piece.

Bag 53-54

1. Put a flat smooth 2x1 horizontally at the left side of the front wall, on top of the clasp piece and the 4x1 piece.
2. Put two 1x1 buttons to the right.
3. Put a flat smooth 2x1 horizontally to the right.
4. Put two clasps vertically on the two buttons to the left.
5. Put a bone in the clasps.
6. Repeat steps 1-5 at the back.

#### Bag 55-56

1. Put two clasps vertically on the 2x1 piece with the toe. Insert a stick in the clasps. Repeat three more times.
2. Put one such part on the front wall, skipping five buttons from the left, toe to the back.
3. Skip six buttons to the right and put another part the same way.
4. Put the other two parts on the back wall, symmetrically.
5. Put two buttons on top of a 2x1 piece with the toe.
6. Put two clasps on top of the buttons, vertically.
7. Put a bone into the clasps.
8. Repeat five more times (two 2x1 pieces with the toe are missing!)
9. Put one such part on the front wall, skipping one button from the left.
10. Skip the part with the stick and two buttons after it to the right and put another such part in.
11. Do it again.
12. Repeat steps 9-11 at the back.

#### Bag 57-60

1. Insert a long stick into the left-side tower.
2. Put a flat 2x2 circle onto the stick.
3. Put two 2x2 cylinders onto the stick. Put aside.
4. Hold a 2x2 corner piece in your hand in the shape of the letter F, so that the 2x2 buttons are on top and the back of the smooth side is at your left. Put a 2x2 cylinder from the left, lying on its side, into the back button.
5. Hold another 2x2 corner piece in the shape of the letter J, so that the 2x2 buttons are facing right and the smooth part is facing up. Connect it to the left to the cylinder with the 2x2 buttons.
6. Holding this part the same way, put it onto the same stick with its right 2x2 corner piece. The left side rests in the middle of the large triangle.
7. Insert a short stick horizontally from the left into the back button of the left 2x2 corner piece.
8. Put four 1x1 flat clasp pieces on the tip in the middle of the left side, on the large triangle. Two clasps face to the front and two to the back.
9. Put a 2x1 flat handle piece vertically on top of the two leftmost clasp pieces, handle to the left.
10. Put two 1x1 flat clasp pieces on top of the two rightmost clasp pieces, the same way as before.

#### Bag 61-62

1. Put a flat 2x1 on top of a flat 2x2.
2. Put two curved stepped pieces on top of both the 2x2 and 2x1, stepped sides to the step made by the first two pieces.
3. Put this part upright, vertically, lower side facing downwards, on the four buttons on the left side of the ship, under the handle piece on the left tip.
4. Put a two-button frog piece on the left tip, partly on top of the handle piece, buttons to the left.
5. Put two ladder pieces upright vertically at the sides of the frog piece, inserting them at the double clasps. The shorter sides of the ladders face away from each other. They form the railings of the prow side of the ship.

#### Bag 63-64

1. Put two double-sided clasps on a bone (one at a side).
2. Put another bone at the end of one of the clasps.
3. Repeat steps 1-2.
4. Connect these parts to the ladders by the free clasps.
5. Make the lanterns. Put a cone inside the chandelier piece, smaller side up.
6. Put a plate piece on top, button side up.
7. Put a 1x1 button on top.
8. Repeat steps 5-7 to make another lantern.
9. Put the lanterns at the left side of the ship, one at the front and one at the back, inserting them in the clasps.

#### Bags 65-66

1. Make a skeleton. Use the double-sided clasps for the legs. Put a spear in one hand.
2. Put in at the handle on the left tip, with the spear leaning against the curved piece underneath for the balance.
3. Make a decoration piece for the prow. Put a 1x1 piece with the side buttons on top of the 1x1 flat

piece with the clasp.

4. Put two clasp pieces at the opposite side pieces horizontally.
5. Insert the flame pieces vertically at the clasps.
6. Put this part, flame side to the left, on the same handle with the skeleton.

Large bag 4.

Bag 1-3

1. Put a flat 2x1 piece with the side hole on the middle two buttons of the short end of a 12x4 flat piece, hole hanging over the edge.
2. Put this part vertically on the table, the side with the hole piece facing to the back. Put two large flat sawed-off pieces at the sides, vertically, the shortest sides to the front.
3. Put two flat 3x1 pieces horizontally at the sides of the side-hole piece to connect them.
4. Put three flat 10x2 pieces vertically side by side to the front of the previous pieces, one in the middle and two at the sides.

Bag 4-7

1. Put a flat smooth 4x1 horizontally on the second row of your piece, on the first row of the three 10x2 flat pieces, in the middle.
2. Put two 1x1 wedge pieces to the sides of the previous piece, lower sides to the front.
3. Put a flat smooth 6x1 piece horizontally to the back of the 4x1 flat piece.
4. Put a flat 8x1 piece horizontally at the middle of the back side, on top of the other pieces there.
5. Put two 10x1 pieces vertically at the sides of the three 10x2 flat pieces.
6. Put two 1x1 buttons at the backs of the two previous pieces, on the end buttons of the flat 8x1 piece.
7. Put two 2x1 pieces vertically at the sides, partly on top of the 1x1 buttons and partly on top of the 10x1 pieces.
8. Put two more 2x1 pieces on top of the first ones.
9. Put two 2x2 tall pieces at the sides of the previous pieces, on the flat platform base.
10. Put two 2x1 wedge pieces at the sides of the previous pieces, at the ends of the flat platform base, slide sides facing to the sides (outward).

Bag 8-10

1. Put two 2x1 long-toe pieces on top of the previous pieces, toe sides facing outward.
2. Put two cone pieces to the front of the previous pieces, at the flat platform base, in the corners formed by the tall pieces and the 10x1 pieces. Put aside.
3. Put a 1x1 button on the button of the 2x1 flat button/clasp piece.
4. Put a 1x1 piece on the button.
5. Put a 1x1 button on top.
6. Put a 1x1 piece on top.
7. Repeat steps 3-6. Put these parts horizontally at the sides, partly on top of the cones and partly on the 10x1 pieces, tall sides facing each other.
8. Put two 2x1 upside-down wedge pieces to the front of the previous pieces, on the 10x1 pieces, slanted sides facing outward.
9. Put the table with the map horizontally in the middle, at the front, to the back of the 6x1 smooth flat piece.

Bag 11-14

1. Put two latticed window wings into each of the window frames. Put these windows vertically at the sides, to the front of the upside-down wedge pieces.
2. Put two more upside-down wedge pieces to the front, as before.
3. Put 1x1 button piece on top of another and put them at the back button of a flat 4x1 piece. Repeat.
4. Put these parts vertically to the front and to the sides of the previous pieces, on the flat platform base, to the sides of the 10x1 pieces, protruding one button forward and overhanging the base at the front. Put aside.
5. Put a 1x1 button on the button of the 2x1 flat button/clasp piece.
6. Put a 1x1 piece on the button.
7. Put a 1x1 button on top.
8. Put a 1x1 piece on top.
9. Repeat steps 3-6. Put these parts horizontally at the sides, partly on top of the two-buttons parts,

and partly on the 10x1 pieces, clasp sides facing outward.

10. Put two upside-down wedge pieces vertically to the front of the previous pieces, on the remaining free buttons of the 10x1 pieces, slanted sides facing to the front.

#### Bag 15-16.

1. Put two 1x1 buttons on the front buttons of the previous pieces.
2. Put two flat 10x1 pieces vertically to the backs of the previous pieces.
3. Put two more 1x1 buttons to the backs of the previous pieces.
4. Put two 1x1 pieces with the toes on top of the previous two pieces, toes to the back.
5. Put two 6x1 pieces vertically to the front of the previous two pieces.
6. Put two 1x1 pieces with the clasps to the front of the previous two pieces, clasps facing each other.
7. Put two 2x1 pieces vertically to the front of the previous two pieces. Put aside.

#### Bag 17-18

1. Put a flat 2x1 with the two clasps on top of the 6x1 arch piece, on the middle two buttons.
2. Put a bone in the clasps. Repeat.
3. Put these parts at the sides, vertically, bones facing outward, resting on the two protruding buttons above the windows.
4. Put two 4x1 pieces vertically to the front and to the center from the previous pieces, on the next level of the walls, aligning at the front with the lower level.
5. Put two 2x1 pieces with the toes to the back, toes facing outward.
6. Put two 2x1 vertically to the back.
7. Put two 1x1 pieces with the toes to the back, toes to the back. Put aside.

#### Bag 19-21

1. Put a cylinder on top of a 1x1 button.
2. Put a faucet piece on top, faucet side up. Repeat.
3. Flip these pieces upside down and put them inside the walls, in the clasps above and to the front of windows.
4. Insert a small connector with the ball into the side hole of a 1x1 piece with the side hole. Repeat.
5. Put these parts at the back of the walls, on the next level, balls facing outward.
6. Put two 6x1 pieces vertically to the front.
7. Put two 2x1 pieces to the front.
8. Put two 2x1 upside-down wedge pieces to the front, slanted sides to the front. Put aside.
9. Put two clasp pieces vertically on a flat 2x1 piece with the handle.
10. Insert a spear in the clasps, the tip facing away from the handle.
11. Repeat steps 9-10 three more times.
12. Put these parts at the front and at the back of the outside sides of the walls, in the clasps, spear tips facing outwards and up.

#### Book 2.

#### Large bag 5.

#### Bags 22- 24

1. Continue the bridge. Put two flat 2x1 pieces vertically on top of the wedges in front, on both sides.
2. Put a flat 8x1 horizontally across the bridge to the back of the previous pieces.
3. Put two flat 2x1 pieces with the cornice vertically to the back of the previous piece, on both sides, cornices facing each other.
4. Put two flat 4x1 pieces vertically to the back of the previous pieces, on both sides.
5. Put two flat 2x1 pieces with the cornice vertically to the back of the previous pieces, as before.
6. Put two flat 10x1 pieces vertically on top of both sides, leaving the last buttons on each side free.
7. Put two flat 1x1 pieces with the grasps on these last buttons, grasps facing outwards.
8. Put two flat 2x1 pieces with the grasp horizontally on top of the flat 6x1 piece across the bridge, at the sides, leaving the two middle buttons free, grasps facing forward.
9. Put a flat 3-button corner piece on the left wall, in the shape of F, on the second and third buttons from the front and on the left button of the flat 2x1 piece with the grasp.
10. Do the same on the right side, but in the shape of D, symmetrically.
11. Put a flat smooth 4x1 piece horizontally between the two previous pieces.
12. Put two flat smooth 2x1 pieces vertically on both sides, on the last two buttons of each side. Put the structure aside.

Bag 25.

1. Make the window. Insert the glass in the frame. Put a flat 6x1 underneath, so that a button remains free on each side.
2. Put one cone on top of another and put them on the free button. Repeat on the other side.
3. Put a 1x1 piece with the grasp on top of the cone, grasp forward. Put a cone on top. Put another 1x1 piece with the grasp on top, as before. Put another cone on top. Repeat on the other side.
4. If you wish, put a sticker with some fire-like patterns on it on the glass. Insert two bones upright in the grasps.
5. Put a flat 6x1 piece on top.
6. Put two 1x1 buttons at the ends of it.
7. Put two flat 2x1 pieces with the handles in the middle, handles to the back.
8. Put this part horizontally on the bridge, handles into the grasps on the flat 6x1 piece across the bridge.

Bag 26-27.

1. Put two 2x1 pieces vertically on both sides, on the second and third buttons (on top of the F and D pieces).
2. Put four 1x1 buttons on top of the four cones. Skipping a button back to the previous piece, put a cone on. Do the same on the other side.
3. Skip a button back and put another cone. Do the same on the other side.
4. Put a 1x1 button on a hammer piece. Repeat.
5. Put these parts on both sides, vertically, buttons to the front, at the back of the second cone, to the front of the flat smooth 2x1 piece.

Bag 28-30

1. Insert a pin with the head into the side hole of the 1x1 piece with the side hole. Repeat.
2. Put these parts on both sides, on top of the first button of the 2x1 piece in front, pin heads facing outwards.
3. Put two 1x1 pieces with the long toe on both sides, vertically, toes to the back, to the back of the previous pieces.
4. Put two flat smooth 2x1 pieces on both sides, vertically, to the back of the previous pieces.
5. Put two fabric flaps outside of both walls, even side down, longest corner to the front, two holes at the bottom on the spears and two holes on the top on the pin heads. Put aside.
6. Build the top of the bridge. Flip a flat 8x6 piece upside down. Put two flat 4x2 pieces upside down along the wide edges, at the middle (leaving two buttons on each side free). Flip right side up, put vertically in front of you.
7. Put a 2x1 piece with the toe in the middle of the last two rows, toe to the back.
8. Put a flat 2x1 on top of it.
9. Put a two-hole piece on top.
10. Insert a steering wheel in the hole, facing you.
11. Put this part as a ceiling to the bridge, resting on the cornices.

Bag 31-34

1. Put a flat 2x1 on top of an upside-down wedge. Repeat. Put these parts on both sides, on the first buttons, slide side forward, in front of the taller wall sides.
2. Put two one-button pieces with the toes on both sides at the back of the previous pieces, on the taller wall sides, toes to the back.
3. Put two cones on both sides, on the first buttons, on top of the flat 2x1 and the wedges.
4. Put two flat 2x1 with the hooks on both sides, vertically, at the back of the previous pieces, hooks facing outwards.
5. Put two 1x1 buttons on both sides, on the cones.
6. Put two 1x1 pieces with the toes on both sides, to the back of the cones, toes to the back.
7. Put two flat 2x1 pieces with the handle on both sides, on the first and second buttons (partly on top of the cones and partly on the pieces with the toes), handles facing outwards.
8. Put two arm pieces on both sides, on the hooks.

Bag 35-36

1. Make two skeletons, put clasps on their heads and put them on both sides by the clasps on the handles.
2. Make a lantern. Put a cone inside the chandelier, put a plate on top and a button on the plate.

Repeat.

3. Put the lanterns on both sides in the arm pieces on the hooks.

#### Bag 37

1. Make a window. Insert the glass in the frame.
2. Put a flat 6x1 underneath as before.
3. Put two flat 1x1 pieces with the clasp on top of the window, at the end buttons, clasps facing forward.
4. Put two cones on the previous pieces.
5. Put a flat 2x1 with one button in the middle.
6. Put a skull head on this button.
7. On both sides, put a cone at the end buttons of the 6x1 piece. Put a 1x1 piece with the clasp on top of each cone, clasps facing forward.
8. Put a cone on both sides.
9. Put a 1x1 piece with the clasp on top of each cone, as before.
10. Put a 1x1 button on top of the previous pieces on both sides.
11. Put a flat 6x1 on top.
12. Put three flat smooth 2x1 pieces on top.
13. Put a sticker on the window.
14. Put two longer bones at the sides, in two clasps each.
15. Put shorter bones in the single clasps.
16. Install this window on top of the larger window at the front. Put aside.

#### Bag 38

1. Put a flat 8x2 piece horizontally in front of you. Put a four-button circle in the middle of it.
2. Put a 2x1 piece horizontally at the two back buttons of the circle.
3. Put two cones at the sides of the circle, on the first row of the 8x2 piece.
4. Put a 2x1 piece with the cross at the side on the front two buttons of the circle.
5. Put two two-button pieces with the long toe horizontally on the sides of the 8x2 piece, on four buttons each, toes facing outwards and overhanging at the sides.
6. Cover with four curved/stepped pieces, two on each side, shorter sides facing outwards and longer sides meeting in the middle.
7. Put this part on top of the window.
8. Connect the bridge part to the main ship. Put it over the right (rudder) end, window to the right, and click the hook in the middle of the left side of the bridge to the small handle on the right side of the tower on the ship.

#### Bag 39

1. Build the skull railing. Put a flat 8x2 piece horizontally in front of you.
2. Put three flat 2x1 pieces with one button on the first row of it, horizontally, in the middle, leaving one button free at each end.
3. Put a double flat 2x1 piece (movable) on each of these free buttons, so that it overhangs at the side and bends to the back.
4. Put the end two buttons of a flat 10x1 piece underneath the second part of each of the previous pieces.
5. Skipping a button on the flat 10x1 piece back of the connected double piece, put a 1x1 button.
6. Skip a button and put another. And another, and another. Repeat on the other side.
7. Put five skull heads on the middle part, at the equal distance.
8. Repeat at the sides.
9. Put two double flat 2x1 pieces on the heads on top of the other two double pieces, as before.
10. Put a flat 6x1 on the heads in the middle part.
11. Put two 1x1 flat pieces with the roll on top of the two end heads, rolls to the back.
12. Put 1x1 buttons on the rest of the heads.
13. Put three flat 10x1 pieces on top, one on each side.
14. Flip the part upside down. Put 1x1 buttons (upside down) at each end of the side 10x1 flat pieces.
15. Put two 1x1 buttons at each end of the middle piece, at the front row (not the overhanging row).
16. Flip right side up. Put a flat 2x1 piece on the front two buttons of each side 10x1 flat piece.
17. Put a 1x1 flat piece with the roll on the second button of each of the previous pieces, rolls to the front (or, rather, facing outwards). Put aside.

18. Put a cone on the button of a hammer piece. Put a 1x1 wedge piece on the cone, shorter side facing the larger side of the hammer piece. Repeat.
19. Put these parts on the free button of the flat 2x1 pieces, next to the roll pieces, wedge sides facing backward (or toward each other).
20. Insert an axe piece in the flag narrow-side opening. Repeat.
21. Insert them, parallel to the table, into the rolls.
22. Connect the railing to the bottom of the bridge. Put the protruding buttons in the base of the middle part on top of the free eight buttons at the back of the bridge.

#### Bag 40-41

1. Insert a short stick into the wide opening of a cone. Put the other side of the cone onto the small protruding part of an elephant-trunk piece. Put the other end of the stick into the cross-opening on the top of the outer side of the right-end of the ship.
2. Make a lantern. Put a 2x2 circle on 2x2 8-sided wheel.
3. Put two 2x1 flat pieces with the handles on top of the circle, handles facing away from each other.
4. Put a one-button flat square on top.
5. Put two two-sided hands (actually, they are legs!) on one handle, and two on the other.
6. Put two skeleton bodies on the legs. Put aside.
7. Put a cone on top of a 1x1 piece with the side buttons.
8. Put four 1x1 clasps on four side buttons horizontally.
9. Put four pieces of flames upright in the clasps.
10. Put a small tube on the cone.
11. Put a tiny connector in the tube, with the rim side up.
12. Put this part on the lantern. Raise the skeletons up and put the part aside.
13. Put the cone on the stick with the handle, narrow end first, so that it goes all the way to the pommel.
14. Put a smaller saucer on the stick, convex side first, and move all the way up.
15. Put a larger saucer on the same way.
16. Put a 2x2 circle on the stick button side first.
17. Put a 1x1 clasp on the handle part of the stick.
18. Put this part on the lantern to cover it.
19. Hang the lantern by inserting the tip of the elephant-trunk piece in the back of the clasp.
20. Put one 2x2 cylinder on top of the other. Put a 2x2 circle on top. Put this part on the right-side tower.

#### Bag 44. (sail and mast in bag 40)

1. The mast has three-hole crossing on the top and on the bottom. I will call them top and bottom crossings. It also has four holes running up its length. I will call them first, second, third and fourth holes, starting on the bottom. Insert a connector in the middle hole of the top crossing. Insert a connector into the third hole.
2. Take a tube with the hole in the middle. Put it by this hole on the connector on the top crossing, parallel to the crossing.
3. Take a half-tube with the hole. Put it by this hole on the connector in the third hole, turned to the left.
4. Insert the smooth stick in it.
5. Insert two longer ribbed sticks on both sides of the tube in the top crossing.
6. Put two half-tubes on the ends of these sticks, not by the hole, but by the opening in the tubes. The holes are parallel to the ground.
7. Insert two small connectors with the heads into these holes, from the front.
8. Put a stick with the button on the end on top of the mast, button end first.
9. Take a sail. Find the right-angle hole and put it on the smooth stick.
10. Tip the ribbed sticks and put the heads of the connectors on the two other holes in the sail.
11. Install the mast on the right-end tower.

#### Bag 45-47

1. Put a 2x2 circle on top of the column.
2. Put a 2x2 flat corner piece on top, so that the 2x2 buttons are up and the corner side is down along the column and to the left. Put this part on the middle "tower".
3. Insert a ribbed stick in the center hole on top.

4. Make another column just like the first but insert a small ribbed stick in the hole, rim up.
5. Put this column on top of the first, the same way.

#### Bag 48-51

1. Put a 16x2 flat piece upright between the two corner pieces, alongside the top column.
2. Put a 2x2 piece on the bottom end of the 16x2 piece.
3. Put a 2x2 piece on its side. Put a 2x2 flat piece with the hole to the back of it.
4. Insert a connector into the hole.
5. Put a tube with the hole on the connector by the hole in the middle.
6. Repeat steps 3-5. Put one of these parts on the bottom of the 16x2, on the 2x2 piece, and the other on the top.
7. Make another mast. Insert two connectors on the side holes of the bottom crossing, long ends first (rims facing you). Put aside.
8. Put two 2x1 flat pieces with the clasps underneath a 4x1 piece with the side holes.
9. Put a 4x2 flat piece on top so that four front buttons overhang. Repeat steps 8-9.
10. Put these parts on the bottom on the mast, on the opposite sides, inserting the connectors in the side holes.
11. Connect these two parts by putting two 3x1 flat smooth pieces across them on the opposite sides.
12. Insert a rib-ended connector into a half-tube (not in its hole), ribbed end first. Insert a connector in its hole. Insert the top of the connector into the hole of a tube. Insert the other end of the rib-ended connector into the second hole of the mast.
13. Repeat step 12 and insert into the third hole.
14. Put a cone on top of the mast.
15. Put two riggings (ladder-like pieces) in the clasps on the bottom of the mast, by the short sides.
16. Install this mast on top of the column, with the riggings perpendicular to the body of the ship and the tubes to the left. Lower the riggings and insert the other short ends into the clasps on the sides of the ship.

#### Bag 52-54

1. Put the flag on the stick with the handle and put the handle on the cone on the top.
2. Do the same with the two cylinders, circle and the corner piece as before. Put this part on the left-side tower, corner side to the left.
3. Put a 2x2 circle on a column.
4. Put a corner piece as before on top.
5. Insert a stick in the middle, rim end up.
6. Put the column on top of the left-end tower.

#### Bag 55-57

1. Put a flat 16x2 the same way as before.
2. Put a 2x2 on the bottom of the 16x2 as before.
3. Insert a connector into a flat 2x2 with the hole.
4. Put a tube with the hole on the other end of the connector by the hole in the middle of the tube.
5. Repeat steps 3-4.
6. Put one of these parts on the top of the 16x2 as before, and the other on the bottom, on the 2x2 as before.
7. Make a mast. Put a tiny connector, rim last, into the middle hole of the top crossing.
8. Put a stick with the button on top of the mast.
9. Put a flat 4x1 alongside the mast, hanging from the tiny connector.
10. Put a ribbed connector into the tube side of the half-tube with the hole, ribbed end first.
11. Put a connector in the hole of the half-tube.
12. Put a tube on the other end of the connector, by the hole in the middle of the tube.
13. Put this part by the other end of the ribbed connector in the second hole of the mast.
14. Put this mast on top of the left-end tower, crossings to the left as before.

#### Bag 58-60.

1. Insert a long ribbed stick into one end of a tube with the hole.
2. Put a short ribbed end into the other end.
3. Put a half-tube by the end (not by the hole) on the other end of the short ribbed stick.
4. Insert a small connector with the head into the left hole of the half-tube.
5. Repeat steps 1-4 three more times to make four such parts.

6. Put these parts on the ends of the lower long cross-masts of the left-end and middle masts.
7. Repeat steps 1-4. Insert a small connector with the head into the hole of the tube on the same side.
8. Repeat step 7 three more times to make four such parts.
9. Put these parts on the middle (second) ends of the cross-masts.
10. Insert a long ribbed stick into a half-tube with the hole (not in the hole). Insert a smack connector with the head into the left hole of the half-tube. Repeat three more times.
11. Put these parts on the upper-middle (third) ends of the cross-masts.

Bag 61-62

1. Insert a short ribbed stick into the half-tube.
2. Insert a small connector with the head into the hole of the half-tube.
3. Repeat steps 12-13 to make two such parts.
4. Put these parts on the upper cross-mast of the middle mast.
5. Put the only small sail on the top of the middle mast, smaller side up.
6. Put the other four sails on the other four cross-masts, smaller side up.

Bag 63.

1. Insert a ribbed connector into the end of a bent tube with the hole.
2. Insert the other end of the connector into the bottom of the last mast.
3. Insert a tiny connector into the middle hole of the bottom crossing of the mast, rim end up.
4. Insert another tiny connector into the middle hole of the top crossing, the same way.
5. Put a cone on this last connector, larger end down.
6. Insert the other end of the bent tube into the corner piece on the bottom of the left-end mast, so that the your mast rises slightly upright to the left over the left end of the ship.

Bag 64.

1. Take a triangular sail. Insert a clasp into one of its holes. Put a roll piece on the other end of the clasp.
2. Do the same with another hole.
3. Attach the two buttons on the rope to each clasp, each by one button.
4. Put the other button of the one end (it will be the top one) on the bottom button of the upright 4x1 flat piece running alongside the left-end mast.
5. Put the other button of the bottom end on the slightly protruding tip of the connector in the bottom of the diagonal mast.
6. Put the third corner of the sail on the cone in the top crossing of the diagonal mast.
7. Insert a clasp into the cone.
8. Put the barrel with the two bottles, the box with the cannon balls (cylinders) and the bucket somewhere at the back of the left side.

Enjoy!

Thank you so much for building this set!

**Abbreviation definitions:**

- F = flat (Plate.)
- FS = flat smooth (tile)
- Slide = slope.
- Lip = inverted slope.
- Ribbed stick = Technic axle.
- Connector = Technic pin.
- Stubby or Short connector = Technic pin with stud.
- Long connector = elongated Technic pin.
- Nail = technic axle with end stop.
- Fat nut = Technic joiner.
- Thin nut = Technic stop.

Elbow = technic joiner 90 dg.  
1x1, 2x1, 3x1... means a 1x1, 2x1, 1x3... brick.  
Ver = vertically.  
Hor = horizontally.  
Symm = symmetrically.  
LMA = Lay Momentarily Aside.  
PP = previous piece.  
Sep bag = separate bag.  
Braille letters (for placing corner pieces):  
D = open corner to the front left.  
F = open corner to the front right.  
J = open corner to the back left.  
H = open corner to the back right.
