

41746 Horse Training

Set adapted by Alex Charbonneau and tested by Natalie Charbonneau.

Kids aged 4 and up who love horses and animal care can create lots of imaginative stories with this LEGO® Friends Horse Training 41746 stable building set. This toy set helps kids learn to build and comes with Aliya and Mia mini-dolls, plus 2 horse characters and accessories for creative play. Kids can explore the relationship between Aliya and her friend's mom, Mia, as the two bond over their shared love of horses.

Inspiring new builders:

LEGO 4+ sets are designed to give kids a quick and fun building experience. They come with a helpful Starter Brick – a sturdy base on which kids create the scene. Let the LEGO Builder app guide you and your child on an intuitive building adventure, allowing you to zoom in and rotate models in 3D, save sets and track progress.

Welcome to the next generation of Heartlake City:

- Kids can make friends, discover exciting locations and act out real-life adventures in the LEGO Friends universe.

Build-and-play fun for kids aged 4+:

- Inspire kids to explore the world of horse care with this LEGO® Friends Horse Training (41746) playset, which includes a toy horse stable.

2 mini-dolls and accessories:

- The set comes with LEGO® Friends characters Aliya and Mia, plus a horse character, a foal character and lots of accessories.

Imaginative role play:

- Accessories include 2 jumps, horse poop, hay, a saddle, binoculars, a rake, a bucket, shampoo, an apple, a carrot, a trophy and a helmet for Aliya to wear.

A special treat:

- This LEGO® Friends toy set makes a fun birthday, holiday or any-other-day gift for kids aged 4 and up who enjoy building and creative play.

Measurements:

- The toy horse stable measures over 4.5 in. (12 cm) high, 7.5 in. (19 cm) wide and 4.5 in. (11 cm) deep.

The front of the box shows a white, purple, and orange stable on a field. The stable has a viewing platform with binoculars, a trophy, and golden flags on the top. One girl, Aliya, rides a brown horse as it jumps over two jumps. Another girl, Mia, pushes a wheelbarrow full of apples, carrots, and hay over to a foal. The front of the box also has an inset showing the two included minifigures. The first is Aliya, a dark skinned girl with black hair. The second is Mia, a light skinned girl with red hair.

The top of the box shows an image of the two included minifigures, as well as a life sized image of the Aliya minifigure wearing a riding helmet.

The back of the box shows what all is included in the set. There are the two minifigures, the brown adult horse, the brown foal, a low jump, a high jump, a green wheelbarrow, a crate, the stable, and an assortment of food, tools, and even a pile of horse poop! There is an inset showing Mia spraying down the brown horse, while Aliya stands by with a brush.

The build is 134 pieces, and 93 building steps.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: going from front to behind.
- Horizontally: going from left to right.
- Upright: pointing up towards the ceiling.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind the piece
- Centered-horizontally: even amount of space left and right of the piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner who may want to follow along with the printed visual instructions that come with each kit, PDF versions are always online at LEGO.com: (<https://www.lego.com/en-us/service/buildinginstructions/41746>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1, 2 and 3, and put them in one container.

This LEGO set comes with three bags labeled 1-3, an unlabeled bag with large parts, and three instruction booklets labeled 1-3. Sort the pieces into groups as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split across two groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

A note for helpers: this set does not have numbered steps. I'll use the page numbers to identify which pieces go in which groups for sorting! I'll make numbered steps in the instructions, with the corresponding page in parenthesis.

Bag 1 (3 groups of bricks)

Minifigure group 1 contains the pieces to build the Aliya minifigure, and the pieces to make a carrot.

Sub-build 1:

Group 1 contains the pieces for pages 8-21 in Book 1.

Sub-build 2:

Group 2 contains the pieces for pages 22-35.

Bag 2 (5 groups of bricks)

Minifigure group 2 contains the pieces to build the Mia minifigure and the brown foal.

Main Build:

Group 3 contains the pieces for pages 6-29 in Book 2. Stack the light blue 2x4 plate on top of the purple 2x4 plate to help the builder differentiate between the colors.

Group 4 contains the pieces for pages 30-41.

Group 5 contains the pieces for pages 42-57.

Group 6 contains the pieces for pages 58-67.

Bag 3 (4 groups of bricks)

Sub-build 4:

Group 7 contains the pieces for pages 4-7 in Book 3.

Sub-build 5:

Group 8 contains the pieces for pages 8-17.

Group 9 contains the pieces for pages 18-23 as well as a white 1x2 tile from page 26.

Group 10 contains the pieces for pages 24-33.

Building Instructions:

Open bag 1.

Open minifigure group 1.

Assemble the Aliya minifigure by placing the torso on the legs, the head on the torso, and the helmet on top of the head. The chin is slightly pointed and goes on the front of the minifigure. Assemble a carrot by placing a green bar with two leaves into the hole on the thick end of a carrot. Place the carrot into one of Aliya's hands.

Open group 1.

Sub-build 1: Wheelbarrow

1. (Pages 8 & 9) Let's start by building a wheelbarrow to take food to the horses! Place a green wheelbarrow body in front of you, with the handles at the left. Clip a pair of small wheels into the clips on the bottom left of the wheelbarrow.

2. (Pages 8 & 9) Place a yellow 1x2 brick with horizontal grooves on one side and vertical grooves on the other, with the horizontal grooves on the left, on the left column of studs in the wheelbarrow. This is a bale of hay for hungry horses!

3. (Pages 8 & 9) Place a red apple to the right of the previous piece.

Sub-build 2: Activity Wheel

4. (Pages 10 & 11) Now we'll build an activity wheel. You can spin the wheel to tell you what you should do next! There are three symbols, a pillow, a brush, and a carrot, showing when it's time to sleep, clean-up, or eat! We'll make the stand first. Start by placing a tan 4x4 circular plate in front of you.

5. (Pages 10 & 11) Place a purple 1x2 plate, horizontally long and centered horizontally, on the second row from the back on the previous piece.

6. (Pages 12 & 13) Place a white 1x2 brick with a stud on one side, with the side stud at the front, on the previous piece.

7. (Pages 12 & 13) Place a tan 1x2 brick, horizontally long, on the previous piece.
8. (Pages 14 & 15) Place a purple 1x2 plate, horizontally long, on the previous piece.
9. (Pages 14 & 15) Place a purple 2x2 triangular tile on the side stud. Place it so the widest side is at the bottom and there is a point at the top.
10. (Pages 16 & 17) Place a light gray 1x2 brick with a pin on one side, with the pin on the front, on the top of the build. Now the stand is complete.
11. (Pages 18 & 19) Start the wheel itself by placing a white 4x4 circular brick in front of you. Notice there is a hole which goes all the way through the center of this piece. We'll use this hole to attach the wheel to the stand later on.
12. (Pages 18 & 19) Place a white 4x4 dish on the previous piece. This dish is printed with three equal segments: a brush, a pillow, and a carrot.
13. (Pages 20 & 21) Rotate the wheel so the dish is at the front and attach it to the pin on the stand. The pin goes into the center hole on the 4x4 circular brick.

Open group 2.

Sub-build 3: Viewing Platform

14. (Pages 22 & 23) Now we'll start building the viewing platform which goes on top of the stables. From here, people can watch the horses and riders! Start by placing a tan 6x6 plate with one rounded end, with the rounded end at the front, in front of you.
15. (Pages 22 & 23) Place a white 2x4 tile with two studs, horizontally long and centered horizontally, on the second and third rows from the back on the previous piece.
16. (Pages 24 & 25) Place a white 1x4x2 straight fence, vertically long, on the left column of the platform, even with the back end. Place another on the right side of the platform.
17. (Pages 24 & 25) Place a white 4x4x2 curved fence, with the curve aligned with the front of the platform, in front of the left piece from the previous step. Place another symmetrically to the right of the first.
18. (Pages 26 & 27) Place a tan 1x2 plate with four studs hanging down from one long side, with the side studs on the front and centered horizontally, on the front studs of the two pieces from the previous step.
19. (Pages 26 & 27) Place a white 1x2 plate with an upwards bar on one long side, with the bar on the left, on the back two studs of the left straight fence panel. Place another symmetrically on the right fence panel.
20. (Pages 28 & 29) Now we'll make a bench. Place a white 2x4 plate with an inverted slope on each end, horizontally long, in front of you.
21. (Pages 28 & 29) Place a teal 2x4 tile, horizontally long and centered vertically and horizontally, on the previous piece.
22. (Pages 28 & 29) Place a purple 1x2 slope tile, with the thick side at the left, on the elevated studs to the left of the previous piece. Place another symmetrically on the right side of the bench.
23. (Pages 30 & 31) Place the bench, horizontally long and centered horizontally, on the back two rows of the viewing platform.

24. (Pages 32 & 33) Place an orange flag, with the flag pointing left, on the left upright bar at the back left of the platform. Place another symmetrically on the right side of the platform.

25. (Pages 32 & 33) Place a white 3x3 circular tile, centered vertically and horizontally, on the four side studs at the front of the platform. This piece is printed with a purple circle, ringed by dark purple. In the center of the circle is a golden horse rearing on its hind legs. At the bottom of the circle is a golden horseshoe, with its prongs pointing up so it looks like a letter U.

26. (Pages 34 & 35) Now we'll make a binocular stand. Place a gold telescope, with the stud on top, on the middle stud of the left curved fence piece. This is just to the left of the 3x3 circular tile.

27. (Pages 34 & 35) Place a pair of dark gray binoculars, with the thick side pointing to the front left, on the previous piece. There is a cutout for a stud on one side of the binoculars, use this to attach them to the telescope.

Open Bag 2

Open minifigure group 2:

Assemble the Mia minifigure by placing the torso on the legs, the head on the torso, and the hair on top of the head. The chin is slightly pointed and goes on the front of the minifigure. Place the foal figure next to Mia.

Main Build: Stables

Open group 3. This includes the large base piece. There are two 2x4 plates stacked together, leave them together for now. The top one is light blue and the bottom one is purple.

28. (Book 2, pages 6 & 7) Now we'll start building the stable. Set the viewing platform and the other sub-builds aside for now. Begin the stables by making the base. Place a green 8x16 base brick, horizontally long, in front of you. This brick has two 1x4 indentations on the front and back rows, and one 1x4 indentation on the left and right columns.

29. (Pages 8 & 9) Place four light brown 1x4 plates, horizontally long, one on each indentation on the front and back rows.

30. (Pages 10 & 11) Unstack the two 2x4 plates and place the top one, vertically long, on the left indentation on the base so that it overhangs one column to the left. Place the other 2x4 plate symmetrically on the right side of the base.

31. (Pages 12 & 13) Place a green 4x8 half circle plate with the straight side at the left, under the right piece from the previous step. Its bottom should be level with the bottom of the base. Place another symmetrically on the right side of the base.

32. (Pages 14 & 15) Place two light green 1x2 plates, vertically long, one behind the right column of the right 2x4 plate, and one in front. Repeat these two pieces symmetrically on the left side of the base.

33. (Pages 16 & 17) Place an orange 2x4 tile, vertically long and centered vertically, on the second and third columns from the left on the base.

34. (Pages 18 & 19) Place a light green 1x6 plate, vertically long and centered vertically, on the third column from the right on the base.

35. (Pages 20 & 21) Place an orange 1x6x5 printed brick, horizontally long with the printing at the front and centered horizontally, on the back row of the stables. The printing shows a white cabinet holding various containers, a trophy, a satchel, and a handful of books. Behind the cabinet, there are three awards and a picture of a horse jumping over an obstacle.

36. (Pages 22-23 & 26-27) Place an orange 1x6 brick, horizontally long, on the previous piece. Stack another on top of the first.

37. (Pages 24 & 25) Place a white 1x6x7 arched door frame with round columns, with the rounded side of the columns at the back, to the left of the 1x6x5 printed brick. Place another symmetrically to the right.

38. (Pages 28 & 29) Place two light brown 2x4 tiles with two studs, horizontally long, one in front of each of the pieces from the previous step and centered on the pieces from the previous step. There should be 8 open columns of studs between these two pieces.

Open group 4.

39. (Pages 30 & 31) Place two orange 2x4 tiles, horizontally long, one in front of each of the pieces from the previous step.

40. (Pages 30 & 31) Place two light brown 2x4 tiles with two studs, horizontally long, one in front of each of the pieces from the previous step.

41. (Pages 32 & 33) Place a light blue 2x2x2 box in front of the right column of the rightmost 1x6x7 arched door frame. It should be on the third and fourth columns from the right of the stables.

42. (Pages 32 & 33) Place a white 1x4x2 straight fence, vertically long, in front of the left column of the previous piece.

43. (Pages 34 & 35) Now we'll add a sink to wash up at! Place a gold 1x2 plate with a faucet on it, vertically long with the faucet at the right, on the back two studs of the previous piece.

44. (Pages 34 & 35) Place a transparent blue 1x2 plate with walls on three sides, with the open side at the left, on the base of the stable to the right of the previous piece.

45. (Pages 36 & 37) Place a pink 1x1 circular plate with a flower petal pattern on the seventh stud from the left on the front row of the base. Place another symmetrically on the right side. There should be four open studs between these two.

46. (Pages 38 & 39) Place a white 1x6x7 arched door frame with round columns, with the rounded side of the columns at the front, to the left of the left piece from the previous step. Place another symmetrically on the right side of the stable. These pieces should be in line with the arched door frames at the back of the stables.

47. (Pages 40 & 41) Place a white 1x8 brick, vertically long and even with the front, on the rightmost stud of the left piece from the previous step. It should extend all the way to the back of the stable and attach to the back arched door frame. Place another symmetrically on the right side of the stables.

Open group 5.

48. (Pages 42 & 43) Place a light brown 1x1 brick with a stud on one side, with the stud on the front, on the leftmost stud on the front left arched door frame.

49. (Pages 44 & 45) Place a gold 1x1 round brick on the leftmost stud on the back left arched door frame. Place another on the rightmost stud of both the front and back right arched door frames.

50. (Pages 46 & 47) Place a white 1x8 brick, horizontally long and centered horizontally, on the back wall of the stables.

51. (Pages 48 & 49) Place a purple 1x3 tile, vertically long, in front of the left stud of the previous piece. Place another symmetrically on the right side.

52. (Pages 48 & 49) Place a white 1x4 tile with a stud at each end, vertically long, in front of the left piece from the previous step. Place another symmetrically on the right side.

53. (Pages 50 & 51) Place a white 1x8 plate, vertically long, to the left of the left pieces from the previous two steps. Place another symmetrically on the right side.

54. (Pages 52 & 53) Place a purple 6x8 slope tile, with the bottom cut out on the right, on the left side of the stables. The cutout should attach to the left piece from the previous step. Place another symmetrically on the right side of the stables.

55. (Pages 54 & 55) Place a white 1x8 brick, horizontally long and centered horizontally, on the back wall of the stables.

56. (Pages 56 & 57) Place a purple 1x4 brick, horizontally long and centered horizontally, on the previous piece.

57. (Pages 56 & 57) Place a purple 1x2 slope brick, with the slope on the left, to the left of the previous piece. Place another, symmetrically on the right side.

Open group 6.

58. (Pages 58 & 59) Place a white 1x2 jumper plate, horizontally long and centered horizontally, on the back wall of the stables. A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.

59. (Pages 60 & 61) Place a gold trophy on the previous piece.

60. (Pages 62 & 63) Make a shower for the horses by attaching the hollow stud of a transparent blue 3x3 dish to the short bar of a light gray 5L L-shaped bar. Attach the dish so that the open side is on the opposite side from the long part of the bar.

61. (Pages 64 & 65) Attach the shower to the stables by pushing the long bar into the side stud at the top left corner on the front of the stables. Make sure the dish is at the bottom of the bar, opening down so it looks like a shower head.

62. (Pages 66 & 67) Now we can attach the viewing platform. Keeping the stables in the same orientation, put the viewing platform, centered horizontally with the curved fence at the front, on top of the stables, just in front of the wall with the trophy on top. Now the stables are complete! You can put tools, such as the rake, into the box at the back right of the stables! You can clean the horses with the shower. Or you can simply watch the action from the viewing platform!

Open bag 3.

Open group 7.

Sub-build 4: Adult horse

63. (Book 3, Pages 4 & 5) Place a brown horse in front of you, with the head at your left. There is a cutout in the middle of the horse with four studs on it.

64. (Pages 4 & 5) Place a brown 2x2 tile with a single stud on the four studs on the horse.
65. (Pages 6 & 7) Place a brown 2x2 half cylinder with 2 studs on top, with the studs in a horizontal row, on the previous piece.
66. (Pages 6 & 7) Place a purple bow on the horse's forehead, and on the base of its tail. There is a small pin on the bows, and there are very small holes on the horse's forehead just to the left of its ears, and another hole on the top of its tail. Place the pins of the bows into these holes.
67. (Pages 6 & 7) Place a purple ribbon on the mane to the right of the horse's ears. Once again, there is a small hole to attach the ribbon to.

Open group 8.

Sub-build 5: Accessory Rack

68. (Pages 8 & 9) Now we'll build the accessory rack that holds all the tools needed to take care of the horses. Place a purple 2x4 brick, horizontally long, in front of you.
69. (Pages 8 & 9) Place a white 1x4 brick, horizontally long, on the back row of the previous piece.
70. (Pages 10 & 11) Place a white 1x1 brick with a horizontal clip, with the clip at the front, in front of the leftmost stud of the previous piece. Place two more, in the same orientation, to the right of the first. There should be one low stud open at the front right of the build.
71. (Pages 12 & 13) Place a white 1x1 brick with a horizontal clip, with the clip at the right, to the right of the rightmost piece of the previous step.
72. (Pages 12 & 13) Place a purple 2x4 plate, horizontally long, on the top of the build.
73. (Pages 14 & 15) Place a long purple brush on the leftmost clip on the front of the rack. Place a purple sponge on the next clip to the right. Place a small circular brush on the next clip to the right. Place a purple spray bottle on the clip on the right side of the rack.
74. (Pages 16 & 17) Place a teal 1x1 round brick on the second stud from the left on the front row on the top of the rack.
75. (Pages 16 & 17) Place a white ice cream scoop on the previous piece.
76. (Pages 16 & 17) Place a clear bottle to the right of the previous two pieces.

Open group 9.

Sub-build 6: Saddle and accessories

77. (Pages 18 & 19) Set the accessory rack aside for now. Place a teal saddle onto a brown 2x2 circular brick to make a saddle on a stand.
78. (Pages 20 & 21) Place a light brown 3x4 box in front of you.
79. (Pages 22 & 23) Fill the box with all the remaining horse accessories. This includes six purple bows, a comb, a brush, and a ribbon.
80. (Pages 20 & 21) There is also a brown 1x1 circular brick with a swirly top. This is a bit of horse poop! Don't put that in with the accessories! You can put it wherever you want! Just make sure your minifigures clean it up! You should have a white 1x2 tile left over.

Open group 10.

Sub-build 7: Large Jump

81. (Pages 24 & 25) Place a light green 2x8 plate, horizontally long, in front of you.
82. (Pages 24 & 25) Place a teal 1x2x2 tall slope brick, with the slope at the left, on the left two studs on the back row of the previous piece. Place another symmetrically on the right side.
83. (Pages 26 & 27) Place a white 1x6 plate, horizontally long, on the two pieces from the previous step.
84. (Pages 26 & 27) Place the leftover white 1x2 tile, horizontally long and centered horizontally, on the previous piece.
85. (Pages 26 & 27) Place a purple 1x2 tile, horizontally long, to the left of the previous piece. Place another symmetrically on the right side.
86. (Pages 28 & 29) Place a green 1x1 plate with three leaves, with the leaves at the front right, on the front right stud on the base of the jump.
87. (Pages 28 & 29) Place a pink 1x1 circular plate with a flower pattern on the previous piece.

Sub-build 8: Small Jump

88. (Pages 30 & 31) Place a light green 2x8 plate, horizontally long, in front of you.
89. (Pages 30 & 31) Place an orange 1x2 slope brick, with the slope on the left, on the second and third studs from the left on the back row of the previous piece. Place another symmetrically on the right side.
90. (Pages 30 & 31) Place a pink 1x1 circular plate with a flower pattern to the right of the right piece from the previous step.
91. (Pages 32 & 33) Place a white 1x4 tile, horizontally long, on the two slope bricks.
92. (Pages 32 & 33) Place a green 1x1 plate with three leaves, with the leaves at the left, to the left of the left slope brick.
93. (Pages 32 & 33) Place a pink 1x1 circular plate with a flower pattern on the previous piece.

Congratulations! Now Horse Training is complete!

Thank you so much for building this set!
