30672 Steve and Baby Panda
Adapted by John Le and tested by Matthew Shifrin

LEGO® Minecraft® set 30672 features Steve, the iconic Minecraft character, alongside a playful Baby Panda. This brick-built set captures the essence of Minecraft's blocky world, providing a fun and interactive building experience for fans of the game.

Minecraft Characters – The set includes a minifigure of Steve, recognizable with his characteristic blue shirt and purple pants. Accompanying Steve is a Baby Panda figure, adding a touch of Minecraft's wildlife charm to the set.

Adventure in the Bamboo Jungle – Builders can immerse themselves in creating scenes where Steve and Baby Panda explore a bamboo jungle environment. The set includes a jungle-themed element such as a bamboo shoot enhancing the Minecraft-inspired play experience.

Play Features for Creativity – The set encourages imaginative storytelling as builders can recreate Minecraft adventures or invent new scenarios for Steve and Baby Panda. It's designed to inspire creativity and engagement with its interactive elements.

Minecraft Gift for Builders – With its manageable piece count and compact size, this set makes an ideal gift for Minecraft enthusiasts and young builders who enjoy constructing and playing with their favorite characters from the game.

The front of the bag shows Steve holding a cake with a cute panda sitting in front of a bamboo shoot!

The build is 35 pieces in total and is for ages 6+.

Bag 1 includes the pieces to make Steve, a cake, a panda, and a bamboo shoot.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we may be using:
- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at

the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (https://www.lego.com/en-us/service/buildinginstructions/30762) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 1 bag labeled 1, 1 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Steve, Cake, Baby Panda, and Bamboo
Group 1 - Steve minifigure parts and steps 1-2.
Group 2 - Steps 1-6.
Group 3 - Steps 1-4.
Group 4 - Steps 5-6.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Steve and Cake

Sub-build 1. Locate 1 purple pair of legs, 1 light blue torso, and 1 light tan cube-shaped head printed with black hair, red nose, brown eyes, and a smile on his face! Assemble your minifigure and put him aside!

1. Locate 1 light brown 2x2 plate and 1 white 2x2 tile with red squares on it.

2. Place the tile on top of the plate to make a cake! Then place the cake on his hands!

Group 2 - Panda Bear

1. Locate 1 white 2x3 plate and 1 black 1x2 plate with a clip. Horizontally place the 2x3 plate on the table. Then vertically place the 1x2 plate on the leftmost column so the clip faces the left.

2. Locate 4 black 1x2 plates. Make 2 stacks of 2 then vertically place them underneath the left and right columns of the 2x3 plate.

3. Locate 2 white 2x2 plates. Stack them together and place them to the right of the 1x2 plate with a clip.

4. Locate 1 black 1x2 plate. Vertically place it on top of the 1x2 plate with a clip.

5. Locate 1 black 2x2 tile and 1 white 1x2 tile. Vertically place the 1x2 tile on the right column. Then place the 2x2 tile to the left.

6. Locate 1 panda bear head and 1 black 1x1 rounded plate with a bar. Attach the bar to the left-facing clip. Then place the head on top of the rounded plate so the nose faces the left. Now you have a panda bear! Put it aside while we build bamboo for him to nibble on!

Group 3 - Bamboo

1. Locate 1 green 4x4 plate and 1 brown 2x2 brick. Place the plate on the table then place the brick in the back right corner.

2. Locate 1 light green 1x1 brick and 1 light green 2x2 tile with a stud, Place the tile on top of the previously placed brick. Then place 1 brick on top.

3. Locate 1 light green 1x1 plate with a double-sided stud and 1 light green 1x1 brick. Place the plate on top of the brick so the double-sided stud faces the front. Then place the brick on top.

4. Locate 1 dark tan 1x1 plate and 1 light green 1x1 brick. Place the plate on top of the previously placed brick. Then place the brick on top of the plate.

Group 4 - Bamboo

5. Locate 1 light green 1x1 brick with 4 side studs and 4 light green 1x1 plates. Place each of the plates upright on the side studs of the 1x1 brick. Then place the brick on top of the previously placed 1x1 brick.

6. Locate 4 light green 1x2 plates. Vertically place them upright on the side studs on each side so there is no overhang to the top.

Congratulations you finished the Steve and Baby Panda set.

There are no ads at the end of the instructions.

Thank you so much for building this set!
