

60404 Burger Truck

Adapted by John Le and tested by Matthew Shifrin

This LEGO® City Burger Truck (60404) toy playset for ages 5 and up is a treat for young imaginations. Topped with a giant burger, the mobile fast-food joint can be detached from the truck and comes with a detailed food prep area, condiments, and a service hatch that opens to display a flame-grilled burger sign. This set also includes a vendor minifigure and a customer minifigure with a cochlear implant.

Food truck toy – Serving fast food is child’s play with the LEGO City Burger Truck building set for ages 5 and up.

What’s in this toy vehicle building set? – Everything kids need to construct a burger truck a vendor minifigure and a customer minifigure with a cochlear implant, plus LEGO® condiment accessories.

Toy playset for imaginative kids – Kids fold up the service hatch to display a flame-grilled burger sign and remove the roof to serve customers from the food truck’s prep area.

Dimensions – With its sign raised, this 194-piece toy burger truck measures over 4 in. (10 cm) high, 5 in. (12 cm) long and 2.5 in. (7 cm) wide.

The front of the box shows the burger truck in the back. It is a big burger with bread, meat, lettuce, and tomato that is attached to a black truck. In front of the truck, a guy ordered a burger and is now walking away. But he forgot ketchup so the worker is chasing him down holding a ketchup bottle!

The back of the box shows the truck and burger separately. The burger can be taken off the truck and placed on the side of the road like a restaurant!

The top of the box shows the two minifigures together. The guy is holding his burger with everything on it and the worker is putting ketchup into his burger!

The build is 194 pieces in total and is for ages 5+.

Bag 1 includes the pieces to make the truck and the chef minifigure. Bag 2 includes the pieces to make the burger hut and another minifigure.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we may be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.

- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/60404>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3 and put them in one container.

This LEGO set comes with 2 bags labeled 1 and 2, 2 sets of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Chef Minifigure and Truck

- Group 1 - Page 5
- Group 2 - Steps 1 - 14
- Group 3 - Steps 15 - 16
- Group 4 - Steps 17 - 26
- Group 5 - Steps 27 - 40
- Group 6 - Steps 41 - 51
- Group 7 - Step 52

Bag 2 - Minifigure and Burger Hut

- Group 8 - Page 3 and Steps 1-5

Group 9 - Steps 1 - 12

Group 10 - Steps 13 - 17

Group 11 - Steps 18 - 25

Group 12 - Steps 26 - 29

Group 13 - Steps 30 - 37

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Chef Minifigure

Sub-build 1. Locate 1 black pair of legs, 1 torso printed with a white sleeveless top with a black apron showing a burger on fire, 1 yellow head, 1 red hat with hair, and 1 silver fork. Assemble your minifigure then put the fork in her hand!

Group 2 - Truck

1. Locate 1 dark grey 4x12 plate and place it horizontally in front of you.
2. Locate 1 blue 2x3 plate. Horizontally place it in the middle 2 rows starting at the right of the 4x12 plate so there is no overhang.
3. Locate 1 tan 2x6 tile. Horizontally place it to the left of the previous piece.
4. Locate 1 brown 2x4 plate. Horizontally place it to the left of the 2x6 tile so it overhangs by 1 column to the left.
5. Locate 2 yellow 1x10 plates. Horizontally place them in the front and back rows on the 4x12 plate starting at the right.
6. Locate 2 light grey 2x2 plates with 2 small short pins. Place these to the left of the yellow 1x10 plates you just placed so the pins face front and back and there is no overhang.
7. Locate 2 nougat 1x4 plates. Vertically place them to the left and right of the 2x2 plates you just placed.
8. Locate 1 red 2x4 plate with raised sides. Horizontally place it on the middle 2 rows on the left end so there is no overhang.
9. Locate 1 light green 2x2 plate. Place it in between the raised sides of the red 2x4 plate you just placed.
10. Locate 2 tall black 2x4 plates with arches. Horizontally place them on the front and back rows on the left end of the build so the arches overhang in the front and back.
11. Locate 2 white 2x2-2x3 stair plates with a short side and a tall side. Orient them so they are horizontal and the 2x3 side is on the left. Now horizontally place them 1 behind the other, on top of the yellow 1x8 plates and 2x6 tile so the raised side sits on the 3rd and 4th column from the left.

12. Locate 1 brown 4x4 plate with a 2x2 gap. Place this to the right of the two previous pieces.
13. Locate 1 black 1x4 plate with 2 small short pins and 1 nougat 1x4 plate. Vertically place the nougat 1x4 plate on the rightmost column so it doesn't overhang. Then to the left of this plate, vertically place your black 1x4 plate so there is no overhang.
14. Locate 2 yellow 2x8 plates. Horizontally place them 1 behind the other so they sit on the right end of the build and there is no overhang.

Group 3 - Truck

15. Locate 1 light grey 2x4 plate. Horizontally place it on the middle 2 rows on top of the 2 yellow 2x8 plates on the left side. This plate should be touching the white stair plates.
16. Locate 2 tan 1x2 plates with 4 side studs. Horizontally place them in front of and behind the light grey 2x4 plate so they sit in front of the left 2 columns of this plate. Make sure the side studs face front and back.

Group 4 - Truck

17. Locate 2 black 1x2 plates with 4 side studs. Horizontally place them in the front and back row to the right of the 2 tan 1x2 plates with 4 side studs from the previous step.
18. Locate 1 nougat 1x4 plate and 1 brown 2x4 plate. Vertically place the 1x4 plate to the right of the 2 black 1x2 plates with side studs and the light grey 2x4 plate. Then to the right of this plate, vertically place your 2x4 plate.
19. Locate 2 black 1x2 plates with 4 side studs. Vertically place these on the rightmost column so that the side studs are facing right.
20. Put your build aside while we build the backlights and bumper for the truck. Locate 1 black 2x6 plate and 2 transparent red 1x1 round tiles. Horizontally place your 2x6 plate in front of you. Then place the 1x1 tiles in the back left and back right corners of this plate.
21. Locate 1 dark grey 1x4 tile with a short fence. Horizontally place it in the back row in between the 2 tiles so that the fence is facing you.
22. Locate 1 nougat 1x4 plate. Horizontally place it in the front row so it is centered.
23. Locate 1 light grey 1x2 tile. Horizontally place it in the front row so it is also centered.
24. Locate 2 light grey 1x2 sloped curved tiles. Horizontally place them to the left and right of the 1x2 tile so there is no overhang.
25. Now bring back your build and orient it so it is vertical and the side studs are facing you. Now horizontally attach your sub-build to the front-facing studs so it is centered and the transparent red 1x1 round tiles are above the 1x2 curved tiles you just placed.

26.1. Locate 2 nougat 2x6 plates and 2 black 2x6 tiles with a print of huge red and orange flames.

26.2. Attach each of the tiles to each of the plates so there is no overhang.

26.3. Rotate your build 90 degrees counterclockwise so the sub-build you just placed is now facing right. Horizontally place 1 of your 2x6 builds to the front-facing studs so it is centered on the studs. This should be touching the arch that is on the left. Repeat this step for the back-facing set of studs. Now ask a helper to make sure the flames are on correctly!

Group 5 - Truck

27. Locate 2 black 3x3 L-shaped plates. There is a set of 3x4 studs on top of the build that is higher than the rest of the studs and is in between the 2 arches on the left. Place the 2 L-shaped plates to the right of these studs so the L-shaped plates wrap around the studs in the front and back. The front piece's corner should be at the front right, and the back piece's corner should be at the back right.

28. Locate 2 dark grey 4x4 tiles with 4 studs on top. Place 1 to the right of the L-shaped plates you just placed so it is centered and the studs are on the left. To the right of this plate, place your other 4x4 tile so it is centered and the studs are on the right.

29. Locate 1 light grey 1x2 grill tile and 1 tan 1x4 curved tile. Vertically place your grill tile on the leftmost column so it is centered. Then to the right of this tile, vertically place your 1x4 tile so it is also centered.

30. Locate 2 black 1x2 plates with 4 side studs. Vertically place these on the leftmost column so they sit in front of and behind the grill tile you just placed. The side studs should be facing left.

31. Put your build aside for now while we build the headlights and grill for the truck! Locate 1 black 2x6 plate and horizontally place it in front of you.

32. Locate 2 light grey 1x2 grill tiles and 2 transparent 1x1 round plates. Horizontally place your 2 grill tiles in the back row so together they are centered on the plate. Then place your studs in the back left and back right corners of the plate.

33. Locate 1 nougat 1x4 plate. Horizontally place it in the front row so it is centered.

34. Locate 1 light grey 1x2 tile. Horizontally place it in the front row so it is also centered.

35. Locate 2 light grey 1x2 sloped curved tiles. Horizontally place them to the left and right of the 1x2 tile so there is no overhang.

36. Now bring back your build and orient it so it is vertical and the side studs are facing you. Now horizontally attach your sub-build to the front-facing studs so it is centered and the transparent 1x1 round plates are above the 1x2 sloped curved tiles you just placed.

37. Locate 2 black 2x6 plates. Rotate your build 90 degrees clockwise so the sub-build you just placed is facing the left. Vertically place these plates, 1 to the right of the other, to the right of the tan 1x4 curved tile you placed in the second column.

38. Locate 1 light grey 2x4 plate. Vertically place it on the leftmost column so it is centered and overhangs on the left.

39. Locate 2 black 1x3 rounded plates. Horizontally place these in front of and behind the 2x4 plate you just placed and the tan 1x4 curved tile. Their right studs should align with the 1x4 curved tile.

40. Locate 1 nougat 1x4 plate and 2 transparent 1x1 round plates. Vertically place the 1x4 plate in the right column of the black 2x6 plate that you placed on the right in step 37 so it is centered. There should be a column of 4 studs below and to the right of it. Then place the transparent studs in front of and behind the 1x4 plate you just placed.

Group 6 - Truck

41. Locate 1 tall black 1x6 curved panel. Vertically place it on top of the nougat plate and 2 round plates from the previous step so the wall is facing right.

42. Locate 2 black 1x3 doors that are 1 brick tall. There are 2 of the same doors but different orientations. Horizontally place them in the front and back rows to the left of the panel you just placed. Make sure the stud part is on the left and that the doors open outwards of the build.

43. Locate 1 yellow 1x2 steering wheel. Vertically place it in between the stud part of the black 1x3 doors you just placed so it is centered and the steering wheel is facing right.

44. Locate 1 black 1x6 brick. Vertically place it to the left of the steering wheel so it is centered.

45. Locate 1 tan 1x4 curved tile. Vertically place it to the left of the brick you just placed so it is also centered.

46. Locate 2 black 1x2 curved bricks attached to a plate. Horizontally place them 1 behind the other, to the left of the tan 1x4 curved tile you just placed so that they are centered and the curves are going down to the left. The plate part should be on top of the tan 1x4 curved tile.

47. Locate 2 black 2x2 L-shaped curved bricks connected to a 1x1 plate. Place them in front of and behind the 2 black 1x2 curved bricks you previously placed. The plate part of these bricks should sit on top of the tan 1x4 curved tile.

48. Locate 2 light grey 1x2 plates with a hinge. These are the truck's mirrors. Horizontally place them in the front and back rows to the right of the L-shaped curved bricks you just placed so the hinges are facing outwards of the build.

49. Locate 2 black 2x2 plates. Place them in between the 2 hinge plates you just placed so they sit on the leftmost stud side of the build. They should be on top of the plates connected to the curved bricks you previously placed.

50. Locate 1 transparent 2x6 windshield. Vertically place it on top of the 2 plates with a hinge you placed in step 48 so that the windshield is facing left.

51. Locate 1 black 4x6 curved tile with 4 studs on top. Vertically place it on top of the windshield and black 1x6 curved panel. This is the roof of the truck!

Group 7 - Truck

52. Locate 4 black tires and 4 light grey wheels. Insert each wheel into each of the tires. Now place them in the pins that are located in the front-facing left and right sides and back-facing left and right sides. Make sure that the side of the wheel that you can push your finger into is sticking outwards of the build.

Building Instructions (Bag 2, Book 2):

Group 8 - Minifigure and Burger

Sub-build 2. Locate 1 dark blue pair of legs, 1 torso printed with a light blue jean jacket over a white pink top with a vinyl record, 1 yellow male head with a big smile on his face, and 1 brown hair. Assemble your minifigure and set him aside while we make a burger for him!

1. Locate 1 nougat 2x2 round plate.
2. Locate 2 red 1x1 studs and 2 green 1x1 flower studs. Place the 2 red 1x1 studs in the front left and back right corners of the 2x2 plate. Then place the flower studs in the front right and back left corners.
3. Locate 1 brown 2x2 round plate. Place this on all of the studs from the previous step.
4. Locate 1 yellow 2x2 tile with a stud. Place it on top of the brown 2x2 round plate.
5. Locate 1 nougat 2x2 tile with a print of sesame seeds on it. Place it on top of the yellow 2x2 tile so it is centered. Now put this burger in your minifigure's hand!

Group 9 - Burger Hut

1. Locate 1 nougat 8x8 plate with curved corners. Place it in front of you so the studs are in rows and columns.
2. Locate 1 nougat 2x4 brick. Vertically place it in the leftmost 2 columns so it is centered.
3. Locate 2 nougat 2x2 curved bricks. Place them in front of and behind the 2x4 brick you just placed so it follows the curve of the 8x8 plate.
4. Locate 2 nougat 2x4 bricks. Horizontally place them to the right of each of the curved bricks you just placed so they sit on the front 2 and back 2 rows.
5. Locate 2 nougat 2x2 curved bricks. Place these to the right of the 2 nougat 2x4 bricks you just placed so they follow the curve of the 8x8 plate.
6. Locate 8 green 1x1 flower studs. Place 2 on each of the 4 nougat 2x2 curved bricks.

7. Locate 1 black 1x2 brick. Horizontally place it in front of the curved brick that is in the back right corner of the build.

8. Locate 1 yellow 1x6 plate and 1 light grey 1x1 tile with a print of a card reader and a number pad to put in your pin! Horizontally place the 1x6 plate in the 2nd row from the front so it sits in between 2 green 1x1 flower studs and overhangs. Then place your 1x1 tile in the front row so it sits to the right of the flower stud that is on the front left curved brick. Ask a helper to make sure it is oriented correctly!

9. Locate 1 light grey 2x6 plate. Horizontally place it in the back so it sits in between 2 flower studs and overhangs in the front.

10. Locate 1 brown 2x2 round plate and 1 light grey circular tile of a compass. This is actually the knob to turn the grill off and on! Place your round plate on top of the light grey 2x6 plate you previously placed so it is centered. Then place your 1x1 tile on top of the 2x6 plate in the front right corner. Ask a helper to make sure the print is oriented correctly!

11. Locate 1 red 1x1 round brick and 1 white 1x1 round tile with a bar sticking out of it. Place the white 1x1 round tile on top of the red round brick to make a ketchup bottle. Now place your ketchup bottle in the front row to the right of the 1x1 card reader tile so it is centered on the 3-stud area.

12. Locate 4 green 2x2 triangle plates with cut-off corners. Place these in each of the corners of the build so the angled side is aligned with the corners of the build and the long sides face outward.

Group 10 - Burger Hut

13. Locate 4 red 2x2 curved bricks. Place them on top of the green angled corner bricks so the curves of the red bricks align with the corners of the build.

14. Locate 1 tall black 1x1 brick. Place this to the right of the light grey 1x1 compass tile that you placed in the front right corner of the 2x6 plate.

15. Locate 1 black 1x3 door. Vertically place it in front of the tall black brick you placed so the stud part of the door is in the front and so the door opens outwards.

16. Locate 2 black 1x4 panels. Horizontally place 1 in the back row in between the 2 red 2x2 curved bricks so the wall is facing the back. Then vertically place 1 in the leftmost column in between the 2 red 2x2 curved bricks so the wall is facing the left.

17. Locate 4 purple 2x2 L-shaped curved plates. Place them in each of the corners of the build on top of the red 2x2 curved bricks so the corners align with the corners of the build.

Group 11 - Burger Hut

18. Locate 4 brown 2x2 curved bricks. Place them in each of the corners of the build on top of the purple plates you just placed so the corners align with the corners of the build.

19. Locate 2 brown 1x2 plates. Horizontally place 1 in the back row on top of the 1x4 panel so it is centered. Then vertically place 1 on the leftmost column on top of the 1x4 panel so it is also centered.

20. Locate 4 brown 3x3 L-shaped curved plates. Place them in each of the corners of the build so the corners of these plates are aligned with the corners of the build.

21. Locate 3 yellow 1x6 plates. Horizontally place 1 in the back row so it is centered on the build. Then vertically place 2 on the leftmost and rightmost columns so they are also centered on the build.

22. Locate 2 yellow 1x2 plates with bars. Horizontally place them in the front row so they sit on top of the brown 3x3 L-shaped curved plates, bars to the front.

23. Locate 2 nougat 1x6 tiles. Horizontally place them in the front and back rows so they are centered on the build.

24. Locate 2 yellow 1x4 tiles with 2 studs. Vertically place them on the leftmost and rightmost columns so they are centered.

25. Locate 4 yellow 1x2 sloped curved tiles. Vertically place 2 in the front left and front right corners so they curve to the front and overhang. Then vertically place 2 in the back left and back right corners so they curve to the back and overhang. These sloped curved tiles should sit in front of and behind the 1x4 tiles with 2 studs.

Group 12 - Burger Hut

26. Put your build aside for now while we build the burger bun roof. Locate 1 nougat 8x8 plate with curved corners. Place it in front of you so the studs go in rows and columns.

27. Locate 1 tall nougat 3x3 curved corner brick. Place this in the back left corner of the plate so the curve aligns with the curve of the plate.

28. Locate 2 tall nougat 1x5 curved bricks. Vertically place these to the right of the curved corner brick so the curve goes down to the back.

29. Locate 1 white 2x2 brick. Place this in front of the 2 nougat 1x5 curved bricks.

Group 13 - Burger Hut

30. Locate 1 nougat 2x2 brick and 1 tall nougat 3x3 curved corner brick. Place the 2x2 brick on top of the white 2x2 brick. Then place the tall nougat 3x3 curved corner brick in the back right corner of the plate so the curve aligns with the curve of the plate.

31. Locate 4 nougat 1x5 curved bricks. Horizontally place 2 in front of the curved corner brick that is on the left so the curve goes down to the left. Then horizontally place 2 in front of the curved corner brick that is on the right so the curve goes down to the right.

32. Locate 1 tall nougat 3x3 curved corner brick. Place it in the front left corner of the plate so the curve aligns with the curve of the plate.

33. Locate 2 tall nougat 1x5 curved bricks. Vertically place these to the right of the curved corner brick that you just placed so the curve goes down to the front.

34. Locate 1 tall nougat 3x3 curved corner brick. Place this in the front right corner of the plate so the curve aligns with the curve of the plate.

35. Locate 6 tan 1x1 round tiles. Place 1 on the back left corner stud and 1 on the front right corner stud. Then find the front left corner stud, and place one behind it, and one to the right of it. Then find the back right corner stud and place one to the left and one in front of it.

36. Bring back your build so it is oriented the same way! The ketchup bottle should be in the front. Place your burger bun roof on top of your main build so it is centered and not overhanging!

37. Locate 1 black 4x4 plate with 2 clips and 1 black 4x4 tile with a print of the word burgers behind a black burger on fire. Place the 4x4 tile on top of the 4x4 plate so that the word burgers is oriented correctly when the clips are in the front. Ask for help to make sure it is oriented correctly! Now attach this to the 2 front-facing bars that are right below the burger bun roof and flip it upwards so the 4x4 tile is facing you!

Congratulations you finished the Burger Truck!

At the end of the instruction booklets are advertisements for the following 11 LEGO CITY Theme kits:

60399 - Green Race Car

60400 - Go-Karts and Race Drivers

60401 - Construction Steamroller

60402 - Monster Truck

60404 - Burger Truck

60406 - Race Car and Car Carrier Truck

60413 - Fire Rescue Plane

60414 - Fire Station with Fire Truck

60415 - Muscle Car Chase

60418 - Crime Lab Truck

60419 - Police Prison Island

Thank you so much for building this set!
