

76415 The Battle of Hogwarts™

Set adapted by Alex Charbonneau and tested by Natalie Charbonneau.

Reenact The Battle of Hogwarts™ from Harry Potter and the Deathly Hallows™ – Part 2 with this LEGO® Harry Potter™ playset (76415) for ages 9 and up. It features a detailed LEGO brick-built section of the Hogwarts Castle building that can be broken apart during battles between Voldemort™ and Harry Potter in the courtyard. The castle modules can also be rearranged to make the bridge from another memorable location, and this modular set connects with others in the series to create an entire Hogwarts Castle.

- Spellbinding action: Bring magical stories to life with the 6 LEGO minifigures, plus a Nagini figure. The Harry Potter and Voldemort minifigures each have a wand with attachable LEGO elements to create a 'spell-casting' effect, and Neville Longbottom™ has the Sword of Gryffindor™.

- The Battle of Hogwarts™ toy playset (76415): Build the Hogwarts Castle courtyard and reenact the Voldemort™ vs. Harry Potter™ duel from the climax of Harry Potter and the Deathly Hallows™ – Part 2.

- 6 LEGO® minifigures: Harry Potter™ and Voldemort™, each with a wand and spell-casting element, Neville Longbottom™ with the Sword of Gryffindor™, Scabior, Molly Weasley™ and Bellatrix Lestrange.

- Rebuilds into a bridge: The castle modules can be rearranged to make a bridge and recreate another iconic location. The set also includes a Nagini figure for creative play.

- Fun gift idea: Give this 730-piece buildable LEGO® model as a special treat, birthday present or holiday gift to kids aged 9 and up who are into Harry Potter™ and the Wizarding World.

- Build, play and display: This Hogwarts™ Castle model measures over 11 in. (28 cm) high, 17.5 in. (44 cm) wide and 4.5 in. (11 cm) deep in its basic formation.

- Modular building toy: This LEGO® Harry Potter™ set is one of a series of modular sets that combine to create your own Hogwarts™ Castle.

- Part of an extensive assortment: LEGO® Harry Potter™ playsets put favorite characters, familiar locations and magical adventures into the hands of all young wizards, witches and Muggles™.

The box is a deep blue. On the bottom right corner is an image of Harry, Hermione, and Ron from the film. A swish of magic curves around the border of the box. Inside of the curve is an image of Hogwarts. The walls of the castle are tan, the window frames are dark brown, and the roof and spires are a medium green. There is a wall of the castle, with a tower in the middle. Wizards wielding wands stand on the tops of the walls. In the courtyard, Neville Longbottom holds the Sword of Gryffindor as he fights the snake Nagini. Harry Potter and Voldemort fire magical spells at each other! The bottom left corner of the box shows the included minifigures: Harry Potter, Neville Longbottom, Molly Weasley, Scabior, Voldemort, and Bellatrix Lestrange.

The top of the box shows a life sized image of the Scabior minifigure. It also shows all six minifigures standing in a row, with the three evil wizards and the snake Nagini on the left, and the good wizards on the right.

The back of the box has one large image of the Battle of Hogwarts, and three insets. The main image is the same view as the front of the box, but it shows that many parts can be removed or knocked down to represent damage to the castle! One inset shows the transparent red and green magical blast pieces which can be used to simulate wizards in battle! Another inset shows the main components of the model. The final inset shows how the model can be rearranged to show the bridge into the castle!

The build is 730 pieces, and 286 building steps.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner who may want to follow along with the printed visual instructions that come with each kit, PDF versions are always online at LEGO.com: (<https://www.lego.com/en-us/service/buildinginstructions/76415>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1, 2 and 3, and put them in one container.

This LEGO set comes with five bags labeled 1-5, and an instruction booklet. Sort the pieces into groups as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split across two groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 (7 groups of bricks)

Minifigure group 1 contains the pieces to build the Harry Potter minifigure.

Sub-build 1: Tower First Floor

Group 1 contains the pieces for steps 1-8.

Group 2 contains the pieces for steps 9-17.

Group 3 contains the pieces for steps 18-25.
Group 4 contains the pieces for steps 26-27.

Sub-build 2: Tower Second Floor

Group 5 contains the pieces for steps 28-38. Place stickers 1 and 2 for step 38.
Group 6 contains the pieces for steps 41-52.

Bag 2 (8 groups of bricks)

Minifigure group 2 contains the pieces to build the Voldemort Minifigure.

Sub-build 3: Tower Right Side

Group 7 contains the pieces for steps 53-62.
Group 8 contains the pieces for steps 63-70.
Group 9 contains the pieces for steps 71-76. To help the builder differentiate colors, stack the two light brown 1x1 bricks. Leave the tan 1x1 brick loose.
Group 10 contains the pieces for steps 77-83.
Group 11 contains the pieces for steps 84-91.
Group 12 contains the pieces for steps 92-100.
Group 13 contains the pieces for steps 101-105.

Bag 3 (9 groups of bricks)

Minifigure group 3 contains the pieces to build the Molly Weasley Minifigure.

Minifigure group 4 contains the pieces to build the Bellatrix Lestrange Minifigure.

Sub-build 4: First Wall

Group 14 contains the pieces for steps 106-112.
Group 15 contains the pieces for steps 113-118.
Group 16 contains the pieces for steps 119-125. Place sticker 4 for step 123.
Group 17 contains the pieces for steps 126-134.
Group 18 contains the pieces for steps 135-141.
Group 19 contains the pieces for steps 142-148.
Group 20 contains the pieces for steps 149-157.

Bag 4 (10 groups of bricks)

Minifigure group 5 contains the pieces to build the Neville Longbottom Minifigure.

Minifigure group 4 contains the pieces to build the Bellatrix Lestrange Minifigure.

Sub-build 5: Tower Left Side

Group 21 contains the pieces for steps 158-159.
Group 22 contains the pieces for steps 160-168. To help the builder differentiate colors, stack the olive green 1x1 brick from step 160 on top of the dark gray 1x1 brick also from step 165.
Group 23 contains the pieces for steps 169-173. To help the builder differentiate colors, stack the olive green 1x1 brick from step 172 on top of the dark gray 1x1 brick also from step 172.
Group 24 contains the pieces for steps 174-185. To help the builder differentiate colors, stack the two tan 2x2 bricks. Leave the light brown 2x2 brick loose. Place sticker 5 for step 174.
Group 25 contains the pieces for steps 186-193. To help the builder differentiate colors, stack the four light brown 1x1 bricks. Leave the dark gray 1x1 brick loose.
Group 26 contains the pieces for steps 194-203. To help the builder differentiate colors, stack the two light brown 1x1 bricks. Leave the tan 1x1 bricks loose.
Group 27 contains the pieces for steps 204-211.
Group 28 contains the pieces for steps 212-214.

Bag 5 (11 groups of bricks)

Minifigure group 6 contains the pieces to build the Scabior Minifigure.

Sub-build 6: Second Wall

Group 29 contains the pieces for steps 215-221.

Group 30 contains the pieces for steps 222-227.

Group 31 contains the pieces for steps 228-234. Place sticker 4 for step 123.

Group 32 contains the pieces for steps 235-243.

Group 33 contains the pieces for steps 244-249.

Group 34 contains the pieces for steps 250-256.

Group 35 contains the pieces for steps 257-265.

Sub-build 7: Tower Roof

Group 36 contains the pieces for steps 266-274.

Group 37 contains the pieces for steps 275-279.

Group 38 contains the pieces for steps 280-286. Place sticker 3 for step 284.

Building Instructions:

Open bag 1.

Open minifigure group 1: Harry Potter

Assemble the Harry Potter minifigure by putting the torso on the legs, the head on the torso, and the hair on the head. Place a black wand in Harry's hand. Place a transparent red lightning bolt in the wide end of the wand. Place a transparent red magical explosion on the end of the lightning bolt opposite the wand.

Sub-build 1: Tower First Floor

Open group 1.

1.1. We'll start by building the bottom part of the central tower. Place a dark tan 4x8 plate horizontally in front of you.

1.2. Place a light gray 1x2 brick with two holes, horizontally, on the right two studs on the back row of the previous piece.

2. Place a tan 2x2 tile with two studs, with the studs on the left, in front of the previous piece. Place another in front of the first.

3. Place a dark tan 4x8 plate, horizontally, in front of the first 4x8 plate. This will attach to the anti-stud of the previous piece. These two plates are the floor of the central tower.

4.1. Place a tan 2x2 tile with two studs, with the studs on the left, in front of the last tile placed.

4.2. Place a light gray 1x2 brick with two holes, horizontally, on the right two studs on the front row of the previous piece.

5. Push a light gray 2L pin, from the front, into the right hole of the previous piece. Repeat symmetrically on the back side of the tower.

6.1. Place a dark tan 1x6 plate, vertically, on the second column from the right. This is on the studs of the three 2x2 tiles with two studs.

6.2. Place a tan 1x4 tile, vertically and centered vertically, on the previous piece.

6.3. Place a tan 1x1 plate in front of the previous piece. Repeat symmetrically on the back side.

7.1. Place a light brown 1x1 brick to the left of the pieces from the previous step.

7.2. Place the front row of a 2x2 tile with two studs, with the studs on the right, to the left of the front piece from the previous step. Place two more in a column behind the first.

8.1. Place a dark tan 1x6 plate, vertically, on the pieces from the previous step.

8.2. Place a tan 1x6 tile, vertically, on the previous piece.

Open group 2.

9. Place a dark tan 2x2 corner plate, with the corner at the front left so it's oriented like a braille letter H, on the front two studs on the right two columns. The front row of this piece should be on a light gray 1x2 brick with two holes. Repeat symmetrically on the back side.

10. Stack two tan 1x2 bricks with a log pattern, horizontally, on the front row of the front piece from the previous step. Repeat these two pieces symmetrically on the back side.

11. Stack two tan 1x1 round bricks behind the left stud of the front pair of pieces from the previous step. Place another on the first. Repeat these two pieces symmetrically on the back side.

12. Place a dark tan 2x2 corner plate, with the corner at the front left so it's oriented like a braille letter H, on the front two studs on the right two columns. The front row of this piece should be on a tan 1x2 brick with a log pattern. Repeat symmetrically on the back side.

13.1. Place a tan 1x2 brick with a log pattern, horizontally, on the front row of the front piece from the previous step. Repeat symmetrically on the back side.

13.2. Place a tan 1x1 round brick behind the left stud of the front piece from the previous step. Repeat symmetrically on the back side.

14. Place a dark tan 2x2 corner plate, with the corner at the front left so it's oriented like a braille letter H, on the front two studs on the right two columns. The front row of this piece should be on a tan 1x2 brick with a log pattern. Repeat symmetrically on the back side.

15.1. Place a light gray 1x1 brick with a hole, with the holes facing the front and back, on the front left stud of the front piece from the previous step. Repeat symmetrically on the back side.

15.2. Place a tan 1x4x3 half arch, with the arch at the back, to the right of the front piece from the previous step. Repeat symmetrically on the back side.

16.1. Place a tan 1x6x2 arch brick, vertically and centered vertically, to the left of the previous two pieces.

16.2. Find two tan 1x1 scroll bricks. Scroll bricks are a 1x1 brick with a bar sticking out even with the top on one side, which has a stud on top and a circular decoration on the sides. Place one scroll brick, with the scroll at the left, in front of the previous piece. Repeat symmetrically on the back side.

17. Place a sand green 1x1 cone to the right of each of the pieces from the previous step.

Open group 3.

18.1. Now we'll make the doors to the tower. Assemble the double door by attaching two brown 1x3x6 doors to a dark brown 1x6x6 door frame. Find the lip in the door frame and rotate the frame so that it is at the front. Then push a door, with the handle at the right, into the left side of the frame. Repeat symmetrically on the right side. The doors should open towards you.

18.2. Place a gold 1x1 round plate on the front handle of each door.

18.3. Place the door frame, vertically with the door handles at the left, centered vertically on the third column from the right. This is to the left of the arch brick from step 16.1.

19.1. Place the left stud of a tan 2x2 corner brick, with the corner at the back right so it's oriented like a braille letter D, on the front stud of the door frame. The front right stud of this piece should be even with the front of the build. Repeat symmetrically on the back side.

19.2. Place the front row of a 2x2 tile with two studs, with the studs on the right, behind the front piece from the previous step. Place another behind the first.

20. Place a light brown 1x4 plate, vertically and centered vertically, on the pieces from the previous step.

21. Place the left column of a tan 2x4 plate, vertically, on the previous piece. The right side of this piece should be even with the right side of the build.

22.1. Place a light brown 1x1 brick on the front left corner of the floor. Repeat symmetrically on the back side.

22.2. Place a light gray 1x1 brick with a hole, with the holes facing the left and right, behind the front piece from the previous step. Repeat symmetrically on the back side.

23.1. Place a tan 1x2 curved slope brick, with the slope at the back, on the front two studs on the leftmost column of the tower. This is on two 1x1 bricks (one with a hole) on the front left corner of the floor. Repeat symmetrically on the back side.

23.2. Place a light brown 1x1 brick on the front piece from the previous step.

23.3. Place a tan 1x1x3 tall brick on the previous piece.

23.4. Place a tan 1x1x3 tall brick on the back 1x2 curved slope brick from step 23.1.

23.5. Place a light brown 1x1 brick on the previous piece.

23.6. Place a tan 1x1 scroll brick, with the scroll at the back, on the front tall brick on the left column of the tower. Repeat symmetrically on the back side.

24. Place the left stud of a tan 1x6 arch brick, horizontally, on the front piece from the previous step. The right side should attach to another scroll brick. Repeat symmetrically on the back side.

25. Place a tan 1x6 arch brick, vertically, between the left two studs of the pieces from the previous step.

Open group 4.

26.1. Place a tan 1x4 tile, vertically and centered vertically, on the rightmost column on top of the tower.

26.2. Place a dark tan 1x2 tile, vertically and centered vertically, to the left of the previous piece.

26.3. Place the left column of a dark tan 2x2 corner tile, with the corner at the front left so it's oriented like a braille letter H, in front of the previous piece. Repeat symmetrically on the back side.

27.1. Place the back stud of a dark tan 2x2 corner tile, with the corner at the front left so it's oriented like a braille letter H, to the left of the front row of the front piece from the previous step. The front side of this piece should be even with the front of the tower. Repeat symmetrically on the back side.

27.2. Place a dark tan 1x4 tile with two studs, horizontally, to the left of the front row of the front piece of the previous step. Repeat symmetrically on the back side.

27.3. Place a dark tan 1x8 tile, vertically, to the left of the pieces from the previous step. This completes the bottom of the central tower. Set it aside for now.

Open group 5.

Sub-build 2: Tower Second Floor

28. Now we'll build the second floor of the tower. Place a dark tan 4x8 plate horizontally in front of you. Place another in front of the first. They aren't connected yet. These pieces will form the floor.

29. Place a tan 1x2 brick with a hole, vertically and centered vertically, on the rightmost column of the floor. It should connect the two pieces from the previous step.

30.1. Place a tan 1x2 plate, vertically, to the left of the previous piece.

30.2. Place the left stud of a tan 1x2 plate, horizontally, in front of the previous piece. Repeat symmetrically on the back side.

31.1. Place the front row of a dark tan 2x2 corner tile, with the corner at the front left so it's oriented like a braille letter H, on the front piece from the previous step. Repeat symmetrically on the back side.

31.2. Place a tan 1x2 double slope tile, vertically and centered vertically, on the rightmost column of the second floor. This piece attaches to the 1x2 brick with a hole from step 29.

32.1. Place a light gray 1x2 brick with two holes, horizontally, on the right two studs on the front row of the floor. Repeat symmetrically on the back side.

32.2. Place a light brown 1x1 brick to the left of each of the pieces from the previous step.

33.1. Place a tan 1x1 round brick on each of the pieces from the previous step.

33.2. Place a tan 1x2 curved slope brick, with the slope on the right, to the right of each of the pieces from the previous step.

34. Push a light gray 2L pin, from the front, into the right hole of the 1x2 brick with two holes on the front row of the second floor. Repeat symmetrically on the back side.

35.1. Place the right stud of a tan 1x2 log brick, horizontally, on each of the curved slope bricks from step 33.2. The left stud of these pieces should be on a 1x1 round brick.

35.2. Place a tan 1x2 log brick, horizontally, on each of the pieces from the previous step.

36.1. Place a light brown 1x1 brick on the left stud of the front piece from the previous step.

36.2. Place a tan 1x1 scroll brick, with the scroll at the right, to the right of the previous piece. Repeat on the back side.

36.3. Place a tan 1x1 round brick to the left of the back piece from the previous step.

37.1. Place a light brown 1x1 brick on the previous piece.

37.2. Place a light gray 1x1 brick with a hole, with the hole facing the front and back, to the right of the previous piece. Repeat on the front side.

37.3. Place a tan 1x1 round brick to the left of the previous piece.

38.1. Now we'll make a large clock piece. Place a tan 1x6x7 arched door frame with round columns, horizontally with the rounded side of the column at the front, in front of you. Push a dark tan 1x6x7 arched window glass, from the front, into the door frame. This piece has stickers on both sides. One side shows the clock as normal, and the other shows it destroyed!

38.2. Place the door frame, vertically with the rounded side of the columns at the right, centered vertically on the third column from the right.

****NOTE!!! THE INSTRUCTIONS SKIP FROM STEP 38 TO STEP 41 HERE****

Open group 6.

41. Place the back stud of a tan 2x2 corner brick, with the corner at the front left so it's oriented like a braille letter H, on the front, lowered stud of the previous piece. The front row of this piece should be on a 1x1 round brick and a 1x1 brick with a hole. Repeat symmetrically on the back side.

42. Place a tan 1x4x3 half arch, vertically with the arch at the back, on the scroll of the front scroll brick on the right column. Repeat symmetrically on the back side.

43. Place the right stud of a tan 1x2 brick with a log pattern, horizontally, on the front stud of the front piece from the previous step. Repeat symmetrically on the back side.

44. Place a tan 1x4 plate, vertically and centered vertically, on the rightmost column of the second floor. It should connect the two tan 1x4x3 half arches from step 42.

45.1. Place a dark brown 1x4 tile, vertically and centered vertically, on the leftmost column of the floor.

45.2. Place a light gray 1x1 brick with a hole, with the holes facing left and right, in front of the previous piece. Repeat symmetrically on the back side.

45.3. Place a light brown 1x1 brick in front of the front piece from the previous step. Repeat symmetrically on the back side.

46.1. Place a tan 1x2 curved slope brick, with the slope at the back, on the front two studs on the leftmost column of the tower. This is on two 1x1 bricks (one with a hole) on the front left corner of the floor. Repeat symmetrically on the back side.

46.2. Place a light brown 1x1 brick on the back piece from the previous step.

46.3. Place a tan 1x1x3 tall brick on the previous piece.

46.4. Place a tan 1x1x3 tall brick on the front 1x2 curved slope brick from step 46.1.

46.5. Place a light brown 1x1 brick on the previous piece.

46.6. Place a tan 1x1 scroll brick, with the scroll at the back, on the front tall brick on the left column of the tower. Repeat symmetrically on the back side.

The order of steps 47 and 48 is swapped

47. (This is step 48 in the instruction manual) Place the left stud of a tan 1x6 arch brick, horizontally, on the front piece from the previous step. Repeat symmetrically on the back side.

48. (This is step 47 in the instruction manual) Place a tan 1x3 brick, vertically, behind the right stud of the front piece from the previous step. Repeat symmetrically on the back side.

49. Place a tan 1x6 arch brick, vertically, between the left two studs of the two 1x6 arch bricks from step 47.

50. Place a dark tan 2x3 tile, horizontally, on the front two rows on the right three columns of the second floor. Place three more behind the first so they cover the right three rows.

51.1. Place a dark tan 1x4 tile with two studs, horizontally, on the front row to the left of the front piece from the previous step. Repeat symmetrically on the back side.

51.2. Place a dark tan 1x8 tile, vertically, to the left of the pieces from the previous step.

52. Place the first floor of the tower in front of you, with the door on the right. Place the second floor, with the clock on the right, on top of the first floor. Set the tower assembly aside for now.

Open Bag 2:

Open minifigure group 2: Voldemort

Assemble the Voldemort minifigure by putting the torso on the dress piece, and the head on the torso. Place a white wand in Voldemort's hand. Place a transparent green lightning bolt in the wide end of the wand. Place a transparent green magical explosion on the end of the lightning bolt opposite the wand.

Open group 7.

Sub-build 3: Tower Right Side

53.1. Now we'll build the first side-wing of the tower. This is basically the beginning of the walls around the tower. Place a dark tan 4x8 plate horizontally in front of you.

53.2. Place a dark tan 2x2 corner brick, with the corner at the front left so it's oriented like a braille letter H, on the back two rows of the left two columns of the previous piece.

54. Place the back stud of a light gray 1x6 plate, vertically, to the right of the front row of the previous piece. This piece will overhang three studs in front of the 4x8 plate.

55. Place a dark tan 4x8 plate, horizontally, in front of the first 4x8 plate. It will attach to the anti-stud of the previous piece.

56. Place a dark tan 1x2 slope brick, with the slope on the left, to the left of the front stud of the previous piece.

57. Place a light gray 1x1 brick with a hole, with the holes facing front and back, in front of the right stud of the previous piece. Repeat symmetrically on the back side.

58.1. Place the right stud of a dark gray 1x2x3 tall slope brick, horizontally with the stud at the right, on the back piece from the previous step.

58.2. Place a dark gray 1x2 brick, horizontally, in front of the previous piece.

58.3. Place a dark gray 1x1 slope tile, with the thick side at the right, on the left stud of the previous piece.

59.1. Place a dark gray 1x1 plate with a horizontal clip on one side, with the clip on the left, on the front 1x1 brick with a hole from step 57.

59.2. Place an olive green 1x1 plate behind the previous piece.

60. Stack two dark gray 1x2 plates, vertically, on the previous two pieces.

61. Place a light gray telescope, with the wide part at the bottom, to the right of the back stud of the previous piece. This is on the front stud of a 1x6 plate. Repeat symmetrically on the back side.

62.1. Place the right stud of a light gray 1x2 brick with a log pattern, horizontally, on the front piece from the previous step. Repeat symmetrically on the back side.

62.2. Place an olive green 1x1 brick in front of the left stud of the front piece from the previous step.

Open group 8.

63.1. Place a dark brown 1x2 plate with rounded ends, vertically and centered vertically, on the second column from the left.

63.2. Push the short bar of a tall flame piece down into each of the hollow studs of the previous piece.

64.1. Place a dark gray 1x2 brick, vertically, on the front two studs on the second column from the left. This is the front, tall portion of the build.

64.2. Place an olive green 1x1 brick on the second stud from the back on the second column from the left.

65.1. Place the front stud of a dark gray 1x2 brick, vertically, on the previous piece.

65.2. Find a light brown 1x2 masonry brick. A masonry brick has a brick wall pattern on one side, and horizontal grooves on the other side. Place this, vertically with the brick pattern on the left, on the front two studs on the second column from the left. This is on the 1x2 brick from step 64.1.

66. Place a dark gray 2x4x6 rock panel, vertically with the open side on the right, centered vertically on the leftmost two columns. The cut out should wrap around the 1x2 plate with rounded ends which has flames sticking up.

67.1. Place a light gray 1x6 arch brick, vertically and centered vertically, to the right of the previous two pieces. This piece goes on the two bricks on top of the two telescopes from step 61.

67.2. Place a pale green 1x3 slope brick, vertically with the slope at the front, on the front three studs of the previous piece. Repeat symmetrically on the back side.

68.1. Place a tan 2x2 corner brick, with the corner at the front left so it's oriented like a braille letter H, on the front two rows of the right two columns of the floor.

68.2. Place a light gray 1x1 brick with a hole, with the holes facing right and left, to the right of the back stud of the previous piece.

69.1. Place a dark brown 1x1 tile behind the previous piece.

69.2. Place a dark brown 1x4 tile with two studs, vertically, behind the previous piece.

69.3. Place a dark brown 1x6 tile, vertically and centered relative to the previous piece, to the left of the previous piece.

70.1. Stack two tan 2x2 bricks on the front two rows of the right two columns of the floor. This will be on top of a 2x2 corner brick and a 1x1 brick with a hole.

70.2. Place a tan 1x2 brick with an axle hole, horizontally, on the front row of the previous piece. Place another behind the first.

70.3. Place a tan 2x2 brick on the pieces from the previous step.

Open group 9. There are two 1x1 bricks stacked together in this group. These ones are light brown. The ones that are not stacked are tan.

71.1. Now we'll make a torch. Find a dark brown pin holder with an axle on one side. This looks like a hollow cylinder with a 1L axle on one side. Place this in front of you with the holes facing up and the axle at the back.

71.2. Push the bar end of a light gray 1/2L pin with a bar on one side, from the top through the hole on the previous piece. Push it all the way down so the bar sticks down and so there is a stud on top.

71.3. Place a black 1x1 round plate with a hollow stud on the stud of the previous piece.

71.4. Push the bar side of a transparent orange flame down into the hollow stud of the previous piece.

71.5. Find the axle hole on the front side of the build. It's on the stack of 2x2 bricks. Push the axle on the backside of the torch into this hole. The bar should hang down and the flame should be at the top.

72.1. Place a light gray 1x1 brick with a hole, with the sides at the front and back, on the front stud on the second column from the left. This is on the wall running front to back on the left of the build. Repeat symmetrically on the back side.

72.2. Place a dark gray 1x2 brick, vertically, in front of the back piece from the previous step.

72.3. Place a tan 1x1 brick on the third stud from the front on the second column from the left.

73.1. Place a tan 1x2 brick with a log pattern, horizontally, on the right two studs on the front row. This is on top of the stack of 2x2 bricks.

73.2. Place a light gray 1x1 brick with a hole, with the sides at the left and right, behind the right stud of the previous piece.

74.1. Place a tan 2x2 corner brick, with the corner at the front right so it's oriented like a braille letter J, on the previous two pieces.

74.2. Place a tan 1x6x3 arch brick, horizontally, to the left of the back stud of the previous piece.

74.3. Place a tan 1x1 brick in front of the leftmost stud of the previous piece.

75.1. Place a tan 1x2 brick with a log pattern, vertically, behind the leftmost stud of the 1x6x3 arch brick from step 74.2.

75.2. Place a dark gray 1x2 brick, vertically, behind the previous piece.

75.3. Place a tan 2x2 inverted slope brick, with the slope on the right, behind the previous piece.

76.1. Place a tan 2x2 inverted slope brick, with the slope on the left, on the left column of the previous piece. Repeat symmetrically on the front side.

76.2. Place a light brown 1x1 brick behind the front piece from the previous step. Repeat symmetrically on the back side.

76.3. Place a tan 2x2 inverted slope brick, with the slope at the left, between the two previous pieces.

Open group 10.

77.1. Place a tan 2x2 corner brick, with the corner at the front left so it's oriented like a braille letter H, on the front two rows of the right two columns of the build. This is on top of the stack of 2x2 bricks.

77.2. Place a light brown 1x1 brick to the left of the back stud of the previous piece.

77.3. Place a tan 2x2 inverted slope brick, with the slope at the front, to the left of the previous piece.

77.4. Place a light brown 1x1 brick to the left of the back row of the previous piece.

78.1. Now we'll build a bench. Place a dark brown 2x4 plate, upside down and vertically, in front of you.

78.2. Place a light brown 1x2 brick with a log pattern, upside down and horizontally, on the front row of anti-stud of the previous piece. Repeat on the back side. These are the legs of the bench.

78.3. Keeping it vertical, flip the bench right side up so the legs are at the bottom. Find the second and third studs from the back on the right column of the floor. Place the right anti-studs of the legs on these two studs. There should be one free stud behind the right side of the bench.

79.1. Place a light brown 1x1 brick on the free stud behind the right side of the bench.

79.2. Place a tan 1x1x4 tall brick on the previous piece.

79.3. Place a tan 1x1 scroll brick, with the scroll at the front, on the previous piece.

80. Place the right stud of a tan 1x6 arch brick, horizontally, on the previous piece.

81.1. Place a dark tan 1x1 tile in front of the left stud of the previous piece.

81.2. Place the back stud of a tan 1x6 arch brick, vertically, on the scroll brick in front of the right stud of the arch from step 79.4.

82.1. Place a dark tan 1x6 tile, vertically, on the back six studs on the rightmost column of the build. There should be two free studs in front of this piece.

82.2. Place a dark tan 1x4 tile with two studs, horizontally, on the back row to the left of the previous piece.

82.3. Place a dark tan 1x2 tile, horizontally, to the left of the previous piece.

82.4. Place a dark tan 1x6 tile, vertically, in front of the left column of the previous piece.

82.5. Place a dark tan 1x2 tile, horizontally, on the second row from the front to the right of the previous piece.

82.6. Place a dark tan 1x4 tile with two studs, horizontally, to the right of the previous piece.

83.1. There should now only be four pairs and one set of three of free studs on top of the build. Place a dark tan 1x2 tile on each pair of free studs.

83.2. Place a dark tan 2x2 corner tile, with the corner at the front left so it's oriented like a braille letter H, on the three free studs on the front left corner of the build.

Open group 11.

84. Now we'll build the roof for the Tower Right Side. Set the Tower Right Side aside for now. Place a dark tan 4x8 plate horizontally in front of you.

85.1. Place a light brown 1x1 brick on the back stud on the leftmost column of the previous piece.

85.2. Place a light gray 1x1 brick with a hole, with the hole facing front and back, to the right of the previous piece.

86.1. Place a light brown 1x1 brick in front of the previous piece.

86.2. Place a light gray 1x1 brick with a hole, with the hole facing left and right, to the left of the previous piece.

87. Place a light brown 2x2 plate on the previous four pieces.

88.1. Place a sand green 1x4 plate, horizontally, on the back row to the right of the previous pieces.

88.2. Place a sand green 1x2 slope tile, horizontally with the thick side at the front, on the left two studs of the previous piece. Place another to the right of the first.

89.1. Place a tan 2x2 brick on the 2x2 stack of bricks on the left side of the roof. Repeat symmetrically on the right side. The right piece will just be placed on the 4x8 plate.

89.2. Place a tan 2x2 tile with two studs, with the studs on the right, on each of the pieces from the previous step.

90.1. Place the right column of a tan 2x2 angled corner plate, with the angled corner at the front left so the studs are oriented like a braille letter D, on the studs of the right piece from the previous step.

90.2. Stack two tan 2x2 round bricks on the previous piece.

90.3. Place a sand green 2x2 jagged cone on the previous piece.

90.4. Place a sand green unicorn horn, with the point up, into the hollow stud on top of the previous piece.

91. Place the Tower Right Side in front of you, with the rock wall at the right and the bench at the left. Place the roof, with the jagged cone at the back right, on the back half of the Tower Right Side. The back side of the roof should be even with the back side of the Tower Right Side.

Open group 12.

92. Now we'll build a small spire which goes on the left side of the roof we just made. Set the Tower Right Side aside for now. Place a light brown 2x2 plate in front of you.

93.1. Place a tan 1x2 brick with a log pattern, vertically, on the left column of the previous piece.

93.2. Place a light brown 1x2 masonry brick, vertically with the brick pattern at the right, to the right of the previous piece.

94. Place a tan 2x2 brick on the previous two pieces.

95.1. Place a tan 1x1 scroll brick, with the scroll at the front, on the front right stud of the previous piece.

95.2. Place a tan 1x1 brick behind the previous piece.

96. Place a tan 1x2 brick with a log pattern, vertically, on the previous two pieces.

97. Place a tan 1x3x3 half arch, with the arch on the left, on the front row to the left of the previous piece. Place another behind the first.

98. Place the left column of a tan 2x2 brick on the right column of the previous two pieces. The top of the tower should now be two rows of four studs.

99.1. Place a dark tan 1x4 tile with two studs, horizontally, on the front row.

99.2. Place a dark tan 1x4 tile, horizontally, behind the previous piece.

100.1. Place a black 1x1 round plate with a hollow stud on the scroll brick on the front of the tower.

100.2. Push a transparent orange flame into the hollow end of the previous piece.

Open group 13.

101.1. Place a dark tan 2x4 plate, horizontally, on top of the tower.

101.2. Place a tan 1x2x2 arched window frame, vertically with the flat side at the right, on the rightmost column of the previous piece. Place another symmetrically to the left of the first. There should be two free columns to the left of this piece.

101.3. Place a tan 1x2 curved slope brick, with the slope on the right, on the front row to the left of the left piece from the previous step.

101.4. Place a sand green 1x1 slope tile, with the thick side at the left, on the previous piece.

101.5. Place a sand green 2x2x2 pyramid slope on the two 1x2x2 arched window frames.

101.6. Place a sand green unicorn horn, with the point up, into the hollow stud on top of the previous piece.

102. Place the Tower Right Side in front of you, with the rock wall at the right and the bench at the left. Rotate the small tower 90 degrees counterclockwise so the scroll brick with the flame is on the right side. Place the tower on the 2x2 stack of studs on the left side of the roof.

103.1. Now we'll build the rest of the roof for the Tower Right Side. Place a dark tan 4x8 plate horizontally in front of you.

103.2. Place a sand green 1x2 plate, vertically and centered vertically, on the rightmost column of the previous piece.

103.3. Place a sand green 1x2 slope tile, vertically with the thick side at the left, on the previous piece.

103.4. Place a tan 1x1 brick in front of the previous two pieces. Repeat symmetrically on the back side.

103.5. Place a tan 1x1 pyramid tile on each of the previous pieces.

104. Place this part of the roof on the Tower Right Side in front of the first part of the roof. This completes the Tower Right Side.

105. Now we'll attach it to the rest of the tower. Place the first and second floors of the tower in front of you, with the door and the clock at the back. Find the two pins on the right side of the tower. Find the two pin holes on the left side of the Tower Right Side. These holes are on the back row. Push the two holes on the Tower Right Side onto the pins we just identified. Great job! Now we'll set the Tower Assembly aside for now.

Open Bag 3.

Open minifigure group 3: Molly Weasley

Assemble the Molly weasley minifigure by putting the torso on the dress piece, the head on the torso, and the hair on the head. Place a brown wand in Molly's hand.

Open minifigure group 4: Bellatrix Lestrange

Assemble the Bellatrix Lestrange minifigure by putting the torso on the dress piece, the head on the torso, and the hair on the head. Place a black wand in Bellatrix's hand.

Open group 14.

Sub-build 4: First Wall.

106.1. Now we'll start building the walls! Place a dark blue 2x8 plate horizontally in front of you.

106.2. Place a dark gray 1x2 slope brick, with the slope at the right, on the left two studs on the back row of the previous piece.

107. Place a light gray 1x2 brick with two holes, vertically, in front of the left stud of the previous piece.

108. Place the left stud of a dark tan 2x2 corner plate, with the corner at the back right so it's oriented like a braille letter D, on the front anti-stud of the previous piece.

109.1. Place a dark gray 1x2 slope brick, with the slope at the left, on the third and fourth studs from the left on the front row of the 2x8 plate. There should be one free stud to the left of this piece between it and the 1x2 brick with two holes.

109.2. Place an olive green 1x1 brick behind the right stud of the previous piece.

110.1. Place a dark gray 1x2 brick, vertically, to the right of the previous two pieces.

110.2. Place an olive green 1x1 slope tile, with the thick side at the left, to the right of the front stud of the previous piece.

110.3. Place a dark gray 1x2 slope brick, with the slope at the left, to the right of the previous piece.

110.4. Place the left stud of a dark gray 1x2 brick, horizontally, behind the right stud of the previous piece.

111.1. Place a dark tan 2x6 plate horizontally in front of you. Place it to the right of the 2x2 corner plate on the left side of the build. It won't be attached to anything yet.

111.2. Place the right two studs of a tan 1x3 brick, horizontally, on the left two studs on the back row of the previous piece. The left stud of this piece should attach to the back right stud of the 2x2 corner plate.

112. Find the rightmost 1x2 brick on the wall. It is at the back right and it should overhang one stud to the right. Place the back left stud of a dark blue 2x8 plate, horizontally, on the overhanging anti-stud of this 1x2 brick.

Open group 15.

113.1. Place a dark gray 1x2 slope brick, with the slope at the right, on the left two studs on the front row of the previous piece.

113.4. Place the front row of a dark gray 2x2 corner slope brick, with the sloped side at the back left so the studs are oriented like a braille letter J, to the right of the previous piece.

113.5. Place a dark gray 1x2 brick, vertically, to the right of the previous piece.

114.1. Place a dark gray 1x2 slope brick, with the slope at the left, on the right two studs on the back row of the right 2x8 plate.

114.2. Place an olive green 1x1 slope tile, with the thick side at the front, in front of the slope of the previous piece.

114.3. Place the back stud of a light gray 1x2 brick with two holes, vertically, to the right of the previous piece.

115. Place the right stud of a dark tan 2x2 corner plate, with the corner at the back left so it's oriented like a braille letter F, on the front anti-stud of the previous piece.

116.1. Place a dark tan 2x6 plate horizontally to the left of the previous piece. It won't be attached to anything yet.

116.2. Place the left two studs of a tan 1x3 brick, horizontally, on the right two studs on the back row of the previous piece. The right stud of this piece should attach to the back left stud of the 2x2 corner plate.

117. Place a tan 1x8 brick, horizontally and centered horizontally, on the second row from the front. It should connect the two 2x6 plates.

118.1. Place the front stud on the left column of a dark tan 2x3 plate, vertically, on the rightmost stud of the left piece from the previous step. This piece should extend two rows behind the previous piece onto a 2x2 of studs. Repeat symmetrically on the right side.

118.2. Place a dark tan 1x2 plate, vertically, on the back two studs on the leftmost column of the wall. Repeat symmetrically on the right side.

Open group 16.

119.1. Place a light gray 1x1 plate with a horizontal clip, with the clip at the front, in front of the previous two pieces.

119.2. Place a dark tan 2x2 plate, centered horizontally, on the back two rows of the wall. This should be on a 2x2 of raised studs.

119.3. Place a dark tan 1x2 plate with two studs hanging down from one side, horizontally with the sideways studs at the front, in front of the previous piece.

120.1. Place a dark tan 1x2 tile, horizontally, to the left of the previous piece. Repeat symmetrically on the right side.

120.2. Place an olive green 1x1 slope tile, with the thick side on the right, behind the right column of the right piece from the previous step.

120.3. Place a dark tan 1x2 plate, horizontally, to the right of the left 1x1 plate with a clip. Repeat symmetrically on the right side.

121.1. Place a tan 1x2x2 tall slope brick, with the slope at the back, on the back two studs on the leftmost column of the wall. Repeat symmetrically on the right side.

121.2. Find the three raised plates on the back two rows of the wall. Place a tan 2x2x2 tall slope brick, with the slope at the back, on each of these raised plates.

122.1. Place a tan 1x2 curved slope brick, with the slope on the right, on the left two studs on the second row from the front. Repeat symmetrically on the right side.

122.2. Place a light brown 1x1 brick on each of the previous two pieces.

123. Place a tan 1x2x2 tall brick with a Hogwarts' crest sticker, horizontally and centered horizontally, on the second row from the front on the wall.

124.1. Place the front row of a dark tan 2x2 corner plate, with the corner at the front left so it's oriented like a braille letter H, on the previous piece.

124.2. Place a dark tan 1x1 tile to the right of the back stud of the previous piece.

124.3. Place a dark tan 1x2 plate, vertically, on the back two studs on the leftmost column of the wall. Repeat symmetrically on the right.

124.4. Place a dark tan 1x2 tile, horizontally, on the right 2x2x2 tall slope brick from step 121.2.

124.5. Place a dark tan 1x2 plate, horizontally, on the left 2x2x2 tall slope brick from step 121.2.

Open group 17.

125. Place the right stud of a tan 1x4 arch brick, horizontally, on the left stud of the previous piece. Place another to the right of the first.

126.1. Place a tan 1x1 brick in front of the left stud of the left piece from the previous step.

126.2. Place the left stud of a light brown 1x2 masonry brick, horizontally with the brick pattern at the front, in front of the rightmost stud of the right 1x4 arch brick from step 125.

127.1. Place a dark tan 1x1 tile on the right stud of the previous piece.

127.2. Place the front stud of a dark tan 2x2 corner plate, with the corner at the back right so it's oriented like a braille letter D, to the left of the previous piece.

127.3. Place a dark tan 1x2 plate, horizontally, to the left of the back row of the previous piece. Place another to the left of the first.

127.4. Place the back row of a dark tan 2x2 corner plate, with the corner at the back left so it's oriented like a braille letter F, to the left of the previous piece.

128.1. Place a light gray 1x2 brick with two holes, vertically, on the left column of the previous piece.

128.2. Place a tan 1x1 brick on the front stud of the 2x2 corner plate from step 127.2. This is the corner plate which is on the right side of the rightmost 1x4 arch brick.

129.1. Place a tan 1x1 brick on the back stud on the leftmost column of the wall. This is on top of the 1x2 brick with two holes from step 128.1.

129.2. Place a tan 1x2 inverted slope brick, with the slope at the back, on the previous piece.

130. Place a tan 1x2x3 arched window, horizontally, to the right of the front stud of the previous piece. Place two more to the right of the first.

131. Place a tan 1x6 plate, horizontally, on the previous three pieces.

132. Place a tan 1x8x3 arch brick, horizontally, in front of the previous piece. The left side of this piece should attach to a 1x2 brick with a hole and the right side should attach to a 1x1 brick.

133.1. Place the front row of a dark tan 2x2 corner tile, with the corner at the front left so it's oriented like a braille letter H, on the right two studs of the previous piece.

133.2. Place a dark tan 1x4 tile, horizontally, to the left of the front row of the previous piece.

133.3. Place a dark tan 1x4 tile with two studs, horizontally, behind the previous piece.

133.4. Place a dark tan 2x2 tile to the left of the previous two pieces.

133.5. Place a dark tan 1x1 tile behind the left column of the previous piece.

134.1. Place the right stud of a tan 1x4 arch brick, horizontally, on the back stud on the rightmost column of the wall. This is above a 1x2x2 tall slope brick, and it won't attach to anything yet. Place another to the left of the first.

134.2. Place a dark tan 1x8 plate, horizontally, on the previous two pieces.

Open group 18.

135.1. Place the back right stud of a tan 2x2 corner brick, with the corner at the back right so it's oriented like a braille letter D, on the leftmost stud of the previous piece.

135.2. Place a light brown 1x2 masonry brick, horizontally with the brick pattern at the back, on the back row of the previous piece.

135.3. Place a tan 2x2 inverted slope brick, with the slope at the back, on the previous piece.

136.1. Place a tan 1x1 brick on the front stud of the rightmost column of the wall.

136.2. Place a dark tan 1x1 tile on the previous piece.

137.1. Place a light gray 1x2 brick with two holes, vertically, on the rightmost column of the wall. The front stud should be on the previous piece.

137.2. Place a tan 1x2x3 arched window, horizontally, to the left of the back stud of the previous piece. Place two more to the left of the first.

138.1. Place a tan 1x6 plate, horizontally, on the previous three pieces.

138.2. Place a tan 1x1 brick to the right of the previous piece.

138.3. Place a tan 1x1 inverted slope brick, with the slope at the back, on the previous piece.

139. Place the right stud of a tan 1x8x3 arch brick, horizontally, in front of the previous piece. This piece should be to the left of another 1x8x3 arch brick.

140.1. Place the front row of a dark tan 2x2 tile on the right two studs of the previous piece.

140.2. Place a dark tan 1x4 tile, horizontally, to the left of the front row of the previous piece.

140.3. Place a dark tan 1x4 tile with two studs, horizontally, behind the previous piece.

140.4. Place a dark tan 2x2 tile to the left of the previous two pieces.

141.1. Place the right column of a dark tan 2x2 corner tile, with the corner at the back right so it's oriented like a braille letter F, behind the left column of the previous piece. The back row of this piece should cover up the two studs on the back row of the wall.

141.2. Place a dark tan 1x1 tile on the back stud on the rightmost column of the wall.

Open group 19.

142. Now we'll build the first part of the roof for this wall. Set the first wall aside for now. Place a dark tan 4x6 plate horizontally in front of you.

143.1. Place the right three studs of a sand green 1x4 plate, horizontally, on the left three studs on the back row of the previous piece.

143.2. Place a tan 1x2 brick, horizontally, to the right of the previous piece.

144. Place the back stud of a dark tan 1x3 plate, vertically, on the leftmost anti-stud of the 1x4 plate on the back row of the roof.

145. Place the left column of a dark tan 2x2 tile with a single stud, on the front two studs of the previous piece.

146.1. Place a sand green 1x2 slope tile, horizontally with the thick side at the front, on the left two studs on the 1x4 plate on the back row of the roof. Place another to the right of the first.

146.2. Place a tan 1x2 jumper plate, horizontally, to the right of the previous piece.

147.1. Place a black telescope, with the wide part at the bottom, on the previous piece.

147.2. Push the bar side of a transparent orange flame down into the hollow stud of the previous piece.

148. Place the first wall in front of you again, horizontally with the six arched windows at the back. Place the first roof, horizontally with the slope tiles on the back row, on the left six columns on the wall. The front of the 4x6 plate on the roof should overhang one stud to the front of the wall and the left side of the roof should be even with the left side of the wall.

Open group 20.

149. Now we'll build the rest of the roof. Set the first wall aside for now. Place a dark tan 4x8 plate horizontally in front of you.

150.1. Place a tan 1x2 brick, horizontally and centered horizontally, on the back row of the previous piece.

150.2. Place a sand green 1x4 plate, horizontally, to the left of the previous piece. Repeat symmetrically on the right side.

151. Place the back stud of a dark tan 1x3 plate, vertically, on the rightmost anti-stud of the right piece from the previous step.

152. Place the right column of a dark tan 2x2 tile with a single stud, on the front two studs of the previous piece.

153.1. Place two sand green 1x2 slope tiles, horizontally with the thick side at the front, on each of the two 1x4 plates on the back row of the roof.

153.2. Place a tan 1x2 jumper plate, horizontally, on the 1x2 brick on the back row of the roof.

154.1. Place a black telescope, with the wide part at the bottom, on the previous piece.

154.2. Push the bar side of a transparent orange flame down into the hollow stud of the previous piece.

155. Place the first wall in front of you again, horizontally with the six arched windows at the back. Place the second roof, horizontally with the slope tiles on the back row, to the right of the first roof. The front of the 4x8 plate on the roof should overhang one stud to the front of the wall and the right side of the roof should be even with the right side of the wall.

156.1. Now we will get ready to attach the wall to the tower. We need to make a hinge to do that. Find a gold 1x2 brick with rounded ends. This looks like two 1x2 plate with rounded ends stacked one over the other, with a small gap between them. There are two bars in these gaps. Rotate this piece so it's horizontal with the studs on top.

156.2. Find the two clips on the front of the wall. Push the left side of the piece we found in the previous step onto the right clip. This will be the hinge for the wall. It should be able to rotate left and right on the clip.

156.3. Place a light brown 1x2 tile with rounded ends, horizontally, on the previous piece.

157. Now we'll attach the first wall to the tower! Place the tower in front of you, with the door and the clock at the front and the Tower Right Side on the left. Find the clip on the left side of the Tower Right Side near the front. Clip the right side of the wall hinge to this clip.

Open bag 4.

Open minifigure group 5: Neville Longbottom

Assemble the Neville Longbottom minifigure by putting the torso on the legs, the head on the torso, and the hair on the head. Place the Sword of Gryffindor in Neville's hand. Place the snake Nagini next to Neville.

Open group 21.

Sub-build 5: Tower Left Side

158.1. Now we'll build the Tower Left Side. Set the rest of the build aside for now. Place a dark tan 4x8 plate horizontally in front of you.

158.2. Place a light gray 1x3 slope brick, with the slope at the front, on the back three studs on the right column of the previous piece.

159.1. Place a light gray 1x1 brick with a hole, with the holes facing the front and back, to the left of the back stud of the previous piece.

159.2. Place a dark gray 1x1 brick in front of the previous piece.

Open group 22. There is a stack of two 1x1 bricks. The top one is olive green and the bottom one is dark gray.

160.1. Place a dark gray 1x2 brick with two studs on one long side, vertically with the sideways studs on the left, on the previous two pieces.

160.2. Place an olive green 1x1 brick to the right of the back stud of the previous piece. This is the top brick on the stack of 1x1 bricks.

161. Place the right stud of a dark gray 1x2x2 tall slope brick, horizontally with the slope on the right, on the previous piece.

162.1. Place a dark gray 1x1x2 tall brick with two studs on one side, with the sideways studs on the left, in front of the left stud of the previous piece.

162.2. Place an olive green 1x1 plate on the top stud of the previous piece.

163. Place the back two studs of a dark gray 1x4x3 wall panel, vertically with the flat side at the right, on the front two studs on the second column from the right on the 4x8 plate.

164. Place a dark tan 4x8 plate, horizontally, in front of the first 4x8 plate. It should attach to the front two anti-stud of the previous piece.

165.1. Place a dark gray 1x1 brick in front of the 1x4x3 wall panel from step 163.

165.2. Place a light gray 1x1 brick with a hole, with the holes facing the front and back, in front of the previous piece.

166.1. Place a dark gray 1x1 plate with a horizontal clip on one side, with the clip on the right side, on the previous piece.

166.2. Place an olive green 1x1 plate behind the previous piece.

167. Place the front stud of a dark gray 1x2x2 tall slope brick, vertically with the slope at the back, to the right of the previous piece.

168. Place the back stud of a dark gray 1x2 plate, vertically, to the left of the front stud of the previous piece. Place another on top of the first.

Open group 23. There is a stack of two 1x1 bricks. The top one is olive green and the bottom one is dark gray. You'll use both in step 172.

169.1. Place the left column of a dark gray 2x2 corner brick, with the corner at the back left so it's oriented like a braille letter F, on the previous piece.

169.2. Place an olive green 1x1 slope tile, with the thick side at the left, on the right stud of the previous piece.

170. Place a dark gray 1x6 brick, vertically, on the front six studs on the second column from the right. This is on top of the wall on the right side of the build.

171.1. Place a light brown 1x2 masonry brick, vertically with the brick pattern at the right, on the front two studs of the previous piece.

171.2. Place a dark gray 1x6 brick, vertically, behind the previous piece.

172.1. Place a light gray 1x1 brick with a hole, with the holes facing the front and back, on the back stud of the previous piece.

172.2. Place a dark gray 1x1 brick in front of the previous piece. This is the bottom brick from the stack of 1x1 bricks.

172.3. Place an olive green 1x1 brick in front of the previous piece.

172.4. Place a dark gray 1x2 slope brick, with the slope at the front, in front of the previous piece.

173.1. Place a light gray 1x1 plate in front of the previous piece.

173.2. Place a tan 1x1 plate with a stud hanging down from one side, with the sideways stud at the right, on the previous piece.

173.3. Place a dark green 1x1 round plate with three leaves, sideways with the leaves pointing down, on the sideways stud on the previous piece.

Open group 24. There are two 2x2 bricks stacked together in this group. These ones are tan. The one that is not stacked is light brown.

174. Find the four sideways studs on the left side of the wall. Place a dark gray 6x6 tile with a wall pattern sticker, sideways, on these studs. The back side of the 6x6 tile should be even with the back side of the Tower Left Side, and the bottom of the 6x6 tile should touch the studs on the floor of the Tower Left Side.

175.1. Place a tan 2x2 corner brick, with the corner at the front right so it's oriented like a braille letter J, on the front two rows of the left two columns of the floor.

175.2. Place a light gray 1x1 brick with a hole, with the holes facing right and left, to the left of the back stud of the previous piece.

176.1. Place a dark brown 1x1 tile behind the previous piece.

176.2. Place a dark brown 1x4 tile with two studs, vertically, behind the previous piece.

176.3. Place a dark brown 1x6 tile, vertically and centered relative to the previous piece, to the right of the previous piece.

177.1. Place a light brown 2x2 brick on the front two rows of the left two columns of the floor. This will be on top of a 2x2 corner brick and a 1x1 brick with a hole. This is the 2x2 brick that was loose in this group.

177.2. Place a tan 2x2 brick on the previous piece.

178. Place a tan 1x2 brick with an axle hole, horizontally, on the front row of the previous piece. Place another behind the first.

179. Place a tan 2x2 brick on the previous two pieces.

180.1 Now we'll make a torch. Find a dark brown pin holder with an axle on one side. This looks like a hollow cylinder with a 1L axle on one side. Place this in front of you with the holes facing up and the axle at the back.

180.2. Push the bar end of a light gray 1/2L pin with a bar on one side, from the top through the hole on the previous piece. Push it all the way down so the bar sticks down and so there is a stud on top.

180.3. Place a black 1x1 round plate with a hollow stud on the stud of the previous piece.

180.4. Push the bar side of a transparent orange flame down into the hollow stud of the previous piece.

180.5. Find the axle hole on the front side of the build. It's on the stack of 2x2 bricks. Push the axle on the backside of the torch into this hole. The bar should hang down and the flame should be at the top.

181.1. Place a tan 1x2 brick with a log pattern, horizontally, on the left two studs on the front row. This is on top of the stack of 2x2 bricks.

181.2. Place a light gray 1x1 brick with a hole, with the sides at the left and right, behind the left stud of the previous piece.

(The order of Step 183 has been swapped)

182.1. (This was step 183 in the instruction manual) Place a tan 2x2 corner brick, with the corner at the front left so it's oriented like a braille letter H, on the previous two pieces.

182.2. Place a tan 1x1 brick on the front stud on the second column from the right. This is on the wall on the right side of the Tower Left Side.

182.3. Place a light gray 1x1 brick with a hole, with the sides at the front and back, on the previous piece.

183. Place the rightmost stud of a tan 1x6x3 arch brick, horizontally, behind the previous two pieces. The left stud of this piece should connect behind the right stud of the 2x2 corner brick from step 182.1.

184.1. Place a tan 1x2 inverted slope brick, with the slope at the back, behind the right stud of the previous piece.

184.2. Place a light brown 1x2 plate, vertically, on the previous piece.

185.1. Place a dark gray 1x3 brick, vertically, behind the previous piece.

185.2. Place the right stud of a tan 1x2 inverted slope brick, with the slope at the left, behind the previous piece.

Open group 25. There are four 1x1 bricks stacked together in this group. These ones are light brown. The one that is not stacked is dark gray.

186.1. Place the back stud of a tan 2x2 inverted slope brick, with the slope on the right, on the right stud of the previous piece.

186.2. Place a dark gray 1x1 brick in front of the left column of the previous piece. This is the 1x1 brick that was loose in this group.

186.3. Place the left column of a tan 2x2 inverted slope brick, with the slope on the right, in front of the previous piece.

186.4. Place a light brown 1x1 brick in front of the left column of the previous piece.

186.5. Place the left column of a tan 2x2 inverted slope brick, with the slope on the right, in front of the previous piece.

187.1. Place a light brown 1x1 brick to the left of the back row of the previous piece.

187.2. Place the back row of a tan 2x2 inverted slope brick, with the slope at the front, to the left of the previous piece.

187.3. Place a light brown 1x1 brick to the left of the back row of the previous piece.

187.4. Place the back stud of a tan 2x2 corner brick, with the corner at the front right so it's oriented like a braille letter J, to the left of the previous piece.

188.1. Now we'll build a small table. Place a black 2x4 tile with two studs, upside down and vertically, in front of you.

188.2. Place a black 1x2 brick with a log pattern, upside down and horizontally, on the front row of anti-stud of the previous piece. Repeat on the back side. These are the legs of the table.

188.3. Keeping it vertical, flip the table right side up so the legs are at the bottom. Find the second and third studs from the back on the leftmost column of the floor. Place the right anti-studs of the legs on these two studs. There should be one free stud behind the left side of the table

188.4. Place a white coffee cup on the back stud on the table.

188.5. Place a white 1x1 tile with a bar sticking up on the front stud of the table.

188.6. Push the hollow stud of a dish, with the stud on the bottom, down onto the bar of the previous piece.

189.1. Place a light brown 1x1 brick on the free stud behind the left side of the table

189.2. Place a tan 1x1x4 tall brick on the previous piece.

189.3. Place a tan 1x1 scroll brick, with the scroll at the front, on the previous piece.

190. Place the left stud of a tan 1x6 arch brick, horizontally, on the previous piece.

191. Place the back stud of a tan 1x6 arch brick, vertically, in front of the left stud of the previous piece.

192.1. Place a dark tan 1x6 tile, vertically, on the back six studs on the leftmost column of the build. There should be two free studs in front of this piece.

192.2. Place a dark tan 1x4 tile with two studs, horizontally, on the back row to the right of the previous piece.

192.3. Place a dark tan 1x2 tile, horizontally, to the right of the previous piece.

192.4. Place a dark tan 1x6 tile, vertically, in front of the right column of the previous piece.

192.5. Place a dark tan 1x2 tile, horizontally, on the second row from the front to the left of the previous piece.

192.6. Place a dark tan 1x4 tile with two studs, horizontally, to the left of the previous piece.

193.1. There should now only be four pairs and one set of three of free studs on top of the build. Place a dark tan 1x2 tile on each pair of free studs.

193.2. Place a dark tan 2x2 corner tile, with the corner at the front right so it's oriented like a braille letter J, on the three free studs on the front right corner of the build.

Open group 26. There are two 1x1 bricks stacked together in this group. These ones are light brown. The ones that are not stacked are tan.

194.1. Now we'll build the first part of the roof for the Tower Left Side. Place a dark tan 4x8 plate horizontally in front of you.

194.2. Place a sand green 1x2 plate, vertically and centered vertically, on the rightmost column of the previous piece.

194.3. Place a sand green 1x2 slope tile, vertically with the thick side at the left, on the previous piece.

194.4. Place a tan 1x1 brick in front of the previous two pieces. Repeat symmetrically on the back side. These are the 1x1 bricks that are not stacked.

194.5. Place a tan 1x1 pyramid tile on each of the previous pieces.

195. Place the roof, with the 1x1 bricks on the right, on the back half of the Tower Left Side. The back side of the roof should be even with the back side of the Tower Left Side.

196. Now we'll build the rest of the roof for the Tower Left Side. Set the Tower Left Side aside for now. Place a dark tan 4x8 plate horizontally in front of you.

196. Place a light brown 1x1 brick on the back stud on the rightmost column of the previous piece.

197.1. Place a light gray 1x1 brick with a hole, with the hole facing left and right, in front of the previous piece.

198.1. Place a light brown 1x1 brick to the left of the previous piece.

198.2. Place a light gray 1x1 brick with a hole, with the hole facing front and back, behind the previous piece.

199. Place a light brown 2x2 plate on the previous four pieces.

200. Stack two tan 2x2 bricks on the previous piece.

201.1. Place a sand green 1x4 plate, horizontally, on the back row to the left of the stack of 2x2 bricks.

201.2. Place a sand green 1x2 slope tile, horizontally with the thick side at the front, on the left two studs of the previous piece. Place another to the right of the first.

202.1. Place the back row of a tan 2x2 brick to the left of the previous piece.

202.2. Place a tan 2x2 tile with two studs, with the studs on the left, on the previous piece. Place another on the top of the stack of 2x2 bricks.

203.1. Place the left column of a tan 2x2 angled corner plate, with the angled corner at the front right so the studs are oriented like a braille letter F, on the studs of the left piece from the previous step.

203.2. Stack two tan 2x2 round bricks on the previous piece.

203.3. Place a sand green 2x2 jagged cone on the previous piece.

203.4. Place a sand green unicorn horn, with the point up, into the hollow stud on top of the previous piece.

203. Place the Tower Left Side in front of you, with the rock wall at the right and the small table at the left. Place the roof, with the jagged cone at the front right, in front of the first half of the roof. The front side of the roof should be even with the front side of the Tower Left Side.

Open group 27.

205.1. Now we'll build a small spire which goes on the left side of the roof we just made. Set the Tower Left Side aside for now. Place a light brown 2x2 plate in front of you.

205.2. Place a tan 2x2 brick on the previous piece.

206.1. Place a tan 1x1 brick on the back left stud of the previous piece.

206.2. Place a tan 1x1 scroll brick, with the scroll at the front, in front of the previous piece.

207. Place a light brown 1x2 masonry brick, vertically with the brick pattern at the left, on the previous two pieces.

208. Place a tan 1x3x3 half arch, with the arch on the right, on the front row to the right of the previous piece. Place another behind the first.

209. Place the right column of a tan 2x2 brick on the leftmost column of the previous piece. The top of the tower should now be two rows of four studs.

210.1. Place a black 1x1 round plate with a hollow stud on the scroll brick on the front of the tower.

210.2. Push a transparent orange flame into the hollow end of the previous piece.

211.1. Place a dark tan 1x4 tile with two studs, horizontally, on the front row on the top of the tower.

211.2. Place a dark tan 1x4 tile, horizontally, behind the previous piece.

Open group 28.

212.1. Place a dark tan 2x4 plate, horizontally, on top of the tower.

212.2. Place a tan 1x2x2 arched window frame, vertically with the flat side at the left, on the leftmost column of the previous piece. Place another symmetrically to the right of the first. There should be two free columns to the right of this piece.

212.3. Place a tan 1x2 curved slope brick, with the slope on the left, on the front row to the right of the right piece from the previous step.

212.4. Place a sand green 1x1 slope tile, with the thick side at the right, on the previous piece.

212.5. Place a sand green 2x2x2 pyramid slope on the two 1x2x2 arched window frames.

212.6. Place a sand green unicorn horn, with the point up, into the hollow stud on top of the previous piece.

213. Place the Tower Left Side in front of you, with the closed wall at the right and the table at the left. Rotate the small tower 90 degrees counterclockwise so the scroll brick with the flame is on the right side. Place the tower on the 2x2 stack of studs on the left side of the roof.

214. Now we'll attach the Tower Left Side to the rest of the build. Place the tower and first wall in front of you, with the first wall on the left and the tower at the right. Find the two pins on the right side of the tower. Find the two pin holes on the left side of the Tower Left Side. These holes are on the front row. Push the two holes on the Tower Left Side onto the pins we just identified. Great job! Now we'll set the Combined Assembly aside for now.

Open bag 5.

Open minifigure group 6: Scabior

Assemble the Scabior minifigure by putting the torso on the legs, the head on the torso, and the hair on the head. Place a dark brown wand in Scabior's hand.

Open group 29.

Sub-build 6: Second Wall

215.1. Now we'll build another! Place a dark blue 2x8 plate horizontally in front of you.

215.2. Place a dark gray 1x2 slope brick, with the slope at the right, on the left two studs on the back row of the previous piece.

216. Place a light gray 1x2 brick with two holes, vertically, in front of the left stud of the previous piece.

217. Place the left stud of a dark tan 2x2 corner plate, with the corner at the back right so it's oriented like a braille letter D, on the front anti-stud of the previous piece.

218.1. Place a dark gray 1x2 slope brick, with the slope at the left, on the third and fourth studs from the left on the front row of the 2x8 plate. There should be one free stud to the left of this piece between it and the 1x2 brick with two holes.

218.2. Place an olive green 1x1 brick behind the right stud of the previous piece.

219.1. Place a dark gray 1x2 brick, vertically, to the right of the previous two pieces.

219.2. Place an olive green 1x1 slope tile, with the thick side at the left, to the right of the front stud of the previous piece.

219.3. Place a dark gray 1x2 slope brick, with the slope at the left, to the right of the previous piece.

219.4. Place the left stud of a dark gray 1x2 brick, horizontally, behind the right stud of the previous piece.

220.1. Place a dark tan 2x6 plate horizontally in front of you. Place it to the right of the 2x2 corner plate on the left side of the build. It won't be attached to anything yet.

220.2. Place the right two studs of a tan 1x3 brick, horizontally, on the left two studs on the back row of the previous piece. The left stud of this piece should attach to the back right stud of the 2x2 corner plate.

221. Find the rightmost 1x2 brick on the wall. It is at the back right and it should overhang one stud to the right. Place the back left stud of a dark blue 2x8 plate, horizontally, on the overhanging anti-stud of this 1x2 brick.

Open group 30.

222.1. Place a dark gray 1x2 slope brick, with the slope at the right, on the left two studs on the front row of the previous piece.

222.4. Place the front row of a dark gray 2x2 corner slope brick, with the sloped side at the back left so the studs are oriented like a braille letter J, to the right of the previous piece.

222.5. Place a dark gray 1x2 brick, vertically, to the right of the previous piece.

223.1. Place a dark gray 1x2 slope brick, with the slope at the left, on the right two studs on the back row of the right 2x8 plate.

223.2. Place an olive green 1x1 slope tile, with the thick side at the front, in front of the slope of the previous piece.

223.3. Place the back stud of a light gray 1x2 brick with two holes, vertically, to the right of the previous piece.

224. Place the left stud of a dark tan 2x2 corner plate, with the corner at the back left so it's oriented like a braille letter F, on the front anti-stud of the previous piece.

225.1. Place a dark tan 2x6 plate horizontally to the left of the previous piece. It won't be attached to anything yet.

225.2. Place the left two studs of a tan 1x3 brick, horizontally, on the right two studs on the back row of the previous piece. The left stud of this piece should attach to the back left stud of the 2x2 corner plate.

226. Place a tan 1x8 brick, horizontally and centered horizontally, on the second row from the front. It should connect the two 2x6 plates.

227.1. Place the front stud on the left column of a dark tan 2x3 plate, vertically, on the rightmost stud of the left piece from the previous step. This piece should extend two rows behind the previous piece onto a 2x2 of studs. Repeat symmetrically on the right side.

227.2. Place a dark tan 1x2 plate, vertically, on the back two studs on the leftmost column of the wall. Repeat symmetrically on the right side.

Open group 31.

228.1. Place a light gray 1x1 plate with a horizontal clip, with the clip at the front, in front of the previous two pieces.

228.2. Place a dark tan 2x2 plate, centered horizontally, on the back two rows of the wall. This should be on a 2x2 of raised studs.

228.3. Place a dark tan 1x2 plate with two studs hanging down from one side, horizontally with the sideways studs at the front, in front of the previous piece.

229.1. Place a dark tan 1x2 tile, horizontally, to the left of the previous piece. Repeat symmetrically on the right side.

229.2. Place an olive green 1x1 slope tile, with the thick side on the right, behind the right column of the right piece from the previous step.

229.3. Place a dark tan 1x2 plate, horizontally, to the right of the left 1x1 plate with a clip. Repeat symmetrically on the right side.

230.1. Place a tan 1x2x2 tall slope brick, with the slope at the back, on the back two studs on the leftmost column of the wall. Repeat symmetrically on the right side.

230.2. Find the three raised plates on the back two rows of the wall. Place a tan 2x2x2 tall slope brick, with the slope at the back, on each of these raised plates.

231.1. Place a tan 1x2 curved slope brick, with the slope on the right, on the left two studs on the second row from the front. Repeat symmetrically on the right side.

231.2. Place a light brown 1x1 brick on each of the previous two pieces.

232. Place a tan 1x2x2 tall brick with a Hogwarts' crest sticker, horizontally and centered horizontally, on the second row from the front on the wall.

233.1. Place the front row of a dark tan 2x2 corner plate, with the corner at the front left so it's oriented like a braille letter H, on the previous piece.

233.2. Place a dark tan 1x1 tile to the right of the back stud of the previous piece.

233.3. Place a dark tan 1x2 plate, vertically, on the back two studs on the leftmost column of the wall. Repeat symmetrically on the right.

233.4. Place a dark tan 1x2 tile, horizontally, on the right 2x2x2 tall slope brick from step 121.2.

233.5. Place a dark tan 1x2 plate, horizontally, on the left 2x2x2 tall slope brick from step 121.2.

234. Place the right stud of a tan 1x4 arch brick, horizontally, on the left stud of the previous piece. Place another to the right of the first.

Open group 32.

235.1. Place a tan 1x1 brick in front of the left stud of the left piece from the previous step.

235.2. Place the left stud of a light brown 1x2 masonry brick, horizontally with the brick pattern at the front, in front of the rightmost stud of the right 1x4 arch brick from step 125.

236.1. Place a dark tan 1x1 tile on the right stud of the previous piece.

236.2. Place the front stud of a dark tan 2x2 corner plate, with the corner at the back right so it's oriented like a braille letter D, to the left of the previous piece.

236.3. Place a dark tan 1x2 plate, horizontally, to the left of the back row of the previous piece. Place another to the left of the first.

236.4. Place the back row of a dark tan 2x2 corner plate, with the corner at the back left so it's oriented like a braille letter F, to the left of the previous piece.

237.1. Place a light gray 1x2 brick with two holes, vertically, on the left column of the previous piece.

237.2. Place a tan 1x1 brick on the front stud of the 2x2 corner plate from step 127.2. This is the corner plate which is on the right side of the rightmost 1x4 arch brick.

238.1. Place a tan 1x1 brick on the back stud on the leftmost column of the wall. This is on top of the 1x2 brick with two holes from step 128.1.

238.2. Place a tan 1x2 inverted slope brick, with the slope at the back, on the previous piece.

239. Place a tan 1x2x3 arched window, horizontally, to the right of the front stud of the previous piece. Place two more to the right of the first.

240. Place a tan 1x6 plate, horizontally, on the previous three pieces.

241. Place a tan 1x8x3 arch brick, horizontally, in front of the previous piece. The left side of this piece should attach to a 1x2 brick with a hole and the right side should attach to a 1x1 brick.

242.1. Place the front row of a dark tan 2x2 corner tile, with the corner at the front left so it's oriented like a braille letter H, on the right two studs of the previous piece.

242.2. Place a dark tan 1x4 tile, horizontally, to the left of the front row of the previous piece.

242.3. Place a dark tan 1x4 tile with two studs, horizontally, behind the previous piece.

242.4. Place a dark tan 2x2 tile to the left of the previous two pieces.

242.5. Place a dark tan 1x1 tile behind the left column of the previous piece.

243.1. Place the right stud of a tan 1x4 arch brick, horizontally, on the back stud on the rightmost column of the wall. This is above a 1x2x2 tall slope brick. Place another to the left of the first.

243.2. Place a dark tan 1x8 plate, horizontally, on the previous two pieces.

Open group 33.

244.1. Place the back right stud of a tan 2x2 corner brick, with the corner at the back right so it's oriented like a braille letter D, on the leftmost stud of the previous piece.

244.2. Place a light brown 1x2 masonry brick, horizontally with the brick pattern at the back, on the back row of the previous piece.

244.3. Place a tan 2x2 inverted slope brick, with the slope at the back, on the previous piece.

244.4. Place a tan 1x1 brick on the front stud of the rightmost column of the wall.

244.5. Place a dark tan 1x1 tile on the previous piece.

245.1. Place a light gray 1x2 brick with two holes, vertically, on the rightmost column of the wall. The front stud should be on the previous piece.

245.2. Place a tan 1x2x3 arched window, horizontally, to the left of the back stud of the previous piece. Place two more to the left of the first.

246.1. Place a tan 1x6 plate, horizontally, on the previous three pieces.

246.2. Place a tan 1x1 brick to the right of the previous piece.

246.3. Place a tan 1x1 inverted slope brick, with the slope at the back, on the previous piece.

247. Place the right stud of a tan 1x8x3 arch brick, horizontally, in front of the previous piece. This piece should be to the left of another 1x8x3 arch brick.

248.1. Place the front row of a dark tan 2x2 tile on the right two studs of the previous piece.

248.2. Place a dark tan 1x4 tile, horizontally, to the left of the front row of the previous piece.

248.3. Place a dark tan 1x4 tile with two studs, horizontally, behind the previous piece.

248.4. Place a dark tan 2x2 tile to the left of the previous two pieces.

249.1. Place the right column of a dark tan 2x2 corner tile, with the corner at the back right so it's oriented like a braille letter F, behind the left column of the previous piece. The back row of this piece should cover up the two studs on the back row of the wall.

249.2. Place a dark tan 1x1 tile on the back stud on the rightmost column of the wall.

Open group 34.

250. Now we'll build the first part of the roof for this wall. Set the first wall aside for now. Place a dark tan 4x6 plate horizontally in front of you.

251.1. Place the right three studs of a sand green 1x4 plate, horizontally, on the left three studs on the back row of the previous piece.

251.2. Place a tan 1x2 brick, horizontally, to the right of the previous piece.

252. Place the back stud of a dark tan 1x3 plate, vertically, on the leftmost anti-stud of the 1x4 plate on the back row of the roof.

253. Place the left column of a dark tan 2x2 tile with a single stud, on the front two studs of the previous piece.

254.1. Place a sand green 1x2 slope tile, horizontally with the thick side at the front, on the left two studs on the 1x4 plate on the back row of the roof. Place another to the right of the first.

254.2. Place a tan 1x2 jumper plate, horizontally, to the right of the previous piece.

255.1. Place a black telescope, with the wide part at the bottom, on the previous piece.

255.2. Push the bar side of a transparent orange flame down into the hollow stud of the previous piece.

256. Place the first wall in front of you again, horizontally with the six arched windows at the back. Place the first roof, horizontally with the slope tiles on the back row, on the left six columns on the wall. The front of the 4x6 plate on the roof should overhang one stud to the front of the wall and the left side of the roof should be even with the left side of the wall.

Open group 35.

257. Now we'll build the rest of the roof. Set the first wall aside for now. Place a dark tan 4x8 plate horizontally in front of you.

258.1. Place a tan 1x2 brick, horizontally and centered horizontally, on the back row of the previous piece.

258.2. Place a sand green 1x4 plate, horizontally, to the left of the previous piece. Repeat symmetrically on the right side.

259. Place the back stud of a dark tan 1x3 plate, vertically, on the rightmost anti-stud of the right piece from the previous step.

260. Place the right column of a dark tan 2x2 tile with a single stud, on the front two studs of the previous piece.

261.1. Place two sand green 1x2 slope tiles, horizontally with the thick side at the front, on each of the two 1x4 plates on the back row of the roof.

261.2. Place a tan 1x2 jumper plate, horizontally, on the 1x2 brick on the back row of the roof.

262.1. Place a black telescope, with the wide part at the bottom, on the previous piece.

262.2. Push the bar side of a transparent orange flame down into the hollow stud of the previous piece.

263. Place the second wall in front of you again, horizontally with the six arched windows at the back. Place the second roof, horizontally with the slope tiles on the back row, to the right of the first roof. The front of the 4x8 plate on the roof should overhang one stud to the front of the wall and the right side of the roof should be even with the right side of the wall.

264.1. Now we will get ready to attach the wall to the rest of the build. We need to make a hinge like we did on the first wall. Find a gold 1x2 brick with rounded ends and rotate it so it's horizontal with the studs on top.

264.2. Find the two clips on the front of the wall. Push the right side of the piece we found in the previous step onto the left clip. This will be the hinge for the wall. It should be able to rotate left and right on the clip.

264.3. Place a light brown 1x2 tile with rounded ends, horizontally, on the previous piece.

265. Now we'll attach the second wall to the tower! Place the combined assembly in front of you, with the first wall on the left and the tower on the right. Find the clip on the right side of the Combined Assembly near the front. Clip the left side of the wall hinge to this clip.

Open group 36.

Sub-build 7: Tower Roof

266. Now we'll build the roof of the tower. Set the Combined Assembly aside for now. Place a dark tan 4x8 plate horizontally in front of you.

267. Place a tan 1x4 tile with two studs, horizontally, on the left four studs on the back row of the previous piece. Place another to the right of the previous piece.

268. Place the back two rows of a tan 2x4 plate, vertically, on the front two studs on the right two columns of the 4x8 plate.

269. Place a dark tan 4x8 plate, horizontally, in front of the first 4x8 plate. It should attach to the front two anti-stud of the previous piece.

270. Place a tan 1x4 tile with two studs, horizontally, on the left four studs on the front row of the previous piece. Place another to the right of the previous piece.

271. Place a tan 1x1 double slope tile, with the slopes at the front and back, on each corner of the roof.

272. Place a tan 2x2 corner plate, with the corner at the back left so it's oriented like a braille letter F, on the third and fourth studs from the front on the left two columns of the roof. Repeat symmetrically on the back side.

273.1. Place a tan 2x2 brick centered vertically on the previous two pieces.

273.2. Place a tan 1x2 double slope tile, vertically, on the left column of the previous piece.

273.3. Place a tan 1x2 plate with a bar sticking up from one side, vertically with the bar on the right, to the right of the previous piece.

273.4. Place a light brown 1x2 plate, vertically, on the previous piece.

274. Place a dark tan 1x1 tile on the leftmost stud on the third row from the front on the roof. This is directly in front of the left stud of the 2x2 brick. Repeat symmetrically on the back side.

Open group 37.

275. Place the back stud of a tan 1x2x2 tall slope brick, vertically with the slope at the front, to the right of the front piece from the previous step. Repeat symmetrically on the back side.

276. Place the front stud of a tan 1x2x2 tall slope brick, vertically with the slope at the front, on the front stud of the front piece from the previous step. Repeat symmetrically on the back side.

277.1. Place a tan 1x2 jumper plate, vertically, on the previous two pieces.

277.2. Find the bar sticking up to the right of the previous piece. Push a white 3L axle connector, from the top, onto this bar. A 3L axle connector is a cylinder that is three studs long with axle holes on both ends.

278.1. Now we'll start making the peaked roof! Place a light brown 1x2 plate, horizontally, in front of you.

278.2. Place a dark brown 1x2 hinge base, horizontally with the flat side at the back, on the previous piece.

278.3. Clip a dark brown 2x2 hinged plate, with the hinge base horizontally at the front, into the previous piece. The clip plate should extend to the back.

278.4. Place the 1x2 plate with the hinge on it, horizontally with the hinge plate extending to the back, on the right two studs on the third row from the back. This should be on the back row of the 2x4 plate on the right side of the roof.

278.5. Rotate the hinge plate down so it is up and down with the studs at the back. Place the bottom two anti-stud on the right two anti-stud columns of a sand green 6x6 plate, sideways with the studs facing the back, on the hinge plate.

278.6. Rotate the top of the previous piece towards you until it touches the white 3L axle connector from step 277.2.

279.1. Now we'll make the back side of the roof. This is a mirror of the first half. Place a light brown 1x2 plate, horizontally, in front of you.

279.2. Place a dark brown 1x2 hinge base, horizontally with the flat side at the front, on the previous piece.

279.3. Clip a dark brown 2x2 hinged plate, with the hinge base horizontally at the back, into the previous piece. The clip plate should extend to the front.

279.4. Place the 1x2 plate with the hinge on it, horizontally with the hinge plate extending to the front, on the right two studs on the third row from the front. This should be on the front row of the 2x4 plate on the right side of the roof.

279.5. Rotate the hinge plate down so it is up and down with the studs at the front. Place the bottom two anti-stud on the right two anti-stud columns of a sand green 6x6 plate, sideways with the studs facing the front, on the hinge plate.

279.6. Rotate the top of the previous piece from you until it touches the white 3L axle connector from step 277.2.

Open group 38.

280. Now we'll build a spire for the roof. Set the rest of the roof aside for now. Place a tan 2x2 plate in front of you.

281. Place a tan 1x2x2 arched window frame, horizontally with the flat side at the front, on the front row of the previous piece. Place another symmetrically on the back side.

282. Place a sand green 2x2 jagged cone on the previous piece.

283.1. Place a sand green 1x1 cone on the previous piece.

283.2. Place a sand green unicorn horn, with the point up, into the hollow stud on top of the previous piece.

284.1. Place a tan 1x2 plate with a 2x2 of studs hanging down from one side, horizontally with the sideways studs at the front, on the back row of anti-stud on the 2x2 plate at the bottom of the spire.

284.2. Place a light brown 1x2 plate, sideways and horizontally, on the top sideways row on the previous piece.

284.3. Place the top row of a tan 2x2 curved slope tile with a rosette sticker, sideways and so the bottom slopes away from you, on the previous piece.

285. Now we'll attach the spire to the roof. Place the roof in front of you with the open side at the back. Find the jumper plate on the second row from the front on top of the roof. Place the back row of anti-stud on the jumper plate. This completes the roof!

286. Now we'll attach the roof to the tower! Set the Complete Assembly in front of you, with the two walls at the left and right, and door at the front. The torches to the left and right of the door should be at the front. Place the tower roof on top of the tower. The sides of the roof should be even with the sides of the tower.

Congratulations! Now The Battle of Hogwarts™ is complete!

There are two pages of ads after the instructions end.

The ads show how you can connect multiple sets together to make one giant Hogwarts castle! The main image stretches across both pages and it shows the castle against a backdrop of misty hills. The castle is tan, with sand green roofs. It has multiple spires, columns, and stained glass windows. Students walk around, while the giant snake Nagini attacks a student out front! Dumbledore stands in the tower. Voldemort and Harry fire magical spells at each other in the foreground.

The sets which can be combined are 76402 Hogwarts Dumbledore's Office, 76401 Hogwarts Courtyard Sirius's Rescue, 76413 Hogwarts Room of Requirement, 76398 Hogwarts Hospital Wing, 76386 Hogwarts Polyjuice Potion Mistake, 76415 The Battle of Hogwarts, 76389 Hogwarts Chamber of Secrets.

Thank you so much for building this set!

Visit bricksfortheblind.org for more accessible instructions and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

We also love seeing your completed builds, so please tag our [Facebook](#) and [Instagram](#) accounts in any photos of your builds so we can share your accomplishments with our Bricks for the Blind community.
