

42613 Heartlake City Hospital Ambulance

Adapted by John Le and tested by Natalie Charbonneau

The social-emotional toy playset includes a buildable toy ambulance with ramp, skate park scene, 3 characters, and accessories.

This set tells the friendship story of Liann and Ben. Liann is teaching Ben to skateboard when he injures himself. Kids can use the additional face to change Ben's expression as he waits for the ambulance to arrive. Luiz drives the emergency vehicle toy, which comes with a stretcher, bandage, syringe, and first aid kit, letting your mini medic act out the rescue story. The accessories also include a skateboard and helmet.

LEGO® Friends toy ambulance set – This buildable ambulance for girls, boys, and kids aged 6 plus who love emergency vehicles comes with 3 characters, a skate park scene, and medical accessories.

Ramp and stretcher – The toy ambulance has opening doors, just like a real emergency vehicle, so kids can use the ramp, stretcher, and accessories to treat the patient.

A social-emotional toy with 3 LEGO® Friends characters – Set includes Liann and Luiz mini-dolls, plus a Ben figure with an additional face to show him before and after his fall.

Lots of accessories – This kids 'building kit comes with a skateboard and helmet, a syringe, a toy first aid kit, and a bandage.

Measurements – 344-piece set with ambulance measuring over 3.5 in. (9 cm) high, 5.5 in. (14 cm) long and 3 in. (8 cm) wide.

The front of the box shows the ambulance parked in the back. In the front, there is a boy that got hurt by riding his skateboard on a ramp! He is on a stretcher and is being carried into the ambulance by the EMT! His mom is close by and very worried because 1 of his eyes is closed!

The back of the box shows the ambulance can open up and reveal a ramp that allows to bring the stretcher on board!

The top of the box shows a real-sized image of Liann.

The build is 344 pieces in total and is for ages 6+.

Bag 1 includes the pieces for 2 minifigures, the ramp, and ambulance.

Bag 2 includes the pieces for the ambulance.

Bag 3 includes the pieces for 1 minifigure and the ambulance.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.

- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/42613>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 3 bags labeled 1 to 3, 1 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Mom, Skater, Ramp, and Ambulance

Group 1 - Page 5.

Group 2 - Pages 6-7.

Group 3 - Step 1, 1 light blue 1x3 sloped curved brick and 2 light blue 1x2 sloped curved tiles from Steps 2-3.

Group 4 - Rest of Steps 2-3 and Steps 4-7.

Group 5 - Steps 8-12.

Group 6 - Steps 1-4.

Group 7 - Steps 5-9

Group 8 - Steps 10-19.

Bag 2 - Ambulance

Group 9 - 1 black 2x3 plate and 2 tan 2x4 tiles from Step 20.

Group 10 - Rest of Step 20, Step 21, and 1 pink 1x6 tile from Step 22.

Group 11 - Rest of Step 22 and Steps 23-25.
Group 12 - Steps 26-29 and 2 light grey 1x2 sloped curved tiles from Step 30.
Group 13 - Rest of Step 30 and Steps 31-34.
Group 14 - Steps 35-51.
Group 15 - Steps 52-59.
Group 16 - Steps 60-63.

Bag 3 - EMT and Ambulance

Group 17 - Page 87.
Group 18 - Steps 64-83.
Group 19 - Steps 84-92.
Group 20 - Steps 93-94.
Group 21 - Steps 95-103.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Liann

Sub-build 1. Locate 1 pair of legs with pink shoes and light orange shorts, 1 torso printed with a purple and white shirt, 1 tan head printed with dark red eyes, 1 black hair, and 1 orange 1x2 tile printed with a phone. Assemble your minifigure then place the phone in her hand!

Group 2 - Ben

Sub-build 2. Locate 1 kid body printed with teal pants and a light orange long sleeve, 1 tan head printed with light blue eyes, 1 light brown hair, and 1 light blue helmet. Assemble your minifigure and you can switch out the helmet for hair if you want!

Sub-build 3.1. Locate 1 purple skateboard with 2 stickers and 2 pair of wheels. Attach the wheels to the front and back ends of the skateboard.

Sub-build 3.2. Skip this step if you have already placed your sticker! This is 1 of 2 stickers. Ask a helper to place sticker 3 on the purple skateboard. This sticker is of the top half of a cat with a space helmet on! Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

Sub-build 3.3. Skip this step if you have already placed your sticker! This is 2 of 2 stickers. Ask a helper to place sticker 4 on the purple skateboard. This sticker is of the bottom half of the cat in space! It just shows his legs! Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

Sub-build 3.4. Place an orange 1x1 cone brick on top of an orange 1x1 plate, then place it in front of you. This is a traffic cone! Now put everything away while we build the ramp!

Group 3 - Ramp

1. Horizontally place a green 4x8 plate in front of you. Then vertically place a light blue 1x3x2 sloped curved brick in the back left corner so it slopes to the front.

2.1. Vertically place a light blue 1x3 sloped curved brick on the 3rd column from the left so it slopes to the front.

You will have 2 extra light blue 1x2 sloped curved tiles. Save them for later.

Group 4 - Ramp

- 2.2. Vertically place a white 1x3 sloped curved brick in between the 2 previous sloped curved bricks so it slopes to the front.
3. Vertically place a white 1x2 sloped curved tile on the 2nd column from the left so it slopes and overhangs to the front. Then vertically place a light blue 1x2 sloped curved tile from group 3 to the left and right so they slope and overhang to the front.
4. Horizontally place a yellow 1x3 jumper plate on the back left corner on top of the sloped curved bricks.
5. Horizontally place a light grey 1x2 slope tile on the back row to the right of the previous jumper plate so it slopes to the back. Then place a light grey 1x1 slope tile to the right so it slopes to the back.
6. Horizontally place a black 2x3 plate in front of the previous 2 slope tiles. Then place a green 2x2 round plate in the back right corner. Now place a pink 1x1 round flower plate on the 2nd column from the right in front of the previous 2x2 round plate.
7. Horizontally place a light grey 2x3 tile on top of the previous 2x3 plate. Then place a brown 2x2 round tile with a stud on top of the previous 2x2 round plate.

Group 5 - Ramp

8. Insert a white bar with a stop into the top of the stud of the 2x2 round tile. Then vertically place a light grey 2x3 sloped curved brick in front of the left 2 columns of the previous 2x3 tile so it slopes and overhangs to the front. Then vertically place a light grey 1x3 sloped curved brick to the right so it slopes and overhangs to the front.
9. Insert a brown 1L pin connector into the top of the previous bar so it touches the 2x2 round tile. Then insert a brown candle stick with a bar into the top of the previous bar.
10. Insert the hole of a brown candle stick with a branch into the top of the previous candle stick so the branch faces the left. Then place another 1 on top so the branch is on the right.
11. Place a green 1x1 plate with 3 leaves on the left-facing branch so the leaves face the left. Then horizontally place a light green 1x2 rounded plate with leaves on the top-facing bar and right-facing branch so the leaves face the right.
12. Place a pink 1x1 round flower plate on the left stud of the previous 1x2 rounded plate with leaves.

Now place your minifigure on the skateboard and go ride the ramp! Be careful, and don't forget to wear your helmet!

Group 6 - Ambulance

1. Horizontally place a light grey 6x8 brick with holes and a 4x6 gap in front of you. Then insert a black 2L pin into the front left-facing and back left-facing holes.
2. Horizontally attach the right-facing holes of a light grey 6x8 brick with holes and a 4x6 gap to the left-facing pins.
3. Horizontally place a teal 1x2 plate with 2 side studs hanging down on the front right corner so the side studs face the front. Then repeat symmetrically to the back.

4. Horizontally place a teal 2x4 mudguard on the front row to the left of the previous 1x2 plate with 2 studs so it overhangs 1 row to the front and the arch faces the front. This is a brick with an arch! Then repeat symmetrically to the back.

Group 7 - Ambulance

5. Horizontally place 3 black 1x2 plates with 2 side studs hanging down, 1 to the right of the other, on the front row to the left of the previous 2x4 brick with an arch so the side studs face the front. Then repeat symmetrically to the back.

6. Horizontally place a teal 2x4 mudguard on the front left corner to the left of the previous 1x2 plates with 2 studs so it overhangs 1 row to the front and the arch faces the front. This is a brick with an arch! Then repeat symmetrically to the back.

7. Horizontally place 4 teal 1x2 slope tiles on the front-facing side studs so they slope down. Then repeat symmetrically to the back.

8. Horizontally place a white 1x8 plate on the 2nd row from the front on the rightmost column so there is no overhang to the right. Then repeat symmetrically to the back. Now vertically place a white 1x2 plate between the 2 rightmost studs of the previous 1x8 plates. Then vertically place a light green 1x2 grill tile between the 2 leftmost studs of the 1x8 plates.

9. Horizontally place a black 1x6 tile on the left 6 studs of the previous 1x8 plate in the front. Then place a black 2x2 corner tile to the right so it looks like the braille letter j. Now repeat both parts symmetrically to the back.

Group 8 - Ambulance

10.1. Let's make a part! Horizontally place a green 4x8 plate in front of you. Then vertically place a tan 1x4 brick on the rightmost column.

10.2. Horizontally place 2 tan 2x4 plates, 1 in front of the other, to the left of the previous 1x4 brick.

10.3. Vertically place 2 yellow 1x2 sloped curved bricks, 1 in front of the other, to the left of the 1x4 brick so they slope to the left.

10.4. Vertically place a yellow 2x4 tile to the left of the previous 1x2 sloped curved bricks so it is centered vertically. Then vertically place 2 light orange 1x2 panels with a middle wall, 1 in front of the other, to the left of the previous 2x4 tile so the middle walls face the right.

10.5. Vertically place a white 2x4 brick to the left of the previous panels so it is centered vertically.

10.6. Horizontally place your part to the left of the 2 previous 1x6 tiles so it is centered vertically.

11. Horizontally place a red 1x2 plate on the back row of the front left 2x4 brick with an arch so it is centered horizontally on it. Then repeat symmetrically to the right. Now repeat both parts symmetrically to the back.

12. Place a dark grey 1x1 brick to the left and right of the previous 1x2 plate you placed on the front right 2x4 brick with an arch. Then repeat symmetrically to the back. Now place a dark grey 1x1 brick to the right of the previous 1x2 plate you placed on the front left 2x4 brick with an arch. Then repeat symmetrically to the back.

13. Place a teal 2x2 brick on the front right corner in front of the 2x2 corner tile. Then horizontally place a teal 2x6 brick to the left on the front row in between the previous 1x1 bricks. Now repeat both parts symmetrically to the back.

14. Place a teal 1x1 plate on the front left and front right corners of the 2x4 brick with an arch that is in the front left. Now repeat symmetrically to the right. Then repeat both parts symmetrically to the back.

15. Vertically place a yellow 1x6 plate on the leftmost column so it is centered vertically. Then vertically place a light grey 1x2 brick with 2 side studs on the back 2 studs of the 1x6 plate so the side studs face the left. Then vertically place a light grey 1x4 brick with 4 side studs in front so the side studs face the left.

16. Horizontally place a pink 1x8 plate on the front left corner so there is no overhang. Then repeat symmetrically to the back. Now vertically place a yellow 1x6 plate in between the rightmost studs of the previous 1x8 plates.

17. Horizontally place a pink 1x8 plate on the back row to the right of the front 1x8 plate from step 16. Then horizontally place 2 pink 1x4 tiles, 1 to the right of the other, on the front row to the right of the previous 1x8 plate.

18. Insert a red 1L pin with a stud into the front right-facing and back right-facing hole so the stud side faces the right.

19.1. Let's make a part! Horizontally place a white 1x4 plate in front of you. Then horizontally place a black 1x2 tile with a sticker on top so it is centered horizontally.

19.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 1 on the black 1x2 tile. This sticker is a white license plate that reads H3LP-24. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

19.3. Horizontally place a light grey 1x2 sloped curved tile to the right of the 1x2 tile so it slopes and overhangs to the right, Then repeat symmetrically to the left.

19.4. Horizontally place your part upright on the right-facing studs of the previous 1L pins so it is centered horizontally.

Building Instructions (Bag 2, Book 1):

Group 9 - Ambulance

20.1. Let's make a part! Horizontally place a black 2x3 plate in front of you.

You will have 2 extra tan 2x4 tiles. Save them for later.

Group 10 - Ambulance

20.2. Horizontally place a lime green 2x3 plate on the back row so it overhangs 1 row to the back. Then repeat symmetrically to the front.

20.3. Vertically place a tan 2x4 tile from group 9 on the 2 leftmost columns so there is no overhang. Then vertically place another 1 to the right so it overhangs 1 column to the right.

20.4. Vertically place a light grey 1x4 plate with 2 hinges underneath the overhang so the hinges face the right.

20.5. Vertically attach the hinge connectors of a light grey 3x4 plate to the right-facing hinges. Then horizontally place 2 yellow 2x4 tiles, 1 in front of the other, on top of the 3x4 plate so they overhang 1 column to the right.

20.6. Horizontally place your part on top of the tiles in between the 2nd rows from the front and back to the right of the vertical 1x6 plate. It should not be connected to any studs. This is a ramp that you can pull out of the right side!

21. Place a teal 6x6 plate on top of your previous part to the right of the vertical 1x6 plate.

22.1. Vertically place a pink 1x6 tile on the rightmost column so it is centered vertically.

Group 11 - Ambulance

22.2. Vertically place a teal 1x6 tile to the left of the previous 1x6 tile so it is centered vertically. You can pull out the overhang of the 2x4 tiles out of the right side to lower the ramp!

23. Let's make a part! Horizontally place a teal 2x8 plate in front of you. Then place a transparent orange 1x1 round tile in the back left corner. Then repeat symmetrically to the right.

24. Place 2 light grey 3x3 plates, 1 to the right of the other, in between the 2 round 1x1 tiles so they overhang 1 row to the front.

25. Horizontally place a light grey 1x8 plate underneath the overhang so it is centered horizontally.

Group 12 - Ambulance

26. Horizontally place 2 dark grey 1x2 grill tiles, 1 to the right of the other, on the back row so together they are centered horizontally. Then place a transparent light blue 1x1 round tile to the left and right.

27. Horizontally place a teal 1x4 tile in front of the previous grill tiles so it is centered horizontally.

28.1. Horizontally place a black 1x2 tile with a sticker on the front row so it is centered horizontally.

28.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 1 on the black 1x2 tile. This sticker is a white licenses plate that reads H3LP-24. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

29. Place a light grey 1x1 tile to the left and right of the previous 1x2 tile with a sticker.

30.1. Horizontally place a light grey 1x2 sloped curved tile on the front right corner so it slopes to the right. Then repeat symmetrically to the left.

Group 13 - Ambulance

30.2. Horizontally place a teal 1x2 sloped curved tile behind the right 1x2 sloped curved tile so it slopes to the right. Then repeat symmetrically to the left.

31. Horizontally place your part on the left-facing side studs so it is centered horizontally.

32. Place a white 2x2 corner plate on the front left corner so it looks like the braille letter h. Then repeat symmetrically to the back.

33. Vertically place a light grey 1x6 brick on the 2nd column from the left in between the previous corner plates.

34.1. Vertically place a white 2x4 sloped curved brick with a sticker on the leftmost column in between the corner plates so it slopes to the left.

34.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 6 on the white 2x4 sloped curved tile. This sticker says AMBULANCE in light blue. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

Group 14 - Ambulance

35. Horizontally place a white 1x2 sloped curved tile in front of the previous 2x4 sloped curved brick so it slopes to the left. Then horizontally place a white 1x2 angled sloped curved tile in front so it slopes to the left. The angled side should face the front. Now repeat both parts symmetrically to the back.

36.1. Vertically place a yellow 1x2 slope tile with a sticker to the right of the back 2 studs of the 1x6 brick that is on the left so it slopes to the right.

36.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 7 on the yellow 1x2 slope tile. This sticker has a map and directions! Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

37. Vertically place a black 1x2 brick in front of the previous 1x2 slope tile. Then vertically place a yellow 1x2 steering wheel in front so the wheel faces the right.

38. Horizontally place a yellow 1x4 tile on the 2nd row from the front to the right of the steering wheel. Then repeat symmetrically to the back.

39. Horizontally place a white 1x4 plate on the front row to the right of the leftmost stud. Then repeat symmetrically to the back.

40. Horizontally place a white 1x8 plate on the back row to the right of the previous 1x4 plate. Then place a white 2x2 corner plate to the right so it looks like the braille letter d.

41. Horizontally place 2 white 1x2 plates attached with a hinge on the front row to the right of the 1x4 plate so the rounded part faces the front. It should swing out to the front. Make sure it is oriented as a 1x4 plate for now.

42. Vertically place a light blue 1x6 plate behind the 2nd stud from the left on the left 1x2 of the hinge plate. Then horizontally place a yellow 1x3 plate to the right of the back stud of this plate.

43. Horizontally place a white 1x2 plate on the front left corner. Then place a white 1x1 plate to the right. Now horizontally place a white 1x3 sloped curved brick to the right so it slopes to the left. Now repeat all parts symmetrically to the back.

44. Vertically place a white 1x8 plate on the leftmost column so it is centered vertically. Then vertically place a white 1x2 plate to the right so it sits on the 1x2 brick.

45. Place a black 1x1 plate with a side stud sticking up on the front row to the right of the previous 1x8 plate so the side stud faces the front. Then repeat symmetrically to the back.

46. Vertically place 2 transparent light blue 2x4 windshields, 1 in front of the other, on the 2 leftmost columns so they slope to the left and are centered vertically.

47. Vertically place a white 1x8 plate on top of the 2 previous windshields so there is no overhang. Then vertically place a light grey 1x6 tile on top so it is centered vertically. Now place a light grey 1x1 quarter tile in front so the curve faces the front left. Then repeat symmetrically to the back.

48. Place a black 1x1 sloped curved tile on the front-facing side stud so it slopes up and down. Then repeat symmetrically to the back.

49.1. Let's make a part! Horizontally place a white 1x8 brick in front of you. Then horizontally place a white 1x2 brick on the 2 rightmost studs. Then repeat symmetrically to the left.

49.2. Horizontally place 2 transparent light blue 1x2x2 panels, 1 to the right of the other, in between the 1x2 bricks so the walls face the back.

49.3. Vertically place your part to the right of the 1x3 sloped curved bricks on the front and back rows so the walls of the panels face the left and it is centered vertically.

50. Place a white 2x2 corner brick on the front 2 rows in front of the panel so it looks like the braille letter j. Then repeat symmetrically to the back.

51.1. Let's make a part! Horizontally place a white 2x3x2 cabinet in front of you so the opening faces the front. Then attach the transparent light blue door to the front so it opens to the left.

51.2. Then insert a white head wrap and a light blue needle inside. Then close the cabinet door.

51.3. Horizontally place your part on the back 2 rows to the right of the previous 2x2 corner brick so it opens to the front.

Group 15 - Ambulance

52. Place a white 1x1 brick on the back row to the right of the previous cabinet. Then horizontally place a white 1x2 brick in the back right corner.

53. Horizontally place a white 1x2 plate on the back row to the left of the previous 1x2 brick. Then horizontally place a white 1x2 plate with a hinge connector on top so the connector faces the front. Now horizontally place a white 1x2 plate on top.

54. Horizontally place a light grey 1x2 brick with a side stud on the back row to the right of the previous cabinet so the side stud faces the back. Then horizontally place a white 1x2x2 brick to the right.

55. Horizontally place a white 1x4 brick to the left of the previous 1x2x2 brick. Then place a white 1x1 brick to the left.

56. Place a white 1x1x2 brick with 2 side studs on the back right corner so the side studs face the right. Then place a white 1x1 plate on top. Now place 2 transparent light orange 1x1 round tiles upright on the right-facing side studs.

57. Place a white 1x1x3 brick on the rightmost column in front of the previous 1x2x2 brick with 2 side studs.

58. Horizontally place a yellow 1x2 panel on the front left corner of the previous cabinet so the wall faces the front. Then place a yellow 1x1 corner panel to the right so the corner wall faces the front right.

59. Place a light grey 2x2 corner plate on the back right corner so there is no overhang. It should look like the braille letter d. Then horizontally place a light grey 1x8 plate on the back row to the left. Now vertically place a light blue 1x6 plate in front of the 2nd stud from the left of the previous 1x8 plate.

Group 16 - Ambulance

60.1. Let's make a part! Place a transparent yellow 2x2 round plate with a smooth underside in front of you. Then vertically place a light grey 1x2 plate on the left column.

60.2. Vertically place a light grey 1x2 plate with a hinge on the right column so the hinge faces the right.

60.3. Place a teal 2x2 tile with a sticker on top so there is no overhang.

60.4. Skip this step if you have already placed your sticker! Ask a helper to place sticker 8 on the teal 2x2 tile. This sticker has vertical white lines with an x in the middle. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

60.5. Attach the hinge of your part to the front-facing hinge connector so the tile is flat and facing up.

61. Horizontally place a white 1x8 brick on the back right corner. Then place a white 1x1 brick on the rightmost column in front.

62. Vertically place a pink 1x2 tile on the back right corner. Then place a pink 1x1 tile on the back row to the left. Now horizontally place a pink 1x4 tile with 2 studs to the left. Then horizontally place a pink 1x2 tile to the left.

63.1. Rotate your build 180 degrees so the windshield faces the right. Place a white 3x3 round tile with a sticker upright on the front-facing side stud so it is centered. Then rotate your build 180 degrees so it goes back to its original orientation.

63.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 2 on the white 3x3 round tile. This sticker is a pink heart with a tan inner heart and a light yellow line with bends going through it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

Building Instructions (Bag 3, Book 1):

Group 17 - EMT Luiz

Sub-build 4. Locate 1 pair of legs printed with dark blue pants and black shoes, 1 torso printed with a teal uniform, 1 light brown head printed with a nose and eyes, 1 brown hair, 1 teal 1x2 plate with a bar, and 1 white 1x2 tile with a light blue snowflake. Assemble your minifigure then place the tile on the plate so there is no overhang. Then attach the bar to your minifigure's hand! Put your minifigure away while we continue building the ambulance.

Group 18 - Ambulance

64. Let's make a part! Vertically place a white 2x6 plate in front of you. Then horizontally place a white 1x4 brick on the back row so it overhangs 2 studs to the right.

65. Horizontally place a white 1x4 plate underneath the overhang.

66. Horizontally place a white 1x4 brick on the back row to the right of the previous 1x4 brick so it overhangs 2 studs to the right. Then vertically place a white 1x4 brick on the leftmost column in front of the 1x4 brick from step 64. Then place a white 1x1 brick in front.

67. Vertically place a yellow 1x2 grill tile on the front row to the right of the 1x1 brick so there is no overhang. Then place a yellow 1x1 tile behind it. Now vertically place a yellow 1x2 grill tile behind it.

68. Place a white 1x1x2 brick with 2 side studs on the back left corner so the side studs face the left. Then place a white 1x1 plate on top. Now place 2 transparent light orange 1x1 round tiles upright on the 2 left-facing side studs.

69. Horizontally place a white 1x2x2 brick on the back row to the right of the previous 1x1x2 brick.

70.1. Horizontally place a light grey 1x2 brick with a side stud and a sticker to the right of the previous 1x2x2 brick so the side stud faces the back.

70.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 5 on the light grey 1x2 brick with a side stud. This sticker is white and has meters and dials of vitals. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

71. Horizontally place a white 1x2 brick on top of the previous 1x2 brick with a side stud.

72.1. Horizontally place a white 1x2x2 brick with a sticker to the right of the previous 1x2 brick so the sticker faces the front.

72.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 9 on the light grey 1x2x2 brick. This sticker is a dark blue sticker with vitals. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

73. Stack 2 white 1x1 bricks together then place them on the rightmost column to the right of the previous 1x2x2 brick with a sticker. Then stack 2 more white 1x1 bricks together and place them on the leftmost column in front of the previous 1x1x2 brick with 2 side studs.

74. Vertically place 2 teal 1x2 plates with a bar on the long side, 1 in front of the other, in front of the previous stack of 1x1 bricks on the leftmost column so the bars face the left.

75. Place a light grey 2x2 corner plate in the back left corner so there is no overhang. Then horizontally place a light grey 1x4 plate on the back row to the right.

76. Vertically place a transparent light blue 1x4x2 panel on top of the previous 1x2 plates with a bar so the wall faces the left.

77. Rotate your part 180 degrees so the 1x4 panel faces the right. Now place your part on the front right corner of the ambulance so the overhang connects to the 2 1x2 plates connected with a hinge on the front row.

78. Horizontally place 2 light grey 1x2 plates attached with a hinge on the front row on top of your previous part to the left of the 1x4 plate so the rounded part faces the front!

79. Vertically place a white 1x2 brick on the back 2 rows of the build so it sits on top of the vertical 1x6 plate. Then place a white 1x1 brick in front.

80. Horizontally place a white 2x3 inverted slope brick in front of the previous 1x1 brick so it overhangs and slopes 2 columns to the right. Now place a white 1x1 brick in front of the front left stud of the previous 2x3 inverted slope brick. Then vertically place a white 1x2 brick in front.

81. Horizontally place a white 1x8 brick on the front row to the right of the previous 1x2 brick. Then place a white 1x1 brick on the rightmost column behind the previous 1x8 brick.

82.1. Rotate your build 180 degrees so the windshield faces the right. Place a white 3x3 round tile with a sticker upright on the front-facing side stud so it is centered. Then rotate your build 180 degrees so it goes back to its original orientation.

82.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 2 on the white 3x3 round tile. This sticker is a pink heart with a tan inner heart and a light yellow line with bends going through it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

83. Vertically place 2 white 1x4 sloped curved bricks, 1 in front of the other, on top of the previous 1x2 bricks and 1x1 bricks so together they are centered vertically and they slope to the left.

Group 19 - Ambulance

84. Place a pink 2x2 tile with a stud to the right of the previous bricks so it sits on the overhang of the 2x3 inverted sloped curved brick. Vertically place a pink 1x6 tile on the rightmost column in front of the 1x2 tile. Then place a pink 1x1 tile on the front row to the left of the previous 1x6 tile. Then horizontally place a pink 1x6 tile to the left.

85. Let's make a part! Place a white 8x8 plate in front of you. Then place a white 2x2 half-cylinder corner brick in the back left corner so it looks like the braille letter f. Then repeat symmetrically to the right.

86. Horizontally place a white 1x4 half-cylinder brick on the back row in between the corner bricks.

87. Horizontally place a pink 2x2 tile with a stud in front of the left corner brick and 1x4 brick. Then horizontally place a white 2x4 plate to the right.

88. Horizontally place a pink 2x4 plate in front of the previous 2x4 plate. Vertically place a dark grey 1x2 grill tile to the left of the previous 2x4 plate. Then vertically place a dark grey 1x2 jumper plate to the left. Now horizontally place a pink 2x4 plate in front of the previous 2x4 plate. Then place a pink 2x2 tile with a stud to the left.

89. Vertically place a white 1x4 half-cylinder brick on the rightmost column in front of the corner brick. Then repeat symmetrically to the left.

90. Place a white 2x2 half-cylinder corner brick in the front right corner so the corner faces the front right. Then repeat symmetrically to the left. Now horizontally place a white 1x4 half-cylinder brick on the front row in between them.

91. Place a dark grey binocular 1x1 plate on each of the 2x2 tiles with a stud so the binoculars face the left. Then place a black antenna on the 1x2 jumper plate so the antenna faces the right.

92. Place your part on top of the right side to the right of the 1x4 sloped curved bricks so it is centered vertically.

Group 20 - Ambulance

93.1. Let's make a part! Horizontally place a white 4x8 plate in front of you. Then horizontally place a white 2x3 tile in the back left corner. Then repeat symmetrically to the right

93.2. Horizontally place a white 1x8 tile in front of the previous tiles so it is centered horizontally.

93.3. Place a white 2x2 sloped curved tile on the front row so it is centered horizontally and slopes and overhangs to the front.

93.4. Vertically place your part to the left of the previous 1x4 sloped curved bricks so it is centered vertically and slopes to the left.

94.1. Let's make a part! Horizontally place a teal 1x6 plate in front of you. Then horizontally place a white 1x4 plate on top so it is centered horizontally.

94.2. Horizontally place a white 1x2 plate with an upright 2x2 tile on top so it is centered horizontally and the 2x2 anti-studs face the back.

94.3. Horizontally place a transparent light blue 1x2 tile on top so it is centered horizontally.

94.4. Place 4 transparent light orange 1x1 round tiles on top so there are no more exposed studs.

94.5. Place the 2x2 anti-studs of your part to the left of the previous 1x4 sloped curved bricks so it is vertical and the 1x1 round tiles face the left.

Group 21 - Ambulance

95.1. Insert a white wheel into a black tire so the stud faces up. Then place a pink 1x1 round tile on top. Now insert a yellow 2L pin into the bottom-facing hole. Now repeat 3 more times so you have 4 parts in total.

95.2. Attach the pins underneath the front and back arches to the holes so the wheels face front and back.

96. Let's make a part! Horizontally place a light grey 2x6 plate in front of you. Then place a white 2x2 plate on the 2 leftmost columns.

97. Place a white 2x2 plate on the 2 rightmost columns. Then place a yellow 1x2 plate with 2 side studs on the front row in between the 2 plates so the side studs face the front. Now repeat symmetrically to the back.

98. Vertically place a yellow 1x2 plate on the leftmost column. Then place a light blue 2x2 sloped curved tile on the 2 leftmost columns so it slopes to the right.

99. Horizontally place a light blue 2x3 tile to the right of the previous 2x2 sloped curved tile. Then vertically place a light blue 1x2 panel with a middle wall to the right so the middle wall faces the left.

100. Flip your build upside down so it is horizontal. Then place a light grey 2x2 round plate with clips underside on the 2 leftmost columns so the clips face the front and back. Then repeat symmetrically to the right.

101. Vertically place a black set of wheels on each of the clips of the 2x2 round plate.

102. Flip your build so it is upright, horizontal, and the 2x2 sloped curved tile faces the left. Horizontally place a white 1x2 plate with a bar on the front-facing side studs so the bar faces up. Then repeat symmetrically to the back. This is a stretcher!

103. Open up the back of your truck then place the stretcher inside!

Thank you so much for building this set!

Visit bricksfortheblind.org for more accessible instructions, sign up for our newsletter, and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

We also love seeing your completed builds, so please tag our [Facebook](#) and [Instagram](#) accounts in any photos of your builds so we can share your accomplishments with our Bricks for the Blind community.

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets are advertisements for the following 5 LEGO Friends Theme kits:

42620 Olly and Paisley's Family Houses

42604 Heartlake City Shopping Mall

42617 Farm Animal Sanctuary

42619 Pop Star Music Tour Bus

42606 Mobile Bakery Food Cart
