

## **77048 Kapp'n's Island Boat Tour**

Adapted by John Le and tested by Jolene Nemeth.

Kids' imaginations set sail as they head off with Kapp'n the turtle on his boat to the Animal Crossing-inspired deserted island to meet Marshal the squirrel. As they explore the activity-packed island, they collect the video game's iconic bamboo, go digging for Bells, and use the fishing rod to catch some fish to sell. After the fun role play, kids get creative rearranging the baseplates to change this building toy's layout. Every element is movable, which leads to limitless customizable fun!

Video game-inspired toy – LEGO® Animal Crossing™ Kapp'n's Island Boat Tour toy transports girls and boys aged 6+ to a scene from the video game series to role-play exploring an island with Marshal.

Familiar settings and toy characters – Includes a customizable buildable scene, lots of recognizable features, and 2 beloved characters: a Marshal squirrel minifigure and Kapp'n turtle minifigure.

Activity-packed deserted island toy – Just like in the video game series, kids can dig for Bells, pick coconuts, collect bamboo, ride in Kapp'n's boat, fish with a fishing rod, or catch a hermit crab.

Buildable scenes, limitless customization – Kids use their best creative skills to arrange the modular baseplates and toy accessories to create all-new stories for their Animal Crossing™ characters.

Dimensions – This 233-piece Animal Crossing™ deserted island set measures over 3.5 in. (9 cm) high, 11 in. (28 cm) wide and 6.5 in. (17 cm) deep when arranged in standard configuration.

The front of the box shows the island surrounded by a body of water. It has a tower and palm trees! There are waves, a dock and even beach chairs and an umbrella to relax! In the distance, a boat is coming around the island for a tour!

The back of the box shows island. A minifigure on the island is fishing trying to catch something to eat. He doesn't look very happy. Behind him, another minifigure on a boat is closing in getting ready to dock!

The top of the box shows the 2 minifigures standing next to each other!

The build is 233 pieces in total and is for ages 6+.

Bag 1 includes the pieces for a minifigure and the boat.

Bag 2 includes the pieces for a minifigure and part of the island.

Bag 3 includes the pieces for the rest of the island!

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.

- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/77048>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 3 bags labeled 1, 2, and 3, 1 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Kapp'n and Boat

Group 1 - Page 5.

Group 2 - Steps 1-13.

Group 3 - Steps 14-15.

Bag 2 - Marshal Squirrel and Island

Group 4 - Page 17.

Group 5 - Steps 1-12.  
Group 6 - Steps 13-22.  
Group 7 - Steps 23-30.  
Group 8 - Steps 31-33.  
Group 9 - Steps 34-42.  
Group 10 - Steps 43-46.

Bag 3 - Island

Group 11 - Steps 47-64 and 1 light green 1x1 plate with 3 leaves from Step 65.  
Group 12 - Rest of Step 65 and Step 66.  
Group 13 - Step 67-86.  
Group 14 - Steps 87-98.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Kapp'n

Sub-build 1. Locate 1 short dark green pair of legs, 1 green torso printed with a blue shirt with white flowers, a green head with a yellow peak, and 1 transparent red pair of glasses. Assemble your minifigure then attach the sunglasses to the top of his head! Now put him away while we make the boat!

Group 2 - Boat

1. Horizontally place a white 4x10 boat in front of you so the curved side faces the left.
2. Horizontally place a tan 1x2 jumper plate on the back right corner. Then repeat symmetrically to the front.
3. Place a light blue 2x2 round brick on the 2 rightmost columns in between the 1x2 jumper plates.
4. Vertically place a tan 2x4 tile on the 3rd and 4th columns from the right.
5. Place a tan 2x2 tile to the left of the 2x4 tile so it is centered vertically. Then horizontally place a tan 1x2 jumper plate in front and behind it.
6. Horizontally place a dark tan 1x2 rounded plate on the back row to the left of the left 1x2 jumper plate. Then repeat symmetrically to the front.
7. Vertically place a white 2x4 plate on top of the 1x2 rounded plates.
8. Horizontally place the right column of a pink 1x2 plate on the back right 1x2 jumper plate so it sits on the 2x4 tile. Then horizontally place a pink 1x2 tile on top.
9. Place a red 2x2 turntable plate on top of the 2x2 round brick that is on the rightmost column. Then place a light grey 2x2 round turntable plate on top.

10.1. Let's make a part! Horizontally place a blue 2x3 plate in front of you. Then vertically place a black 1x2 plate with a clip on the long side on the rightmost column so the clip faces the right.

10.2. Vertically place a black 1x2 plate with a bar on the long side on the middle column so the bar faces the left.

10.3. Place a light grey 1x2 plate with a clip on the short side on the middle column so the clip faces the front.

10.4. Place a light grey 2x2 sloped curved tile on the 2 right columns so it slopes to the right.

10.5. Horizontally place the 2 left columns of your part on top of the previous 2x2 round turntable plate. This is the motor of the boat!

11.1. Horizontally place a light grey 1x2 plate with a bar on the short side in front of you so the bar faces the left. Then place a light grey 1x1 round tile with an upward bar on the right stud. Then vertically insert a small yellow propeller into the bar.

11.2. Now attach the bar to the right-facing clip of the motor, then flip it down so it hangs.

12. Attach the side with a stop of a white bar to the front-facing clip of the motor so the bar faces up. Then attach a red flag to the top of the bar so it faces the right and the angled side faces down.

13. Rotate your boat 180 degrees. Then place a dark grey 1x1 round brick on the back 1x2 jumper plate. Then place a white 1x1 round plate with a hanging bar on top so the bar faces the right. Now place a dark grey 1x1 round tile on top.

#### Group 3 - Boat

14. Stack 2 red 1x1 round plates together, then place them on the back stud of the rightmost column. Make sure it is not the singular stud at the far end of the boat! Then place a transparent yellow 1x1 round brick on top. Now place a red 1x1 round tile on top.

15. Place an orange 1x1 round plate with a round float on top of the stud at the rightmost end of the boat so the float faces the left. Then attach the front right corner of a white 2x2 tile printed with a book about dogs and music on the front 1x2 jumper plate. Now put your boat away while we make a squirrel minifigure!

Building Instructions (Bag 2, Book 1):

#### Group 4 - Marshal Squirrel

Sub-build 2. Locate a short tan pair of legs, 1 tan tail, 1 torso printed with a blue and white shirt, and 1 tan squirrel head printed with a mad face and red cheeks. Assemble your minifigure and make sure the tail faces the back. Then put your minifigure away while we make the island!

#### Group 5 - Island

1. Horizontally place a light blue 2x4 plate in front of you.

2. Place the 2 leftmost columns of a tan 6x6 rounded plate on top of the 2 right columns of the plate so it is centered vertically.
3. Place a light brown 2x2 plate on the 2 leftmost columns and 2nd and 3rd rows from the front of the 6x6 rounded plate. Then vertically place 2 light brown 1x2 plates with a clip and a stud, 1 to the right of the other, behind the 2x2 plate so the clips face the back.
4. Horizontally place a red 1x2 plate on the front row of the previous 2x2 plate. Then place a red 2x2 tile behind it.
5. Let's make a part! Place a red 2x2 tile in front of you. Then vertically place 2 light brown 1x2 plates with a bar on the short side underneath the 2x2 tile so the bars face the front. Now vertically attach the bars of your part to the clips so the tile faces the front. This is a beach chair!
6. Let's make a part! Place a nougat 2x2 round ridged brick in front of you. Then place a light brown 2x2 round plate on top.
7. Place a nougat 2x2 round ridged brick on top. Then place a light brown 2x2 round plate on top.
8. Place a nougat 2x2 round ridged brick on top.
9. Vertically place 2 tan 1x2 plates with a hinge connector on the long side, next to each other, on top so the hinge connectors face the left and right.
10. Place a light brown 2x2 round plate on top.
- 11.1. Let's make 2 identical parts! Place a lime green head in front of you. Then place a brown 1x1 clip on top so the clip hands face left and right.
- 11.2. Now you should have 2 parts! Attach the clip of 1 part to the left-facing hinge connector so it hangs down. Then repeat symmetrically to the right.
12. Horizontally place your part on top of the 2 rightmost columns so it is centered vertically.

#### Group 6 - Island

13. Let's make a part! Place a green 4x4 round plate in front of you. Now horizontally place a light green 2x3 sloped curved brick on the rightmost column so it is centered vertically and slopes and overhangs 2 columns to the right.
14. Vertically place a green 1x2 panel with small clips to the left of the 2x3 sloped curved brick so the wall faces the right. Then vertically place a light green 1x2 slope tile to the left so it slopes to the right.
15. Horizontally place a light green 2x3 sloped curved brick on the leftmost column so it is centered vertically and slopes and overhangs 2 columns to the left.
16. Vertically place a light green 2x3 sloped curved brick on the front row so it is centered horizontally and slopes and overhangs 2 rows to the front. Then repeat symmetrically to the back.

17. Attach the bar of a black 2x2 plate with a bar underneath to the 1x2 panel with clips so it overhangs to the right.

18.1. Let's make another part! Place a light green 2x2 plate in front of you. Then vertically place a light green 1x2 slope tile on the left column so it slopes to the left. Now horizontally place a light green 2x3 sloped curved brick to the right so it slopes and overhangs 2 columns to the right.

18.2. Horizontally place the 2 left columns of your part on top of the 2x2 plate so it overhangs to the right. Then bend it to the left so it is diagonal.

19. Place your part on top of the 2x2 round plate that is on the 2 rightmost columns so it is centered. This is a palm tree!

20. Place 2 light blue 2x2 sloped curved tiles next to each other on the front row so together they are centered horizontally and slope and overhang to the front.

21. Place a light blue 2x2 plate with a cutoff corner underneath the left 2 columns of the front overhang so the cutoff corner faces the front left. Then repeat symmetrically to the right.

22. Place a white 1x1 tile with a rounded side on the front left stud of the 2x2 plates with cutoff corners so the rounded side faces the front. Then place a white 1x1 quarter tile to the right so the curve faces the front right.

#### Group 7 - Island

23. Put your main build away while we make another part of the island! Horizontally place a light blue 2x4 plate in front of you.

24. Place the 2 leftmost columns of a tan 6x6 rounded plate on the 2 rightmost columns so it is centered vertically.

25. Vertically place the back 2 rows of a light blue 2x4 plate underneath the front 2 rows so it is centered horizontally.

26. Place a white 2x2 round tile with a stud on the 2 rightmost columns on the 2nd and 3rd rows from the front of the 6x6 rounded plate.

27. Vertically place a light grey 1x2 plate with a hinge and a stud on the back 2 rows on the 3rd column from the right so the hinge faces the back.

28. Place a light brown 2x2 plate on the 2nd and 3rd columns from the left and 2nd and 3rd rows from the front of the 6x6 rounded plate. Then vertically place 2 light brown 1x2 plates with a clip and a stud, 1 to the right of the other, behind the 2x2 plate so the clips face the back.

29. Horizontally place a red 1x2 plate on the front row of the previous 2x2 plate. Then place a red 2x2 tile behind it.

30. Let's make a part! Place a red 2x2 tile in front of you. Then vertically place 2 light brown 1x2 plates with a bar on the short side underneath the 2x2 tile so the bars face the front. Now attach the bars to the previous clips so the tile is upright and faces the front. This is a beach chair!

#### Group 8 - Island

31.1. Let's make a part! Horizontally place a tan 1x2 rounded plate in front of you. Then place a yellow 1x2 plate on top.

31.2. Place a red 1x1 round flower plate on the right stud. Then place a green 1x1 plate with 3 leaves to the left so the leaves face the left. Now place 2 tan 1x1 tiles with a rounded side on top so the rounded sides face outward to the left and right.

31.3. Place your part on top of the 2x2 round tile with a stud so it is diagonal and faces the front left and back right.

32.1. Let's make a part! Vertically place a light grey hinge connector with an axle hole in front of you so the axle hole faces the back. Then attach the side with a stop of a white bar to the back-facing axle hole. Then attach a transparent pink umbrella to the back-facing bar so the rounded side faces the back.

32.2. Attach the hinge connector to the hinge on the back row. so the umbrella is upright.

33. Bring back your main build and place it in front of you so the 2x4 plate faces the left. Now attach the 2 rightmost columns of your part to the left-facing 2x2 plate so it is centered vertically.

#### Group 9 - Island

34. Put your main build away while we make another part of the island! Place a tan 6x6 rounded plate in front of you.

35. Place the leftmost stud of a brown 3x3 cross-shaped plate on the front stud of the leftmost column.

36. Place a brown 1x1 clip on top of the middle stud of the 3x3 cross-shaped plate so the clip hands face the front right and back left. Then attach a transparent orange flame to the clip so it faces the back right.

37. Place a nougat 2x2 round ridged brick on the back 2 rows on the 2nd and 3rd columns from the right. Then place a brown 1x1 plate with a clip on the back left corner of the 2x2 round ridged brick so the clip faces the back. Then horizontally place a brown 1x2 sloped curved tile on top so it slopes to the right.

38. Attach the bar of a diagonal 1x1 round plate to the back-facing clip so the stud faces the right. Then attach a black fishing rod to the stud so the doubled-sided stud is on the bottom.

39. Place 2 light blue 2x2 sloped curved tiles, 1 in front of the other, on the rightmost column so together they are centered vertically and slope and overhang to the right.

40. Place a light blue 2x2 plate with a cut off corner underneath the front 2 rows of overhang so the cutoff corner faces the front right. Then repeat symmetrically to the back.

41. Place a white 1x1 tile with a rounded side on the front stud of the previous 2x2 plates with a cutoff corner so the rounded side faces the right. Then place a white 1x1 quarter tile behind it so the curve faces the back right. Then place an orange fish in the back right corner! It should not connect to any studs!

42. Bring back your main build so it is horizontal and the 2x4 plate underneath the 6x6 rounded plate faces the front! Now rotate your part so the 1x1 quarter tile faces the front, then place the back 2 rows of your part on top of the front 2 rows of the 2x4 plate so it is centered horizontally on it.

#### Group 10 - Island

43. Let's make a part! Place a green 6x6 rounded plate in front of you.

44. Place a white 2x2 round tile with a stud on the 2 rightmost columns so it is centered vertically. Then place a dark green 1x1 plate with 3 leaves on the 2nd stud from the front of the 2nd column from the left so the leaves face the front right.

45. Place a dark tan 1x1 round tile with an upward bar on top of the 2x2 round tile with a stud. Then place a lime green head upside down on top of the bar. Now place a nougat diagonal 1x1 round plate with a bar underneath to the top of the head so the bar faces the back right.

46. Place the 2 rightmost columns of your part on the 2 leftmost columns on top of the 2x4 plate so it is centered vertically on it.

#### Building Instructions (Bag 3, Book 1):

#### Group 11 - Island

47. Vertically place a light blue 2x4 plate underneath the back 2 rows of the leftmost 6x6 rounded plate so it is centered horizontally underneath it.

48. Put your main build away while we make another part of the island! Horizontally place a light blue 2x4 plate in front of you.

49. Place the 2 rightmost columns of a green 8x8 rounded plate on top of the 2 leftmost columns of the 2x4 plate so it is centered vertically.

50. Place a tan 1x2 curved brick on the back right corner of the 8x8 rounded plate so the curved side faces the back right corner.

51. Vertically place a tan 1x2x2 brick on the rightmost column of the 8x8 rounded plate in front of the previous 1x2 curved brick. Then horizontally place another 1 on the back row to the left of the 1x2 curved brick.

52. Place a tan 1x2 curved brick on the back 2 rows to the left of the 1x2x2 brick so the curved side faces the back left. Then place another 1 on the 2 rightmost columns of the 8x8 rounded plate in front of the 1x2x2 brick so the curved side faces the front right.

53. Vertically place a tan 1x2x2 brick in front of the leftmost 1x2 curved brick. Then horizontally place another 1 to the left of the front 1x2 curved brick that is on the 2 rightmost columns. Now place a tan 1x2 curved brick in front and to the left of the 1x2x2 brick so the curved side faces the front left.

54. Place another tan 1x2 curved brick on top of each of the previous 1x2 curved bricks so they align.

55. Place a green 1x2 plate on top of each of the previous 1x2x2 bricks.

56. Place a green 6x6 rounded plate on top of the previous 1x2 plates and 1x2 curved bricks so there is no overhang.

57. Place a green 1x2 plate with 2 clips on the leftmost column of the 6x6 rounded plate so it is centered vertically and the clips face the left. Then place a tan 4x4 round brick on the back right corner of the 6x6 rounded plate so there is no overhang.

58. Vertically attach the top rung of a light brown ladder to the left-facing clip so it hangs down.

59. Stack 2 light grey 2x2 round plates so there is no overhang then place them on top of the 4x4 round brick so it is centered. Then place a brown 2x2 round tile on top.

60. Place 4 tan 1x2 curved bricks all around the previous 2x2 round tile so there is no overhang.

61. Horizontally place a green 1x2 plate with a rail on the back row of the previous 1x2 curved bricks so it is centered horizontally and the rail faces the front. Then repeat symmetrically to the front. Now vertically place a light green 1x2 plate on the leftmost column of the previous 1x2 curved bricks so it is centered vertically. Then repeat symmetrically to the right.

62. Place a light green 4x4 rounded plate with a 2x2 gap on top of the plates from the previous step so it is centered.

63.1. Let's make a part! Place a light green 2x2 plate in front of you. Then place a light grey 2x2 plate with a cutoff corner on top so the cutoff corner faces the front left corner. Now vertically place a light grey 1x2 slope brick on the right column so it slopes to the front. Then place a light grey 1x1 slope tile on the left column so it slopes to the left.

63.2. Now place a yellow 1x1 round tile printed with a star on top of the 2x2 round tile that is surrounded by the 4x4 rounded plate with a 2x2 gap. It should not connect to any studs! Then place your part on top so the 1x2 slope is on the right and slopes to the front. It should not attach to any studs!

64.1. Let's make 2 identical parts! Stack 3 light green 1x1 round bricks on top of each other. Then place a green 1x1 plate with 3 leaves on top so the leaves face the left. Then place another 1 on top so the leaves face the right.

64.2. Now you should have 2 identical parts! Place 1 on the back right corner of the 4x4 rounded plate with a 2x2 gap so the leaves face left and right. Then place another 1 on the 6x6 rounded plate in front of the 1x2 slope brick so the leaves face left and right.

You will have an extra light green 1x1 plate with 3 leaves. Save it for later.

## Group 12 - Island

65. Place a light green 1x1 round brick on the back stud of the 2nd column from the left of the 6x6 rounded plate. Then place a light green 1x1 plate with 3 leaves from group 11 on top so the leaves face the left. Now place a dark grey 1x1 round tile on the back left stud of the 2x2 set of studs that are on the front 2 rows of the 8x8 rounded plate. Then place a dark green 1x1 plate with 3 leaves on the 2nd row from the front of the 6x6 rounded plate on the 2nd stud from the left so the leaves face the front left.

66. Bring back your main build and horizontally place it in front of you so the tree is on the right. Then rotate your build 90 degrees so the ladder faces the front. Then attach the front 2 rows of your part to the back left 2x4 plate so it is centered horizontally on it.

## Group 13 - Island

67. Put away your main build while we make another part of the island! Now horizontally place a light blue 2x4 plate in front of you.

68. Place the 2 leftmost columns of a tan 6x6 rounded plate on the 2 right columns of the 2x4 plate so it is centered vertically.

69. Horizontally place the left 2 columns of a light blue 2x4 plate underneath the 2 rightmost columns so it is centered vertically. Then vertically place a light blue 2x4 plate underneath the front 2 rows so it is centered horizontally.

70.1. Let's make a part! Place a brown 2x2 round stump brick in front of you. Then place a brown 1x1 plate with a clip in the back right corner so the clip faces the right. Then horizontally place a brown 1x2 sloped curved tile on the back row so it slopes to the left. Now place a white 1x2 tile printed with an acorn on the front row.

70.2. Place your part on the 2nd and 3rd rows from the front and 2nd and 3rd columns from the right.

71. Attach a silver shovel to the right-facing clip so the tip of the shovel is on top and slopes to the front.

72. Let's make a part! Place a nougat 2x2 round ridged brick in front of you. Then place a light brown 2x2 round plate on top.

73. Place a nougat 2x2 round ridged brick on top. Then place a light brown 2x2 round plate on top.

74. Place a nougat 2x2 round ridged brick on top.

75. Vertically place 2 tan 1x2 plates with a hinge connector on the long side, next to each other, on top so the hinge connectors face the left and right.

76. Place a nougat 2x2 round plate on top.

77.1. Let's make 2 identical parts! Place a lime green head in front of you. Then place a brown 1x1 clip on top so the clip hands face left and right.

77.2. Now you should have 2 parts! Attach the clip of 1 part to the left-facing hinge connector so it hangs down. Then repeat symmetrically to the right.

78. Horizontally place your part on the back 2 rows so it is centered vertically.

79. Let's make a part! Place a green 4x4 round plate in front of you. Now horizontally place a light green 2x3 sloped curved brick on the leftmost column so it is centered vertically and slopes and overhangs 2 columns to the left.

80. Vertically place a green 1x2 panel with small clips to the right of the 2x3 sloped curved brick so the wall faces the left. Then vertically place a light green 1x2 slope tile to the right so it slopes to the left.

81. Horizontally place a light green 2x3 sloped curved brick on the rightmost column so it is centered vertically and slopes and overhangs 2 columns to the right.

82. Vertically place a light green 2x3 sloped curved brick on the front row so it is centered horizontally and slopes and overhangs 2 rows to the front. Then repeat symmetrically to the back.

83. Attach the bar of a black 2x2 plate with a bar underneath to the 1x2 panel with clips so it overhangs to the left.

84.1. Let's make another part! Place a light green 2x2 plate in front of you. Then vertically place a light green 1x2 slope tile on the right column so it slopes to the right. Now horizontally place a light green 2x3 sloped curved brick to the left so it slopes and overhangs 2 columns to the right.

84.2. Horizontally place the 2 right columns of your part on top of the 2x2 plate so it overhangs to the left. Then bend it to the right so it is diagonal.

85. Place your part on top of the 2x2 round plate that is on the back 2 rows so it is centered. This is a palm tree!

86. Bring back your main build so it is horizontal and the tree is on the right and the umbrella is in the back. Then attach the right 2x4 plate of your part to the 2 leftmost columns of the leftmost 6x6 rounded plate so it is centered vertically to it. Now put away your main build while we make more of the island.

87. Horizontally place a light blue 2x4 plate in front of you.

88. Place a tan 4x4 rounded plate on the 2 right columns so it is centered vertically.

#### Group 14 - Island

89. Place a light blue 4x4 rounded plate on the 2 left columns of the 2x4 plate so it is centered vertically.

90.1. Let's make a part! Horizontally place a brown 1x4 arch brick in front of you. Then vertically place a light brown 2x3 tile on the middle 2 studs so it overhangs 2 rows to the front.

90.2. Horizontally place a brown 1x4 arch brick underneath the front overhang row so it is centered horizontally.

90.3. Vertically place a light brown 1x3 tile with 2 studs on the left column so it is centered vertically. Then repeat symmetrically to the right.

90.4. Horizontally place the leftmost column of your part on the back 3 rows on the 2nd column from the left.

91. Place a dark grey 1x1 round tile on the rightmost column on the 2nd row from the front. Then place a white 1x1 quarter tile in the back left corner so the curve faces the back left. Then place another 1 on the leftmost column on the 2nd row from the front so the curve faces the front left. Then place another 1 on the front row on the 2nd column from the left so the curve faces the front right.

92. Bring back your main build so it is oriented the same way as before. Then horizontally attach the 2 rightmost columns of your part to the left-facing 2x4 plate so it is centered vertically on it.

93. Let's make a part! Place a tan 4x4 rounded plate in front of you.

94. Place 2 light blue 2x2 sloped curved tiles on the front row so they slope and overhang to the front.

95. Place a light blue 2x2 plate with a cutoff corner underneath the left 2 columns of overhang so the cutoff corner faces the front left. Then repeat symmetrically to the right.

96. Place a white 1x1 tile with a rounded side on top of the left 2x2 plate with a cutoff corner so the rounded side faces the front. Then place a white 1x1 quarter tile to the right so the curved side faces the front right.

97. Place an orange hermit crab on the rightmost column and 2nd stud from the back so the bar faces the back. Then insert a white 1x1 round plate into the bar. Now place a white swirl on top! This is the shell!

98. Vertically place the back 2 rows of your part on top of the front-facing 2x4 plate underneath the 6x6 rounded plate so it is centered horizontally.

Thank you so much for building this set!

Visit [bricksfortheblind.org](http://bricksfortheblind.org) for more accessible instructions, [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

We also love seeing your completed builds, so please tag our [Facebook](#) and [Instagram](#) accounts in any photos of your builds so we can share your accomplishments with our Bricks for the Blind community.

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets are advertisements for the following 5 LEGO Animal Crossing Theme kits:

77046 Julian's Birthday Party

77047 Bunnie's Outdoor Activities

77048 Kapp'n's Island Boat Tour

77049 Isabelle's House Visit

77050 Nook's Cranny & Rosie's House
