

## **21281 Baby Pig's Birthday Celebration**

Adapted by John Le and tested by Jolene Nemeth

This party-themed gift is filled with LEGO Minecraft models and character mobs. There's a Creeper™ figure with movable legs and head and an opening compartment on the top of its head where gunpowder can be found (in the form of a small, gray element); a baby zombie with movable head, arms and legs; a baby fox with movable head, legs and tail; a baby cat with movable head, legs and tail; a baby llama with movable legs; a baby pig with movable head; and a cake that can be separated into 3 pieces.

Celebrate with Minecraft® figures and cake – Baby Pig's Birthday Celebration is a buildable video-game toy with a birthday party theme for boys and girls aged 8 and up.

Build-and-play Minecraft® models – Includes a Creeper™ (head opens to reveal its gunpowder supply), baby zombie, baby fox, baby cat, baby llama and baby pig, all with movable parts, plus a cake.

Creative role-play toy – Kids can enjoy imaginative Minecraft® action and adventures with the characters and join them for a birthday party with a buildable Minecraft cake.

Minecraft® birthday party – The buildable cake divides into 3 slices and features a candle element.

351-piece set – The Creeper™ model stands over 4 in. (10 cm) tall.

The front of the box shows a creeper, zombie, fox, llama, pig, and a cat all gathered around a cake!

The back of the box shows all the animals and mobs dancing and the cake is cut in half! There are 3 smaller pictures which show that the creeper, fox, and zombie can rotate their body parts!

The top of the box shows all the animals and mobs and their names!

The build is 351 pieces in total and is for ages 8+.

Bag 1 includes the pieces for the zombie, fox, and the cake.

Bag 2 includes the pieces for the cat and pig.

Bag 3 includes the pieces for the creeper and llama.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.

- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/PPP: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/21281>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 3 bags labeled 1, 2, and 3, 1 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Zombie, Fox, and Cake

Group 1 - Steps 1-7.

Group 2 - Steps 8-15.

Group 3 - Steps 1-12 and 2 light brown 1x1 tiles from step 13.

Group 4 - Rest of Step 13, Steps 14-16, and 1 light brown 1x2 plate from Step 17.

Group 5 - Rest of Step 17 and Steps 18-21.

Group 6 - Steps 1-5.

Group 7 - Steps 6-11.

### Bag 2 - Cat and Pig

Group 8 - Steps 1-2 and 1 tan 1x2 plate from Step 3.

Group 9 - Rest of Step 3, Step 4, and 1 light brown 1x2 jumper plate from Step 5.

Group 10 - Rest of Step 5 and Steps 6-7.

Group 11 - 2 white 1x1 tiles from Step 8.

Group 12 - Rest of Step 8 and Step 9.

Group 13 - Steps 10-13, and 2 white 1x1 bricks from Step 14.

Group 14 - 1 dark brown 1x1 brick from Step 14.

Group 15 - 1 light orange 1x1 brick from Step 14 and Steps 15-18.

Group 16 - Steps 1-18.

Group 17 - Step 19.

### Bag 3 - Creeper and Llama

Group 18 - Steps 1-10 and 1 green 1x1 tile from Step 11.

Group 19 - Rest of Step 11, Steps 12-20, and 1 black 1x1 tile from Step 21..

Group 20 - Rest of Step 21 and Steps 22-29.

Group 21 - Steps 30-35.

Group 22 - Steps 36-37 and 1 green 2x4 tile with 2 eyes from Step 38.

Group 23 - Rest of Step 38 and Steps 39-43.

Group 24 - Steps 1-13.

Group 25 - Steps 14-18

Group 26 - Steps 19-22.

Let's get to building!

Building Instructions (Bag 1, Book 1):

#### Group 1 - Zombie

1. Place a blue 2x2 plate in front of you. Then horizontally place a light blue 1x2 plate with 2 bars on the back row so the bars face left and right.

2. Horizontally place a blue 1x2 plate with a bar on each of the short ends on the front row.

3. Horizontally place a dark grey 1x2 plate with a ball on the long side on the back row so the ball faces the back. Then horizontally place a light blue 1x2 plate with 2 clips on the front row so the clips face the front.

4. Place a blue 2x2 plate on top so it is centered.

5. Place a blue 2x2 tile on top.

6.1. Let's make 2 identical parts! Stack 2 green 1x1 bricks together then place them in front of you. Now place a blue 1x1 clip on top so the clip hands face left and right.

6.2. Now you should have 2 identical parts! Attach the clip of 1 part to the left-facing bar. Then repeat symmetrically to the right. These are the zombie's arms!

7.1. Let's make 2 identical parts! Horizontally place a purple 1x3 plate in front of you. Then horizontally place a black 1x2 plate with a bar on the short side on the 2 left studs so the bar faces the left. Then place a purple 1x1 plate to the right. Now horizontally place a purple 1x3 tile on top.

7.2. Now you should have 2 identical parts! Vertically attach the bars of both parts to the front-facing clips so the tile side faces up. These are the legs for the zombie!

#### Group 2 - Zombie

8. Let's make a part! Place a green 3x3 plate in front of you. Then horizontally place a dark green 2x3 plate on the back 2 rows.

9. Place a green 1x1 plate on the front left and front right corners.

10. Vertically place a dark green 1x2 plate on the back 2 rows on the middle column. Then vertically place a light grey 1x2 plate with a socket on top so the socket faces the front. Now vertically place another 1x2 dark green 1x2 plate on top.

11. Vertically place a dark green 1x2 brick in the back left and back right corners. Now place a green 1x1 brick in the front left and front right corners.

12. Place a green 3x3 plate on top so it is centered.

13. Horizontally place a dark green 1x3 tile on the back row. Then horizontally place a green 2x3 tile with a zombie face in front so the print is in the back. This is the zombie head!

14. Place your previous zombie body upright so the ball faces up. It should stand up on its legs! Now attach the socket of your zombie head to the top-facing ball!

15. Make sure the tile side of the head and body face the front. Then rotate the arms so they face the front. Now put this away so we can make the fox!

#### Group 3 - Fox

1. Horizontally place an orange 2x3 plate in front of you. Then horizontally place a nougat 1x2 plate with a stud and a clip on the front left corner so the clip faces the left. Then repeat symmetrically to the back.

2. Place an orange 2x2 plate on the rightmost column so it overhangs 1 column to the right. Then vertically place a brown 1x2 plate with a bar on the long side underneath the overhang so the bar faces the right.

3. Horizontally place an orange 2x3 plate on top so there is no overhang.

4.1. Let's make a part! Horizontally place a black 1x2 rounded plate in front of you. Horizontally place a light brown 1x2 panel with small clips on top so the wall faces the back.

4.2. Place a brown 2x2 plate with a bar underneath on top so it overhangs to the front.

4.3. Flip your previous build upside down so it is horizontal and the bar faces the right. Now vertically place your part upside down so the 1x2 rounded plate sits on the rightmost column.

5. Vertically place a light brown 1x2 brick with a vertical gap upside down on the leftmost column so the gap faces the left. Then vertically place a black 1x2 rounded plate upside down on top.

6. Flip your build over so it is horizontal and the clips are on the left. Now place 2 light brown 1x1 tiles, 1 in front of the other, on the leftmost column. They should sit to the right of the clips!

7. Horizontally place an orange 1x2 jumper plate in the back right corner. Then repeat symmetrically to the front.

8.1. Let's make a part! Place a white 1x1 plate in front of you. Then place an orange 1x1 brick on top. Now place a brown 1x1 clip on top so the clip hands face the left and right. This is the tail!

8.2. Now attach the clip to the right-facing bar of your fox body! Now put your body away!

9. Let's make the fox head now! Place an orange 2x2 plate in front of you. Then horizontally place an orange 1x4 brick on the back row so it is centered horizontally.

10. Vertically place an orange 1x3 plate underneath the left overhang so 2 studs are exposed to the front. Then repeat symmetrically to the right.

11. Horizontally place a brown 1x4 plate in front of the 1x4 brick so it is centered horizontally. Place a light brown 1x1 tile on the front left corner. Then repeat symmetrically to the right.

12. Horizontally place a light grey 1x2 plate with a bar on the long side in front of the 1x4 brick so the bar faces the front and it is centered horizontally. Now stack 2 black 1x2 rounded plates together so there is no overhang, then horizontally place it on top.

You will have 2 extra light brown 1x1 tiles. Save them for later!

#### Group 4 - Fox

13.1. Let's make 2 identical parts! Place a nougat 1x1 plate with 2 side studs in front of you so the side studs face the front. Then vertically place a light brown 1x2 plate upright on the front-facing side studs.

13.2. Place a white 1x1 tile upright on the upper front-facing side stud. Then place a light brown 1x1 tile from group 3 upright on the lower front-facing side stud.

13.3. Now you should have 2 identical parts! Place 1 in front of the 1x4 brick on the leftmost column so the tiles face the front. Then repeat symmetrically to the right.

14. Rotate your build 180 degrees so the 1x4 brick faces the front. Now place an orange 1x1 brick behind the 1x4 brick on the leftmost column. Then repeat symmetrically to the right.

15. Place an orange 2x2 corner plate on the front left corner so it overhangs to the front. It should look like the braille letter f. Then repeat symmetrically to the right.

16. Horizontally place a brown 1x4 plate on the 2nd row from the front so it is centered horizontally.

You will have an extra light brown 1x2 plate. Save it for later.

#### Group 5 - Fox

17.1. Let's make a part! Horizontally place an orange 1x2 plate with 2x2 side studs in front of you so the side studs face the front. Now horizontally place a light brown 1x2 plate upright on the lower front-facing side studs.

17.2. Horizontally place an orange 1x2 plate printed with a white and black side upright on the upper front-facing side studs so the print faces up. This is the fox's nose!

17.3. Place a white 2x2 tile upright on the front-facing side studs.

17.4. Horizontally place your part behind the previous 1x4 plate so it is centered horizontally and the tile faces the back.

18. Horizontally place an orange 2x4 tile printed with black and white eyes on top of the front 2 rows so it is centered horizontally and the eyes face the back.

19. Place a white 1x1 tile on the front left and front right corners. These are the ears!

20. Bring back your fox body and vertically place it in front of you so the clips are in the front. Now attach the back-facing bar of your fox head on top of the clips so the nose faces the front!

21. Put your fox away now while we make the cake!

#### Group 6 - Cake

1. Horizontally place a light brown 2x6 brick in front of you. Then place a light brown 2x2 brick on the 2 leftmost columns. Then repeat symmetrically to the right.

2. Horizontally place 2 dark brown 1x2 bricks with an axle hole, 1 in front of the other, between the 2x2 bricks.

3. Horizontally place a white 2x6 plate on top so it is centered.

4. Insert a black 4L axle into the axle hole so it is centered vertically.

5. Place a white 2x2 tile on the 2 leftmost columns. Then repeat symmetrically to the right. Now place a red 2x2 tile with a stud in between.

#### Group 7 - Cake

6. Let's make 2 identical parts! Horizontally place a light brown 2x6 brick in front of you. Then place a white 2x2 brick on the 2 leftmost columns. Then repeat symmetrically to the right.

7. Horizontally place a light brown 1x2 brick on the front row in between the 2x2 bricks. Then horizontally place a dark brown 1x2 brick with an axle hole behind it.

8. Horizontally place a white 2x6 plate on top so it is centered.

9. Place a white 2x2 corner tile in the front left corner so it looks like the braille letter h. Then place 1 in the back right corner so it looks like the braille letter d. Now place white 2x2 tile in between them. Then place a red 1x1 plate on top of the 2x6 plate in the missing corners of the 2x2 corner tiles.

10. Now you should have 2 identical parts Horizontally attach 1 part to the front-facing axle of your previous build. Then repeat symmetrically to the back.

11. Place a short blue 1x1 brick on top of the 2x2 tile with a stud. It is in the center! Then insert a transparent orange candle flame on top! Now put your cake away while we make a cat!

Building Instructions (Bag 2, Book 1):

#### Group 8 - Cat

1. Horizontally place a white 1x4 plate in front of you. Then place a white 2x2 plate on the 2 rightmost studs so it overhangs 1 row to the front.

2. Horizontally place a white 1x4 plate underneath the front overhang so it is aligned with the previous 1x4 plate.

3.1. Vertically place a tan 1x2 plate on the 2nd column from the left.

#### Group 9 - Cat

3.2. Vertically place a brown 1x2 plate on the leftmost column.

4. Vertically place a light grey 1x2 plate with a socket on the long side on the leftmost column so the socket faces the left. Then place a yellow 2x2 plate to the right. Then vertically place a white 1x2 plate with a clip on the long side on the rightmost column so the clip faces the right.

5.1. Place a tan 2x2 corner tile in the back left corner so it looks like the braille letter f. Then place a light orange 1x1 tile on the 2nd column from the left in front of the corner tile. Now horizontally place a brown 1x2 jumper plate on the back right corner.

#### Group 10 - Cat

5.2. Horizontally place a light brown 1x2 jumper plate on the front right corner.

6. Flip your build upside down so it is horizontal and the clip faces the right. Now vertically place a white 1x2 brick with a vertical gap on the leftmost column so the gap faces the left. Then vertically place a light grey 1x2 rounded plate on top.

7.1. Let's make a part! Horizontally place a light grey 1x2 rounded plate in front of you. Then horizontally place a white 1x2 panel with small clips on top so the wall faces the back. Then place a light grey 2x2 plate with a bar underneath on top so it overhangs to the front.

7.2. Now vertically place your part upside down on top of the 2 rightmost columns so the 1x2 rounded plate is on the rightmost column. There should be no overhang.

#### Group 11 - Cat

There are no steps in this group.

You will have 2 extra white 1x1 tiles. Save them for later.

#### Group 12 - Cat

8.1. Flip your build over so it is horizontal and the clip faces the right. Now let's make a part! Horizontally place a brown 1x1 plate with 2 bars in front of you so the bars face left and right. Then place a brown 1x1 tile on top.

8.2. Attach the clip of a white 1x2 plate with a clip on the short side to the right-facing bar. Now place 2 white 1x1 tiles from group 11 on top.

8.3. Attach the left-facing bar of your part to the right-facing clip of your main build! This is the cat's tail!

9. Let's make a part! Horizontally place a white 2x3 plate in front of you. Then vertically place a yellow 1x2 plate with a hinge on the short side on the rightmost column so the hinge faces the back.

#### Group 13 - Cat

10. Vertically place a light grey 1x2 plate with a hinge on the short side on the leftmost column so the hinge faces the back.

11. Place a light grey 1x1 brick with an axle hole on the front row so it is centered horizontally and the axle hole faces the front and back. Then place a light brown 1x1 brick behind it.

12. Vertically place a light orange 1x2 plate on top of the middle column.

13. Attach a light grey axle with a ball to the front-facing axle hole.

14.1. Place a white 1x1 brick in the front left and front right corners.

#### Group 14 - Cat

14.2. Place a dark brown 1x1 brick in the back left corner.

#### Group 15 - Cat

14.3. Place a light orange 1x1 brick in the back right corner.

15. Horizontally place a white 1x3 tile with 2 studs on the front row. Then horizontally place a white 1x3 tile printed with eyes and light blue, brown, and orange spots on the back row.

16. Horizontally place a white 1x2 tile printed with a pink nose on the front row so it is centered horizontally.

17. Now bring back your cat body and orient so it is horizontal and the socket faces the left. Now attach the ball of your cat head to the socket so the tile side faces the left!

18. Put your cat away now so we can build the pig!

#### Group 16 - Pig

1. Horizontally place a light pink 2x3 plate in front of you. Then horizontally place a light pink 1x2 brick in the back right corner.

2. Place a pink 1x1 brick on the back left corner.

3. Horizontally place a light pink 2x3 brick on the front row so it overhangs 1 row to the front.

4. Horizontally place a light pink 2x3 plate underneath the overhang so 1 row is exposed to the front.

5. Place a pink 1x1 brick on the front left and front right corners. Then place a lime green 1x1 brick with a hole on the front row in between the 1x1 bricks so the hole faces the front.

6. Flip your build upside down so it is horizontal and the hole faces the right. Now vertically place a light pink 1x3 arch brick on the leftmost and rightmost columns.

7. Place a pink 1x1 plate on each of the anti-studs of the previous 1x3 arch bricks.

8. Flip your build over so it is horizontal so the hole faces the right. Place a light pink 2x2 tile with a stud in the back left corner and front right corner. Now horizontally place a pink 1x2 tile in the back right corner and front left corner.

9. Insert a black 2L pin into the right-facing hole.

10. Let's make a part! Horizontally place a pink 2x4 plate in front of you. Then vertically place a light pink 1x2 brick on the rightmost column. Then repeat symmetrically to the left.

11. Horizontally place a white 1x2 brick with 2 side studs on the front row in between the 1x2 bricks so the side studs face the front. Then horizontally place a light grey 1x2 brick with a hole behind it.

12. Horizontally place a light pink 1x4 tile on the front row. Then horizontally place 2 light pink 1x2 plates, 1 to the right of the other, on the back row.

13. Horizontally place a light pink 1x2 tile with a pig nose on the front-facing side studs so it is centered horizontally.

14. Horizontally place a light pink 1x2 brick on the back row so it is centered horizontally. Then place a pink 1x1 brick to the left and right.

15.1. Let's make another part! Horizontally place a pink 2x4 plate in front of you. Then vertically place a pink 1x2 plate on the rightmost column.

15.2. Horizontally place a light pink 2x3 plate to the left of the 1x2 plate.

15.3. Vertically place 2 pink 2x3 plates, 1 to the right of the other, on top so they overhang 1 row to the front.

15.4. Horizontally place a pink 2x4 tile on the back 2 rows.

15.5. Horizontally place the overhang of your part on top of your previous part so it overhangs to the back.

16. Horizontally place 2 pink 1x2 plates with 2x2 side studs hanging down, 1 to the right of the other on top so the side studs face the front.

#### Group 17 - Pig

17. Horizontally place a pink 2x4 plate upright on the front-facing side studs so it is centered horizontally. Then horizontally place a pink 2x4 tile printed with a pig face upright on the front-facing 2x4 side studs. This is the pig's head!

18. Now bring back your pig body and orient it so the pin faces the right. Now attach the pin to the back-facing hole of your pig head!

19. Rotate your pig so the head faces the front! Now place a light blue 2x2 plate on top so it is centered horizontally and the back row sits on the tiles in the back. Then place a light blue 2x2 tile with a stud on top. Now place a light blue 1x1 brick on top. Put your pig away now so we can make the creeper!

#### Building Instructions (Bag 3, Book 1):

#### Group 18 - Creeper

1. Horizontally place a green 4x6 plate in front of you. Then horizontally place a light green 1x2 brick in the back left corner. Then repeat symmetrically to the front.

2. Vertically place a green 1x4 brick on the 3rd column from the left.

3.1. Let's make a part! Vertically place a thin blue 2L rounded technic plate with 2 axle holes in front of you so the holes face left and right. Now insert the axle of a dark grey 2L axle with an axle hole into the back left-facing hole so it goes all the way through. Make sure the axle hole of the 2L axle faces up and down. Then repeat symmetrically to the front.

3.2. Attach a red 1x1 brick with an axle hole to each of the right-facing axles. Now horizontally place your part on the 2 leftmost columns in between the 1x2 bricks so the axle holes that face up and down overhang to the left.

4. Place a light green 2x2 brick on the back 2 rows on the 2nd and 3rd columns from the right. Then repeat symmetrically to the front.
5. Place a green 1x1 brick on the front right and back right corners. Then vertically place a light grey 1x2 brick with a side stud on the rightmost column in between the 1x1 bricks so the side stud faces the right.
6. Horizontally place a light green 2x6 plate on the back 2 rows so it is centered horizontally. Then repeat symmetrically to the front.
7. Insert a dark grey 1x1 bar with a ball into the right-facing side stud.
8. Place a light green 2x2 tile on the back left and back right corners. Then place 1 on the front 2 rows so it is centered horizontally.
- 9.1. Horizontally place a light green 1x2 tile on the back row so it is centered horizontally. Then place a light grey 1x1 plate in front of the left column of the 1x2 tile. Then place a green 1x1 tile to the right.
- 9.2. Vertically place a light green 1x2 tile on the front left corner. Then place a green 1x1 tile on the front row to the right. Then place a light grey 1x1 plate behind it.
- 9.3. Vertically place a light green 1x2 tile on the front right corner. Then place a light grey 1x1 plate on the front row to the left. Then place a green 1x1 tile behind it.
10. Let's make 2 identical parts! Horizontally place a green 2x3 plate in front of you. Then place a light green 2x2 tile on the 2 right columns.

11.1. Place a green 1x1 tile on the front left corner.

#### Group 19 - Creeper

11.2. Place a black 1x1 tile on the back left corner.

12. Flip your part upside down so it is horizontal and the 1x1 tiles are on the left. Then vertically place a black 1x2 plate with 2x2 anti sidestuds on top of the leftmost column so the anti-studs face the left. Then place a green 2x2 corner plate to the right so it looks like the braille letter h.

13. Horizontally place a dark grey 1x2 plate with a hinge connector on the short side on the back left corner so the connector faces the right.

14. Horizontally place a light green 1x2 plate on the front left corner. Then place a light green 1x1 plate to the right.

15. Vertically place a light green 1x2 plate on the leftmost column.

16. Place a green 2x2 corner plate to the right of the 1x2 plate from the previous step so it looks like the braille letter h.

17. Attach a black hinge with an axle hole to the right-facing hinge connector so the axle hole faces up. Then insert a light grey 3L axle into it.

18. Now you should have 2 identical parts in total!

19. Orient your main build so it is on its side and the tile side faces the left. Then make sure the axle holes are in the front! Now attach the axle of 1 part into the left side of the lower axle hole so the 2x2 anti studs face the front. Then repeat symmetrically to the right using the upper axle hole on the right side. Make sure to push the axles all the way in!

20. Let's make 2 identical parts! Horizontally place a green 2x3 plate in front of you. Then place a light green 2x2 tile on the 2 right columns.

21.1. Place a black 1x1 tile on the back left corner.

Group 20 - Creeper

21.2. Place a green 1x1 tile on the front left corner.

22. Flip your part upside down so it is horizontal and the 1x1 tiles are on the left. Then vertically place a black 1x2 plate with 2x2 anti sidestuds on top of the leftmost column so the anti-studs face the left. Then place a green 2x2 corner plate to the right so it looks like the braille letter f.

23. Horizontally place a dark grey 1x2 plate with a hinge connector on the front left corner so the connector faces the right. It should not overhang over the edge of the part.

24. Horizontally place a light green 1x2 plate on the back left corner. Then place a light green 1x1 plate to the right.

25. Vertically place a light green 1x2 plate on the leftmost column.

26. Place a green 2x2 corner plate to the right of the 1x2 plate from the previous step so it looks like the braille letter f.

27. Attach a black hinge with an axle hole to the right-facing hinge connector so the axle hole faces up.

28. Now you should have 2 identical parts!

29. Attach 1 part to the left-facing axle that is above your previous part! Then repeat symmetrically to the right.

Group 21 - Creeper

30. Let's make the creeper head now! Place a green 4x4 plate in front of you. Then horizontally place a light green 1x2 brick in the back left corner.

31. Place a green 2x2 corner brick on the back 2 rows to the right of the 1x2 brick so it looks like the braille letter f. Then repeat symmetrically to the front.

32. Horizontally place a light green 1x2 brick on the front left corner.

33. Horizontally place a light green 1x4 plate on the front and back rows so they are centered horizontally. Then vertically place a light grey 1x2 plate with a socket on the long side on top of the corner bricks on the 2nd column from the right so the socket faces the right.

34. Vertically place a green 1x2 panel with small clips on the leftmost column in between the 1x2 bricks so the wall faces the right. Now vertically place a light grey 1x2 plate with a bar underneath on top. Then place a dark green 2x2 tile with 2 studs on top so it overhangs to the right and the studs are on the left. Then vertically place a green 1x2 panel on top of the leftmost column so it is centered vertically and the wall faces the left.

35. Place a green 1x1 brick on the front left and front right corners. Then horizontally place a light green 1x2 brick on the front row so it is centered horizontally. Then repeat all parts symmetrically to the back.

#### Group 22 - Creeper

36. Vertically place a white 1x2 brick printed with TNT on the 2nd column from the right so it is centered vertically. Then vertically place a red 1x2 plate on top.

37. Horizontally place a light green 1x4 plate on the front and back rows so they are centered horizontally.

38.1. Vertically place a green 2x4 tile printed with 2 eyes on top of the 2 leftmost columns so it is centered vertically and the eyes are on the right.

#### Group 23 - Creeper

38.2. Vertically place a green 2x4 tile printed with a creeper mouth on the 2 rightmost columns so it is centered vertically.

39. Now place your creeper head on its side so the previous 2x4 tiles are horizontal and face the front.

40. Place a light grey 1x1 pyramid tile on top of the 2x2 tile in front of the 1x2 panel. It should not attach to anything!

41. Now flip the panel to the front so the tile falls into the head!

42. Bring back your creeper body and orient it so it is upright on its legs and the ball faces upward. Now attach the socket on the bottom-facing side of your head to the top-facing ball!

43. Put your creeper away now while we make the llama!

#### Group 24 - Llama

1. Horizontally place a light brown 2x4 brick in front of you. Then vertically place a light brown 1x2 plate underneath the rightmost column.

2. Vertically place a light brown 1x2 plate underneath the leftmost column.

3. Place a light brown 1x1 plate with 2 side studs hanging down on the front left corner so the side studs face the front. Then repeat symmetrically to the back. Now repeat both parts symmetrically to the right.
4. Horizontally place a light brown 1x2 tile on the back row so it is centered horizontally. Then horizontally place a brown 1x2 plate with 2 side studs hanging down on the front row so it is centered horizontally and the side studs face the front.
5. Place a brown 2x2 corner plate upright on the left 2 front-facing columns so it looks like the braille letter f. Then repeat symmetrically to the right.
6. Flip your build upside down so the corner plates you just placed face the front. Then horizontally place a black 1x2 plate with 2 side studs above the plate upside down on the front row so it is centered horizontally and the side studs face the front. Now horizontally place a tan 1x2 plate with 2x2 side studs above the plate upside down on the back row so it is centered horizontally and the side studs face the back.
7. Make sure your build is still upside down, then horizontally place a dark tan 1x2 plate with a bar on the long side upright on the upper front-facing row so it is centered horizontally and the bar faces up.
8. Vertically place a light brown 1x2 tile upright on the leftmost front-facing column. Then repeat symmetrically to the right. Now place a light brown 2x2 tile with a stud upright in between them.
9. Place a dark tan 1x1 tile upright on the front-facing side stud.
10. Rotate your build 180 degrees and make sure it is still upside down. Then place a brown 2x2 corner plate upright on the left 2 front-facing columns so it looks like the braille letter h. Then repeat symmetrically to the right.
11. Horizontally place a dark tan 1x2 plate with a bar on the long side upright on the upper front-facing row so it is centered horizontally and the bar faces up.
12. Horizontally place 2 brown 1x2 jumper plates, 1 to the right of the other, upright on the upper front-facing row. Then repeat symmetrically to the lower row.
- 13.1. Let's make 4 identical parts! Place a tan 1x1 plate in front of you. Then place a brown 1x1 clip on top so the clip hands face the front and back.
- 13.2. Now you should have 4 parts! Attach 1 to the left side of the front top-facing bar so the anti-stud faces up. Then repeat symmetrically to the right. Now repeat both parts symmetrically to the back.

#### Group 25 - Llama

14. Let's make a part! Place a brown 3x3 plate in front of you. Then horizontally place a light brown 1x4 plate on the back row so it overhangs 1 stud to the right. Then repeat symmetrically to the front.
15. Horizontally place a brown 1x3 plate on the middle row so there is no overhang.
16. Place a light brown 1x1 tile on the back right corner. Then repeat symmetrically to the front.

17. Horizontally place a light brown 2x4 plate on the back 2 rows so it overhangs 1 column to the left. Then horizontally place a light brown 1x4 plate in front so it overhangs 1 stud to the left.

18. Vertically place a tan 1x3 tile with 2 studs on the 3rd column from the left. Then vertically place a tan 1x3 tile printed with 2 eyes to the right.

#### Group 26 - Llama

19. Horizontally place 3 light brown 1x3 tiles, 1 in front of the other, on the 2 leftmost columns so they overhang 1 column to the left.

20. Vertically place a brown 1x3 plate underneath the overhang on the leftmost column.

21. Stack 2 tan 1x2 plates together so there is no overhang, then vertically place them on top. Then vertically place a tan 1x2 tile printed with a nose on top.

22. Bring back your llama body and vertically place it in front of you so it sits on the 1x1 plates and the 4 1x2 jumper plates face the front. Now orient your part 90 degrees counterclockwise so the 2 rows of overhang face the front. Now attach the front 2 rows of your part upright to the 4 1x2 jumper plates so the llama head is on top!

Thank you so much for building this set!

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at [info@bricksfortheblind.org](mailto:info@bricksfortheblind.org) and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets are advertisements for the following 6 LEGO Minecraft Theme kits:

21263 The Badlands Mineshaft

21261 The Wolf Stronghold

21262 The Windmill Farm

21264 The Ender Dragon and End Ship

21259 The Pirate Ship Voyage

21260 The Cherry Blossom Garden
