

31157 Exotic Peacock

Adapted by John Le and tested by Natalie Charbonneau.

This LEGO Creator 3in1 set gives kids 3 different build-and-play experiences with the same set of bricks. They can build a peacock figurine toy, rebuild it into a dragonfly toy with posable wings and tail on a lily-pad stand, or a colorful butterfly toy with posable wings. All 3 playable models make for attractive display items on a shelf or bedside table.

LEGO Creator 3in1 toys make great gifts for kids, with 3 different models to create in every box. Kids will be excited to build, rebuild and build again. 3in1 sets keep them happy for countless hours and offer a range of models that appeal to their biggest passions, including superfast vehicles, amazing animals and detailed city scenes.

3 LEGO® animal toys including a peacock toy in 1 box – Boys and girls aged 7+ can build and rebuild 3 different models using the same bricks with this LEGO Creator Exotic Peacock 3in1 set.

Endless animal play possibilities – Kids can play out their own stories with 3 different animal playsets: a peacock figurine toy, a dragonfly toy and a butterfly toy.

Posable figures – The peacock bird toy can fold down and open its colorful and detailed feathers, the dragonfly toy has posable wings and tail, and the butterfly toy has posable wings.

Playable display models – All 3 LEGO® toys can be displayed after playtime: the peacock bird toy can stand alone, and the dragonfly and butterfly toys come with display stands.

Measurements – This 355-piece LEGO® building set features a buildable peacock toy standing over 7.5 in. (20 cm) tall.

The front of the box shows a blue peacock with large colorful feathers spread out!

The back of the box shows the peacock with its feathers bundled up! It also shows a dragonfly and a butterfly!

The top of the box shows a peacock, butterfly, and a dragonfly!

The build is 355 pieces in total and is for ages 7+.

Bags 1-3 include the pieces for the exotic peacock!

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.

- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/31157>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 3 bags labeled 1-3, 3 sets of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Exotic Peacock

Group 1 - Steps 1-19.

Group 2 - Steps 20-44.

Group 3 - Steps 45-46.

Group 4 - Steps 47-66.

Bag 2 - Exotic Peacock

Group 5 - Steps 67-74.
Group 6 - Step 75.
Group 7 - Steps 76-77.
Group 8 - Steps 78-86.
Group 9 - Step 87.
Group 10 - Steps 88-89.

Bag 3 - Exotic Peacock
Group 11 - Steps 90-98.
Group 12 - Step 99.
Group 13 - Step 100-102.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Exotic Peacock

1. Horizontally place a purple 2x4 plate in front of you. Then vertically place a light purple 1x2 plate on the leftmost column.
2. Horizontally place a blue 2x8 plate on the 3 rightmost columns so it overhangs 5 columns to the right.
3. Horizontally place a blue 1x2 plate with 2 side studs sticking up underneath the front right corner so the side studs face the front. Then repeat symmetrically to the back.
4. Vertically place a light purple 1x2 plate on the rightmost column. Then place a lime green 2x2 plate to the left.
5. Vertically place a black 1x2 brick with a hinge on the short side on the front row to the left of the 2x2 plate from the previous step so it overhangs 1 row to the front and the hinge faces the front. Then vertically place a light blue 1x1 plate with a 1x1 slope tile on top so it slopes to the front. Now repeat both parts symmetrically to the back.
6. Vertically place 2 light blue 1x1 bricks with an axle hole, 1 in front of the other, to the left of the 1x2 bricks with hinges so the holes face front and back. Now vertically insert a black 4L axle into them so it is centered vertically. Now insert a yellow axle hole with an axle connector into the front-facing axle so the axle hole faces down. The hollow axle connector should connect to the axle! Then repeat symmetrically to the back.
7. Horizontally place a blue 1x4 plate on the front left corner so there is no overhang. Then repeat symmetrically to the back.
8. Vertically place a blue 1x6 plate with inverted slope sides on top of the 1x1 bricks with axle holes so it is centered vertically. Then vertically place an orange 1x2 brick to the left so it is centered vertically.
9. Vertically place a pink 1x2 brick with 2 side studs on the leftmost column so the side studs face the left. Then horizontally place 1 on the front row to the right so the side studs face the front. Then repeat symmetrically to the back.

10. Horizontally place a yellow 2x4 tile with 2 studs on top so 2 columns to the left are free and it is centered vertically.
11. Stack 2 light pink 1x1 round plates together then place it in front of the 2x4 tile with 2 studs so it sits on the 2nd stud from the front of the 1x6 plate with inverted sloped sides. Then repeat symmetrically to the back.
12. Horizontally place a purple 2x4 plate on top of the 2x4 tile with 2 studs. Then place a lime green 2x2 plate on top of the 2 rightmost columns of the 2x4 plate.
13. Horizontally place a blue 2x5 stair plate on the 5 rightmost columns so the higher side is on the left and there is no overhang.
14. Horizontally place a teal 1x2 plate with 2 side studs hanging down on the front right corner so the side studs face the front. Then repeat symmetrically to the back.
15. Vertically place a dark grey 1x2 plate with a ball on the long side on top of the front 2 rows in front of the leftmost column of the 2x5 stair plate so the ball faces the right. Then repeat symmetrically to the back.
16. Vertically place a light blue 1x1 plate with a 1x1 slope tile on the front 2 rows on top of the 1x2 plate with a ball so it slopes to the front. Then repeat symmetrically to the back.
17. Vertically place a blue 1x4 plate on top of the plates from the previous step so it is centered vertically. Then vertically place a light purple 1x2 plate on top so it is centered vertically.
18. Horizontally place a pink 1x2 brick with 2 side studs on the front row to the left of the 1x2 plate from the previous step so the side studs face the front. Then repeat symmetrically to the back.
19. Horizontally place a mint blue 1x2x2 brick with 2x2 side studs on the front left corner so the side studs face the front. Then repeat symmetrically to the back.

Group 2 - Exotic Peacock

20. Horizontally place a light blue 2x3 plate on the 2nd, 3rd and 4th columns from the left so it is centered vertically. Now horizontally place a dark grey 1x2 plate with a ball on the short side in front of the rightmost column of the 2x3 plate and 1x2 plate that is to the right so the ball faces the right. Then repeat symmetrically to the back.
21. Place a purple 2x2 corner plate on the front row on top of the front 1x2 plate with a ball on the short side so it looks like the braille letter j. Then repeat symmetrically to the back.
22. Vertically place a blue 1x4 plate on the right column of the 2x2 corner plates from the previous step. Then place a blue 1x1 plate to the left of the front and back row of the 1x4 plate.
23. Vertically place 2 dark grey 1x2 plates with a ball on the long side, 1 in front of the other, on top of the 1x4 plate from the previous step so the balls face the right.

24. Horizontally place the higher column of an orange 2x3 stair plate on top of the 1x2 plates with a ball from the previous plate so it is centered vertically and the lower side faces the left. Now vertically place a light purple 1x2 plate to the left.

25. Place 2 purple 1x1 slope tiles, 1 to the right of the other, on the front row, in front of the 2 rightmost columns of the previous 2x3 stair plate so they slope to the front. Then repeat symmetrically to the back.

26. Vertically place a mint blue 1x2x2 brick with 2x2 side studs on the leftmost column so the side studs face the left. Now horizontally place a pink 1x2 brick with 2 side studs on the front row to the right so the side studs face the front. Then repeat symmetrically to the back.

27. Horizontally place a blue 1x2 jumper plate upright on the upper left-facing row. Then vertically place a blue 1x2 jumper plate on top of the leftmost column. Now horizontally place a dark blue 2x4 tile to the right.

28.1. Let's make the front of the peacock! Horizontally place a light blue 2x3 plate in front of you. Then vertically place a blue 1x2 jumper plate on the rightmost column. Then place a light purple 1x2 plate to the left. Now horizontally place a light blue 1x4 sloped curved tile on the front left corner so it slopes and overhangs 2 columns to the left. Then repeat symmetrically to the back.

28.2. Vertically place your part upright on the left-facing side studs below the 1x2 jumper plate so it slopes down.

29. Let's make the side of the peacock! Vertically place a purple 2x4 plate in front of you.

30. Horizontally place a light blue 2x3 plate on the back 2 rows so it overhangs 1 column to the left.

31. Place a purple 1x1 slope tile in the back right corner so it slopes to the back.

32. Vertically place a dark blue 1x3 sloped curved brick on the back row to the left of the 1x1 slope tile so it slopes and overhangs 2 rows to the back. Now vertically place a light purple 1x2 plate underneath the overhang of it.

33. Vertically place a purple 2x3 sloped curved brick on the front 3 rows so it slopes to the front.

34. Place a blue 3x3 quarter plate underneath the front left overhang so the curve faces the front left. Then repeat symmetrically to the back.

35. Place a blue 3x3 quarter sloped curved brick on top of the front 3x3 quarter plate from the previous step so it slopes to the front left. Then repeat symmetrically to the back.

36. Place the back row of your part upright on the upper front-facing row so it hangs down and there is no overhang.

37. Let's make the other side of the peacock! Horizontally place a purple 2x4 plate in front of you.

38. Vertically place a light blue 2x3 plate on the 2 rightmost columns so it overhangs 1 row to the front.

39. Place a purple 1x1 slope tile on the back right corner so it slopes to the right.

40. Horizontally place a dark blue 1x3 sloped curved brick on the rightmost column in front of the 1x1 slope tile so it slopes and overhangs 2 columns to the right. Now horizontally place a light purple 1x2 plate underneath the overhang of it.

41. Horizontally place a purple 2x3 sloped curved brick on the 3 leftmost columns so it slopes to the left.

42. Place a blue 3x3 quarter plate underneath the front left overhang so the curve faces the front left. Then repeat symmetrically to the right.

43. Place a blue 3x3 quarter sloped curved brick on top of the left 3x3 quarter plate so it slopes to the front left. Then repeat symmetrically to the right.

44. Rotate your main build 180 degrees so the side studs on the right front-facing side face the front. Now rotate your part 90 degrees counterclockwise so the 3x3 sloped curved brick slope to the right. Now place the back row of your part upright on the upper front-facing row so it hangs down. There should be no overhang.

Group 3 - Exotic Peacock

45. Let's make the head! Place a dark blue 1x1 plate with 2 side studs in front of you so the side studs face the right.

46. Place a purple 1x1 brick with a side stud on top so the side stud faces the left. Then place a blue 1x1 plate on top.

Group 4 - Exotic Peacock

47. Place a white 1x1 plate with 2 side studs on top so the side studs face the left.

48. Place a black 1x1 brick with 2 side studs on top so the side studs face the front and back. Now place a black 1x1 round tile with a white eye upright on the front-facing side stud. Then repeat symmetrically to the back.

49. Place a blue 1x1 plate with 2 side studs hanging down on top so the side studs face the right.

50.1. Let's make the back of the head! Horizontally place a light purple 1x2 plate in front of you. Now horizontally place a purple 1x2 sloped curved tile on the left column so it slopes and overhangs to the left. Then repeat symmetrically to the right.

50.2. Vertically place your part upright on the right-facing side studs so there is no overhang.

51.1. Let's make a part! Horizontally place a light blue 1x1 plate with a 1x1 slope tile in front of you so it slopes to the left. Then place a light grey 1x1 round plate on top. Then place a yellow blade on top so it curves to the right. This is the beak!

51.2. Vertically place your part upright on the upper 2 front-facing side studs so it slopes up.

52. Now horizontally place your part on top of the 1x2 jumper plate on the leftmost column of the main build so the beak faces the left.
53. Vertically place a light blue 1x4 sloped curved brick upright on the 3 left-facing side studs so it slopes up.
54. Place a light pink 1x1 round plate with a leaf on top of the peacock's head so the leaf faces the right. Now place a light purple plant with a swirl on top so the tall part faces the right.
- 55.1. Let's make 2 identical feet! Vertically place a yellow axle connector with an axle hole in front of you so the hollow hole is in the front and faces left and right and the other axle hole faces the back. Now horizontally insert a yellow 3L axle into the left-facing axle hole so it is centered horizontally.
- 55.2. Attach a yellow 1x1 cone brick on the left and right facing axle. Then insert a light orange fang into the left-facing cone brick so it curves to the front. Then repeat symmetrically to the right.
- 55.3. Now insert a yellow 3L axle into the back-facing axle hole.
- 55.4. Now you should have 2 identical parts! Horizontally attach the back-facing axle of 1 part to the front bottom-facing axle hole. Then repeat symmetrically to the back.
56. Let's make a tail! Horizontally place a blue 1x2 plate with 2 side studs in front of you so the side studs face the back.
57. Place a lime green 2x2 plate on top so 1 row overhangs to the front.
58. Horizontally place a blue 1x2 plate with 2 side studs underneath the front row so the side studs face the front.
59. Horizontally place the 1x2 plate part of a 1x8 sloped curved brick with a 1x2 plate on top of the front row so it slopes and overhangs to the right. Then repeat symmetrically to the back. Now vertically place a light purple 1x2 plate underneath the rightmost column of the 1x8 sloped curved bricks with a 1x2 plate.
60. Place a lime green 2x2 plate on top so there is no overhang.
61. Horizontally place a teal 1x2 plate with 2 side studs on the front row so the side studs face the front. Then repeat symmetrically to the back.
62. Horizontally place a green 2x4 rounded tile on the back-facing side studs so it overhangs 2 columns to the left.
63. Bring back your main build and orient it so it is horizontal and the beak faces the left. Now attach the overhang of the 2x4 rounded tile upright on the back-facing side studs on the 2 rightmost columns so it curves to the right.
64. Horizontally place a green 2x4 rounded plate upright on the front-facing side studs on the 4 rightmost columns.

65.1. Let's make part of the peacock's back! Horizontally place a light blue 2x3 plate in front of you. Then vertically place a light purple 1x2 plate on the leftmost column. Then vertically place another 1 on top.

65.2. Horizontally place a black 1x2 plate with a clip and a stud on the front right corner so the clip is on the right. Then repeat symmetrically to the back. Now place a sand blue 2x2 sloped curved tile on the 2 leftmost columns so it slopes to the right.

65.3. Horizontally place your part on top so there is 1 free stud column to the right.

66. Vertically place a light green 1x2 tile on the rightmost column.

Building Instructions (Bag 2, Book 1):

Group 5 - Exotic Peacock

67. Let's make 2 identical feathers! Horizontally place a purple 2x4 plate in front of you.

68. Vertically place a lime green 2x6 plate with a rounded side on the 2 rightmost columns so it is centered vertically and the rounded side faces the right.

69. Horizontally place a teal 3x12 angled plate on the front row of the 2x4 plate so the angled side overhangs 2 rows to the front and the short end overhangs 10 columns to the left. Then repeat symmetrically to the back. There are 2 different orientations for these pieces, so make sure you have the correct one!

70. Flip your part upside down so it is horizontal and the rounded side faces the right. Let's make a part! Place a dark grey 2x2 plate in front of you. Then vertically place a black 1x2 plate with a hinge connector on the left column so the connector faces the left. Now place your part on the leftmost column so it is centered vertically and the hinge connector overhangs to the left.

71. Place a dark grey 2x2 plate on top so it is centered vertically and there are 3 free columns in between this and the 2x4 plate that is to the right.

72. Flip your part over so it is horizontal and the rounded side faces the right. Now horizontally place a green 2x3 tile with an angled side on the 3 leftmost columns so it is centered vertically and the angled side faces the right. Now place a purple 1x2 curved tile on the 2nd and 3rd row from the front of the 2 rightmost columns so the curve faces the front right. Then repeat symmetrically to the back.

73. Place a yellow 2x2 round tile with a stud to the left of the previous 1x2 curved tiles so it is centered vertically. It should fit in the gap of the 1x2 curved tiles! Now place a magenta 1x1 quarter tile in front and to the left of the 1x2 curved tile so the curve faces the front left. Then repeat symmetrically to the back.

74. Place a light orange 1x1 plate with 3 leaves on top of the 2x2 round tile with a stud so the leaves face the right. Then place a transparent pink 1x1 round tile on top.

Group 6 - Exotic Peacock

75.1. Place a light green 1x1 plate with 3 leaves on the back row so the leaves face the right and there are 3 free stud columns to the left. Then place another 1 to the right so there is 1 free column in between and the leaves face the right.

75.2. Place a light green 1x1 plate with 3 leaves on the front row so the leaves face the right and there are 4 free stud columns to the left. Then place another 1 to the right so there is 1 free column in between and the leaves face the right. Now place a transparent blue 1x1 round tile on top of each of the 1x1 plates with 3 leaves.

Group 7 - Exotic Peacock

76. Place a green 1x1 plate with 3 leaves on the front row of the leftmost stud column so the leaves face the right. Then place a transparent blue 1x1 round tile on top. This is a feather!

77. Now you should have 2 identical parts! Bring back your main build and orient it so the beak faces the back. Now horizontally attach the hinge connector of 1 part to the left-facing hinge so the studs face the back. then repeat symmetrically to the right.

Group 8 - Exotic Peacock

78. Let's make 3 identical feathers! Horizontally place a purple 2x4 plate in front of you.

79. Vertically place a lime green 2x6 plate with a rounded side on the 2 rightmost columns so it is centered vertically and the rounded side faces the right.

80. Horizontally place a teal 3x12 angled plate on the front row of the 2x4 plate so the angled side overhangs 2 rows to the front and the short end overhangs 10 columns to the left. Then repeat symmetrically to the back. There are 2 different orientations for these pieces, so make sure you have the correct one!

81. Flip your part upside down so it is horizontal and the rounded side faces the right. Then place a dark grey 2x2 plate on the leftmost column so 1 column overhangs to the left. Now place a dark grey 2x2 plate on top so it is centered vertically and there are 3 free columns in between this and the 2x4 plate that is to the right.

82. Flip your part over so it is horizontal and the rounded side faces the right. Then place a green 1x1 plate on the back left corner.

83. Horizontally place a light grey 1x2 plate with a socket on the short side on the front left corner so it overhangs 1 column to the left and the socket faces the left. Then place a white 1x1 round plate underneath the overhang.

84. Horizontally place a green 2x3 tile with an angled side on the 3 leftmost columns so it is centered vertically and the angled side faces the right. There should be 1 stud free to the left. Now place a purple 1x2 curved tile on the 2nd and 3rd row from the front of the 2 rightmost columns so the curve faces the front right. Then repeat symmetrically to the back.

85. Place a yellow 2x2 round tile with a stud to the left of the previous 1x2 curved tiles so it is centered vertically. It should fit in the gap of the 1x2 curved tiles! Now place a magenta 1x1 quarter tile in front and to the left of the 1x2 curved tile so the curve faces the front left. Then repeat symmetrically to the back.

86. Place a light orange 1x1 plate with 3 leaves on top of the 2x2 round tile with a stud so the leaves face the right. Then place a transparent pink 1x1 round tile on top.

Group 9 - Exotic Peacock

87.1. Place a light green 1x1 plate with 3 leaves on the back row so the leaves face the right and there are 3 free stud columns to the left excluding the leftmost stud. Then place another 1 to the right so there is 1 free column in between and the leaves face the right.

87.2. Place a light green 1x1 plate with 3 leaves on the front row so the leaves face the right and there are 4 free stud columns to the left excluding the leftmost stud. Then place another 1 to the right so there is 1 free column in between and the leaves face the right. Now place a transparent blue 1x1 round tile on top of each of the 1x1 plates with 3 leaves.

Group 10 - Exotic Peacock

88. Place a green 1x1 plate with 3 leaves on the front row of the leftmost stud column so the leaves face the right. Then place a transparent blue 1x1 round tile on top. This is a feather!

89. Now you should have 3 identical parts! Bring back your main build and orient it so the beak faces the back. Now horizontally attach the sockets of 1 part to the lowest rightmost ball so the part is diagonal, points to the top right, and the leaves face the back. Then attach the socket of another 1 to the lower rightmost ball so it is also upright and the studs face the back. This one should also be diagonal and point to the top right. Then attach another 1 to the rightmost socket so it is upright and the studs face the back.

Building Instructions (Bag 3, Book 1):

Group 11 - Exotic Peacock

90. Let's make 3 identical feathers! Horizontally place a purple 2x4 plate in front of you.

91. Vertically place a lime green 2x6 plate with a rounded side on the 2 rightmost columns so it is centered vertically and the rounded side faces the right.

92. Horizontally place a teal 3x12 angled plate on the front row of the 2x4 plate so the angled side overhangs 2 rows to the front and the short end overhangs 10 columns to the left. Then repeat symmetrically to the back. There are 2 different orientations for these pieces, so make sure you have the correct one!

93. Flip your part upside down so it is horizontal and the rounded side faces the right. Then place a dark grey 2x2 plate on the leftmost column so 1 column overhangs to the left. Now place a dark grey 2x2 plate on top so it is centered vertically and there are 3 free columns in between this and the 2x4 plate that is to the right.

94. Flip your part over so it is horizontal and the rounded side faces the right. Then place a green 1x1 plate on the front left corner.

95. Horizontally place a light grey 1x2 plate with a socket on the short side on the back left corner so it overhangs 1 column to the left and the socket faces the left. Then place a white 1x1 round plate underneath the overhang.

96. Horizontally place a green 2x3 tile with an angled side on the 3 leftmost columns so it is centered vertically and the angled side faces the right. There should be 1 stud free to the left. Now place a purple 1x2 curved tile on the 2nd and 3rd row from the front of the 2 rightmost columns so the curve faces the front right. Then repeat symmetrically to the back.

97. Place a yellow 2x2 round tile with a stud to the left of the previous 1x2 curved tiles so it is centered vertically. It should fit in the gap of the 1x2 curved tiles! Now place a magenta 1x1 quarter tile in front and to the left of the 1x2 curved tile so the curve faces the front left. Then repeat symmetrically to the back.

98. Place a light orange 1x1 plate with 3 leaves on top of the 2x2 round tile with a stud so the leaves face the right. Then place a transparent pink 1x1 round tile on top.

Group 12 - Exotic Peacock

99.1. Place a light green 1x1 plate with 3 leaves on the back row so the leaves face the right and there are 3 free stud columns to the left excluding the leftmost stud. Then place another 1 to the right so there is 1 free column in between and the leaves face the right.

99.2. Place a light green 1x1 plate with 3 leaves on the front row so the leaves face the right and there are 4 free stud columns to the left excluding the leftmost stud. Then place another 1 to the right so there is 1 free column in between and the leaves face the right. Now place a transparent blue 1x1 round tile on top of each of the 1x1 plates with 3 leaves.

Group 13 - Exotic Peacock

100. Place a green 1x1 plate with 3 leaves on the front row of the leftmost stud column so the leaves face the right. Then place a transparent blue 1x1 round tile on top. This is a feather!

101. Now you should have 3 identical parts! Bring back your main build and orient it so the beak faces the back. Now horizontally attach the sockets of your parts to the 3 leftmost balls so the studs face the back. It should replicate the feathers on the right!

102.1. Let's make a part! Horizontally place a light blue 2x3 plate in front of you. Then vertically place a teal 1x2 plate with a bar on the long side on the leftmost column so the bar faces the left. Now horizontally place a light grey 2x2 plate with 1x4 extended angled parts to the right so the extended parts face the right. Now horizontally place a green 2x3 tile with an angled side on top so the angled side faces the right.

102.2. Vertically attach the bar of your part to the clips at the front so the tile side faces the back and it leans into the feathers!

Congratulations on finishing the main build, next up is the dragonfly!

Bags 1-3 - Dragonfly

Group 1 - Steps 1-7.

Group 2 - Step 8.

Group 3 - Steps 9-18.

Group 4 - Steps 19-20 and 1 white 1x1 plate with 2 side studs from Step 21.

Group 5 - Rest of Step 21 and Steps 22-34.

Group 6 - Steps 35-43.

Group 7 - Step 44 and 2 transparent pink 1x1 round tiles from Step 45.

Group 8 - Rest of Step 45 and Steps 46-50.

Group 9 - Step 51 and 2 transparent pink 1x1 round tiles from Step 52.

Group 10 - Rest of Step 52 and Steps 53-58.

Let's get to building!

Building Instructions (Bags 1-3, Book 2):

Group 1 - Dragonfly Platform

1. Horizontally place a purple 2x4 plate in front of you.
2. Vertically place a purple 2x4 plate on the 2 leftmost columns so it is centered vertically.
3. Vertically place a purple 2x4 plate on the 2 rightmost columns so it is centered vertically.
4. Flip your part upside down so the overhang is in the front and back. Now place 3 dark grey 2x2 plates, 1 to the right of the other, on the back row so together they are centered horizontally and overhang to the left, back and right.
5. Flip your part over so the 2x2 plates are in the back. Now repeat steps 1-3 to make another part, then place the front overhang on the back row so it is centered horizontally.
6. Vertically place a purple 2x4 plate on the leftmost column so it overhangs to the front, left and back. Then repeat symmetrically to the right.
7. Vertically place a light blue 2x3 plate underneath the front row so it is centered horizontally and 2 rows are exposed to the front. Then repeat symmetrically to the back. Now horizontally place another 1 underneath the rightmost column so it is centered vertically and 2 columns are exposed to the right. Then repeat symmetrically to the left.

Group 2 - Dragonfly Platform

8. Place 4 white 1x1 round plates on top so they form a 2x2 set of studs and they are centered on the build. Now place a light green 2x2 plate in front. Then repeat symmetrically to the back. Now place a light green 2x2 plate to the right of the 1x1 round plates. Then repeat symmetrically to the left.

Group 3 - Dragonfly Platform

9. Place a dark grey 2x2 plate to the right of the front 2x2 plate from the previous step so it overhangs in the front right corner. Then repeat symmetrically to the left. Now repeat both parts symmetrically to the back.

10. Place a light green 1x1 plate with 3 leaves on the right stud of the 2nd row from the front so the leaves face the front. Then place another 1 on the back stud of the 2nd column from the right so the leaves face the right. Then place another 1 on the left stud of the 2nd row from the back so the leaves face the back. Now lastly place another 1 on the front stud of the 2nd column from the left so the leaves face the left.

11. Horizontally place a light green 2x6 plate with a rounded side on the 2nd and 3rd rows from the front so the rounded side faces the front and it is centered horizontally. Then repeat symmetrically to the back. Now vertically place 1 on the 2nd and 3rd columns from the right so it is centered vertically and the rounded side faces the right. Then repeat symmetrically to the left. The second row should be 1 plate higher than the first, and there should be a gap underneath the plate to the left of the leave plate!

12. Vertically place 2 green 2x3 tiles with an angled side, 1 in front of the other, on the 3rd and 4th columns from the left, so they are centered vertically and the angled sides face outwards. Then repeat symmetrically to the right.

13. Horizontally place 2 green 2x3 tiles with an angled side, 1 to the right of the other, on the 3rd and 4th rows from the front, so they are centered horizontally and the angled sides face outwards. Then repeat symmetrically to the back.

14. There should be a 4x4 set of studs in the middle that are surrounded by the tiles! Place a green 1x1 plate in each of the corners of the 4x4 set of studs.

15. Place a dark grey 2x2 plate on top so it is centered on the build.

16-17. Place a light green 1x1 plate with 3 leaves on top of the front left corner of the 2x2 plate from the previous step so the leaves face the front left. Then repeat symmetrically to the right. Now repeat both parts symmetrically to the back.

18. Place a yellow 2x2 round tile with a stud on top of the previous 1x1 plates with leaves so it is centered on the build. Now put your platform away while we make the dragonfly!

Group 4 - Dragonfly

19. Horizontally place a purple 2x4 plate in front of you.

20. Horizontally place a light blue 2x3 plate on the 3 rightmost columns.

21.1. Place a white 1x1 plate with 2 side studs on the back left corner so the side studs face the left.

Group 5 - Dragonfly

21.2. Place a dark blue 1x1 plate with 2 side studs on the front left corner so the side studs face the left.

22. Horizontally place 2 teal 1x2 plates with 2 side studs hanging down, 1 to the right of the other, on the front row so the side studs face the front. Then repeat symmetrically to the back.
23. Horizontally place a blue 1x2 jumper plate upright on the front-facing side studs so it is centered horizontally. Then repeat symmetrically to the back.
24. Horizontally place a purple 2x4 plate on top so there is no overhang.
25. Horizontally place 2 dark grey 1x2 plates with a ball on the long side, 1 to the right of the other, on the front row so the balls face the front. Then repeat symmetrically to the back.
26. Place a dark grey 2x2 plate on the 2 leftmost columns. Then horizontally place a light grey 1x2 plate with a socket on the short side on the front right corner so the socket faces the right. Then repeat symmetrically to the back.
27. Place a pink 1x1 round plate on the front right corner. Then repeat symmetrically to the back.
28. Horizontally place a purple 2x3 sloped curved brick on the 3 rightmost columns so it slopes to the left. Then place a magenta 1x1 quarter tile on the front left corner so the curve faces the front left. Then repeat symmetrically to the back.
29. Vertically place a pink 1x2 brick with 2 side studs upright on the front left-facing side studs so the side studs face the front. Then repeat symmetrically to the back.
30. Place a dark grey 2x2 plate upright on the left-facing side studs.
31. Place 2 purple 1x1 slope tiles, 1 to the right of the other, upright on the upper left-facing row so they slope up. Then repeat symmetrically to the bottom.
32. Place a purple 1x2 sloped curved tile upright on the front-facing 1x2 jumper plate so it hangs down and slopes up. Then place a purple 1x2 curved tile upright to the left so it hangs down and the curve faces the top left. Then repeat symmetrically to the right. Make sure the 2 leftmost side studs of the 1x2 brick are free!
33. Repeat the previous step symmetrically to the back. These are the legs of the dragonfly!
34. Make sure the upright 1x1 slope tiles face the left. Then place a yellow 2x2 round tile with a stud upright on the front-facing side studs so 1 column overhangs to the left. Then place a black 1x1 round tile with a white eye upright on it. Now repeat both parts symmetrically to the back. This is the head of the dragonfly! Put it away for now while we make the body!

Group 6 - Dragonfly

35. Let's make the body! Horizontally place a purple 2x4 plate in front of you.
36. Horizontally place a dark grey 1x2 plate with a ball on the short side on the front left corner so the ball faces the left. Then repeat symmetrically to the back.

37. Horizontally place a black 1x2 plate with a clip and a stud on the front right corner so the clip is on the right. Then repeat symmetrically to the back.

38. Place a pink 1x1 round plate on the front left corner. Then repeat symmetrically to the back.

39. Horizontally place a purple 2x3 sloped curved brick on the 3 leftmost columns so it slopes to the right.

40.1. Let's make a part! Horizontally place a purple 2x4 plate in front of you. Then vertically place a teal 1x2 plate with a bar on the long side on the leftmost column so the bar faces the left.

40.2. Place a black 1x2 plate with a hinge connector on the long side on the rightmost column so the hinge connector faces the right. Then place a dark grey 2x2 plate to the left.

40.3. Horizontally place a dark blue 2x4 tile on top.

40.4. Attach the left-facing bar of your part to the 2 clips that are on the right side so the hinge connector faces the right.

41.1. Let's make a part! Horizontally place a light purple 1x2 plate in front of you. Then horizontally place a black 1x2 brick with a hinge on the short side on the left column so it overhangs 1 column to the left and the hinge faces the left.

41.2. Place a purple 1x1 brick with a side stud on the rightmost column so the side stud faces the right. Then horizontally place a light purple 1x2 plate on top of the 2 rightmost columns.

41.3. Attach the left-facing hinge to the right-facing hinge connector of your build so the 3 top-facing studs face the front.

42. Place a magenta 1x1 plant with a swirl upright on the right-facing side stud so the swirl faces up.

43. Bring back your previous build then place it in front of you so the socket faces the right. Now attach the left-facing ball of your part to the socket! This is the tail!

Group 7 - Dragonfly

44. Let's make 2 identical wings! Horizontally place a teal 3x12 angled plate in front of you so the angled side faces the back and the short end faces the left. This is a right wedge plate!

45.1. Place a transparent pink 1x1 round tile on the leftmost column. Then place another 1 on the front right corner.

Group 8 - Dragonfly

45.2. Place 10 transparent blue 1x1 round tiles, 1 to the right of the other, on the front row in between the previous 1x1 round tiles.

46. Place a dark grey 2x2 plate underneath the front right corner so 1 column is exposed to the right.

47. Place a blue 3x3 quarter plate on the rightmost column so the 1 row overhangs to the back and 2 columns to the right, and the curve faces the front right.

48. Horizontally place a light purple 1x2 plate on the 2nd row from the front on the 3rd and 4th columns from the right.

49.1. Let's make a part! Horizontally place a blue 1x4 plate in front of you. Then horizontally place a light grey 1x2 plate with a socket on the short side on the 2 leftmost columns so the socket faces the left. Then horizontally place a light purple 1x2 plate to the right.

49.2. Horizontally place your part underneath the 4 leftmost columns so the socket faces the left.

50. Bring back your main build and place it in front of you so it is horizontal and the head is on the left. Now vertically attach the socket of 1 part to the right front-facing ball. Then repeat symmetrically to the left back-facing ball.

Group 9 - Dragonfly

51. Let's make 2 identical wings! Horizontally place a teal 3x12 angled plate in front of you so the angled side faces the back and the short end faces the right. This is a left wedge plate!

Group 10 - Dragonfly

52.1. Place a transparent pink 1x1 round tile on the front left corner. Then place another 1 on the rightmost column.

52.2. Place 10 transparent blue 1x1 round tiles, 1 to the right of the other, on the front row in between the previous 1x1 round tiles.

53. Place a dark grey 2x2 plate underneath the front left corner so 1 column is exposed to the left.

54. Place a blue 3x3 quarter plate on the leftmost column so the 1 row overhangs to the back and 2 columns to the left, and the curve faces the front left.

55. Horizontally place a light purple 1x2 plate on the 2nd row from the front on the 3rd and 4th columns from the left.

56.1. Let's make a part! Horizontally place a blue 1x4 plate in front of you. Then horizontally place a light grey 1x2 plate with a socket on the short side on the 2 rightmost columns so the socket faces the right. Then horizontally place a light purple 1x2 plate to the left.

56.2. Horizontally place your part underneath the 4 rightmost columns so the socket faces the right.

57. Bring back your main build and place it in front of you so it is horizontal and the head is on the left. Now vertically attach the socket of 1 part to the left front-facing ball. Then repeat symmetrically to the right back-facing ball.

58. Bring back your platform and place it in front of you. Now vertically place your dragonfly on top of the 2x2 round tile with a stud so the head faces the front!

Congratulations on finishing the dragonfly, next up is the butterfly!

Bags 1-3 - Butterfly

Group 1 - Steps 1-11.

Group 2 - Steps 12-17 and a lime green 2x2 plate from Step 18.

Group 3 - Rest of Step 18 and Steps 19-21.

Group 4 - Steps 22-29.

Group 5 - Steps 30-46.

Group 6 - Steps 47-62.

Group 7 - Steps 63-64.

Let's get to building!

Building Instructions (Bags 1-3, Book 3):

Group 1 - Butterfly Stand

1. Horizontally place a blue 2x8 plate in front of you.
2. Horizontally place a blue 2x5 stair plate on the 3 leftmost columns so the upper part overhangs 2 columns to the left.
3. Horizontally place a black 1x2 plate with a clip and a stud on the leftmost column so the clip is on the right. Then repeat symmetrically to the back. Now vertically place a light purple 1x2 plate to the right.
- 4.1. Let's make a part! Horizontally place a purple 2x4 plate in front of you.
- 4.2. Horizontally place a blue 1x2 plate with 2 side studs sticking up underneath the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back.
- 4.3. Place a dark grey 2x2 plate on the 2 leftmost columns.
- 4.4. Vertically place a teal 1x2 plate with 2 side studs hanging down on the leftmost column so the side studs face the left. Then vertically place a light purple 1x2 plate to the right.
- 4.5. Horizontally place a light blue 1x1 plate with a 1x1 slope tile upright on the left-facing side studs so it slopes to the back. Then place a purple 1x1 slope tile upright on the left-facing side stud so it slopes to the front.
- 4.6. Horizontally place the 2 rightmost columns of your part underneath the 2 leftmost columns of overhang.
5. Horizontally place a teal 1x2 plate with 2 side studs hanging down on the front row on the 2nd and 3rd columns from the left so the side studs face the front. Then repeat symmetrically to the back.
6. Place a sand blue 2x2 sloped curved tile on the 2 leftmost columns so it slopes to the left.

7.1. Let's make a part! Place a dark grey 2x2 plate in front of you. Then horizontally place a light purple 1x2 plate on the back row.

7.2. Vertically place a light blue 1x4 sloped curved brick on the left column so it slopes and overhangs 2 rows to the front. Then vertically place a dark blue 1x3 sloped curved brick on the right column so it slopes and overhangs 1 row to the front.

7.3. Vertically place the back 2 rows of your part upright on the front-facing side studs so it hangs and slopes down.

8.1. Let's make a part! Place a dark grey 2x2 plate in front of you. Then horizontally place a light purple 1x2 plate on the back row.

8.2. Vertically place a light blue 1x4 sloped curved brick on the right column so it slopes and overhangs 2 rows to the front. Then vertically place a dark blue 1x3 sloped curved brick on the left column so it slopes and overhangs 1 row to the front.

8.3. Rotate your main build 180 degrees. Then vertically place the back 2 rows of your part upright on the front-facing side studs so it hangs and slopes down.

9. Vertically place a purple 2x4 plate on the 3rd and 4th columns from the left so it is centered vertically. It should overhang 1 row to the front and back. Then vertically place a lime green 1x2 tile to the right.

10. Horizontally place a blue 1x4 plate underneath the front overhang so 2 studs are exposed to the left. Then repeat symmetrically to the back.

11. Vertically place a purple 2x4 plate on the 2 leftmost columns.

Group 2 - Butterfly Stand

12. Place a lime green 2x2 plate on the 2nd and 3rd columns from the left so it is centered vertically. Now horizontally place a light blue 2x3 plate to the right. Then vertically place a light purple 1x2 plate to the right.

13. Place a blue 3x3 sloped curved quarter brick on the 5th, 6th, and 7th columns from the left so it overhangs 1 row to the front and the curve faces the front left.

14. Vertically place a light blue 2x3 plate on the front row of the 2nd and 3rd columns from the left so it overhangs 2 rows to the front. Then repeat symmetrically to the back. Now horizontally place a light blue 2x3 plate on the leftmost column so it is centered vertically and overhangs 2 columns to the left.

15. Vertically place a purple 2x4 plate on the 3rd and 4th columns from the left so it is centered vertically. Then vertically place another 1 to the right.

16. Place a pink 1x1 round plate on the 2nd stud from the back of the 3rd column from the left. Now place the back row of a yellow 2x2 round tile with a stud to the right. Now place another pink 1x1 round plate behind the right column of the 2x2 round tile with a stud. Then place 1 in front of the left column of the 2x2 round tile with a stud. Now place another 1 to the right of the front row of the 2x2 round tile with a stud.

17.1. Let's make 3 identical parts! Place a light orange 1x1 plate with 3 leaves in front of you so the leaves face the front left. Now place the front left corner of a blue 3x3 sloped curved quarter brick on top so the curve faces the back left.

17.2. Now you should have 3 identical parts! Place 1 part on the front 2x2 overhang so the leaves face the front right and it overhangs 1 row to the front and 1 column to the left.

17.3. Place 1 part on the 2 leftmost columns so the leaves face the front left and it overhangs 1 column to the left and 1 row to the back. Then place another 1 on the back 2 rows of overhang so the leaves face the back left and it overhangs 1 row to the back and 1 column to the right.

18.1. Let's make a part! Place a lime green 2x2 plate in front of you.

Group 3 - Butterfly Stand

18.2. Horizontally place a purple 2x4 plate on the back row so it is centered horizontally and overhangs to the left, back, and right. Then repeat symmetrically to the front.

18.3. Place a dark grey 2x2 plate on top so it is centered.

18.4. Flip your part upside down. Then place a green 1x1 plate on the front row in front of the left column of the 2x2 plate. Then place another 1 on the back row behind the right column of the 2x2 plate. Now place 1 on the leftmost column to the left of the back row of the 2x2 plate. Then place 1 on the rightmost column to the right of the front row of the 2x2 plate.

18.5. Place your part on top of the 1x1 round plates and 2x2 round tile with a stud so it is diagonal.

19. Rotate your part 45 degrees counterclockwise so the diagonal part is horizontal and vertical. Place a white 1x1 round plate on the front left corner of the 4x4 set of studs. Then place a transparent pink 1x1 round tile on top. Now repeat everything symmetrically to the other 3 corners.

20. Place a yellow 1x1 cone brick on the front right corner of the 2x2 plate in the middle of the 4x4 set of studs. Then place a light orange fang on top so it faces the front right. Now repeat symmetrically to the left. Then repeat both parts symmetrically to the back.

21.1. Let's make 4 identical parts! Horizontally place a pink 1x2 brick with 2 side studs in front of you so the side studs face the front. Now horizontally place a light blue 1x1 plate with a 1x1 slope tile upright on the front-facing side studs so it slopes to the right. Now place a purple 1x1 slope tile upright on the front-facing side stud so it slopes to the left.

21.2. Horizontally place 1 part on the front row in between the 1x1 round tiles so the upright parts face the front. Then repeat symmetrically to the back. Now vertically place another 1 on the leftmost column in between the 1x1 round tiles so the upright parts face the left. Then repeat symmetrically to the right. Put your butterfly stand away while we make the butterfly!

Group 4 - Butterfly

22. Let's make a butterfly! Horizontally place a purple 2x4 plate in front of you. Then vertically place a teal 1x2 plate with a bar on the long side on the rightmost column so the bar faces the right.

23. Horizontally place 2 dark grey 1x2 plates with a ball on the long side, 1 to the right of the other, on the front row to the left of the 1x2 plate with a bar so the balls face the front and it overhangs 1 column to the left. Then repeat symmetrically to the back.

24. Vertically place a light purple 1x2 plate underneath the leftmost column.

25. Vertically place a teal 1x2 plate with 2 side studs hanging down on the leftmost column so the side studs face the left. Then horizontally place a dark blue 2x4 tile to the right.

26. Horizontally place a blue 1x2 jumper plate upright on the left-facing side studs.

27.1. Let's make a part of the wing! Place a dark grey 2x2 plate in front of you. Then vertically place a light purple 1x2 plate on the rightmost column. Then vertically place a light grey 1x2 plate with a socket on the short side to the left so the socket faces the back.

27.2. Attach the socket of your part to the right front-facing ball.

28. Repeat the previous step symmetrically to the back.

29.1. Let's make 2 identical parts! Horizontally place a lime green 2x6 plate with a rounded side in front of you so the rounded side faces the back. Then horizontally place a green 2x3 tile with an angled side on the front right corner so the angled side faces the right and 1 row overhangs to the front.

29.2. Horizontally place a lime green 2x6 plate with a rounded side underneath the overhang so the rounded side faces the front and it is aligned with the previous 2x6 plate with a rounded side.

29.3. Place a purple 1x2 curved tile on the front left corner so the curve faces the front left. Then repeat symmetrically to the back. Now place a yellow 2x2 round tile with a stud to the right so it is centered vertically in the gap of the 1x2 curved tiles.

29.4. Place a magenta 1x1 quarter tile on the front row to the right of the 1x2 curved tile so the curve faces the back right. Then repeat symmetrically to the back.

29.5. Now you should have 2 identical parts! Orient 1 so it is vertical and the 2x3 tile with an angled side is in the back. Now vertically place the 2 back rows of your part to the front 2x2 set of studs so it is centered horizontally. Then repeat symmetrically to the back. These are the wings!

Group 5 - Butterfly

30. Let's make a wing! Horizontally place a purple 2x4 plate in front of you.

31. Vertically place a light blue 2x3 plate on the front row so it is centered horizontally and overhangs 2 rows to the front.

32. Horizontally place a purple 2x4 plate underneath the front row so it is centered horizontally and 1 row is exposed to the front.

33. Place a blue 3x3 quarter plate on the rightmost column to the right of the 2x3 plate so it overhangs 2 columns to the right and the curve faces the front right.

34. Place a blue 3x3 quarter plate on the leftmost column to the left of the 2x3 plate so it overhangs 2 columns to the left and the curve faces the back left.

35. Flip your build upside down so it is horizontal. Now vertically place a light purple 1x2 plate on the 2nd column from the right, to the right of the front 2x4 plate so it overhangs 1 row to the front. Then place the left column of a purple 2x2 corner plate on the back 2 rows of the 2nd column from the left so it looks like the braille letter h.

36. Flip your part over so it is horizontal and the front row is 1x4 studs. Now horizontally place a lime green 2x6 plate with a rounded side on the back row so it overhangs 1 column to the right and the rounded side faces the back.

37. Place a yellow 2x2 round tile with a stud on the 2nd and 3rd rows from the back on the 2nd and 3rd columns from the right.

38.1. Horizontally place a blue 1x2 jumper plate on the back row so it is centered horizontally on the back row. Then place a purple 1x2 curved tile to the right so the curve faces the back right. Then repeat symmetrically to the left. Now place a magenta 1x1 quarter tile on the rightmost column in front of the 1x2 curved tile so the curve faces the front right.

38.2. Place a magenta 1x1 quarter tile in front of the left column of the 1x2 jumper plate so the curve faces the front right. Then place another 1 to the left so the curve faces the back left.

39. Place a black 1x1 round tile with a white eye on top of the 2x2 round tile with a stud. Place a purple 1x2 curved tile on the 2 rightmost columns in front of the 1x1 quarter tile so the curve faces the front right. Then place a magenta 1x1 quarter tile to the left of the back row of the 1x2 curved tile so the curve faces the front right. Now place another 1 to the left so the curve faces the back left. Then horizontally place a green 2x3 tile with an angled side on the 3rd and 4th rows from the front to the left so the angled side faces the left.

40. Horizontally place a lime green 2x6 plate with a rounded side on the front row so the rounded side overhangs to the front and it overhangs 2 columns to the left.

41. Horizontally place 2 green 2x3 tiles with an angled side, 1 to the right of the other, on the 2nd and 3rd rows from the front so the angled sides face outwards.

42. Place a purple 1x2 curved tile on the 2 leftmost columns behind the 2x3 tile with an angled side so the curve faces the back left. Now place a magenta 1x1 quarter tile in front of the right column of it so the curve faces the back left.

43. Flip your part upside down so it is horizontal and the 2x2 corner plate is on the left. Now horizontally place the right column of a light grey 1x2 plate with a socket on the short side behind the left column of the 2x2 corner plate so the socket faces the left.

44. Horizontally place the 2 leftmost columns of a blue 1x4 plate on top of the 1x2 plate with a socket.

45. Flip your part over so the socket faces the front.

46. Bring back your butterfly so the upright 1x2 jumper plate faces the left. Then attach the socket of your part to the left back-facing ball!

Group 6 - Butterfly

47. Let's make a wing! Horizontally place a purple 2x4 plate in front of you. Then vertically place a light blue 2x3 plate on the front row so it is centered horizontally and overhangs 2 rows to the front.

48. Horizontally place a purple 2x4 plate underneath the front row so it is centered horizontally and 1 row is exposed to the front.

49. Place a blue 3x3 quarter plate on the rightmost column to the right of the 2x3 plate so it overhangs 2 columns to the right and the curve faces the back right.

50. Place a blue 3x3 quarter plate on the leftmost column to the left of the 2x3 plate so it overhangs 2 columns to the left and the curve faces the front left.

51. Flip your build upside down so it is horizontal. Now vertically place a light purple 1x2 plate on the 2nd column from the left, to the left of the front 2x4 plate so it overhangs 1 row to the front. Then place the right column of a purple 2x2 corner plate on the back 2 rows of the 2nd column from the right so it looks like the braille letter j.

52. Flip your part over so it is horizontal and the front row is 1x4 studs. Now horizontally place a lime green 2x6 plate with a rounded side on the back row so it overhangs 1 column to the left and the rounded side faces the back.

53. Place a yellow 2x2 round tile with a stud on the 2nd and 3rd rows from the back on the 2nd and 3rd columns from the left.

54.1. Horizontally place a blue 1x2 jumper plate on the back row so it is centered horizontally on the back row. Then place a purple 1x2 curved tile to the right so the curve faces the back right. Then repeat symmetrically to the left. Now place a magenta 1x1 quarter tile on the leftmost column in front of the 1x2 curved tile so the curve faces the front left.

54.2. Place a magenta 1x1 quarter tile in front of the right column of the 1x2 jumper plate so the curve faces the front left. Then place another 1 to the left so the curve faces the back right.

55. Place a black 1x1 round tile with a white eye on top of the 2x2 round tile with a stud. Place a purple 1x2 curved tile on the 2 leftmost columns in front of the 1x1 quarter tile so the curve faces the front left. Then place a magenta 1x1 quarter tile to the right of the back row of the 1x2 curved tile so the curve faces the front left. Now place another 1 to the right so the curve faces the back right. Then horizontally place a green 2x3 tile with an angled side on the 3rd and 4th rows from the front to the left so the angled side faces the right.

56. Horizontally place a lime green 2x6 plate with a rounded side on the front row so the rounded side overhangs to the front and it overhangs 2 columns to the right.

57. Horizontally place 2 green 2x3 tiles with an angled side, 1 to the right of the other, on the 2nd and 3rd rows from the front so the angled sides face outwards.

58. Place a purple 1x2 curved tile on the 2 rightmost columns behind the 2x3 tile with an angled side so the curve faces the back right. Now place a magenta 1x1 quarter tile in front of the left column of it so the curve faces the back right.

59. Flip your part upside down so it is horizontal and the 2x2 corner plate is on the right. Now horizontally place the left column of a light grey 1x2 plate with a socket on the short side behind the right column of the 2x2 corner plate so the socket faces the right.

60. Horizontally place the 2 rightmost columns of a blue 1x4 plate on top of the 1x2 plate with a socket.

61. Flip your part over so the socket faces the back.

62. Bring back your butterfly so the upright 1x2 jumper plate faces the left. Attach the socket of your part to the left front-facing ball!

Group 7 - Butterfly

63.1. Let's make the head! Place a dark blue 1x1 plate with 2 side studs in front of you so the side studs face the left.

63.2. Place a black 1x1 brick with 2 side studs on top so the side studs face the front and back. Now place a transparent blue 1x1 round tile upright on the front-facing side stud. Then repeat symmetrically to the back.

63.3. Place a light purple plant with a swirl upright on the lower left-facing side stud so the swirl faces down.

63.4. Now place your part upright on the left-facing 1x2 jumper plate so the plant faces down.

64. Bring back your butterfly stand and place it in front of you so the top-facing clips are on the right. Now attach the right-facing bar of your butterfly to the clips so the butterfly is diagonal and faces the top left!

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets are advertisements for the following 7 LEGO Creator Theme kits:

31152 Space Astronaut

31150 Wild Safari Animals

31146 Flatbed Truck with Helicopter

31149 Flowers in Watering Can

31147 Retro Camera

31145 Red Dragon

31148 Retro Roller Skate
