

40674 Stitch

Adapted by John Le and tested by Natalie Charbonneau.

This BrickHeadz™ buildable Disney toy figure features the cute and mischievous Stitch from Disney's Lilo and Stitch movie. The much-loved character is authentically detailed with 5 different shades of blue. The model stands on a sturdy baseplate, making the buildable BrickHeadz Stitch (40674) figure perfect for anyone aged 10 and up to play with and put on display.

LEGO® BrickHeadz™ Stitch buildable Disney toy for kids – Boys and girls aged 10+ who are fans of Disney's Lilo and Stitch can build cute and mischievous Stitch in brightly colored BrickHeadz style!

Authentically detailed model – The buildable Stitch toy features 5 different shades of blue and stands on a sturdy base plate!

Big fun – This 152-piece model stands over 3 in. (9 cm) tall on a sturdy base plate!

The front of the box shows Stitch! He is light blue and has large pink ears!

The back of the box shows that the set comes with a base plate for Stitch to stand on!

The top of the box shows a real size image of a light blue 1x1 tile with a rounded side.

The build is 152 pieces in total and is for ages 10+.

Bags 1-3 include the pieces for Stitch and the base plate.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another

such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.

- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/40674>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 3 bags, 1 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bags 1-3 - Stitch

Group 1 - Steps 1-5.

Group 2 - Step 6 and 2 dark blue 1x1 plates from Step 7.

Group 3 - Rest of Step 7 and Steps 8-9.

Group 4 - Steps 10-13 and 1 lime green 2x2 brick from Step 14.

Group 5 - Rest of Step 14 and Steps 15-23.

Group 6 - Steps 24-25.

Group 7 - Steps 26-27.

Group 8 - Steps 28-35.

Group 9 - Step 36 and 2 dark blue 1x2 plates from Step 37.

Group 10 - Rest of Step 37 and Step 38.

Let's get to building!

Building Instructions (Bags 1-3, Book 1):

Group 1 - Stitch

1. Horizontally place a light blue 2x4 plate in front of you. Then horizontally place another 1 in front so they touch each other and are aligned.

2. Horizontally place a light blue 2x4 plate on top so it is centered vertically. Then horizontally place a bright light blue 1x2 tile on the front row so it is centered horizontally.

3. Horizontally place a dark blue 1x2 brick with 2 side studs on the back row so it is centered horizontally and the side studs face the back.

4. Place a light yellow 2x2 round brick in front of the previous 1x2 brick with side studs so it is centered horizontally. Then place a light brown 2x2 round plate on top. Now horizontally place a light pink 1x2 plate on the back row of the 2x2 round plate. Then horizontally place a red 1x2 plate with 2x2 side studs hanging down in front so the side studs face the front.

5. Stack 2 light blue 1x1 bricks together then place them in the front left corner. Now vertically place a light grey 1x2x2 brick with 2x2 side studs behind it so the side studs face the left. Now repeat everything symmetrically to the right.

Group 2 - Stitch

6.1. Let's make a part! Place a yellow 2x2 plate in front of you. Then horizontally place a bright light blue 1x2 plate on the back row. Then repeat symmetrically to the front. Now place a bright light blue 1x1 quarter tile on the back left corner so the curve faces the front left. Then place another 1 on the back right corner so the curve faces the front left too!

6.2. Place your part upright on the front-facing side studs so the quarter tiles are on top. This is Stitch's tummy!

You will have 2 extra dark blue 1x1 plates. Save them for later!

Group 3 - Stitch

7. Rotate your build 180 degrees so the 2 side studs face the front. Now place a light blue 1x1 plate on the front left corner. Then place a dark blue 1x1 plate on top. Then place another light blue 1x1 plate on top. Now repeat everything symmetrically to the right.

8. Horizontally place a dark blue 1x4 plate on the front row. Then horizontally place a dark blue 1x2 plate on top so it is centered horizontally. Now place a light blue 1x1 plate to the left and right. Then horizontally place a dark blue 1x4 plate on top so it is centered horizontally.

9. Horizontally place a light blue 1x2 jumper plate upright on the front-facing side studs. Then place a dark blue 1x1 round plate upright on it. This is his tail!

Group 4 - Stitch

10. Vertically place a light blue 1x4 plate on the leftmost column. Then repeat symmetrically to the right. Now place a light blue 2x2 plate on the front 2 rows so it is centered horizontally. Now vertically place 2 bright light blue 1x2 plates, 1 to the right of the other, on the back 2 rows so they are centered horizontally.

11.1. Let's make 2 identical parts! Place a light blue 2x2 plate in front of you. Then horizontally place a light blue 1x2 plate on the back row. Now horizontally place a light blue 1x2 plate with a clip on the long side on the front row so the clip faces the front.

11.2. Now you should have 2 identical parts! Place 1 part upright on the right-facing side studs so the clip faces down. Then repeat symmetrically to the left. These are his hands!

12. Place a lime green 2x2 plate on top so it is centered.

13. Horizontally place a light grey 1x2x2 brick with 2x2 side studs on the back row so it is centered horizontally and the side studs face the back. Then repeat symmetrically to the front. Now vertically place 2 light grey 1x2x2 bricks with 2x2 side studs, 1 in front of the other, on the rightmost column so the side studs face the right. Then repeat symmetrically to the left.

14.1. Place a lime green 2x2 brick on top so it is centered. It should sit in the 2x2 gap.

Group 5 - Stitch

14.2. Place a light brown 2x2 round plate on top so it is centered. Then place a light pink 2x2 brick on top. This pink brick is Stitch's brain! It is usually like this in all Brickheadz builds!

15. Horizontally place a light grey 1x2x2 brick with 2x2 side studs on the back row so it is centered horizontally and the side studs face the back. Then repeat symmetrically to the front. Now vertically place 2 light grey 1x2x2 bricks with 2x2 side studs, 1 in front of the other, on the rightmost column so the side studs face the right. Then repeat symmetrically to the left.

16.1. Let's make a part! Horizontally place a light blue 2x4 plate in front of you. Then horizontally place another 1 in front so they touch each other and are aligned. Then vertically place another 1 on top so it is centered horizontally. Now vertically place a light blue 1x4 plate on the 2nd column from the left.

16.2. Place 4 light blue 1x1 slope tiles, 1 in front of the other, on the leftmost column so they slope to the left. Then vertically place 4 light blue 1x2 sloped curved tiles, 1 in front of the other, on the 2 rightmost columns so they slope to the right.

16.3. Place your part on the front-facing 4 rows of side studs so the 1x2 sloped curved tiles slope up. This is the back of Stitch's head!

17. Vertically place a light blue 2x4 plate on top so it is centered horizontally. Then place a light blue 2x2 plate on top so it is centered.

18. Horizontally place 2 light blue 1x2 sloped curved tiles, 1 to the right of the other, on the front row so they slope outwards to the left and right. Then repeat symmetrically to the back.

19. Place 2 light blue 1x1 slope tiles, 1 in front of the other, on the rightmost column so they slope to the right. Then repeat symmetrically to the left.

20. There should be an open 2x2 set of studs on top! Place a light blue 1x1 slope tile on the front left corner so it slopes to the right. Then place another 1 on the back right corner so it slopes to the left.

21. Let's work on the side of Stitch's head! Rotate your build 90 degrees clockwise so the upright 1x1 round plate on a jumper plate faces the left. There should be 4 rows of front-facing side studs! There is an upper set of 2x2 side studs that are centered horizontally and a lower set of 2x4 side studs! Place a light blue 1x1 slope tile upright on the lower stud of the leftmost front-facing column so it slopes down. Then vertically place a light blue 1x2 plate with a stud and a slope tile upright to the right so there is no overhang and it slopes down. Then place 2 more 1x1 slope tiles, 1 to the right of the other, upright to the right of the slope part of the ppp so they slope down.

22. Place a light blue 2x2 plate upright on the 2 rightmost columns of the front-facing side studs so it is above the 1x1 slope tiles. Then stack 2 light blue 1x2 plates so there is no overhang, then vertically place them upright to the left on the top 2 front-facing rows. Now vertically place a light blue 1x2 plate upright on the leftmost bottom front-facing column above the 1x1 slope tile.

23. Horizontally place a light blue 1x4 plate upright on the front-facing side studs on the 3rd row from the top. Then vertically place a light blue 1x2 sloped curved tile upright on the leftmost column above the 1x4 plate so it slopes up. Then vertically place 2 more, 1 to the right of the other, above the 2 rightmost columns of the 1x4 plate so they slope up.

Group 6 - Stitch

24.1. Let's make a part! Horizontally place a light blue 1x3 sloped curved brick in front of you so it slopes to the right. Then place a light pink 1x1 plate underneath the leftmost column. Now horizontally place a light pink 1x4 plate underneath so 1 column is exposed to the left.

24.2. Horizontally place a light blue 1x2 inverted sloped curved plate with a smooth underside underneath the leftmost column so 1 column is exposed to the left and it slopes to the left.

24.3. Horizontally place a light pink 1x2 plate on top. Now place a light pink 1x1 slope tile on the left stud so it slopes to the left. Then place a light pink 1x1 slope tile to the right so it slopes to the right. This is his ear!

24.4. Orient your part so it is vertical and the 1x2 inverted sloped curved plate is in the back and on the top. Now vertically attach the front 3 rows of your part upright on the front-facing studs on the 2nd column from the left.

25. Rotate your build 180 degrees so the ear faces the back. There should be 4 rows of front-facing side studs! There is an upper set of 2x2 side studs that are centered horizontally and a lower set of 2x4 side studs! Place a light blue 1x1 slope tile upright on the lower stud of the rightmost front-facing column so it slopes down. Then vertically place a light blue 1x2 plate with a stud and a slope tile upright to the left so there is no overhang and it slopes down. Then place 2 more 1x1 slope tiles, 1 to the right of the other, upright to the left of the slope part of the ppp so they slope down.

Group 7 - Stitch

26. Place a light blue 2x2 plate upright on the 2 leftmost columns of the front-facing side studs so it is above the 1x1 slope tiles. Then stack 2 light blue 1x2 plates so there is no overhang, then vertically place them upright to the right on the top 2 front-facing rows. Now vertically place a light blue 1x2 plate upright on the rightmost front-facing column.

27. Horizontally place a light blue 1x4 plate upright on the front-facing side studs on the 3rd row from the top. Then vertically place a light blue 1x2 sloped curved tile upright on the rightmost column above the 1x4 plate so it slopes up. Then vertically place 2 more, 1 to the right of the other, above the 2 leftmost columns of the 1x4 plate so they slope up.

Group 8 - Stitch

28.1. Let's make a part! This is Stitch's other ear! Horizontally place a light pink 1x4 plate in front of you. Then horizontally place a light blue 1x2 inverted sloped curved plate with a smooth underside underneath the leftmost column so 1 column is exposed to the left and it slopes to the left.

28.2. Horizontally place a light pink 1x2 slope brick on the 2 leftmost columns so it slopes to the left. Then horizontally place another 1 to the right so it slopes to the right.

28.3. Place a light pink 1x1 slope tile on the rightmost column so it slopes to the right.

28.4. Rotate your part so it is vertical and the 1x2 inverted sloped curved plate is in the back and on top. Now vertically attach the front 3 rows of your part upright on the front-facing studs on the 2nd column from the right.

29. Let's make a part! Vertically place a light blue 2x4 plate in front of you. Then vertically place another 1 to the right so they touch and they are aligned.

30. Horizontally place a light blue 2x4 plate on the front 2 rows.

31. Place a light blue 2x2 corner plate on the 2 leftmost columns behind the horizontal 2x4 plate so it looks like the braille letter j. Then place a light blue 1x1 quarter tile in the back left corner so it the curve faces the back left. Now repeat both parts symmetrically to the right.

32. Horizontally place a bright light blue 1x2 plate on the front row so it is centered horizontally. Then horizontally place 2 bright light blue 1x2 plates, 1 to the right of the other, on the 2nd row from the front so they are centered horizontally. Then horizontally place another 1 behind them so it is centered horizontally. Now place a bright light blue 1x1 tile with a rounded side to the left so the rounded side faces the back. Then repeat symmetrically to the right.

33. Place a light blue 2x2 tile with a stud on the front 2 rows so it is centered horizontally. Now vertically place 2 light blue 1x2 sloped curved tiles, 1 to the right of the other, behind it so they slope to the back and are centered horizontally.

34. Place a light blue 1x1 slope tile on the front left corner so it slopes to the left. Then repeat symmetrically to the right.

35. Place a black 1x1 round tile with a white eye on the leftmost column behind the 1x1 slope tile. Then repeat symmetrically to the right. Now place a black ball on top of the 2x2 tile with a stud. This is Stitch's face!

Group 9 - Stitch

36. Rotate your main build 90 degrees counterclockwise so the 1x2 slope bricks on the ear are on the right. Now place your part upright on the upper 4 rows of front-facing side studs so there is no overhang. The black ball should be at the bottom!

You will have 2 extra dark blue 1x2 plates. Save them for later!

Group 10 - Stitch

37.1. Let's make 2 identical parts! Vertically place a dark blue 1x2 plate from group 9 in front of you. Then vertically stack 2 light blue 1x2 plates on top so there is no overhang.

37.2. You should have 2 identical parts! Now horizontally place a light blue 2x4 plate in front of you. Then vertically place 1 part underneath the leftmost column. Then repeat symmetrically to the right. These are his feet!

37.3. Horizontally place your feet underneath your build so it is centered vertically.

38.1. Place a black 6x6 plate in front of you. Then horizontally place a black 2x4 tile on the 2nd and 3rd rows from the back so it is centered horizontally. Now horizontally place a black 1x4 tile with 2 studs in front. Then horizontally place a black 1x4 tile in front.

38.2. Horizontally place your stitch figure on top so it sits on the 1x4 tile with 2 studs and 2x4 tile!

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!
