

## **43226 Disney Duos**

Adapted by John Le and tested by Natalie Charbonneau.

Appeal to movie fans and kids aged 6 and up with this LEGO® I Disney: Disney Duos (43226) set, which includes 4 pairs of iconic brick-built characters from classic movies. Each character is posable, and every pair comes with a connectable display stand featuring a Disney-100th-anniversary-decorated element.

This premium set is packed with beloved companion character pairs, including Lumiere and Cogsworth from Disney's Beauty and the Beast, Pua and Hei Hei from Moana, Nemo and Squirt from Finding Nemo and Meeko and Percy from Pocahontas. The set is perfect for display and will be something everyone talks about when they see it.

A passion for fun – Give a Disney fan or any kid aged 6 and up who loves movies a birthday gift full of fun to inspire the imagination with this LEGO® I Disney: Disney Duos (43226) buildable toy set.

Imagination on display – The set includes 8 brick-built, posable characters from 4 popular Disney movies, plus stands with Disney-100th-anniversary-decorated elements for displaying the pairs.

Fun double acts – Featuring Disney's Cogsworth, Lumiere, Pua, Hei Hei, Nemo, Squirt, Percy and Meeko LEGO® buildable toy figures that fans can collect and display as pairs in different poses.

Pose and show – As the 2 tallest buildable figures, Disney's Cogsworth stands over 3 in. (7 cm) tall and Lumiere stands over 3.5 in (8 cm) tall, and both can be posed on display with the other pairs.

The front of the box shows 8 different Disney characters from 4 different movies. There is Pua and Hei Hei from Moana! There is Lumière and Cogsworth from Beauty and the Beast! There is Crush and Nemo from Finding Nemo! There is also Percy and Meeko from Pocahontas!

The back of the box shows that Beauty and the Beast is from 1992. Pocahontas is from 1995! Finding Nemo is from 2003 and Moana is from 2016!

The top of the box shows a real size image of a light grey 1x2 tile printed with 100 years of Disney.

The build is 553 pieces in total and is for ages 6+.

Bag 1 includes the pieces for Lumière and Cogsworth from Beauty and the Beast.

Bag 2 includes the pieces for Crush and Nemo from Finding Nemo.

Bag 3 includes the pieces for Pua and Hei Hei from Moana.

Bag 4 includes the pieces for Percy and Meeko from Pocahontas.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.

- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/43226>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 4 bags labeled 1 to 4, 4 sets of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Lumière and Cogsworth

Group 1 - Steps 1-9.

Group 2 - Steps 1-7.

Group 3 - Steps 8-14.  
Group 4 - Steps 15-21.  
Group 5 - Steps 1-7.

Bag 2 - Crush and Nemo

Group 6 - Steps 1- 9.  
Group 7 - Steps 10-19.  
Group 8 - Steps 1-5 and 1 white 1x2 sloped curved tile from Step 6.  
Group 9 - Rest of Step 6, Steps 7-9, and 1 orange 1x2 sloped curved tile from Step 10.  
Group 10 - Rest of Step 10 and Steps 11-12.  
Group 11 - Steps 13-16.  
Group 12 - Steps 17-24.  
Group 13 - Steps 1-8.

Bag 3 - Pua and Hei Hei

Group 14 - Steps 1-3 and 1 yellow 1x2 jumper plate from Step 4.  
Group 15 - Rest of Step 4, Steps 5-6, and 1 yellow 1x2 inverted sloped curved brick from Step 7.  
Group 16 - Rest of Step 7 and Steps 8-12.  
Group 17 - Steps 13-14.  
Group 18 - Steps 1-11 and 1 white 1x1 tile from Step 12.  
Group 19 - Rest of Step 12 and Steps 13-25.  
Group 20 - Steps 1-6.

Bag 4 - Racoon and Stand

Group 21 - Steps 1-13 and 2 black 2x2 round plate from Steps 14-15.  
Group 22 - Rest of Step 14.  
Group 23 - Rest of Step 15 and Steps 16-31.  
Group 24 - Steps 32-35.  
Group 25 - Steps 1-7.

Bag 5 - Percy

Group 26 - Steps 1-11.  
Group 27 - Steps 12-15.  
Group 28 - Steps 16-27.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Lumière

1. Place a gold 4x4 dish with 2x2 studs in front of you.
2. Place a gold 2x2x2 cone brick on top. Then place a dark grey 1x1 round plate on top.
- 3.1. Let's make a part of the base! Hold a gold bar with a stop upright so the side with the stop faces down. Then insert a bronze 3x3 dish on top then push it all the way down.

3.2. Place a dark grey axle connector with 4 bars on top then push it all the way down so the bars face the front, back, left, and right.

3.3. Attach a gold 1x1 plate with 3 leaves to the back bar so the leaves face up. Then repeat symmetrically to the front.

3.4. Now insert the top-facing bar into the top of the 1x1 round plate on top of the cone brick so the leaves face the back left and front right.

4. Make a part! Let's make 2 identical arms! Place a gold 1x1 round plate with a bar in front of you so the bar faces the right. Now attach the clip of a mechanical arm to the bar so the arm is on top and the right-facing bar hole of the arm faces the right.

5. Place a bronze 3x3 dish underneath the round 1x1 plate with a bar.

6. Flip your part upside down. Now insert a white 4L bar into the dish.

7.1. Let's make a part! Place a white 2x2 round brick in front of you. Then place a white 2x2 round plate with drips on the sides on top of it. Now place a transparent orange 1x1 cone brick on top so it is centered. Now place a transparent orange candle flame on top.

7.2. Place your part on top of the bar so it is centered and goes all the way down.

8. Now you should have 2 identical parts! Attach the clip of 1 part to the left bar of the main build so the candle faces up. Then repeat symmetrically to the right. We just added Lumiere's arms!

9.1. Let's make a part! Place a white 2x2x2 sloped curved round brick printed with eyes and teeth in front of you so it curves to the back. Now insert a yellow 3L axle into the top of it so it is centered.

9.2. Place a white 2x2 round brick on top of the axle, then push the brick all the way down the axle.

9.3. Place a white 2x2 round plate with drips on the sides on top of the 2x2 round brick.

9.4. Place a transparent orange 1x1 cone brick on top so it is centered. Now place a transparent orange candle flame on top.

9.5. Place your part on top of the middle bar that is on top of the dish so it curves to the back! You just added Lumiere's head! This is Lumière the candelabra! Now put him away while we make Cogsworth the clock!

## Group 2 - Cogsworth

1. Horizontally place a brown 2x4 plate in front of you. Then place a gold 2x2 plate on top so it is centered horizontally.

2. Vertically place a gold 1x2 ingot tile on the leftmost column. Then repeat symmetrically to the right.

3. Vertically place a brown 1x2 plate with 2 side studs above the plate, underneath the leftmost column so the side studs face the left. Then horizontally place a brown 1x2 slope tile upright on the left-facing side studs so it slopes up. Now repeat both parts symmetrically to the right.

4. Place a brown 1x1x2 brick with 2 side studs on the back left stud so the side studs face the left. Then repeat symmetrically to the right.

5. Horizontally place a brown 1x2 brick with a hole on the back row. Then insert a light grey 1L pin with a stud into the back-facing hole so the stud faces the back. Horizontally place a silver windup key on the back-facing stud. This is a 1x1 round plate with a key on top! Then horizontally place a black 1x2 plate on top of the back row.

6. Insert a black claw into the front-facing pin inside the hole of the 1x2 brick so the claw hands face left and right. Now attach a bar of a gold 1x1 round plate with a bar to the claw so it hangs down and the stud faces the front.

7. Horizontally place a brown 1x2x3 window frame on the front row.

#### Group 3 - Cogsworth

8. Horizontally place a dark grey 1x2 plate on the back row. Then horizontally place a tan 1x2 plate with 2 side studs hanging down in front so the side studs face the front.

9. Horizontally place a light brown 1x2 jumper plate upright on the 2 front-facing side studs of the 1x2 plate. Then place a gold 1x1 plate with 3 leaves upright on it so the leaves face down.

10. Vertically place a black 1x2x2 brick with 8 side studs on 3 sides, on the right column so the side studs face the front, right, and back. Then repeat symmetrically to the left.

11. Horizontally place a brown 1x2 sloped curved brick upright on the bottom right-facing side stud so it slopes down and there is no overhang. Then repeat symmetrically to the left.

12. Vertically place a brown 2x4 slope brick upright on the right-facing side studs so it sits above the 1x2 sloped curved brick and slopes up. Then repeat symmetrically to the left.

13. Place a brown 1x1 slope tile upright on the back right-facing side stud so it slopes down. Then place a brown 1x1 clip upright on the front right-facing side stud so the clip hands face up and down. Now repeat both parts symmetrically to the left.

14. Vertically place a brown 2x3 tile upright on the back facing side studs so it overhangs 1 row to the top.

#### Group 4 - Cogsworth

15. Place a brown 2x2 plate with 2 side studs on top so the side studs face the front. Then horizontally place a black 1x2 plate on the back row.

16. Place a brown 1x1 plate with a 1x1 sloped curved brick on the front right stud so it slopes and overhangs to the right. Now repeat symmetrically to the left. Then repeat both parts symmetrically to the back.

17. Place a brown 2x2 half-cylinder brick on top so it slopes to the left and right.

18.1. Let's make a part! Let's make 2 identical arms! Place a gold 1x1 plate with a bar and a rounded side in front of you so the bar faces the right. Now place a gold curved brick with an overhang on top so it overhangs to the left.

18.2. Attach the bar of 1 part to the right-facing clip so the anti-stud faces the top right. Then attach the bar of your other part to the left-facing clip so the anti-stud faces the bottom right.

19. Place the lower 2 rows of a dark brown 4x4 round plate upright on the front facing side studs so it is centered horizontally.

20. Place a brown 4x4 dish printed with a tan clock face with 2 eyes and a mouth upright on the 4x4 round plate.

21. Place a gold 1x1 round plate on the front stud. Then place another 1 upright on the front-facing side stud of the dish. Now put it away while we make the stand!

#### Group 5 - Stand

1. Horizontally place a white 2x2 round tile with a hole and 2 angled sides of 2x2 plates in front of you, so the studs face the front left and front right.

2. Place the leftmost column of a yellow 6x6 rounded plate on top of the rightmost column so it is centered vertically. Then repeat symmetrically to the left.

3. Flip your build upside down so it is horizontal. Now vertically place a white 2x6 plate with a rounded side on the 2 leftmost columns and 2 rightmost columns of each of the 6x6 rounded plates so rounded sides align with the curves of the plate.

4. Flip your build over so it is horizontal and it bends towards the front. Now horizontally place a light orange 2x4 tile with 2 studs on top of the left 6x6 rounded plate so it is centered. Then place 2 light orange 2x2 tiles, 1 in front of the other, on top of the right 6x6 rounded plate so together they are centered.

5.1. Horizontally place a light orange 1x2 jumper plate behind the 2x4 tile with 2 studs so it is centered horizontally. Then place a light orange 1x1 quarter tile to the left and right so the curves face the back left and back right. Now repeat everything symmetrically to the front.

5.2. Vertically place a light orange 1x2 jumper plate to the left of the 2x2 tiles on the right side so it is centered vertically. Now place a light orange 1x1 quarter tile in front and behind it so the curves face the front left and back left. Then repeat everything symmetrically to the right.

6. Place a light orange 2x2 tile to the right of the 2x4 tile with 2 studs that is on the left side. Then repeat symmetrically to the right. Now insert a black pin with a hinge and a ridged middle part on top of the middle hole so the hinge faces up.

7.1. Let's make a part! Place a white 2x2 inverted sloped curved plate with a smooth underside in front of you so it slopes to the back. Then horizontally place a white 1x2 plate with a hinge connector on the long side on the front row so the hinge connector faces the front.

7.2. Place a light grey 2x2 plate on top. Then vertically place a light grey 2x4 tile printed with 100 years of disney on top so it is centered vertically.

7.3. Attach the hinge connector of your part to the top-facing hinge so the tile faces the front. Now you can place your figures on the left and right sides, then put away your build so we can build the next part!

#### Building Instructions (Bag 2, Book 2):

#### Group 6 - Crush

1. Let's make Crush the sea turtle! Horizontally place a tan 2x3 plate with a rounded side and a hole in front of you so the rounded side faces the right.

2. Place a dark red 1x1 plate with a clip on the front left corner so the clip faces the front. Then repeat symmetrically to the back.

3. Place a salmon 2x2 round plate on the right column so the curve aligns with the curve of the 2x3 plate.

4. Place a salmon 2x2 round plate on the left 2 columns. Now place a brown 1x1 plate with a rounded side and a bar, on the front right corner so the bar faces the front right. Then repeat symmetrically to the back.

5. Vertically place a dark grey 1x2 plate with a ball on the long side on the rightmost column so the ball faces the right. Then place a salmon 2x2 round plate to the left.

6. Vertically place a brown 1x2 jumper plate with a rounded side on the rightmost column so the rounded side faces the right. Then vertically place another 1 to the left so the rounded side faces the left.

7. Horizontally place a dark red 1x2 rounded plate on top of the jumper plates with a rounded side from the previous step.

8.1. Let's make a part! Let's make 2 identical legs! Place a brown 1x1 plate in front of you. Then horizontally place a light green 1x4 inverted sloped curved brick on top so it slopes and overhangs 3 columns to the left.

8.2. Horizontally place a brown 1x2 plate with a bar on the short side, on the 2 rightmost columns so the bar faces the right. Then horizontally place a brown 1x1 plate with a 1x1 slope tile on the 2 leftmost columns so it slopes to the left.

8.3. Horizontally place a light brown 1x3 inverted sloped curved brick on top so it slopes to the right.

8.4. Now you should have 2 identical parts! Attach the bar of 1 part to the front-facing clip so the part faces the left and the anti-studs face the front. Then repeat symmetrically to the back.

9.1. Let's make a part! Let's make 2 identical arms! Place a brown 1x2 inverted sloped curved plate with a smooth underside in front of you so it slopes to the right. Then horizontally place a light green 1x4 inverted sloped curved brick on top of the left column so it slopes and overhangs 3 columns to the left.

9.2. Horizontally place a tan 1x2 plate with a clip on the short side, on the 2 rightmost columns so the clip faces the right.

9.3. Horizontally place a light green 1x3 plate on top of the 3 leftmost columns.

9.4. Place a brown 1x1 plate on the 2nd column from the left. Then horizontally place a light green 1x2 sloped curved tile on the 2 leftmost columns so it slopes to the left.

9.5. Horizontally place a light brown 1x3 inverted sloped curved brick on top so it slopes to the right.

9.6. Now you should have 2 identical parts! Attach the clip of 1 part to the front right-facing bar of your build so the stud faces the front left. Then repeat symmetrically to the back.

#### Group 7 - Crush

10. Place a dark red turtle shell printed with red flowers on top of the 1x2 rounded plate so the shell is on the left.

11. Let's make a part! Let's make a head! Place a tan 2x2 plate in front of you. Then horizontally place a light green 1x2 plate on the back row.

12. Horizontally place a light grey 1x2 plate with a socket on the long side on the back row so the socket faces the back.

13. Place a green 1x1 brick with a hole on the front left corner so the hole faces the left and right. Then insert a red 1L pin with a stud into the left-facing hole so the stud faces the left. Then repeat both parts symmetrically to the right.

14. Horizontally place a tan 1x2 plate with 2x2 side studs on the front row so the side studs face the front. Then horizontally place a light green 1x2 plate on the upper front-facing row.

15. Vertically place a light green 1x1 plate with a 1x1 sloped curved brick on the left column so it slopes to the back. Then repeat symmetrically to the right.

16.1. Place a light green 2x2 sloped curved tile with a sticker upright on the front-facing side studs so it slopes down.

16.2. Skip this step if you have already placed your stickers! Ask a helper to place sticker 1 on the light green 2x2 sloped curved tile. This sticker has a mouth with a light brown spot on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

17.1. Place a light green 2x2 sloped curved tile with a sticker on top so it slopes to the front. There should be no overhang.

17.2. Skip this step if you have already placed your stickers! Ask a helper to place sticker 2 on the light green 2x2 sloped curved tile. This sticker has many light brown spots on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

18. Place a green 2x2 round tile with a stud upright on the left-facing stud so the anti-studs face the left. Then place a white 2x2 round plate with a smooth underside printed with an eye upright on the left-facing anti-studs. Then repeat both parts symmetrically to the right.

19. Now attach the socket of your part to the right-facing ball of your build so the eyes face the front and back! Now put Crush the sea turtle away while we make Nemo!

#### Group 8 - Nemo

1. Horizontally place a red 1x2 plate in front of you. Then horizontally place an orange 1x3 plate on top so it overhangs 1 column to the left.

2. Horizontally place a black 1x2 sloped curved plate with a smooth underside underneath the leftmost column so 1 column is exposed to the left and it slopes to the left.

3. Place a black 1x1 brick with a bar on the leftmost column so the bar faces the left. Then place a yellow 1x1 brick with 2 side studs to the right so the side studs face the front and back. Then horizontally place a blue 1x2 brick with 2 sets of 2 side studs to the right so the side studs face the front and back.

4. Horizontally place a white 1x4 plate on top. Then horizontally place an orange 1x3 plate on top of the right 3 columns.

5.1. Let's make a part! Let's make the body! Place an orange 2x2 plate with 2 side studs in front of you so the side studs face the right. Then place a red 2x2 plate on the left column so 1 column overhangs to the left. Now place an orange 2x2 plate with a cutoff corner underneath the overhang so the cutoff corner faces the front left.

5.2. Horizontally place your part upright on the front-facing side studs so it hangs down and the cutoff corner faces the bottom left. There should be no overhang.

You will have an extra white 1x2 sloped curved tile. Save it for later!

#### Group 9 - Nemo

6.1. Horizontally place an orange 1x3 plate in front of you. Then vertically place an orange 1x2 sloped curved tile on the left column so it overhangs to the front and it slopes to the back. Then vertically place a white 1x2 sloped curved tile from group 8 to the right so it overhangs to the front and slopes to the back.

6.2. Horizontally place the overhang of your part upright on the upper row of the front-facing 2x2 plate so it slopes up.

7. Place a white 1x1 tile upright on the middle stud of the bottom front-facing row. Then place an orange 1x1 quarter tile upright to the right so the curve faces the bottom right. Then repeat symmetrically to the left.

8. Place an orange 1x1 slope tile upright on the top right front-facing side stud so it slopes up. Then place a black 1x1 clip upright below it so the clip hands are on the left and right.

9.1. Let's make a part! Let's make the body! Place an orange 2x2 plate with 2 side studs in front of you so the side studs face the left. Then place a red 2x2 plate on the right column so 1 column overhangs to the right. Now place an orange 2x2 plate with a cutoff corner underneath the overhang so the cutoff corner faces the front right.

9.2. Rotate your build 180 degrees. Then horizontally place your part upright on the front-facing side studs so it hangs down and the cutoff corner faces the bottom right. There should be no overhang.

You will have 1 extra orange 1x2 sloped curved tile. Save it for later!

#### Group 10 - Nemo

10.1. Horizontally place an orange 1x3 plate in front of you. Then vertically place an orange 1x2 sloped curved tile from group 9 on the right column so it overhangs to the front and it slopes to the back. Then vertically place a white 1x2 sloped curved tile to the left so it overhangs to the front and slopes to the back.

10.2. Horizontally place the overhang of your part upright on the upper row of the front-facing 2x2 plate so it slopes up.

11. Place a white 1x1 tile upright on the middle stud of the bottom front-facing row. Then place an orange 1x1 quarter tile upright to the right so the curve faces the bottom right. Then repeat symmetrically to the left.

12. Place an orange 1x1 slope tile upright on the top left front-facing side stud so it slopes up. Then place a black 1x1 clip upright below it so the clip hands are on the left and right.

#### Group 11 - Nemo

13. Horizontally place an orange 1x2 sloped curved tile on the 2 rightmost columns so it slopes to the right.

14. Place a short orange 1x1 brick on the 2nd column from the left. Then horizontally place an orange 1x1 plate with a 1x1 sloped curved brick on top of the 2 leftmost columns so it slopes to the left. Now horizontally place a black 1x1 tile with a 1x1 slope tile on top so it slopes to the right onto the 1x2 sloped curved tile.

15. Attach a bar of a black 1x1 plate with a rounded side and a bar, to the back-facing clip so the stud faces the back left. Now place an orange 1x1 quarter tile upright on it so the curved side faces the back.

16.1. Let's make a part! Let's make an arm! Place a black 2x2 rounded corner plate in front of you so the rounded side faces the right. Then place an orange 2x2 plate with a cutoff corner on top so the cutoff corner faces the right. Now place a black 1x1 plate with a rounded side and a bar underneath the overhang on the left side so the bar faces the left.

16.2. Attach the bar of your part to the front-facing clip so the studs face the front left.

## Group 12 - Nemo

17.1. Let's make a part! Let's make the tail! Horizontally place an orange 1x2 brick in front of you. Then horizontally place an orange 1x1 plate with a 1x1 sloped curved brick on top so it slopes and overhangs to the left. Then repeat symmetrically to the right.

17.2. Place 2 white 1x1 clips on top so the clip hands face front and back.

17.3. Horizontally place a black 1x2 inverted sloped curved plate with a smooth underside underneath the 2 leftmost columns so it slopes to the left. Then repeat symmetrically to the right.

17.2. Attach the clips of your part to the right-facing bar. This is the fish's tail!

18. Let's make a part! Let's make the face! Place a white 3x3 plate in front of you. Then horizontally place an orange 1x3 plate on the middle row so it is centered horizontally.

19. Place an orange 1x1 short brick on the back row so it is centered horizontally. Now place an orange 1x1 quarter tile to the left so the curve faces the back left. Then repeat symmetrically to the right.

20. Horizontally place an orange 1x3 plate on the 2nd row from the front so it is centered horizontally. Now place a white 1x1 round tile with a black eye on top of the left and right column of the 1x3 plate.

21.1. Vertically place an orange 1x1 plate with a 1x1 sloped curved brick and a sticker on top of the front rows in between the 1x1 round tiles so it slopes to the front.

21.2. Skip this step if you have already placed your stickers! Ask a helper to place sticker 6 on the orange 1x1 plate with a 1x1 sloped curved brick. This sticker is printed with black lips on an orange background. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

22. Vertically place an orange 1x2 sloped curved tile on the back 2 rows so it is centered horizontally and slopes to the back.

23. Place an orange 1x1 quarter sloped curved brick on the front left corner so it slopes to the front left. Then repeat symmetrically to the right.

24. Place your part upright on the left-facing side studs so 1 row hangs up and the 1x1 quarter sloped curved bricks are on the bottom. Now put your fish away while we make the stand!

## Group 13 - Stand

1. Horizontally place a white 2x2 round tile with a hole and 2 angled sides of 2x2 plates in front of you so the studs face the front left and front right.

2. Place the leftmost column of a light blue 6x6 rounded plate on top of the rightmost column so it is centered vertically. Then repeat symmetrically to the left.

3. Flip your build upside down so it is horizontal. Now vertically place a white 2x6 plate with a rounded side on the 2 leftmost columns and 2 rightmost columns of each of the 6x6 rounded plates so rounded sides align with the curves of the plate.

4. Flip your build over so it is horizontal and it bends towards the front. Now horizontally place a teal 2x4 plate on top of the left 6x6 rounded plate so it is centered. Then place a teal 2x2 tile to the right. Now repeat both parts symmetrically to the right. Now insert a black pin with a hinge and a ridged middle part on top of the middle hole so the hinge faces up.

5. Horizontally place a teal 1x2 jumper plate behind the left 2x4 plate with 2 studs so it is centered horizontally. Then place a teal 1x1 quarter tile to the left and right so the curves face the back left and back right. Now repeat everything symmetrically to the front. Now repeat everything symmetrically to the right.

6. Horizontally place 2 transparent light blue 1x2 bricks, 1 in front of the other, on top of the left 2x4 plate so they are centered. Then vertically place 2 transparent light blue 1x2 bricks, 1 to the right of the other, on the right 2x4 plate so they are centered.

7. Vertically place 2 teal 1x2 jumper plates, 1 to the right of the other, on top of the 2 leftmost 1x2 bricks. Now horizontally place 2 teal 1x2 jumper plates, 1 in front of the other, on top of the 2 rightmost 1x2 bricks.

8.1. Let's make a part! Place a white 2x2 inverted sloped curved plate with a smooth underside in front of you so it slopes to the back. Then horizontally place a white 1x2 plate with a hinge connector on the long side on the front row so the hinge connector faces the front.

8.2. Place a light grey 2x2 plate on top. Then vertically place a light grey 2x4 tile printed with 100 years of disney on top so it is centered vertically.

8.3. Attach the hinge connector of your part to the top-facing hinge so the tile faces the front. Now you can place your figures on the left and right sides, then put away your build so we can build the next part!

Building Instructions (Bag 3, Book 3):

Group 14 - Hei Hei

1-2. Let's make Hei Hei the rooster! Place a teal 2x2 plate in front of you. Place a teal 1x2 plate with a 1x2 inverted sloped curved brick on the right column so it slopes and overhangs to the right. Then repeat symmetrically to the left.

3. Horizontally place a teal 1x2 plate with 2 side studs hanging down on the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back.

4.1. Vertically place a yellow 1x2 jumper plate on the leftmost column.

Group 15 - Hei Hei

4.2. Vertically place 3 teal 1x2 jumper plates, 1 to the right of the other, on the 3 rightmost columns.

5. Place a light green 1x1 plate with a tooth upright on the right front-facing side stud so the tooth faces the right. Then horizontally place a teal 1x2 sloped curved tile on the front-facing side studs so it slopes to the left. Now repeat both parts symmetrically to the back.

6. Place a yellow 1x1 plate with a vertical tooth on the leftmost column so the tooth faces the left. Then horizontally place a yellow 1x2 rounded plate to the right. Now place a teal 1x1 plate to the right.

7.1. Horizontally place a yellow 1x2 inverted sloped curved brick on the 2 leftmost columns so it slopes to the right.

#### Group 16 - Hei Hei

7.2. Horizontally place a teal 1x2 inverted sloped curved brick on the 2 rightmost columns so it slopes to the left.

8. Place a yellow 1x1 plate on top of the leftmost column. Then horizontally place a teal 1x2 sloped curved tile on the rightmost column so it slopes to the left and overhangs to the right.

9. Place a lime green 1x1 brick with side studs on each side on top of the leftmost column.

10. Place a red 1x1 plate with a tooth upright on the left-facing side stud so the tooth faces down. Now place a yellow 1x1 clip upright on the left-facing side stud so the clip hands face up and down.

11. Horizontally place a red 1x2 rounded plate on top so 1 column overhangs to the left. Now place 2 red feathers on top of the rounded plate so they both face the front right.

12. Place a red 2x2 round tile with a hole on the front-facing side stud so the anti-studs face the front. Now place a white 2x2 round plate with a smooth underside printed with a black eye on the front-facing anti-studs. Then repeat symmetrically to the back.

#### Group 17 - Hei Hei

13.1. Let's make a part! Let's make Hei Hei's Legs! Horizontally place a yellow 1x2 rounded plate in front of you. Then place a yellow 1x1 plate with 3 leaves underneath the left column so the leaves face the front left. Then repeat symmetrically to the right. Now place 2 green ice cream cones, 1 to the right of the other, on top.

13.2. Vertically place your part underneath the left column so the leaves face the left.

14. Attach a dark grey 1x1 tile with a rounded side to the left-facing clip so the rounded side faces the left. Now put Hei Hei away while we make Pua the pig!

#### Group 18 - Pua

1. Horizontally place a white 2x3 plate in front of you. Then vertically place a white 1x2 brick on top so it is centered horizontally.

2. Place a light grey 1x1 plate with a clip on the back left corner so the clip faces the left. Then repeat symmetrically to the right.

3. Place a white 1x1 brick in the back left corner. Then repeat symmetrically to the right. Then place another 1 on the front row so it is centered horizontally. Now place a short blue 1x1 brick behind it.
4. Place a white 1x1 quarter sloped curved brick on the front left corner so it slopes to the front left. Then repeat symmetrically to the right.
5. Place a white 1x1 brick on the front row so it is centered horizontally.
6. Place a white 1x1 plate with a 1x2x2 sloped curved brick on the back left corner so it slopes and overhangs to the front. Then place a dark grey 1x1 round plate underneath the overhang. Now repeat both parts symmetrically to the right.
7. Horizontally place a light grey 1x3 plate on the back row.
8. Horizontally place a white 2x3 plate on top so it is centered horizontally.
9. Vertically place a white 1x2x2 brick with 8 side studs on 3 sides on the leftmost column so the side studs face the front, left, and back. Then repeat symmetrically to the right. Now place a blue 1x1x2 brick with 2 side studs on the front row in between the 1x2x2 bricks with side studs so the side studs face the front. Then repeat symmetrically to the back.
10. Let's make a part! Place a light grey 3x3 plate in front of you.
11. Vertically place 3 white 1x2 sloped curved tiles, 1 to the right of the other, on the back row so they slope and overhang to the back.
- 12.1. Place a white 1x1 tile on the back stud of the rightmost column.

#### Group 19 - Pua

- 12.2. Place a light grey 1x1 tile on the back stud of the leftmost column. Then vertically place a white 1x2 plate with a bar on the short side to the right so the bar faces the front.
13. Vertically place a white 1x2 sloped curved tile on the front left corner so it slopes and overhangs to the front. Then repeat symmetrically to the right.
14. Attach the clip of a white bar holder with a clip to the front bar so the hole faces up. Then insert a light grey light cover into the bar holder. The light cover looks like a rounded bulb with a bar on the bottom.
15. Rotate your main build 180 degrees so it slopes to the back. Then place your part upright on the front-facing side studs so the rounded part with a bar is at the bottom and faces the front. This is his back and tail! There should be no overhang.
16. Horizontally place a white 1x2 slope tile upright on the top left-facing row so it slopes up. Then place 2 white 1x1 half-cylinder bricks, 1 to the right of the other, upright below the 1x2 slope tile so they slope up and down.
17. Repeat the previous step symmetrically to the right.

18.1. Rotate your build 180 degrees so it slopes to the front. Now let's make 2 identical feet! Horizontally place a white 1x2 plate with a bar on the short side in front of you so the bar faces the left. Now place a white 1x1 plate with a side stud on the right column so the side stud faces the right. Then horizontally place a white 1x2 sloped curved tile on top so it slopes to the left. Then place a dark grey 1x1 tile with a rounded side on the right-facing side stud so the rounded side faces up.

18.2. Now you should have 2 identical parts! Attach the bar of 1 part to the left-facing clip so the 1x1 tile with a rounded side faces the front. Then repeat symmetrically to the right.

19. Horizontally place a dark grey 1x3 plate with a stud and 2 clips on top of the back row.

20. Place a white 1x1 quarter tile on the front left corner so the curve faces the front left. Then repeat symmetrically to the right. Now vertically place a white 1x2 sloped curved tile on top so it is centered horizontally and slopes to the front.

21.1. Let's make a part! Let's make an ear! Horizontally place a white 1x2 plate with a bar on the long side in front of you so the bar faces the back. Now place a white 2x2 angled sloped curved tile with a sticker on top so it slopes and overhangs to the front. Then attach the bar of your part to the left top-facing clip so the tile side faces the front.

21.2. Skip this step if you have already placed your stickers! Ask a helper to place sticker 4 on the white 2x2 angled sloped curved tile. This sticker has a pink ear and a light grey spot. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

21.3. Let's make a part! Let's make another ear! Horizontally place a white 1x2 plate with a bar on the long side in front of you so the bar faces the back. Now place a white 2x2 angled sloped curved tile with a sticker on top so it slopes and overhangs to the front. Then attach the bar of your part to the right top-facing clip so the tile side faces the front.

21.4. Skip this step if you have already placed your stickers! Ask a helper to place sticker 3 on the white 2x2 angled sloped curved tile. This sticker has a pink ear and a light grey spot. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

22. Vertically place a white 1x2 jumper plate upright on the right front-facing column. Then vertically place a light grey 1x2 jumper plate with a rounded side upright on the left front-facing column so the rounded side faces the left.

23. Vertically place a white 1x1 plate with a 1x1 slope tile upright on the middle front-facing column so it slopes up. Then place a dark grey 1x1 round plate upright on it.

24. Place a white 1x1 round tile printed with an eye on the left front-facing stud. Then repeat symmetrically to the right.

25. Horizontally place a pink 1x2 rounded plate upright on the front-facing stud so it is centered horizontally. Now put Pua away so we can make the stand!

Group 20 - Stand

1. Horizontally place a white 2x2 round tile with a hole and 2 angled sides of 2x2 plates in front of you, so the studs face front left and front right.
2. Place the leftmost column of a green 6x6 rounded plate on top of the rightmost column so it is centered vertically. Then repeat symmetrically to the left.
3. Flip your build upside down so it is horizontal. Now vertically place a white 2x6 plate with a rounded side on the 2 leftmost columns and 2 rightmost columns of each of the 6x6 rounded plates so rounded sides align with the curves of the plate.
4. Flip your build over so it is horizontal and it bends towards the front. Now horizontally place 2 green 2x2 tiles with a stud, 1 to the right of the other, on top of the left 6x6 rounded plate so they are centered. Then place a green 2x2 tile to the right. Now repeat both parts symmetrically to the right. Now insert a black pin with a hinge and a ridged middle part on top of the middle hole so the hinge faces up.
5. Horizontally place a green 1x2 tile behind the left 2x2 tiles with a stud so it is centered horizontally. Then place a green 1x1 quarter tile to the left and right so the curves face the back left and back right. Now repeat everything symmetrically to the front. Now repeat everything symmetrically to the right.
- 6.1. Let's make a part! Place a white 2x2 inverted sloped curved plate with a smooth underside in front of you so it slopes to the back. Then horizontally place a white 1x2 plate with a hinge connector on the long side on the front row so the hinge connector faces the front.
- 6.2. Place a light grey 2x2 plate on top. Then vertically place a light grey 2x4 tile printed with 100 years of disney on top so it is centered vertically.
- 6.3. Attach the hinge connector of your part to the top-facing hinge so the tile faces the front. Now you can place your figures on the left and right sides, then put away your build so we can build the next part!

Building Instructions (Bag 4, Book 4):

Group 21 - Meeko

1. Let's make Meeko the raccoon! Horizontally place a dark grey 1x4 plate with inverted sloped sides in front of you.
- 2-3. Vertically place a dark grey 1x3 brick with inverted sloped sides on top of the 2nd column from the left so it is centered vertically. Then repeat symmetrically to the right.
4. Place a dark grey 1x1 plate with a 1x1 sloped curved brick on the leftmost column so it slopes and overhangs to the front. Then vertically place a black 1x3 rounded plate underneath it so 2 rows are exposed to the front. Then rotate it to the left so it points towards the front left. Then repeat everything symmetrically to the right.
5. Horizontally place a dark grey 1x4 plate on the 2nd row from the back so it is centered horizontally.

6. Horizontally place a light grey 1x2 plate with a bar on the long side on the back row so the bar faces the back. Then horizontally place a dark grey 1x2 plate in front of the 1x4 plate so it is centered horizontally.
7. Place a dark grey 2x2x2 slope brick on the back 2 rows so it is centered horizontally and slopes to the back.
8. Place a dark grey 2x2 corner brick with a cutoff corner to the left and in front of the 2x2x2 slope brick so the cutoff corner faces the front left. The cutoff corner should overhang over the sloped curved brick. Then repeat symmetrically to the right.
9. Place 2 short black 1x1 bricks with a rounded side and a side stud, 1 to the right of the other, in front of the 2x2x2 slope brick so the side studs face the front. Then horizontally place a dark grey 1x2 plate on top of them.
10. Vertically place a black 1x3 rounded plate on the leftmost column on top of the 2x2 corner brick with a cutoff corner so it overhangs 2 rows to the front. Then place a black 1x1 plate with a clip on top of the front stud of the 1x3 rounded plate so the clip faces the front. Now repeat both parts symmetrically to the right.
11. Horizontally place 2 dark grey 1x1 plates with a 1x1 sloped curved brick, 1 in front of the other, on the back left corner so they slope to the left. They should sit on the 2x2x2 slope brick and 1x2 plate! Then repeat symmetrically to the right.
12. Place a black 2x2 turntable plate on top of the previous 1x1 plates with 1x1 sloped curved bricks. Now place a light grey 2x2 round turntable plate on top.
13. Vertically place the middle row of a light grey 2x3 tile with an angled side upright on the front-facing side studs so the angled side faces down.

You will have 2 extra black 2x2 round plates. Save them for later!

#### Group 22 - Meeko

- 14.1. Let's make a part! Place a black 2x2 dome brick upside down in front of you. Now insert a yellow 3L axle into the top-facing hole.
- 14.2. Place a dark grey 2x2 round plate on top of the axle so it goes all the way down.
- 14.3. Place a black 2x2 round plate from group 21 on top of the axle so it goes all the way down.
- 14.4. Place a dark grey 2x2 round plate on top of the axle so it goes all the way down.
- 14.5. Place a black 2x2x2 cone brick on top of the axle so it goes all the way down.
- 14.6. Place a dark grey 1x1 clip upside down on the bottom-facing stud. This is a tail!
- 14.7. Attach the clip of your tail to the back-facing bar so it is centered horizontally and the tail faces the back.

## Group 23 - Meeko

15. Let's make Meeko's head! Place a teal 2x2 round plate in front of you. Then place a black 2x2 round plate from group 21 on top.

16. Horizontally place a dark grey 2x4 plate with inverted sloped sides underneath it so it is centered horizontally.

17. Vertically place a yellow 1x2x2 brick with 2x2 side studs on the leftmost column so the side studs face the left. Then repeat symmetrically to the right. Now horizontally place another 1 on the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back.

18. Horizontally place a dark grey 1x4 plate on the back row. Then repeat symmetrically to the front.

19. Place a back right corner of a dark grey 2x2 plate with a cutoff corner upright on the bottom left front-facing side stud so the cutoff corner faces the bottom left. Then repeat symmetrically to the right.

20. Place 2 dark grey 2x2 sloped curved tiles 1 to the right of the other, upright on the upper 2 front-facing rows so they slope up.

21. Place a dark grey 1x2 tri-slope tile upright on the top right-facing row so it slopes up. Then horizontally place another 1 below it so it slopes down.

22. Repeat the previous step symmetrically to the left.

23. Rotate your build 180 degree so the 2x2 side studs face the front. Now vertically place 2 dark grey 1x2 slope tiles, 1 to the right of the other, on top so they are centered horizontally and they slope outwards to the left and right. Now vertically place a black 1x2 jumper plate with a rounded side on the leftmost column so the rounded side faces the left. Then repeat symmetrically to the right.

24. Place a light grey 1x1 slope tile on the leftmost column so it slopes to the right. Then repeat symmetrically to the right.

25. Let's make the face! Horizontally place a light grey 2x4 plate in front of you.

26. Place a dark grey 2x2 plate with a cutoff corner on the front left corner so it overhangs 1 row to the front and the cutoff corner faces the front left. Then repeat symmetrically to the right.

27. Horizontally place a dark grey 1x2 plate underneath the front row so it is centered horizontally.

28. Horizontally place a black 1x2 jumper plate with a rounded side on the back left corner so the rounded side faces the back. Then repeat symmetrically to the right.

29. Place a white 1x1 round tile printed with an eye on the back left jumper plate. Then repeat symmetrically to the right.

30. Horizontally place a light grey 1x1 plate with 1x1 slope tile on the 2 leftmost columns on the 2nd row from the front so it slopes to the left. Then repeat symmetrically to the right.

31. Horizontally place a light grey 1x2 tile with a rounded side on the front row so it is centered horizontally and the rounded side faces the front.

#### Group 24 - Meeko

32. Horizontally place a dark grey 1x2 plate on top of the 1x2 studs. Then horizontally place a light grey 1x2 jumper plate on top. Place a black 1x1 slope tile on top so it slopes to the front.

33. Now place your part upright on the front-facing side studs of your previous part so it is centered and there is no overhang. The 1x1 round tiles should be on top!

34. Locate your main build and place it in front of you so the tail faces the back. Now place your head on top so it faces the front!

35. Attach a light orange 2x2 round tile to the left front-facing clip! This is a gold coin! Then put your build away while we make the next part!

#### Group 25 - Stand

1. Horizontally place a white 2x2 round tile with a hole and 2 angled sides of 2x2 plates in front of you, so the studs face front left and front right.

2. Place the leftmost column of a nougat 6x6 rounded plate on top of the rightmost column so it is centered vertically. Then repeat symmetrically to the left.

3. Flip your build upside down so it is horizontal. Now vertically place a white 2x6 plate with a rounded side on the 2 leftmost columns and 2 rightmost columns of each of the 6x6 rounded plates so rounded sides align with the curves of the plate.

4. Vertically place a light brown 2x4 tile on top of the left 6x6 rounded plate so it is centered. Then repeat symmetrically to the right.

5. Vertically place a light brown 1x2 jumper plate to the left of the 2x4 tile that is on the left side so it is centered vertically. Now place a light brown 1x1 quarter tile in front and behind it so the curves face the front left and back left. Then repeat everything symmetrically to the right of the 2x4 tile. Then repeat everything symmetrically to the right side of the build.

6. Place a light brown 2x2 tile to the right of the right 1x2 jumper plate that is on the left 6x6 rounded plate. Then repeat symmetrically to the right. Now insert a black pin with a hinge and a ridged middle part on top of the middle hole so the hinge faces up.

7.1. Let's make a part! Place a white 2x2 inverted sloped curved plate with a smooth underside in front of you so it slopes to the back. Then horizontally place a white 1x2 plate with a hinge connector on the long side on the front row so the hinge connector faces the front.

7.2. Place a light grey 2x2 plate on top. Then vertically place a light grey 2x4 tile printed with 100 years of disney on top so it is centered vertically.

7.3. Attach the hinge connector of your part to the top-facing hinge so the tile faces the front. Now you can place your figure on the left side, then put away your build so we can build the next part!

Building Instructions (Bag 5, Book 4):

Group 26 - Percy

1. Let's make Percy the dog! Horizontally place a tan 2x4 plate with inverted sloped sides in front of you.
2. Place a tan 2x2 brick on top so it is centered horizontally.
3. Place a tan 2x2 corner plate on the front left corner so it overhangs to the left and front and looks like the braille letter d. Then repeat symmetrically to the back.
4. Vertically place a tan 1x2 jumper plate on the leftmost column. Then place a tan 1x1 double slope tile on top of it so it slopes to the left and right.
5. Place a tan 2x2x2 slope brick to the right of the 1x2 jumper plate so it is centered vertically and slopes to the left.
6. Vertically place a tan 1x2x2 brick to the right of the 2x2x2 slope brick. Now place 2 tan 1x1 bricks with a side stud and a bottom lip, 1 in front of the other, on the rightmost column so the side studs face the right.
7. Vertically place a tan 1x2 plate with 2x2 side studs on top of the rightmost column so the side studs face the right. Now place 2 dark grey 1x1 bricks with a hole, 1 in front of the other, so the holes face front and back. Now insert a black 2L pin into the front-facing hole and back-facing hole.
8. Horizontally place a blue 1x2 jumper plate upright on the top right-facing row. Place a tan 2x2 sloped curved tile upright on the right-facing side studs below the 1x2 jumper plate so it slopes down.
9. Vertically place a blue 1x4 plate on the rightmost column so it is centered vertically. Then vertically place a blue 2x4 plate with angled sides to the left so it is centered vertically and the short end faces the left.
10. Place a dark grey 2x2 tile with an upward pin on top of the 2 rightmost columns so it is centered vertically.
11. Horizontally place a blue 1x2 angled sloped curved tile on the front right corner so the angled side faces the front and it slopes to the right. Now place a blue 2x2 corner tile with a cutoff corner to the left so the cutoff corner faces the front left. Now repeat both parts symmetrically to the back.

Group 27 - Percy

12. Place a light orange ball on the right-facing stud.
- 13.1. Let's make 2 identical parts of the back legs! Horizontally place a dark grey 1x2 rounded plate in front of you. Then horizontally place a tan 1x1 plate with a 1x1 sloped curved brick on top of the left stud so it overhangs to the left and slopes to the right.

13.2. Now you should have 2 identical parts! Horizontally place the left column of 1 part underneath the front overhang of the 1x1 plate so it slopes to the right. Then repeat symmetrically to the back.

14.1. Let's make 2 more identical parts of the back legs! Horizontally place a tan 1x1 plate with a 1x2x2 sloped curved brick in front of you so it slopes to the right. Then place a tan 1x1 tile with a rounded side on top so the rounded side faces the left.

14.2. Now you should have 2 identical parts! Horizontally place 1 on top of the 1x1 plate on the front row so it slopes to the right. Then repeat symmetrically to the back.

15.1. Let's make 2 identical front legs! Horizontally place a dark tan 1x2 inverted sloped curved plate with a smooth underside in front of you so it slopes to the left. Now horizontally place a tan 1x2 plate with a clip on the short side, on top of the right column so it overhangs 1 column to the right and the clip faces the right.

15.2. Horizontally place a tan 1x2 plate with a stud and a hole on top of the 2 leftmost columns so the hole is on the left and faces front and back. Now horizontally place a tan 1x2 sloped curved tile on top so it slopes to the right.

15.3. Attach the bar of a dark grey 1x1 rounded plate with a bar to the right-facing clip so the stud faces up. Now place a tan 1x1 tile with a rounded side on top so the rounded side faces the right.

15.4. Horizontally attach the back hole of 1 part to the front-facing pin so the 1x1 tile with a rounded side is on the right. Then repeat symmetrically to the back. These are Percy's arms!

#### Group 28 - Percy

16. Let's make the head! Horizontally place a tan 1x4 plate with inverted slope sides in front of you. Then vertically place a dark tan 2x3 plate on top so it is centered horizontally and overhangs 2 rows to the front.

17. Horizontally place a tan 2x4 plate with inverted slope sides underneath the overhang so it is centered horizontally.

18. Horizontally place a black 1x2 brick with a hole on the back row so it is centered horizontally. Then horizontally place another 1 in front.

19. Place 2 tan 1x1 bricks with a side stud and a bottom lip, 1 to the right of the other, on the front row so they are centered horizontally and the side studs face the front.

20. Vertically place a dark tan 2x3 plate on top so it is centered horizontally. Then vertically place a tan 1x2 plate on the back left corner. Now repeat symmetrically to the right.

21. Horizontally place a tan 1x1 plate with a 1x1 sloped curved brick on the back left corner so it slopes to the left. Then repeat symmetrically to the right. Now place a tan 1x1 double-slope tile on the leftmost column in front of the 1x1 sloped curved brick so it slopes to the left and right. Now repeat symmetrically to the right.

22. Place a tan 1x1 brick with a side stud and a bottom lip on the front left corner so the side stud faces the left. Then repeat symmetrically to the right.

23. Horizontally place a tan 2x4 rounded tile printed with 2 eyes on the front 2 rows so it is centered horizontally.

24. Place a dark grey 2x2 round plate on the back row so it overhangs 1 row to the front. Then place a light grey 2x2 round tile on top.

25. Flip your part on its side so it is horizontal and the 2x2 round tile from the previous step faces the front. Now insert a light grey 1x1 round plate with a bent bar underneath on the left-facing side stud so the stud faces the front left. Then repeat symmetrically to the right. Now place 2 tan 1x1 double-sloped tiles, 1 to the right of the other, on top so they slope to the left and right.

26. Vertically place a dark grey 1x2 angled sloped curved tile upright on the front left facing side stud so the short side hangs down and the angled side is on the right. Then repeat symmetrically to the right. These are Percy's ears!

27. Bring back your build and place it in front of you so the front legs and the ball face the front. Now place your head on top so it is centered! Now bring back your previous build and place him on the stand!

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at [info@bricksfortheblind.org](mailto:info@bricksfortheblind.org) and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets, there are no ads.
