

## **71823 Kai's Dragon Spinjitzu Spinner**

Adapted by John Le and tested by Jolene Nemeth.

Kai's Dragon Spinjitzu Spinner (71823) action toy lets boys and girls aged 6 plus recreate exciting scenes from season 3 of the NINJAGO® Dragons Rising TV show. Kids will be thrilled to build this small LEGO® set before pushing the launcher's button to unleash Kai's Dragon Spinjitzu Spinner toy into a rapid spin and watch as 2 power elements possibly fly off when it hits its target.

The adventure playset comes with 2 minifigures: Kai, who has a sword accessory and rides inside the dragon Spinjitzu spinner, and a villainous Dragonian Scout armed with an axe accessory, plus a small dragon critter model. Kids can enjoy role-play action as they stage good vs. evil battles with these popular NINJAGO characters.

LEGO® NINJAGO® action toy for kids – Boys and girls aged 6 and up can play out scenes from season 3 of the NINJAGO Dragons Rising TV show with Kai's Dragon Spinjitzu Spinner.

Fast-paced spinner toy – Push the launcher's button to unleash Kai's Dragon Spinjitzu Spinner toy into a rapid spin and watch as 2 power elements possibly fly off when it hits its target.

2 NINJAGO® minifigures – This building set for kids comes with Kai, who rides inside the Spinjitzu spinner, a villainous Dragonian Scout, plus a small dragon critter model.

Weapon accessories – Each NINJAGO® character minifigure has a weapon for enhanced play value: Kai comes with a sword accessory and the Dragonian Scout has an axe accessory.

Measurements – The 54-piece Kai's Dragon Spinjitzu Spinner LEGO® building set for kids measures over 2 in. (6 cm) high, 4 in. (10 cm) long and 3.5 in. (9 cm) wide

The front of the box shows Kai on his spinner! A huge flame with a dragon is around him!

The back of the box shows how to use the spinner! You have to put the spinner on the platform, then press the button to spin it! It also shows a real size image of Kai!

The build is 54 pieces in total and is for ages 6+.

Bag 1 includes the pieces for Kai, a dragonian scout, a dragon, and the spinner.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back

- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- “Anti-stud” is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/71823>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

#### Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 1 bag labeled 1, 1 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Kai, Villainous Dragonian Scout, Dragon, and Spinner

Group 1 - Dark Red Minifigure on the left.

Group 2 - Red Minifigure on the right.

Group 3 - Steps 1-4.

Group 4 - Steps 1-15.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Kai

Sub-build 1. Locate 1 dark red pair of legs printed with red and gold armor, 1 dark red torso printed with red and gold armor, 1 yellow head printed with a black and red eye mask, 1 red and gold mask, and 2 gold katanas. Assemble your minifigure then attach the katanas to his hands!

Group 2 - Villainous Dragonian Scout

Sub-build 2. Locate 1 red pair of legs printed with dark grey armor, 1 red torso printed with dark grey armor, 1 dark grey shoulder armor, 1 red head printed with gold eyes and large teeth, 1 dark tan hair, and 1 light grey axe. Assemble your minifigure, then make sure the back plate is on his back, then attach the axe to his hand!

Group 3 - Dragon

1. Vertically place a brown 1x2 rounded plate in front of you. Then vertically place a dark grey dragon body on top so the tail faces the back.

2. Place a dark red 1x1 clip on the front left-facing side stud so the clip hands are on top and bottom. Then repeat symmetrically to the right.

3. Horizontally attach a dark red wing to the left-facing clip so the ridges face the back. Then repeat symmetrically to the right.

4. Let's make the stand so it looks like it is flying! Place a transparent 3x3 dish in front of you. Then place a transparent bar with an anti stud on top so the bar faces up. Now horizontally place the front row of the 1x2 rounded plate on top so it is flying! Now put it away while we make the spinner!

Group 4 - Spinner

1. Let's make the spinner base! Place a black 4x4 brick with a 2x2 gap and holes in front of you so the singular hole faces front and back. Then place the back 2 rows of a 3x3 curved corner plate underneath the front right corner so the curve faces the front left. Then repeat symmetrically to the left.

2. Insert a dark grey 8L axle with a stop into the back-facing hole so it goes all the way through and comes out the front. The stop should face the back!

3. Let's make a button! Stack 2 red 2x2 round plates together then place them in front of you. Now place a gold 2x2 round tile on top. Then place your part upright on the front-facing axle so it is centered.

4. Rotate your part so the 2x2 round tile faces the left. Then horizontally place a dark grey 4x6 plate with 2 upright vertical rails in the center, , underneath the 2 rightmost columns so the rail is on the right.

5. Place a gold 1x1 round plate on the front right corner. Then place another 1 on the front row on the 4th column from the right. Then repeat both parts symmetrically to the back.

6. Horizontally place a red 1x2 plate with a clip on the long side on the front row in between the 1x1 round plates so the clip faces the front. Then repeat symmetrically to the back.

7. Horizontally place a red 1x4 plate on the front right corner. Then repeat symmetrically to the back.

8. Rotate your part so the upright 2x2 round tile faces the front. Now horizontally place a black 1x3 rounded plate on the front right corner so 1 column overhangs to the right. Then repeat symmetrically to the left.

9. Horizontally place a red 1x1 plate with a 1x1 slope tile underneath the overhang of the right 1x3 rounded plate so it slopes to the right. Then repeat symmetrically to the left.

10. Place a gold 1x1 round plate on the leftmost column of the right 1x3 rounded plate. Then repeat everything symmetrically to the left.

11. Horizontally place a red 1x1 plate with a 1x1 slope tile on the front right corner so it slopes to the right. Then repeat symmetrically to the left.

12. Horizontally place a brown 1x2 rounded plate on the front row on top of the right 1x1 round plate and 1x1 plate. Then repeat symmetrically to the left.

13. Place the front 2 rows of a red 3x3 curved corner plate on the 1x2 rounded plate that is on the front right corner so the curve faces and overhangs to the front left. Then repeat symmetrically to the left.

14. Vertically place a red 1x6 tile on the back right corner. Then repeat symmetrically to the left. Now vertically place the back 2 rows of a red 2x4 tile in between the front 2 rows of the 1x6 tiles.

15. Let's make the spinner now! Place a red spinner in front of you so the cone part faces down. Then attach 2 transparent orange rounded flame parts to the sides of the spinner! Use the bars of the flames and attach them to the clips of the spinner! The flames should face up!

Now place your spinner behind the 2x4 tile, then push on the upright 2x2 round tile to spin it!

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at [info@bricksfortheblind.org](mailto:info@bricksfortheblind.org) and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets are advertisements for the following 2 LEGO Ninjago Theme kits:

71826 Dragon Spinjitzu Battle Pack

71824 Sora's Dragon Spinjitzu Spinner
