

11200 Spidey and Gobby's Raptor Battle at Tree House HQ

Adapted by John Le and tested by Jolene Nemeth.

Kids aged 4 and up who love Super Heroes, dinosaurs and buildable toys will find all that and more in LEGO® Marvel Spidey And His Amazing Friends Spidey and Gobby's Raptor Battle at Tree House HQ (11200), a build-and-play adventure playset for boys and girls.

The tree house has 3 platforms, including one with a large screen displaying the team's mission. There are Trapster, Ghost-Spider and Trace-E minifigures, plus Spidey-Rex, Gobby-Raptor and Dino-Spin buildable dinosaur figures. Trapster's aircraft has 2 shooters. Accessories include large web elements, red diamonds, a treasure chest, treasure map, sausage, egg, chicken leg, binoculars and an axe. A colorful picture-story guide is included to provide intuitive instructions. Separate bags contain bricks and a large Starter Brick to make construction quick and easy.

Buildable dinosaur toy for kids – Spidey and Gobby's Raptor Battle at Tree House HQ makes a great gift for boys and girls aged 4 and up who like Super Heroes, dinosaurs and buildable toys.

A tree house filled with fun – Includes 1 model per bag with a guide and large Starter Brick to give kids quick, fun builds that get play started quickly.

LEGO® tree house adventures – Kids join Trapster, Ghost-Spider, Gobby-Raptor, Spidey-Rex, Dino-Spin and Trace-E for fun with heroes, villains and dinosaurs at the jungle tree house.

Buildable role-play dinosaur toy – Trapster's aircraft has 2 shooters and other accessories include large web elements, red diamonds, a treasure chest, treasure map, sausage, egg and binoculars.

143-piece set – The tree house measures over 6 in. (16 cm) high, 9 in. (23 cm) wide and 5.5in. (15 cm) deep.

The front of the box shows the tree house HQ! It has webs and ladders and an egg in the center on a pedestal! To the left, Trapster is in his aircraft with a net trying to steal the egg! Ghost-Spider has to stop him and make sure he can't get it! There is a Spidey Rex and a Gobby Raptor in the front battling it out!

The back of the box shows all the accessories that the set comes with. It comes with 2 minifigures, 3 dinosaurs, some tools, a map, a web, diamonds, an egg, a rope, a map, crate, hot dog, chicken leg, an aircraft, the Tree House HQ, and cover that can be used to shoot out disks!

The top of the box shows a real size image of Trapster!

The build is 143 pieces in total and is for ages 4+.

Bag 1 includes the pieces for Spidey Rex and part of the HQ.

Bag 2 includes the pieces for Ghost Spider, cover, and part of the HQ.

Bag 3 includes the pieces for Gobby Raptor and part of the HQ.

Bag 4 includes the pieces for Trapster, Dino-Spin, and an aircraft.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/11200>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 4 bags labeled 1 to 4, 4 sets of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

The steps in this set correspond to page numbers.

Bag 1 - Spidey Rex and HQ

Group 1 - Pages 6-7.

Group 2 - Pages 8-33.

Group 3 - Pages 34-75.

Bag 2 - Ghost Spider, Cover, and HQ

Group 4 - Pages 4-9.

Group 5 - Pages 10-19.

Group 6 - Pages 20-39.

Bag 3 - Gobby Raptor and HQ

Group 7 - Pages 4-7.

Group 8 - Pages 8-35.

Bag 4 - Trapster, Dino-Spin, and Aircraft

Group 9 - Pages 4-7.

Group 10 - Pages 8-41.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Spidey Rex

6-7. Horizontally place a blue and red Spidey Rex printed with a web and 2 black and white eyes in front of you so the head faces the front. Then vertically attach a red jaw with teeth to the bottom of his face so the short end of the jaw faces the front. Now attach a transparent pink diamond to his left hand so the diamond faces the left. Now put him away while we make part of the HQ!

Group 2 - Tree House HQ

8-9. Place a green 8x8 plate with 4 1x4 gaps on the sides in front of you. Then vertically place a green 1x4 tile on the leftmost column so it is centered vertically.

10-11. Vertically place a brown 2x6x6 curved door frame on the 2 leftmost columns so the curved side faces the left.

12-13. Rotate your part so the door frame faces the back. Now place a transparent blue 2x2 brick in front of the door frame so it is centered horizontally. Then place a tan 2x2 tile with a stud on top.

14-15. Place a white egg on top of the ppp. Then horizontally place a brown 2x6x6 curved door frame in front so it is centered horizontally and the curved side faces the front.

16-17. Horizontally place a red 2x4 tile with 2 studs on the front row so it is centered horizontally and overhangs 1 row to the front.

18-19. Place a green 8x8 plate with a rounded side underneath the overhang so it is centered horizontally and the rounded side faces the front.

20-21. Place a tan 1x2 plate with claws on the 2 leftmost columns to the left of the 2x4 tile with 2 studs so the claws face the front. Then repeat symmetrically to the right.

22-23. Horizontally place a tan 1x2 plate on the 2 leftmost columns behind the ppp. Then repeat symmetrically to the right.

24-25. Place a tan 2x2 round plate on the 2 leftmost columns on top of the left ppp and 1x2 plate with claws so there is no overhang. Then repeat symmetrically to the right.

26-27. Place a white claw on top of the left 2x2 round plate so it curves to the right. Then repeat symmetrically to the right.

28-29. Horizontally place a red 2x4 tile with 2 studs on the 2nd and 3rd rows from the front so it is centered horizontally.

30-31. Horizontally place a light brown 2x4 chest bottom on the front 2x4 tile with 2 studs so it is centered horizontally and the lower side faces the back. Now horizontally attach a light brown 2x4 chest top to the lower side of the chest.

32-33. Close the chest, and place a transparent pink diamond on top of the left stud of the chest. Then place a tan 2x2 tile printed with a light blue and yellow map on the right stud so it is centered on it.

Group 3 - Tree House HQ

34-35. Horizontally place a black 1x2 plate with 2 clips on the long side on the back row on top of the curved door frame so it is centered horizontally and the clips face the back. Then vertically place a black 2x4 tile in front so it is centered horizontally.

36-37. Place a yellow 2x2 plate in front of the ppp so it is centered horizontally and overhangs 1 row to the front.

38-39. Place the front row of a red 6x6 rounded plate on top of the back row of the ppp so it is centered horizontally.

40-41. Vertically place a tan 4x4 angled slope brick printed with dark red eyes in front of the ppp so it is centered horizontally and slopes and overhangs 3 rows to the front.

42-43. Place the front row of a tan 2x2 round plate on top of the ppp so it is centered horizontally.

44-45. Place a tan 1x1 slope tile on the front left corner of the ppp so it slopes to the right. Then repeat symmetrically to the right.

46-47. Horizontally place a blue 2x4 plate on the 2nd and 3rd rows from the back so it is centered horizontally.

48-49. Place a transparent blue 2x2 brick on top of the ppp so it is centered horizontally.

50-51. Vertically place a light blue 1x2 brick with an axle hole to the left and right of the ppp.

52-55. Horizontally place a red 2x4x6 door frame on top of the 2 ppp so it is centered horizontally and the side with the ridges faces the front. Then attach a light blue glass pane printed with a green dinosaur foot and a tablet with a map and radar to the front of the door frame.

56-57. Place a transparent blue 2x2 brick on top of the 2x4x6 door frame so it is centered horizontally.

58-59. Place a tan 6x6 dish on top of the ppp so it is centered on it.

60-61. Place a red 2x2 round tile with a stud on top of the ppp.

62-63. Place a blue 2x2 dish on top of the ppp.

64-65. Let's make 2 identical parts! Horizontally place a black axle with a pin connector in front of you so the axle faces the right and the pin hole is on the left and faces up. Then insert a black 2L pin into the top-facing hole. Now place a long brown curved pin connector on top so it curves to the left.

66-67. Now you should have 2 identical parts! Attach the axle of 1 part to the left-facing axle hole that is in the back. Then repeat symmetrically to the right.

68-69. Let's make 2 identical parts! Let's make the leaves! Place a brown torch holder in front of you so the 4 bars face up. Then place a green 1x2 rounded plate with leaves on the back left bar so the leaves and 1 stud overhang to the back left.

70-71. Place a green 1x2 rounded plate with leaves on the back right bar so the leaves and 1 stud overhang to the back right. Then place another 1 on the front left bar so the leaves and 1 stud overhang to the front.

72-75. Now you should have 2 identical parts! Attach the bottom-facing bar of 1 part to the left long curved pin connector. Then repeat symmetrically to the right. These are trees! Now put your build away while we build the next part!

Building Instructions (Bag 2, Book 1):

Group 4 - Ghost Spider

4-5. Locate 1 short purple pair of legs, 1 white and purple torso printed with a lime green spider, 1 white head printed with white eyes with a purple outline, and 1 white hood. Assemble your minifigure then place her in front of you.

6-7. Place a lime green web with a bar and clips in front of you so the stud faces up, the bar faces the left, and the clips face the right. Now place 1 end of a lime green rope on top.

8-9. Attach the other end of the rope to Ghost Spider's hand! Now put her away while we make some cover that you can shoot disks out of!

Group 5 - Cover

10-11. Place a green 8x8 plate with a rounded side in front of you so the rounded side faces the front. Then vertically place a brown 2x3 slope brick on the back 3 rows so it is centered horizontally and slopes to the back.

12-13. Horizontally place a brown 1x3x2 half arch brick on the 3rd row from the back, to the left of the ppp so it arches to the left. Then repeat symmetrically to the right. Horizontally place a light grey 1x4 brick with a slot on the 3rd row from the back so it is centered horizontally.

14-15. Horizontally place a brown 1x4 plate on top of the ppp so it is centered horizontally. Then horizontally place a green 1x2 rounded plate with leaves to the left so the leaves face the left. Then repeat symmetrically to the right.

16-17. Horizontally place a brown 1x6 plate on top of the 3 ppp so it is centered horizontally.

18-19. Locate 3 light blue 2x2 round tiles. You can shoot these out of the slot!

Group 6 - Tree House HQ

20-21. Place a green 8x8 plate with a rounded side in front of you so the rounded side faces the left. Then vertically place a brown 2x4x2 half circle panel on the 2 leftmost columns so it is centered vertically and the rounded side faces the left.

22-23. Vertically place a brown 2x4x2 half circle panel to the right of the ppp so it is centered vertically and the rounded side faces the right. Now horizontally place a brown 2x3 tile to the right so it is centered vertically. Then vertically place a red 2x4 tile with 2 studs to the right so it is centered vertically and overhangs 1 column to the right.

24-25. Place a black 1x2 plate with 2 clips on the long side on the leftmost column so it is centered vertically and the clips face the left. Horizontally place another 1 to the right on the 2nd row from the front so the clips face the front. There should be no overhang. Then repeat symmetrically to the back.

26-27. Vertically place a tan 1x2 plate with a bar on the long side on top of the half circle panels on the 4th column from the left so it is centered vertically and the bar faces the right.

28-29. Place a red 4x4 rounded plate on the 4 leftmost columns on top of the plates with clips so it is centered vertically.

30-31. Attach the bar of a lime green web to the back-facing clips so the web faces up.

32-33. Horizontally attach the clips of a long ladder to the right-facing bar so the ladder faces the top right. Then horizontally attach a short black ladder to the left-facing clips so it faces the bottom left.

34-37. Horizontally attach a white bone to the front-facing clips so it is centered horizontally on them.

38-39. Bring back your previous main build from bag 1, and vertically place it in front of you so the rounded side faces the front. Now place the right-facing overhang of your current build on the leftmost column of the main build so it sits in the 1x4 gap. Now put it away while we make the next part!

Building Instructions (Bag 3, Book 1):

Group 7 - Gobby Raptor

4-5. Horizontally place a green and purple Gobby Raptor printed yellow eyes in front of you so the head faces the front. Then vertically attach a green jaw with teeth to the bottom of his face so the short end of the jaw faces the front. Now attach a red hot dog to his hand!

6-7. Horizontally place a light brown 3x4 crate in front of you. Then place a dark grey pickaxe and a light brown chicken leg inside! Now put everything away while we make part of the HQ!

Group 8 - Tree House HQ

8-9. Place a green 8x8 plate with a rounded side in front of you so the rounded side faces the right. Then vertically place a brown 2x4x2 half circle panel on the 2 rightmost columns so it is centered vertically and the rounded side faces the right.

10-11. Vertically place a brown 2x4x2 half circle panel to the left of the ppp so it is centered vertically and the rounded side faces the left.

12-13. Horizontally place a brown 2x3 tile to the left of the ppp so it is centered vertically. Then vertically place a red 2x4 tile with 2 studs to the left so it is centered vertically and overhangs 1 column to the left.

14-15. Place a black 1x2 plate with 2 clips on the long side on the rightmost column so it is centered vertically and the clips face the right. Horizontally place another 1 to the left on the 2nd row from the front so the clips face the front. There should be no overhang. Then repeat symmetrically to the back.

16-17. Vertically place a tan 1x2 plate with a bar on the long side on top of the half circle panel on the 4th column from the right so it is centered vertically and the bar faces the left.

18-19. Place a red 4x4 rounded plate on the 4 rightmost columns on top of the plates with clips so it is centered vertically.

20-23. Attach the bar of a lime green web to the back-facing clips so the web faces up. Then place a black spider upright on the front-facing side stud of the web.

24-25. Horizontally attach the clips of a long ladder to the left-facing bar so the ladder faces the top left. Then horizontally attach a short black ladder to the right-facing clips so it faces the bottom right

26-27. Horizontally attach a white bone to the front-facing clips so it is centered horizontally on them.

28-29. Place a dark grey 1x1 telescope bar on the rightmost column on the front right corner of the 4x4 rounded plate.

30-31. Place the center hole of a black pair of binoculars on top of the telescope bar so the larger round parts face the front.

32-35. Bring back your main build and vertically place it in front of you so the rounded sides face the front and left. Make sure the ladders face the left. Now place the left-facing overhang of your current build on the rightmost column of the main build so it sits in the 1x4 gap. Now put it away while we make the next part!

Building Instructions (Bag 4, Book 1):

Group 9 - Trapster and Dino-Spin

4-5. Locate 1 short purple pair of legs, 1 magenta and purple torso printed with yellow straps and a green T in the center, 1 tan head printed with blue eyes and yellow glasses, 1 magenta helmet, and 1 light brown net. Assemble your minifigure then attach the net to her hand, and make sure the short side faces the front!

6-7. Place a black and red Dino-Spin with spikes and a small red spider critter with blue eyes in front of you! Now put everything away while we make Trapster's aircraft!

Group 10 - Aircraft

8-9. Place a black 6x6 angled plate with inverted sloped sides in front of you so the short end faces the front.

10-11. Vertically place a magenta 1x2 brick on the back 2 rows on the 2nd column from the left. Then repeat symmetrically to the right.

12-13. Horizontally place a yellow 1x2 plate with 2 clips on the long side on the back row so it is centered horizontally and the clips face the back.

14-15. Vertically place a yellow 2x3 sloped curved brick on the back 3 rows so it is centered horizontally and slopes to the front.

16-17. Horizontally place a black 2x4 plate with a hole underneath on the back left corner so it overhangs 3 columns to the left. Then repeat symmetrically to the right.

18-19. Horizontally place a magenta 2x3 tile on the back 2 rows on the 3rd, 4th, and 5th columns from the left. Then repeat symmetrically to the right.

20-21. Place a dark grey 2x2 tile with a top-facing pin on the back left corner. Then repeat symmetrically to the right.

22-23. Place a transparent yellow 1x1 slope tile on the leftmost column in front of the 2x3 tile so it slopes to the front. Then repeat symmetrically to the right.

24-25. Vertically place a magenta 2x6 plate on the front 3 rows so it is centered horizontally and overhangs 3 rows to the front.

26-27. Vertically place a dark grey 2x4 plate on the front 4 rows so it is centered horizontally.

28-29. Place a white 2x2 plate with 2 side studs on the 3rd and 4th rows from the front so it is centered horizontally and the side studs face the back.

30-31. Place a gold 4x4 angled sloped brick with ridges on the front 4 rows so it is centered horizontally and slopes to the front.

32-33. Horizontally place a light grey 1x2 tile printed with buttons and speedometers, upright on the back-facing side studs behind your ppp.

34-35. Place a gold rotor with 3 propellers on top of the left top-facing pin. Then repeat symmetrically to the right.

36-41. Insert a yellow 3L projectile with a rounded tip into the left front-facing hole that is underneath the rotor so the rounded tip faces the front. Then repeat symmetrically to the right. You can push on the back of these to shoot them out! Now locate 2 more of them, these are extra for when you need more!

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets are advertisements for the following 3 LEGO Marvel Theme kits:

11200 Spidey and Gobby's Raptor Battle at Tree House HQ

11199 Team Spidey Dino Crawler Rescue

11198 Spin and Electro Dinosaur Vehicle Chase
