

21269 The Armadillo Mine Expedition

Adapted by John Le and tested by Jolene Nemeth.

The Armadillo Mine Expedition (21269) toy lets Minecraft® players get hands-on with the popular video game. With cool characters and fun features, this LEGO® Minecraft toy is a thrilling gaming set packed with imaginative play possibilities for kids aged 8 and up.

Set in the game's savanna biome, the model features a mine with a lever-controlled TNT function that blasts away a piece of the terrain to reveal precious ore. There is a cave spider toy and a wolf, plus 2 armadillos, which provide the scutes used to craft wolf armor. At the side of the mine there is a small river and a lava fall. The set easily rearranges to inspire new adventures.

Minecraft® adventure toy for kids – The Armadillo Mine Expedition is a LEGO® Minecraft playset with video game figures for boys and girls aged 8 and up.

Minecraft® figures – The set includes a cave spider and a wolf, plus 2 armadillos, which provide the scute used for crafting wolf armor.

Video game playset – The action takes place in the game's savanna biome, and the set features a mine with a lever-controlled TNT function that blasts away a piece of the terrain to reveal precious ore.

Many ways to play – This hands-on video game set can easily be rearranged to inspire new adventures.

247-piece set – The completed playset measures over 5.5 in. (15 cm) high, 7.5 in. (20 cm) wide and 4.5 in. (12 cm) deep.

The front of the box shows a mine entrance in the middle of a savanna! It has a water fall on the side and a tree on top! There are armadillos everywhere but the miner has to be careful because there is a spider on top of the entrance!

The back of the box shows the back of the mine entrance! There is coal and iron ore, and the top can come off and be placed next to the entrance! In the front, there are 2 armadillos running around and a wolf playing with a bone!

The top of the box shows a real size image of the miner minifigure.

The build is 247 pieces in total and is for ages 8+.

Bag 1 includes the pieces for the miner and the armadillo mine.

Bag 2 includes the pieces for a wolf and the armadillo mine.

Bag 3 includes the pieces for 2 armadillos and the armadillo mine.

Bag 4 includes the pieces for a spider and the armadillo mine.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

A note on LEGO Technic™ part names. These parts are somewhat different from regular LEGO bricks. Here are some definitions in case the builder or helper is not familiar with LEGO Technic™.

Axles - An axle is a connector which has an X shaped cross-section. Because their cross section is not round, anything connected to an axle using an axle-hole will rotate with that axle. Axles are longer than they are wide, and the length of an axle corresponds with how many bricks long it is. Aka a 3L axle is three bricks long. Axles come in a variety of lengths, with a 2L axle being the shortest available. They may be combined with pins, or have circular stops on them. A stop prevents the axle from sliding through an axle-hole at a specific point on the axle.

Pins - A pin is a connector which has a circular cross section and a flanged notch out of one or both ends. This flanged notch allows them to click into bricks with a pin-hole. Pins come with and without friction ridges, which are small bumps on the pin which prevent them from rotating freely. For standard pins, black is a high friction pin, and gray is a low friction pin. A standard length pin is two brick lengths long, with a stop in the middle. This prevents a brick from being pushed from one side of the pin to the other. A 1L pin is one brick long and still retains the stop, however it also includes a hollow stud at the other end. A 3L pin is three bricks long, and only contains a stop at one side, allowing two bricks to be pushed onto the other side of the pin. Pins may also have one side which is an axle.

Technic brick - a brick which contains one or more holes which accept technic pins.

Lift-arms - A lift-arm is a basic structural element, similar to a brick or a plate, but usually without any studs. It is a beam with rounded ends and with holes in it, with the same spacing as the studs on a LEGO brick. lift-arms come in a variety of lengths, including a 1x1 lift-arm which looks like a cylinder. Thick lift-arms are as wide as a LEGO brick, and thin lift-arms are half as wide as a LEGO brick, but not the same thickness as a LEGO plate! The holes in a lift-arm arm may accept axles or pins. They also come in a variety of shapes, including tees, ells and triangles.

Gears - A gear is a functional element. They are typically discs with teeth on the outside, there are also worm gears which look like a spiraling cylinder! Gears connected by axles transmit or even transform rotational motion!

Axle and Pin Connectors - These elements are typically smaller than lift-arms and are used to connect some combination of pins or axles. They might have pins or axles, as well as axle or pin-holes. They have a lot of different angle combinations! The simplest just connects two axles or pins together in a straight line.

Bushes/Bushings - LEGO Technic™ uses bushes largely as spacers, but they also can reduce friction between rotating parts, or can form useful elements such as handles. Bushes are typically light gray, generally cylindrical, and have an axle-hole running through the middle. They have a flange at the front and back to make them easier to pull on and off.

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/21269>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 4 bags labeled 1 to 4, 1 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Miner and Armadillo Mine

Group 1 - Page 4.

Group 2 - Steps 1-7.

Group 3 - Steps 8-18.

Group 4 - Steps 19-21.

Bag 2 - Wolf and Armadillo Mine

Group 5 - Step 22.

Group 6 - Step 23.

Group 7 - 2 brown 1x2 plates from Step 24.

Group 8 - Rest of Step 24 and Steps 25-26.

Group 9 - Steps 27-28.

Group 10 - 1 orange 2x2 brick from Step 29.

Group 11 - 1 light grey 2x2 brick from Step 29.

Group 12 - 1 brown 2x2 brick from Step 29 and Steps 30-33.

Group 13 - Steps 34-41.

Group 14 - Step 42.

Group 15 - Step 43.

Bag 3 - Armadillos and Armadillo Mine

Group 16 - Step 44.

Group 17 - Steps 45-47.

Group 18 - Steps 48-53.

Group 19 - Step 54 and 4 black 1x1 plates from Step 55.

Group 20 - 2 transparent yellow 1x1 plates from Step 55.

Group 21 - Rest of Step 55 and Steps 56-58.

Group 22 - Steps 59-61.

Group 23 - Steps 62-63.

Group 24 - Steps 64-66.

Bag 4 - Spider and Armadillo Mine

Group 25 - Steps 67-73.

Group 26 - Steps 74-78.

Group 27 - Steps 79-84.

Group 28 - Steps 85-90.

Group 29 - Step 91.

Group 30 - Steps 92-93.

Group 31 - Steps 94-95.

Group 32 - Steps 96-99.

Group 33 - Steps 100-101.

Group 34 - Steps 102-103 and 1 transparent orange 1x1 plate from Step 104.

Group 35 - Rest of Step 104 and Step 105.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Miner

Sub-build 1. Locate 1 dark tan pair of legs, 1 torso printed with a tan shirt, dark tan pockets, and brown pockets, 1 light brown and brown square head printed with a light blue eye and a brown eye, 1 silver helmet, and 1 silver pickaxe. Assemble your minifigure, make sure the ridge of the helmet faces the front, and then attach the pickaxe to his hand!

Group 2 - Armadillo Mine

1. Vertically place a dark grey 4x12 plate in front of you. Then horizontally place a light grey 2x6 brick on the front 2 rows so it overhangs 2 columns to the left.
2. Vertically place the front 2 rows of a dark grey 4x12 plate underneath the overhang so it is aligned with the previous 4x12 plate.
3. Place a light grey 2x2 plate on the front right corner. Then vertically place a transparent blue 2x4 plate on the front 2 rows to the left so 2 rows overhang to the front. Now place a light grey 2x2 plate to the left.
4. Horizontally place a light grey 2x6 brick on the front right corner on top of the 3 ppp so there is no overhang.
- 5.1. Let's make a part! Horizontally place a red brown 2x4 brick in front of you. Then horizontally place a red brown 2x3 plate on the 3 rightmost columns.
- 5.2. Place a red brown 1x1 plate on the front left corner. Then place a brown 1x1 plate with a clip behind it so the clip faces the back. Now horizontally place a red brown 2x4 tile with 2 studs on top.
- 5.3. Horizontally place your part on the front left corner so it overhangs 2 columns to the left so the clip faces the back.
6. Vertically place a dark grey 2x6 plate underneath the left overhang so 4 rows are exposed to the back.
7. Rotate your build 180 degrees. Stack 3 dark grey 2x2 bricks on top of the front left corner.

Group 3 - Armadillo Mine

8. Let's make a part! Horizontally place an orange 2x4 plate in front of you. Then place an orange 2x2 slope brick on the 2 leftmost columns so it slopes to the left.
9. Horizontally place a light grey 1x2 brick with 2 holes on the front right corner. Then place a light grey 1x1 brick on the back row on the 2nd column from the right.
10. Place a transparent orange 1x1 plate on the front right corner. Now horizontally place 2 orange 1x1 plates with a 1x1 slope tile, 1 in front of the other, to the left of the ppp so they slope to the left.
11. Place an orange 2x2 corner brick on the 2 rightmost columns so it looks like the braille letter h.
12. Let's make a part! Insert a dark tan 3L axle with a stud into a red 1L axle connector with a wire connector so it goes all the way through. Now insert the axle of your part into the right front-facing hole so the wire connector faces the left.
13. Attach a red axle connector with a wire connector to the back-facing axle so the wire connector is on top. Then orient the front wire connector so it faces the left.
14. Horizontally place your part on the front 2 rows to the right of the stack of 3 2x2 bricks so it slopes to the left.

15. Horizontally place a light grey 1x4 tile on the front row to the right of the ppp so it overhangs 2 columns to the right. Then horizontally place a dark grey 1x4 tile with 2 studs behind it so it overhangs 2 columns to the right.

16. Place the front 2 rows of an olive green 6x6 plate underneath the overhang of the 2 ppp.

17.1. Let's make a part! Horizontally place a red brown 2x4 brick in front of you. Then horizontally place a red brown 2x3 plate on the 3 rightmost columns.

17.2. Place a red brown 1x1 plate on the back left corner. Then place a brown 1x1 plate with a clip in front of it so the clip faces the front. Now horizontally place a red brown 2x4 tile with 2 studs on top.

17.3. Rotate your main build 90 degrees clockwise so the stack of 2x2 bricks are in the back left corner. Then vertically place your part on the 5th, 6th, 7th, and 8th rows from the front of the 3rd and 4th columns from the left so the clip faces the right.

18. Horizontally place a dark grey 2x4 tile with 2 studs to the right of the front 2 rows of the ppp. Now place a dark green 2x2 tile with a stud on the front left corner.

Group 4 - Armadillo Mine

19.1. Horizontally place a light grey 2x4 brick in front of you. Then place a light grey 2x2 tile with a stud on the 2 rightmost columns.

19.2. Place a light grey 2x2 brick on the 2 leftmost columns. Now place a light grey 2x2 corner plate on the 2 leftmost columns so it looks like the braille letter f. Then place a black 1x1 round plate on the front row on the 2nd column from the left.

19.3. Place a light grey 1x1 plate on the back left corner. Then place another 1 on the front row on the 2nd column from the left. Now place a black 1x1 round plate on the front left corner and 1 on the back row on the 2nd column from the left.

19.4. Vertically place your part on the 3rd and 4th columns from the left, and 3rd, 4th, 5th, and 6th rows from the back, behind the 2x4 tile with 2 studs so the 2x2 tile with a stud of your part is in the back.

20. Let's make 2 identical parts! Horizontally place a brown 1x2 plate with a bar on the short side in front of you so the bar faces the left. Now horizontally place a red brown 1x2 tile on top.

21. Now you should have 2 identical parts! Horizontally attach the bars of your parts to the left and right facing clips on the 5th row from the front so the tiles face the front. This is a gate!

Building Instructions (Bag 2, Book 1):

Group 5 - Wolf

22. Let's make a part! Let's make a wolf! Place a light grey 2x2 plate in front of you. Then vertically place a brown 1x2 plate with a clip on the long side on the left column so the clip faces the left.

Group 6 - Wolf

23. Place a brown 2x2 plate on the right column so 1 column overhangs to the right. Then vertically place a magenta 1x2 plate underneath the rightmost column.

Group 7 - Wolf

There are no instructions for this group. You will have 2 extra brown 1x2 plates. Save them for later!

Group 8 - Wolf

24.1. Let's make 2 identical parts! Let's make the legs! Vertically place a light grey 1x2 plate in front of you. Then vertically place a brown 1x2 plate from group 7 on top. Now vertically place another light grey 1x2 plate on top.

24.2. Now you should have 2 identical parts! Vertically place them underneath the leftmost and rightmost columns of your wolf.

25. Place a nougat 2x2 tile with a stud on the 2 leftmost columns. Then vertically place a light grey 1x2 tile with a wolf head printed with eyes and a snout on the rightmost column so the head faces the right.

26. Horizontally attach the bar of a light grey 1x2 plate with a bar on the short side to the left-facing clip so the studs face up. Now put your wolf away while we continue the build!

Group 9 - Armadillo Mine

27. Place the main build in front of you so it is horizontal and the upright tiles of the gate face the left. Now stack 2 dark grey 2x2 bricks on top of the back right corner on top of the 2x2 bricks.

28.1. Let's make a part! Place an orange 2x2 plate in front of you. Then place an orange 2x2 corner brick on top so it looks like the braille letter h. Now place a transparent orange 1x1 brick on the back right corner.

Group 10 - Armadillo Mine

28.2. Place your part on the back 2 rows on the 5th and 6th columns from the right so the 1x1 brick is in the back right.

29.1. Place an orange 2x2 brick on the back 2 rows on top of the ppp.

Group 11 - Armadillo Mine

29.2. Place a light grey 2x2 brick in front of the ppp.

Group 12 - Armadillo Mine

29.3. Place a brown 2x2 brick on top of the ppp.

30.1. Let's make a part! Horizontally place a light grey 2x6 brick in front of you. Then horizontally place another 1 on top.

30.2. Horizontally place a brown 2x4 brick on the 4 rightmost columns. Then place a light grey 2x2 plate on the 2 leftmost columns. Now place a brown 2x2 tile with a stud on the 2 rightmost columns.

30.3. Horizontally place your part on the front right corner so there is no overhang.

31. Place a red brown 1x1x3 brick on the right stud of the 2x4 tile with 2 studs that is on the front left corner. Then repeat symmetrically to the back.

32. Horizontally place a red brown 2x4 plate on the front 1x1x3 brick and 2x2 plate that is to the right. Then repeat symmetrically to the back.

33. Vertically place a brown 2x12 plate on the 2 rightmost columns of the 2 ppp so there is no overhang on the front and back end.

Group 13 - Armadillo Mine

34. Horizontally place a brown 2x4 plate on the back right corner so 2 columns overhang to the left. Then place a brown 2x2 tile with a stud on the back right corner. Now horizontally place a brown 2x4 tile to the left.

35. Vertically place 2 brown 2x4 tiles, 1 in front of the other, in front of the 2 leftmost columns of the ppp so they sit on the 2x12 plate. Now horizontally place the 2 leftmost columns of another 1 in front of the ppp.

36-37. Let's make a part! horizontally place a red brown 2x10 plate in front of you. Then horizontally place a red brown 1x4 brick on the back left corner. Then repeat symmetrically to the right. Now horizontally place a red brown 1x2 brick on the back row so it is centered horizontally.

38. Horizontally place a red brown 1x6 tile on the front row so it is centered horizontally. Then horizontally place a red brown 1x2 tile to the left and right.

39. Vertically place your part on top of the 2x4 plates, to the left of the vertical 2x4 tiles so there is no overhang in the front and back and the tiles are on the left.

40. Rotate your build 180 degrees so the wire connector of the axle connector is in the front. Let's make a part! Horizontally place a dark grey 2x4 tile with 2 studs in front of you.

41. Place a dark grey 2x2 brick underneath the 2 rightmost columns. Now place a dark grey 2x2 corner brick underneath the 2 leftmost columns so it looks like the braille letter j. Now horizontally place your part on the front 2 rows on the 5th, 6th, 7th, and 8th columns from the right.

Group 14 - Armadillo Mine

42. Stack 3 brown 2x2 bricks on top of the left 2 columns of the ppp. Then place a dark green 2x2 tile with a stud on top.

Group 15 - Armadillo Mine

43.1. Let's make a part! Let's make TNT! Place a black 2x2 round plate in front of you. Then place a red 2x2 plate on top.

43.2. Horizontally place a white 1x2 brick printed with TNT on the back row so the print faces the back. Then repeat symmetrically to the front. Now place a red 2x2 tile with a stud on top.

43.3. Place your part on the front 2 rows on the 5th and 6th columns from the right, on top of the 2x2 tile with a stud so the TNT print faces the right.

Building Instructions (Bag 3, Book 1):

Group 16 - Armadillos

44. Let's make a part! Let's make 2 identical armadillos! Place a nougat 2x2 tile with 2 studs in front of you so the studs are on the right. Now vertically place a nougat 1x2 plate on the right column.

Group 17 - Armadillos

45. Vertically place a brown 1x2 plate on the right column.

46. Vertically place a nougat 1x2 plate with 2x2 anti side studs on top so the anti-studs face the left.

47. Vertically place a brown 1x2 plate on top.

Group 18 - Armadillos

48. Vertically place a nougat 1x2 plate on top.

49. Place a brown 2x2 plate upright on the left-facing anti-studs.

50. Horizontally place 2 tan 1x2 rounded plates, 1 above the other, upright on the left-facing anti studs.

51. Place a nougat 2x2 tile with a stud on top so it is centered.

52. Place a nougat armadillo head on top so the ears face the right.

53. Place your part on its side so it sits on the 1x2 rounded plates and the head faces the left. Now place a nougat 1x1 round plate with a bent bar underneath upright on the right-facing side studs so it is centered and the tail faces down.

Group 19 - Armadillos

54. Now you should have 2 armadillos! Place them in front of you, then place a white bone and a nougat 1x1 tile with a round side next to them. Now place a red 1x1 round tile on top of a dark red 1x1 round plate with a bent bar underneath, then place it next to them!

You will have 4 extra black 1x1 plates. Save them for later!

Group 20 - Armadillo Mine

There are no steps in this group. You will have 2 extra transparent yellow 1x1 plates. Save them for later!

Group 21 - Armadillo Mine

55.1. Let's make 2 identical parts! Place a black 1x1 plate from group 19 in front of you. Then place a transparent yellow 1x1 plate from group 20 on top. Then place a transparent orange 1x1 plate on top. Now place a black 1x1 plate from group 19 on top.

55.2. Bring back your main build and orient it so the upright tiles of the gate face the front. Now place 1 part on the front right corner on top of the 2x4 tile with 2 studs. Then repeat symmetrically to the left. They should both sit in front of a 1x1x3 brick!

56. Let's make a part! Place a dark green 6x6 plate in front of you. Then vertically place a transparent blue 2x4 plate on the front right corner.

57. Horizontally place a transparent blue 2x4 plate on the 4 leftmost columns of the 3rd and 4th row from the front.

58. Place a transparent blue 2x2 slope brick on the 2 leftmost columns of the ppp so it slopes to the right.

Group 22 - Armadillo Mine

59.1. Let's make 2 identical parts! Horizontally place a brown 2x4 plate in front of you. Then place a dark green 2x2 tile with a stud on the 2 rightmost columns. Now place a brown 2x2 plate on the 2 leftmost columns. Then place a brown 2x2 plate underneath the 2 leftmost columns.

59.2. Horizontally place the 2 rightmost columns of your part on the front left corner so 2 columns overhang to the left. Then repeat symmetrically to the back.

60. Place a dark green 6x6 plate on the 2 leftmost columns so it is centered vertically and overhangs 4 columns to the left.

61. Place a brown 2x2 brick underneath the front left corner. Then repeat symmetrically to the back.

62. Horizontally place a transparent blue 2x4 plate on the 3rd and 4th rows from the front, on the 3rd, 4th, 5th, and 6th columns from the left.

63. Place a brown 2x2 brick on the back 2 rows on the 3rd and 4th columns from the left. Now place a dark green 2x2 tile with a stud on top. Now place a green plant with 3 stems on top. Then place a mint blue 1x1 round flower plate on each of the stems.

64. Bring back your main build so the 2x2 overhang is on the right. Then stack 2 transparent blue 2x2 bricks on top of the overhang. Now place a transparent blue 2x2 slope brick on top so it slopes to the right.

65. Now horizontally place the 2 leftmost columns of your part underneath the 2 rightmost columns of overhang so it is centered vertically to it.

66. Rotate your build 180 degrees. Then place a brown 2x2 container on the front 2 rows on the 3rd and 4th columns from the right.

Building Instructions (Bag 4, Book 1):

Group 25 - Spider

67. Horizontally place a dark blue 2x4 plate in front of you. Then vertically place a dark blue 1x2 plate on the leftmost column.

68. Horizontally place a black 1x2 plate with a bar on the long side on the front row so it is centered horizontally and the bar faces the front. Then repeat symmetrically to the back.

69. Horizontally place a dark blue 1x2 plate on the front left corner. Then repeat symmetrically to the back.

70. Place a dark blue 2x2 tile on the 2 ppp.

71.1. Let's make 2 identical parts! Place a black 1x4 hinge plate in front of you so it looks like a 2x2 plate and the round hinge connector is in the back. Now vertically place a black 1x2 plate with a clip on the short side on the right column so the clip faces the back.

71.2. Now you should have 2 identical parts! Attach the clip of 1 part to the left end of the bar, then orient the left 1x2 part so it faces the front left. Now repeat symmetrically to the back right corner.

72.1. Let's make 2 identical parts! Place a black 1x4 hinge plate in front of you so it looks like a 2x2 plate and the round hinge connector is in the back. Now vertically place a black 1x2 plate with a clip on the short side on the left column so the clip faces the back.

72.2. Now you should have 2 identical parts! Attach the clip of 1 part to the right end of the bar, then orient the right 1x2 part so it faces the front right. Now repeat symmetrically to the back left corner.

73. Place a dark blue 1x2 tile with a spider head on top printed with red eyes on the rightmost column so it is centered vertically and the head faces the right. Now put your spider away while we continue the build!

Group 26 - Armadillo Mine

74. Let's make a part! Place a light grey 2x2 plate in front of you. Then place a tan 1x1 round plate on the back left corner. Then place another 1 on the front right corner.

75. Place a light grey 1x1 plate on the front left corner. Then place another 1 on the back right corner.

76.1. Place a tan 1x1 round plate on the front left corner. Then place another 1 on the back right corner.

76.2. Place a light grey 1x1 plate on the back left corner. Then place another 1 on the front right corner.

77. Place a light grey 2x2 tile with a stud on top. This is iron ore!

78. Bring back your main build so it is horizontal and the 2x2 container is in the front. Now place your part behind the container!

Group 27 - Armadillo Mine

79.. Let's make a part! Place a light grey 2x2 plate in front of you. Then place a black 1x1 round plate on the back left corner. Then place another 1 on the front right corner.

80. Place a light grey 1x1 plate on the front left corner. Then place another 1 on the back right corner.

81.1. Place a black 1x1 round plate on the front left corner. Then place another 1 on the back right corner.

81.2. Place a light grey 1x1 plate on the back left corner. Then place another 1 on the front right corner.

82. Place a light grey 2x2 tile with a stud on top. This is coal!

83. Place your part behind the 2x2 container so it sits on top of the iron ore.

84. Place a white 1x1 clip on the front row to the left of the 2x2 container so there are 4 free columns in between them and the clip hands face the front left and back right. Now attach the white bar of a white 2x2 plate with 8 bars around it to the ppp so the studs face the front right. This is a spider web!

Group 28 - Armadillo Mine

85. Let's make a part! Place a dark green 6x6 plate upside down in front of you. Then vertically place a brown 2x6 plate on the 2 leftmost columns.

86. Horizontally place a brown 1x8 plate on the back row to the right of the ppp so it overhangs 4 columns to the right.

87. Place a dark green 6x6 plate underneath the overhang so it is centered vertically.

88. Vertically place a brown 2x6 plate on the 2 rightmost columns so it is centered vertically. Now horizontally place a brown 1x8 plate on the front row so it is centered horizontally.

89. Flip your part over so it is right side up and horizontal. Now horizontally place 2 brown 2x4 bricks, 1 to the right of the other, on the back left corner.

Group 29 - Armadillo Mine

90. Place a dark green 2x2 tile with a stud on the front left corner. Then place a brown 2x2 brick behind it.

91. Vertically place a dark green 2x4 plate on the back left corner. Then place a dark green 2x2 tile with a stud on the back 2 rows to the right of the ppp. Now place a dark grey 2x2 brick to the right of the ppp. Then place a dark green 2x2 tile with a stud to the right.

Group 30 - Armadillo Mine

92. Place a dark green 2x2 tile with a stud on the back right corner. Then place a brown 2x2 brick on the front right corner. Then place a dark green 2x2 tile with a stud on top of the ppp.

93. Place a green plant with 3 stems on the 2x2 tile with a stud on the front left corner. Then place a dark yellow 1x1 round flower plate on top of each of the stems. Now place a light brown plant with 6 stems on the 2x2 tile with a stud on the back right corner.

Group 31 - Armadillo Mine

94. Stack 2 dark grey 2x2 bricks on top of the back 2 rows on the 5th and 6th columns from the left.

95. Let's make a part! Horizontally place a dark grey 2x4 brick in front of you. Then place a dark grey 2x2 brick on the 2 rightmost columns.

Group 32 - Armadillo Mine

96-97. Horizontally place a dark green 2x4 brick on the back left corner so it overhangs 1 row to the back and 2 columns to the left. Then repeat symmetrically to the front.

98. Vertically place a dark green 2x4 brick on the 2nd and 3rd columns from the left so it is centered vertically.

99. Horizontally place the 2 rightmost columns of your part on top of the stack of 2x2 bricks that is on the back 2 rows.

Group 33 - Armadillo Mine

100-101. Let's make another part! Horizontally place a dark grey 2x4 brick in front of you. Then horizontally place a dark green 2x6 brick on the back row so it overhangs 1 row to the back and 2 columns to the right. Then repeat symmetrically to the front.

Group 34 - Armadillo Mine

102. Horizontally place a dark green 2x4 brick on top so it is centered.

103. Horizontally place the 2 leftmost columns of your part on top of the previous part, on the back 2 rows on top of the 7th and 8th columns from the right so it is centered vertically. You will have an extra transparent orange 1x1 plate. Save it for later!

Group 35 - Armadillo Mine

104. Place a brown 1x1 telescope bar on the front right corner on top of the 2x2 tile with a stud. Then place a transparent yellow 1x1 plate on top. Now place a transparent orange 1x1 plate from group 34 on top.

105. Bring back your main build so it is horizontal and the upright tiles of the gate face the front. Now horizontally place your part on the back left corner on top of the 2x4 tiles and 2x2 tiles with a stud.

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets are advertisements for the following 5 LEGO Minecraft Theme kits:

21266 The Nether Lava Battle

21270 The Mooshroom House

21268 The Baby Pig House

21267 Illager Desert Patrol

21269 The Armadillo Mine Expedition
