43261 Encanto Mini House

Adapted by John Le and tested by Jolene Nemeth.

Give any fan of imaginative fantasy play aged 5 and up a treat with this high-quality LEGO® | Disney Encanto Mini House (43261) movie gift. The buildable micro-world playset is a small set with a big world inside and out, opening to reveal several areas for creative storytelling. There are also 3 LEGO® | Disney characters, a slide and other story starters. After playtime, the micro-Madrigal house building model can be closed and locked with the key, making it a good size for on-the-go portable fun.

Building toy for kids – Treat girls and boys aged 5 and up to this Disney's Encanto Mini House model kit of the Madrigal house that's ready for imaginative role play and makes a fun display.

Fantasy toy micro-world – This engaging building toy features an opening house with key, Mirabel and Antonio LEGO® | Disney micro-doll figures and a capybara LEGO | Disney animal figure.

Fun functions – Unlock the Disney's Encanto house construction model toy kit with the key, open the front door to head inside, then drop the slide from the balcony for some more fun as you explore.

Building set for kids – Place the buildable Madrigal house playset on display with everything tucked inside, or play out favorite movie scenes or new stories with Mirabel, Antonio and a capybara.

Dimensions – This 186-piece LEGO® building set features an opening Disney's Encanto house building model kit that measures over 5.5 in. (14 cm) high, 3 in. (8 cm) wide and 4.5 in. (12 cm) deep.

The front of the box shows Encanto house! It has a slide and a key! Mirabel is in the front with Antonio and they are playing with a capybara!

The back of the box shows the back of Encanto house! It can be closed together and locked to make a complete building!

The top of the box shows a real size image of Mirabel.

The build is 186 pieces in total and is for ages 5+.

Bag 1 includes the pieces for Mirabel, a capybara, and the house.

Bag 2 includes the pieces for the house.

Bag 3 includes the pieces for Antonio, and the house.

Welcome to text-based instructions from Bricks for the Blind. Before you start building,

here are some terms we'll be using:

- In Front of/Front: towards you.

- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back

- Horizontally: with the longest side going from left to right.

- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.

- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.

- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)

- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.

- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.

- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.

- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<u>https://www.lego.com/en-us/service/buildinginstructions/43261</u>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 3 bags labeled 1, 2, and 3, 2 sets of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Mirabel, capybara, and House Group 1 - Page 5. Group 2 - Steps 1-7. Group 3 - Steps 8-19. Group 4 - Steps 20-24. Bag 2 - House Group 5 - Steps 25-33. Group 6 - Step 34. Group 7 - Steps 35-46.

Bag 3 - Antonio and House Group 8 - Page 2. Group 9 - Steps 1-13. Group 10 - Steps 14-26. Group 11 - Steps 27-30.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Mirabel and Capybara

Sub-build 1. Locate 1 tan body printed with teal shoes, teal overalls, 1 tan head printed with light green eyes, green glasses, and red lips, 1 black hair, and 1 brown capybara. Assemble your minifigure then put the capybara by her side!

Group 2 - Encanto House

1. Horizontally place a green 2x6 plate in front of you. Then vertically place a teal 1x2 plate on the rightmost column.

2. Vertically place 2 dark tan 1x3 rounded plates, 1 in front of the other, on the 2nd column from the right so they are centered vertically and overhang 2 rows to the front and back.

3. Vertically place a light green 4x8 plate with a round side on the 4 leftmost columns so it is centered vertically and the round side faces the right.

4. Rotate your build 90 degrees clockwise so it is horizontal and the 1x2 plate is in the front. Now horizontally place 2 light brown 2x4 plates, 1 to the right of the other, on the back 2 rows so they are centered horizontally.

5. Place a lime green 2x2 round plate underneath the front left overhang of the 1x3 rounded plate so 1 row is exposed to the front. Then repeat symmetrically to the right.

6. Place a green 1x1 round plate with 3 leaves on the 2nd column from the left of the front row so the leaves face the front left. Then repeat symmetrically to the right.

7. Horizontally place a light brown 2x4 rounded tile on the front 2 rows so it is centered horizontally.

Group 3 - Encanto House

8. Let's make a part! Horizontally place a light nougat 2x8x5 curved panel with a window in front of you so the top-facing studs face the back and the side studs face up. Now place an orange 1x1 plate on the back left and back right studs.

9. Vertically place a dark red 1x2 tile in front of the right ppp. Then place 2 dark red 1x1 clips, 1 in front of the other, in front of the left 1x1 plate so the clip hands face left and right.

10. Place a light orange 1x1 half cylinder brick on the front left stud so it slopes to the left and right. Then repeat symmetrically to the right.

11. Lift up your part so it is right side up and the clips face the front. Now horizontally place your part behind the 2x4 rounded tile so it is centered horizontally and the upright parts face the front.

12. Rotate your build 180 degrees. Then vertically place an orange 1x2 brick with a side stud on the front left corner so the side stud faces the right. Now place a pink 1x1 round flower plate upright on the right-facing side stud.

13. Vertically place a teal 1x2x2 window frame on the front left corner so the side with ridges faces the left. Now attach a gold lattice window pane to the left-facing side of the ppp.

14. Vertically place a light nougat 1x2 masonry brick on the front left corner so the brick grooves face the left.

15. Place a nougat 1x1 brick with a clip on the front right corner so the clip faces the right. Now place a tan 1x1 brick behind it.

16. Horizontally place 2 light orange 1x2 jumper plates, 1 in front of the other, on the front 2 rows so they are centered horizontally. Then vertically place a light orange 1x2 slope tile to the left and right so they slope inwards to the left and right.

17. Vertically place a tan 1x2 brick with a clip on the long side on the front right corner so the clip faces the left.

18. Vertically place a light nougat 1x2 masonry brick on the front right corner so the brick grooves face the right.

19. Place a nougat 1x1 brick with a clip on the front right corner so the clip faces the right. Now place a tan 1x1 brick behind it.

Group 4 - Encanto House

20. Horizontally place a green 1x8 plate on the front row so it is centered horizontally. Then place a green 1x3 curved plate behind the leftmost column of the ppp so the curve faces the back left. Then repeat symmetrically to the right. Now horizontally place a teal 1x2 plate in between the back row of the 2 ppp.

21. Attach a light orange brush to the left-facing clip on the rightmost column so the bristles face the left.

22.1. Let's make a part! Place a magenta 2x2 inverted round tile with a rounded bottom in front of you. Then vertically place a teal 1x2 plate on the left column.

22.2. Horizontally place a tan 1x2 plate with a vertical bar on the long side on the front right corner so the bar faces the front and 1 column overhangs to the right. Now horizontally place a tan 1x2 plate with a horizontal bar on the long side behind the ppp so the bar faces the back and it overhangs 1 column to the right.

22.3. Horizontally place a teal 2x4 rounded tile printed with a wooden door on top so 1 column overhangs to the right. Now place a gold 1x1 round plate on the front bar.

22.4. Rotate your build 180 degrees so the 2x4 rounded tile is in the front. Now vertically attach the horizontal bar of your door to the front-facing clips so the door is on the right and the 2x4 rounded tile faces the front.

23.1. Let's make 2 identical parts! Place a copper green 1x1 round plate with a bar in front of you so the bar faces the front. Then place a green 1x1 plate with 3 leaves on top so the leaves face the back. Then place a pink 1x1 round flower plate on top.

23.2. Now you should have 2 identical parts! Attach the bar of 1 part to the front left stud of the 1x3 rounded plate so the side stud faces the front. Then repeat symmetrically to the right.

24. Place a light orange 1x2 curved tile on the left front-facing side stud above the door so the curve faces the top left. Then repeat symmetrically to the right.

Building Instructions (Bag 2, Book 1):

25. Let's make a part! Horizontally place a red 4x8 plate in front of you. Then place an orange 2x2 slope brick on the back right corner so it slopes to the right. Then repeat symmetrically to the left.

26. Horizontally place a light orange 2x4 tile with 2 studs on the back 2 rows so it is centered horizontally.

27. Place a lime green watering can on the right stud of the 2x4 tile with 2 studs so the handle faces the front. Now place a green pumpkin to the left. Then place a pink 1x1 round flower plate on top. This is a watermelon!

28. Place a red 2x2 corner slope brick on the front left corner so it slopes to the front left. Then repeat symmetrically to the right. Now horizontally place a red 2x4 slope brick on the front 2 rows in between them so it slopes to the front.

29. Vertically place a light nougat 1x2 masonry brick on the back left corner so the brick grooves face the left. Then repeat symmetrically to the right.

30. Place a light yellow 1x1 brick with a side stud on the front left corner so the side stud faces the left. Then horizontally place a pink 1x2 brick with 2 side studs to the right so the side studs face the front. Now horizontally place a white 1x2 grill tile to the right. Then place a light yellow 1x1 brick with a side stud to the right so the side stud faces the right.

31. Vertically place a light yellow 1x2 plate on the back left corner. Then repeat symmetrically to the right.

32. Horizontally place 2 light yellow 1x6x2 arch bricks, 1 in front of the other, on the back 2 rows so they are centered horizontally.

33. Horizontally place a light nougat $1x^2$ masonry brick on the front left corner so the brick grooves face the front. Then horizontally place a light yellow $1x^4x^2$ arch brick to the right.

Group 6 - Encanto House

34. Place a purple 1x1 round plate with 3 leaves upright on the left-facing side studs so the leaves face up. Then place another 1 upright on the left front-facing side stud so the leaves face the top left. Now place a pink 1x1 round flower plate upright on the 2 ppp.

Group 7 - Encanto House

35. Place a magenta 1x1 round plate with 3 leaves upright on the right-facing side studs so the leaves face up. Then place another 1 upright on the right front-facing side stud so the leaves face the top right. Now place a pink 1x1 round flower plate upright on the 2 ppp.

36. Place a red 2x2 corner slope brick on the front left corner so it slopes and overhangs to the front left. Then vertically place an orange 1x2 slope brick to the right so it slopes and overhangs to the front.

37. Horizontally place a red 1x2 double slope brick on the front left corner. Then horizontally place 2 white 1x2 plates with a rail, 1 to the right of the other, to the right so the rails face the front.

38. Horizontally place a pink 2x6 brick on the back 2 rows so it is centered horizontally. Then horizontally place a light purple 1x4 masonry brick on the front right corner so the brick grooves face the front.

39. Horizontally place a magenta $1x^2$ jumper plate on the back left corner. Then place a pink $1x^1$ round flower plate on the back right corner. Then horizontally place a light nougat $1x^2$ masonry brick to the left so the brick grooves face the back.

40. Place a red 2x2 corner slope brick on the front right corner so it slopes to the front right. Then place another 1 to the left so it slopes to the front left.

41. Place a lime green 2x2 brick on the back 2 rows on top of the 2nd and 3rd columns from the right so there is no overhang. Then horizontally place a magenta 1x2 jumper plate on the back row of the ppp.

42. Place a transparent yellow 1x1 round brick on the left 1x2 jumper plate. Then place a transparent orange candle flame on top.

43. Place a gold 1x1 round plate on top of the right 1x2 jumper plate. Then place a gold spire on top.

44. Horizontally place a teal 1x2x2 window frame in front of the left 1x2 jumper plate so the side with ridges faces the front. Now attach a gold lattice window pane to the front of the ppp.

45. Horizontally place a red 1x2 double slope brick on top of the ppp so it slopes to the left and right. Now horizontally place another 1 to the right, in front of the 1x2 jumper plate so it also slopes to the left and right.

46. Bring back your main build and place it in front of you so the door opens to the front. Now place your current build on top so it is centered and there is no overhang in the back. Now put your build away while we make the next part.

Building Instructions (Bag 3, Book 2):

Group 8 - Antonio

Sub-build 2. Locate 1 light brown body printed with dark orange shoes and pants, a light orange top with a red scarf, 1 light brown head printed with brown eyes and lips, 1 black hair, and 1 light orange butterfly. Assemble your minifigure then put the butterfly next to him! Now put him away while we make Encanto House.

Group 9 - Encanto House

1. Vertically place a nougat 2x4 plate in front of you.

2. Horizontally place a green 4x8 plate with a round side and a gap on top so it is centered horizontally and vertically and the round side faces the front.

3. Horizontally place 2 nougat 2x4 plates, 1 to the right of the other, on the back 2 rows so they are centered horizontally.

4. Let's make a part! Horizontally place a light nougat 2x8x5 curved panel with a window in front of you so the top-facing studs face the back and the side studs face up. Now horizontally place a light brown 1x4 tile with 2 studs on the back row.

5. Horizontally place a magenta 1x4 plate on the front row. Then vertically place an orange 1x2 slope tile behind the leftmost and rightmost columns so they slope inwards to the left and right.

6. Now lift your part up so it is right side up and the round side faces the front. Now horizontally place your part on the front 2 rows so it is centered horizontally.

7. Place 2 green 1x1 round plates with 3 leaves, 1 to the right of the other, upright on the lower frontfacing side studs so they are centered horizontally and the leaves face the bottom left and bottom right. Now place a pink 1x1 round flower plate upright on each of the 2 ppp.

8. Rotate your build 180 degrees. Now place a nougat 1x1 brick with a clip on the front left corner so the clip faces the left. Then place a tan 1x1 brick behind it.

9. Place a yellow 2x2 tile with a stud on the front 2 rows to the right of the ppp.

10. Vertically place a light nougat 1x2 masonry brick on the front left corner so the brick grooves face the left. Then vertically place another 1 on top so the brick grooves face the left.

11. Place a nougat 1x1 brick with a clip on the front left corner so the clip faces the left. Then place a tan 1x1 brick behind it.

12. Place a teal 2x2 half cone brick on top of the 2x2 tile with a stud so it is centered on it.

13.1. Let's make a part! Let's make a stove! Place an orange 2x2 plate in front of you. Then horizontally place a dark grey 1x2 plate on the back row.

13.2. Horizontally place a dark grey 1x2 jumper plate on the front row.

13.3. Place 2 tan 1x1 round tiles, 1 to the right of the other, on the back row. Then place a transparent orange 1x1 round plate on the front row on top of the jumper plate.

13.4. Place a black pan on top of the ppp so the handle faces the right.

13.5. Place your part on top of the 2x2 half cone brick so it is centered on it and the handle of the pan faces the right.

Group 10 - Encanto House

14.1. Let's make a part! Vertically place an orange 1x2 brick with a hole in front of you. Then insert an orange 2L pin with an axle connector into the right-facing side so the pin faces the left. Now vertically place a teal 1x2x2 window frame on top so the side with ridges faces the right. Then attach a gold lattice window pane to the right-facing side of the ppp.

14.2. Vertically place a light nougat 1x2 masonry brick on top so the brick grooves face the right. Now vertically attach the pin hole of a dark tan 4L axle connector with 2 pin holes to the left-facing pin so the other hole is on top and in the front.

14.3. Vertically place your part on the front right corner so the ppp is on the left.

15. Horizontally place a green 1x8 plate on the front row so it is centered horizontally. Then place a green 1x3 curved plate behind the leftmost column of the ppp so the curve faces the back left. Then repeat symmetrically to the right. Now horizontally place a green 1x2 plate with 2 clips on the long side, in between the back row of the 2 ppp so the clips face the back.

16. Rotate your build 180 degrees. Now vertically attach a magenta 2x6 curved windshield with a bar to the front-facing clips so the curved side faces the left and it slopes down to the front like a slide.

17. Let's make a part! Horizontally place a red 4x8 plate in front of you. Then place an orange 2x2 slope brick on the back left corner so it slopes to the left. Then repeat symmetrically to the right.

18. Place a magenta 2x2 tile on the back 2 rows on the 3rd and 4th columns from the left. Then place a yellow 2x2 tile with a stud to the right.

19. Place a red 2x2 corner slope brick on the front left corner so it slopes to the front left. Then repeat symmetrically to the right. Now horizontally place 2 orange 1x2 slope tiles, 1 to the right of the other, on the front row so they are centered horizontally and slope to the front.

20. Vertically place a light nougat 1x2 masonry brick on the back left corner so the brick grooves face the left. Then repeat symmetrically to the right.

21.1. Let's make a part! Let's make a piano! Place a light brown 2x2 brick with a ridge on each side in front of you. Then horizontally place a brown 1x2 plate with a stud and a hole on the back row so the hole is on the right. Then repeat symmetrically to the front.

21.2. Vertically place a white 1x2 tile printed with piano keys on the left column.

21.3. Place your part on the back 2 rows on top of the 2x2 tile with a stud so the tile is on the left.

22. Horizontally place a red 1x4x2 fence on the 2nd row from the front so it is centered horizontally.

23. Place a green 1x1 round plate with 3 leaves on the front left corner so the leaves face the front left. Then repeat symmetrically to the right. Now place a pink 1x1 round flower plate on top of each of the 2 ppp.

24. Vertically place a light yellow 1x2 plate on the back left corner. Then repeat symmetrically to the right.

25. Horizontally place 2 light yellow 1x6x2 arch bricks, 1 in front of the other, on the 2 back rows so they are centered horizontally.

26. Place an orange 2x2 slope brick on the back 2 rows so it is centered horizontally and slopes to the front. Now place a red 2x2 corner slope brick to the left of the ppp so it slopes to the front left. Then repeat symmetrically to the right.

Group 11 - Encanto House

27. Horizontally place a magenta 1x2 jumper plate on the back row so it is centered horizontally. Then place a brown 1x1 round tile with a top-facing bar on top.

28. Place a brown bar holder with a clip on top so the clip is on top and the clip hands face the front and back. Now horizontally attach a teal key to the clip so the larger part is on the left and vertical.

29. Bring back your previous build and make sure it is horizontal and the slide is in the front. Then horizontally place your current build on top so it is centered horizontally and there is no overhang in the back.

30. Attach a light brown 1x2 rounded brick with a gap to each of the right-facing clips. Bring back your previous build from bags 1 and 2 and horizontally place it in front of you so the clips face the left. Now attach the clips of it to the 1x2 rounded bricks with a gap of your current build.

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our <u>Builders page</u>. It's easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

Please signup for our newsletter and follow us on <u>Facebook</u> and <u>Instagram</u> to be the first to know when new instructions are available!
