

60316 Police Station

Adapted by John Le and tested by Jolene Nemeth.

This 3-level LEGO® City Police Station (60316) toy is packed with inspiring details, including a jail with a breakout function, a crooks' exercise yard and a dog training area. Kids also get a police car, helicopter and a crook's customized garbage truck, plus a Road Plate for connection to other playsets. Just add the 5 minifigures, including 3 LEGO City Adventures TV series characters, and let the play begin.

LEGO® City TV-themed Police Station toy playset – The LEGO City Police Station (60316) is packed with inspiration for kids and fans of the LEGO City Adventures TV series.

What's in the box? – Everything kids need to build a 3-level police station, patrol vehicle, helicopter and garbage truck, plus a dog figure and 5 minifigures, including 3 LEGO® City TV characters.

Features and functions – The garbage truck has a container lift and 2 rams for breaking down the 'easy escape' prison wall. Also includes a Road Plate for connection to other LEGO® City sets.

A gift for any occasion – This LEGO® City Police toy can be given as a birthday, holiday or any-other-day surprise for kids aged 6 and up.

Toys for play and display – When built, the Police Station measures over 10.5 in. (27 cm) high, 11 in. (28 cm) wide and 9.5 in. (24 cm) deep.

The front of the box shows a police station equipped with a helicopter and SUV! The bad guys have a customized garbage truck! Hopefully the police can catch them before they cause trouble!

The back of the box shows the police station. A police officer is bringing a robber to prison while another 1 is trying to help him escape!

The top of the box shows a real size image of a robber.

The build is 344 pieces in total and is for ages 6+.

Bag 1 includes the pieces for a police officer, K9, and a police SUV.

Bag 2 includes the pieces for a police officer, helicopter, and part of the police station.

Bag 3 includes the pieces for a police commissioner and the police station.

Bag 4 includes the pieces for a robber and part of the police station.

Bag 5 includes the pieces for the rest of the police station.

Bag 6 includes the pieces for a robber, dumpster, and garbage truck.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.

- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

A note on LEGO Technic™ part names. These parts are somewhat different from regular LEGO bricks. Here are some definitions in case the builder or helper is not familiar with LEGO Technic™.

Axles - An axle is a connector which has an X shaped cross-section. Because their cross section is not round, anything connected to an axle using an axle-hole will rotate with that axle. Axles are longer than they are wide, and the length of an axle corresponds with how many bricks long it is. Aka a 3L axle is three bricks long. Axles come in a variety of lengths, with a 2L axle being the shortest available. They may be combined with pins, or have circular stops on them. A stop prevents the axle from sliding through an axle-hole at a specific point on the axle.

Pins - A pin is a connector which has a circular cross section and a flanged notch out of one or both ends. This flanged notch allows them to click into bricks with a pin-hole. Pins come with and without friction ridges, which are small bumps on the pin which prevent them from rotating freely. For standard pins, black is a high friction pin, and gray is a low friction pin. A standard length pin is two brick lengths long, with a stop in the middle. This prevents a brick from being pushed from one side of the pin to the other. A 1L pin is one brick long and still retains the stop, however it also includes a hollow stud at the other end. A 3L pin is three bricks long, and only contains a stop at one side, allowing two bricks to be pushed onto the other side of the pin. Pins may also have one side which is an axle.

Technic brick - a brick which contains one or more holes which accept technic pins.

Lift-arms - A lift-arm is a basic structural element, similar to a brick or a plate, but usually without any studs. It is a beam with rounded ends and with holes in it, with the same spacing as the studs on a LEGO

brick. lift-arms come in a variety of lengths, including a 1x1 lift-arm which looks like a cylinder. Thick lift-arms are as wide as a LEGO brick, and thin lift-arms are half as wide as a LEGO brick, but not the same thickness as a LEGO plate! The holes in a lift-arm arm may accept axles or pins. They also come in a variety of shapes, including tees, els and triangles.

Gears - A gear is a functional element. They are typically discs with teeth on the outside, there are also worm gears which look like a spiraling cylinder! Gears connected by axles transmit or even transform rotational motion!

Axle and Pin Connectors - These elements are typically smaller than lift-arms and are used to connect some combination of pins or axles. They might have pins or axles, as well as axle or pin-holes. They have a lot of different angle combinations! The simplest just connects two axles or pins together in a straight line.

Bushes/Bushings - LEGO Technic™ uses bushes largely as spacers, but they also can reduce friction between rotating parts, or can form useful elements such as handles. Bushes are typically light gray, generally cylindrical, and have an axle-hole running through the middle. They have a flange at the front and back to make them easier to pull on and off.

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/60316>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 6 bags labeled 1 to 6, 3 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Police Officer and Police SUV

Group 1 - Page 8.

Group 2 - Steps 1-13.

Group 3 - Steps 14-15 and 2 yellow 1x2 plates from Step 16.

Group 4 - Rest of Step 16.

Group 5 - Steps 17-29.

Group 6 - Steps 30-42.

Group 7 - Steps 43-48.

Bag 2 - Police Officer, Helicopter, and Police Station

Group 8 - Page 5.

Group 9 - Step 1.

Group 10 - Steps 2-11.

Group 11 - Steps 12-20.

Group 12 - Steps 1-10.

Group 13 - Steps 11-14.

Group 14 - Steps 15-17.

Bag 3 - Police Commissioner and Police Station

Group 15 - Page 36.

Group 16 - Steps 18-24.

Group 17 - Steps 25-39.

Group 18 - Steps 40-42 and 2 blue 1x2 plates from Step 43.

Group 19 - Rest of Step 43 and Steps 44-46.

Group 20 - Steps 47-54.

Group 21 - Steps 55-60.

Group 43 - Steps 49-52.

Group 44 - Steps 53-56.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Police Officer and K9

Sub-build 1. Locate 1 dark blue pair of legs, 1 light blue torso printed with an officer uniform, belt, and badge, 1 yellow head printed with eyes, eyelashes, and red lips, 1 black hair, and 1 light brown K9 dog. Assemble your minifigure then put the dog by her side! Now put them away while we make the police SUV!

Group 2 - Police SUV

1. Horizontally place a blue 2x12 plate in front of you.
2. Place a red 2x2 brick on the 2 rightmost columns.
3. Vertically place a black 2x4 plate with bricks with pins on the sides underneath the 2 rightmost columns so the pins face the front and back. Now vertically place a tan 1x4 plate underneath the 3rd column from the right so it is centered vertically.
4. Vertically place a tan 1x4 plate underneath the 5th column from the left so it is centered vertically. Then vertically place a black 4x6 plate to the right of the ppp so it is centered vertically.
5. Vertically place a black 2x4 plate with bricks with pins on the sides underneath the 3rd and 4th columns from the left so it is centered vertically and the pins face the front and back.
6. Vertically place a tan 1x4 plate underneath the 2nd column from the left so it is centered vertically.
7. Vertically place a black 1x6 plate underneath the leftmost column so it is centered vertically.

Group 3 - Police SUV

8. Horizontally place a light grey 1x6 plate on the 2nd row from the front, to the left of the 2 rightmost columns. Then repeat symmetrically to the back.
9. Vertically place a light grey 1x4 brick on the 3rd column from the right so it is centered vertically. Then vertically place another 1 on the 5th column from the left so it is centered vertically.
10. Place a blue 2x2 brick with a mudguard on the front right corner so 1 row overhangs to the front and the mudguard faces the front. Then repeat symmetrically to the back.
11. Vertically place a black 1x4 tile on the 3rd column from the right so it is centered vertically. Then place a light grey 4x4 plate to the left of the ppp so it is centered vertically.
12. Vertically place a yellow 1x2 steering wheel on the 4th column from the right and back 2 rows of the 4x4 plate so the wheel faces the left. Now vertically place a yellow 1x2 tile with an overhead bar on the 6th column from the left so it sits on the back 2 rows of the 4x4 plate and slopes to the right.

13. Vertically place a yellow 1x2 tile with an overhead bar on the 4th column from the left so it is centered vertically and slopes to the left.

14.1. Let's make 2 identical parts! Horizontally place a yellow 1x4 plate in front of you. Then horizontally place a blue 1x6 plate with inverted sloped sides on top so it is centered horizontally. Then horizontally place a blue 1x4 brick printed with "Police" on top so it is centered horizontally and the print faces the front. Now place a blue 1x1 plate on the leftmost and rightmost columns.

14.2. Now you should have 2 identical parts! Horizontally place 1 on the front row to the left of the 2 rightmost columns so the print faces the front. Then repeat symmetrically to the back.

15. Place a blue 2x2 brick with a mudguard on the front row on the 3rd and 4th columns from the left so 1 row overhangs to the front and the mudguard faces the front. Now repeat symmetrically to the back.

16.1. Let's make 2 identical parts! Vertically place a yellow 1x2 plate in front of you.

Group 4 - Police SUV

16.2. Place a blue 2x2 inverted slope brick on top so it slopes and overhangs to the right. Now vertically place a transparent red 1x2 plate on the left column.

16.3. Now you should have 2 identical parts! Place 1 on the front left corner so it slopes to the right. Then repeat symmetrically to the back.

Group 5 - Police SUV

17.1. Let's make a part! Horizontally place a blue 1x2 brick with 2 side studs in front of you so the side studs face the front. Now horizontally place a blue 1x2 plate on top. Then horizontally place a white 1x2 tile with a sticker upright on the front-facing side studs.

17.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 7 on the white 1x2 tile. This sticker has a black license plate on it and says OC 60316. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

17.3. Vertically place your part on the leftmost column so it is centered vertically and the upright tile faces the left.

18. Vertically place a blue 1x4 tile on the leftmost column so it is centered vertically.

19. Place a blue 1x1 plate on the front row on the 2nd column from the left. Then repeat symmetrically to the back.

20. Rotate your build 180 degrees. Now horizontally place a blue 1x3 plate on the front left corner. Then repeat symmetrically to the back. Now vertically place a tan 1x4 plate on the 2nd column from the left so it is centered vertically.

21. Place a black 1x1 plate with a side stud sticking up on the front row on the 4th column from the left so the side stud faces the front. Then repeat symmetrically to the back.

22. Horizontally place a blue 1x2 slope tile on the back row to the right of the ppp so it slopes to the front. Then repeat symmetrically to the front.
23. Vertically place a black 1x4x2 grated fence on the 5th column from the right so it is centered vertically.
24. Horizontally place a blue 1x6 brick on the front right corner. Then repeat symmetrically to the back.
25. Vertically place a white 1x2 plate with 2x4 side studs hanging down on the leftmost column so the side studs face the left. Then horizontally place a red 2x4 plate upright on the left-facing side studs.
26. Let's make a part! Horizontally place a blue 2x6 plate in front of you.
27. Horizontally place a tan 1x4 plate on the back row so it is centered horizontally.
28. Place a transparent 1x1 slope tile on the back left corner so it slopes to the left. Then repeat symmetrically to the right.
29. Place a transparent blue 1x1 round tile on the back row on the 2nd column from the left. Then repeat symmetrically to the right.

Group 6 - Police SUV

30. Horizontally place 3 yellow 1x2 plates, 1 to the right of the other, on the front row.
31. Vertically place 2 black 1x2 plates with a stud and a clip, 1 to the right of the other, on top so they are centered horizontally and the clips face the front.
32. Horizontally place a blue 1x2 grill slope tile on the front left corner so it slopes to the left. Then repeat symmetrically to the right.
33. Horizontally attach the short side of a black bar grill to the top-facing clips so it curves to the back and the rounded parts are in the back.
34. Horizontally place your part upright on the left-facing side studs so it is centered horizontally and the 1x2 grill slope tiles are on the bottom.
35. Horizontally place a blue 1x2 sloped curved tile on the front left corner so it slopes and overhangs to the left over the upright parts. It should sit on 1 stud! Then repeat symmetrically to the back.
36. Vertically place a blue 1x2 plate with 1x3 angled sloped curved tiles on the leftmost column so it is centered vertically and slopes and overhangs to the left.
- 37.1. Horizontally place a white 2x3 sloped curved brick with a sticker on the leftmost column so it is centered vertically and slopes and overhangs 2 columns to the left.
- 37.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 3 on the white 2x3 sloped curved brick. This sticker has a gold shield with a star on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

38. Horizontally place a white 1x2 brick on the front right corner. Then horizontally place a transparent aqua 1x2x1 panel to the left of the ppp so the wall faces the front. Now repeat both parts symmetrically to the back.

39. Vertically place a white 1x6 arch brick on the 5th column from the right so it is centered vertically.

40. Place a white 1x1 brick on the front row to the left of the ppp. Then repeat symmetrically to the back.

41. Horizontally place a white 1x6 tile on the front right corner. Then repeat symmetrically to the back.

42. Place a white 1x1 tile with a clip on the 2nd row from the front on the 5th column from the right so the clip hands face left and right. Now repeat symmetrically to the back.

Group 7 - Police SUV

43.1. Let's make a part! Vertically place a white 4x6 car hood upside down in front of you so the studs are on the left. Now vertically place 2 white 1x2 plates with a bar on the long side, 1 in front of the other, on the leftmost column so they are centered vertically and the bars face the left.

43.2. Vertically place a light grey 1x4x2 bar fence on the rightmost column so it is centered vertically.

43.3. Vertically attach the bars of your part to the 2 top-facing clips so the fence is on the right, and the car hood is on top.

44. Make sure the studs of the car hood face up!

45. Vertically place a transparent aqua 3x6x2 windshield on the 3 leftmost columns of studs so it is centered vertically and slopes to the left.

46. Place a blue 1x1 slope tile upright on the front-facing side stud so it slopes to the left. Then repeat symmetrically to the back.

47.1. Let's make a part! Vertically place a white 4x6 car hood with a sticker in front of you so the studs are on the right.

47.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 11 on the white 4x6 car hood. This sticker says police on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

47.3. Vertically place a light grey 1x6 plate on top so it is centered vertically. Now vertically place a transparent blue 1x2 tile on the front 2 rows. Then repeat symmetrically to the back.

47.4. Vertically place the leftmost column of your part on the studs of the windshield so it is centered vertically.

48. Let's make 4 identical parts! Insert 4 light grey wheels into 4 black tires. Now attach them to the front-facing and back-facing pins so the ridged sides face outwards. Now put it away while we make the next part!

Building Instructions (Bag 2, Book 2):

Group 8 - Police Officer

Sub-build 2. Locate 1 dark blue pair of legs, 1 light blue torso printed with an officer uniform, vest, and badge, 1 yellow head printed with eyes and a smile, 1 white helmet, 1 transparent aqua visor, and 1 light grey pair of handcuffs. Assemble your minifigure, attach the visor to the helmet so the ridged side faces down, put the helmet on him so the visor faces the front, then attach the handcuffs to his hand! Now put him away while we make a helicopter!

Group 9 - Police Helicopter

1. Place a black 4x4 plate in front of you. Then place a red 2x2 plate on the 2 rightmost columns so it is centered vertically.

Group 10 - Police Helicopter

2. Vertically place a blue 4x6 trapezoid plate with a 2x2 gap on the 2 leftmost columns so it is centered vertically and the short end overhangs 2 columns to the left. Now place a black 2x2 plate underneath the 2 leftmost columns so it is centered vertically. Now repeat both parts symmetrically to the right.

3. Place 2 dark grey 1x1 round plates, 1 in front of the other, on the rightmost column.

4. Horizontally place a blue 2x3 brick to the left of the 2 ppp so it is centered vertically. Now vertically place a dark grey 1x2 tile printed with red buttons on the 2nd column from the left so it is centered vertically.

5. Horizontally place a blue 1x4 slope brick on the front row so it is centered horizontally and slopes to the left. Then repeat symmetrically to the back.

6. Horizontally place a blue 2x3 inverted slope brick on the rightmost column so it is centered vertically and slopes and overhangs 2 columns to the right. Then vertically place a blue 2x4 trapezoid plate on the 4th and 5th columns from the right so it is centered vertically and the short side faces the right.

7. Horizontally place a yellow 2x4 plate on the 4 rightmost columns. Then place a yellow 2x2 sloped curved tile to the left of the ppp so it is centered vertically and slopes to the left.

8. Let's make another part! Horizontally place a blue 2x10 plate in front of you.

9. Horizontally place a black 1x2 plate on the back right corner. Then horizontally place a light grey 1x2 plate with a small pin on the long side in front of the ppp so the pin faces the front.

10.1. Horizontally place a white 1x2 tile with a wing and 2 stickers on the 2nd column from the right so the wing faces the right.

10.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 9 on the white 1x2 tile with a wing. This sticker has a gold shield with a star on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

10.3. Skip this step if you have already placed your sticker! Ask a helper to place sticker 10 on the white 1x2 tile with a wing. This sticker has a gold shield with a star on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

11. Horizontally place 2 white 1x2 slope tiles, 1 to the right of the other, on the front row to the left of the ppp so they slope to the front. Then repeat symmetrically to the back.

Group 11 - Police Helicopter

12. Horizontally place a white 2x4 plate on the 4 leftmost columns.

13. Vertically place a blue 1x2 plate with a clip on the short side on the leftmost column so the clip faces the front. Now horizontally place 2 blue 1x1 plates with a 1x1 slope tile, 1 in front of the other, to the right of the ppp so they slope to the right.

14. Vertically place a black 1x2 plate with 2 clips on the long side on the leftmost column so the clips face the left. Then vertically place a black 1x2 plate to the right of the ppp.

15. Place a black 2x2 tile with a pin on the 2 leftmost columns.

16. Horizontally place the 4 leftmost columns of your part on the 4 rightmost columns of the main build so it is centered vertically.

17. Attach a black propeller with 3 blades to the rightmost front-facing pin.

18. Horizontally place 2 dark grey 1x9 skis connected together with 2 arches underneath the 3rd, 4th, 5th, and 6th columns from the left so it is centered vertically and the longer part of the skis faces the right. This is the helicopter base! Now place a side stud of a black 1x1 brick with a side stud underneath the 2 leftmost columns of the build so it is centered vertically, the side stud faces the left, and the anti-stud faces the right. Now place a transparent 1x1 round plate upright on the left-facing side stud. This is the spotlight!

19. Attach a transparent dome windshield to the 2 left-facing clips so it curves and slopes to the left.

20.1. Let's make a part! Place a black 5x5 rounded cross with a pinhole in front of you. Now vertically place a transparent blue 1x2 tile on the front 2 rows. Then repeat symmetrically to the back. Now horizontally place a black 1x8 tile on the 2 leftmost columns so it overhangs 6 columns to the left. Then repeat symmetrically to the right.

20.2. Place your part on the top-facing pin. Now put your helicopter away while we make the police station!

Group 12 - Police Station

1. Horizontally place a light grey 4x8 plate in front of you. Then horizontally place a blue 1x6 brick on the back right corner.

2. Place a blue 1x1 brick in front of the leftmost column of the ppp.

3.1. Horizontally place a white 1x6x5 panel with a sticker on the back right corner so the wall faces the back. Then place a white 1x1x5 brick in front of the leftmost column of the ppp.

3.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 4 on the white 1x6x5 panel. This sticker has a map and a wanted poster on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

4. Vertically place a dark grey 1x4 tile on the front right corner so it overhangs 1 row to the front.

5. Rotate your build 90 degrees clockwise so the overhang faces the left. Now horizontally place a light grey 8x16 plate underneath the overhang so it is centered vertically to the build.

6. Horizontally place a white 1x5x6 door frame on the 3rd row from the back, to the left of the 1x1x5 brick so the ridged side faces the back. Now attach a transparent aqua glass pane to the back-facing side of the ppp.

7. Horizontally place a blue 1x2 brick to the left of the ppp. Then horizontally place a white 1x2x5 brick on top of the ppp.

8.1. Let's make a part! Vertically place a tan 1x4 brick in front of you. Then vertically place a tan 1x4 brick with 4 side studs on top so the side studs face the left. Then horizontally place 2 tan 1x2 slope tiles, 1 in front of the other, upright on the left-facing side studs so they slope down. Then place a light brown 1x1 round brick on the back row. Now place a green plant with 3 leaves on top.

8.2. Vertically place your part on the 6th column from the right, on the 2nd, 3rd, 4th, and 5th rows from the front so the upright slope tiles face the left.

9.1. Let's make a part! Horizontally place a transparent 1x6x6 door frame in front of you so the ridged side faces the front. Now attach 2 transparent aqua 1x3x6 doors to the front. Now place a blue 1x1 tile with a round side upright on the left front-facing side stud so the round side faces the left. Then repeat symmetrically to the right.

9.2. Horizontally place your part on the 3rd row from the back, to the left of the 1x2x5 brick so the doors open to the back.

10. Place a blue 1x1 brick to the left of the ppp. Then place a white 1x1x5 brick on top of the ppp.

Group 13 - Police Station

11.1. Let's make a part! Vertically place a black 1x2 log brick in front of you. Then place a dark grey 1x1 plate on the back row. Now place a red 1x1 mug in front so the handle faces the front. Then place a transparent 1x1 round brick on the back row. Now place a black 1x1 plate with a tooth on top of the ppp so the tooth faces the front.

11.2. Vertically place your part on the 6th column from the left, in front of the 1x1x5 brick so the handle faces the front. This is a coffee maker!

12. Vertically place a dark grey 1x2 brick on the 2nd and 3rd rows from the back, on the 5th column from the left. Then vertically place a light grey 1x2x5 brick on top.

13. Horizontally place a dark grey 1x4 tile on the 4 leftmost columns on the 2nd row from the back.

14. Horizontally place a light grey 1x4x6 door frame in front of the ppp so the ridged side faces the front. Now attach a dark grey prison bar door to the front so it opens to the left. Now place a dark grey 1x1 round plate upright on the front-facing side stud of the ppp.

Group 14 - Police Station

15. Horizontally place a blue 1x2 brick on the front left corner. Then horizontally place a white 1x2x5 brick on top of the ppp. Then horizontally place a light grey 1x4x6 door frame on the front row to the left of the 1x4 tile that is on the right side.

16. Rotate your build 180 degrees. Now horizontally place a light brown 1x2 log brick on the 2nd row from the front, on the 4th and 5th columns from the left.

17. Place 2 green 1x1 round plates with 3 leaves, 1 to the right of the other, on top of the ppp so the leaves face the front left and front right. Now place a white 6x6 plate on the back left corner so there is no overhang to the left. Then horizontally place a white 8x14 plate to the right of the ppp. Now put away your build while we make a minifigure!

Building Instructions (Bag 3, Book 2):

Group 15 - Police Commissioner

Sub-build 3. Locate 1 dark blue pair of legs, 1 dark blue torso printed with a suit and tie, 1 yellow head printed with eyes, a smile, and glasses, and 1 light grey hair. Assemble your minifigure then put him away while we continue the build!

Group 16 - Police Station

18. Bring back your main build so it is horizontal and the doors open to the front. Now vertically place a blue 1x6 brick on the back right corner.

19. Horizontally place a blue 1x6 brick to the left of the front row of the ppp. Then horizontally place a blue 1x4 brick printed with police to the left of the ppp so the print faces the front. Now horizontally place a blue 1x6 brick to the left of the ppp.

20. Vertically place a blue 2x6 brick on the back left corner. Then place a blue 1x1 brick with a side stud and bottom lip to the right of the front row of the ppp so the side stud faces the front. Now insert a dark grey 2L bar with a stop into the front-facing side stud. Now place a blue 1x1 brick on the back row on the 3rd column from the left.

21. Horizontally place a blue 1x6 brick on the back row to the right of the ppp. Then place a white 1x1x5 brick on top of the rightmost column of the ppp.

22. Horizontally place a blue 1x6 brick to the left of the ppp. Then horizontally place a blue 1x6x5 slope brick on top of the ppp so it slopes to the left.

23.1. Let's make a part! Vertically place a light grey 2x4 plate in front of you. Then place 2 dark grey 2x2 round tables, 1 in front of the other, on top. Now vertically place a light grey 1x2 plate with 2 clips on the long side on the rightmost column so it is centered vertically and the clips face the right.

23.2. Place a light grey 1x1 plate on the front right corner. Then repeat symmetrically to the back.

23.3. Vertically attach the top rung of a dark grey ladder with 4 rungs to the clips so it is centered horizontally and hangs down.

23.4. Vertically place your part on the 2 leftmost columns on the 2nd, 3rd, 4th, and 5th rows from the back so the ladder faces the right.

24. Rotate your build 180 degrees. Now horizontally place a dark grey 1x4 tile on the 5th row from the front on the 2nd, 3rd, 4th, and 5th columns from the left.

Group 17 - Police Station

25. Let's make a part! Horizontally place a tan 2x3 brick in front of you. Then horizontally place a blue 2x3 plate on top.

26. Vertically place 3 black 1x2 plates with a clip on the short side, 1 to the right of the other, on top so the clips face the front.

27. Horizontally place an orange 1x3 plate on the back row.

28. Place 2 light brown 1x1 round tiles printed with a pink donut, 1 to the right of the other, on the back right corner.

29. Place an L-shaped bar with an anti-stud on the front left corner so the shorter bar faces the right. Then vertically place a black camera on top so the side stud faces the left.

30. Vertically attach a light grey pair of handcuffs to the leftmost front-facing clip. Now attach 2 black walkie talkies to the 2 front-facing clips so the antennas face up.

31. Horizontally place your part on the 4th and 5th rows from the front, to the right of the 1x4 tile that is on the 2nd, 3rd, 4th, and 5th columns from the left.

32.1. Rotate your build 180 degrees. Now vertically place a white 1x6x5 panel with a sticker on the back right corner so it is centered vertically and the wall faces the right.

32.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 6 on the white 1x6x5 panel. This sticker has a paper with horizontal lines with numbers on the left side. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

33. Horizontally place a white 1x12 brick on the back right corner so it sits on 2 studs.

34. Place a white 1x1 brick on the rightmost column in front of the ppp. Then vertically place a white 1x4 brick in front of the ppp.

35. Horizontally place a white 1x4x6 window frame to the left of the front row of the ppp so the ridged side faces the front. Now attach a transparent aqua window pane to the front of it. Now place a white 1x1x5 brick to the left of the ppp. Then place a white 1x1 brick on top of the ppp.

36. Horizontally place a white 1x6x6 window frame to the left of the ppp so the ridged side faces the front. Now attach a transparent aqua window pane to the front of it.

37. Horizontally place a white 1x2x5 brick to the left of the ppp. Then horizontally place a white 1x2 brick on top. Now horizontally place a blue 1x6 tile to the left of the ppp.

38. Horizontally place a white 6x14 plate on the back right corner so there is no overhang in the back or right.

39. Place a blue 2x2 corner brick on the front right corner of the ppp so it looks like the braille letter j.

40.1. Let's make a part! Horizontally place a tan 2x3 brick in front of you. Then place a white 2x2 slope brick printed with a blue screen with buttons on the 2 rightmost columns so it slopes to the front.

40.2. Vertically place a black 1x2 plate with a clip on the short side on the leftmost column so the clip faces the front. Now place a red 1x1 mug on the front left corner so the handle faces the left.

40.3. Rotate your main build 180 degrees. Now horizontally place your part on the 2nd, 3rd, and 4th columns from the left, and 4th and 5th rows from the front so it slopes to the front.

41.1. Let's make a part! Vertically place a light grey 1x1 brick with 3 cones and a 1x1 plate in front of you so the 1x1 plate part overhangs to the back. Now place a blue 1x1 plate underneath the back row. Then place 1 on top of the back row.

41.2. Rotate your main build 180 degrees. Now vertically place the back row of your part to the left of the 2x2 corner brick that is on the front right corner.

42. Horizontally place a blue 1x2 brick to the left of the back row of the ppp. Now horizontally place a blue 1x3 brick to the left of the ppp.

You will have 2 extra blue 1x2 plates. Save them for later!

Group 19 - Police Station

43.1. Let's make a part! Horizontally place a blue 1x2 plate from group 18 in front of you. Then place a light grey 2x2 tile with 2 studs on top so it overhangs 1 row to the front and the studs are in the back. Now horizontally place a blue 1x2 plate from group 18 on the back row. Then horizontally place a transparent yellow 1x2 plate underneath the front row.

43.2. Place your part on the front row of the 6x14 plate to the left of the 1x3 brick so 1 row overhangs to the front. Make sure the studs are in the back.

44. Vertically place a blue 1x6 brick on the leftmost column of the 6x14 plate so it is centered vertically.

45. Horizontally place a blue 1x3 brick to the right of the front row of the ppp. Now horizontally place a blue 1x2 brick on the back row to the right of the 1x6 brick. Then horizontally place a blue 1x6 brick to the right of the ppp.

46. Horizontally place a blue 1x2x5 brick on the back row on the 6th and 7th columns from the right. Now horizontally place a blue 1x6x5 slope brick to the left of the ppp so it slopes to the left.

Group 20 - Police Station

47. Vertically place a white 1x2x5 brick on the rightmost column on the 5th and 6th rows from the back.

48.1. Let's make a part! Horizontally place a white 1x4x6 door frame in front of you so the ridged side faces the front. Now attach a transparent aqua door to the front so it opens to the left. Now place a blue 1x1 tile with a round side upright on the front-facing side stud so the round side faces the left.

48.2. Vertically place your part on the 6th column from the right, in front of the 1x2x5 brick so the door opens to the left.

49. Place a white 1x1x5 brick in front of the ppp. Then horizontally place a white 1x4 brick to the right of the ppp.

50. Horizontally place a transparent aqua 3x4x4 inverted sloped panel on top of the ppp so it overhangs and slopes to the front.

51. Vertically place a blue 1x4 tile on the back 4 rows on the 7th column from the left. Then place the left column of a blue 2x2 corner tile in front of the ppp so it looks like the braille letter h. Now horizontally place a blue 1x6 tile to the right of the front row of the ppp.

52. Place a white 6x6 plate with a cutoff corner on the back right corner so the cutoff angle faces the back right. Then horizontally place a black 1x3 jumper plate to the left of the back row of the ppp.

53. Vertically place a blue 1x4 tile on the back 4 rows on the 6th column from the right. Then place the left column of a blue 2x2 corner tile in front of the ppp so it looks like the braille letter h. Then horizontally place a blue 1x4 tile to the right of the front row of the ppp.

54. Vertically place 2 white 1x2 plates in front of the 2 ppp so they sit on the leftmost and rightmost columns of the 3x4x4 inverted sloped panel.

Group 21 - Police Station

55. Place a light grey 2x2 tile with 2 studs in between the front row of the 2 ppp so 1 row overhangs to the front and the studs are in the back. Now horizontally place a transparent yellow 1x2 plate underneath the front row of the ppp.

56. Horizontally place a blue 2x4 tile on the front 2 rows of studs on the 2nd, 3rd, 4th, and 5th columns from the right.

57. Place a black 2x2 turntable base on the 3rd and 4th rows from the back and 3rd and 4th columns from the right. Now place a light grey 2x2 round turntable on top of the ppp. Now horizontally place a light grey 1x2 tile with an overhead bar on top of the back row of the ppp so it slopes to the front.

58. Attach a light grey 1x1 tile with a clip to the bar of the ppp so it is centered horizontally and the anti-stud faces up. Now place a light grey 4x4 dish on top of the ppp. Then place a light grey lightsaber hilt on top of the ppp so the side with the smaller ridge faces up.

59. Place a black 5L antenna on the back row on the left stud of the 1x3 jumper plate. Then place a black 10L antenna to the right of the ppp.

60. Horizontally attach the left back-facing side stud of a black 1x2 brick with side studs on each side and 1 anti-stud upright to the front-facing bar on the 3rd column from the left so the anti-stud faces the bottom right. Now place a transparent 1x1 round plate upright on the right-facing anti-stud of the ppp. This is a security camera!

Building Instructions (Bag 4, Book 2):

Group 22 - Robber

Sub-build 4. Locate 1 dark tan pair of legs printed with light grey and white stripes, 1 green torso printed with light grey and white overalls, 1 yellow head printed with a brown beard and black eye mask, and 1 green hat. Assemble your minifigure then put him away while we continue the police station!

Group 23 - Police Station

61. Horizontally place a light grey 6x12 plate in front of you. Then vertically place a dark grey 1x2 brick on the back left corner.

62. Horizontally place a dark grey 1x4 tile with 2 studs on the back row to the right of the ppp. Then vertically place a dark grey 1x2 slope tile on the back 2 rows to the right of the ppp so it slopes to the left.

63. Vertically place a black 1x6 tile on the 5th column from the left so it overhangs 1 row to the front.

64.1. Place a brown 1x1 round tile on the 2nd row from the back on the 3rd column from the left.

Group 24 - Police Station

64.2. Place a transparent yellow 1x1 round tile to the right of the ppp. Now horizontally place a silver 1x2 grill tile in front of the 2 ppp.

65. Vertically place a dark grey 1x6 brick on the 7th column from the right so it overhangs 2 rows to the front.

66. Vertically place a light grey 1x4 brick on top of the back 4 rows of the ppp.

67. Vertically place a dark grey 1x4x3 window frame on top of the ppp so the ridged side faces the right. Now horizontally attach a dark grey ladder with 4 rungs to the right-facing side of the ppp.

68.1. Let's make a part! Vertically place a light grey 1x4 brick in front of you. Then place a light grey 2x2 tile with 2 studs on top so it is centered vertically, overhangs to the right, and the studs are on the left. Now vertically place a transparent yellow 1x2 plate underneath the overhang.

68.2. Vertically place your part on the 7th column from the right, on top of the 1x4x3 window frame so the 2x2 tile with 2 studs overhangs to the right.

69. Horizontally place a light grey 6x12 plate underneath the front 2 rows so it is aligned with the rest of the build.

70. Vertically place a light grey 1x2x5 brick on the 6th column from the left and 5th and 6th rows from the front.

71. Vertically place a dark grey 1x2 brick on the 4th and 5th rows from the front, on the 5th column from the left. Now vertically place a light grey 1x2x5 brick on top of the ppp.

72.1. Let's make a part! Horizontally place a tan 1x5 plate in front of you. Then vertically place a tan 1x2 plate underneath the leftmost column so 1 row is exposed to the front. Then repeat symmetrically to the right. Now horizontally place a light grey 1x5 plate on the front row.

72.2. Vertically place an orange 1x2 slope tile on the rightmost column so it slopes to the left. Then horizontally place an orange 2x4 tile to the left of the ppp. This is a bed!

72.3. Rotate your sub build 90 degrees counterclockwise so the 1x2 brick is in the front left corner. Now horizontally place your part to the right of the 1x2 grill tile that is on the 3rd column from the left and 3rd and 4th rows from the front so the 1x2 slope tile is on the right.

73.1. Let's make a part! Horizontally place a light grey 1x4x6 door frame in front of you so the ridged side faces the front. Now attach a dark grey prison bar door to the front so it opens to the right. Now place a dark grey 1x1 round plate upright on the front-facing side stud of the ppp. Then horizontally place a dark grey 1x2 plate on top of the door frame so it is centered horizontally.

73.2. Vertically place your part on the front 4 rows of the 4th column from the right so the door opens to the right.

74. Horizontally place 2 green 2x4 tiles, 1 in front of the other, on the front right corner so they overhang 1 column to the right.

75.1. Let's make a part! Horizontally place a light grey 1x4x6 door frame in front of you so the ridged side faces the back. Now attach a dark grey prison bar pane to the back. Now horizontally place a yellow 1x2 jumper plate on top so it is centered horizontally.

75.2. Horizontally place your part behind the 2x4 tiles that are in the front right corner so it overhangs 1 column to the right and the bars face the back.

76. Place a yellow 2x2 corner tile on top of the leftmost column of the ppp so there is no overhang and it looks like the braille letter f.

77. Place the front 2 rows of a light grey 3x3 plate with a cutoff corner to the left of the ppp so the cutoff corner faces the front left and it overhang 1 row to the front. The back row of the piece should align with the studs of the 2x2 tile with 2 studs that are to the left.

78. Horizontally place a light grey 1x2x5 brick on the front left corner.

79. Horizontally place a light grey 1x8 plate on the front row on the right column of the ppp so it sits on 2 studs.

80. Vertically place a dark grey 3x6 wedge plate on the front 6 rows on the 2nd, 3rd, and 4th columns from the left so the short side faces the back and the angled side faces the left. Now vertically place a dark grey 4x6 plate to the right of the ppp. Then vertically place a dark grey 1x4 tile with 2 studs on the front 4 rows to the right of the ppp.

81. Place a black 2x2 round plate on the 3rd and 4th rows from the front, on the 3rd and 4th columns from the left. Then place a black 2x2 tile on top of the ppp.

82. Vertically place a light grey 4x12 plate underneath the rightmost column so 3 columns are exposed to the right and it is aligned with the build.

83. Vertically place a green 2x3 plate on the front 3 rows on the 2nd and 3rd columns from the right. Now horizontally place a green 1x4 plate behind the ppp so it overhangs 1 column to the right.

84.1. Let's make a part! Horizontally place a light grey 1x4x6 door frame in front of you so the ridged side faces the back. Now attach a dark grey prison bar pane to the back.

84.2. Horizontally place your part behind the ppp so 1 column overhangs to the right and the bars face the back.

Group 27 - Police Station

85. Place a transparent red 1x1 light cover on top of the 1x2 jumper plate that is on the 5th row from the front and 6th and 7th columns from the right. Now horizontally place a yellow 1x4 tile to the right of the ppp.

86. Horizontally place a dark grey 1x2 plate on the front row on the 2nd and 3rd columns from the right. Then horizontally place a brown 1x2 plate with an upright bar behind the ppp so the bar faces the back.

87. Vertically place a light grey 1x2 plate with a stud and a clip on the front 2 rows on the 3rd column from the right so the clip is in the front. Now place a light grey 1x1 tile with a clip on top of the ppp so the clip hands face front and back. Now horizontally attach 2 black pairs of wheels to the 2 top-facing clips of the 2 ppp. These are dumbbells!

88. Rotate your build 180 degrees. Now horizontally place a silver 1x2 grill tile on the front right corner. Then horizontally place a light brown 1x2 log brick on the 7th row from the front, on the 3rd and 4th columns of studs from the left so it sits in front of the bars!

89. Let's make a part! Horizontally place a dark grey 2x4 plate in front of you.

90. Horizontally place 2 dark grey 1x2 plates, 1 to the right of the other, on the back row.

91. Horizontally place a light grey 1x3 brick on the back left corner.

92. Horizontally place a light grey 2x2 inverted slope brick on the back right corner so 1 column overhangs to the right and it slopes to the front. Now vertically place a light grey 1x2 masonry brick on the rightmost column so the brick grooves face the right.

93. Horizontally place a dark grey 1x4x3 window frame on the back left corner so the ridged side faces the back. Now attach a dark grey ladder with 3 rungs to the back-facing side of the ppp. These are prison bars!

94. Vertically place a light grey 1x2 inverted slope brick on the back right corner so it slopes to the front. Then vertically place a light grey 1x2 masonry brick on the rightmost column so the brick grooves face the right.

95. Horizontally place a light grey 1x3 brick on the back left corner. Then place a light grey 2x2 corner brick to the right of the ppp so it looks like the braille letter d.

96. Horizontally place 2 dark grey 1x2 plates, 1 to the right of the other, on the back left corner. Then vertically place 1 on the back right corner.

Group 28 - Police Station

97. Place a red 1x1 cone brick on the front left corner. Then place a white 2x2 inverted slope brick to the right of the ppp so it slopes and overhangs to the front. Now place a white 2x2 round tile with a pinhole on top of the ppp.

98. Insert a brown 3L bar into the cone brick on the front left corner. Place a tan 1x1 round brick on the 2nd row from the back and 2nd column from the right.

99. Horizontally place a dark grey 3x6 wedge plate on top so the angled side overhangs to the front and the short end overhangs to the left.

100. Vertically place your part on the back right corner so the angled side of the wedge plate faces the left. There should be no overhang to the right. Now place 2 green 1x1 round plates with 3 leaves, 1 to the right of the other, on top of the 1x2 log brick that is on the 7th row from the front and 3rd and 4th columns from the left so the leaves face the front left and front right.

101. Bring back your main build and vertically place it in front of you so the double doors open to the left. Now rotate your current build 180 degrees, then horizontally place the rightmost column of your build on the main build so the front row of the builds are aligned.

102. Vertically place a green 2x3 plate to the right of the 2 pairs of wheels that are on the front 3 rows. Now horizontally place a yellow 1x2 jumper plate on the 5th row from the front on the 7th and 8th columns from the right so it sits to the right of the 1x4 tile. Now place a transparent red 1x1 light bulb cover on top.

103.1. Let's make a part! Place a brown 2L ridged axle connector in front of you so the axle hole faces up. Then insert a red 2L axle into the top.

103.2. Place a brown 2L ridged axle connector on top of the top-facing axle. Then insert a red 2L axle into the top.

103.3. Place a brown 2L ridged axle connector on top of the top-facing axle. Then insert a red 2L axle into the top.

103.4. Place a brown 2L ridged axle connector on top of the top-facing axle. Then place a green 4L bar on top so it goes halfway in.

103.5. Vertically place a green 5x6 leaf plate on top so the part with 5 studs faces the front. Then place a green 1x1 round plate on the top-facing bar so it goes all the way down.

103.6. Vertically place a green 5x6 leaf plate on top so the part with 5 studs faces the back. Then place a green 1x1 round plate on the top-facing bar so it goes all the way down.

103.7. Place your part on the top-facing bar that is behind the pair of wheels that are on the front 3 rows so the end studs of the leaves of your part face left and right.

104. Rotate your build 180 degrees. Now vertically place a silver 1x2 grill tile on the rightmost column of the front 2 rows. Then vertically place another 1 behind it so there are 4 free rows in between them. Then horizontally place the leftmost column of a dark grey 1x3 tile behind the ppp.

105. Let's make a part! Place a dark grey 16x16 tile with gaps of studs in front of you. Now horizontally place a dark grey 2x4 tile on the back row in the right 1x4 gap so 1 row overhangs to the back.

106. Horizontally place the 1x4 part of a dark grey 4x8 sloped curved brick with a 1x4 tile on the back row in the left 1x4 gap so it slopes and overhangs to the back. Then repeat symmetrically to the front. Now horizontally place another 1 to the right of the ppp. Now place 4 dark grey 2x4 tiles in the 4 2x4 gaps that are in the middle of the 16x16 tile with gaps of studs.

107. Rotate your part so it is horizontal and the 2x4 tile overhangs to the left. Now horizontally place the overhang of the 2x4 tile on the rightmost column of the 3rd, 4th, 5th, and 6th rows from the front so the overhang is in between the 1x2 grill tiles.

108. Horizontally place a dark grey 2x4 tile on the back row of the 16x16 tile with gaps of studs so it sits in the right 1x4 gap. Then horizontally place a dark grey 1x4 tile with 2 studs to the left of the ppp. Now horizontally place the back row of a dark grey 2x4 tile to the left of the ppp. Then place a light brown squirrel on the 4th row from the back on the 7th column from the right so the tail faces the left. Now put your main build away while we make the next part!

Building Instructions (Bag 5, Book 2):

Group 29 - Police Station

109. Vertically place a light grey 6x8 plate in front of you. Then horizontally place a white 1x4x6 door frame on the back row so it is centered horizontally and the ridged side faces the front.

110. Place a blue 1x1 brick on the back left corner. Then place a white 1x1x5 brick on top. Now repeat both parts symmetrically to the right.

111. Vertically place a white 1x3 tile on the leftmost column in front of the 1x1x5 brick.

112. Horizontally place a blue 2x6 brick on the 3rd and 4th rows from the front. Then vertically place a dark grey 1x4 tile on the front right corner so it overhangs 2 rows to the front.

113. Place a light brown 1x1 round tile printed with a pink donut on the 4th row from the front of the leftmost column. Then horizontally place a light grey 1x2 tile printed with buttons and a yellow joystick to the right of the ppp.

114. Place a white 1x1x5 brick in front of the 1x1 round tile that is on the leftmost column. Then horizontally place a white 1x3 brick to the right of the ppp.

115.1. Let's make a part! Vertically place a white axle connector with an axle hole in front of you so the axle hole faces down and the axle connector is on top and faces left and right. Now insert a dark grey 4L axle with a stop into the left-facing side so it goes all the way in.

115.2. Insert a red 1L bushing into the right-facing axle so it goes all the way in.

115.3. Vertically insert a white 1x2 brick with a pinhole into the right-facing side. Then insert a red axle connector with a wire connector to the right-facing axle so the wire connector faces the front.

115.4. Horizontally place the brick part of your part on the 2 rightmost columns on the 6th row from the back so the wire connector is in the back and faces up. The axle connector should face the right.

116. Horizontally place a white 1x4x3 window frame on the 6th row from the back to the right of the 1x1x5 brick that is on the leftmost column so the ridged side faces the front. Now horizontally attach a transparent aqua 3x4 glass pane to the front so it opens to the top.

117. Stack 3 white 1x1 bricks on the rightmost column on the 6th row from the back.

You will have an extra transparent red 1x1 round tile. Save it for later!

Group 31 - Police Station

118. Place a white 1x1 brick on the 2nd column from the left and 3rd row from the front. Then horizontally place a white 1x2 brick with 2 side studs to the right of the ppp so the side studs face the front. Now place a transparent red 1x1 round tile from group 30 upright on the left front-facing side stud. Then place a transparent green 1x1 round tile upright to the right of the ppp. Now horizontally place a white 1x2 brick to the right of the ppp.

119. Place a white 6x6 plate on the back 6 rows.

120. Rotate your build 90 degrees clockwise so the 1x4 tile overhangs to the left. Now vertically place a blue 2x6 brick on the 2 rightmost columns so it is centered vertically. Then vertically place another 1 on the 5th and 6th columns from the right so it is centered vertically.

121. Horizontally place a blue 1x2 brick on the front row on the 3rd and 4th columns from the right. Then repeat symmetrically to the back.

122. Vertically place a blue 1x6 tile on the rightmost column. Then vertically place another 1 on the 6th column from the right.

123. Place a light grey 4x4 plate in between the 2 ppp so it is centered vertically. Then horizontally place a blue 1x4 tile in front and behind the ppp.

124. Horizontally place a green 6x8 plate underneath the 2 leftmost columns so it is centered vertically to the build.

125. Horizontally place a dark grey 1x4 tile on the front left corner so it overhangs 2 columns to the left. Then horizontally place a dark grey 2x4 tile to the right of the ppp so it overhangs to the front.

126. Place a brown 1x1 swirl on the 2nd row from the front to the left of the axle connector with an axle hole. This is dog poop! Then horizontally place the leftmost column of a red 2x3 plate behind the ppp. The 2 rightmost columns of your ppp should sit behind the axle connectors!

127. Vertically place a red 1x2 slope tile to the left of the ppp so it slopes to the right.

128.1. Let's make a part! Horizontally place a black 2x4 plate with pinholes underneath so the pinholes face the front and back. Now insert a light grey 2L pin into the front-facing hole. Then repeat symmetrically to the back. Now horizontally attach the top pinhole of a red 1x2 tile with 2 upright pinholes to the front-facing pin. Then repeat symmetrically to the back. This is a dog ramp!

128.2. Horizontally place your part on the 4th and 5th columns from the left, and 2nd, 3rd, 4th, and 5th rows from the back. The 2x4 plate should move back and forth!

129. Vertically place a red 1x2 slope tile on the 2nd column from the left so it is centered vertically on the 6x8 plate and slopes to the left.

You will have an extra blue 1x4 plate. Save it for later!

Group 32 - Police Station

130. Let's make a part! Horizontally place a blue 1x4 brick in front of you. Then horizontally place a yellow 1x4 plate on top of the ppp. Now horizontally place a blue 1x4 plate from group 31 on top of the ppp.

131. Horizontally place a white 1x4x3 panel with a sticker on top so the wall faces the front. Then horizontally place a blue 1x4 tile on top.

132. Skip this step if you have already placed your sticker! Ask a helper to place sticker 2 on the white 1x4x3 panel. This sticker says police and has a gold shield with a star on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

133. Vertically place the front row of a green 6x8 plate underneath your part so it is centered horizontally and 7 rows are exposed to the back.

134. Rotate your part 180 degrees. Now horizontally place a green 2x3 tile on the 2nd and 3rd rows from the back on the 2nd, 3rd, and 4th columns from the left.

135. Place a white 1x1 round plate on the front row on the 3rd column from the right. Then place 2 more behind the ppp so there is a 1 row gap in between each of them.

136. Insert a white 4L bar into each of the 3 ppp.

137. Vertically place a silver 1x2 grill tile on the back left corner. Then vertically place a dark grey 2x4 tile in front of the ppp so 1 column overhangs to the left.

138. Horizontally place your part underneath the 2 leftmost columns of the previous build so it is centered vertically to the build and the 1x4x3 panel faces the left.

139.1. Let's make a part! Place a red corner axle connector with a pinhole in front of you so the pinhole is in the back left and faces up. Now insert a black 8L axle into the right-facing axle hole.

139.2. Insert a white 1L pin connector into the right-facing axle. Then insert a red 1L bushing into the right-facing axle. Make sure they go all the way in. Then repeat this step 2 more times so you insert 3 of each!

139.3. Vertically insert the axle of your part into the front-facing axle connector so the axle connector of the corner axle connector with a pinhole faces down. This is a gate!

140. Place 2 dark grey 2x2x2 round tables, 1 to the right of the other, on the 2nd and 3rd rows from the back on the 2nd, 3rd, 4th, and 5th columns from the right. Then place 2 more, 1 to the right of the other, in front of the 2 ppp.

141. Horizontally place a light grey 2x4 plate on the back 2 rows of the 2 ppp.

142. Bring back your main build and horizontally place it in front of you so the double doors of the building open to the front. Now vertically place the overhang of the 2x4 tiles of your current build on the leftmost column on the 1x4 gaps of the 16x16 tile with gaps of studs so the 1x4x3 panel is in the front.

143. Horizontally place a light grey 4x12 plate to the right of the 2x4 plate that is in the back left corner so it sits on 3 columns of studs.

144. Vertically place a dark grey 2x4 tile on the 2 rightmost columns of the ppp.

Group 33 - Police Station

145. Let's make a part! Let's make a helicopter pad! Horizontally place a blue 2x6 plate in front of you. Then place a yellow 2x2 tile on top so it is centered horizontally.

146. Vertically place a yellow 1x6 tile on the 2nd column from the right so it is centered vertically. Then repeat symmetrically to the left.

147-148. Horizontally place a blue 4x6 plate with angled sides underneath the front 2 rows so it is aligned with the 4x6 plate and the angled sides face the front. Then repeat symmetrically to the back.

149. Flip your part upside down so it is vertical. Now vertically place a dark grey 2x4 brick on top so it is centered vertically and horizontally.

150. Vertically place a dark grey 1x6 plate with inverted slope sides to the left of the ppp so it is centered vertically. Then repeat symmetrically to the right.

151. Vertically place your part on the back left corner on the 4 leftmost columns so it is centered vertically on the 4x4 stud area.

152. Horizontally place a dark grey 1x8 rounded bar fence on the back row to the right of the ppp so it sits to the left of the 2x4 tile. Then horizontally place another 1 in front of the ppp so there is a 2 row gap.

153.1. Let's make a part! Place a 2x2 half dome brick in front of you. Then place a dark grey 1x1 plate on top of the ppp.

153.2. Place a black 1x1 rounded plate with a bar on top so the bar faces the left. Now attach a light grey claw to the bar so the bar faces the left. Then place a transparent yellow 2x2 inverted round tile with a rounded bottom underneath your part. This is a spotlight! Now insert the bar of your part into the left stud of the front 1x8 rounded bar fence from step 152 so the rounded side faces the front. Now put your build away while we make the next part!

Building Instructions (Bag 6, Book 3):

Group 34 - Robber

Sub-build 4. Locate 1 light blue pair of legs, 1 dark red torso printed with a jacket with orange stripes, 1 yellow head printed with eyes, eyelashes, and red lips, 1 black hair, 1 red crowbar, and 1 brown hair with a beard. Assemble your minifigure and attach the crowbar to her hand! The hair with a beard is a disguise you can put on if you want! Now put her away while we make a dumpster!

Group 35 - Dumpster

1. Horizontally place a brown 4x6 plate in front of you.

2. Vertically place a green 1x4 plate on the leftmost column. Then repeat symmetrically to the right.

3. Horizontally place a green 1x4 plate on the front row so it is centered horizontally. Then repeat symmetrically to the back.

4. Vertically place a green 1x2 brick with an axle hole on the leftmost column so it is centered vertically. Then insert a black pin connector with an axle into the left-facing axle hole so the pinhole faces the front and back. Then repeat both parts symmetrically to the right.

5. Horizontally place a green 1x6 brick on the front row. Then repeat symmetrically to the back.

6. Vertically place a green 1x4 plate on the leftmost column. Then repeat symmetrically to the right.

7. Horizontally place a green 1x4 plate on the front row so it is centered horizontally. Then repeat symmetrically to the back.
8. Horizontally place 3 green 1x2 slope tiles, 1 to the right of the other, on the back row so they slope to the back.
9. Vertically place a green 1x2 slope tile on the leftmost column so it is centered vertically and slopes to the right. Then repeat symmetrically to the right.
10. Horizontally place 3 green 1x2 slope tiles, 1 to the right of the other, on the front row so they slope to the front.
11. Flip your dumpster upside down so it is horizontal. Now place a light grey 2x2 round plate with clips on the bottom on the 2 leftmost column so it is centered vertically and the clips are in the front and back. Then vertically attach a black pair of wheels to the 2 clips. Then repeat both parts symmetrically to the right.
12. Flip your dumpster over so it is right-side up and horizontal. Now place a silver fish inside! Now put it away while we make the garbage truck!

Group 36 - Garbage Truck

1. Horizontally place a dark grey 2x14 plate in front of you.
2. Vertically place a dark grey 1x6 plate on the leftmost column so it is centered vertically. Then vertically place a dark grey 1x2 plate underneath the front 2 rows of the ppp. Then repeat symmetrically to the back.

Group 37 - Garbage Truck

3. Vertically place a red 1x2 plate on the 2nd column from the left. Then place 2 light grey 2x2 plates with 2 small pins, 1 in front of the other, to the right of the ppp so they are centered vertically and the pins face the front and back.
4. Horizontally place a red 2x6 plate to the right of the 2 ppp.
5. Vertically place a red 1x2 plate on the 2nd column from the right. Then place 2 light grey 2x2 plates with 2 small pins, 1 in front of the other, to the left of the 2 ppp so they are centered vertically and the pins face the front and back.

Group 38 - Garbage Truck

6. Vertically place a dark grey 1x6 plate on the rightmost column so it is centered vertically. Then vertically place a dark grey 1x2 plate underneath the front 2 rows of the ppp. Then repeat symmetrically to the back.
7. Horizontally place a blue 2x4 plate on top so it is centered horizontally. Then horizontally place a light grey 2x4 tile to the left and right of the ppp.

8. Vertically place a yellow 1x4 brick with 4 side studs on the leftmost column so it is centered vertically and the side studs face the left.
9. Horizontally place a light grey 1x4 sloped curved brick with 1x4 plate part on the front row so it is centered horizontally and slopes and overhangs to the front. Then repeat symmetrically to the back.
10. Horizontally place a light orange 2x4 tile with 2 studs on top so it is centered horizontally.
11. Horizontally place a dark grey 2x2 brick with a mudguard on the front row on the 3rd and 4th columns from the right so it overhangs 1 row to the front and the mudguard faces the front. Then repeat symmetrically to the left. Now repeat both parts symmetrically to the back.
12. Horizontally place a black 1x2 inverted slope brick on the front right corner so it slopes to the left. Then repeat symmetrically to the left. Now repeat both parts symmetrically to the back.
13. Vertically place 2 black 1x2 bricks with a bar on the long side, 1 in front of the other, on the rightmost column so they are centered vertically and the bars face the right.
14. Horizontally place a dark grey 6x14 plate on top so it is centered horizontally.

Group 39 - Garbage Truck

15. Horizontally place 2 dark red 1x4 bricks, 1 to the right of the other, on the front right corner. Then repeat symmetrically to the back.
16. Vertically place a dark red 1x6x2 arch brick on the 8th column from the right so it is centered vertically.
17. Horizontally place 3 dark red 1x2x2 panels, 1 to the right of the other, on the front row to the right of the ppp so the walls face the back. Then repeat symmetrically to the back.
18. Place a light grey 1x1 plate with a clip on the front right corner so the clip faces the front. Then repeat symmetrically to the back.
19. Place a dark red 1x1x2 brick with 2 side studs on the front right corner so the side studs face the right. Then repeat symmetrically to the back.
- 20.1. Let's make 2 identical parts! Horizontally place a dark grey 1x2 plate in front of you. Then horizontally place a dark red 1x4 sloped curved tile with a sticker on top so it is centered horizontally.
- 20.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 5 on the dark red 1x4 sloped curved tile. This sticker has diagonal red and white stripes on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.
- 20.3. Now you should have 2 identical parts! Horizontally place 1 upright on the front 2 right-facing side studs so it hangs 2 rows down. Then repeat symmetrically to the back.
21. Attach the clips of 2 light grey flags with 2 clips to the 2 right-facing bars so they are centered horizontally and face up.

22. Horizontally place a dark grey 1x2 brick with a pin hole on the front row on the 5th and 6th columns from the left. Then repeat symmetrically to the back.
23. Horizontally place a black 1x2 log brick on the front row on the 3rd and 4th columns from the left. Then repeat symmetrically to the back.
24. Place a black 1x1 brick with a side stud on the front row on the 2nd column from the left so the side stud faces the front. Then place a transparent orange 1x1 round plate upright on the front-facing side stud. Now repeat both parts symmetrically to the back.
25. Horizontally place a yellow 2x3 plate on the 2nd, 3rd, and 4th columns from the left so it is centered vertically.
26. Vertically place a red 1x2 steering wheel on the 2nd column from the left so it is centered vertically and the wheel faces the right.
27. Vertically place a black 1x2 brick with 2 side studs on the front left corner so the side studs face the left. Then repeat symmetrically to the back.
28. Place a transparent 1x1 round tile upright on the front left-facing side stud. Then repeat symmetrically to the back.
29. Horizontally place a black 1x6 brick on the front left corner. Then repeat symmetrically to the back.
30. Place a black 1x1 brick with a clip on the leftmost column on the 2nd row from the front so the clip faces the left. Then repeat symmetrically to the back.
31. Vertically stack 2 light grey 1x2 ridged bricks on the leftmost column so they are centered vertically and the vertical ridges face the left.

Group 40 - Garbage Truck

- 32.1. Horizontally place a light grey 2x4 tile with a sticker upright on the bottom row of the left-facing side studs so it is centered horizontally and hangs down.
- 32.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 8 on the light grey 2x4 tile. This sticker has a license plate that says 60316 and it has diagonal white and red stripes. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.
33. Horizontally place a red 1x2 slope brick on the front right corner so it slopes to the right. Then horizontally place a dark red 1x6 brick to the left of the ppp. Now repeat both parts symmetrically to the back.
34. Vertically place a dark grey 1x4x1 panel on the 8th column from the left so it is centered vertically and the wall faces the left.

35. Horizontally place a black 1x2 tile on the front row on the 3rd and 4th columns from the left. Then horizontally place a black 1x2x2 panel to the right of the ppp so the wall faces the back. Now repeat both parts symmetrically to the back.

36. Horizontally place a dark red 6x8 plate with a 4x6 gap and 2 clips on the 8 rightmost columns of studs so it is centered vertically and the clips are on the right.

37. Horizontally attach the bars of a dark grey 4x6 plate with 2 bars to the clips of the ppp so the studs face up.

38.1. Let's make 2 identical parts! Horizontally place a light grey 1x2 plate with a bar on the long side in front of you so the bar faces the front. Then horizontally place a dark red 1x4 sloped curved tile with a sticker on top so it is centered horizontally.

38.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 5 on the dark red 1x4 sloped curved tile. This sticker has diagonal red and white stripes on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

38.3. Horizontally place 1 part on the front row on the 4th, 5th, 6th, and 7th columns of studs from the right so the bar faces the front. Then repeat symmetrically to the back.

39. Vertically place a dark red 1x6 tile to the left of the 2 ppp so it is centered vertically. Then vertically place a black 1x2 sloped curved tile with a wing to the right of the ppp so it is centered vertically and the wing faces the right.

40. Vertically place a transparent grey 2x6x2 windshield on the 2 leftmost column so it is centered vertically and slopes to the left. Now horizontally attach a dark grey ladder with 4 rungs to the 2 left-facing clips so it hangs down and is centered horizontally.

41.1. Vertically place the leftmost column of a black 4x6 car hood with a sticker on top of the windshield so it is centered vertically and the studs are on the right.

41.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 1 on the black 4x6 car hood. This sticker has a green dumpster with an eye mask on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

Group 41 - Garbage Truck

42. Let's make a part! Vertically place a dark grey axle connector with a large socket in front of you so the socket faces the front and the back axle hole faces up. Now insert a red 2L axle into the left-facing axle hole.

43. Horizontally attach a light grey 3L axle connector to the left-facing axle. Now insert a red 2L axle into the left-facing axle hole.

44. Attach a light grey corner axle connector with a pinhole to the left-facing axle so the pinhole is in the front left corner.

45. Insert a dark grey pin connector with 2 axles into the back-facing axle hole of the ppp so the other axle faces the left.

Group 42 - Garbage Truck

46. Horizontally attach a light grey 3L axle connector to the left-facing axle. Now insert a black 2L axle into the left-facing axle hole.

47. Insert a black 8L axle into the rightmost top-facing axle hole.

48. Bring back your main build and orient it so it is horizontal and the windshield faces the left. Now insert the 8L axle of your part into the front-facing pinhole so the other axle faces the left. Make sure the 8L axle sticks out the back.

Group 43 - Garbage Truck

49. Vertically place a dark grey axle connector with a large socket in front of you so the socket faces the front and the back axle hole faces up. Now insert a red 2L axle into the left-facing axle hole.

50. Horizontally attach a light grey 3L axle connector to the left-facing axle. Now insert a red 2L axle into the left-facing axle hole.

51. Attach a light grey corner axle connector with a pinhole to the left-facing axle so the pinhole is in the front left corner.

52. Insert a dark grey pin connector with 2 axles into the back-facing axle hole of the ppp so the other axle faces the left.

Group 44 - Garbage Truck

53. Horizontally attach a light grey 3L axle connector to the left-facing axle. Now insert a black 2L axle into the left-facing axle hole.

54. Rotate your main build 180 degrees. Now horizontally attach the axle hole of the socket to the front-facing axle so the axle faces the right. These are the arms to grab the dumpster to empty it into the garbage truck!

55. Let's make 4 identical parts! Insert 4 light grey wheels into the 4 black tires.

56. Now you should have 4 identical parts! Attach them to the front-facing and back-facing pins so the hollow sides face outwards.

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets are advertisements for the following 5 LEGO Speed Champions Theme kits:

60316 Police Station

60312 Police Car

60314 Ice Cream Truck Police Chase

60315 Police Mobile Command Truck

60317 Police Chase at the Bank
