

## **43244 Elsa's Ice Palace**

Adapted by John Le and tested by Natalie Charbonneau.

Frozen fans and kids aged 6+ can dive into endless play with this detailed LEGO® I Disney Frozen Elsa's Ice Palace (43244) buildable toy gift. Inside the box you'll find a 3-level ice castle with a movable floor that opens the magical doors, a falling chandelier, 2 bedrooms, Elsa's study with a desk where she can research ice crystals, a balcony, a buildable sled and several story starter elements. This kids' building kit also includes Elsa, Anna and Kristoff LEGO I Disney mini-doll figures, plus an Olaf LEGO I Disney snowman figure and a baby reindeer LEGO I Disney animal figure.

Buildable toy – Inspire girls and boys aged 6 and up with this Elsa's Ice Palace construction playset and let kids imagine and play out their own creative stories.

Disney's Frozen palace – This Disney Frozen buildable toy features a 3-level ice palace with a tower, Elsa, Anna and Kristoff LEGO® I Disney mini-doll figures and an Olaf LEGO I Disney snowman figure.

Opening castle doors – Push or pull on the front floor/stairs to open and close the magical palace doors, or create fun play possibilities with a sled, Elsa, Anna, Kristoff, Olaf and the baby reindeer.

Movie inspiration in a LEGO® building set – Thrill Disney fans with the palace's falling chandelier, triggered with a lever push, and other creative story starters in this detailed construction set.

Measurements – The 630-piece building set includes an ice palace that measures over 14.5 in. (36 cm) high, 10.5 in. (27 cm) wide and 5.5 in. (14 cm) deep.

The front of the box shows Elsa's palace! Anna is at the front door with Olaf waiting for Kristoff to come on his sled! Anna is on top of her ice palace waving to Kristoff as he comes!

The back of the box shows the back of Elsa's ice palace! It has 3 stories, 2 bedrooms, a research desk, magical doors, and a chandelier!

The top of the box shows a real size image of Elsa!

The build is 630 pieces in total and is for ages 6+.

Bag 1 includes the pieces for Elsa and part of the ice palace.

Bag 2 includes the pieces for Anna and part of the ice palace.

Bag 3 includes the pieces for Kristoff and part of the ice palace.

Bag 4 includes the pieces for the sled and part of the ice palace.

Bag 5 includes the pieces for a reindeer and part of the ice palace.

Bag 6 includes the pieces for Olaf and part of the ice palace.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

A note on LEGO Technic™ part names. These parts are somewhat different from regular LEGO bricks. Here are some definitions in case the builder or helper is not familiar with LEGO Technic™.

**Axles** - An axle is a connector which has an X shaped cross-section. Because their cross section is not round, anything connected to an axle using an axle-hole will rotate with that axle. Axles are longer than they are wide, and the length of an axle corresponds with how many bricks long it is. Aka a 3L axle is three bricks long. Axles come in a variety of lengths, with a 2L axle being the shortest available. They may be combined with pins, or have circular stops on them. A stop prevents the axle from sliding through an axle-hole at a specific point on the axle.

**Pins** - A pin is a connector which has a circular cross section and a flanged notch out of one or both ends. This flanged notch allows them to click into bricks with a pin-hole. Pins come with and without friction ridges, which are small bumps on the pin which prevent them from rotating freely. For standard pins, black is a high friction pin, and gray is a low friction pin. A standard length pin is two brick lengths long, with a stop in the middle. This prevents a brick from being pushed from one side of the pin to the other. A 1L pin is one brick long and still retains the stop, however it also includes a hollow stud at the other end. A 3L pin is three bricks long, and only contains a stop at one side, allowing two bricks to be pushed onto the other side of the pin. Pins may also have one side which is an axle.

**Technic brick** - a brick which contains one or more holes which accept technic pins.

**Lift-arms** - A lift-arm is a basic structural element, similar to a brick or a plate, but usually without any studs. It is a beam with rounded ends and with holes in it, with the same spacing as the studs on a LEGO brick. lift-arms come in a variety of lengths, including a 1x1 lift-arm which looks like a cylinder. Thick lift-arms are as wide as a LEGO brick, and thin lift-arms are half as wide as a LEGO brick, but not the same thickness as a LEGO plate! The holes in a lift-arm arm may accept axles or pins. They also come in a variety of shapes, including tees, els and triangles.

**Gears** - A gear is a functional element. They are typically discs with teeth on the outside, there are also worm gears which look like a spiraling cylinder! Gears connected by axles transmit or even transform rotational motion!

**Axle and Pin Connectors** - These elements are typically smaller than lift-arms and are used to connect some combination of pins or axles. They might have pins or axles, as well as axle or pin-holes. They have a lot of different angle combinations! The simplest just connects two axles or pins together in a straight line.

**Bushes/Bushings** - LEGO Technic™ uses bushes largely as spacers, but they also can reduce friction between rotating parts, or can form useful elements such as handles. Bushes are typically light gray, generally cylindrical, and have an axle-hole running through the middle. They have a flange at the front and back to make them easier to pull on and off.

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/43244>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

**Sorting the pieces:**

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 6 bags labeled 1 to 6, 4 sets of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

**Bag 1 - Elsa and Ice Palace**

**Group 1 - Page 5.**

**Group 2 - Steps 1-17.**

**Group 3 - Steps 18-25.**

**Group 4 - Steps 26-36.**

Group 5 - Steps 37-53 and 1 brown 2x2 round brick and a dark green 2x2 round flower plate from Step 54.

Group 6 - 1 sand green 2x2 round flower plate from Step 54.

Group 7 - Rest of Step 54.

Bag 2 - Anna and Ice Palace

Group 8 - Page 2.

Group 9 - Steps 1-5 and 2 aqua 2x3 plates from Step 6.

Group 10 - Rest of Step 6 and Steps 7-23.

Bag 3 - Kristoff and Ice Palace

Group 11 - Page 25.

Group 12 - Steps 24-27 and 2 white 2x3 plates with a round side and pinhole from Step 28.

Group 13 - Rest of Step 28 and Steps 29-43.

Bag 4 - Sled and Ice Palace

Group 14 - Steps 44-49 and 1 transparent 1x2 brick from Step 50.

Group 15 - Rest of Step 50 and Step 51.

Group 16 - Steps 52-63.

Group 17 - Steps 64-78.

Bag 5 - Reindeer and Ice Palace

Group 18 - Page 2.

Group 19 - Steps 1-14.

Group 20 - Steps 15-37.

Group 21 - Steps 38-52 and 1 brown 2x2 round brick and a dark green 2x2 round flower plate from Step 53.

Group 22 - 1 sand green 2x2 round flower plate from Step 53.

Group 23 - Rest of Step 53 and Steps 54-56.

Bag 6 - Olaf and Ice Palace

Group 24 - Page 2.

Group 25 - Steps 1-24.

Group 26 - Steps 25-46.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Elsa

Sub-build 1. Locate 1 light blue dress printed with stars, 1 light blue torso printed with scales, 1 light blue cape, 1 tan head printed with light blue eyes and red lips, 1 blonde hair, and 1 curved bar with a swirl. Assemble your minifigure, make sure the cape is on her back, and then attach the bar to her hand! The cape can go on either way, it is the same on both sides! Now put her away while we make the ice palace!

Group 2 - Ice Palace

1. Vertically place a white 6x8 plate in front of you.

2. Vertically place a teal 1x2 rounded brick with a gap and bars on the back left corner. Then repeat symmetrically to the right. Now horizontally place a transparent aqua 1x4 tile on the back row so it is centered horizontally.
3. Vertically place a light blue 1x2 tile on the leftmost column on the 3rd and 4th rows from the back. Then repeat symmetrically to the right. Now place 2 aqua 2x2 tiles with a stud, 1 in front of the other, in front of the 1x4 tile that is on the back row so they are centered horizontally.
4. Vertically stack 3 dark blue 1x2 bricks on the back left corner. Then repeat symmetrically to the right.
5. Place an aqua 1x1x3 brick on the leftmost column on the 4th row from the front. Then repeat symmetrically to the right.
6. Place a transparent 1x1 round brick on the 2 ppp. Then place a transparent 1x1 round brick on the back left corner. Then repeat symmetrically to the right.
7. Vertically place a white 1x4 arch brick on the leftmost column, in front of the 1x1 round brick that is in the back left corner. Then repeat symmetrically to the right.
8. Horizontally place 2 light blue 1x2 tiles, 1 to the right of the other, on the 3rd row from the front so they are centered horizontally.
9. Horizontally place a transparent aqua 1x2x5 brick on the 2nd row from the front so it is centered horizontally. Then place the front row of a transparent aqua 2x2x5 corner panel with a cutoff corner to the left of the ppp so the cutoff corner faces the front left. Then repeat symmetrically to the right.
10. Vertically place a purple 1x6 plate on the back left corner. Then repeat symmetrically to the right.
11. Place 2 white 1x1 plates with a vertical tooth, 1 to the right of the other, on the 2nd row from the front so together they are centered horizontally and the teeth face the front.
12. Horizontally place a white 1x4 sloped curved tile on top of the 2 ppp so it is centered horizontally.
13. Place a light blue 6x6 plate on the back 6 rows.
14. Place an aqua 1x1 slope tile on the front right corner so it slopes to the right. Then horizontally place a white 1x2 slope brick to the left of the ppp so it slopes to the left.
- 15.1. Let's make a part! Vertically place a light brown 2x4 brick in front of you. Vertically place a teal 1x4 plate with a 1x4 sloped curved brick on the left column so it slopes and overhangs to the left and 1 row overhangs to the back. Now place a teal 2x2 corner sloped curved brick with 1x1 plate in front of the ppp so it slopes and overhangs to the front left. Now repeat both parts symmetrically to the right.
- 15.2. Place 2 white 1x1 half cylinder bricks, 1 to the right of the other, on the back row so they slope to the front and back. Then vertically place a teal 2x4 tile with a sticker in front of the ppp. This is a bed!

15.3. Skip this step if you have already placed your stickers! Ask a helper to place sticker 3 on the teal 2x4 tile. This sticker has a teal blanket with stars on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

15.4. Rotate your main build 180 degrees. Now vertically place your bed on the first floor on the front 6 rows, on top of the 2x2 tiles with a stud so it is centered horizontally and the corner sloped curved bricks are in the front.

16. Horizontally place a transparent aqua 1x2x5 brick on the 6th row from the front so it is centered horizontally.

17. Place the back row of a transparent aqua 2x2x5 corner panel with a cutoff corner to the left of the ppp so the cutoff corner faces the back left. Then repeat symmetrically to the right.

### Group 3 - Ice Palace

18. Vertically place an aqua 1x4 plate on the front right corner. Then repeat symmetrically to the left.

19.1. Horizontally place a magenta 2x4 tile with a sticker on the front 2 rows so it is centered horizontally.

19.2. Skip this step if you have already placed your stickers! Ask a helper to place sticker 8 on the magenta 2x4 tile. This sticker has a light purple rug on it with a white flower in the middle. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

20. Horizontally place a magenta 1x4 tile with 2 studs behind the ppp so it is centered horizontally.

21.1. Let's make a part! Horizontally stack 2 aqua 1x4 bricks in front of you. Then horizontally place a white 1x4x3 brick with a sticker on top so the sticker faces the front.

21.2. Skip this step if you have already placed your stickers! Ask a helper to place sticker 1 on the white 1x4x3 brick. This sticker has an ice wall with a snowflake on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

21.3. Horizontally place your part on the 5th row from the front so it is centered horizontally and the sticker faces the front.

22. Horizontally place the front row of a white 2x6 plate with a round side on top of the ppp so it is centered horizontally and the round side faces the back.

23.1. Let's make a part! Horizontally place a white 1x4 arch brick in front of you. Then vertically place a dark blue 1x2 rounded plate underneath the leftmost column so 1 row is exposed to the front. Then repeat symmetrically to the right.

23.2. Horizontally place a white 1x4 arch brick on the front row.

23.3. Place 2 aqua 2x2 tiles with a stud, 1 to the right of the other, on top.

23.4. Place a magenta crystal on the left 2x2 tile with a stud. Then place an aqua head printed with a blue snowflake on the right 2x2 tile with a stud. Now place a transparent ball on top of the ppp.

23.5. Horizontally place your part on the 3rd and 4th rows from the front of the main build so it is centered horizontally.

24. Vertically place a white 1x4x4 window frame on the front right corner so the ridged side faces the right. Then repeat symmetrically to the left.

25. Vertically place a light purple 1x2 slope brick on the front right corner so it slopes to the front. Then vertically place a transparent aqua 1x2 brick behind the ppp. Now repeat both parts symmetrically to the left.

#### Group 4 - Ice Palace

26. Vertically place a magenta 1x4 tile with 2 studs on the leftmost column on the ppp so there is no overhang. Then repeat symmetrically to the right. Now horizontally place a transparent aqua 1x4 tile in between the back row of the 2 ppp.

27. Horizontally place a white 4x6 plate on top of the 3 ppp so it is centered horizontally.

28. Place 2 white 1x1 plates with a vertical tooth, 1 to the right of the other, behind the ppp so together they are centered horizontally and the teeth face the back.

29. Horizontally place a white 1x4 sloped curved tile on top of the 2 ppp so it is centered horizontally.

30. Rotate your build 180 degrees. Now place a transparent aqua 1x1 pyramid tile on the front left corner of the 4x6 plate. Then repeat symmetrically to the right.

31. Place a white 2x2 brick on the 2nd and 3rd columns from the left, on the 2nd and 3rd rows from the back of the 4x6 plate. Then horizontally place 2 white 1x2 bricks with a bar on the short side, 1 in front of the other, to the right of the ppp so the bars face the right.

32. Horizontally place an aqua 1x2 plate on the 2nd row of studs from the back so it is centered horizontally. Now horizontally place a white 1x2 plate with a hinge on the long side in front of the ppp so the hinge faces the front. Now vertically place an aqua 1x2 plate to the left and right of the 2 ppp.

33. Place 2 aqua 2x2x2 slope bricks, 1 to the right of the other, on top of the 4 ppp so they slope outwards to the left and right.

34. Place a transparent aqua 2x2 dome brick on top of the 2 ppp.

35-36. Attach a transparent aqua 3x12 sloped angled tile with 6 studs and a hinge connector to the front-facing hinge so it sticks up and the studs face the front.

#### Group 5 - Ice Palace

37. Let's make a part! Vertically place a white 4x8 plate with a round side in front of you so the round side faces the left. Now place a transparent aqua 1x1 round plate on the back right corner.

38. Place a white 1x1 brick with a clip in front of the pp so the clip faces the right. Now place a transparent aqua 1x1 round plate to the left of the ppp.
39. Horizontally place a light blue 1x1 tile with a 1x1 slope tile on the 2 rightmost columns and 2nd row from the back so it slopes to the left.
40. Horizontally place an aqua 2x4 brick in front of the ppp so there is no overhang.
41. Place a white 2x2x3 brick on top of the 2 rightmost columns of the ppp.
42. Horizontally place 2 white 1x2x3 slope bricks, 1 in front of the other, to the left of the ppp so they slope to the left.
43. Horizontally place a white 2x3 brick on top of the ppp so there is no overhang.
44. Horizontally place a white 1x2x3 slope brick on the back left corner of the ppp so it slopes to the left. Then place an aqua 1x1x3 brick to the right of the ppp.
45. Place a transparent aqua 1x1 pyramid tile in front of the left column of the 1x2x3 slope brick from the previous step.
46. Horizontally place a white 1x2x3 slope brick to the right of the ppp so it slopes to the left.
47. Place a white 2x2 corner plate on top of the ppp so there is no overhang and it looks like the braille letter d.
48. Horizontally place a white 1x2x3 slope brick on top of the back row of the ppp so it slopes to the left.
49. Place an aqua 1x1x3 brick in front of the rightmost column of the ppp.
50. Bring back your main build and orient it so it is vertical and the 1x2x5 bricks and 1x2x5 corner panels face the front. Now attach the right-facing clip of your part to the left-facing bar of the 1x2 rounded brick with a gap that is in the back left corner of the main build.
51. Place a white 2x2 sloped curved tile on the 2 leftmost columns of studs that are on the 5th and 6th row from the front so it slopes to the left. It should sit to the left of the 2x2x3 slope brick!
52. Horizontally place a white 1x4 slope brick on the front row to the left of the 1x2 slope brick so it slopes to the left.
53. Place a transparent aqua 1x1 pyramid tile on the front row on the 2nd and 4th columns from the right.
- 54.1. Let's make a part! Place a brown 2x2 round brick in front of you. Then place a dark green 2x2 round flower plate on top.

#### Group 6 - Ice Palace

- 54.2. Place a sand green 2x2 round flower plate on top of the ppp.

#### Group 7 - Ice Palace

54.3. Place an aqua 2x2 round flower plate on top of the ppp. Then place an aqua 2x2x2 cone brick on top. This is a tree!

54.4. Place your part on the front left corner of the main build so there is no overhang.. Now put everything away while we make the next part!

Building Instructions (Bag 2, Book 2):

#### Group 8 - Anna

Sub-build 2.1. Locate 1 pair of legs printed with blue pants and black shoes, 1 torso printed with a dark grey and light blue shirt, 1 magenta cape, 1 tan head printed with light blue eyes and pink lips, and 1 light brown hair printed with a light purple headband. Assemble your minifigure and make sure the cape is on her back!

Sub-build 2.2. Let's make a part! Place a dark grey lantern on top of a transparent yellow 1x1 round brick. Now attach it to her hand, then put her away while we make part of the ice palace!

#### Group 9 - Ice Palace

1. Horizontally place a white 6x14 plate in front of you.
2. Place a dark blue 1x1 brick with a clip on the back left corner so the clip faces the left. Then repeat symmetrically to the right.
3. Horizontally place a dark blue 2x3 brick on the back 2 rows on the 2nd, 3rd, and 4th columns from the left. Then repeat symmetrically to the right.
4. Vertically place an aqua 1x4 brick on the leftmost column so it is centered vertically. Then repeat symmetrically to the right.
5. Horizontally place an aqua 1x3 slope brick on the front left corner so it slopes to the right. Then place a transparent aqua 1x1 pyramid tile to the right of the ppp. Now repeat both parts symmetrically to the right.

You will have 2 extra aqua 2x3 plates. Save them for later!

#### Group 10 - Ice Palace

- 6.1. Let's make 2 identical parts! Horizontally place a light blue 2x3 plate in front of you. Then horizontally place an aqua 2x3 plate from Group 9 on top. Now place a white 2x2 tile with a round ridge on top of the 2 leftmost columns.
- 6.2. Now you should have 2 identical parts! Horizontally place 1 on the 2nd and 3rd rows from the front, on the 2nd and 3rd columns from the left so the 2x2 tile with a round ridge is on the right. Then repeat symmetrically to the right.
7. Vertically place a blue 1x6 tile on the 5th column from the left. Then repeat symmetrically to the right.

8. Horizontally place a dark blue 2x3 brick on the back left corner. Then vertically place a dark blue 1x2 brick to the right of the ppp. Now repeat both parts symmetrically to the right.
9. Vertically place an aqua 1x4 brick on the front left corner. Then repeat symmetrically to the right.
10. Let's make a part! Horizontally place a white 6x14 plate in front of you. Then vertically place an aqua 1x4 tile on the leftmost column so it is centered vertically.
11. Place a transparent aqua 1x1 pyramid tile on the front left corner. Then place a light blue 1x1 round tile to the right of the ppp. Now repeat both parts symmetrically to the back.
12. Horizontally place 2 light blue 1x2 jumper plates, 1 in front of the other, to the right of the 1x4 tile that is on the leftmost column so together they are centered vertically. Now horizontally place a white 1x2 tile in front and behind the 2 ppp.
13. Horizontally place 2 light blue 1x2 jumper plates, 1 to the right of the other, on the front row to the right of the 1x1 round tile that is on the 2nd column from the left. Then repeat symmetrically to the back.
14. Vertically place a white 2x4 tile on the 4th and 5th columns from the left so it is centered vertically. Then vertically place 2 white 1x2 tiles, 1 in front of the other, to the right of the ppp.
15. Horizontally place a light blue 1x2 jumper plate on the front row to the right of the 1x2 jumper plates. Then horizontally place a white 1x2 tile behind the ppp. Now repeat both parts symmetrically to the back. Then horizontally place 2 light blue 1x2 jumper plates, 1 in front of the other, in between the 4 ppp.
16. Horizontally place 2 light blue 1x2 jumper plates, 1 to the right of the other, on the front row to the right of the jumper plates. Then repeat symmetrically to the back.
17. Vertically place a white 2x4 tile on the 4th and 5th columns from the right so it is centered vertically. Now vertically place 2 white 1x2 tiles, 1 in front of the other, to the left of the ppp.
18. Horizontally place a white 1x2 tile on the 2nd row from the front, and 2nd and 3rd columns from the right. Then repeat symmetrically to the back. Now horizontally place 2 light blue 1x2 jumper plates, 1 in front of the other, in between the 2 ppp.
19. Vertically place a transparent aqua 1x4 tile on the rightmost column so it is centered vertically.
20. Place a transparent aqua 1x1 pyramid tile on the front right corner. Then place a light blue 1x1 round tile to the left of the ppp. Now repeat both parts symmetrically to the back.
- 21.1. Let's make 2 identical parts! Horizontally place a light blue 4x6 plate in front of you. Then vertically place 3 light blue 2x3 plates, 1 to the right of the other, on the back 3 rows.
- 21.2. Horizontally place a transparent aqua 1x4 tile on the front row so it is centered horizontally. Then horizontally place another 1 behind the ppp so it is centered horizontally.
- 21.3. Place 2 transparent aqua 1x1 pyramid tiles, 1 in front of the other, on the front left corner. Then repeat symmetrically to the right.

21.4. Now you should have 2 identical parts! Vertically place 1 part underneath the 2 leftmost columns of your previous part so it is centered vertically and the tiles are exposed 2 columns to the left. Then repeat symmetrically to the right.

22. Bring back your main build and horizontally place it in front of you so the clips are on the back row and face left and right. Now vertically place your part on top so it is centered horizontally and 4 rows overhang to the front. It should not sit on any studs!

23. Place a light blue 2x2 round plate with 6 round arms on top of the left 2x2 tile with a round ridge that is on the 3rd and 4th columns from the left. Then place an aqua 2x2 round tile with a stud on top. Now repeat both parts symmetrically to the right. These pieces help the last assembly stay on and allow it to slide to the front and back.

Building Instructions (Bag 3, Book 2):

Group 11 - Kristoff

Sub-build 3. Locate 1 pair of legs printed with dark blue shorts, dark grey socks and black boots, 1 dark blue and sand blue torso, 1 tan head printed with light orange eyes and lips, 1 tan hair, and 1 dark grey pickaxe. Assemble your minifigure then attach the pickaxe to his hand! Now put him away while we continue the build!

Group 12 - Ice Palace

24.1. Let's make 2 identical parts! Horizontally place an aqua 1x2 plate in front of you. Then horizontally place a white 1x2 plate with a 1x2 panel with 2 wings on top so the panel with wings overhangs 1 row to the front. Now horizontally place an aqua 1x2 plate on top.

24.2. Now you should have 2 identical parts! Vertically place 1 part on the back 2 rows of the 4th column from the left so the 1x2 panel with wings overhangs to the right. Then repeat symmetrically to the right.

25. Horizontally place a light blue 1x2 brick with 2 side studs on the back row of the 2nd and 3rd columns from the left so the side studs face the back. Then repeat symmetrically to the right.

26. Vertically place an aqua 1x4 brick on the back 4 rows of the leftmost column. Then place the left column of a white 2x2 corner brick in front of the ppp so it looks like the braille letter h. Then repeat both parts symmetrically to the right.

27. Horizontally place a light aqua 1x4 brick on the back row of the 4 leftmost columns. Then vertically place another 1 on the leftmost column in front of the ppp. Now repeat both parts symmetrically to the right.

You will have an extra white 2x3 plate with a round side and pinhole. Save it for later!

Group 13 - Ice Palace

28. Let's make 2 identical parts! Horizontally place a light blue 2x3 plate with a round side and pinhole in front of you so the round side faces the right. Now horizontally place a white 2x3 plate with a round side and pinhole from group 12 on top so the round side faces the right.

29. Vertically place an aqua 1x2 plate on the leftmost column.

30. Place 2 light blue 1x1 plates with a clip, 1 in front of the other, on the right column of studs so the clips face outwards to the front and back.

31. Horizontally place a white 2x4 plate on top so 2 columns overhang to the left.

32. Place a transparent aqua 2x2 round brick underneath the 2 leftmost columns.

33. Place a light blue 2x2 plate on the 2 leftmost columns.

34. Horizontally place 2 aqua 1x2 plates, 1 in front of the other, on the 2 leftmost columns.

35. Place a white 2x2 tile on the 2 leftmost columns.

36. Horizontally place 2 white 1x2 slope tiles, 1 in front of the other, on top of the studs so they slope inwards to the front and back.

37. Attach a transparent blue arrow head to the front-facing clip so it sticks up. Then repeat symmetrically to the back.

38. Let's make a part! Insert a blue 2L pin axle into a large transparent blue blade. Now vertically place it on top of the pinhole on the right side so it slopes to the left.

39. Now you should have 2 identical parts! Horizontally place the 2 leftmost columns of 1 part on the leftmost 2x2 round tile with a stud. Then repeat symmetrically to the right. These are the front doors!

40. Horizontally place a transparent aqua 1x2 brick on the front row of the 2 leftmost columns. Then repeat symmetrically to the right.

41.1. Let's make 2 identical parts! Vertically place a white 4x6 plate with angled sides in front of you so the angled sides face the left.

41.2. Vertically place 4 light purple 1x4 tiles with 2 studs, 1 to the right of the other, on top so they are centered vertically.

41.3. Place 2 transparent aqua 1x1 pyramid tiles, 1 to the right of the other, on the front right corner. Then repeat symmetrically to the back.

41.4. Now you should have 2 identical parts! Vertically place 1 on the 4 leftmost columns so it is centered vertically and the angled side faces the right. Then repeat symmetrically to the right.

42.1. Rotate your build 180 degrees so the side studs face the front. Now vertically place a light purple 2x3 pentagonal tile with a sticker upright on the 2 leftmost front-facing side studs so 1 row overhangs to the top and angled side faces down.

42.2. Skip this step if you have already placed your stickers! Ask a helper to place sticker 5 on the light purple 2x3 pentagonal tile. This sticker has a silver image of Elsa. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

43.1. Vertically place a light purple 2x3 pentagonal tile with a sticker upright on the 2 rightmost front-facing side studs so 1 row overhangs to the top and angled side faces down.

43.2. Skip this step if you have already placed your stickers! Ask a helper to place sticker 6 on the light purple 2x3 pentagonal tile. This sticker has a teal background with a silver image of Elsa. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

Building Instructions (Bag 4, Book 2):

#### Group 14 - Sled

44. Let's make a part! Let's make the sled! Horizontally place a dark blue 2x6 plate in front of you.

45. Vertically place a light blue 1x2 plate with 1x3 angled sloped curved sides on the leftmost column so it is centered vertically, overhangs to the front and back, and slopes to the right. Then repeat symmetrically to the right.

46. Vertically place an aqua 1x2 plate on the 2nd column from the right.

47. Vertically place a light purple 1x2 panel with a middle wall on the 2nd column from the left so the middle wall faces the right. Now place a light purple 2x2 tile with a stud to the right of the ppp.

48. Vertically place a magenta 1x2 sloped curved brick on the leftmost column so it slopes to the left.

49.1. Let's make 2 identical parts! Vertically place a brown 1x4 plate in front of you. Then place a gold 1x1 round plate on the front and back rows. Now horizontally place a white 1x3 ski underneath the front row so the larger part faces the left. Then repeat symmetrically to the back.

49.2. Now you should have 2 identical parts! Flip your previous part upside down so it is horizontal and the 1x2 sloped curved brick is on the left side. Now vertically place 1 part on the 2nd column from the left so the larger part of the skis face the left. Then vertically place 1 on the rightmost column so the larger part of the skis face the left.

50.1. Flip your part over so it is right side up, horizontal, and the 1x2 sloped curved brick is on the left.

You will have an extra transparent 1x2 brick. Save it for later!

#### Group 15 - Sled

50.2. Let's make a part! Horizontally place a nougat 2x3 plate in front of you. Then horizontally place a transparent aqua 1x2 brick on the back left corner. Then horizontally place another 1 on the front right corner. Now vertically place a transparent 1x2 brick so it is centered horizontally.

50.3. Horizontally place your part on the 2 rightmost columns so 1 column overhangs to the right.

51. Place a transparent aqua 1x1 crystal on the front row of the rightmost column. Now put your sled away while we continue the build!

#### Group 16 - Ice Palace

52. Let's make 2 identical parts! Place a light blue 4x4 plate in front of you. Then place an aqua 2x2 tile with a stud on the back 2 rows so it is centered horizontally.

53. Vertically place an aqua 1x4 plate on the leftmost column. Then repeat symmetrically to the right. Now horizontally place an aqua 1x2 plate on the front row so it is centered horizontally.

54. Vertically place a teal 1x2x2 brick on the back left corner. Then repeat symmetrically to the right.

55. Vertically place a transparent aqua 1x2x3 panel on the back left corner so the wall faces the left. Then repeat symmetrically to the right.

56. Horizontally place a transparent aqua 2x2x5 corner panel with a cutoff corner on the front left corner so the cutoff corner faces the front left. Then repeat symmetrically to the right.

57. Place a light blue 4x4 plate on top so it is centered.

58. Horizontally place an aqua 1x2 plate on the front row so it is centered horizontally. Then horizontally place a light purple 1x4 tile with 2 studs behind the ppp.

59. Place a white 1x1 plate with a vertical tooth on the front left corner so the tooth faces the front. Then repeat symmetrically to the right.

60. Bring back your main build so it is horizontal and the upright 2x3 pentagonal tiles face the front. Now place 1 part on the 2nd, 3rd, 4th, and 5th rows from the front of the 4 rightmost columns so the corner panels face the back. Then repeat symmetrically to the left.

61.1. Let's make a part! Place a magenta 2x2 plate in front of you. Then place 4 transparent blue 1x1 cone bricks, 1 next to the other, on top.

61.2. Place a light blue 2x2 tile with 2 studs on top so the studs are in the back.

61.3. Horizontally place a blue 1x2 rotator panel on the back row so the wall faces the back. Now place a light grey 2x2 plate with a bar underneath on top of the ppp so it slopes and overhangs to the front.

61.4. Place a white 2x2 tile with a sticker on the ppp.

61.5. Skip this step if you have already placed your stickers! Ask a helper to place sticker 7 on the white 2x2 tile. This sticker has teal music notes on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

61.6. Place your part on the 2x2 tile with a stud that is on the 2nd and 3rd columns from the left and 2nd and 3rd rows from the front so the tile slopes to the front. It should be underneath the top 4x4 plate!

62.1. Let's make a part! Place a magenta 2x2 plate in front of you. Then place 4 transparent blue 1x1 cone bricks, 1 next to the other, on top.

62.2. Place a light blue 2x2 tile with 2 studs on top so the studs are in the back.

62.3. Horizontally place a blue 1x2 rotator panel on the back row so the wall faces the back. Now place a light grey 2x2 plate with a bar underneath on top of the ppp so it slopes and overhangs to the front.

62.4. Place a white 2x2 tile with a sticker on the ppp.

62.5. Skip this step if you have already placed your stickers! Ask a helper to place sticker 9 on the white 2x2 tile. This sticker has a teal drawing of Elsa and Anna on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

62.6. Place your part on the 2x2 tile with a stud that is on the 2nd and 3rd columns from the right and 2nd and 3rd rows from the front so the tile slopes to the front. It should be underneath the top 4x4 plate!

63. Place a magenta 2x2 plate on the front 2 rows of studs on the 2 rightmost columns. It should sit on the 4x4 plate. Then place a white 2x2 tile to the left of the ppp. Now repeat both parts symmetrically to the left.

#### Group 17 - Ice Palace

64. Place a transparent aqua 2x2x2 corner slope brick on the back 2 rows of studs on the 2 rightmost columns so it slopes to the back right. Then place another 1 to the left so it slopes to the back left. Now repeat both parts symmetrically to the left.

65. Vertically place a transparent aqua 1x2 brick on the leftmost column in front of the ppp. Then repeat symmetrically to the right.

66. Horizontally place 2 white 1x12x3 arch bricks, 1 in front of the other, in between the 2 ppp.

67.1. Let's make 2 identical parts! Horizontally place a light blue 1x2 plate with a clip on the short side in front of you so the clip faces the right. Now place 2 transparent 1x1 round plates, 1 to the right of the other, on top. Then horizontally place an aqua 1x2 plate on top.

67.2. Now you should have 2 identical parts! Horizontally place 1 part on the 2nd row of studs from the front, on the 2 rightmost columns so the clip faces the right. Then repeat symmetrically to the left.

68. Horizontally place a transparent aqua 1x2 brick in front of each of the 2 ppp.

69. Vertically place a light blue 2x3 brick on the front 3 rows of studs on the 2nd and 3rd columns from the left. Then repeat symmetrically to the right.

70. Vertically place a light blue 1x2 slope tile on the front 2 rows of studs of the leftmost column so it slopes to the left. Then repeat symmetrically to the right.

71. Vertically place an aqua 1x2 plate on the front 2 rows of studs to the right of the 1x2 slope tile that is on the leftmost column. Then horizontally place a light purple 2x4 tile to the right of the ppp. Now repeat both parts symmetrically to the right.

72. Vertically place a white 2x3 plate with a round side and pinhole in between the 2 ppp so the round side overhangs 1 row to the front.

73.1. Let's make a part! Place a transparent aqua snowflake in front of you. This is a 1x1 round plate with 6 bars all around it. Attach a transparent 1x1 round plate to each of the bars so the anti-studs face outwards. Now place a transparent aqua 1x1 plate upright on each of the 6 ppp. This is a chandelier!

73.2. Place a transparent blue 1x1 cone brick on top so the anti-stud faces up. Now place a light grey bar with a stop on top of the ppp so the bar faces up.

73.3. Insert the top-facing bar of your part into the bottom-facing pinhole of the previous 2x3 plate with a round side and a pinhole so it goes all the way up.

73.4. Attach a transparent aqua diamond to the bottom-facing stud of the ppp.

74. Horizontally place a white 1x2 plate with 2 side studs hanging down on the front row of studs on the 2nd and 3rd columns from the right so the side studs face the front. Then repeat symmetrically to the left.

75. Horizontally place a light blue 1x2 slope tile upright on the 2 leftmost front-facing side studs so it slopes down. Then repeat symmetrically to the right.

76. You can press down on the top-facing bar to make the chandelier fall down! Now put your build away while we make the next part!

Building Instructions (Bag 5, Book 3):

#### Group 18 - Reindeer

Sub-build 4. Horizontally place a 1 dark tan reindeer printed with tan antlers and hair in front of you so it faces the left. Then place a dark tan 1x1 half cylinder brick on top so it slopes to the front and back. Now put it away while we continue building!

#### Group 19 - Ice Palace

1. Vertically place a white 6x8 plate in front of you.

2. Horizontally place a transparent aqua 1x4 tile on the back row so it is centered horizontally. Then vertically place a teal 1x2 rounded brick with a gap on the back left corner. Then repeat symmetrically to the right.

3. Vertically place a light blue 1x2 tile on the leftmost column on the 3rd and 4th rows from the back. Then repeat symmetrically to the right. Now place 2 aqua 2x2 tiles with a stud, 1 in front of the other, in front of the 1x4 tile that is on the back row so they are centered horizontally.

4. Vertically stack 3 dark blue 1x2 bricks on the back left corner. Then repeat symmetrically to the right.

5. Place an aqua 1x1x3 brick on the 4th row from the front of the leftmost column. Then repeat symmetrically to the right.
6. Place a transparent 1x1 round brick on the back left corner. Then place another 1 on the leftmost column on the 4th row from the front. Then repeat both parts symmetrically to the right.
7. Vertically place a white 1x4 arch brick on the leftmost column, in front of the 1x1 round brick that is in the back left corner. Then repeat symmetrically to the right.
8. Horizontally place 2 light blue 1x2 tiles, 1 to the right of the other, on the 3rd row from the front so together they are centered horizontally.
9. Horizontally place a transparent aqua 1x2x5 brick on the 2nd row from the front so it is centered horizontally. Then place the front row of a transparent aqua 2x2x5 corner panel with a cutoff corner to the left of the ppp so the cutoff corner faces the front left. Then repeat symmetrically to the right.
10. Vertically place a purple 1x6 plate on the back left corner. Then repeat symmetrically to the right.
11. Place 2 white 1x1 plates with a vertical tooth, 1 to the right of the other, on the 2nd row from the front so together they are centered horizontally and the teeth face the front.
12. Horizontally place a white 1x4 sloped curved tile on top of the 2 ppp so it is centered horizontally.
13. Place a light blue 6x6 plate on the back 6 rows.
14. Place an aqua 1x1 slope tile on the front left corner so it slopes to the left. Then horizontally place a white 1x2 slope brick to the right of the ppp so it slopes to the right.

#### Group 20 - Ice Palace

- 15.1. Let's make a part! Vertically place a light brown 2x4 brick in front of you. Vertically place a light purple 1x4 plate with a 1x4 sloped curved brick on the left column so it slopes and overhangs to the left and 1 row overhangs to the back. Now place a light purple 2x2 corner sloped curved brick with 1x1 plate in front of the ppp so it slopes and overhangs to the front left. Now repeat both parts symmetrically to the right.
- 15.2. Place 2 white 1x1 half cylinder bricks, 1 to the right of the other, on the back row so they slope and overhang to the front. Then vertically place a light purple 2x4 tile with a sticker in front of the ppp. This is a bed!
- 15.3. Skip this step if you have already placed your stickers! Ask a helper to place sticker 4 on the light purple 2x4 tile. This sticker has a light purple blanket with a magenta flower on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.
- 15.4. Rotate your main build 180 degrees. Now vertically place your bed on the first floor on the front 6 rows, on top of the 2x2 tiles with a stud so it is centered horizontally and the corner sloped curved bricks are in the front.

16. Horizontally place a transparent aqua 1x2x5 brick on the 6th row from the front so it is centered horizontally.
17. Place the back row of a transparent aqua 2x2x5 corner panel with a cutoff corner to the left of the ppp so the cutoff corner faces the back left. Then repeat symmetrically to the right.
18. Vertically place an aqua 1x4 plate on the front right corner. Then repeat symmetrically to the left.
- 19.1. Horizontally place a transparent aqua 1x4 tile on the front row so it is centered horizontally. Then place 2 aqua 2x2 tiles with a stud, 1 to the right of the other, behind the ppp.
- 19.2. Skip this step if you have already placed your stickers! Ask a helper to place sticker 8 on the magenta 2x4 tile. This sticker has a light purple rug on it with a white flower in the middle. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.
- 20.1. Let's make a part! Horizontally stack 2 aqua 1x4 bricks in front of you. Then horizontally place a white 1x4x3 brick with a sticker on top so the sticker faces the front.
- 20.2. Skip this step if you have already placed your stickers! Ask a helper to place sticker 1 on the white 1x4x3 brick. This sticker has an ice wall with a snowflake on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.
- 20.3. Horizontally place your part on the 5th row from the front so it is centered horizontally and the sticker faces the front.
21. Horizontally place the front row of a white 2x6 plate with a round side on top of the ppp so it is centered horizontally and the round side faces the back.
22. Horizontally place a light purple 3x4 crate on the front 3 rows so it is centered horizontally.
23. Vertically place a white 1x4x4 window frame on the front right corner so the ridged side faces the right. Then repeat symmetrically to the left.
24. Vertically place a light purple 1x2 slope brick on the front right corner so it slopes to the front. Then vertically place a transparent aqua 1x2 brick behind the ppp. Now repeat both parts symmetrically to the left.
25. Vertically place a magenta 1x4 tile with 2 studs on the leftmost column on the ppp so there is no overhang. Then repeat symmetrically to the right. Now horizontally place a transparent aqua 1x4 tile in between on the back row of the 2 ppp.
26. Place 2 pink 1x3 snow shoes inside the 3x4 crate!
27. Let's make a part! Attach a green stem to an orange carrot, then place it inside the crate!
28. Horizontally place a white 4x6 plate on top of the 2 1x4 tiles with 2 studs so it is centered horizontally.
29. Place 2 white 1x1 plates with a vertical tooth, 1 to the right of the other, behind the ppp so together they are centered horizontally and the teeth face the back.

30. Horizontally place a white 1x4 sloped curved tile on top of the 2 ppp so it is centered horizontally.
31. Rotate your build 180 degrees. Now place a transparent aqua 1x1 pyramid tile on the front left corner of the 4x6 plate. Then repeat symmetrically to the right.
32. Place a white 2x2 brick on the 2nd and 3rd columns from the right, on the 2nd and 3rd rows from the back of the 4x6 plate. Then horizontally place 2 white 1x2 bricks with a bar on the short side, 1 in front of the other, to the left of the ppp so the bars face the left.
33. Horizontally place an aqua 1x2 plate on the 2nd row of studs from the back so it is centered horizontally. Now horizontally place a white 1x2 plate with a hinge on the long side in front of the ppp so the hinge faces the front. Now vertically place an aqua 1x2 plate to the left and right of the 2 ppp.
34. Place 2 aqua 2x2x2 slope bricks, 1 to the right of the other, on top of the 4 ppp so they slope outwards to the left and right.
35. Place a transparent aqua 2x2 dome brick on top of the 2 ppp.
- 36-37. Attach a transparent aqua 3x12 sloped angled tile with 6 studs and a hinge connector to the front-facing hinge so it sticks up and the studs face the front.

#### Group 21 - Ice Palace

38. Let's make a part! Horizontally place a white 4x8 plate with a round side in front of you so the round side faces the front. Now place a transparent aqua 1x1 round plate on the back right corner.
39. Place a white 1x1 brick with a clip on the back row on the 2nd column from the right so the clip faces the back. Then place a transparent aqua 1x1 round plate in front of the ppp.
40. Horizontally place a light blue 1x1 tile with a 1x1 slope tile on the 2nd column from the right and back 2 rows so it slopes to the front.
41. Horizontally place an aqua 2x4 brick to the left of the ppp so there is no overhang.
42. Place a white 2x2x3 brick on top of the back 2 rows of the ppp.
43. Horizontally place 2 white 1x2x3 slope bricks, 1 to the right of the other, in front of the ppp so they slope to the front.
44. Vertically place a white 2x3 brick on top of the ppp so there is no overhang.
45. Place an aqua 1x1x3 brick on the back row on the 3rd column from the right. Then vertically place a white 1x2x3 slope brick in front of the ppp so it slopes to the front. Now place a transparent aqua 1x1 pyramid tile on the 3rd column from the right and the 5th row from the front.
46. Horizontally place a white 1x2x3 slope brick on the back 2 rows to the left of the 2 ppp so it slopes to the front. Then place a transparent aqua 1x1 pyramid tile in front of the ppp.

47. Place a white 2x2 corner plate on top of the back 2 rows on the 3rd and 4th column from the right so it looks like the braille letter d.

48. Horizontally place a white 1x2x3 slope brick on the back 2 rows on the 3rd column from the right so it slopes to the front. Then place an aqua 1x1x3 brick on the back row to the left of the ppp.

49. Bring back your main build and orient it so it is vertical and the walls face the front. Now rotate your part so it is vertical and it slopes to the right. Then attach the left-facing clip of your part to the right-facing bar of the 1x2 rounded brick of the main build.

50. Place a white 2x2 sloped curved tile on the 2 rightmost columns of studs that are on the 5th and 6th row from the front so it slopes to the right. It should sit to the left of the 2x2x3 slope brick!

51. Horizontally place a white 1x4 slope brick on the front row to the right of the 1x2 slope brick so it slopes to the right.

52. Place a transparent aqua 1x1 pyramid tile on the front row on the 2nd and 4th columns from the left.

53.1. Let's make a part! Place a brown 2x2 round brick in front of you. Then place a dark green 2x2 round flower plate on top.

#### Group 22 - Ice Palace

54.2. Place a sand green 2x2 round flower plate on top of the ppp.

#### Group 23 - Ice Palace

54.3. Place an aqua 2x2 round flower plate on top of the ppp. Then place an aqua 2x2x2 cone brick on top. This is a tree!

54.4. Place your part on the front right corner of the main build. Now put everything away while we make the next part!

55. Bring back the main build from bags 2-4 and horizontally place it in front of you so the doors are in the front.

56. Attach the left-facing bars of your current build to the 2 right-facing clips of the main build. Now repeat symmetrically to the left with the build from bag 1. Now put it away while we make the next part!

#### Building Instructions (Bag 6, Book 4):

#### Group 24 - Olaf

Sub-build 5. Locate 1 white snowman body with brown arms printed with 3 black dots on his body, 1 white snowman head, 1 orange unicorn horn, and 1 brown stem. Assemble your minifigure, attach the horn to the front-facing hole of his head, then place the stem on his head! This horn is a carrot! Now put your snowman away while we continue the build!

#### Group 25 - Ice Palace

1. Horizontally place a white 4x12 plate in front of you.
2. Place a transparent 2x2 brick on the back left corner. Then vertically place a transparent aqua 1x2 brick to the right of the ppp. Now repeat symmetrically to the right.
3. Horizontally place an aqua 1x2 jumper plate with a round side on the front left corner so the round side faces the front. Then horizontally place an aqua 1x2 plate behind the ppp. Now repeat both parts symmetrically to the right.
- 4.1. Let's make a part! Horizontally place a light blue 4x8 plate with a round side in front of you so the round side faces the front. Then horizontally place an aqua 1x2 jumper plate with a round side on the front row so it is centered horizontally and the round side faces the front. Now place a white 1x1 round plate on the ppp.
- 4.2. Horizontally place your part on the front 2 rows of the main build so it is centered horizontally and the round side overhangs 2 rows to the front.
5. Horizontally place a light blue 1x3 tile on the 3 leftmost columns of the 3rd row from the back. Then repeat symmetrically to the right.
6. Vertically place a light blue 1x2 slope tile on the back left corner so it slopes to the left. Then vertically place a light blue 1x2 plate with a clip to the right of the ppp so the clip faces the front. Now vertically place an aqua 1x2 plate to the right of the ppp. Now repeat everything symmetrically to the right.
7. Horizontally place a transparent aqua 1x2 brick on the back left corner, to the right of the 1x2 slope tile. Then repeat symmetrically to the right.
8. Place a white 1x1 brick with a clip on the 2nd row from the front, and 2nd column from the left so the clip faces the front. Then repeat symmetrically to the right.
9. Place a white 1x1 brick with a clip on the 2nd row from the back, on the 3rd column from the left so the clip faces the right. Then repeat symmetrically to the right.
10. Place a transparent 2x2 brick on the back 2 rows on the 2nd and 3rd columns from the left. Then repeat symmetrically to the right.
11. Place a white 2x2x3 slope brick on the back 2 rows on the 2nd and 3rd columns from the left so it slopes to the left. Then repeat symmetrically to the right.
12. Horizontally place a light blue 2x6x6 door frame with curved sides on the 3rd and 4th rows from the front so it is centered horizontally and the narrower side faces the front.
13. Horizontally place a light blue 4x8 plate on the back 4 rows so it is centered horizontally.
- 14.1. Horizontally attach the bar of a transparent aqua 2x6 curved windshield with a sticker to the 2 leftmost front-facing clips so it curves to the right. Then repeat symmetrically to the right.

14.2. Skip this step if you have already placed your stickers! Ask a helper to place sticker 2 on the transparent aqua 2x6 curved windshield. This sticker has diamond etchings on it with stars. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

15. Place a transparent aqua 1x1 cone brick on the front left corner. Then repeat symmetrically to the right.

16. Insert a transparent aqua 4L bar into each of the 2 ppp.

17. Rotate your build 180 degrees. Now attach a transparent aqua 4L bar to the right-facing clip that is on the left side so it is centered vertically. Then place a white 1x1 round plate on top of the ppp. Now place a transparent aqua 1x1 hexagon tile on top of the ppp. Now repeat everything symmetrically to the right.

18. Vertically place a transparent aqua 1x2 brick on the front left corner on top of the 4x8 plate.

19.1. Let's make a part! Horizontally place a white 2x3x2 cabinet in front of you so the opening faces the front. Now attach a transparent aqua cabinet door to the front so it opens to the left. Now place a gold crown inside then close it!

19.2. Horizontally place your part on the front 2 rows, on top of the 4x8 plate, to the right of the 1x2 brick so it opens to the front.

20.1 Let's make a part! Horizontally place a white 2x3x2 cabinet in front of you so the opening faces the front. Now attach a transparent aqua cabinet door to the front so it opens to the right. Now place a silver 1x1 wine glass inside.

20.2. Horizontally place your part on the front 2 rows, on top of the 4x8 plate, to the right of the ppp so it opens to the front.

21. Vertically place a transparent aqua 1x2 brick on the front 2 rows, to the right of the ppp.

22. Rotate your build 180 degrees. Now horizontally place a transparent aqua 1x2 brick on the 3rd row from the back on the 2 leftmost columns of studs. Then repeat symmetrically to the right.

23. Horizontally place 2 light purple 1x4 plates, 1 to the right of the other, on the 4th row from the back so together they are centered horizontally.

24. Vertically place a transparent aqua 1x2 brick on the back left corner. Then horizontally place another 1 in front of the ppp so there is no overhang. Then repeat both parts symmetrically to the right.

#### Group 26 - Ice Palace

25. Horizontally place 2 white 1x4 bricks with 4 side studs, 1 to the right of the other, on the 4th row from the front so together they are centered horizontally and the side studs face the front.

26. Horizontally place a light blue 1x2 plate with a clip on the short side on the 2 leftmost columns of studs on the 4th row from the front so the clip faces the left. Then repeat symmetrically to the right.

27. Horizontally place an aqua 1x2 plate on top of each of the 2 ppp.

28. Place a transparent 2x2 brick on the back 2 rows so it is centered horizontally. Then horizontally place a tan 1x2x2 brick with 2x2 side studs on the 4th row from the back so it is centered horizontally and the side studs face the front.

29. Vertically stack 2 transparent 2x4 bricks on the back 4 rows so they are centered horizontally.

30. Vertically place a transparent aqua 3x4x3 sloped panel to the left of the 2 ppp so it is centered vertically and slopes to the left. Then repeat symmetrically to the right.

31. Horizontally place a white 2x6 plate with a round side on the back 2 rows so it is centered horizontally and the round side faces the back. Now horizontally place another 1 in front so the round side faces the front.

32. Horizontally place a light blue 2x2 triangle tile upright on the bottom 2 rows of front-facing side studs on the 3rd and 4th columns from the left so the right angle faces the bottom right. Then repeat symmetrically to the right.

33. Horizontally place an aqua 6x8 sloped angled brick upright on the front-facing side studs so it is centered horizontally, 1 row hangs down and the tip faces up.

34. Attach the bottom of a transparent aqua 4L bar to the left-facing clip. Then repeat symmetrically to the right.

35. Place a white 2x2 round brick on the 2nd and 3rd rows from the back so it is centered horizontally.

36. Stack 3 transparent aqua 4x4 round plates with a 2x2 gap around the ppp.

37. Place 2 transparent aqua 2x2x2 corner slope bricks, 1 to the right of the other, on the back 2 rows of the 2 ppp so they slope outwards to the back left and back right.

38. Horizontally place 2 transparent aqua 2x2x2 corner slope bricks, 1 to the right of the other, in front of the ppp so they slope outwards to the front left and front right.

39. Place a transparent aqua 2x2 dome brick on top of the ppp so there is no overhang.

40. Place a transparent aqua 1x1 cone brick on top of the ppp.

41. Horizontally place a transparent aqua 1x1 round plate with 6 bars all around on top. This is a snowflake!

42. Place a transparent cone brick on the top-facing bar of the snowflake so the anti-stud faces up. Then place a white 1x1 round plate on top of the ppp.

43. Place a transparent aqua 4L bar on top of the ppp.

44-46. Bring back your main build and horizontally place it in front of you so the curved side faces the front. Now horizontally place your current build on top so it is centered horizontally and overhangs to the front. It should sit in front of the top-facing 4L bar that is in the back row!

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at [info@bricksfortheblind.org](mailto:info@bricksfortheblind.org) and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets, there are no ads.
