

77056 Blathers's Museum Collection

Adapted by John Le and tested by Natalie Charbonneau.

This LEGO® building toy recreates the museum from the Animal Crossing video game series. Kids can customize the different exhibition areas with their finds. They can use a spade to unearth the missing Triceratops tailbone, catch fish for the aquarium and capture butterflies and creepy-crawlies with a net. Adjustable hinged walls and rearrangeable elements make the set reconfigurable for extra play possibilities. The set also includes a fountain and the Roost café, where kids can chill out with the Blathers and Lily minifigures before embarking on their next adventure exploring the natural world.

Animal Crossing™ model kit – The Blathers's Museum Collection is a building set for kids who play Animal Crossing and girls and boys aged 7 plus who enjoy animals and nature.

Toy with LEGO® animal minifigures – The set comes with minifigures of the owl Blathers and the frog Lily from the Animal Crossing™ video game series.

Animals and nature toy – Kids can use a spade to unearth the missing Triceratops tailbone, catch fish for the aquarium and capture butterflies and creepy-crawlies with a net.

Customizable playset – Hinged walls allow the museum to be configured in different ways, such as completely enclosed, or fully open for maximum accessibility.

Animal Crossing™ gift – Treat children who enjoy creative play to a gaming character playset that puts Animal Crossing into kids' hands.

543-piece set – When opened with the fountain outside, the museum model measures over 4 in. (11 cm) high, 10 in. (25 cm) wide and 6.5 in. (17 cm) deep.

The front of the box shows Blathers's Museum in the back! In the front, there is a triceratops display, a fountain, and a fishing area!

The back of the box shows the interior of the museum! It has a fishtank, fountain, coffee machine, crystals, and a display of a snail and scorpion!

The top of the box shows a real size image of Blathers the Owl!

The build is 543 pieces in total and is for ages 7+.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.

- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

A note on LEGO Technic™ part names. These parts are somewhat different from regular LEGO bricks. Here are some definitions in case the builder or helper is not familiar with LEGO Technic™.

Axles - An axle is a connector which has an X shaped cross-section. Because their cross section is not round, anything connected to an axle using an axle-hole will rotate with that axle. Axles are longer than they are wide, and the length of an axle corresponds with how many bricks long it is. Aka a 3L axle is three bricks long. Axles come in a variety of lengths, with a 2L axle being the shortest available. They may be combined with pins, or have circular stops on them. A stop prevents the axle from sliding through an axle-hole at a specific point on the axle.

Pins - A pin is a connector which has a circular cross section and a flanged notch out of one or both ends. This flanged notch allows them to click into bricks with a pin-hole. Pins come with and without friction ridges, which are small bumps on the pin which prevent them from rotating freely. For standard pins, black is a high friction pin, and gray is a low friction pin. A standard length pin is two brick lengths long, with a stop in the middle. This prevents a brick from being pushed from one side of the pin to the other. A 1L pin is one brick long and still retains the stop, however it also includes a hollow stud at the other end. A 3L pin is three bricks long, and only contains a stop at one side, allowing two bricks to be pushed onto the other side of the pin. Pins may also have one side which is an axle.

Technic brick - a brick which contains one or more holes which accept technic pins.

Lift-arms - A lift-arm is a basic structural element, similar to a brick or a plate, but usually without any studs. It is a beam with rounded ends and with holes in it, with the same spacing as the studs on a LEGO brick. lift-arms come in a variety of lengths, including a 1x1 lift-arm which looks like a cylinder. Thick lift-arms are as wide as a LEGO brick, and thin lift-arms are half as wide as a LEGO brick, but not the same thickness as a LEGO plate! The holes in a lift-arm arm may accept axles or pins. They also come in a variety of shapes, including tees, ells and triangles.

Gears - A gear is a functional element. They are typically discs with teeth on the outside, there are also worm gears which look like a spiraling cylinder! Gears connected by axles transmit or even transform rotational motion!

Axle and Pin Connectors - These elements are typically smaller than lift-arms and are used to connect some combination of pins or axles. They might have pins or axles, as well as axle or pin-holes. They have a lot of different angle combinations! The simplest just connects two axles or pins together in a straight line.

Bushes/Bushings - LEGO Technic™ uses bushes largely as spacers, but they also can reduce friction between rotating parts, or can form useful elements such as handles. Bushes are typically light gray, generally cylindrical, and have an axle-hole running through the middle. They have a flange at the front and back to make them easier to pull on and off.

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/77056>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 8 bags labeled 1 to 8, 1 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Lily the Frog and Fishing Area

Group 1 - Page 5.

Group 2 - Steps 1-16.

Group 3 - Steps 17-25.

Group 4 - Steps 26-46.

Group 5 - Steps 47-50.

Bag 2 - Triceratops Display

Group 6 - Steps 51-61.

Group 7 - Steps 62-74.

Bag 3 - Triceratops Display

Group 8 - Steps 75-82 and 4 white 1x1 round plates from Steps 83-84.

Group 9 - Rest of Steps 83-84 and 2 green 1x1 round flower plates and 2 green plants with 3 stems from Step 85.

Group 10 - 6 light orange 1x1 round flower plates from Step 85.

Group 11 - 6 orange 1x1 round flower plates from Step 85.

Bag 4 - Museum

Group 12 - Steps 86-100.

Group 13 - Steps 101-112.

Bag 5 - Blathers the Owl and Museum

Group 14 - Page 77.

Group 15 - Steps 113-115.

Group 16 - Steps 116-119 and 1 sand blue 1x1 plate from Step 120.

Group 17 - Rest of Step 120 and Steps 121-126.

Group 18 - Steps 127-131.

Bag 6 - Museum

Group 19 - Steps 132-137.

Group 20 - Steps 138-148.

Group 21 - Steps 149-153.

Group 22 - Steps 154-162.

Bag 7 - Museum

Group 24 - Steps 163-171.

Group 25 - Steps 172-178.

Group 26 - Steps 179-182 and 1 lime green 1x1 plant with a swirl.

Group 27 - Rest of Step 183 and Steps 184-197.

Bag 8 - Museum

Group 28 - Steps 198-208.

Group 29 - Steps 209-218.

Group 30 - Steps 219-227.

Group 31 - Step 228 and 6 light pink 1x1 round flower plates from Step 229.

Group 32 - Rest of Step 229.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Lily the Frog

Sub-build 1. Locate 1 short teal pair of legs, 1 white torso printed with light blue and blue diamonds, and teal arms, 1 white and teal frog head printed with pink cheeks. Assemble your minifigure then put her away while we make the fishing area!

Group 2 - Fishing Area

1. Vertically place a light green 4x8 plate with a rounded side and a 2x2 gap in front of you so the round side faces the right.

2. Horizontally place a light green 2x6 plate on the front 2 rows so it overhangs 4 columns to the left. Then repeat symmetrically to the back.
3. Vertically place a light green 4x8 plate with a round side and a 2x2 gap underneath the 2 leftmost columns so it is centered vertically and the round side is exposed 2 columns to the left.
4. Horizontally place a brown 4x6 plate on top so it is centered horizontally and vertically.
5. Horizontally place a tan 2x6 brick on the back 2 rows so it is centered horizontally.
6. Place a tan 1x2 curved brick on the back left corner so the curve faces the back left. Then repeat symmetrically to the right.
7. Place a tan 2x2 brick on the 2 leftmost columns on the 3rd and 4th rows from the back. Now vertically place a tan 1x2 brick on the rightmost column on the 3rd and 4th rows from the back.
8. Horizontally place a brown 2x4 slope brick to the left of the ppp so it slopes to the left.
9. Vertically place a light green 1x2 tile on the rightmost column on the 3rd and 4th rows from the back.
10. Vertically place a dark tan 1x2 plate with a rail on the long side to the left of the ppp so the rail faces the left. Then repeat symmetrically to the left.
11. Place a tan 1x2 curved brick on the 2 leftmost columns, on the 3rd and 4th rows from the front so the curve faces the front left. Then repeat symmetrically to the right.
12. Horizontally place a tan 2x6 brick in between the 2 ppp so it is centered horizontally.
13. Vertically place a light green 4x6 plate with a round side and a 2x2 gap on the back left corner so the round side faces the left. Then repeat symmetrically to the right.
14. Horizontally place a light green 1x2 tile on the back row so it is centered horizontally. Then horizontally place another 1 in front of the ppp. Now horizontally place another 1 on the 3rd row from the front so it is centered horizontally. Then horizontally place another 1 behind the ppp so it is centered horizontally.
15. Horizontally place a light green 2x6 plate on the back 2 rows so it is centered horizontally. Then horizontally place another 1 on the 3rd and 4th rows from the front so it is centered horizontally.
16. Horizontally place a white 6L tusk in the gap that is on the 3rd and 4th rows from the back and centered horizontally. It should not attach to any studs!

Group 3 - Fishing Area

- 17.1. Let's make a part! Horizontally place a light green 2x6 plate in front of you. Then place a green 2x2 round tile printed with a black and red star on top so it is centered horizontally.

17.2. Place a dark green 1x1 round plate with 3 leaves on the back left corner so the leaves face the front right. Then place a light purple 1x1 round flower plate on top of the ppp. Now place a purple 1x1 round tile printed with a snail on the front row on the 2nd column from the right.

17.3. Horizontally place your part on the 3rd and 4th rows from the back so it is centered horizontally. It should just sit on 2 rails.

18. Place a dark green 1x1 round plate with 3 leaves on the 3rd column from the right of the front row so the leaves face the back left. Then place a light purple 1x1 round flower plate on top of the ppp.

19. Let's make a part! Place a red 2x2 brick in front of you.

20. Place a red 1x1 plate with a clip on the front left corner so the clip faces the left and the clip hands face the front and back. Then repeat symmetrically to the back. Now repeat both parts symmetrically to the right.

21. Place a red 2x2 tile with a stud on top.

22. Attach the handle of a light brown net to the back left-facing clip so the opening faces the front. Then attach the handle of a black fishing rod to the back right-facing clip so the double sided stud is on the right and faces the front and back.

23. Attach a dark grey shovel to the front left-facing clip so the shovel head is on top. Then attach a black magnifying glass to the front right-facing clip so the round part is on top and horizontal.

24. Horizontally place your part on the back 2 rows on the 2nd and 3rd columns from the right so the fishing rod is on the right.

25. Place a light nougat 1x1 snail body on the 3rd row from the front of the 2nd column from the right so the eyes face the front left. Then place a nougat 1x1 swirl on top of the ppp. This is a snail! Now put your build away while we make the next part!

Group 4 - Orange Tree

26. Horizontally place a lime green 2x4 plate in front of you.

27. Place a light green 6x6 rounded plate on the 2 leftmost columns so it is centered vertically.

28. Place a brown 2x2 round brick with roots on the 2nd and 3rd columns from the left of the 2nd and 3rd rows from the back.

29-30. Stack 2 brown 2x2 round bricks on top of the ppp.

31-32. Let's make a part! Horizontally place a green 2x4 plate in front of you. Place a green 2x2 inverted sloped curved tile on the leftmost column so it slopes and is exposed to the left. Then repeat symmetrically to the right.

33. Place a green 2x2 plate on top so it is centered horizontally.

34. Horizontally place a green 2x4 plate on top so it is centered horizontally.
35. Vertically place a green 1x2 sloped curved brick on the leftmost column so it slopes to the left. Then repeat symmetrically to the right.
36. Horizontally place 2 green 1x2 panels, 1 to the right of the other, on the back row so the walls face the back.
37. Place a green 1x1 brick with a side stud on the leftmost stud so the side stud faces the front. Then repeat symmetrically to the right.
38. Horizontally place a green 1x2 panel on the front row so it is centered horizontally and the wall faces the front.
39. Horizontally place a green 2x4 plate on top so it is centered horizontally and vertically.
40. Vertically place a green 1x2 sloped curved brick on the leftmost column of studs so it slopes to the left. Then repeat symmetrically to the right.
41. Horizontally place a green 1x2 brick on the back row so it is centered horizontally.
42. Horizontally place a green 1x2 brick with a side stud on the front row so it is centered horizontally and the side stud faces the front.
43. Place 3 orange 1x1 balls upright on the 3 front-facing side studs.
44. This is the tree leaves with oranges! Horizontally place your part on the stack of 2x2 round bricks that is in the back left corner so it is centered horizontally on it and the oranges face the front.
45. Place a black butterfly on the back left stud of your previous part.
46. Bring back your main build and orient it so it is horizontal and the fishing rod is in the back right corner. Now horizontally place the 2 rightmost columns of your part underneath the 2 leftmost columns of the main build so it is centered vertically.

Group 5 - Fishing Area

47. Let's make a part! Let's make the pond! Horizontally place a lime green 2x4 plate in front of you.
48. Place a light blue 6x6 rounded plate on top of the 2 rightmost columns so it is centered vertically.
49. Place a white 1x1 quarter circle tile on the 2nd row from the front of the 2nd column from the right so the right angle faces left. Then place another 1 on the 2nd column from the left of the 2nd row from the back so the right angle faces left. Now place an orange fish on top of the 6x6 rounded plate!
50. Rotate your part so it is vertical and the exposed 2x2 studs of the 2x4 plate face the back. Now vertically place the back 2 rows of your part underneath the front 2 rows of the 3rd and 4th columns from the left so the 6x6 rounded plate is aligned with the one in the back. Now put your build away while we make the next one!

Building Instructions (Bag 2, Book 1):

Group 6 - Triceratops Display

51. Let's make the triceratops display! Horizontally place a lime green 2x4 plate in front of you.

52-53. Place a light green 8x8 rounded plate on the 2 rightmost columns so it is centered vertically and 6 columns overhang to the right. Then repeat symmetrically to the left.

54. Horizontally place a black 1x6 brick on the 2nd row from the back so it is centered horizontally. Then repeat symmetrically to the front.

55. Place the back row of a black 2x2 corner brick with a cutoff corner to the left of the back 1x6 brick from the previous step so the cutoff corner faces the back left. Then repeat symmetrically to the right. Now repeat both parts symmetrically to the front.

56. Horizontally place a black 2x4 brick on the 4th to 7th columns from the left so it is centered vertically. Then repeat symmetrically to the right.

57. Place a brown 2x2 plate on the 4th and 5th columns from the right so it is centered vertically. Then place a brown 2x2 plate with a cutoff corner in front of the ppp so the cutoff corner faces the front right. Then repeat symmetrically to the back.

58. Place a brown 6x6 plate to the left of the 3 ppp so it is centered vertically.

59. Place a brown 2x2 plate to the left of the ppp so it is centered vertically. Then place a brown 2x2 plate with a cutoff corner in front of the ppp so the cutoff corner faces the front left. Then repeat symmetrically to the back.

60. Horizontally place a black 1x2 tile printed with an illegible description of the triceratops on the front row, on the 4th and 5th columns from the left.

61. Vertically place a transparent 1x2x2 panel on the 6th column from the left so it is centered vertically and the wall faces the left. Then repeat symmetrically to the right.

Group 7 - Triceratops Display

62. Let's make a part! Horizontally place a black 2x6 plate in front of you. Then place a transparent 2x2 brick on top so it is centered horizontally.

63. Place a brown 2x2 plate on top of the ppp.

64. Horizontally place a white 1x2 plate with 2 side studs hanging down on the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back.

65. Place 2 white 1x1 plates with a horizontal tooth, 1 to the right of the other, upright on the 2 front-facing side studs so the teeth face down. Then repeat symmetrically to the back.

66.1. Let's make 2 identical parts! Place a white 2x2 round brick with 2 pinholes in front of you so the pinholes face the front and back. Now insert a dark grey 1L pin with a stud into the front-facing pinhole so the stud faces the front. Then insert a dark grey 2L bar with a stop into the front-facing side stud. Now repeat both parts symmetrically to the back.

66.2. Now you should have 2 identical parts! Place 1 part on the 2 leftmost columns so the bars face the front and back. Then repeat symmetrically to the right.

67.1. Let's make 2 identical parts! Vertically place a white 2x4 plate with higher ends in front of you. Then vertically place a blue 1x2 plate on the right column so it is centered vertically. Now vertically place a white 1x2 plate with a clip on the long side on the left column so it is centered vertically and the clip faces the left.

67.2. Now you should have 2 identical parts! Vertically place 1 part on the 2 leftmost columns so it is centered vertically and the clip faces the left. Then repeat symmetrically to the right.

Group 8 - Triceratops Display

68. Horizontally place a white 2x6 plate on top so it is centered horizontally and vertically.

69. Vertically place 6 white 1x2 jumper plates, 1 to the right of the other, on top of the ppp.

70. Place 2 white 1x1 slope tiles, 1 to the right of the other, on the front left corner so they slope to the front. Then repeat symmetrically to the right. Now repeat both parts symmetrically to the back.

71.1. Let's make a part! Horizontally place a white 1x4 plate in front of you. Then horizontally place a white 1x2 tile with 2 vertical teeth on the 2 leftmost columns so the higher tooth is on the right. Then repeat symmetrically to the right.

71.2. Horizontally place your part on top so it is centered horizontally and vertically and the teeth point up.

72. Place a white 1x1 slope tile to the left of the previous part so it is centered vertically and slopes to the left. Then repeat symmetrically to the right.

73. Attach the handle of a white bar holder with a handle to the right-facing clip so the bar hole faces the bottom right.

74. Horizontally place your part on top of your main build so it sits on the 2 1x2x2 panels and it is centered horizontally and vertically. This is the body of the triceratops!

Building Instructions (Bag 3, Book 1):

Group 9 - Triceratops Display

75. Let's make a part! Vertically place a white 1x2 plate with a hinge on the long side in front of you so the hinge faces the left. Then place a white 1x2 plate with a 1x2 inverted sloped curved brick on top so it slopes and overhangs to the right.

76. Place a white 1x1 brick with 2 side studs on the front left corner so the side studs face the front and left. Then repeat symmetrically to the back.

77. Place a short white 1x1 brick on the front right corner. Then repeat symmetrically to the back.

78. Place a white 1x1 round plate upright on the front left-facing side stud. Then attach a white fang to the ppp so it slopes down and to the left. Then repeat both parts symmetrically to the back.

79. Place a white 2x2 plate with an inverted clam shell on top so it is centered and the clam shell faces the left.

80. Place a white 2x2 tile with 2 studs on top so the studs are on the right.

81. Vertically place a white 1x2 plate with a horizontal bar on the long side on top of the ppp so the bar faces the left.

82. Attach the bar of the ppp to the left-facing clip of the main build so it is centered vertically and the clam shell faces up. This is the triceratop's head!

You will have 4 extra white 1x1 round plates with a hollow stud. Save them for later!

Group 10 - Triceratops Display

83. Let's make 4 identical parts! Let's make the legs! Place a white 1x1 round plate with a hollow stud in front of you. Then place a light grey 1x1 round plate on top of the ppp. Now place a white 1x1 round tile with an upright bar on top. Then place a white mechanical arm on top so the clip is on top and faces the right.

84. Now you should have 4 identical parts! Attach the clip of 1 part to the front right front-facing bar so the part is on the right and hangs down. Then repeat symmetrically to the left. Now repeat both parts symmetrically to the back.

85.1. Let's make 2 identical parts! Place a green 1x1 round flower plate in front of you. Then place a green plant with 3 stems on top.

Group 11 - Triceratops Display

85.2. Attach a light orange 1x1 round flower plate to each of the 3 stems.

Group 12 - Triceratops Display

85.3. Attach a dark orange 1x1 round flower plate to each of the 3 stems. Now you should have 2 identical parts!

85.4. Place 1 part on the back stud of the leftmost column. Then place another 1 on the front stud of the rightmost column. Now put your display away while we make the museum!

Building Instructions (Bag 4, Book 1):

86. Horizontally place a light green 4x8 plate with a round side and a 2x2 gap in front of you so the round side faces the back. Then horizontally place a light grey 1x4 plate on the 2nd row from the front so it is centered horizontally.

87. Place a black 4x4 plate on the front left corner so 2 columns overhang to the left and 2 rows overhang to the front. Then repeat symmetrically to the right.

88. Horizontally place a light green 3x4 plate with a round side underneath the back 2 rows of the 2 leftmost columns so the round side is exposed 1 row to the back and 2 columns are exposed to the left. Then repeat symmetrically to the right.

89. Horizontally place a light green 1x2 plate on the 2nd row from the front of the 2 leftmost columns. Then repeat symmetrically to the right.

90. Place a light grey 2x2 plate on the front row of the 2 leftmost columns so 1 row overhangs to the front. Then repeat symmetrically to the right. Now horizontally place a lime green 2x4 plate on the front row so it is centered horizontally and overhangs 1 row to the front. It should sit on 2 studs and in between the 2 4x4 plates!

91. Horizontally place the 2 leftmost columns of a green 1x8 plate underneath the front row of the 2 leftmost columns. Then repeat symmetrically to the right.

92. Rotate your build 180 degrees so the round side faces the front. Now horizontally place the front row of a light grey 8x16 plate with 1x4 gaps underneath the back row of the main build so it is centered horizontally.

93. Horizontally place a light grey 1x4 plate on the back row on the 3rd to 6th columns from the left so it sits in the 1x4 gap. Then repeat symmetrically to the right. Now vertically place 1 on the leftmost column on the 3rd to 6th rows from the back so it sits in the 1x4 gap. Then repeat symmetrically to the right.

94. Vertically place a black 1x4 hinge plate on the back left corner so 2 rows overhang to the back and the round hinge parts face the left. Then repeat symmetrically to the right.

95. Vertically place a black 1x5 plate on the rightmost column, in front of the ppp. Then repeat symmetrically to the left.

96. Horizontally place a light grey 1x4 brick on the 4 leftmost columns, in front of the ppp. Then repeat symmetrically to the right.

97. Horizontally place the back row of a light grey 2x8 brick in between the 2 ppp.

98. Horizontally place a green 1x8 plate in front of the ppp so it is centered horizontally.

99. Place a light grey 2x2 brick on the 3rd and 4th columns from the left of the 3rd and 4th rows from the front. Then repeat symmetrically to the right. Now horizontally place 2 light grey 2x6 plates, 1 to the right of the other, in front of the 2 ppp so together they are centered horizontally.

100. Horizontally place a light grey 2x6 plate on the 3rd and 4th rows from the front so it is centered horizontally. Then place a light grey 2x2 corner plate to the left of the ppp so it looks like the braille letter j. Then repeat symmetrically to the right.

Group 14 - Museum

101. Place a tan 1x1 brick on the leftmost column of the 5th row from the front. Then horizontally place a tan 1x4 brick to the right of the ppp. Then repeat both parts symmetrically to the right.

102. Horizontally place a tan 1x4 brick on the 4 leftmost columns of the 5th row from the front. Then place a tan 1x1 brick to the right of the ppp. Then repeat both parts symmetrically to the right.

103. Place a tan 1x1 brick on the leftmost column of the 5th row from the front. Then horizontally place a tan 1x4 brick to the right of the ppp. Then repeat both parts symmetrically to the right.

104. Horizontally place a tan 1x4 brick on the 4 leftmost columns of the 5th row from the front. Then place a tan 1x1 brick to the right of the ppp. Then repeat both parts symmetrically to the right.

105. Place 2 tan 1x1 bricks, 1 to the right of the other, on the 2 leftmost columns of the 5th row from the front. Then horizontally place a tan 1x2 brick with 2 side studs to the right of the ppp so the side studs face the back. Then place a tan 1x1 brick to the right of the ppp. Now repeat everything symmetrically to the right.

106. Horizontally place a tan 1x4 brick on the 2nd to 5th columns from the left of the 5th row from the front. Then repeat symmetrically to the right.

107. Stack 6 white 2x2 round ridged bricks on the 3rd and 4th columns from the left of the 3rd and 4th rows from the front. Then repeat symmetrically to the right.

108.1. Let's make a part! Horizontally place a brown 1x6x6 door frame in front of you so the ridged side faces the front. Now vertically attach a brown door to the left front-facing side. Then repeat symmetrically to the right. Now place 2 tan 1x1 round tiles upright on the 2 front-facing side studs. Then repeat symmetrically to the back.

108.2. Horizontally place your part on the 8th row from the back, in between the tall left and right walls, so it is centered horizontally and the doors open to the back.

109. Rotate your main build 180 degrees so the doors open to the front. Now place a white 2x2 tile printed with a red outline and a green ghost with a red mug upright on the 2 leftmost front-facing side studs so 1 row overhangs to the bottom. Then vertically place a white 2x3 tile printed with a light blue background with green lilypads and pink flowers upright on the 2 rightmost front-facing side studs so 2 rows overhang to the bottom.

110. Place a black 1x1x5 brick on the leftmost column of the 7th row from the front so it sits in front of the tall walls.. Then repeat symmetrically to the right.

111. Vertically place a transparent 1x5x6 panel on the rightmost column, in front of the ppp so the wall faces the right. Then repeat symmetrically to the left.

112. Vertically place a black 1x5 plate on the leftmost column of the 3rd to 7th rows from the front. There should be 2 free studs on the 1x5x6 panel, in front of this piece. Then repeat symmetrically to the right.

Building Instructions (Bag 5, Book 1):

Group 15 - Blathers the Owl

Sub-build 2. Locate a short brown pair of legs printed with yellow toes, 1 brown torso printed with black hands, a white and light brown diamond pattern, and a teal bowtie, 1 brown and yellow owl head printed with eyes, pink cheeks, and a beak. Assemble your minifigure then put him away while we continue building the museum!

Group 16 - Museum

113. Horizontally place a light grey 1x6 brick on the 7th row from the front so it is centered horizontally.

114. Horizontally place a light grey 2x4 plate in front of the ppp so it is centered horizontally. Then horizontally place a light grey 1x4 plate on the back row of the ppp so it is centered horizontally.

115. Let's make a part! Vertically place a brown 2x3 brick in front of you. Then horizontally place a black 1x2 jumper plate on the front row.

Group 17 - Museum

116. Horizontally place a nougat 2x4 plate on the back 2 rows so 2 columns overhang to the right.

117. Place a brown 2x2 brick underneath the 2 rightmost columns.

118. Place a black 2x2 round tile with a stud on the back left corner.

119.1. Let's make another part! Place a red 1x1 brick in front of you. Then place a red 1x1 brick with a side stud and bottom lip on top of the ppp so the side stud faces the front.

119.2. Place a red 1x1 brick with a side stud and bottom lip upright on the front-facing side stud so the side stud faces down.

119.3. Place a transparent black 1x1 cone brick on top of the top-facing anti-stud. Then place a brown 1x1 round plate on top of the anti-stud of the ppp.

119.4. Place your part on the 2x2 round tile with a stud that is in the back left corner so the upright side stud faces the front. This is a coffee machine!

120.1. Place a sand blue 1x1 plate on the back row on the 2nd column from the right.

Group 18 - Museum

120.2. Place a dark tan 1x1 plate on top of the ppp. Then place a sand blue 1x1 double slope tile on top of the ppp so it slopes to the front and back.

121. Place a white 1x1 coffee cup on the 1x2 jumper plate that is on the front left corner so the handle faces the front. Then place another 1 on the front right corner so the handle faces the front.

122. This is a coffee dispenser! Horizontally place your part on the 5th to 7th rows from the front, to the right of the 1x6x5 panel that is on the front left corner so the handles of the coffee cups face the front.

123. Place a teal 1x1 brick on the 3rd column from the left of the front row. Then place a brown 1x1 round plate with a hollow stud on top of the ppp. Now place a green stem with 3 leaves on top of the ppp.

124.1. Let's make a part! Place a black 2x2 round brick in front of you. Then place a black 2x2 round tile with a stud on top of the ppp. Now place a transparent red crystal on top of the ppp.

124.2. Place your part on the 3rd and 4th columns from the right of the 5th and 6th rows from the front.

125.1. Let's make a part! Place a black 2x2 round brick in front of you. Then place a black 2x2 round tile with a stud on top of the ppp. Now place a white 1x2 tile with 2 vertical teeth on top so it is diagonal and the taller tooth is in the front right.

125.2. Place your part in front of the previous part so there is a 1 row gap in between them.

126. Vertically place a black 1x2 tile printed with an illegible description to the left of the previous part. Then vertically place another 1 behind the ppp so there is a 1 row gap in between them.

Group 19 - Museum

127. Let's make 2 identical parts! Horizontally place a light green 4x8 plate with a round side and a 2x2 gap in front of you so the round side faces the back. Then horizontally place a light grey 1x8 plate on the 2nd row from the front.

128. Horizontally place a light grey 1x2 plate on the front left corner. Then repeat symmetrically to the right. Now horizontally place a light grey 2x4 plate in between the 2 ppp so it sits on 2 studs and overhangs 1 row to the front.

129. Place a light grey 8x8 plate with 1x4 gaps underneath the front row so it is centered horizontally and 7 rows are exposed to the front.

130. Horizontally place a light grey 1x4 plate in the gap on the front row so it is centered horizontally. Now vertically place a light grey 1x4 plate in the gap that is in the leftmost column, on the 3rd to 6th rows from the front. Then repeat symmetrically to the right.

131. Now you should have 2 identical parts! Bring back your main build and orient it so it is horizontal and the doors are in the back and open to the front. Now rotate the 1x2 overhang of the 1x4 hinge plate that is on the front left corner to the left so it overhangs 1 column to the left, and the round hinge part faces the front. Now vertically place the front right corner of 1 part underneath the front left corner so the round side faces the back. Then repeat symmetrically to the right.

Building Instructions (Bag 6, Book 1):

Group 20 - Museum

132. Vertically place a black 1x5 plate on the 3rd to 7th rows from the front of the 8th column from the left. Then vertically place a tan 1x3 plate to the left of the back 3 rows of the ppp.

133. Place a light grey 2x2 brick on the 2 leftmost columns on the 4th and 5th rows from the back. Then horizontally place a light grey 1x6 brick to the right of the front row of the ppp.

134. Place a light grey 4x4 tile with a ridged circle on the 4th to 7th rows from the front of the 3rd to 6th columns from the left.

135. Vertically place a tan 1x4 slope brick to the left of the ppp so it slopes to the front. Then horizontally place another 1 on the 4th to 7th columns from the left of the 3rd row from the front so it slopes to the left.

136. Vertically place a black 1x2 jumper plate on the 6th and 7th rows from the front of the leftmost column. Then vertically place a black 1x4 tile in front of the ppp. Now horizontally place a black 1x4 tile to the right of the front row of the ppp. Then horizontally place a black 1x2 jumper plate to the right of the ppp.

137. Vertically place a transparent 1x6x5 panel on the front 6 rows of the 8th column from the left so the wall faces the left. Then place a black 1x1x5 brick behind the ppp.

Group 21 - Museum

138. Horizontally place a tan 1x6x5 panel on the 3rd to 8th columns from the left of the 5th row from the back so the wall faces the back.

139. Orient a black 1x4 hinge plate so it looks like a 2x2 plate and the round hinge part faces the front, then place it on the front 2 rows of the 8th and 9th columns from the left so the round hinge part faces the front. Then vertically place a black 1x5 plate behind the left column of the ppp.

140. Vertically place 2 tan 1x6 plates, 1 to the right of the other, on the front 6 rows of the 8th and 9th columns from the left. Then place 2 tan 1x1 plates, 1 to the right of the other, behind the 2 ppp.

141.1. Let's make a part! Stack 6 white 2x2 bricks on top of each other.

141.2. Place your part on the 2 leftmost columns on the 4th and 5th rows from the back.

142. Horizontally place a tan 1x2 brick to the right of the front row of the previous part.

143.1. Let's make a part! Horizontally stack 2 tan 1x3 plates in front of you. Then place a tan 1x1 plate on top so it is centered horizontally. Now place a tan 1x1 plate with a clip to the left of the ppp so the clip faces the back. Then repeat symmetrically to the right.

143.2. Horizontally place your part to the right of the previous 1x2 brick so the clips face the back.

144. Vertically place the back row of 2 tan 1x8 bricks, 1 to the right of the other, to the right of the previous part.

145. Horizontally place a white 1x2 tile on the 4th row from the back of the 2 leftmost columns. Then horizontally place a white 1x6 tile on the 6 leftmost columns, in front of the ppp. Then place the back row of a white 2x2 corner tile to the right of the ppp so it looks like the braille letter d.

146. Vertically place a white 1x6 tile in front of the right column of the ppp. Then vertically place another 1 to the right of the ppp.

147. Let's work in a similar fashion on the right side of the build now! Vertically place a black 1x5 plate on the 3rd to 7th rows from the front of the 8th column from the right.

148. Vertically place a white 1x2 tile to the right of the back 2 rows of the ppp. Then horizontally place a white 2x4 tile with 2 studs to the right of the ppp. Now vertically place another white 1x2 tile to the right of the ppp.

Group 22 - Museum

149. Place a light grey 2x2 brick on the 4th and 5th rows from the back of the 2 rightmost columns. Then horizontally place a light grey 1x6 brick to the left of the front row of the ppp.

150. Place a light grey 4x4 tile with a ridged circle on the front 4 rows of the 3rd to 6th columns from the right.

151. Vertically place a transparent 1x6x5 panel on the front 6 rows of the 8th column from the right so the wall faces the right. Then place a black 1x1x5 brick behind the ppp.

152. Orient a black 1x4 hinge plate so it looks like a 2x2 plate and the round hinge part faces the front, then place it on the front 2 rows of the 8th and 9th columns from the right so the round hinge part faces the front. Then vertically place a black 1x5 plate behind the right column of the ppp.

153. Vertically place 2 tan 1x6 plates, 1 to the right of the other, on the front 6 rows of the 8th and 9th columns from the right. Then place 2 tan 1x1 plates, 1 to the right of the other, behind the 2 ppp.

Group 23 - Museum

154-155. Horizontally place a tan 1x6x5 panel on the 5th row from the back of the 3rd to 8th columns from the right so the wall faces the back.

156. Vertically place 2 tan 1x8 bricks, 1 to the right of the other, on the front 8 rows of the 8th and 9th columns from the right.

157.1. Let's make a part! Horizontally stack 2 tan 1x3 plates in front of you. Then place a tan 1x1 plate on top so it is centered horizontally. Now place a tan 1x1 plate with a clip to the left of the ppp so the clip faces the back. Then repeat symmetrically to the right.

157.2. Horizontally place your part to the right of the back row of the 2 ppp so the clips face the back.

158. Horizontally place a tan 1x2 brick to the right of the previous part.

159.1. Let's make a part! Stack 6 white 2x2 bricks and place them in front of you.

159.2. Place your part on the 4th and 5th rows from the back of the 2 rightmost columns.

160. Horizontally place a white 1x2 tile on the back row of the previous part. Then horizontally place a white 1x6 tile on the 6 rightmost columns, in front of the ppp. Now place the back row of a white 2x2 corner tile to the left of the ppp so it looks like the braille letter f.

161. Vertically place a white 1x6 tile in front of the left column of the ppp. Now vertically place another 1 to the left of the ppp.

162. Horizontally place a white 2x16 plate on the 7th and 8th rows from the front so it is centered horizontally. The rightmost column should sit behind the ppp.

Building Instructions (Bag 7, Book 1):

Group 24 - Museum

163. Let's make a part! Horizontally place a brown 2x6 plate in front of you.

164. Horizontally stack 2 dark tan 1x4 plates on the back row so they are centered horizontally.

165. Horizontally place a dark red scorpion on the 3rd column from the right of the back row so the tail faces the left. Now stack 2 brown 1x1 bricks on the back left corner. Then repeat symmetrically to the right.

166. Horizontally place a brown 1x6 arch brick on the back row so it is centered horizontally.

167. Stack 2 brown 1x1 bricks on the back left corner. Then repeat symmetrically to the right. Now place a lime green frog on the 3rd column from the right of the back row so it faces the left.

168. Horizontally place a transparent 1x6x5 panel on the front row so the wall faces the front.

169. Horizontally place a brown 2x6 plate on top. This is a display case with a frog and a scorpion!

170. Horizontally place your part on the 2nd to 7th columns from the right of the 6th and 7th rows from the front so it sits on the 2x4 tile with 2 studs and the panel faces the front.

171. Vertically place a black 1x2 tile printed with an illegible description to the right of the ppp.

172. Let's make a part! Place a white 4x4 round plate in front of you.

173. Horizontally place a white 1x2 brick with a side stud on the 2nd row from the front so it is centered horizontally and the side stud faces the front. Then repeat symmetrically to the back.

174. Attach a transparent 1x1 round plate with a bent bar to the front-facing side stud so the stud faces up and to the front. Then repeat symmetrically to the back.

175. Place 2 green 1x1 round flower plates, 1 in front of the other, on the rightmost column. Then repeat symmetrically to the left.

176. Let's make another part! Place a white 2x2 round tile with a stud in front of you. Then place a white 4L bar on top.

177. Place a white 3x3 dish upside down on the top-facing bar so it goes all the way down. Then place a transparent blue 2x2 dish upside down on the top-facing bar so it goes all the way down.

178. Place a transparent blue 1x1 cone brick on the top-facing bar so it goes all the way down and the anti-stud faces up.

179. Place a white 2x2 dish upside down on top of the ppp. Then place a transparent blue 1x1 round plate on top of the ppp.

180. Place your part on top of your previous part so it is centered.

181. Place a black and blue butterfly upright on the front-facing side stud.

182. Place your part on the 4x4 tile with a ridged circle that is on the front 4 rows of the 3rd to 6th columns from the right so the butterfly faces the front.

183.1. Place a lime green 1x1 plant with a swirl on the 4th row from the front of the 7th column from the left so the swirl faces the front.

Group 27 - Museum

183.2. Place a dark green 1x1 plant with a swirl behind the ppp so there is a 1 row gap in between them and the swirl faces the back.

184. Place a tan 4x4 round plate on the 4x4 tile with a ridged circle that is to the left of the ppp.

185. Let's make a part! Place a dark tan 2x2 round tile with a stud in front of you. Then place a magenta coral on top so the side studs face the front and 1 stud faces up.

186. Place a light grey claw upright on the bottom front-facing side stud so the claw hands face up and down. Then place another 1 upright on the top right front-facing side stud so the claw hands face up and down.

187. Place a light orange crab on the top-facing stud so the claw hands face the left. Then horizontally attach a mint blue fish to the bottom front-facing claw so the head of the fish faces the right.

188. Place your part on the 4x4 round plate that is on the 4th to 7th rows from the front of the 3rd to 6th columns from the left so it is centered on it. This is an aquarium!

189. Let's make a part! Horizontally place a transparent aqua 1x6x5 panel in front of you so the wall faces the back. Then horizontally place a black 1x3 plate on the 3 leftmost columns.

190. Place a black 3x3 L-shaped plate on the 3 rightmost columns so the rightmost column overhangs 2 rows to the back.

191. Vertically place a transparent aqua 1x6x5 panel underneath the back 2 rows of the rightmost column so the wall faces the right.

192. Vertically place a black 1x3 plate on the back 3 rows. Then place a black 1x1 plate in front of the ppp.

193. Horizontally place a black 1x6 tile on the front row. Then vertically place another 1 behind the rightmost column of the ppp.

194. Flip your part upside down so the right angle faces the back left.

195. Vertically place a black 1x3 plate on the front 3 rows. Then place a black 3x3 L-shaped plate behind the ppp so there is no overhang and the right angle faces the back left. Then place a black 1x1 plate to the right of the back row of the ppp. Now horizontally place a black 1x3 plate to the right of the ppp.

196. Flip your part over so it is right side up and the right angle faces the front left. Place your part on the 2nd to 7th rows from the front of the 6 leftmost columns so the right angle faces the front left. It should just sit on 2 studs.

197. Horizontally place a black 1x2 tile printed with an illegible description on the 6th and 7th columns from the left of the front row.

Building Instructions (Bag 8, Book 1):

Group 28 - Museum

198. Let's make a part! Horizontally place a white 2x12 plate in front of you. Then horizontally place a white 1x2 plate with a rail on the long side on the front right corner so the rail faces the front. Then repeat symmetrically to the left.

199. Horizontally place a white 1x8 plate with a rail on the long side on the front row so it is centered horizontally and the rail faces the front.

200. Horizontally place a white 2x12 plate on the back row so it is centered horizontally and overhangs 1 row to the back.

201. Horizontally place 2 white 2x6 tiles, 1 to the right of the other, on the front 2 rows.

202. Rotate the build 180 degrees. Horizontally place your part on the 4th to 6th rows from the front so it is centered horizontally and sits on the 2 stacks of 2x2 round ridged bricks and the rail side faces the front.

203. Horizontally place a tan 1x8 brick behind the previous part so it is centered horizontally. Then horizontally place a tan 1x4 slope brick to the right of the ppp so it slopes to the right. Then repeat symmetrically to the left.

204. Horizontally place a tan 1x2 brick on top of the 1x8 brick from step 203 so it is centered horizontally. Then horizontally place a brown 1x4 slope brick to the right of the ppp so it slopes to the right. Then repeat symmetrically to the left.

205.1. Let's make a part! Horizontally place a tan 1x2 brick in front of you. Then horizontally place a tan 1x2 plate with 2x2 upright side studs on top of the ppp so the side studs face the back. Now horizontally place a tan 1x2 plate on top of the ppp.

205.2. Horizontally place your part behind the 2x6 tiles that are centered horizontally on the 5th and 6th rows from the front so it is centered horizontally and the side studs face the front.

206. Vertically place 2 tan 1x2 hinge bases, 1 to the right of the other, on top of the previous part so together they are centered horizontally and the walls face inwards to the left and right.

207. Place a tan 1x1 slope tile to the left of the back row of the 2 ppp so it slopes to the left. Then repeat symmetrically to the right.

208. Place a tan 3x3 round tile printed with an owl upright on the 2x2 front-facing side studs so it is centered on it.

209. Let's make a part! Horizontally place a white 2x8 plate in front of you. Then vertically place a teal 1x2 plate with a rail on the long side on the rightmost column so the rail faces the right.

210. Horizontally place 2 teal 2x4 tiles, 1 to the right of the other, to the left of the ppp so they overhang 1 column to the left.

211. Flip your part upside down so it is horizontal and the rail faces the right. Now vertically place a white 1x2 plate with a bar underneath on the rightmost column.

212. Horizontally place a white 1x6 plate on the front row to the left of the ppp. Now horizontally place a white 1x2 inverted sloped curved tile to the left of the ppp so it slopes to the left.

213. Flip your part over so it is horizontal and the studs are on the left. Now vertically attach the leftmost bottom-facing bar to the right top-facing hinge base of the 2 hinge bases that are centered horizontally on the 7th and 8th row from the front so it slopes to the right.

214. Let's make a part! Horizontally place a white 2x8 plate in front of you. Then vertically place a teal 1x2 plate with a rail on the long side on the rightmost column so the rail faces the right.

215. Horizontally place 2 teal 2x4 tiles, 1 to the right of the other, to the left of the ppp so they overhang 1 column to the left.

216. Flip your part upside down so it is horizontal and the rail faces the right. Now vertically place a white 1x2 plate with a bar underneath on the rightmost column.

217. Horizontally place a white 1x6 plate on the back row to the left of the ppp. Now horizontally place a white 1x2 inverted sloped curved tile to the left of the ppp so it slopes to the left.

218. Flip your part over so it is horizontal and the studs are on the right. Now vertically attach the rightmost bottom-facing bar to the left top-facing hinge base of the 2 hinge bases that are centered horizontally on the 7th and 8th row from the front so it slopes to the left.

Group 30 - Museum

219. Let's make a part! Let's make a water fountain! Vertically place a lime green 2x4 plate in front of you.

220. Place a green 8x8 rounded plate on the front 2 rows so it is centered horizontally and overhangs 6 rows to the front.

221. Place a light blue 6x6 round plate on the 2nd to 7th rows from the front so it is centered horizontally.

222. Place a white 1x1 round tile with an upright bar on the 3rd row from the front of the 3rd column from the left. Then place another 1 behind the ppp so there are 2 rows in between them. Then repeat both parts symmetrically to the right.

223. Place a transparent aqua 1x1 round plate upside down on each of the 4 ppp.

224. Place a white 1x6 curved brick on the front left corner so the curve faces the front left. Then repeat symmetrically to the right. Now repeat both parts symmetrically to the back.

225.1. Let's make a part! Place a white 2x2 round ridged brick in front of you. Then place a white 2x2 round tile with a stud on top.

225.2. Place a transparent 4L bar on top so it goes all the way down and sticks out the top. Then place a white 2x2 dish upside down on top of the ppp so it goes all the way down.

225.3. Place a transparent aqua 1x1 round plate on top of the top-facing bar so the stud faces up. Then place a transparent aqua 4x4 dish on top of the ppp.

226. Place the back 2 rows of your part underneath the front 2 rows of the main build so it is centered horizontally.

227. Vertically attach a bar of a red 4x8 flag to the 2 front-facing clips that are on the 4th row from the front of the 5th to 7th columns from the left so it hangs down. Then repeat symmetrically to the right.

Group 31 - Museum

228.1. Let's make 2 identical parts! Horizontally place a transparent yellow 1x2 plate in front of you. Then place a black 1x1 clip on the left column so the clip hands face the front and back. Then repeat symmetrically to the right. Now horizontally attach the bar of a black 1x2 tile with an upright horizontal bar to the 2 clips so the sloped side faces the back and the anti-studs face up.

228.2. Now you should have 2 identical parts! Horizontally place 1 part on the front row of the 4th and 5th columns from the left so the 1x2 tile with an upright horizontal bar slopes to the back and the anti-studs of the 1x2 plate face up and to the back. Then repeat symmetrically to the right. These are lights!

You will have 6 light pink 1x1 round flower plates. Save them for later!

Group 32 - Museum

229.1. Let's make 2 identical parts! Place a dark green 1x1 round plate with an upright leaf in front of you so the leaf faces the back. Now place a green plant with 3 stems on top.

229.2. Place a pink 1x1 round flower plate from group 31 on each of the 3 stems. Now place a magenta 1x1 round flower plate on top of each of the 3 ppp.

229.3. Now you should have 2 identical parts! Place 1 part on the 2nd row from the front of the 9th column from the left so the leaf faces the back. Then repeat symmetrically to the right.

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets are advertisements for the following 6 LEGO Animal Crossing Theme kits:

77057 Creative Houses: Seasons of Fun

77056 Blathers's Museum Collection

77058 Goldie's Cozy House

77053 Stargazing with Celeste

77055 Able Sisters Clothing Shop

77054 Leif's Caravan & Garden Shop
