

## **75688 Glinda's Wedding Day**

Adapted by John Le and tested by Peter Durieux.

Open up a world of creative activities with LEGO® Wicked Glinda's Wedding Day (75688) role-play toy for kids aged 8 plus. Girls, boys and fans of Wicked merchandise build this beautiful set then play out the dramatic scene from Wicked: For Good, where Glinda prepares to marry Fiyero.

Kids pull apart the giant posable LEGO butterfly building toys to reveal the wedding scene. This fantasy gift packed with recognizable details from the movie, including the wedding cake, is a heart-shaped invitation and Glinda's bouquet from Fiyero. For authentic role play Glinda wears the gown and tiara from the movie, and has a changeable face as her day flips from delight to disaster when the included animal figures rampage through the scene.

Building toy for kids and Wicked fans – Girls, boys and fans of Wicked relive movie magic with the Glinda's Wedding Day role-play toy for kids aged 8 plus, which comes with 2 minidolls.

Feature-packed butterfly toy – Eye-catching kids' adventure toy includes 2 giant posable LEGO® butterflies that can be pulled apart to reveal a detailed wedding scene filled with engaging accessories.

Creative activities for kids – With 2 animal figures, a wedding cake toy and a Glinda minidoll with happy and surprised faces, kids enjoy hours of imaginative play recreating the fateful wedding day.

Butterfly decor piece – When the fantasy play is through, close up the toy butterflies to create an attractive display piece, perfect for brightening any bedroom.

Dimensions – This 476-piece girls' and boys' building toy measures over 4.5 in. (11 cm) high, 8 in. (20 cm) wide and 5 in. (13 cm) deep when displayed closed.

The front of the box shows Glinda's wedding day! She is standing in front of a doorway with huge yellow butterflies to the left and right!

The back of the box shows Glinda eating a piece of her wedding cake!

The top of the box shows a light brown squirrel animal figure.

The build is 476 pieces in total and is for ages 8+.

Welcome to text-based instructions from Bricks for the Blind. Before you start building, here are some terms we'll be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.

- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

A note on LEGO Technic™ part names. These parts are somewhat different from regular LEGO bricks. Here are some definitions in case the builder or helper is not familiar with LEGO Technic™.

**Axles** - An axle is a connector which has an X shaped cross-section. Because their cross section is not round, anything connected to an axle using an axle-hole will rotate with that axle. Axles are longer than they are wide, and the length of an axle corresponds with how many bricks long it is. Aka a 3L axle is three bricks long. Axles come in a variety of lengths, with a 2L axle being the shortest available. They may be combined with pins, or have circular stops on them. A stop prevents the axle from sliding through an axle-hole at a specific point on the axle.

**Pins** - A pin is a connector which has a circular cross section and a flanged notch out of one or both ends. This flanged notch allows them to click into bricks with a pin-hole. Pins come with and without friction ridges, which are small bumps on the pin which prevent them from rotating freely. For standard pins, black is a high friction pin, and gray is a low friction pin. A standard length pin is two brick lengths long, with a stop in the middle. This prevents a brick from being pushed from one side of the pin to the other. A 1L pin is one brick long and still retains the stop, however it also includes a hollow stud at the other end. A 3L pin is three bricks long, and only contains a stop at one side, allowing two bricks to be pushed onto the other side of the pin. Pins may also have one side which is an axle.

**Technic brick** - a brick which contains one or more holes which accept technic pins.

**Lift-arms** - A lift-arm is a basic structural element, similar to a brick or a plate, but usually without any studs. It is a beam with rounded ends and with holes in it, with the same spacing as the studs on a LEGO brick. lift-arms come in a variety of lengths, including a 1x1 lift-arm which looks like a cylinder. Thick lift-arms are as wide as a LEGO brick, and thin lift-arms are half as wide as a LEGO brick, but not the same thickness as a LEGO plate! The holes in a lift-arm arm may accept axles or pins. They also come in a variety of shapes, including tees, ell and triangles.

**Gears** - A gear is a functional element. They are typically discs with teeth on the outside, there are also worm gears which look like a spiraling cylinder! Gears connected by axles transmit or even transform rotational motion!

**Axle and Pin Connectors** - These elements are typically smaller than lift-arms and are used to connect some combination of pins or axles. They might have pins or axles, as well as axle or pin-holes. They have a lot of different angle combinations! The simplest just connects two axles or pins together in a straight line.

**Bushes/Bushings** - LEGO Technic™ uses bushes largely as spacers, but they also can reduce friction between rotating parts, or can form useful elements such as handles. Bushes are typically light gray, generally cylindrical, and have an axle-hole running through the middle. They have a flange at the front and back to make them easier to pull on and off.

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/75688>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

#### Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 4 bags labeled 1 to 4, 1 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

#### Bag 1 - Glinda and Wedding Scene

Group 1 - Page 5.

Group 2 - Steps 1-14.

Group 3 - Steps 15-20.

Group 4 - Steps 21-31 and 6 pink 1x1 round flower plates from Steps 32-33.

Group 5 - Rest of Steps 32-33 and Steps 34-35.

#### Bag 2 - Fiyero and Wedding Scene

Group 6 - Page 36.

Group 7 - Steps 36-43.

Group 8 - Steps 44-46.

Group 9 - Steps 47-52 and 2 green 2x2 round plates from Step 53.

Group 10 - Rest of Step 53, Steps 54-57, and 4 pink 1x1 round flower plates from Step 58.

Group 11 - Rest of Step 58 and Steps 59-62.

#### Bag 3 - Squirrel, Bear, and Wedding Scene

Group 12 - Page 70.

Group 13 - Steps 63-67, and 6 pink 1x1 round flower plates from Step 68-69.

Group 14 - Rest of Step 68-69, Steps 70-71, and 1 gold 1x1 round plate from Step 72.

Group 15 - Rest of Step 72, Step 73, and 1 pink 1x1 round flower plate from Step 74.

Group 16 - Rest of Step 74 and Steps 75-81.

Group 17 - Steps 82-89 and 2 pink 1x2 plates from Steps 90-91.

Group 18 - Rest of Steps 90-91 and Steps 92-101.

Group 19 - Step 102.

Bag 4 - Butterflies

Group 20 - Steps 103-109.

Group 21 - Steps 110-112.

Group 22 - Steps 113-122.

Group 23 - Step 123.

Group 24 - Steps 124-126.

Group 25 - Steps 127-134.

Group 26 - Steps 135-139.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Glinda

Sub-build 1. Locate 1 white dress printed with flowers, 1 tan torso printed with a white top, 1 tan head printed with eyes, eyelashes, and pink lips, 1 tan head printed with eyes, eyelashes, and pink kissing lips, 1 blonde hair, 1 transparent crown, 1 pink flower with a handle, and 1 light pink flower. Assemble your minifigure, place the crown on her head, then place the flower on top of the flower with a handle, then attach it to her hand! You can put either head on her, then put her away while we make the wedding scene!

Group 2 - Wedding Scene

1. Horizontally place a green 6x12 plate in front of you. Then horizontally place a brown 1x8 brick on the back row so it is centered horizontally.

2. Horizontally place a brown 1x4 hinge plate on the back left corner so 2 columns overhang to the left and the round hinge part faces the back. Then repeat symmetrically to the right.

3. Place a green 6x6 quarter circle plate underneath the 2 leftmost columns so it is centered vertically and the curve faces the front left. Then repeat symmetrically to the right.

4. Vertically place a tan 1x4 tile on the 6th column from the left so it is centered vertically. Then vertically place a black 1x4 plate to the right of the ppp so it is centered vertically. Now vertically place a light grey 2x4 tile to the right of the ppp so it is also centered vertically. Now repeat everything symmetrically to the right.

5. Place the rightmost column of a green 4x4 quarter circle plate on the 7th column from the left so it is centered vertically and the curve faces the front left. Then place a white 1x4 curved tile on the front left corner of the ppp so it is aligned with the curve. Now repeat both parts symmetrically to the right.
6. Horizontally place a dark grey 1x2 plate with a socket on the long side on the back row, on the 5th and 6th columns from the left so the socket faces the back. Then place a dark grey 2x2 round plate to the right of the ppp so 1 row overhangs to the back. Now repeat both parts symmetrically to the right.
7. Horizontally place a brown 1x4 hinge plate on the back row of the 5th to 8th columns from the left so the round hinge part faces the back. Then repeat symmetrically to the right.
8. Vertically place a white 1x1 heart-shaped tile on the 2nd row from the back of the 6th column from the left so the right angle faces the back right. Then vertically place the back row of a black 1x2 rounded plate to the right of the ppp. Now repeat both parts symmetrically to the right.
9. Place a white 1x1 brick on the 6th column from the left of the front row. Then repeat symmetrically to the right.
10. Vertically place 3 light grey 2x3 bricks, 1 to the right of the other, on the front row in between the 2 ppp so 2 rows overhang to the front.
11. Place 2 green 6x6 quarter circle plates, 1 to the right of the other, underneath the front 2 rows so together they are centered horizontally and the curves face the front left and front right.
12. Place a white 1x3 curved brick on the 4th to 6th rows from the front of the 7th to 9th columns from the left so the curve faces the front right and the back right stud of your piece is in front of the white 1x1 brick placed in step 9. Then repeat symmetrically to the right.
13. Place a tan 2x2 round brick behind the 2 rightmost columns of the ppp so the front row is aligned with the back row of the ppp. Then repeat symmetrically to the left.
14. Vertically place 3 green 4x6 plates, 1 to the right of the other, on the back 6 rows so together they are centered horizontally.
15. Place a teal 1x1x3 brick on the back row of the 7th column from the left. Then vertically place a green 1x2x3 inverted arch brick on the back 3 rows to the right of the ppp so it slopes to the front. Then repeat both parts symmetrically to the right.
16. Vertically place a white 1x2 brick on the back 2 rows to the left of the ppp. Then place a black 1x1 plate in front of the ppp. Now repeat both parts symmetrically to the left.
17. Place a light pink 1x1 round flower plate in front of the inverted 1x3 arch you'll find on the back left of the build. Then vertically place a white 1x3 inverted arch brick on the 3rd to 5th rows from the back, to the right of the ppp so it slopes to the front. Then repeat both parts symmetrically to the right.
18. Horizontally place 2 green 1x6x6 inverted arch bricks, 1 to the right of the other, on the back row so together they are centered horizontally and slope inwards to the left and right.
19. Horizontally place a green 1x2 tile on the back row so it is centered horizontally.

#### Group 4 - Wedding Scene

20. Vertically place a white 1x2 tile on the 2nd and 3rd rows from the back of the 9th column from the left so it sits on a 1x2 brick and 1x3 inverted arch brick. Then vertically place a white 1x2 sloped curved tile in front of the ppp so there are 2 rows in between them and it slopes to the front. Then repeat both parts symmetrically to the right.

21.1. Let's make a part! Horizontally place a black 2x6 plate in front of you. Then place a sand blue 2x2 tile with a stud on top so it is centered horizontally. Now vertically place 2 sand blue 1x2 tiles, 1 to the right of the other, on the 2 leftmost columns. Then repeat symmetrically to the right.

21.2. Horizontally place your part on the 2nd and 3rd rows from the back so it is centered horizontally.

22. Horizontally place a sand blue 1x6 tile in front of the previous part so it is centered horizontally.

23. Place 2 sand blue 2x2 tiles with a stud, 1 to the right of the other, in front of the ppp so together they are centered horizontally. Then vertically place a sand blue 1x2 tile to the left of the 2 ppp. Then repeat symmetrically to the right.

24. Horizontally place 2 sand blue 1x6 tiles, 1 in front of the other, on the 5th and 6th rows from the front so together they are centered horizontally.

25. Horizontally place a black 2x6 plate on the 3rd and 4th rows from the front so it is centered horizontally. Then horizontally place a dark grey 1x6 plate on the back row of the ppp.

26. Vertically place a black 1x2 rounded plate to the left of the 2 ppp. Then place a dark grey 1x1 round plate on the back row of the ppp. Then repeat both parts symmetrically to the right.

27. Place a black 1x1 plate on the leftmost column of the 3rd row from the front. Then repeat symmetrically to the right.

28.1. Place a dark grey 1x1 round plate on the leftmost column of the 3rd row from the front. Then horizontally place a sand blue 1x2 tile to the right of the ppp. Now horizontally place a sand blue 1x6 tile to the right of the ppp. Then place a sand blue 1x1 quarter circle tile to the right of the ppp so the curve faces the back right.

28.2. Horizontally place a sand blue 1x6 tile on the 4th row from the front so it is centered horizontally. Then place a sand blue 1x1 quarter circle tile to the left of the ppp so the curve faces the back left. Then repeat symmetrically to the right.

29. Horizontally place a green 1x4 tile with 2 studs on the front row so it is centered horizontally. Now place a sand blue 1x1 quarter circle tile on the leftmost column of the 2nd row from the front so the curve faces the front left. Then horizontally place a sand blue 1x6 tile to the right of the ppp. Now horizontally place a sand blue 1x2 tile to the right of the ppp. Then place a sand blue 1x1 quarter circle tile to the right of the ppp so the curve faces the front right.

30. Vertically place a green 1x3x2 inverted arch brick on the 2nd to 4th rows from the back of the 7th columns from the left so it slopes to the front. Then repeat symmetrically to the right.

31. Place a green 1x1 brick with a side stud on top of the ppp so the side stud faces the front. Then place a gold 1x1 round tile with an upright bar on the front-facing side stud of the ppp so the bar faces the front. Then repeat both parts symmetrically to the left.

You will have 6 pink 1x1 round flower plates. Save them for later!

#### Group 5 - Wedding Scene

32.1. Let's make 2 identical parts! Horizontally place a pink 1x2 rounded plate in front of you. Then place a pink 1x1 round flower plate from group 4 on the right column.

32.2. Place a light pink 1x1 round flower plate on the left column.

32.3. Now you should have 2 identical parts! Vertically place 1 part in front of a 1x1 round flower plate that is on the 8th column from the left so the light pink 1x1 round flower plate is in the front. Then repeat symmetrically to the right.

33.1. Let's make 2 identical parts! Place a light pink 2x2 round plate in front of you. Then place a pink 1x1 round flower plate from group 4 on the front left corner. Then place another 1 on the back right corner. Now place a light pink 1x1 round flower plate on the front right corner. Then place another 1 on the back left corner.

33.2. Now you should have 2 identical parts! Place 1 part on the 2 leftmost columns of the 5th and 6th rows from the front so 1 row overhangs to the front. Then repeat symmetrically to the right.

34. Place a light pink 1x1 round flower plate on the leftmost column of the 4th row from the front. Then repeat symmetrically to the right.

35. Place a transparent yellow 1x1 round brick on the leftmost column of the 3rd row from the front. Then place a dark grey lantern on top of the ppp so the handle is horizontal.

Building Instructions (Bag 2, Book 1):

#### Group 6 - Fiyero

Sub-build 2. Locate 1 dark green dress printed with light blue robes, 1 tan torso printed with a dark green shirt with light blue robes, 1 tan head printed with dark red eyes, 1 light pink lips, 1 white hair, and 1 pink 1x1 pink heart-shaped tile. Assemble your minifigure then attach the tile to her hand! Now put her away while we make the scene!

36.1. Let's make 2 identical parts! Horizontally place a gold 1x2 plate with a clip on the short side in front of you so the clip faces the left. Then horizontally place a green 1x2 rounded plate on top of the ppp. Now horizontally place a green 1x2 brick on top of the ppp.

36.2. Horizontally place a gold 1x2 plate with a clip on the short side on top of the ppp so the clip faces the left. Now horizontally place a green 1x2 inverted arch brick on top so it slopes to the right.

36.3. Now you should have 2 identical parts! Vertically place 1 part on the back 2 rows of the 7th column from the left so the clips face the back. Then repeat symmetrically to the right.

37. Horizontally place a green 1x5x4 half arch brick on the 8th column from the left of the back row so it arches to the right. Then repeat symmetrically to the right.

38. Horizontally place a green 1x2 brick on the 7th and 8th columns from the left of the back row. Then repeat symmetrically to the right.

39. Place a green 1x1 plate with a side stud hanging down on the right column of the ppp so the side stud faces the front. Then horizontally place a green 1x2 inverted arch brick to the left of the ppp so it slopes to the right. Now repeat both parts symmetrically to the left.

40. Place a light pink 1x1 round plate with 3 leaves upright on the leftmost front-facing side stud so the leaves face the top left. Then place a yellow butter fly upright on the ppp so the larger wings face the top left. Then repeat both parts symmetrically to the right.

41. Place a white 1x1 round rose plate on the 7th column from the left of the back row. Then place a pink 1x1 round flower plate on top of the ppp. Then repeat both parts symmetrically to the right.

42.1. Let's make a part! Horizontally place a green 1x4 plate in front of you. Then place a gold 1x1 round plate on the leftmost column. Then repeat symmetrically to the right. Now place 2 black 1x1 round bricks with a side stud, 1 to the right of the other, in between the 2 ppp so the side studs face the front.

42.2. Horizontally place your part on the back row so it is centered horizontally and the side studs face the front.

43. Horizontally place 2 green 1x4 sloped curved tiles, 1 to the right of the other, on the back row so together they are centered horizontally, and slope outwards to the left and right.

#### Group 8 - Wedding Scene

44. Place 2 gold 1x1 round plates with 3 leaves, 1 to the right of the other, upright on the 2 front-facing side studs so they are centered horizontally and the leaves face outwards to the left and right.

45.1. Let's make a part! Horizontally place a light brown 4x8 plate with a round side in front of you so the round side faces the front. Now place a gold 1x1 quarter circle tile on the leftmost column of the 2nd row from the front so the curve faces the front left. Then place another 1 to the right of the ppp so the curve faces the front right. Now repeat both parts symmetrically to the right.

45.2. Place a gold 1x1 quarter circle tile on the leftmost column of the 2nd row from the back so the curve faces the back right. Then repeat symmetrically to the right. Now horizontally place a gold 1x2 jumper plate with a round side on the 2nd row from the back so it is centered horizontally and the round side faces the back.

45.3. Place a gold 1x1 round plate on the ppp. Now vertically place a light brown 2x4 plate underneath the front 3 rows so it is centered horizontally and 1 row is exposed to the front.

45.4. Horizontally place a light grey 1x2 plate with 2 clips on the long side on the front row so the clips face the front. Then horizontally place a dark grey 3L bar to the 2 front-facing clips so it is centered horizontally. Now place a gold 2x2 round tile on the front 2 rows so it is centered horizontally.

45.5. This is 1 half of a round door! Now bring back your main build and rotate it 180 degrees. Then vertically attach the bar of your part to the 2 leftmost front-facing clips so it is centered vertically, the 4x8 plate with a round side is on the right, and the anti-studs face the front.

46.1. Let's make a part! Horizontally place a light brown 4x8 plate with a round side in front of you so the round side faces the back. Then place a gold 1x1 quarter circle tile on the leftmost column of the 2nd row from the back so the curve faces the back left. Then place another 1 to the right of the ppp so the curve faces the back right. Then repeat both parts symmetrically to the right.

46.2. Place a gold 1x1 quarter circle tile on the leftmost column of the 2nd row from the front so the curve faces the front right. Then repeat symmetrically to the right. Now horizontally place a gold 1x2 jumper plate with a round side on the 2nd row from the front so it is centered horizontally and the round side faces the front.

46.3. Place a gold 1x1 round plate on the ppp. Then vertically place a light brown 2x4 plate underneath the back 3 rows of the ppp so it is centered horizontally and 1 row is exposed to the back. Then horizontally place a light grey 1x2 plate with 2 clips on the long side on the back row so the clips face the back.

46.4. Horizontally attach a dark grey 3L bar to the back-facing clips so it is centered horizontally. Then place a gold 2x2 round tile on the back 2 rows so it is centered horizontally.

46.5. Vertically attach the bar of your part to the 2 rightmost front-facing clips so it is centered vertically, the 4x8 plate with a round side is on the left and the anti-studs face the front.

#### Group 9 - Wedding Scene

47. Rotate your build 180 degrees. Now place 1 end of a gold bendable 16L bar to the front-facing bar that is on the 7th column from the left. Then repeat symmetrically to the right. It should make a curve and bend upwards.

48.1. Let's make a part! Horizontally place a brown 1x3 plate in front of you. Then place a gold 1x1 round plate on the rightmost column. Then place 2 brown 1x1 plates with a clip, 1 to the right of the other, on the 2 leftmost columns so the clips face the back. Now horizontally place a brown 1x3 plate on top.

48.2. Horizontally place your part on the back row of the 2nd to 4th columns from the left so the clips face the back.

49. Horizontally place a brown 1x3 brick on the back row of the 2nd to 4th columns from the right.

50. Place a brown 1x1 brick with an axle hole on the back left corner so the axle hole faces the left. Then attach a white pin connector with an axle to the left-facing axle hole of the ppp so the pin connector faces up and down. Then repeat both parts symmetrically to the right.

51. Place a green 1x1 brick on the leftmost column of the 2nd row from the back. Then repeat symmetrically to the right.

52. Place the rightmost column of a green 1x6 curved brick in front of the ppp so the curve faces the front right and aligns with the curve of the 6x6 quarter circle plate. Then repeat symmetrically to the left.

You will have 2 extra green 2x2 round plates. Save them for later!

#### Group 10 - Wedding Scene

53.1. Let's make 2 identical parts! Place a green 2x2 round plate from group 9 in front of you. Then vertically place a tan 1x2 brick with a round side on the left column so the round side faces the left. Then place a tan 2x2 brick with a vertical gap on each side to the right of the ppp so it overhangs 1 column to the right.

53.2. Horizontally place a green 2x3 plate underneath the rightmost column so 2 columns are exposed to the right. Now horizontally place a tan 2x3 brick on the 2 rightmost columns so 1 column overhangs to the right.

53.3. Vertically place a white 1x2 tile with a round side on the leftmost column so the round side faces the left. Then horizontally place a white 2x4 plate with 3 pinholes to the right of the ppp. Now place a white 2x2 rounded plate on the two leftmost columns of the ppp.

53.4. Now you should have 2 identical parts! Rotate 1 part 90 degrees counterclockwise so the round side faces the front. Then horizontally place the back row of your part on the front row of the 5th and 6th columns from the left so it overhangs 5 rows to the front. Then repeat symmetrically to the right.

54. Place a green 6x6 quarter circle plate on the back left corner so the curve faces the front left and aligns with the curve of the build. There should not be any overhang! Then repeat symmetrically to the right.

55. Place a green 1x1 round plate with 3 leaves on the 7th row from the back of the 5th column from the left so the leaves face the front right. Then repeat symmetrically to the right.

56. Vertically place a pink 1x2 brick with a side stud on the 5th and 6th rows from the back of the 7th column from the left so the side stud faces the left. Then repeat symmetrically to the right.

57. Place a gold 1x1 plate with an upright side stud on the front row of the ppp so the side stud faces the front. Then place a gold 1x1 round plate behind the ppp. Now repeat both parts symmetrically to the left.

You will have 4 extra pink 1x1 round flower plates. Save them for later!

#### Group 11 - Wedding Scene

58.1. Let's make 2 identical parts! Vertically place a green 1x2 jumper plate in front of you. Then place a gold 1x1 round plate on top of the ppp. Now place a transparent 4L bar on top.

58.2. Place a green 3x3 dish upside down on top of the ppp so a little part of the bar sticks out from the top.

58.3. Let's make another part! Place a light pink 2x2 round plate. Then horizontally place a pink 1x2 rounded plate on the back row. Now place a light pink 1x1 round flower plate on the back left corner. Then place another 1 on the front right corner. Then place a pink 1x1 round flower plate from group 10 on the front left corner. Then place another 1 on the back right corner. Now place a gold 1x1 round plate underneath your part so it is centered.

58.4. Place your part on the top-facing bar of your previous part.

58.5. Now you should have 2 identical parts! These are stands with flowers! Vertically place 1 part on the 5th and 6th rows from the back of the 7th column from the left so the higher row of your part is in the back. Then repeat symmetrically to the right.

59. Place a gold curved bar with a swirl upright on the left-facing side stud that is on the 7th column from the left so it sticks up. Then repeat symmetrically to the right.

60. Place a green 2x2 dish upright on the front-facing side stud in front of the ppp. Then repeat symmetrically to the left.

61. Place a transparent 1x1 round plate with a bent bar in front of the right column of the ppp so there is a 1 row gap in between them and the stud faces the front right. Then place a yellow 1x1 butterfly on the stud of the ppp so the larger wings are on top. Then repeat both parts symmetrically to the right.

62. Place a yellow 1x1 butterfly on the 2nd stud from the left of the front row so the larger wings are in the back.

Building Instructions (Bag 3, Book 1):

Group 12 - Squirrel and Bear

Sub-build 3. Place a light brown bear and red brown squirrel in front of you. Now put them away while we continue the build!

Group 13 - Wedding Scene

63. Rotate your build 180 degrees. Now place 2 silver forks upright on the 2 rightmost front-facing clips so the forks are sloping up and to the back.

64. Horizontally place a light pink 1x4 leaf plate on the front row of the 3rd to 6th columns from the right so the stud with the long branch is on the right. Now place a pink 1x1 round flower plate behind the rightmost column of the ppp.

65. Let's make a part! Let's make a cake! Place a green 2x2 tile with a stud in front of you. Then place a dark blue 2x2 round brick on top so it is centered.

66. Place a brown 4L bar in the top-facing axle hole so it goes all the way down.

67.1. Let's make a part! Place a gold 4x4 round plate in front of you. Then place 2 light pink 2x2 round ridged bricks, 1 to the right of the other, on the back 2 rows. Then repeat symmetrically to the front.

67.2. Place your part on top of the top-facing bar so it is centered and goes all the way down.

You will have 6 extra pink 1x1 round flower plates. Save them for later!

#### Group 14 - Wedding Scene

68.1. Let's make a part! Place a white 4x4 round plate in front of you. Then place a pink 1x1 round flower plate from group 13 on the right column of the back row. Then place 1 on the left column of the front row. Now place 1 on the back row of the leftmost column. Then place 1 on the front row of the rightmost column.

68.2. Place a light pink 1x1 round flower plate on the left column of the back row. Then place 1 on the right column of the front row. Now place 1 on the back row of the rightmost column. Then place 1 on the front row of the leftmost column.

68.3. Place your part on the top-facing bar so it is centered and goes all the way down.

69.1. Let's make a part! Place a light pink 2x2 round ridged brick in front of you. Then place a white 2x2 round plate on top. Now place a pink 1x1 round flower plate from group 13 on the back left corner. Then place 1 more on the front right corner.

69.2. Place a light pink 1x1 round flower plate on the front left corner. Then place 1 on the back right corner. Now place your part on the top-facing bar so it is centered and goes all the way down.

70. Place a brown 4L bar on top of the top-facing axle hole so it is centered and goes all the way down.

71. Place a light pink 1x1 cone brick on the top-facing bar so it goes all the way down. Now place a gold 1x1 round plate on the ppp.

You will have an extra gold 1x1 round plate. Save it for later!

#### Group 15 - Wedding Scene

72.1. Let's make a part! Place a gold 1x1 round plate from group 14 in front of you. Then place a green 1x1 round flower plate in front of you. Then place a dark green 1x1 round plate on top.

72.2. Place your part upside down on the top-facing bar so the anti-stud faces up.

73. Bring back your main build and orient it so it is horizontal and the upright anti-studs face the front. Now place your cake on the 3rd and 4th rows from the front of the 3rd and 4th columns from the right.

You will have an extra pink 1x1 round flower plate. Save it for later!

#### Group 16 - Wedding Scene

74. Rotate the main build 180 degrees. Place a light pink 1x1 round flower plate on the 6th column from the right of the back row. Then place a white 2x2 round plate on the back 2 rows to the right of the ppp. Now place a pink 1x1 round flower plate from group 14 in front of the right column of the ppp. Then place

the left column of a white 2x2 round plate in front of the ppp. Now place a gold 1x1 heart-shaped tile to the left of the front row of the ppp so the right angle faces the back right.

75.1. Place a dark blue 2x2 tile with a sticker on the 4th and 5th columns from the right of the back 2 rows. Then place another 1 on the 2nd and 3rd columns from the right of the 4th and 5th rows from the back so it sits on the 2x2 round plate.

75.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 1 on each of the dark blue 2x2 tiles. These stickers have a gold star and light blue leaves on them. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

76. Let's make 2 identical parts! Place a white 6L curved branch with a pinhole and a bar hole in front of you so the pinhole faces the left. Then insert a black 2L pin into the left-facing pinhole.

77. Attach the bar of a white curved branch with a bar and a stud to the right-facing bar hole so it curves down and to the right.

78. Place a gold 1x1 round plate on the rightmost stud.

79.1. Let's make a part! Horizontally place a light pink 5x6 leaf plate in front of you so the branch with 5 studs faces the left. Now place a pink flower on the front right corner. Then place another 1 on the back stud of the 2nd column from the left. Now place a yellow butterfly on the back right corner.

79.2. Place your part on the rightmost stud of the previous part so it is centered on it and the butterfly is in the back right corner.

80. Place a white stem with 3 leaves on top of the ppp so it is centered on it.

81. Now you should have 2 identical parts! Bring back your main build and orient it so it is horizontal and the pinholes are in the back left and back right corners. Now place the pin of 1 part in the pinhole that is in the back left corner so the studs face the right. Then repeat symmetrically to the right.

## Group 17 - Butterfly

82.1. Let's make a part! Horizontally place a white 3L bent axle connector with a pinhole in front of you so the axle holes face the back left and back right, and the pinhole faces up. Now insert a light grey 3L axle into the left-facing axle hole. Then insert a blue 2L pin axle into the right-facing axle hole so the pin faces the right.

82.2. Attach a white axle connector with a pinhole to the right-facing pin so the axle hole faces the front. Then insert a red 2L axle into the front-facing axle hole. Now attach a white axle connector with a pinhole to the front-facing axle so the pinhole is in the front and faces left and right.

82.3. Insert a black 2L pin into the right-facing pinhole that is in the front. Now attach a light grey pinhole with a pin to the right-facing pin so the pin faces the front.

82.4. Place the axle part of your part into the top-facing axle hole of the 2x2 round plate that is on the 2 rightmost columns of the 2nd and 3rd rows from the front of the main build so the pin is on top and faces the front.

83. Let's make a part! Let's make a butterfly! Horizontally place a white 2x3 plate in front of you.

84. Place a white 1x1 plate with a clip on the back row so it is centered horizontally and the clip faces the back.

85. Vertically place a white 1x2 plate on the front row so it is centered horizontally and overhangs 1 row to the front.

86. Place a white 1x1 plate with a tooth underneath the front row so the tooth faces the front.

87. Vertically place a white 1x2 rounded tile on the back 2 rows so it is centered horizontally.

88.1. Place a yellow 2x2 sloped curved tile with a sticker on the rightmost column so 1 column overhangs to the right and it slopes to the left.

88.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 2 on the yellow 2x2 sloped curved tile. This sticker has a butterfly wing on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

89.1. Place a yellow 2x2 sloped curved tile with a sticker on the leftmost column so 1 column overhangs to the left and it slopes to the right.

89.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 3 on the yellow 2x2 sloped curved tile. This sticker has a butterfly wing on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

You will have 2 extra pink 1x2 plates. Save them for later!

#### Group 18 - Butterfly

90.1. Let's make a part! Let's make a wing! Place a white 3x3 quarter circle plate in front of you so the curve faces the front left. Then horizontally place a yellow 1x2 plate on the back left corner. Then vertically place a pink 1x2 plate from group 17 in front of the right column of the ppp. Then vertically place a yellow 1x4 plate on the rightmost column so 1 row overhangs to the front.

90.2. Vertically place the rightmost column of your part underneath the leftmost column of your previous part so it is centered vertically and the curve faces the front left.

91.1. Let's make a part! Let's make another wing! Place a white 3x3 quarter circle plate in front of you so the curve faces the front right. Then horizontally place a yellow 1x2 plate on the back right corner. Then vertically place a pink 1x2 plate from group 17 in front of the left column of the ppp. Then vertically place a yellow 1x4 plate on the leftmost column so 1 row overhangs to the front.

91.2. Vertically place the leftmost column of your part underneath the rightmost column of your previous part so it is centered vertically and the curve faces the front right.

92. Horizontally place the 2nd column from the right of a white 1x4 hinge plate underneath the 1x1 plate overhang that is in the front left so the round hinge part faces the front. Then bend the 2 leftmost columns of the ppp to the front so it is vertical. Then repeat symmetrically to the right.

93. Horizontally place a yellow 1x2 angled sloped curved tile on the 3rd column from the left of the back row so it slopes and overhangs to the right, and the cutoff corner faces the back right. Then repeat symmetrically to the right. Now horizontally place a yellow 1x2 sloped curved tile on the 2 leftmost columns of the 3rd row from the front so it slopes to the right. Then repeat symmetrically to the right. They should sit in front of the 2x2 sloped curved tiles with stickers!

94-95. Place a yellow 2x2 corner plate on the leftmost column of the front 2 rows so it overhangs 1 column to the left and looks like the braille letter j. Now vertically place the front row of a light grey 1x2 rounded plate underneath the overhang of the ppp. Then repeat both parts symmetrically to the right.

96. Place a yellow 2x2 angled double sloped curved tile on the 2nd column from the left of the front 2 rows so it slopes and overhangs to the right. Then repeat symmetrically to the right.

97. Place a yellow 2x2 angled sloped curved tile on the front left corner so it slopes and overhangs to the left and the shorter side is in the back. Then repeat symmetrically to the right. Now bend the front left corner to the front so it is diagonal and it slopes to the front left. Then repeat symmetrically to the right.

98.1. Let's make a part! Horizontally place a light grey 1x5 plate in front of you. Then horizontally place a white 1x2 log brick on the 2 rightmost columns. Then repeat symmetrically to the left. Now place a light grey 1x1 brick with a pinhole in between the 2 ppp so the hole faces the front and back.

98.2. Horizontally place a yellow 1x2 plate with 2x2 overhanging side studs on the 2 leftmost columns so the side studs face the front. Then repeat symmetrically to the right. Now place a tan 1x1 plate with 2 overhanging side studs in between the 2 ppp so the side studs face the front.

98.3. Horizontally place a white 1x2 plate with 2 upright side studs on the 2 leftmost columns so the side studs face the front. Then repeat symmetrically to the right. Now place a tan 1x1 plate with an upright side stud in between the 2 ppp so the side stud faces the front.

98.4. Horizontally place a white 1x3 tile on top so it is centered horizontally.

98.5. Flip your previous part upside down so the diagonal parts are in the front. Now horizontally place the side studs of your current part on top of the 2nd to 4th rows from the back so it is centered horizontally and the anti-studs face the front.

99. Flip your sub-build over so it is right side up and the angled parts face the front. Now vertically place a yellow 1x2 plate on the back 2 rows of the 2nd column from the left. Then repeat symmetrically to the right. Now place a white 1x1 round flower plate on the frontmost stud so it is centered horizontally.

100. Vertically place a yellow 2x2 angled sloped curved tile on the back left corner so it slopes and overhangs 1 column to the left, and the short end faces the front. Then place another 1 in front of the ppp so it sits on 1 stud and slopes and overhangs 1 column to the left, and the short end faces the front. Now repeat both parts symmetrically to the right.

101. Bring back your main build and orient it so it is vertical and the trees are in the front right and back right. Now attach the pinhole of your sub-build to the top-facing pin that is on the front left corner so the 1x3 tile and clip face up.

#### Group 19 - Butterfly

102.1. Let's make a part! Horizontally place a black 3L pin axle in front of you so the axle faces the left. Now attach a light grey thin axle connector to the left-facing axle so it goes all the way to the right.

102.2. Vertically attach the bottom axle hole of a light grey 2L thin double axle connector to the left-facing axle so it goes all the way to the right. Now insert a light grey 2L bar with a stop into the top right-facing axle hole so the bar faces the right.

102.3. Horizontally attach a white 3L bent axle connector with a pinhole to the left-facing axle so the other axle hole faces the back left and the pinhole faces up. Now insert a light grey 3L axle into the back left facing axle hole.

102.4. Attach the pinhole of a white 3L bent axle connector with a pinhole to the right-facing pin so the axle holes face down and to the front and back.

102.5. Insert a light grey 3L axle into the front-facing axle hole of the ppp. Then attach a white pin connector to the front-facing axle. Now attach a white pin connector with an axle connector to the front-facing axle so the pinhole is in the front and faces left and right.

102.6. Bring back your main build and orient it so it is horizontal and the trees are in the back left and back right. Now insert the axle of your part into the top-facing axle hole of the 2x2 round plate that is in the front left corner so the upper pin connector is in the front.

#### Building Instructions (Bag 4, Book 1):

#### Group 20 - Butterfly

103. Let's make a part! Let's make a butterfly! Horizontally place a light grey 2x12 plate in front of you. Then horizontally place a yellow 1x2 jumper plate on the front row so it is centered horizontally. Now repeat symmetrically to the back.

104. Place a white 1x1 plate with a clip on the back 1x2 jumper plate so the clip faces the back.

105. Vertically place a white 1x2 plate on the front 1x2 jumper plate so 1 row overhangs to the front.

106. Horizontally place a yellow 1x2 jumper plate underneath the front stud so it is centered horizontally. Now horizontally place a light yellow 2x4 plate underneath the ppp so it is centered horizontally and 1 row is exposed to the front. Then horizontally place a yellow 1x2 jumper plate on the front row so it is centered horizontally.

107. Place a white 1x1 plate with a tooth on the front row so it is centered horizontally and the tooth faces the front.

108. Place a white 1x1 round flower plate on the back row so it is centered horizontally. Then vertically place a white 1x2 rounded tile in front of the ppp. Now place a white 1x1 round flower plate in front of the ppp.

109. Vertically place a green 2x3 plate on the front row of the 2nd and 3rd columns from the right so 2 rows overhang to the front. Now horizontally place a yellow 1x4 plate underneath the 2nd row from the front of the ppp so 1 column is exposed to the left and right.

#### Group 21 - Butterfly

110. Vertically place a pink 2x3 plate on the front row of the 2nd and 3rd columns from the left so 2 rows overhang to the front. Now horizontally place a yellow 1x4 plate underneath the 2nd row from the front of the ppp so 1 column is exposed to the left and right.

111. Vertically place a pink 1x2 plate on the front 2 rows of the leftmost column. Then repeat symmetrically to the right.

112. Horizontally place the back row of a light grey 1x4 A-shaped plate underneath the front row of the 2nd and 3rd columns from the left so 1 column is exposed to the left and the short end faces the right. Then repeat symmetrically to the right.

#### Group 22 - Butterfly

113.1. Let's make a part! Horizontally place a light grey 1x5 plate in front of you. Then place a pink 1x1 round flower plate on the leftmost column. Now vertically place a white 2x3 plate to the right of the ppp so it is centered vertically.

113.2. Place the front row of your part on the back row of the 2x3 plate located at the back right, so it overhangs 1 column to the right and 2 columns to the back. Make sure the 1x1 round flower plate is on the left!

114.1. Let's make a part! Horizontally place a light grey 1x5 plate in front of you. Then place a pink 1x1 round flower plate on the rightmost column. Now vertically place a white 2x3 plate to the left of the ppp so it is centered vertically.

114.2. Place the front row of your part on the back row of the 2x3 plate located at the back left, so it overhangs 1 column to the left and 2 columns to the back. Make sure the 1x1 round flower plate is on the right!

115. Place a white 3x3 corner plate on the back 2 rows of the 2nd column from the left so it sits to the left of a 2x3 plate, 1 row overhangs to the back, and the right angle faces the back right. Then repeat symmetrically to the right.

116. Vertically place a pink 1x2 plate on the front row of the 2nd column from the left so 1 row overhangs to the front. Then repeat symmetrically to the right.

117. Horizontally place a light yellow 2x4 plate on the back 2 rows of the 2nd to 5th columns from the left. Then repeat symmetrically to the right.

118.1. Horizontally place a yellow 2x3 sloped curved brick with a sticker to the right of a 1x2 rounded tile that is centered horizontally on the 2nd and 3rd rows from the back so it slopes to the left.

118.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 5 on the yellow 2x3 sloped curved brick. This sticker has a butterfly wing on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

119.1. Horizontally place a yellow 2x3 sloped curved brick with a sticker to the left of a 1x2 rounded tile that is centered horizontally on the 2nd and 3rd rows from the back so it slopes to the right.

119.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 4 on the yellow 2x3 sloped curved brick. This sticker has a butterfly wing on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

120.1. Horizontally place a yellow 2x3 sloped curved brick with a sticker in front of the ppp so it slopes to the right.

120.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 7 on the yellow 2x3 sloped curved brick. This sticker has a butterfly wing on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

121.1. Repeat the previous step symmetrically to the right.

121.2. Skip this step if you have already placed your sticker! Ask a helper to place sticker 6 on the yellow 2x3 sloped curved brick. This sticker has a butterfly wing on it. Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

122. Horizontally place a light yellow 2x3 angled sloped curved tile on the back 2 rows of the 5th to 7th columns from the left so it slopes and overhangs to the right and the short side is in the back. Then repeat symmetrically to the right.

#### Group 23 - Butterfly

123. Vertically place a white 1x2 plate on the 3rd column from the left so it is centered vertically. Now vertically place the back 2 rows of a white 1x4 plate to the right of the ppp. Then repeat both parts symmetrically to the right.

#### Group 24 - Butterfly

124. Place a light yellow 2x2 tile on the back 2 rows of the 3rd and 4th columns from the left. Then vertically place a yellow 1x2 plate in front of the right column of the ppp. Now repeat both parts symmetrically to the right.

125. Horizontally place a light yellow 2x3 angled sloped curved tile on the back left corner so 1 column slopes and overhangs to the left and the short side is in the front. Then horizontally place another 1 in front of the ppp so 1 column slopes and overhangs to the left and the short side is in the front. Now horizontally place another 1 in front of the ppp so 1 column slopes and overhangs to the left and the short side is in the front. The angled sides should all align with each other! Now repeat everything symmetrically to the right.

126. Rotate your sub-build 45 degrees clockwise so the diagonal 1x4 plate in the front left corner is now horizontal. Then vertically place a pink 2x3 plate on the horizontal 1x4 plate so it is centered horizontally on it and overhangs 1 row to the front and back. Now horizontally place a light grey 1x4 rounded plate underneath the front row of the ppp so it is centered horizontally.

#### Group 25 - Butterfly

127. Horizontally place a green 2x3 plate on the vertical 1x4 plate that is in the front so it is centered vertically on it and overhangs 1 column to the left and right. Now vertically place a light grey 1x4 rounded plate underneath the leftmost column of the ppp so it is centered vertically.

128. Horizontally place a white 1x2 plate behind the 2 leftmost columns of the 2x3 plate from the previous step. Now vertically place another 1 to the right of the front 2 rows of the vertical 2x3 plate that is on the left.

129.1. Horizontally place a white 1x2 plate to the left of the front row of the 2x3 plate from the previous step so 1 column overhangs to the left. Now place a pink 1x1 round flower plate underneath the left column of the ppp.

129.2. Vertically place a white 1x2 plate in front of the leftmost column of the horizontal 2x3 plate that is in the front so 1 row overhangs to the front. Then place a pink 1x1 round flower plate underneath the front row of the ppp.

130. Vertically place a yellow 1x4 plate on the 2nd to 5th rows from the front. Then horizontally place another 1 on the 2nd to 5th columns from the left.

131.1. Place a white 3x3 plate with a cutoff corner behind the 3 rightmost columns of the ppp so the cutoff corner faces the back right. Now place a yellow 2x2 triangle tile on the back right corner of the ppp so the right angle faces the front left.

131.2. Place a white 3x3 plate with a cutoff corner to the right of the back 3 rows of the vertical 1x4 plate that is on the 2nd to 5th rows from the front so the cutoff corner faces the back right. Now place a yellow 2x2 triangle tile on the back right corner of the ppp so the right angle faces the front left.

132. Place a yellow 2x2 double sloped curved tile on the 5th row from the front, to the left of the ppp so it slopes and overhangs to the back. Now place a yellow 2x2 plate with 2 studs in front of the ppp so the studs are on the right.

133. Place a yellow 2x2 double sloped curved tile on the front 2 rows of the 5th column from the left so it slopes and overhangs to the right. Now place a yellow 2x2 plate with 2 studs to the left of the ppp so the studs are in the back.

134. Horizontally place a white 1x2 plate on the right column of the 2nd row from the front so 1 column overhangs to the right. Then place a pink 1x1 round flower plate underneath the rightmost column of the ppp. Now vertically place 1 on the back row of the 2nd column from the left so 1 row overhangs to the back. Now place a pink 1x1 round flower plate underneath the back row of the ppp.

#### Group 26 - Butterfly

135. Place a light yellow 1x1 round flower plate on the 2nd column from the left of the 2nd row from the front. Then place another 1 on the 2nd row from the front of the 2nd column from the left.

136.1. Horizontally place a light yellow 2x3 angled sloped curved tile on the front 2 rows of the 2 leftmost columns so it slopes and overhangs to the left, and the short side is in the back. Then horizontally place another 1 behind the ppp so 1 column slopes and overhangs to the left, and the short side is in the back. The angled parts should align!

136.2. Vertically place a light yellow 2x3 angled sloped curved tile on the 2 leftmost columns of the front 2 rows so it slopes and overhangs 1 row to the front, and the short side is on the right. Then vertically place another 1 to the right of the ppp so 1 row slopes and overhangs to the front, and the short side is on the right. The angled parts should align!

137. Flip your sub-build upside down so it is horizontal and the angled parts face the front left and front right. Now horizontally place a light grey 2x4 plate with a pinhole on the 5th and 6th rows from the back so it is centered horizontally. Now insert a black 2L pin into the front-facing pinhole of the ppp.

138. Place a light grey 2x2 inverted sloped curved tile on the leftmost column of the 2x4 plate with a pinhole from the previous step so it slopes to the left. Then repeat symmetrically to the right.

139. Bring back your main build and orient it so it is horizontal and the trees are in the back left and back right. Now attach the pinhole of your sub-build to the top-facing pinhole that is in the front left corner.

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at [info@bricksfortheblind.org](mailto:info@bricksfortheblind.org) and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

We hope you enjoyed building your LEGO set! Bricks for the Blind are able to create these text-based building instructions thanks to generous donations from our builders. If you enjoy the instructions we create, please consider making a \$5 donation at <https://www.gofundme.com/f/bricks-for-the-blind-gofundme>. Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

Please [sign up](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

At the end of the instruction booklets are advertisements for the following 3 LEGO Wicked Theme kits:

75688 Glinda's Wedding Day

75687 Elphaba's Retreat

75689 Emerald City & Kiamo Ko Castle
