10785 Bakey with Cakey Fun
Adapted by John Le and tested by Jolene Nemeth.

Kids join Gabby and Cakey in an activity-packed kitchen. There's a mixing machine and ingredients such as whipped cream, fruit, and chocolate, plus a chef-cat oven. The big, tiered cake has a revolving top section that kids can decorate with tasty treats, including swirls of frosting, fruit, chocolate, and 2 gold stars. With a cake case Starter Brick, kids soon experience the joy of creative construction. When the day's play is over, all the accessories stow away inside the big cake until next time. There's a colorful picture-story guide in the box, while the LEGO Builder app features intuitive zoom and rotate tools.

Gabby's Dollhouse playset – LEGO® Bakey with Cakey Fun (10785) is filled with creative kitchen fun for kids aged 4 and up.

Popular characters – Includes a Gabby mini-doll figure, Cakey figure, a buildable small kitchen with a mixing bowl, ingredients, and more, plus a giant cupcake with decorations and a revolving top section.

Creative baking – With ingredients to mix, a chef-cat oven, and a giant cake to decorate with tasty treats, kids will love to play out imaginative stories in Gabby's fun-filled kitchen.

Fun-packed treat for kids – With a Starter Brick and simple building steps, LEGO® 4+ sets strengthen kids' developmental skills and introduce them to creative construction.

Portable play – The large cupcake measures over 2.5 in. (6 cm) high, 2.5 in. (6.5 cm) wide, and 2.5 in. (6.5 cm) deep and opens up so all the set's accessories can be stowed away inside.

The front of the box shows a large cake-shaped table! Gabby and her cat friend are decorating it by putting all kinds of sweet treats on it!

The back of the box shows all the accessories that the set comes with! It comes with Gabby and her cat friend, a ladder, cupcakes, a banana, a carrot, ice cream, stars, a large cake table, a mixer, and a cupcake display!

The top of the box shows a real size image of Gabby's cat friend!

The build is 58 pieces in total and is for ages 4+.

Bag 1 includes the pieces for Gabby, her friend, and the cake-baking set!

Welcome to Text-Based Building Instructions from Bricks for the Blind. Here is some helpful information on how to best use screen readers and browsers: bricksfortheblind.org/help-with-screen-readers. Before you start building, here are some terms we will be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.

- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- “Anti-stud” is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (https://www.lego.com/en-us/service/buildinginstructions/10785) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 1 bag labeled 1, 1 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

The steps in this set correspond to page numbers.

Bag 1 - Gabby, Cat, and Cake Baking Set
Group 1 - Pages 6-9.
Group 2 - Pages 10-31.
Group 3 - Pages 32-61.

Let’s get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Gabby and Cat

Steps 6 to 7
Locate 1 pair of legs printed with blue jeans and pink and white shoes, 1 torso printed with a white and grey shirt and a pink jacket over it, 1 tan head printed with white and black eyes and red lips, 1 dark brown hair, and 1 pink and white cat ears. Assemble your minifigure then put the cat ears on top of her hair!

Steps 8 to 9
Locate a white cat on top of a pink cupcake wrapper and put it beside Gabby! Now place a white 1x1 ice cream swirl on top of a mint blue cupcake wrapper then put it in front of you! Now put everything away while we build the cake-baking set!

Group 2 - Cake Baking Set

Steps 10 to 11
Place a mint blue 8x8 round plate in front of you. Then place a red 2x2 tile with an upward pin on top so it is centered.

Steps 12 to 13
Place a tan 2x2 round tile with a hole printed with a pink donut on the front 2 rows so it is centered horizontally. Then repeat symmetrically to the back. Now place a pink 2x2 round tile with a stud on the 2 leftmost columns so it is centered vertically. Then repeat symmetrically to the right.

Steps 14 to 15
Let’s make a part! Place a light yellow 4x4 round brick in front of you. Then place 4 mint blue 1x2 curved tiles on top so there is no overhang. They should form a circle!

Steps 16 to 17
Place a light yellow 2x2 round brick in the center in between all the previous tiles. Then place a pink 2x2 plate with drips on the side on top.

Steps 18 to 19
Place your part on top of the upward pin of your main build so it is centered and can freely spin!

Steps 20 to 21
Let’s make a part! Place a light yellow 8x8 cupcake wrapper in front of you.

Steps 22 to 23
Locate 2 pink 1x1 ice creams, 2 gold 1x1 stars, 1 banana, and 2 purple 1x1 stacks of grapes, then place them inside the cupcake wrapper! They should not connect to any studs!

Steps 24 to 25
Insert a light green pair of cherries into the top of an orange carrot. Then put it inside the cupcake wrapper!

Steps 26 to 27
Now locate your previous build and place it on top of the cupcake wrapper so it is centered!

Steps 28 to 29
Let’s make a part! Vertically place a white 1x2 plate with 2 clips in front of you so the clips face the left. Then place a light blue 2x2 sloped curved tile on top so it slopes to the right. Then horizontally attach a light brown ladder to the clips so it faces the left.

Steps 30 to 31
Now rotate the ladder so it faces up. Now place it beside your build. Gabby can use this ladder to reach up higher to decorate!

Group 3 - Cake Baking Set

Steps 32 to 33
Place a light blue 6x6 plate in front of you. Then horizontally place a tan 2x6 brick on the back 2 rows so it is centered horizontally.

Steps 34 to 35
Vertically place a white 1x2 slope brick on the back left corner so it slopes to the front. Then vertically place 2 light grey 1x2 grill tiles, 1 to the right of the other to the right so there is no overhang.

Steps 36 to 37
Vertically place a white 1x2 slope brick to the right of the previous 1x2 grill tiles so it slopes to the front. Then horizontally place a light pink 1x2 jumper plate on the back row to the right of the previous slope tile.

Steps 38 to 39
Horizontally place a white 1x2 tile with an overhead bar in front of the previous jumper plate so the bar faces the front. Then horizontally place a light grey 1x2 grill tile in front.

Steps 40 to 41
Place a large light grey mixing bowl on a 2x2 tile in front of the previous 1x2 grill tile. It should sit on the 2 rightmost columns.

Steps 42 to 43
Attach a silver clip with a bar holder to the 1x2 tile with an overhead bar so the hole of the bar holder faces the front. Then insert a silver whisk into the hole.

Steps 44 to 45
Horizontally place a white 1x4 archway on top of the previous 1x2 slope bricks. Then angle the whisk down into the bowl!

Steps 46 to 47
Horizontally place a pink 1x4 brick on top of the previous archway so there is no overhang.

Steps 48 to 49
Horizontally place a white 1x2 plate with 2x2 side studs on top of the previous 1x4 brick so it is centered horizontally and the side studs face the front.

Steps 50 to 51
Place a pink 2x2 round tile with a sleeping cat face on the front-facing 2x2 side studs.

Steps 52 to 53
Horizontally place a pink 1x2 jumper plate on top of the previous 1x2 plate with 2x2 side studs. Then place a pink 1x1 slope tile to the left and right so they slope inwards.

Steps 54 to 55
Place a red 1x1 round plate on top of the previous 1x2 jumper plate that is on top of the arch. Then place a white chef hat on top!

Steps 56 to 59
Let's make a part! Place a light grey 2x2 tile with a stud in front of you. Then place a mint blue cupcake wrapper on top. Now place a white 1x1 ice cream swirl on top.

Steps 60 to 61
Place your part underneath the arch so it sits on the 2 grill tiles!

Thank you so much for building this set!

Visit bricksfortheblind.org for more accessible instructions, sign up for our newsletter, and follow us on Facebook and Instagram to be the first to know when new instructions are available!

We also love seeing your completed builds, so please tag our Facebook and Instagram accounts in any photos of your builds so we can share your accomplishments with our Bricks for the Blind community.

We hope you enjoyed building your LEGO set! Bricks for the Blind is able to create these text-based building instructions thanks to generous donations from our builders. If you enjoy the instructions we create, please consider making a $5 donation at: https://www.gofundme.com/f/bricks-for-the-blind-gofundme.
