

11203 Bluey's Family House

Set adapted by Alex Charbonneau and tested by Natalie Charbonneau.

The high-quality Bluey's Family House playset (11203) is packed with features, toys and characters from the Bluey TV show to inspire kids aged 4 and up to explore imaginative role play with Bluey and her family.

The multi-room, modular playhouse comes with 4 minifigures – Bluey, Bingo, Chilli (Bluey's mum) and Bandit (Bluey's dad) – plus accessories, including a rainbow cape, wand and magnifying glasses. All rooms are detachable, allowing many ways to play. Inside the playroom is a dollhouse, piano and pretend-play food stall. The kitchen has a fridge, oven, stove, table and chairs. Upstairs is Mum and Dad's bedroom and a bathroom. Bluey and Bingo's attic bedroom has a rug, lamp and the Chattermax figure. Next door is the Queen's throne, complete with teapot, cup and frog. In the garden is a large tree, a hot dog, pizza, water tap, Jeremy the gnome and a balloon to knock up into the air.

LEGO® sets for ages 4 and up include colorful instructions and Starter Bricks to kick-start the fun .

Bluey's house playset:

- Kids can recreate all the fun of the house from the Bluey TV show with the Bluey's Family House building kit, designed especially for boys and girls aged 4 and up.

Playhouse toy for kids aged 4 and up:

- This LEGO® Bluey toy comes with 1 buildable model per bag, plus a large Starter Brick and simple instructions to make building fast and fun for little builders.

Pretend-play interactive toy:

- The modular playhouse and garden has Bluey, Bingo, Mum and Bandit minifigures and detachable rooms: playroom, kitchen, 2 bedrooms, throne room, toilet and bathroom.

Playhouse toys:

- Includes a dollhouse, piano, food stall, fridge, oven, teapot, cup, frog, pizza, hot dog, table, rainbow cape, wand, chairs, magnifying glasses, plus Chattermax and Jeremy the gnome.

Gift for Bluey fans:

- This fun-packed playground playset is bursting with play possibilities for kids aged 4 and up who like the preschool TV show Bluey.

Intuitive building guide:

- The printed instruction booklet is designed to inspire kids and develop their building confidence.

Boost kids' fun and growth with Bluey:

- LEGO® Bluey sets inspire creative role play that kids will relate to, and support developmental milestones that parents will want to share.

382-piece set:

- The playhouse measures over 8 in. (21 cm) high, 8 in. (20 cm) wide and 5 in. (13 cm) deep.

The box is light blue and white. The front of the box shows the inside of the Blue Heeler family's house. Dad (Bandit) walks to the table carrying a hot dog, Mum (Chilli) is upstairs, while the girls Bingo and Bluey play outside. Bluey is dressed as a princess, while Bingo eats ice cream. There is also a tree outside where the girls can play around!

The top of the box shows the included minifigures, the tree, as well as a full sized image of the Bluey minifigure.

The back of the box shows another image of the house and an inventory of what's included. All four of the blue heelers are included, as well as a large number of household items! The back of the box also shows how all of the stories of the house can be separated to be played with individually. There is a small inset image showing the entire family eating at the dinner table, and another showing Bluey sitting on her throne, while Bingo plays in the girls' bedroom.

Welcome to Text-Based Building Instructions from Bricks for the Blind. Here is some helpful information on how to best use screen readers and browsers: bricksfortheblind.org/help-with-screen-readers. Before you start building, here are some terms we will be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of the piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner who may want to follow along with the printed visual instructions that come with each kit, PDF versions are always online at LEGO.com: (<https://www.lego.com/en-us/service/building-instructions/11203>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1, 2 and 3, and put them in one container.

This LEGO set comes with six bags labeled 1-6, and an instruction booklet. Sort the pieces into groups as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split across two groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

A note for piece sorters: this set does not have numbered steps. I'll use the page numbers to identify which pieces go in which groups for sorting! I'll make numbered steps in the instructions, with the corresponding page in parenthesis.

This build is 382 pieces, and 201 building steps.

Bag 1 (8 groups of bricks)

Minifigure Group 1 contains the pieces from pages 6 & 7 of booklet #1.

Main Build 1: Living Room

Group 1 contains the pieces for pages 8-29.

Group 2 contains the pieces for pages 30-33.

Group 3 contains the pieces for pages 34-45.

Group 4 contains the pieces for pages 46-49.

Group 5 contains the pieces for pages 50-61.

Group 6 contains the pieces for pages 62-71, and the light brown 1x4x3 window frame and two red 1x2 curve slope tiles from pages 72 & 73.

Group 7 contains the pieces for pages 74-79, and the white 1x2 curve slope tiles from pages 72 & 73.

Bag 2 (5 groups of bricks)

Minifigure Group 2 contains the pieces from pages 4 & 5 of booklet #2.

Main Build 2: Mum & Dad's Room

Group 8 contains the pieces for pages 6-13.

Group 9 contains the pieces for pages 14-35.

Group 10 contains the pieces for pages 36-53.

Group 11 contains the pieces for pages 54-69.

Bag 3 (6 groups of bricks)

Main Build 3: Bluey & Bingo's Room

Group 12 contains the pieces for pages 4-23 of booklet #3, and the left printed 1x8x3 slope from pages 24 & 25.

Group 13 contains the pieces for pages 26-39, and the right printed 1x8x3 slope from pages 24 & 25, and the light blue 1x2 quarter circle tile from pages 40 & 41.

Group 14 contains the pale yellow 1x2 quarter circle tile from pages 40 & 41, and the light green 1x4 tile from pages 42 & 43.

Group 15 contains the pink 1x4 tile from pages 42 & 43.

Group 16 contains the pale yellow 1x4 tile from pages 42 & 43.

Group 17 contains the pieces for pages 44-65 and the light blue 1x4 tile from pages 42 & 43.

Bag 4 (5 groups of bricks)

Minifigure Group 3 contains the pieces for pages 4-5 of booklet #4.

Main Build 4: The Kitchen

Group 18 contains the pieces for pages 6-29.

Group 19 contains the pieces for pages 30-43.

Group 20 contains the pieces for pages 44-63.

Group 21 contains the pieces for pages 64-79.

Bag 5 (5 groups of bricks)

Minifigure Group 5 contains the pieces for pages 4 & 5 of booklet #5.

Main Build 5: Bathtub Room

Group 22 contains the pieces for pages 6-21.

Group 23 contains the pieces for pages 22-25.

Group 24 contains the pieces for pages 26-31.

Group 25 contains the pieces for pages 32-55.

Bag 6 (5 groups of bricks)

Main Build 6: Outside

Group 26 contains the pieces for pages 4-13 of booklet #6.

Group 27 contains the pieces for pages 14-25.

Group 28 contains the pieces for pages 26-43.

Group 29 contains the pieces for pages 44-51.

Group 30 contains the pieces for pages 52-71.

Building Instructions:

Bag 1.

Minifigure Group 1: Bingo

Assemble the Bingo minifigure by putting the torso on the legs and the head on the torso. Bingo's fur is mostly orange, but she has a large patch of yellow fur on her tummy, her muzzle is yellow, and her head and ears are brown with a yellow stripe above her nose. Clip a transparent pink magic wand into her hand. She can hold a 1x2 tile with a mail print in her other hand!

Assemble a carrot by pushing a green bar with two leaves on one end into the hole on the wide end of an orange carrot.

Main Build 1: Living Room

Group 1.

Step 1.1

(Pages 8 & 9) Let's start building part of the floor. This will have the living room and a little bit of the front yard too. Place a light brown 8x16 base brick, vertically, in front of you. This piece has two sets of four recessed studs on each of the long sides, and a single set of recessed studs on each of the short sides.

Step 1.2

(Pages 8 & 9) Place the right column of a pink 2x4 plate, vertically, on the back set of recessed studs on the left side of the last piece. There should be two studs behind this piece.

Step 2

(Pages 10 & 11) Place the back set of recessed studs on the right side of a light brown 8x16 base brick, vertically, under the left column of the last piece. The front and back sides of this piece should be even with the front and back of the first base brick.

Step 3

(Pages 12 & 13) Place a pink 2x4 plate, vertically, in the recessed section in front of the first 2x4 plate. This piece will hold the two base bricks together.

Step 4

(Pages 14 & 15) Place a dark orange 1x4 plate, vertically, on the front set of recessed studs on the left side of the floor. Repeat symmetrically on the right side.

Step 5.1

(Pages 16 & 17) Place a light brown 1x4 tile with two studs, horizontally, on the left set of recessed studs on the front side of the floor.

Step 5.2

(Pages 16 & 17) Place a light blue 1x4 tile, horizontally, on the right set of recessed studs on the front side of the floor.

Step 6

(Pages 18 & 19) Place a white 1x4 tile with a picket fence, horizontally, on the front row of the floor so the left sides are even. Place another to the right of the first.

Step 7.1

(Pages 20 & 21) Now we'll make a mailbox! Place a white 2x2x2 box, with the open side at the front, in front of you.

Step 7.2

(Pages 20 & 21) Now we'll add the door! There are two little bits sticking out of the front of the last piece at the bottom. Find a white 2x2 mailbox door. This piece has no studs or anti-studs, and it's smooth on one side. One end has two little slits in it. Clip the slits, with the smooth side of the door at the bottom, onto the two parts sticking out of the bottom of the mailbox. They should click into place, and you should be able to rotate the door open and closed!

Step 7.3

(Pages 20 & 21) Place a red 2x2 roof tile, with the pointed ends at the front and back, on top of the mailbox.

Step 8

(Pages 22 & 23) Now let's put it on the floor! The fence should be at the left on the front row. Place the mailbox, with the door at the front, on the front right corner of the floor.

Step 9

(Pages 24 & 25) Place a light blue 1x4 tile, horizontally, to the left of the mailbox so the back sides are even.

Step 10

(Pages 26 & 27) Place a pale yellow 2x8x6 door frame, horizontally with the row of eight studs at the back, behind the mailbox so the right sides are even.

Step 11

(Pages 28 & 29) Place a pale yellow 1x1x6 round column to the right of the front left stud of the last piece. Repeat symmetrically on the right side of the door.

Group 2.

Step 12.1

(Pages 30 & 31) Now we'll make a door! Place a pale yellow 1x4x6 door frame, horizontally, in front of you. Inside the door frame is a small ridge, make sure this is near the front. There are small holes in the top and bottom of the door frame in front of this ridge.

Step 12.2

(Pages 30 & 31) Find a white 4x6 door with windows. One side of the door has little pegs at the top and bottom corners. Push the door, with the windows at the top and the side with the pegs on the right, into the door frame from the front so the pegs snap into the little holes.

Step 12.3

(Pages 30 & 31) Place a gold 1x1 round plate with a flower petal pattern on the front stud of the door to make the door knob.

Step 13

(Pages 32 & 33) Place the door, horizontally with the knob at the front, in between the two 1x1x6 round columns from step 11. There should be two 1x4 tiles in front of the door making steps up to it!

Group 3.

Step 14.1

(Pages 34 & 35) Now we'll make the wall that goes next to the door! Place a pale yellow 2x8x6 door frame, horizontally with the row of eight studs at the back, in front of you.

Step 14.2

(Pages 34 & 35) Find a pale yellow 6x6 printed panel. This piece is like the door because it has pegs in all four corners. It is printed with a window on one side, and a bunch of the girls' decorations on the other side. The window print goes at the front, so you may want to ask a sighted person for help, or use an app to get the orientation right. Push the panel, with the pegs at the top and bottom, into the 2x8x6 door frame, from the front, until it snaps into place.

The decorations on the panel include a stick unicorn, a picture of a white unicorn with a rainbow mane, a rainbow, a few drawings taped to the wall, and a banner with triangular flags.

Step 15

(Pages 36 & 37) Turn the floor around so the fence and mailbox are at the back. Turn the wall we just made around so the row of eight studs is at the front and place the wall to the right of the wall with the door so the back sides are even.

Step 16

(Pages 38 & 39) Now we'll add a brick with a pin that we can use to connect this room to other parts of the house! Place a tan 1x2 brick with a pin on one side, vertically with the pin on the left, on the leftmost column in front of the wall with the door.

Step 17

(Pages 40 & 41) Place a pale yellow 1x2x2 tall brick, vertically, on the last piece.

Step 18

(Pages 42 & 43) Place a pale yellow 1x2x2 tall brick, vertically, on the last piece.

Step 19

(Pages 44 & 45) Place a tan 1x2 brick with a pin on one side, vertically with the pin on the left, on the last piece.

Group 4.

Step 20.1

(Pages 46 & 47) Now we'll make a large window! Place a pale yellow 1x4x6 door frame, horizontally with the inside ridge at the front, in front of you.

Step 20.2

(Pages 46 & 47) Push a clear 4x6 window pane, with the pegs at the top and bottom, from the front into the last piece until it snaps into place.

Step 21

(Pages 48 & 49) Turn the window 90 degrees counterclockwise so it's vertical with the window pane on the right. Place the window in front of the last four pieces we placed.

Group 5.

Step 22.1

(Pages 50 & 51) Now we'll make an even larger window! Place a pale yellow 1x6x6 door frame, horizontally with the inside ridge at the front, in front of you.

Step 22.2

(Pages 50 & 51) Push a clear 6x6 window pane, with the pegs at the top and bottom, from the front into the last piece until it snaps into place.

Step 23

(Pages 52 & 53) Turn the window 90 degrees clockwise so it's vertical with the window pane on the left. Place the window on the rightmost column of the floor, in front of the wall. There should be six studs in front of it.

Step 24

(Pages 54 & 55) Place a pale yellow 1x16 brick, horizontally, on the back row of the wall.

Step 25.1

(Pages 56 & 57) Place a pale yellow 1x6 brick, vertically, in front of the left stud of the last piece. Repeat symmetrically on the right side.

Step 25.2

(Pages 56 & 57) Place a brown 1x1 round brick in front of each of the previous two pieces.

Step 26.1

(Pages 58 & 59) Now we'll place tiles on top of the wall to make the second story easy to remove! Place a light brown 1x4 tile with two studs, vertically, on each of the last two pieces so the front sides are even.

Step 26.2

(Pages 58 & 59) Place a light brown 1x2 tile, vertically, behind each of the last two pieces.

Step 26.3

(Pages 58 & 59) Place a light brown 2x2 corner tile, with the corner at the back left, behind the left piece from the last step so the left sides are even. The back side should be even with the back of the wall. Repeat symmetrically on the right side.

Step 27.1

(Pages 60 & 61) Place a light brown 1x4 tile with two studs, horizontally, on the back row of the wall to the right of the left piece from the last step. Repeat symmetrically on the right side.

Step 27.2

(Pages 60 & 61) Place two light brown 1x2 tiles, horizontally, between the last two pieces.

Group 6.

Step 28.1

(Pages 62 & 63) The inside of the house is kind of empty, let's fix that! First, let's add a house made out of toy blocks. Place a tan 1x2x2 window frame, horizontally and centered horizontally, on the second row in front of the back wall. There should be one row between this and the back wall, and six studs on either side of it.

Step 28.2

(Pages 62 & 63) Place a red 1x2 roof tile, horizontally, on the last piece.

Step 29.1

(Pages 64 & 65) Now we'll build a piano! Place a light purple 2x4 brick, horizontally, in front of you.

Step 29.2

(Pages 64 & 65) Place a light purple 1x4 brick, horizontally, on the back row of the last piece.

Step 29.3

(Pages 64 & 65) Place two white 1x2 tiles with a piano key print, horizontally, in front of the last piece.

Step 30

(Pages 66 & 67) Turn the piano 90 degrees counterclockwise so it's vertical with the tall side on the left. Place it to the right of the left wall, so the front side is even with the front of the wall.

Step 31

(Pages 68 & 69) Next, we'll add a rug. Place a light brown 2x4 tile with half a rug pattern, horizontally, on the fifth and sixth rows from the front of the floor so there are five free columns to the left and seven to the right. The tile is printed like a kiwifruit cut in half and is half a circle. It needs to be placed so the wide side of the print is at the front. You may want to ask a sighted person for help, or use an app to get the orientation right.

Step 32.1

(Pages 70 & 71) Place another light brown 2x4 tile with half a rug pattern symmetrically in front of the last piece so the two pieces form an entire kiwi rug!

Step 32.2

(Pages 70 & 71) Place a tan 2x3 brick, horizontally, to the right of the last piece. Place another to the right of the first. This will be set up like a shop window so the girls can play pretend inside!

Step 33.1

(Pages 72 & 73) Now we'll make a little window for the shop. Place a tan 1x4x3 window frame, horizontally, in front of you.

Step 33.2

(Pages 72 & 73) Place the back stud of a red 1x2 curved slope tile, vertically with the tall side at the back, on the leftmost and second from the right studs on the previous piece.

Group 7.

Step 33.3

(Pages 72 & 73) Place the back stud of a white 1x2 curved slope tile, vertically with the tall side at the back, on the last two studs on the window frame. The last four pieces make a little awning for the shop window!

Step 34

(Pages 74 & 75) Place the shop window, horizontally with the awning overhanging to the front, on the middle four studs on the back row of the two 2x3 bricks near the front right corner of the floor.

Step 35.1

(Pages 76 & 77) Place a black 1x2 tile with a cell phone pattern, vertically, on the leftmost column of the left 2x3 brick.

Step 35.2

(Pages 76 & 77) Place a yellow 1x1 head with a pineapple pattern on the front right corner of the right 2x3 brick. Every episode of Bluey features a pineapple somewhere in it! This is a nod to the studio that creates Bluey, whose logo contains a pineapple in it!

36 (Pages 78 & 79) If you want, you can place Bingo in the living room now. Maybe she can place her letter in the slot on the front of the mailbox! Now we're done with the first room. Let's make another!

Bag 2.

Minifigure Group 2: Mum (Chilli)

Assemble the Mum minifigure by putting the torso on the legs and the head on the torso. Mum's fur is mostly orange, but she has a large patch of yellow fur on her tummy, a yellow stripe on her nose, and a brown patch covering one eye and ear.

Main Build 2: Mum and Dad's Room.

Group 8.

Step 37.1

(Pages 6 & 7) Now we'll build Mum and Dad's room! Let's start with the floor. Place a light brown 8x16 base brick, horizontally, in front of you.

Step 37.2

(Pages 6 & 7) Place a dark orange 1x4 plate, vertically and centered vertically, on the rightmost column of the last piece. This is on the four recessed studs on the right end of the base brick. Repeat symmetrically on the left side.

Step 38

(Pages 8 & 9) Place a dark orange 1x4 plate, horizontally, on each of the two sets of recessed studs on the back row of the base brick.

Step 39.1

(Pages 10 & 11) Now we'll start building the back wall of the room. Place a pale yellow 2x8x6 door frame, horizontally with the row of eight studs at the back, in front of you.

Step 39.2

(Pages 10 & 11) Find a pale yellow 6x6 printed panel. This piece is printed with the headboard of the bed, a picture of the blue heeler family, and two lamps. The other side is printed with a big window. Push the panel, with the pegs at the top and bottom, into the 2x8x6 door frame, from the front, until it snaps into place. The bedroom printing should be at the front with the family picture near the top. You may want to ask a sighted person or use an app to get the orientation right.

Step 40

(Pages 12 & 13) Place the wall, horizontally with the row of 8 studs at the front, on the back two rows of the floor so the right sides are even.

Group 9.

Step 41.1

(Pages 14 & 15) Let's build the other half of the wall. Place a pale yellow 2x8x6 door frame, horizontally with the row of eight studs at the back, in front of you.

Step 41.2

(Pages 10 & 11) Find a pale yellow 6x6 printed panel. This piece is printed with a window and a mirror. This half of the room will be the bathroom! The other side is printed with a big window. Push the panel, with the pegs at the top and bottom, into the 2x8x6 door frame, from the front, until it snaps into place. The bathroom printing should be at the front with the mirrors near the top. You may want to ask a sighted person or use an app to get the orientation right.

Step 42

(Pages 16 & 17) Place this wall, horizontally with the row of eight studs at the front, to the left of the first wall.

Step 43

(Pages 18 & 19) Turn the room around so the walls are at the front. There should be a set of six studs on the floor in front of each of the two windows. Place three dark orange 1x2 slope tiles, horizontally with the tall side at the back, on each of these sets of studs so the studs are totally covered.

Step 44

(Pages 20 & 21) Turn the room back around again. Place a pale yellow 1x16 brick, horizontally, on the back studs of the back wall. It will only connect to four studs total.

Step 45.1

(Pages 22 & 23) Now we'll make a big window! Place a pale yellow 1x6x6 door frame, horizontally with the inside ridge at the front, in front of you.

Step 45.2

(Pages 22 & 23) Push a clear 6x6 window pane, with the pegs at the top and bottom, from the front into the last piece until it snaps into place.

Step 46

(Pages 24 & 25) Turn the window 90 degrees clockwise so it's vertical with the window pane on the left. Place the window on the rightmost column of the floor, in front of the wall. The front side should be even with the front of the floor.

Step 47.1

(Pages 26 & 27) Place a brown 1x1 round brick on the front stud of the window.

Step 47.2

(Pages 26 & 27) Place a pale yellow 1x6 brick, vertically, behind the last piece.

Step 48.1

(Pages 28 & 29) Next, we'll start making the bed! Place a brown 1x2 log brick, vertically, in front of the wall and to the left of the window.

Step 48.2

(Pages 28 & 29) Place a dark orange 1x4 plate, horizontally, in front of the wall to the left of the last piece.

Step 48.3

(Pages 28 & 29) Place a brown 1x2 log brick, vertically, in front of the wall and to the left of the last piece.

Step 49.1

(Pages 30 & 31) Place a brown 1x2 tile, vertically, in front of each of the two 1x2 log bricks.

Step 49.2

(Pages 30 & 31) Place a brown 1x2 log brick, in front of each of the last two pieces.

Step 50

(Pages 32 & 33) Place a brown 6x6 plate on the last two pieces so the front sides are even. The back side of the 6x6 plate should attach right in front of the back wall.

Step 51

(Pages 34 & 35) Place a brown 1x1 round brick on each of the back corners of the last piece.

Group 10.

Step 52.1

(Pages 36 & 37) Place a white 2x4 curved slope tile, horizontally with the tall side at the back, in front of the wall between the last two pieces. This is the pillow.

Step 52.2

(Pages 36 & 37) Place a pale pink 2x4 tile, vertically, in front of the last piece so the left sides are even. The front side should be even with the front of the bed and there should be one column of studs on the bed to the left of it. Place another to the right of the first.

Step 53

(Pages 38 & 39) Place a pale yellow 1x2x2 tall brick, horizontally, in front of the wall to the left of the bed.

Step 54

(Pages 40 & 41) Place a pale yellow 1x2x2 tall brick, horizontally, on the last piece.

Step 55

(Pages 42 & 43) Place a pale yellow 1x2x2 tall brick, horizontally, on the last piece.

Step 56

(Pages 44 & 45) Place the front row of a pale yellow 2x2 brick on the last piece. The back row of this piece should connect to the wall.

Step 57.1

(Pages 46 & 47) Now we'll build the bathroom sink. Place a white 2x3 brick, horizontally, in front of you.

Step 57.2

(Pages 46 & 47) Place a clear blue 1x2 panel with three walls, with the walls on the left, front, and right sides, on the right two studs on the front row of the last piece.

Step 57.3

(Pages 46 & 47) Place a white 1x2 brick, horizontally, behind the last piece.

Step 57.4

(Pages 46 & 47) Place a gold 1x2 tile with a faucet, horizontally with the faucet handles at the back, on the last piece.

Step 58

(Pages 48 & 49) Place the sink, horizontally with the faucet in the back right, in front of the wall, two the left of the stack of 1x2x2 tall bricks. There should be four free rows to the left.

Step 59.1

(Pages 50 & 51) Now we'll build a toilet! Place a pale blue 2x3 plate, vertically, in front of you.

Step 59.2

(Pages 50 & 51) Place a white 1x2 brick, horizontally, on the back row of the last piece. Place another on the first.

Step 59.3

(Pages 50 & 51) Place a pale blue 1x2 jumper plate, horizontally, on the last piece.

Step 59.4

(Pages 50 & 51) Now place the anti-stud of a white 2x2 dome-bottom in between the four remaining studs on the 2x3 plate. This is the bowl of the toilet!

Step 60

(Pages 52 & 53) Place the toilet, with the bowl at the front, in front of the wall and to the left of the sink.

Group 11.

Step 61

(Pages 54 & 55) Place a clear mug, with the handle at the front, on the front left corner of the sink.

Step 62.1

(Pages 56 & 57) Now we'll make another big window. Place a pale yellow 1x6x6 door frame, horizontally with the inside ridge at the front, in front of you.

Step 62.2

(Pages 56 & 57) Push a clear 6x6 window pane, with the pegs at the top and bottom, from the front into the last piece until it snaps into place.

Step 63

(Pages 58 & 58) Turn the window 90 degrees counterclockwise so it's vertical with the window pane on the right. Place the window on the leftmost column of the floor, in front of the wall. The front side should be even with the front of the floor and there should be one row between the window and the toilet.

Step 64.1

(Pages 60 & 61) Place a brown 1x1 round brick on the front stud of the window we just placed.

Step 64.2

(Pages 60 & 61) Place a pale yellow 1x6 brick, vertically, behind the last piece.

Step 65.1

(Pages 62 & 63) Now we'll add tiles to the top of this room so we can easily remove the room above it. Place a light brown 1x4 tile with two studs, vertically, on both the left and right walls so the fronts are even with the front of the walls.

Step 65.2

(Pages 62 & 63) Place a light brown 1x2 tile, vertically, behind each of the last two pieces.

Step 65.3

(Pages 62 & 63) Place a light brown 2x2 corner tile, with the corner at the back left, behind the left piece from the last step so the left sides are even. The back side should be even with the back of the wall. Repeat symmetrically on the right side.

Step 66.1

(Pages 64 & 65) Place a light brown 1x4 tile with two studs, horizontally, on the back row of the wall to the right of the left piece from the last step. Repeat symmetrically on the right side.

Step 66.2

(Pages 66 & 67) Place two light brown 1x2 tiles, horizontally, between the last two pieces.

Step 67

(Pages 68 & 69) Now Mum and Dad's bedroom is done! You can set Mum on the bed so she can take a break!

Bag 3.

Main Build 3: The Girls' Room

Group 12.

Step 68.1

(Pages 4 & 5) Now we'll build the girls' room. Set Mum and Dad's room aside for now. Let's start with the floor. Place a light brown 8x16 base brick, horizontally, in front of you.

Step 68.2

(Pages 4 & 5) Place a dark orange 1x4 plate, vertically and centered vertically, on the leftmost column of the last piece. This is on the four recessed studs on the left end of the base brick.

Step 69

(Pages 6 & 7) Place a light brown 1x4 tile with two studs, horizontally, on each of the two sets of recessed studs on the back row of the base brick.

Step 70

(Pages 8 & 9) Place the left column of a pale yellow 2x4 plate, vertically and centered vertically, on the rightmost column of the base brick so the 2x4 plate overhangs one column to the right.

Step 71

(Pages 10 & 11) Place a dark orange 1x6 brick, vertically, on the leftmost column of the floor so the back sides are even.

Step 72.1

(Pages 12 & 13) Place a dark orange 1x2 brick, vertically, in front of the last piece.

Step 72.2

(Pages 12 & 13) Place a dark orange 1x2 brick, horizontally, on the back row to the right of the 1x6 brick.

Step 73.1

(Pages 14 & 15) Place a dark orange 1x6 brick, horizontally, to the right of the last piece. Place another to the right of the first.

Step 73.2

(Pages 14 & 15) Place a dark orange 1x2 brick, vertically, to the right of the right piece from the last step so the back sides are even.

Step 74

(Pages 16 & 17) Place a dark orange 1x6 brick, vertically, in front of the last piece. You should now have low walls on the left, back, and right sides of the floor!

Step 75

(Pages 18 & 19) Place a dark orange 1x6 brick, vertically, on the left wall so the front sides are even.

Step 76.1

(Pages 20 & 21) Place a dark orange 1x2 brick, vertically, behind the last piece.

Step 76.2

(Pages 20 & 21) Place a dark orange 1x6 brick, horizontally, to the right of the last piece. Place another to the right of the first.

Step 77.1

(Pages 22 & 23) Place a dark orange 1x2 brick, horizontally, to the right of the right piece from the last step.

Step 77.2

(Pages 22 & 23) Place a dark orange 1x6 brick, vertically, to the right of the last piece so the back sides are even.

Step 77.3

(Pages 22 & 23) Place a dark orange 1x2 brick, vertically, in front of the last piece.

Step 78.1

(Pages 24 & 25) Place a light brown 1x8x3 printed slope, horizontally with the slope on the left and the printing at the front, on the back wall so the left side is even with the left wall.

Group 13.

Step 78.2

(Pages 24 & 25) Place a light brown 1x8x3 printed slope symmetrically to the right of the last piece. The printing on the last two pieces shows the girl's circular bedroom window, as well as the wall of the room, which is decorated with Christmas ornaments on a string, a picture of the family, a stuffed bunny, and glow in the dark stars!

Step 79

(Pages 26 & 27) Place an orange 1x2 jumper plate, horizontally, on the studs of the last two pieces.

Step 80.1

(Pages 28 & 29) Place a brown 1x2 tile, horizontally and centered horizontally, in front of the back wall.

Step 80.2

(Pages 28 & 29) Now we'll start building the girls' beds! Place a white 1x4 arch brick, horizontally, in front of the back wall and to the right of the left wall. Repeat symmetrically on the right side.

Step 81

(Pages 30 & 31) Place a dark orange 1x4 plate, vertically, to the right of the left wall and in front of the left piece from the last step. Repeat symmetrically on the right side.

Step 82

(Pages 32 & 33) Place a tan 1x2 log brick, vertically, in front of the back wall and to the left of the 1x2 tile. Repeat symmetrically on the right side.

Step 83

(Pages 34 & 35) Place a white 1x4 arch brick, horizontally, on the second row from the front and to the right of the left wall. Repeat symmetrically on the right side.

Step 84

(Pages 36 & 37) Place a white 4x6 plate, vertically, on each of the previous two pieces so the front sides are even.

Step 85

(Pages 38 & 39) Place a white 1x1 round brick on each of the back corners of the last two pieces.

Step 86.1

(Pages 40 & 41) Now we'll add some pillows! Place a yellow 1x2 quarter circle tile, horizontally with the tall side at the back, between the right two pieces from the last step.

Group 14.

Step 86.2

(Pages 40 & 41) Place a light blue 1x2 quarter circle tile, horizontally with the tall side at the back, symmetrically on the left bed.

Step 87.1

(Pages 42 & 43) The left bed is Bingo's bed, and it has a striped blanket. The first stripe is light green, then pink, then yellow, then the rest of the blanket is light blue. Place a light green 1x4 tile, horizontally and centered horizontally, in front of the last piece.

Group 15.

Step 87.2

(Pages 42 & 43) Place a pink 1x4 tile, horizontally, in front of the last piece.

Group 16.

Step 87.3

(Pages 42 & 43) Place a pale yellow 1x4 tile, horizontally, in front of the last piece.

Group 17.

Step 87.4

(Pages 42 & 43) Place a light blue 1x4 tile, horizontally, in front of the last piece.

Step 88

(Pages 44 & 45) Bluey's bed has a yellow comforter with white bones on it, and a light blue sheet. Place a yellow 2x4 tile with this pattern, vertically with the light blue end at the back, on the right two columns of the right bed in front of the pillow. Place another to the left of the first. You may want to ask a sighted person or use an app to make sure you get the orientation of these tiles right.

Step 89

(Pages 46 & 45) Place a white 1x4 tile with two studs, horizontally, on the front row of each of the two beds.

Step 90

(Pages 48 & 49) Find the two 1x2 log bricks in front of the back wall. Place a tan 2x4 plate, horizontally, on these two pieces to make a small table.

Step 91.1

(Pages 50 & 51) Now we'll make the girls' lava lamp! Place a white 1x1 round brick on the second stud from the left on the front row of the last piece.

Step 91.2

(Pages 50 & 51) Place a sparkly transparent orange 1x1 cone on the last piece.

Step 92

(Pages 52 & 53) The girls have a watermelon rug, similar to the kiwi one in the living room! Place a light brown 2x4 tile with a watermelon rug pattern, horizontally with the wide side of the watermelon print at the back, centered horizontally on the floor so the front sides are even. Place another symmetrically behind the first. You may want to ask a sighted person or use an app to make sure you get the orientation of these tiles right.

Step 93

(Pages 54 & 55) Find the four studs that overhang to the right of the right wall. Place a pale yellow 1x2x2 tall slope, vertically with the slope at the front, on the front two overhanging studs. Place another symmetrically behind the first.

Step 94

(Pages 56 & 57) Place the right column of a pale yellow 2x2 brick on the last two pieces so the left column attaches to the wall.

Step 95

(Pages 58 & 59) Place a dark orange 2x2 round plate with four leaves hanging down on the last piece.

Step 96

(Pages 60 & 61) Place a dark orange 2x2 dome top on the last piece.

Step 97

(Pages 62 & 63) Place an orange 1x1 tile with a clip on top, with the fingers of the clip front to back, on the last piece.

Step 98.1

(Pages 64 & 65) Clip a white bone into the last piece.

Step 98.2

(Pages 64 & 65) Place a purple minifigure head with a Chattermax print on the front right corner of the left bed. Chattermax is a talking, stuffed toy bird.

Bag 4.

Minifigure Group 3: Dad (Bandit)

Assemble the Dad minifigure by putting the torso on the legs and the head on the torso. Dad's fur is mostly light, but he has a large patch of yellow fur on his tummy, his muzzle is yellow, and his head and ears are dark blue. Clip a light green short bar with two leaves into one hand, and the stem of a yellow banana into the other. Dad must be having a snack!

Main Build 4: Kitchen

Group 18.

Note about build order: For the next three steps, we'll start on pages 8 & 9, then work back to pages 6 & 7. We'll continue normally afterwards!

Step 99

(Pages 8 & 9) Let's build the kitchen! Set the other room aside for now. Place a light brown 8x16 base brick, horizontally, in front of you.

Step 100.1

(Pages 6 & 7) Place a light brown 1x4 tile with two studs, vertically and centered vertically, on the rightmost column of the last piece. This is on the set of four recessed studs on the right side of the base brick.

Step 100.2

(Pages 6 & 7) Place a red 1x1 round plate with a flower petal pattern on each of the two studs of the last piece.

Step 101

(Pages 10 & 11) The base brick should have five sets of four recessed studs left. Place a dark orange 1x4 plate on each of these sets of studs: one vertically on the leftmost column, two horizontally on the front row, and two horizontally on the back row.

Step 102.1

(Pages 12 & 13) Now we'll build one of the kitchen walls! Place a pale yellow 2x8x6 door frame, horizontally with the row of eight studs at the back, in front of you.

Step 102.2

(Pages 12 & 13) Find a pale yellow 6x6 printed panel. This piece has a window printed on one side and nothing printed on the other side. The window print goes at the back, so you may want to ask a sighted person for help, or use an app to get the orientation right. Push the panel, with the pegs at the top and bottom, into the 2x8x6 door frame, from the front, until it snaps into place.

Step 103

(Pages 14 & 15) Turn the wall 90 degrees counterclockwise so the column of eight studs is on the left. Place the wall on the floor of the kitchen so the right sides are even.

Step 104.1

(Pages 16 & 17) Now we'll make a kitchen window! Place a pale yellow 1x4x6 door frame, horizontally with the inside ridge at the front, in front of you.

Step 104.2

(Pages 16 & 17) Push a clear 4x6 window pane, with the pegs at the top and bottom, from the front into the last piece until it snaps into place.

Step 105

(Pages 18 & 19) Place the window, horizontally with the pane at the front, on the back row of the floor to the left of the wall.

Step 106

(Pages 20 & 21) Place a pale blue 2x3 plate, vertically, in front of the window and to the right of the wall. Place another in front of the first.

Step 107

(Pages 22 & 23) Place a white 1x2 brick, horizontally, on the back row of the back piece from the last step.

Step 108

(Pages 24 & 25) Place a white 1x2 brick, horizontally, on the last piece.

Step 109.1

(Pages 26 & 27) Now we'll make the oven! We'll do this like we did the mailbox. Place a white 2x2x2 box, with the open side at the front, in front of you.

Step 109.2

(Pages 26 & 27) Now we'll add the door! There are two little bits sticking out of the front of the last piece at the bottom. Find a clear 2x2 door. This piece has no studs or anti-studs, and it's smooth on one side. One end has two little slits in it. Clip the slits, with the smooth side of the door at the bottom, onto the two parts sticking out of the bottom of the mailbox. They should click into place, and you should be able to rotate the door open and closed!

Step 110

(Pages 28 & 29) Turn the oven 90 degrees clockwise so the door is on the left. Place it in front of the stack of two 1x2 bricks, to the left of the wall.

Group 19.

Step 111

(Pages 30 & 31) Place a black 2x3 plate, vertically, on the oven so the front sides are even. The back side should connect to the stack of 1x2 bricks.

Step 112.1

(Pages 32 & 33) Next, we'll make a refrigerator. We'll start with the bottom half. Place a white 2x3x2 box, horizontally with the open side at the front, in front of you.

Step 112.2

(Pages 32 & 33) Push a clear blue 2x3 door, horizontally with the handle at the front on the left side, into the open side of the last piece. There are two pegs on the right side of the door that should snap into place, then you should be able to open and close the door.

Step 113

(Pages 34 & 35). Turn the box we just made 90 degrees clockwise so the door is on the left. Place it in front of the oven.

Step 114.1

(Pages 36 & 37) Let's finish the fridge by making an identical top half! Place a white 2x3x2 box, horizontally with the open side at the front, in front of you.

Step 114.2

(Pages 36 & 37) Push a clear blue 2x3 door, horizontally with the handle at the front on the left side, into the open side of the last piece.

Step 115

(Pages 38 & 39) Turn the box we just made 90 degrees clockwise so the door is on the left. Place it on the first half of the refrigerator.

Step 116.1

(Pages 40 & 41) Place a clear 1x1 coffee mug on the back left corner on top of the refrigerator.

Step 116.2

(Pages 40 & 41) Place a silver pan, with the handle on the left, between the studs of the front two rows on the oven.

Step 117.1

(Pages 42 & 43) Now let's make a jar of vegemite! Place a brown 1x1 round brick in front of the coffee mug on the refrigerator.

Step 117.2

(Pages 42 & 43) Place a yellow 1x1 round tile on the last piece.

Group 20.

Step 118.1

(Pages 44 & 45) Place a dark orange 1x2 brick, horizontally, in front of the refrigerator and to the left of the wall.

Step 118.2

(Pages 44 & 45) Place a tan 1x2 brick with a hole, horizontally, to the left of the last piece.

Step 119

(Pages 46 & 47) Place a pale yellow 1x4 brick, horizontally, on the last two pieces.

Step 120

(Pages 48 & 49) Place a pale yellow 1x4 brick, horizontally, on the last piece.

Step 121

(Pages 50 & 51) Place a pale yellow 1x4 brick, horizontally, on the last piece.

Step 122

(Pages 52 & 53) Place a pale yellow 1x4 brick, horizontally, on the last piece.

Step 123.1

(Pages 54 & 55) Place a dark orange 1x2 brick, horizontally, on the right two studs of the last piece.

Step 123.2

(Pages 54 & 55) Place a tan 1x2 brick with a hole, horizontally, to the left of the last piece.

Step 124

(Pages 56 & 57) Place a pale yellow 2x8 brick, vertically, on the right wall so the right sides are even.

Step 125

(Pages 58 & 59) Place a pale yellow 1x4 brick, horizontally, to the left of the last piece so the front sides are even. Repeat symmetrically on the back side.

Step 126

(Pages 60 & 61) Place a light brown 1x6 plate, horizontally, on each of the last two pieces so the left sides are even.

Step 127

(Pages 62 & 63) Place a light brown 1x6 plate, vertically, between the rightmost studs of the last two pieces.

Group 21.

Step 128.1

(Pages 64 & 65) Now we'll add tiles to the top of this room so we can easily remove the room above it. Place a light brown 1x4 tile with two studs, vertically and centered vertically, on the last piece.

Step 128.2

(Pages 64 & 65) Place a light brown 2x2 corner tile, with the corner at the front right, in front of the piece from the last step so the right sides are even. The front side should be even with the front of the wall. Repeat symmetrically on the back side.

Step 128.3

(Pages 64 & 65) Place a light brown 1x4 tile with two studs, horizontally, on the front wall to the left of the front piece from the last step. Repeat symmetrically on the back side.

Step 129.1

(Pages 66 & 67) Now we'll start building the table. Place a pale yellow 2x2 brick, centered vertically, on the left side of the floor so the left side is even with the left side of the floor.

Step 129.2

(Pages 66 & 67) Place a brown 1x2 tile, vertically, to the right of the last piece.

Step 130

(Pages 68 & 69) Place a pale yellow 2x2 brick to the right of the last piece.

Step 131

(Pages 70 & 71) Place a tan 1x5 plate, horizontally, on the last two 2x2 bricks so the front sides are even. Place another behind the first. These make the top of the table!

Step 132.1

(Pages 72 & 73) Place a white 2x2 round tile with a pizza print on the left two columns of the table.

Step 132.2

(Pages 72 & 73) Place a clear coffee mug, with the handle at the front, on the front row to the right of the last piece. Place another symmetrically behind the first.

Step 133.1

(Pages 74 & 75) Place an orange 1x1 cupcake base on the front right corner of the table.

Step 133.2

(Pages 74 & 75) Place a purple swirl of frosting on the cupcake!

Step 134

(Pages 76 & 77) Place a tan 2x2 chair, with the back of the chair at the front, on the front left corner of the floor. Skip one stud to the right and place another chair. Place two more chairs symmetrically on the other side of the table.

Step 135

(Pages 78 & 79) Now Dad can stand in the kitchen. Maybe he can put his banana in the fridge if he wants to save it for later.

Bag 5.

Minifigure group 4: Bluey

Assemble the Bluey minifigure by putting the torso on the legs, the hole on the fabric cape over the bar on the torso, and the head on the torso on top of the cape. Bluey's fur is mostly medium blue, but she has a large patch of light blue fur on her tummy, her muzzle is light brown, and her head and ears are dark blue with a light blue stripe above her nose. She's wearing a cape with blue, green, yellow, pink, and purple stripes. Add a golden crown by pushing the short bar on the crown into the tiny hole on Bluey's head in front of her ears. Finally, place a magnifying glass in her hand.

Main Build 5: Bathtub Room

Group 22.

Step 136.1

(Pages 6 & 7) Now we'll build a room with a bathtub in it! Set the kitchen aside. Place a light brown 6x8 plate, horizontally, in front of you.

Step 136.2

(Pages 6 & 7) Place a dark orange 1x2 slope tile, horizontally with the tall side at the back, on the front row of the last piece so there's one stud to the left of it. Place two more to the right of the first. There should be one stud to the right of the last piece too.

Step 137.1

(Pages 8 & 9) Now we'll build a wall. Place a pale yellow 2x8x6 door frame, horizontally with the row of eight studs at the back, in front of you.

Step 137.2

(Pages 8 & 9) Find a pale yellow 6x6 printed panel. This piece is printed with a decorative awning on one side. Push the panel, with the pegs at the top and bottom, into the 2x8x6 door frame, from the front, until it snaps into place. The awning printing should be at the front near the bottom. You may want to ask a sighted person or use an app to get the orientation right.

Step 138

(Pages 10 & 11) Place the wall, horizontally with the row of 8 studs at the back, on the front two rows of the floor.

Step 139.1

(Pages 12 & 13) Now we'll add the base for the tub. Turn the floor around. There is printing on this side of the wall too! It shows a shower caddy with soaps, some potted plants, a fish-shaped sponge, and some letters that stick to the wall of a shower. The letters are, from left to right, U, E, Y, L, B. Place a brown 1x2 tile, horizontally and centered horizontally, in front of the wall.

Step 139.2

(Pages 12 & 13) Place a light brown 1x4 tile with two studs, vertically, in front of the wall and to the left of the last piece. Repeat symmetrically on the right side.

Step 140.1

(Pages 14 & 15) Now we will make two windows! Place two pale yellow 1x4x6 door frames, horizontally with the inside ridge at the front, in front of you.

Step 140.2

(Pages 14 & 15) Push a clear 4x6 window pane, with the pegs at the top and bottom, from the front into each of the last two pieces.

Step 141

(Pages 16 & 17) Place one window, vertically with the pane on the right, in front of the wall so the left sides are even. Repeat symmetrically on the right side with the other window.

Step 142

(Pages 18 & 19) Place a pale yellow 2x8 brick, horizontally, on the back wall so the back sides are even.

Step 143

(Pages 20 & 21) Place a pale yellow 1x4 brick, vertically, on the left wall in front of the last piece. Repeat symmetrically on the right side.

Group 23.

Step 144.1

(Pages 22 & 23) Now we'll add tiles on top of the walls to make the room above easier to remove. Place a light brown 1x2 tile, vertically, on each of the last two pieces so the front sides are even.

Step 144.2

(Pages 22 & 23) Place a light brown 1x4 tile with two studs, vertically, behind each of the last two pieces.

Step 145.1

(Pages 24 & 25) Place a light brown 1x2 tile, vertically, to the right of the left piece from the last step so the back sides are even. Repeat symmetrically on the right side.

Step 145.2

(Pages 24 & 25) Place a light brown 1x4 tile with two studs, horizontally, between the last two pieces so the back sides are even.

Sub-Build 1: Bathtub

Group 24.

Step 146.1

(Pages 26 & 27) Now we'll build the bathtub! Set the room aside for now. Place a pale blue 4x6 plate with rounded ends, horizontally, in front of you.

Step 146.2

(Pages 26 & 27) Place a white 1x2 brick, horizontally and centered horizontally, on the last piece so the back sides are even.

Step 146.3

(Pages 26 & 27) Find a white 2x2 rounded corner brick. This brick is cut out so it looks like a macaroni noodle, I'll call pieces with this shape "macaroni" from now on. Place one, with the flat sides on the right and front, to the left of the last piece so the back sides are even. The curve should match the curve of the plate with rounded ends. Repeat symmetrically on the right side.

Step 147.1

(Pages 28 & 29) Place a white 1x2 brick, horizontally and centered horizontally, on the plate with rounded ends so the front sides are even.

Step 147.2

(Pages 28 & 29) Place a white 2x2 macaroni brick, with the flat sides on the left and back, to the left of the last piece so the front sides are even. Repeat symmetrically on the right side.

Step 147.3

(Pages 28 & 29) Place a gold 1x2 tile with a faucet, vertically with the faucet handles at the left, centered vertically on the leftmost column of the bathtub.

Step 147.4

(Pages 28 & 29) Place a yellow rubber ducky on the rightmost stud on the front row of the bathtub. Now the bathtub is done!

Step 148

(Pages 30 & 31) Place the room in front of you, with the walls on the left, back, and right. Place the bathtub, with the faucet on the left, in the room so the front sides are even.

Group 25.

Step 149

(Pages 32 & 33) Next, we'll make Bluey's throne room, which is in the room above the bathtub! Place a light brown 6x8 plate, horizontally, on top of the room.

Step 150.1

(Pages 34 & 35) Place a dark orange 1x6 brick, horizontally and centered horizontally, on the last piece so the back sides are even.

Step 150.2

(Pages 34 & 35) Place a dark brown 2x4 tile with two studs, horizontally and centered horizontally, in front of the last piece.

Step 151

(Pages 36 & 37) Place a dark orange 1x6 brick, vertically, to the left of the 1x6 brick on the roof so the back sides are even. Repeat symmetrically on the right side.

Step 152

(Pages 38 & 39) Place a red 1x3 brick, horizontally, on the two studs of the 2x4 tile with two studs on the roof. This will be the back of the throne.

Step 153.1

(Page 40 & 41) Place a dark orange 1x6 brick, horizontally and centered horizontally, on the back wall.

Step 154.2

(Pages 40 & 41) Place a dark orange 1x6 brick, vertically, to the left of the last piece so the back sides are even. Repeat symmetrically on the right side.

Step 155

(Pages 42 & 43) Place a dark orange 1x4 slope brick, horizontally with the slope on the left, on the back wall so the left sides are even. Repeat symmetrically on the right side.

Step 156

(Pages 44 & 45) Place an orange 1x2 jumper plate, horizontally, on the last two pieces.

Step 157

(Pages 46 & 47) Place a white 1x1 round brick on the left stud of the 1x3 brick. Place another on the right stud.

Step 158

(Pages 48 & 49) Place a lime green 1x1 ball on each of the last two pieces.

Step 159.1

(Pages 50 & 51) Place a red 2x2 chair, with the chair back at the back, in front of the 1x3 brick. There should be one free row in front of it.

Step 159.2

(Pages 50 & 51) Place a light purple 1x2 brick, vertically, to the left of the last piece. Repeat symmetrically on the right side.

Step 160.1

(Pages 52 & 53) Place a white tea kettle on the front stud of the left wall.

Step 160.2

(Pages 52 & 53) Skip one stud behind the last piece and place a white tea cup.

Step 160.3

(Pages 52 & 53) Place a green frog in front of the right 1x2 brick next to the throne.

Step 161

(Pages 54 & 55) Now Bluey can sit on her throne and have a tea party!

Bag 6.

Main Build 6: Outside

Group 26.

Step 162.1

(Pages 4 & 5) Let's start building some grass so Bluey can play outside! Place a green 8x8 base brick in front of you.

Step 162.2

(Pages 4 & 5) Place a red 1x1 round plate with a flower petal pattern on both front corners of the last piece.

Step 163.1

(Pages 6 & 7) Place the right column of a green 2x4 plate, vertically and centered vertically, on the left column of the base brick. This will be on one set of recessed studs. Repeat symmetrically on the right side.

Step 163.2

(Pages 6 & 7) Place a tan 4x4 macaroni brick, with the flat sides on the front and right, behind the left round plate with flower petals so the left sides are even. Repeat symmetrically on the right side. These pieces should meet in the middle.

Step 164

(Pages 8 & 9) Place a green 8x8 plate with one rounded end, with the rounded end on the left, under the overhanging column of the studs on the left side of the base brick. Repeat symmetrically on the right side.

Step 165

(Pages 10 & 11) Now we'll add a tree! Find a brown 3x3x5 quarter tree trunk with two branches. This piece is rounded on one side and hollow inside. The rounded side has two branches, each with two studs. Place this, with one branch pointing back and one pointing right, to the left of the right round plate with flower petals so the front side is even with the front of the base brick. It should be inside the half circle created by the macaroni bricks.

Step 166

(Pages 12 & 13) Place another brown 3x3x5 quarter tree truck, with the branches pointing left and back, to the left of the last piece. The two sides should meet and make a wide tree trunk that's open at the front.

Group 27.

Step 167

(Pages 14 & 15) Place a brown 2x6 plate with two rounded corners, horizontally with the rounded corners at the back, on top of the tree trunk so the back sides are even. There should be one free row on the trunk in front of this piece.

Step 168

(Pages 16 & 17) Place a light brown 1x6 plate, horizontally, in front of the last piece.

Step 169.1

(Pages 18 & 19) Now we'll make a couple of leaves. Place a green 1x1 round plate with three leaves, with the leaves pointing left, in front of you.

Step 169.2

(Pages 18 & 19) Place a red 1x1 round plate with a flower petal pattern on the previous piece.

Step 169.3

(Pages 18 & 19) Repeat steps 169.1-169.2.

Step 170

(Pages 20 & 21) Place one leaf with a flower, with the leaves pointing left, on the right stud on the branch on the left side of the tree. Repeat symmetrically on the right side of the tree.

Step 171.1

(Pages 22 & 23) Find the round plate with flower petals that's on the base brick to the left of the tree. It's in front of a macaroni brick. Place another red 1x1 round plate with a flower petal pattern to the left of this piece.

Step 171.2

(Pages 22 & 23) Now we'll start making a barbeque! Place a light gray 1x4 tile, horizontally, to the left of the last piece.

Step 172

(Pages 24 & 25) Place a green 2x4 plate, horizontally, behind the last piece.

Group 28.

Step 173

(Pages 26 & 27) Place a light gray 2x4 plate, horizontally, on the last piece.

Step 174.1

(Pages 28 & 29) Place a light gray 2x2 brick on the last piece so the right sides are even.

Step 174.2

(Pages 28 & 29) Place a light gray 2x2 brick with a pin on one side, with the pin at the front, to the left of the last piece.

Step 175

(Pages 30 & 31) Place a silver 1x2 grille tile, horizontally, centered horizontally on the last two pieces so the back sides are even. Place another in front of the first. These will be the grille of the barbeque.

Step 176.1

(Pages 32 & 33) Place a tan hot dog bun, vertically, to the left of the back piece from the last step.

Step 176.2

(Pages 32 & 33) Place a light brown hot dog, vertically, in the bun.

Step 177

(Pages 34 & 35) Find a white #2 axle and pin connector. This piece is a long cylinder, about three studs long, with a hole in the middle, and a cross shaped hole at each end. Push the middle hole of this piece, with the piece horizontal, onto the pin on the front side of the barbeque.

Step 178.1

(Pages 36 & 37) Now we'll build a balloon! Place a red 2x2 dome bottom in front of you.

Step 178.2

(Pages 36 & 37) Place a red 2x2 dome top on the last piece.

Step 178.3

(Pages 36 & 37) Find a piece that is a curve bar with a stud near the top, and an axle at the bottom. An axle has a cross-shaped cross-section, just like the hole in the axle & pin connector. Push the round bar into the hollow anti-stud on the bottom of the balloon.

Step 179

(Page 38 & 39) Rotate the balloon so the balloon is on the left and the axle is on the bottom at the right. Push the axle into the hole on the left side of the #2 axle and pin connector on the front of the barbeque. The balloon should fall down to the left when you let go of it.

Step 180.1

(Pages 40 & 41) Now we'll place a garden gnome! Turn the outside assembly around so the tree and barbeque are at the back, with the barbeque at the right. Place a light gray 1x1 round brick with a pug gnome face print on the front stud on the third column from the right on the grass. There should be one free stud to the right of this piece and none in front of it.

Step 180.2

(Pages 40 & 41) Gnomes have pointy hats, so let's put a blue 1x1 cone on the last piece to give our gnome his hat.

Step 181.1

(Pages 42 & 43) Place a green 1x1 round plate with three leaves, with the leaves pointing to the front, on the front right stud on the front branch of the tree.

Step 181.2

(Pages 42 & 43) Place a blue and black butterfly on the last piece.

Group 29.

Step 182

(Pages 44 & 45) Place the middle anti-stud of a white 2x2 tile with a green and red pizza box printed on it on the middle stud of the left 4x4 macaroni tile in front of the tree.

Step 183.1

(Pages 46 & 47) Place a dark gray 1x2 brick, vertically and centered vertically, on the leftmost column of the grass.

Step 183.2

(Pages 46 & 47) Place a brown 2x4 tile with two studs, horizontally, to the right of the last piece.

Step 184.1

(Pages 48 & 49) Place a brown 1x1 swirly cone on the left stud of the last piece. I hope this is just mud!

Step 184.2

(Pages 48 & 49) Place a clear tall bottle behind the 2x4 tile with two studs so there is one free stud to the left of it.

Step 185.1

(Pages 50 & 51) Place a gold 1x2 tile with a faucet, vertically with the faucet handles at the left, on the 1x2 brick on the left side of the grass.

Step 185.2

(Pages 50 & 51) Place a transparent blue tile with a bunch of rounded edges on the right stud of the 2x4 tile with two studs. Looks like someone has made a mess over here!

Group 30.

Step 186

(Pages 52 & 53) Place a brown 1x4 brick, horizontally and centered horizontally, on the tree so the back sides are even.

Step 187

(Pages 54 & 55) Place a brown 1x4 brick, horizontally, on the last piece.

Step 188

(Pages 56 & 57) Place the right stud of a brown 1x3x3 half arch, horizontally with the arch on the left, in front of the left stud of the last piece. Repeat symmetrically on the right side. There should be two free studs between the last two pieces.

Step 189

(Pages 58 & 59) Place a brown 1x4 tile, horizontally and centered horizontally, on the tree in front of the last two pieces.

Step 190

(Pages 60 & 61) Place two 1x3x3 half arches, vertically with the arches at the front, between the first two half arches and behind the last piece.

Step 191

(Pages 62 & 63) Place the back right corner of a brown 2x2 brick on the back stud of the left piece from the last step. Place another to the right of the first. The tops of these pieces should be even with the tops of the four half arches, and the backs of these pieces should be even with the back of the tree.

Step 192

(Pages 64 & 65) Place a brown 1x2 jumper plate, horizontally, on the front studs of the front two half arches. Place two more behind the first.

Step 193.1

(Pages 66 & 67) Great job! Let's add some big leaves to the tree! Place a light green 1x2 plate with big leaves on one side, vertically with the leaves at the front, on the front two pieces from the last step.

Step 193.2

(Pages 66 & 67) Place a light green 1x2 plate with big leaves on one side, horizontally with the leaves on the left, on the left two studs of the left half arch. Repeat symmetrically on the right side.

Step 194.1

(Pages 68 & 69) Place the left stud of a green 1x2 curved slope tile, horizontally with the tall side on the left, on the right stud of the left leaf from the last step. Repeat symmetrically on the right side.

Step 194.2

(Pages 68 & 69) Place the front stud of a green 1x2 curved slope tile, vertically with the tall side at the front, on the back stud of the front leaf.

Step 195

(Pages 70 & 71) Place a red 1x1 round plate with a flower petal pattern on the free stud of each of the three big leaves. This completes the outdoor assembly!

Main Build 7: Assembling the House

Step 196

(Booklet #1, page 68) Now we'll put the whole house together! Place the living room in front of you, with the fence and mailbox at the back. The wall should be at the back.

Step 197

(Page 68) Place Mum and Dad's bedroom, horizontally with the windows on the left and the wall at the back, on top of the walls of the living room. The floor of the bedroom should be even with the walls of the living room, but the floor of the living room should stick out towards the front.

Step 198

(Page 69) Place Bluey and Bingo's bedroom, horizontally with the pointed wall at the back, on the walls of Mum and Dad's room. Like the last room, the floor should be even with the walls below it.

Step 199

(Booklet #4, page 80) That's one side of the house done, let's build the other one! Place the kitchen, vertically with the dining room table at the front, in front of you.

Step 200

(Page 80) Place the room with the bathtub and Bluey's throne, with the windows on the left and right and the wall at the back, on the walls of the kitchen. The floor should be even with the walls of the kitchen.

Step 201

(Page 81) Now we'll attach the two sides of the house! There are two holes on the right wall of the kitchen, and two pins on the left side of the living room. Push the pins into the holes to connect the two sides! The floors should be even, but the walls will be offset somewhat. The outside doesn't attach to the house.

Thank you so much for building this set!

There are two pages of ads after the instructions end. The first page is for the LEGO Bluey app, which you can download on the App Store or on GooglePlay!

The second page has ads for three sets. The first is set number 11202, Bluey's Beach and Family Trip. The second is set number 11201, Playground Fun with Bluey and Chloe. The last is this set, set number 11203 Bluey's Family House.

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

We hope you enjoyed building your LEGO set! Bricks for the Blind is able to create these text-based building instructions thanks to generous donations from our builders. If you enjoy the instructions we create, please consider making a \$5 donation at: <https://www.gofundme.com/f/bricks-for-the-blind-gofundme>.

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.
