

31040 Desert Racers

Welcome to Text-Based Building Instructions from Bricks for the Blind. Here is some helpful information on how to best use screen readers and browsers: bricksfortheblind.org/help-with-screen-readers. Before you start building, here are some terms we will be using:

Front: towards you.

Back: away from you.

Up: towards the ceiling.

Down: towards the floor.

Stud: the bump on a Lego brick. Example: A 2x1 brick has two studs on it.

Vertically: going from front to back.

Horizontally: going from left to right.

Upright: pointing up towards the ceiling, and down towards the floor.

Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.

There are also abbreviations defined at the end of this file.

Model 1: (the largest model, a jeep-style car.)

Start Building

Step 1

Put a f6x2 upside-down hor on the table. Put a f2x1 with clasp, upside-down ver, clasp to the left, on the left edge. 2. Put a f2x1 ver upside-down to the right. Put a 2x1/2x1 upside-down ver on the right edge, side buttons overhanging to the right and to the bottom. Put a f2x1 ver to the left.

Model 2: Model 3: Put a f2x1 with axles, ver on the left edge, and the other one on the right edge.

Step 4

Flip it right-side up, back to front. Put a f2x2 on the left edge, and the other f2x2 on the right edge.

Step 5

Put a f4x1 ver to the left, overhanging to the front and back. Put a f4x1 ver to the left. Install the handlebars into the clasp and turn upright.

Step 6

Put a 4x2 wheel-rim ver on the left edge, above the axles. Put a f4x1 ver to the right. Put the other wheel-rim ver to the right.

Step 7

Make a part, put a 2x1/4x1 corner piece. put a round f1x1 on the front button of the 4x1, put a f2x1 grate piece hor to the back. put the other f1x1 round piece to the back. Mount this part hor, on the left edge, above the steering wheel.

Step 8

Put a f2x1/4x1 corner hor on the right edge. Put a f2x2 to the left, put a f2x1 hor ro the left of the front and back forward of the pp.

Step 9

Put a f2x1 in the middle gap in the front row, and another f2x1 in the gap of the back row.

Step 10

Put a f2x1/f2x1 corner piece ver on the right edge. Put a f1x1 to the front, and an f1x1 to the back.

Step 11

Put a 2x1 ver in the middle of the right edge. Put a 1x1 with a clasp to the back, clasp to the right, repeat symm at the front.

Step 12

Put a 2x1 bench piece in the middle of the right edge, ver, seat to the left. Repeat to the left. Put a 2x1 ver on the front edge, to the left of the PP. put another part to the back. Put two 2x1 ribbed slide pieces, hor in the middle of the left edge, long side to long-side, slides to the left.

Step 14

Take 2 f2x1/2x1 corner piece, s, and put 2 1x1 buttons on their vertical buttons. Put them ver, buttons to the left on the 2 2x1 pieces to the right of the 2x1 ribbed ladder pieces.

Step 15

Put an fs4x1 hor on the front row, on top of the Put a 2x1 grate ver on the two buttons at the right. Put a fs4x1 hor to the back and to the left. 16. Put 2 f1x1 clasps hor in the 2x1 gap, to the right of the 1x1 buttons.

Step 17

Put a ladder into the clasps.

Step 18

Make a part take f2x1 and lay it hor on the table. Put 2 f2x1 stepped pieces on the f2x1 to form a bumper piece. Put this piece at the bottom 2x1 buttons hor, on the right edge.

Step 19

Mount a fs2x2 disk with a hole on the right edge. Put 2 fs1x1 pieces on the free buttons on the right edge (lower front, and lower back corners.) Put a stick into the front clasp, and a faucet into the other clasp on the right edge. Put on the ties on the wheels and put them onto the axles.

You are done!

Thank you so much for building this set!

Abbreviation definitions:

F = flat (Plate.)
FS = flat smooth (tile)
Slide = slope.
Lip = inverted slope.
Ribbed stick = Technic axle.
Connector = Technic pin.
Stubby or Short connector = Technic pin with stud.
Long connector = elongated Technic pin.
Nail = technic axle with end stop.
Fat nut = Technic joiner.
Thin nut = Technic stop.
Elbow = technic joiner 90 dg.
1x1, 2x1, 3x1... means a 1x1, 2x1, 1x3... brick.
Ver = vertically.
Hor = horizontally.
Symm = symmetrically.
LMA = Lay Momentarily Aside.
PP = previous piece.
Sep bag = separate bag.
Braille letters (for placing corner pieces):
D = open corner to the front left.
F = open corner to the front right.
J = open corner to the back left.
H = open corner to the back right.

We hope you enjoyed building your LEGO set! Bricks for the Blind is able to create these text-based building instructions thanks to generous donations from our builders. If you enjoy the instructions we create, please consider making a \$5 donation at: <https://www.gofundme.com/f/bricks-for-the-blind-gofundme>.
