

42625 Beach Smoothie Stand

Adapted by John Le and tested by Natalie Charbonneau.

Kids can create lots of different smoothie flavors by combining ingredients and then mixing them in the blender. They can act out the story as Nova and Niko relax with a drink on the swing before exploring in the beach buggy. This LEGO building set comes with lots of accessories to fuel imaginative play, including a menu board, surfboard, life jacket, dashboard camera, and signpost.

Kids' play food set – Girls and boys aged 6+ can enjoy smoothie-making fun at the beach with this LEGO® Friends Beach Smoothie Stand role-play toy, which includes 2 mini-dolls and a turtle figure.

Mix up smoothie combinations – Imaginative play is lots of fun with this LEGO® set as kids choose ingredients and place them in the blender ready to mix up tasty drink combos.

Create the beach scene – As well as a buildable smoothie stand, this set comes with a buildable beach buggy, a swing, a cooler, and a signpost so kids can enjoy making up their own beach-inspired stories.

2 mini-dolls and a turtle figure – This set comes with a turtle figure, a Niko mini-doll, and a Nova mini-doll with an extra face to show her reaction when she gets sand in her eyes.

Lots of accessories for storytelling – Includes strawberry, banana, blueberry, orange, yogurt, and peanut butter smoothie ingredients, plus glasses, a surfboard, a life jacket, and a dashboard camera.

Measurements – 213-piece set with a smoothie stand measuring over 5 in. (13 cm) high, 5 in. (12 cm) wide and 1.5 in. (4 cm) deep.

The front of the box shows the beach smoothie stand in the back! It has a bar, menu, and even a swing! To the right, there is a sign that shows where everything is. Nova is on a vehicle coming from the right, saying hi to Niko who is about to surf!

The back of the box shows the beach smoothie stand. The car is parked to the right with a surfboard leaning on it. Nova is swinging on the swings while drinking a smoothie! Niko is in front playing with a turtle!

The top of the box shows a real-sized image of Nova!

The build is 213 pieces in total and is for ages 6+.

Bag 1 includes the pieces for the sign, vehicle, minifigures, cooler, and drinks!

Bag 2 includes the pieces for the beach smoothie stand!

Welcome to Text-Based Building Instructions from Bricks for the Blind. Here is some helpful information on how to best use screen readers and browsers: bricksfortheblind.org/help-with-screen-readers. Before you start building, here are some terms we will be using:

- In Front of/Front: towards you.

- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/42625>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 2 bags labeled 1 and 2, 2 sets of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Minifigures, Sign, Vehicle, Cooler, and Drinks

Group 1 - Right Minifigure on Page 5.
Group 2 - Left Minifigure on Page 5 and Page 6.
Group 3 - Page 7.
Group 4 - Page 8.
Group 5 - Steps 1-9.
Group 6 - Step 10.
Group 7 - Steps 11-13.
Group 8 - Steps 1-18.
Group 9 - Steps 19-25.

Bag 2 - Beach Smoothie Stand

Group 10 - Steps 1-21.
Group 11 - Step 22.
Group 12 - Step 23.
Group 13 - Steps 24-37.
Group 14 - Steps 38-44.
Group 15 - Steps 45-49 and 4 light brown 1x2 plates with claws from Steps 50-51.
Group 16 - Rest of Steps 50-51 and Steps 52-65.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Niko

Sub-build 1. Locate 1 tan pair of legs printed with light blue shorts and light green shoes, 1 torso printed with an orange and blue shirt, 1 tan head printed with dark brown eyes and a smile, and 1 black hair! Assemble your minifigure then put him aside while we make another minifigure!

Group 2 - Nova

Sub-build 2. Locate 1 tan pair of legs printed with light green shorts and yellow flip-flops, 1 torso printed with a light blue top, 1 tan head printed with dark tan eyes and red lips, and 1 tan hair. Assemble your minifigure and put her aside while we make a cooler!

Group 3 - Cooler

Step 1

Horizontally place a light purple 2x4 chest bottom in front of you so the lower lip faces the back. Then place a white 2x4 chest top on top so it attaches to the back.

Step 2

Place a dark blue 1x1 round tile, a light yellow 1x1 round tile, 1 orange 1x1 round tile printed with an orange, and 1 pink 1x1 round tile printed with a strawberry inside the chest! Then close it!

Group 4 - Drinks

Step 3

Place a white 1x1 round brick and a light brown head in front of you. Place a green 1x1 round tile on top of each of them. These are drinks! Now put everything away so we can make a palm tree with signs!

Group 5 - Palm Tree with Signs

Step 1

Place a tan 3x3 quarter plate in front of you so the curved side faces the front left corner.

Step 2

Vertically place a light grey 1x2 slope brick in the back right corner so it slopes to the front.

Step 3

Place a light brown 1x1 round brick on the back row to the left of the previous 1x2 slope brick.

Step 4

Horizontally place a lime green 1x2 plate on top of the slope brick and 1x1 round brick.

Step 5

Place a brown 1x1 brick with a side stud and a bottom lip on the left stud of the 1x2 plate so the side stud faces the left.

Step 6

Place a brown 1x1 brick with a side stud and a bottom lip on top of the previous 1x1 brick with a side stud so the side stud faces the front.

Step 7

Place a brown 1x1 brick with a side stud and a bottom lip on top of the previous 1x1 brick with a side stud so the side stud faces the left.

Step 8

Place a light brown 1x1 round brick on top of the previous brick. Then place a dark green 1x1 round tile with an upward bar on top.

Step 9.1

Horizontally place an orange 1x3 tile with a sticker upright on the bottom left-facing side stud so it is centered horizontally.

Step 9.2

Skip this step if you have already placed your sticker! Ask a helper to place sticker 2 on the orange 1x3 tile. This sticker has an arrow pointing to the left and it says "HL VALLEY". Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

Group 6 - Palm Tree with Signs

Step 10.1

Horizontally place a lime green 1x3 tile with a sticker upright on the middle front-facing side stud so it is centered horizontally.

Step 10.2

Skip this step if you have already placed your sticker! Ask a helper to place sticker 3 on the lime green 1x3 tile. This sticker has an arrow pointing to the right and says "GREEN-TECH". Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

Group 7 - Palm Tree with Signs

Step 11.1

Horizontally place a light blue 1x3 tile with a sticker upright on the top left-facing side stud so it is centered horizontally.

Step 11.2

Skip this step if you have already placed your sticker! Ask a helper to place sticker 1 on the lime green 1x3 tile. This sticker has an arrow pointing to the right and says "HL RIDGES". Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

Step 12

Attach the clip of a lime green 1x2 rounded plate with a lot of leaves to the top-facing bar so the leaves face the front.

Step 13

Place a light green sea turtle next to the tree! Now put everything away while we make a car!

Group 8 - Car

Step 1

Horizontally place a light grey 2x8 plate in front of you.

Step 2

Place a black 2x2 plate with a pin on the front left corner so it overhangs to the front and the pin faces the front. Then repeat symmetrically to the back.

Step 3

Vertically place a white 1x2 plate to the right of the previous 2x2 plates with pins. Then vertically place a lime green 2x6 plate to the right so it is centered vertically. Then vertically place a white 1x2 plate to the right.

Step 4

Place a black 2x2 plate with a pin on the front right corner so it overhangs to the front and the pin faces the front. Then repeat symmetrically to the back.

Step 5

Place a black 1x1 plate with a clip on the front left corner so the clip faces the left. Then repeat symmetrically to the back. Then vertically place a black 1x2 plate with a rail on the leftmost column in between the 1x1 plates so the rail faces the left.

Step 6

Horizontally place 2 lime green 2x6 plates, 1 in front of the other, to the right of the previous plates.

Step 7

Horizontally place a white 1x2 plate on the front middle overhang of the 2x6 plate. Then repeat symmetrically to the back.

Step 8

Place a transparent red 1x1 round plate in the front right corner. Then repeat symmetrically to the back.

Step 9

Vertically place a light blue 2x4 plate on the 2 leftmost columns so it is centered vertically.

Step 10

Vertically place a light blue 2x4 sloped curved tile on top of the previous 2x4 plate so it slopes to the left.

Step 11

Place a light blue 1x1 brick on the front row to the right of the previous sloped curved tile. Then repeat symmetrically to the back. Now horizontally place a light blue 2x4 plate in between them.

Step 12

Vertically place a white 1x2 steering wheel on the leftmost column of the previous 2x4 plate so the wheel faces the right.

Step 13

Place a white 2x2 plate with 2 side studs on the front 2 rows to the right of the 1x1 brick so the side studs face the front. Then repeat symmetrically to the back.

Step 14

Vertically place 2 light orange 1x2 panels with a middle wall, 1 in front of the other, to the right of the 1x1 bricks and steering wheel so the middle walls face the right.

Step 15

Vertically place a light orange 2x4 tile to the right of the previous 1x2 panels with a middle wall.

Step 16

Horizontally place a light grey 1x2 log brick on the front right corner. Then repeat symmetrically to the back.

Step 17

Vertically place a light grey 1x2 log brick on the rightmost column in between the previous log bricks. Then vertically place a light grey 1x2 plate with a bar on top so the bar faces the right.

Step 18

Horizontally place a light blue 1x4 tile with 2 studs on the front row on top of the 2x2 plate with 2 side studs so it is centered horizontally. It should overhang to the left and right. Then repeat symmetrically to the back.

Group 9 - Car

Step 19

Vertically place a light blue 2x6 plate with a rounded side on the 2 rightmost columns so it is centered vertically and the round side faces the right.

Step 20

Place a lime green 2x2 tile with 2 studs on the 2 rightmost columns so it is centered vertically and the studs are on the right. Then place an orange life vest on the right-facing bar so it faces the right.

Step 21

Vertically place a lime green surfboard on top of the 2x2 tile with 2 studs so it is centered vertically and the tip faces the front.

Step 22

Place a white 1x1 plate with a side stud on the leftmost column and 2nd row from the front so it sits in front of the steering wheel and the side stud faces the left. Then place a white 1x1 tile with a rounded side on top so the rounded side faces the right. Then place a transparent 1x1 round tile upright on the left-facing side stud.

Step 23

Let's make a part! Place a black 1x1 rounded plate with a bar in front of you. Then place a transparent 1x1 round tile on top. Now repeat again so you have 2 parts in total! Then attach the bar of 1 part to the front left-facing clip so the round tile is on top and faces the left. Then repeat symmetrically to the back.

Step 24

Horizontally place a lime green 2x4 angled plate upright on the front-facing side studs so it is centered horizontally, the long side is on top and it hangs down. Then repeat symmetrically to the back.

Step 25

Insert 4 light grey wheels into 4 black tires. Now attach them to the front-facing and back-facing pins so the ridged side faces outward.

Building Instructions (Bag 2, Book 2):

Group 10 - Beach Smoothie Stand

Step 1

Place a tan 6x6 quarter plate in front of you so the rounded side faces the front left corner. Then place a white 1x1 round tile in the back left corner.

Step 2

Vertically place 2 teal 1x2 log bricks, 1 in front of the other, to the right of the previous 1x1 round tile.

Step 3

Vertically place 2 teal 1x2 log bricks, 1 in front of the other, on top of the previous 1x2 log bricks.

Step 4

Vertically place a white 1x2x2 panel with an arch window on the back 2 rows to the right of the log bricks so the wall faces the left.

Step 5

Horizontally place a white 2x4 plate on the back 2 rows to the right of the previous panel so it overhangs 1 column to the right.

Step 6

Horizontally place a tan 6x10 plate underneath the overhang so the front row is aligned with the front row of the 6x6 quarter plate!

Step 7

Vertically place a white 1x2 panel with a window on the back 2 rows to the right of the previous 2x4 plate so the wall faces the right.

Step 8

Horizontally place a white 1x6 tile in front of the previous 1x2 panels and 2x4 plate.

Step 9

Place a teal 1x1 plate in front of the leftmost and rightmost columns of the previous 1x6 tile.

Step 10

Stack 2 teal 1x2 log bricks together then vertically place them to the right of the previous 1x2 panel with a window. Now stack 2 more teal 1x2 log bricks together then vertically place them in front.

Step 11

Place a tan 1x1x2 brick with 2 side studs on each of the previous 1x1 plates so the side studs face the front.

Step 12

Let's make a part! Horizontally place a teal 1x2x2 window frame in front of you so the thinner side faces the front. Then attach a purple lattice window to the front. Now repeat again so you have 2 parts in total. Now horizontally place them, 1 to the right of the other, in between the 1x1x2 bricks with side studs so the windows face the front.

Step 13

Place a white 2x2 plate on top of the right 1x2 panel and 1x2 log brick.

Step 14

Horizontally place a white 2x6 plate in front of the previous 2x2 plate so there is no overhang in the front and right.

Step 15

Horizontally place a white 1x2 jumper plate in the front left corner of the previous 2x6 plate. Then horizontally place another 1 to the right.

Step 16

Horizontally place a light grey 1x2 grill tile behind the 1x2 jumper plates so it is centered horizontally to them.

Step 17

Place the front 2 rows of a white 3x3 quarter plate to the left of the previous 2x6 plate so the curved side faces the front left.

Step 18

Horizontally place a white 1x3 plate behind the previous 3x3 quarter plate so it overhangs 1 stud to the left.

Step 19

Place a teal 1x1 round brick on the right stud of the previous 1x3 plate. Then place another 1 to the left of the 1x2 jumper plate.

Step 20

Place another teal 1x1 round brick on top of each of the previous 1x1 round bricks.

Step 21

Vertically place a teal 1x4 archway on top of the previous 1x1 round bricks.

Group 11 - Beach Smoothie Stand

Step 22.1

Let's make a part! Place a red 1x1 round plate in front of you. Then place a transparent 1x1 round brick on top.

Step 22.2

Insert the upward bar of a transparent 1x1 round tile into the top of the round brick.

Step 22.3

Place a red 1x1 round plate upside down on top. Then place a green stem with 3 leaves on top.

Step 22.4

Now place it on the left 1x2 jumper plate.

Group 12 - Beach Smoothie Stand

Step 23

Repeat step 22 but now use lime green 1x1 round plates. Now place it on the right 1x2 jumper plate.

Group 13 - Beach Smoothie Stand

Step 24

Stack 2 teal 1x2 log bricks, then horizontally place them to the right of the previous 1x2 jumper plates. Then stack 2 more teal 1x2 log bricks together, and horizontally place them behind the previous log bricks so they sit on the back row.

Step 25

Vertically place 2 teal 1x4 archways, 1 to the right of the other, on top of the log bricks from the previous step.

Step 26.1

Vertically place a light orange 2x4 rounded tile with a sticker upright on the left 1x2 front-facing side studs so it attaches to the bottom right corner.

Step 26.2

Skip this step if you have already placed your sticker! Ask a helper to place sticker 4 on the light orange 2x4 rounded tile. This sticker is a menu and has a banana, strawberries, and some drinks! Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

Step 27.1

Vertically place a light orange 2x4 rounded tile with a sticker upright on the right 1x2 front-facing side studs so it attaches to the bottom left corner.

Step 27.2

Skip this step if you have already placed your sticker! Ask a helper to place sticker 5 on the light orange 2x4 rounded tile. This sticker is a menu and has oranges, blueberries, and drinks! Make sure the sticker is placed on correctly and is oriented on the build correctly, ask a sighted person to check.

Step 28

Vertically place 2 teal 1x2 log bricks, 1 in front of the other, on the back right corner. Then vertically place another one on top of each of them.

Step 29

Place a white 1x1 brick printed with an orange sun in front of the previous 1x2 log bricks. Then place a white 1x1 round tile with an upward bar on top.

Step 30

Vertically place a white 1x4 tile with 2 studs on the back right corner on top of the 1x2 log bricks.

Step 31

Place a teal 1x1 round brick on each of the studs of the previous 1x4 tile.

Step 32

Place another teal 1x1 round brick on top of each of the 1x1 round bricks from the previous step.

Step 33

Vertically place a teal 1x4 archway on top of the previous 1x1 round bricks.

Step 34

Horizontally place a light brown 1x8 archway on the back right corner on top of the 1x4 archways. Then horizontally place a light brown 1x6 archway to the left.

Step 35

Let's make a part! Horizontally place a teal 1x2x2 window frame in front of you so the thinner side faces the front. Then attach a purple lattice window to the front. Now vertically place it on the leftmost column in front of the 1x8 archway so the window faces the left.

Step 36

Vertically place a tan 1x2 brick with a pin on the rightmost column in front of the 1x8 archway so the pin faces the left. Then vertically place another 1 in front of the leftmost column of the right 1x8 archway so the pin faces the right.

Step 37

Vertically place a teal 1x2 log brick on top of each of the previous 1x2 bricks with a pin.

Group 14 - Beach Smoothie Stand

Step 38.1

Let's make a part! Vertically place a light blue 2x3 plate in front of you.

Step 38.2

Horizontally place a light orange 1x2 panel with a middle wall on the back row so the middle wall faces the front.

Step 38.3

Place a light orange 2x2 tile in front of the previous panel.

Step 38.4

Horizontally place a white swing underneath the front 2 rows so the 2x3 plate overhangs 1 row to the back.

Step 38.5

Horizontally place your part on top of the pins from the previous 1x2 bricks so the overhang faces the front.

Step 39

Horizontally place a light brown 2x16 plate on the back 2 rows.

Step 40

Horizontally place a light brown 1x8 archway in front of the previous 1x2 bricks with a pin. Then horizontally place a light brown 1x6 archway to the left.

Step 41

Horizontally place a tan 2x4 tile in front of the 4 rightmost columns of the previous 2x16 plate. Then repeat symmetrically to the left.

Step 42

Place a teal 2x2 turntable plate on the back left corner on top of the 1x3 plate and 3x3 quarter plate. Then place a light grey 2x2 round turntable plate on top. Now place a light orange 2x2 round tile with a stud on top.

Step 43.1

Let's make a part! Place a light orange 2x2 round tile with a stud in front of you. Then place a transparent 1x1 round tile with an upward bar on top.

Step 43.2

Place a tall transparent dome upside down on top of the upward bar. Then place a transparent 2x2 round plate with a smooth underside upside down on top.

Step 43.3

Place your part on top of the back left corner on top of the 2x2 round tile with a stud.

Step 44

Horizontally place a tan 1x2 panel with clip hands in the back right corner so the long wall faces the back. Then horizontally place another tan 1x2 panel with clip hands in the back left corner of the 2x16 plate so the long wall faces the back.

Group 15 - Beach Smoothie Stand

Step 45

Let's make a part! Horizontally place a light brown 2x16 plate in front of you.

Step 46

Horizontally place a tan 1x4 plate in the back left and back right corners.

Step 47

Place 2 tan 1x1 clips, 1 to the right of the other, on the back row so together they are centered horizontally and the clip hands face front and back.

Step 48

Horizontally place a light brown 2x6 tile in front of the 1x1 clips so it is centered horizontally and overhangs to the front.

Step 49

Horizontally place a light brown 2x16 plate underneath the overhang so the leftmost and rightmost columns are aligned.

You will have 4 extra light brown 1x2 plates with claws. Save them for later!

Group 16 - Beach Smoothie Stand

Step 50

Place a dark orange 1x2 plate with claws on the back left corner so the claws face the front. Then repeat symmetrically to the right. Now place a light brown 1x2 plate with claws from group 15 to the right of the leftmost 1x2 plate with claws so the claws face the front. Then repeat symmetrically to the right.

Step 51

Place 2 dark orange 1x2 plates with claws, 1 to the right of the other, on the front left corner so the claws overhang to the front. Then repeat symmetrically to the right. Now place a light brown 1x2 plate with claws from group 15 in front of the 2 leftmost columns of the 2x6 tile so the claws overhang to the front. Then repeat symmetrically to the right. Now place a dark orange 1x2 plate with claws in between them so the claws overhang to the front.

Step 52

Flip your part upside down so it is horizontal and the claws face the front. Then place a brown 2x2 plate with a bar underneath in the back left corner so the bar faces the back. Then repeat symmetrically to the right.

Step 53

Now attach the bars of your previous part to the 1x2 rotator panels that are in the back left and back right corners of your main build so the claws face the front! Make sure it is bent down to the front!

Step 54

Let's make a part! Horizontally place a light blue 4x8 plate with a rounded side in front of you so the rounded side faces the back.

Step 55

Place a purple 2x2 round tile in the front left corner.

Step 56

Place a green 1x1 plate with 3 leaves behind the previous tile so the leaves face the back left.

Step 57

Place a purple 2x2 round tile on the back 2 rows to the right of the previous 1x1 plate with 3 leaves. Then place a light green 1x1 round plate to the right of the front row of the previous 2x2 round tile.

Step 58

Horizontally place a light blue 2x3 plate on the front 2 rows to the right of the 2x2 round tile that is in the front left corner.

Step 59

Place the front two rows of a red 4x4 quarter plate to the right of the previous 2x3 plate so the rounded side faces the back right and it overhangs to the right.

Step 60

Place a lime green 1x4 curved tile on the curved side of the previous 4x4 quarter plate. There should be no overhang.

Step 61

Flip your build upside down so it is horizontal and the rounded side faces the back. Now horizontally place a light blue 1x2 plate with a bar on the front row of the 4x8 plate with a rounded side so it is centered horizontally to it and the bar faces the front.

Step 62

Horizontally place 2 lime green 1x2 sloped curved plates with a smooth underside on top of the previous 1x2 plate with a bar so they slope outwards to the left and right.

Step 63

Flip your part so it is upright and the rounded side faces the back. Now place a light orange 2x2 round tile with a stud on the back right corner of the 2x3 plate so it sits on the 1x1 round plate. It should not touch the 4x4 quarter plate.

Step 64

Place a light orange 4x4 dish on top of the previous round tile with a stud. Then place a green 1x1 plate with 3 leaves on top so the leaves face the back right.

Step 65

Attach the front-facing bar of your part to the top-facing clips so it is upright and the dish faces the front!

Thank you so much for building this set!

Visit bricksfortheblind.org for more accessible instructions, sign up for our newsletter, and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

We also love seeing your completed builds, so please tag our [Facebook](#) and [Instagram](#) accounts in any photos of your builds so we can share your accomplishments with our Bricks for the Blind community.

We hope you enjoyed building your LEGO set! Bricks for the Blind is able to create these text-based building instructions thanks to generous donations from our builders. If you enjoy the instructions we create, please consider making a \$5 donation at: <https://www.gofundme.com/f/bricks-for-the-blind-gofundme>.

Bricks for the Blind is a registered tax-exempt 501(c)(3) corporation.

At the end of the instruction booklets are advertisements for the following 5 LEGO Friends Theme kits:

42630 Heartlake City Water Park

42618 Heartlake City Café

42624 Adventure Camp Cozy Cabins

42631 Adventure Camp Tree House

42622 Adventure Camp Archery Range
