42692 Ice Cream & Balloon Stand

Adapted by Tammy McLeod and tested by Natalie Charbonneau.

Girls and boys ages 6 and up can enjoy sweet adventures and creative playtimes with the LEGO® Friends Ice Cream & Balloon Stand (42692). The pretend play toy features fun details and cute accessories to fuel kids' imaginations. Liann and Paisley minidolls help kids jump into the story as they set up the stand ready to sell balloons and ice pop treats. Liann comes with a helmet, ready to ride the bike that tows the food stand. Play continues with an adorable ice pop mascot, plus a menu, cash register and phone. There's also a table where the friends hang out together. This kids' role-play set makes a fun birthday gift for girls and boys who love pretend play. Enjoy intuitive building with the LEGO Builder app, zooming and rotating with 3D instructions, while saving and tracking progress – all from the app. Set contains 107 pieces.

FOOD STAND FOR PRETEND PLAY – Kids ages 6 and up can have fun selling ice pops and balloons at the LEGO® Friends Ice Cream & Balloon Stand (42692) with 2 minidolls and accessories for imaginative play

CUSTOMER ROLE-PLAY FUN – Inspire kids to create their own stories as they act out customer and seller roles with this fun LEGO® Friends set which includes a food stand, a bike, balloons and ice pops

2 LEGO® FRIENDS CHARACTERS – This fun playset for girls and boys comes with Liann and Paisley minidolls and a cute ice pop mascot, inspiring lots of stories

LOTS OF FOOD STAND ACCESSORIES – Includes cute details and accessories to inspire kids' creativity, including a menu, a table, balloons, ice pops, a phone and a cash register

GIFT IDEA– This creative toy for kids makes a fun birthday gift for girls and boys ages 6 years old and up who enjoy creating their own stories

A FUN WAY TO BUILD – The LEGO® Builder app guides kids on an intuitive building adventure where they can save sets, track progress and zoom in and rotate models using 3D instructions as they build

ONLINE SHOW – Discover more creative play ideas with other sets (sold separately) and the LEGO® Friends: The Next Chapter online show, where kids get to know the characters of Heartlake City

DIMENSIONS – 107-piece set with a food stand model measuring over 3.5 in. (10 cm) high, 3 in. (8 cm) wide and 2 in. (5 cm) deep

The front of the box shows a mobile stand displaying balloons and ice pops. Paisley is holding a mobile phone and waving to Liann who is holding a balloon. Next to Liann is a sign showing the prices of the balloons and ice cream, behind which is a life-sized mascot that looks like a smiling life-sized ice pop with arms, holding its own ice pop.

The back of the box shows Liann riding the bike connected to the stand, while Paisley now holds an ice cream and the mascot hops around holding a balloon. There are also 3 close up images of the set. The first shows the 2 characters with the mascot all holding balloons. The second image has the girls standing

next to the sign while Liann holds a pop and Paisley holds her phone. The last image shows the girls with the mascot standing around the table while all 3 are holding ice pops.

The top of the box shows a 1:1 image of the Liann minidoll and the 3 holdable pops and mobile phone. The side of the box shows Liann holding a balloon, the mascot holding a pop, and the sales sign.

The build is 107 pieces in total and is for ages 6+.

Welcome to Text-Based Building Instructions from Bricks for the Blind. Here is some helpful information on how to best use screen readers and browsers: bricksfortheblind.org/help-with-screen-readers. Before you start building, here are some terms we will be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back.
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified).
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- “Anti-stud” is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece.
- Centered-horizontally: even amount of space left and right of piece. - Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

For builders with low vision, or a sighted building partner who may want to follow along with the printed visual instructions that come with each set, PDF versions are always online at: https://www.lego.com/en-us/service/building-instructions/42692. As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags or small containers. Have a sighted friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted into groups according to the building steps in the set. Doing this in advance makes locating the pieces easier. See below on how to sort the pieces to correspond to the steps in this

set. Number the containers using letters A-Z, numbers or meaningful names. The parts will be collected into a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1, 2 and 3, and put them in one container.

This LEGO set comes with 2 bags, 1 instruction book, and 1 sticker sheet. The bags are labeled 1, and 2. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Paisley, table, sign and mascot
Group 1 - Paisley minidoll sub build
Group 2 - Table sub build
Group 3 - Sign sub build
Group 4 - Mascot sub build

Bag 2 - Liann and stand
Group 5 - Liann minidoll sub build
Group 6 - Balloon and ice cream stand
Group 7 - 2 medium azure 1x1 plates
Group 8 - 3 medium azure curved 1x4 slope bricks
Group 9 - 3 pink curved 1x4 slope bricks
Group 10 - Magenta balloon
Group 11 - Pink balloon
Group 12 - Green balloon
Group 13 - Cycle parts
Group 14 - Yellow ice pop
Group 15 - Blue ice pop

Let’s get to building!

Building Instructions (Bag 1)

Group 1 contains the pieces for the Paisley minidoll.

Start Building

Step 1

Locate a minidoll torso with pink tank top, minidoll trousers, light nougat minidoll head, long minidoll hair parted on the side, and a medium azure 1x2 tile with cell phone decoration. Put the torso on the trousers, head on the torso, and hair on the head, Place the cell phone in minidoll’s hand.

Group 2 contains the pieces for the table.

Step 2

Locate a medium azure 2x2 round tile with open stud, and a white 2 x 2 x 2 stand with hole. Place the tile on top of the stand.

Group 3 contains the pieces for the sign.

Step 3

Locate a yellow 2x3 tile, and a medium nougat 2x2 tile with upright 1x2 plate. Vertically place the 2x3 tile in front of you. Ask a helper to place sticker 1 on the tile. The sticker shows that balloons cost “2” and the ice pops cost “4”. Place the 2x2 tile with the studs facing front. Rotate the 2x3 tile to stand vertically upright and place the bottom row of the tile on the studs of the 1x2 plate.

Group 4 contains the pieces for steps 4 - 16. You will be building the mascot.

Step 4

Place a yellow 1x2 bracket with 2x2 inverted plate in front of you with the 1x2 bracket facing front.

Step 5

Locate 2 yellow 1x2 bricks with hole. Vertically place the back stud of one brick on the left stud of the bracket. The front stud of the brick will overhang the front of the bracket. Vertically place the second brick to the right of the ppp in the same manner.

Step 6

Locate a yellow 2x3 plate with hole. Place it vertically with the hole toward the front with the back row of studs under the ppps.

Step 7

Locate a gray 1/2 pin and a yellow round 2x2 brick with pin holes. Insert the long part of the pin into the side hole in the brick and place the brick on the 2x3 plate with the pin facing forward.

Step 8

Rotate the build 90 degrees counter clock wise. Place a yellow 1x2 half round tile with the flat edge facing left on the rightmost column.

Step 9

Locate a yellow 2x3 tile. Horizontally place the 2x3 tile in front of you. Ask a helper to place sticker 2 on the tile. The sticker shows the smiling face of the mascot. Place the tile on the 3 leftmost columns.

Step 10

Locate a yellow 2x2 round tile with hole and orient it to stand upright with the smooth side pointing to the left. Connect it to the studs on the left-facing side of the build.

Step 11

Locate a medium azure 2x2 round brick with dome top. Place it on the ppp with the flat side facing left.

Step 12

Locate 2 yellow arms with pin. Rotate the build so that the ppp is on the ground and the sticker faces front. Insert the pin of the first arm into the hole on the left. Insert the pin of the second into the hole on the right.

Step 13

Place a tan 1x1 round plate with open stud on the top of the build.

Step 14

Place a pink cap on the ppp.

Step 15

Locate a white 4L bar, 2 medium azure 2x2 round bricks with dome top, and 1 tan bar with stop ring.

Let’s make a part.

Place one azure round brick with the flat side facing up. Place the tan bar with stop ring upright into the anti-stud in the center of the round brick. Place the second brick with the flat side facing down on top of the other. Place the entire sub build on the upright white 4L bar.

Take this balloon part and place it in the left hand of the mascot.

Step 16

Locate 1 tan bar with stop ring, 1 tan 1x1 round plate with open stud, 1 magenta half cylinder brick, 1 transparent pink 1x1 brick.

Let’s make a part.

Place the 1x1 brick on top of the plate. Place the half cylinder brick on top of the 1x1 brick. Place the entire sub build on the upright tan bar.

Take this ice pop part and place it in the right hand of the mascot.

Building Instructions (Bag 2)

Group 5 contains the pieces for the Liann minidoll.

Step 17

Locate a minidoll torso with green tank top, minidoll hips with short skirt, light tan minidoll head, and minidoll hair with helmet. Put the torso, on the hips with skirt, head on the torso, and hair with helmet on the head.

Group 6 - Balloon and ice cream stand.

Step 18

Place a yellow 2x4 plate horizontally in front of you. Place a yellow 2x2x1 inverted curved brick with 2 recessed studs with the 1x2 plate on the back row of the 2 rightmost columns, with the curve overhanging the back.

Step 19

Place a yellow 2x2x1 inverted curved brick with 2 recessed studs with the 1x2 plate on the front row of the 2 rightmost columns, with the curve hanging off the front.

Step 20

Vertically place a black 1x4 plate with wheels holder on the 2nd column from the left so that it is centered vertically.

Step 21

Locate 2 yellow 2x2x1 inverted curved bricks with 2 recessed studs. Place one with the 1x2 plate on the back row of the 1st column from the left, overhanging to the left with the curve hanging off the back. Place the other on the front row of the 1st column from the left, overhanging to the left with the curve hanging off the front.

Step 22

Place a yellow 2x4 tile horizontally on the 2nd and 3rd rows from the front on the 4 rightmost columns.

Step 23

Place a grey 1x2 plate with 2 clips on the 2nd and 3rd rows on the 1st column from the left, with the clips facing left.

Step 24

Locate 2 yellow 1x1 plates. Place one on the front row in the 3rd column from the left. Place the other on the back row in the 3rd column from the left.

Step 25

Locate 2 medium azure 1x4 plates. Place one horizontally on the front row on the 4 rightmost columns. Place the second symmetrically on the back row.

Group 7 - Balloon and ice cream stand

Step 26

Locate 2 medium azure 1x1 plates. Place one on the front row on the 1st column from the left. Place another on the back row on the 1st column from the left.

Group 6 - Balloon and ice cream stand

Step 27

Place a medium azure 1x2 bracket with 2x2 inverted plate on the 2nd and 3rd row on the 1st column from the left with the 2x2 plate facing right.

Step 28

Place a grey 1x2 brick with clip vertically on the 2nd and 3rd row on the 1st column from the left with the clip facing left.

Step 29

Horizontally place a pink 1x4 brick on the back row on the 4 leftmost columns.

Step 30

Locate a grey 1x4 brick with side studs. Horizontally place the brick with the studs facing front on the front row on the 4 leftmost columns.

Step 31

Locate 2 pink 1x1 bricks. Place one on the back row on the 1st column from the right. Place the second symmetrically on the front row.

Step 32

Locate 1 medium azure 1x2 plate and 2 grey 1x1 plates with clip. Horizontally place the 1x2 plate on the back row on the 2 rightmost columns. Place the 1x1 plates with the clips facing the back on the back row in the 2nd and 3rd columns from the left.

Step 33

Locate 2 medium azure 1x4 plates. Horizontally place one on the front row on the 4 rightmost columns. Vertically place the front stud of the other on the 1st column from the left.

Step 34

Locate 3 tan bars with stop ring. Insert them into the holes in front of the 1x4 brick with side studs in the 3 leftmost columns.

Step 35

Locate 1 transparent yellow round 1x1 tile, 1 medium azure 2x2 tile with stud, 1 medium azure 2x2 brick, 1 white 2x2x2 box.

Let’s make a part.

Place the box with the opening facing left. Place the brick on top of the ppp. Place the 2x2 tile on top of the ppp. Place the 1x1 tile on top of the ppp.

Step 36

Rotate the build 90 degrees clockwise. Rotate the part from the previous step so that the box opening faces up and the 1x1 tile faces front. Place the previously built part into the main build on the 2x2 plate on the inside.

Step 37

Place a white 1x4x3 window frame on the back row facing the back.

Step 38

Place a white 1x4x3 window frame on the front row facing the front.

Step 39

Vertically place a medium azure 2x6 plate centered horizontally over the window frames. The plate will overhang 1 row to the back.

Group 8 - Balloon and ice cream stand

Step 40

Horizontally place a medium azure curved 1x4 slope brick on the front row of the build.

Group 9 - Balloon and ice cream stand

Step 41

Horizontally place a pink curved 1x4 slope brick behind the ppp.

Group 8 - Balloon and ice cream stand

Step 42

Horizontally place a medium azure curved 1x4 slope brick behind the ppp.

Group 9 - Balloon and ice cream stand

Step 43

Horizontally place a pink curved 1x4 slope brick behind the ppp.

Group 8 - Balloon and ice cream stand

Step 44

Horizontally place a medium azure curved 1x4 slope brick behind the ppp.

Group 9 - Balloon and ice cream stand

Step 45

Horizontally place a pink curved 1x4 slope brick behind the ppp.

Group 10 contains the pieces for the Magenta balloon

Step 46

Locate a white 4L bar, 1 white bar holder with clip, 1 tan bar with stop ring, and 2 magenta 2x2 round bricks with dome top.

Let’s make a part.

Place one magenta round brick with the flat side facing up. Place the tan bar with stop ring upright into the anti-stud in the center of the round brick. Place the second brick with the flat side facing down on top of the other. Place the entire sub build on the upright white 4L bar. Place the white bar into the bar holder with the clip pointing down.

Rotate the build so that the tan bars point toward the front. Take this balloon part and clip it to the rightmost tan bar.

Group 11 contains the pieces for the Pink balloon

Step 47

Repeat the previous step except with pink round bricks instead of magenta.

Take this balloon part and clip it to the middle tan bar in the front of the build.

Group 12 contains the pieces for the Green balloon

Step 48

Repeat the previous step except with transparent green round bricks instead of pink.

Take this balloon part and clip it to the leftmost tan bar in the front of the build.

Group 13 contains the pieces for the cycle parts of the stand

Step 49

Locate 2 wheelchair wheels. Attach one to each wheel holder at the bottom of the build.

Step 50

Locate 1 grey handlebars, 1 bicycle wheel, and 1 medium azure tricycle frame.

Let’s make a part.

Attach the handlebars to the clip at the top of the frame. Attach the wheel to the back of the frame. Attach the frame to the 3 clips on the left of the main build.

Group 14 contains the pieces for the Yellow ice pop

Step 51

Locate 1 tan bar with stop ring, 1 tan 1x1 round plate with open stud, 1 yellow half cylinder brick, 1 transparent yellow 1x1 brick.

Let’s make a part.

Place the 1x1 brick on top of the plate. Place the half cylinder brick on top of the 1x1 brick. Place the entire sub build on the upright tan bar.

Rotate the build so that the bicycle is toward the front. Take this ice pop part and place it in the left clip on the left side of the build.

Group 15 contains the pieces for the Blue ice pop

Step 52

Repeat the previous step except with light blue bricks instead of yellow.

Take this ice pop and place it in the right clip on the left side of the build.

Step 53

Place the Liann minidoll on the bicycle

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let’s feature your build on our Builders page. It’s easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

We hope you enjoyed building your LEGO set! Bricks for the Blind are able to create these text-based building instructions thanks to generous donations from our builders. If you enjoy the instructions we create, please consider making a $5 donation at https://www.gofundme.com/f/bricks-for-the-blind-gofundme. Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

Please sign up for our newsletter and follow us on Facebook and Instagram to be the first to know when new instructions are available!

At the end of the instruction book is an illustration of all the sub builds in one scene. The next page is an advertisement for the LEGO Friends series online. The facing page is an advertisement for 5 LEGO Friends sets: Unicorn Dream Café, Liann's Family House, Friendship Tree House Hangout, Horse Stable and Riding Academy, and Horse & Baby Foal Trailer. The back of the book is a page asking for feedback on this LEGO set for a chance to win a prize.
