

77058 Goldie's Cozy House

Adapted by John Le and tested by Jolene Nemeth.

If you're looking for a small Nintendo® LEGO® set for girls and boys aged 6 years old and up, this Goldie's Cozy House (77058) building toy features a much-loved character from the Animal Crossing™ video game series. This creative playset makes a great gift for fans of Animal Crossing, building toys and cute dogs.

The set includes a minifigure of an adorable dog, Goldie, and a buildable house containing a bed and a piano. Outside is a picnic table where kids can role-play breakfast time with a croissant, pear and a drink. Other play possibilities are inspired by Goldie's mailbox and a snail standing on a rock.

LEGO® Animal Crossing™ Goldie's Cozy House – This building set provides imaginative fun for 6-year-old-and-up girls and boys who like Animal Crossing, home-building toys and cute dogs.

Video game character toy with animal minifigure – The set includes a Goldie the dog minifigure, a buildable house with a bed and a piano inside and a picnic table and mailbox outside.

Build-and-play house – Kids step into Goldie's Cozy House for a variety of fun activities, from practicing the piano to enjoying breakfast at the picnic table.

Versatile toy for imaginative role play – This creative building set can be customized in various ways, such as by reconfiguring furniture inside the house.

149-piece set – The house module measures over 3.5 in. (9 cm) high, 4.5 in. (12 cm) wide and 3 in. (7 cm) deep.

The front of the box shows a cozy house in the back. In the front, there is a picnic table, and Goldie the Dog is checking the mail with a mug of coffee in his hands!

The back of the box shows Goldie the Dog sitting in his house playing the piano!

The top of the box shows a real size image of Goldie the Dog!

The build is 149 pieces in total and is for ages 6+.

Welcome to Text-Based Building Instructions from Bricks for the Blind. Here is some helpful information on how to best use screen readers and browsers: bricksfortheblind.org/help-with-screen-readers. Before you start building, here are some terms we will be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the

table.

- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

A note on LEGO Technic™ part names. These parts are somewhat different from regular LEGO bricks. Here are some definitions in case the builder or helper is not familiar with LEGO Technic™.

Axles - An axle is a connector which has an X shaped cross-section. Because their cross section is not round, anything connected to an axle using an axle-hole will rotate with that axle. Axles are longer than they are wide, and the length of an axle corresponds with how many bricks long it is. Aka a 3L axle is three bricks long. Axles come in a variety of lengths, with a 2L axle being the shortest available. They may be combined with pins, or have circular stops on them. A stop prevents the axle from sliding through an axle-hole at a specific point on the axle.

Pins - A pin is a connector which has a circular cross section and a flanged notch out of one or both ends. This flanged notch allows them to click into bricks with a pin-hole. Pins come with and without friction ridges, which are small bumps on the pin which prevent them from rotating freely. For standard pins, black is a high friction pin, and gray is a low friction pin. A standard length pin is two brick lengths long, with a stop in the middle. This prevents a brick from being pushed from one side of the pin to the other. A 1L pin is one brick long and still retains the stop, however it also includes a hollow stud at the other end. A 3L pin is three bricks long, and only contains a stop at one side, allowing two bricks to be pushed onto the other side of the pin. Pins may also have one side which is an axle.

Technic brick - a brick which contains one or more holes which accept technic pins.

Lift-arms - A lift-arm is a basic structural element, similar to a brick or a plate, but usually without any studs. It is a beam with rounded ends and with holes in it, with the same spacing as the studs on a LEGO brick. lift-arms come in a variety of lengths, including a 1x1 lift-arm which looks like a cylinder. Thick lift-arms are as wide as a LEGO brick, and thin lift-arms are half as wide as a LEGO brick, but not the same thickness as a LEGO plate! The holes in a lift-arm arm may accept axles or pins. They also come in a variety of shapes, including tees, ells and triangles.

Gears - A gear is a functional element. They are typically discs with teeth on the outside, there are also worm gears which look like a spiraling cylinder! Gears connected by axles transmit or even transform rotational motion!

Axle and Pin Connectors - These elements are typically smaller than lift-arms and are used to connect some combination of pins or axles. They might have pins or axles, as well as axle or pin-holes. They have a lot of different angle combinations! The simplest just connects two axles or pins together in a straight line.

Bushes/Bushings - LEGO Technic™ uses bushes largely as spacers, but they also can reduce friction between rotating parts, or can form useful elements such as handles. Bushes are typically light gray, generally cylindrical, and have an axle-hole running through the middle. They have a flange at the front and back to make them easier to pull on and off.

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (<https://www.lego.com/en-us/service/buildinginstructions/77058>) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 3 bags labeled 1 to 3, 1 set of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Goldie the Dog, Mailbox, and Picnic Table

Group 1 - Page 5.

Group 2 - Steps 1-7.

Group 3 - Steps 8-11.

Group 4 - Steps 12-21.

Bag 2 - Cozy House

Group 5 - Steps 22-31.

Group 6 - Steps 32-39.

Group 7 - Steps 40-49.

Group 8 - Steps 50-60.

Bag 3 - Cozy House

Group 9 - Steps 61-73.

Group 10 - Steps 74-83, 1 nougat 2x2 round plate from Step 84, and 1 brown 2x6 plate from Step 85.

Group 11 - Rest of Steps 84-85 and Steps 86-90.

Let's get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Goldie the Dog

Sub-build 1. Locate 1 short light yellow pair of legs, 1 torso printed with a yellow shirt with orange and green plaid stripes, 1 light yellow head printed with a nose, lips, eyes, and floppy ears. Assemble your minifigure then put him away while we make the mailbox!

Group 2 - Mailbox

Step 1

Horizontally place a green 2x4 plate in front of you.

Step 2

Place a light green 4x4 rounded plate on the 2 rightmost columns so it is centered vertically.

Step 3

Place a dark grey 2x2 corner slope brick on the back right corner so it slopes to the front right.

Step 4

Let's make a part! Place a tan 2x2 plate in front of you. Then vertically place a tan 1x2 plate on the leftmost column.

Step 5

Vertically place a tan 1x2 tile on the rightmost column.

Step 6

Vertically place a tan 1x2 plate on the leftmost column.

Step 7

Place a tan 2x2 tile with a stud on top so it is centered and overhangs to the right.

Group 3 - Mailbox

Step 8

Vertically place a white 1x2 tile printed with mail on top so it is centered.

Step 9

Place a light brown 1x1 round brick underneath your part so it is centered.

Step 10

Place your part on the 2nd row from the front of the 3rd column from the left so the gap of the part faces the right.

Step 11

Place a light nougat 1x1 round snail body with 2 antennas on top of the 2x2 corner slope brick that is on the back right corner so the antennas face the front. Now place a nougat 1x1 swirl on top of the ppp.

Group 4 - Picnic Table

Step 12

Put away your mailbox now, let's make the picnic table! Horizontally place a green 2x4 plate in front of you.

Step 13

Place a green 6x6 rounded plate on the 2 rightmost columns so it is centered vertically.

Steps 14 to 15

Horizontally stack 2 brown 1x6 plates on the 2nd row from the front of the 6x6 rounded plate. Then repeat symmetrically to the back.

Step 16

Vertically place a brown 2x6 plate on the 3rd and 4th columns from the left so it is centered vertically.

Step 17

Horizontally place a brown 1x2 brick on the 2nd row from the front, on the 3rd and 4th columns from the right. Then repeat symmetrically to the back.

Step 18

Vertically place a brown 2x6 plate on the 2 rightmost columns so it is centered vertically.

Step 19

Vertically place a brown 2x6 plate on the 3rd and 4th columns from the right so it is centered vertically.

Step 20

Place a white 2x2 round tile with a stud on top of the ppp so it is centered vertically.

Step 21

Horizontally place a light brown croissant on top of the ppp so the ends face the front left and front right. Now place a lime green pear on the 4th column from the right of the front row. Then place a pink 1x1 mug on the 3rd column from the right of the back row so the handle faces the front. Now put everything away while we make Goldie's house!

Building Instructions (Bag 2, Book 1):

Group 5 - Cozy House

Step 22

Vertically place a green 4x8 plate with a rounded side and a 2x2 gap in front of you so the round side faces the right.

Step 23

Horizontally place a light brown 6x10 plate on the front 6 rows of the 2 leftmost columns so 8 columns overhang to the left.

Step 24

Vertically place a green 4x8 plate with a rounded side and a 2x2 gap underneath the 2 leftmost columns so the round side is exposed 2 columns to the left and 2 rows are exposed in the back.

Step 25

Horizontally place a green 2x10 plate on the back 2 rows so it is centered horizontally.

Step 26

Horizontally place a green 4x6 plate with a round side and a 2x2 gap underneath the back 2 rows so it is centered horizontally and the round side is exposed 2 rows to the back.

Step 27

Place a dark grey 2x2 tile with a stud on the 2 leftmost columns so it is centered vertically and sits on 2x2 studs. Then repeat symmetrically to the right.

Step 28

Place a tan 1x1 round tile on the 2nd column from the left of the front row. Then repeat symmetrically to the right.

Step 29

Vertically place a tan 1x6 brick on the 3rd column from the right, behind the ppp. Then horizontally place a tan 1x2 brick to the left of the back row of the ppp. Now repeat both parts symmetrically to the left.

Step 30

Place a brown 1x1 round plate on the leftmost column, on top of the 2x2 tile with a stud. Then place a green 1x1 round plate with 3 leaves on top of the ppp so the leaves face the left. Then repeat both parts symmetrically to the right.

Step 31

Vertically place a tan 1x6 plate on the 3rd column from the left, behind the 1x1 round tile that is on the front row. Then repeat symmetrically to the right.

Group 6 - Cozy House

Step 32

Vertically place a light brown 2x4 plate on the 3rd column from the right so it is centered vertically and overhangs to the right. Then place a tan 1x1 plate in front of the left column of the ppp. Then repeat symmetrically to the back.

Step 33

Vertically place a light brown 2x4 plate on the 3rd column from the left so it is centered vertically and overhangs to the left. Then place a tan 1x1 plate in front of the right column of the ppp. Then repeat symmetrically to the back.

Step 34

Vertically place a tan 1x6 plate on the 3rd column from the left so it is centered vertically. Then repeat symmetrically to the right.

Step 35

Horizontally place a tan 1x2 brick to the left of the back row of the ppp. Then repeat symmetrically to the left.

Step 36

Horizontally place a tan 1x2 brick on the 3rd and 4th columns from the left of the 7th row from the front. Then place a tan 1x1 brick to the right of the ppp. Now repeat both parts symmetrically to the right.

Step 37

Place a tan 1x1 brick on the 2nd row from the front of the 3rd column from the left. Then repeat symmetrically to the right.

Step 38

Vertically place the front row of a tan 1x6x2 arch brick on top of the ppp. Then repeat symmetrically to the left.

Step 39

Horizontally stack 2 tan 1x2 bricks, to the left of the back row of the right 1x6x2 arch brick.

Group 7 - Cozy House

Step 40.1

Let's make a part! Horizontally place a white 1x2 plate in front of you. Then horizontally place a tan 1x2x2/3 brick with 2x2 side studs on top so the side studs face the front.

Step 40.2

Place a nougat 2x2 plate upright on the front-facing side studs.

Step 40.3

Place a green 1x1 round plate with 3 leaves upright on the top left front-facing side stud so the leaves face the bottom right. Then place a magenta 1x1 round flower plate upright on the ppp.

Step 40.4

Horizontally place your part to the right of the back row of the 1x6x2 arch brick that is on the 3rd column from the left so the side studs face the front.

Step 41

Place the right column of a tan 2x2 corner brick on the left column of the ppp so it looks like the braille letter f. Then repeat symmetrically to the right.

Step 42

Place a tan 1x1 brick to the left of the back row of the ppp. Then repeat symmetrically to the left.

Step 43

Place a tan 1x1 brick on the 4th row from the front of the 3rd column from the left so it sits in front of the 2x2 corner brick. Then repeat symmetrically to the right.

Step 44

Vertically place a tan 1x3 slope brick in front of the ppp so it slopes to the front. Then repeat symmetrically to the left.

Step 45

Horizontally place a tan 1x4x6 door frame on the 4th row from the back so it is centered horizontally and the ridged side faces the back.

Step 46

Place the leftmost column of a tan 4x4 quarter circle plate on the 4th to 7th rows from the front of the 3rd column from the left so the curve faces the front right. Then repeat symmetrically to the right.

Step 47

Rotate your build 180 degrees. Now horizontally place a light brown 1x6x6 rounded doorframe with 2 clips on the 3rd row from the front so it is centered horizontally and the clips are on the right and face the front.

Step 48

Place a light brown 2x2 tile with 2 studs on the 3rd and 4th rows from the front so it is centered horizontally and the studs are in the back.

Step 49

Attach the bars of a red rounded door to the 2 front-facing clips so the door is on the left and the side stud faces the front.

Group 8 - Cozy House

Step 50

Place a gold 1x1 round plate upright on the front-facing side stud.

Step 51

Horizontally place a tan 1x4 brick on the 4th row from the front so it is centered horizontally. Then horizontally place a tan 1x3 slope brick to the left of the ppp so it slopes to the left. Then repeat symmetrically to the right.

Step 52

Horizontally place 2 tan 1x3 slope bricks, 1 to the right of the other, on top of the 2 ppp so together they are centered horizontally and slope outwards to the left and right.

Steps 53 to 54

Vertically place a light brown 1x4x3 panel with a window on the 2nd column from the left so it is centered vertically and the window is on the right. Then repeat symmetrically to the right.

Step 55

Let's make a part! Horizontally place a brown 2x6 plate in front of you.

Step 56

Horizontally place a light grey 2x4 brick on top so it is centered horizontally.

Step 57

Vertically place a black 1x2 hinge base on the 3rd column from the left so the wall faces the right. Then repeat symmetrically to the right.

Step 58

Vertically place a brown 1x2 slope tile on the 2nd column from the left so it slopes to the left. Then repeat symmetrically to the right.

Step 59

Place a light grey 2x2 plate with a bar underneath on the left 1x2 hinge base so it slopes and overhangs to the left. Then repeat symmetrically to the right.

Step 60

Rotate your main build 180 degrees. Now horizontally place your part on the 5th and 6th rows from the front so it is centered horizontally. Make sure it sits on the second floor, in front of the horizontal 1x3 slope bricks!

Building Instructions (Bag 3, Book 1):

Group 9 - Cozy House

Step 61

Let's make a part! Horizontally place a red 4x6 plate in front of you.

Steps 62 to 63

Place 3 red 2x2 tiles with a round side, 1 to the right of the other, on the back 2 rows so the round sides face the right. Then repeat symmetrically to the front.

Step 64

Horizontally place a light orange 1x6 plate underneath the back row so it is centered horizontally.

Step 65

Horizontally place the front left corner of your part on the right 2x2 plate with a bar underneath so it slopes to the right. It should overhang 2 rows to the back and 4 columns to the right.

Step 66

Let's make a part! Horizontally place a red 4x6 plate in front of you.

Steps 67 to 68

Place 3 red 2x2 tiles with a round side, 1 to the right of the other, on the back 2 rows so the round sides face the left. Then repeat symmetrically to the front.

Step 69

Horizontally place a light orange 1x6 plate underneath the back row so it is centered horizontally.

Step 70

Horizontally place the front right corner of your part on the left 2x2 plate with a bar underneath so it slopes to the left. It should overhang 2 rows to the back and 4 columns to the left.

Step 71

Let's make a part! Place a black 1x1 round plate in front of you. Then place a black 1x1 round brick on top of the ppp. Now place another black 1x1 round plate on top of the ppp.

Step 72

Place a black 2x2 half cone brick on top of the ppp so it is centered.

Step 73

Place your part on the 4th row from the front of the 3rd column from the left so it sits in front of the sloped roof.

Group 10 - Cozy House

Step 74

Let's make a part! Horizontally place a nougat 2x4 plate in front of you.

Step 75

Horizontally place a nougat 1x4 brick on the back row.

Step 76

Place a nougat 1x1 round brick on the front left corner. Then repeat symmetrically to the right. Now place 2 light grey 1x1 tiles with a round side, 1 to the right of the other, in between the 2 ppp so the round sides face the front.

Step 77

Horizontally place a nougat 2x4 plate on top so it is centered.

Step 78

Horizontally place a nougat 1x4 plate on the back row.

Step 79

Horizontally place a white 1x2 tile printed with piano keys on the front row so it is centered horizontally. Then place a nougat 1x1 half cylinder brick on the front left corner so it slopes to the front and back. Then repeat symmetrically to the right.

Step 80

Horizontally place a nougat 1x2 brick with 2 side studs on the back row so it is centered horizontally and the side studs face the front. Then place a nougat 1x1 brick on the back left corner. Then repeat symmetrically to the right.

Step 81

Horizontally place a nougat 1x4 tile on the back row.

Step 82

Place a white 2x2 tile printed with musical notes upright on the 2 front-facing side studs.

Step 83

Vertically place your part on the 2nd to 5th rows from the front, on the 4th and 5th columns from the right, so it sits to the left of the window and the upright 2x2 tile faces the left.

Step 84.1

Place a nougat 2x2 round plate on the 3rd and 4th rows from the front, to the left of the previous part.

You will have an extra brown 2x6 plate. Save it for later!

Group 11 - Cozy House

Step 84.2

Place a sand green 2x2 round plate on top of the ppp.

Step 85

Let's make a part! Let's make a bed! Horizontally place a brown 2x6 plate from group 10 in front of you.

Step 86

Horizontally place a white 2x6 plate on top.

Step 87

Vertically place a white 1x2 plate on the rightmost column.

Step 88

Horizontally place a magenta 2x4 tile on the 4 leftmost columns. Then place a white 2x2 sloped curved tile to the right of the ppp so it slopes to the left.

Step 89

Vertically place a brown 1x2 rounded plate underneath the leftmost column. Then repeat symmetrically to the right.

Step 90

Vertically place your part on the front 6 rows of the 4th and 5th columns from the left, so it sits to the right of the window and the 2x2 sloped curved tile is in the back. Now bring back your 2 previous builds from bag 1 and place them next to your house!

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

Please [signup](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!

We hope you enjoyed building your LEGO set! Bricks for the Blind is able to create these text-based building instructions thanks to generous donations from our builders. If you enjoy the instructions we create, please consider making a \$5 donation at: <https://www.gofundme.com/f/bricks-for-the-blind-gofundme>.

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

At the end of the instruction booklets are advertisements for the following 6 LEGO Animal Crossing Theme kits:
