40878 Teenage Mutant Ninja Turtles
Adapted by John Le and tested by Peter Durieux.

Cowabunga – thrill cartoon and comic book fans with the LEGO® BrickHeadz™ TMNT Teenage Mutant Ninja Turtles Figures (40878) building set for kids ages 10 and up. Boys and girls can channel Turtle Power as they build BrickHeadz versions of Leonardo, Raphael, Michelangelo and Donatello and discover the totally tubular details, including their iconic weapons and a pizza. These Ninja Turtles toys make a fun birthday gift idea and can be displayed as decor once complete. The set contains 567 pieces.

NINJA TURTLES TOYS – Raise shell with this LEGO® BrickHeadz™ TMNT Teenage Mutant Ninja Turtles Figures (40878) building set for TMNT fans ages 10 and up.

4 TMNT FIGURES – The set includes Leonardo, Raphael, Michelangelo and Donatello; the figures are slightly different shades of green to differentiate them and they have initials on their belts.

FIGHTING TOY ACCESSORIES – The LEGO® Ninja Turtles come with their iconic weapons, a katana, twin sai, nunchucks and a bo staff, plus a pizza accessory to encourage fun role play.

LEGO® DECOR – Bring Turtle Power to any room by displaying the LEGO TNMT collectibles proudly as bedroom, office or desk decor.

DIMENSIONS – The set contains 567 pieces and all TMNT toy figures stand over 3 in. (8 cm) tall.

The front of the box shows 4 mutant ninja turtles standing next to each other! Leonardo has a blue headband and 2 katanas, Raphael has a red headband and twin sai, Michelangelo has an orange headband and nunchucks, and Donatello has a purple headband and a staff!

The back of the box shows each of the ninja turtles standing on a platform!

The top of the box shows a real size image of a tan 2x2 round tile printed with a pizza.

The build is 567 pieces in total and is for ages 10+.

Welcome to Text-Based Building Instructions from Bricks for the Blind. Here is some helpful information on how to best use screen readers and browsers: https://bricksfortheblind.org/help-with-screen-readers. Before you start building, here are some terms we will be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.
- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)

- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- “Anti-stud” is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.
- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall at the right, connector to the front, and then place another such piece symmetrically on the back wall, at the right, the technic connector of the second piece should point to the back, since it will be placed symmetrically.
- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

A note on LEGO Technic™ part names. These parts are somewhat different from regular LEGO bricks. Here are some definitions in case the builder or helper is not familiar with LEGO Technic™.

Axles - An axle is a connector which has an X shaped cross-section. Because their cross section is not round, anything connected to an axle using an axle-hole will rotate with that axle. Axles are longer than they are wide, and the length of an axle corresponds with how many bricks long it is. Aka a 3L axle is three bricks long. Axles come in a variety of lengths, with a 2L axle being the shortest available. They may be combined with pins, or have circular stops on them. A stop prevents the axle from sliding through an axle-hole at a specific point on the axle.

Pins - A pin is a connector which has a circular cross section and a flanged notch out of one or both ends. This flanged notch allows them to click into bricks with a pin-hole. Pins come with and without friction ridges, which are small bumps on the pin which prevent them from rotating freely. For standard pins, black is a high friction pin, and gray is a low friction pin. A standard length pin is two brick lengths long, with a stop in the middle. This prevents a brick from being pushed from one side of the pin to the other. A 1L pin is one brick long and still retains the stop, however it also includes a hollow stud at the other end. A 3L pin is three bricks long, and only contains a stop at one side, allowing two bricks to be pushed onto the other side of the pin. Pins may also have one side which is an axle.

Technic brick - a brick which contains one or more holes which accept technic pins.

Lift-arms - A lift-arm is a basic structural element, similar to a brick or a plate, but usually without any studs. It is a beam with rounded ends and with holes in it, with the same spacing as the studs on a LEGO brick. lift-arms come in a variety of lengths, including a 1x1 lift-arm which looks like a cylinder. Thick lift-arms are as wide as a LEGO brick, and thin lift-arms are half as wide as a LEGO brick, but not the same thickness as a LEGO plate! The holes in a lift-arm may accept axles or pins. They also come in a variety of shapes, including tees, ells and triangles.

Gears - A gear is a functional element. They are typically discs with teeth on the outside, there are also worm gears which look like a spiraling cylinder! Gears connected by axles transmit or even transform rotational motion!

Axle and Pin Connectors - These elements are typically smaller than lift-arms and are used to connect some combination of pins or axles. They might have pins or axles, as well as axle or pin-holes. They have a lot of different angle combinations! The simplest just connects two axles or pins together in a straight line.

Bushes/Bushings - LEGO Technic™ uses bushes largely as spacers, but they also can reduce friction between rotating parts, or can form useful elements such as handles. Bushes are typically light gray, generally cylindrical, and have an axle-hole running through the middle. They have a flange at the front and back to make them easier to pull on and off.

For builders with low vision, or a sighted building partner may want to follow along with the printed visual instructions that come with each kit, or PDF versions are always online at LEGO.com for each set: (https://www.lego.com/en-us/service/buildinginstructions/40878) As low vision users may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags, or small containers. Have a friend or family member do this in advance following the instructions below. You will see that the pieces should be sorted according to the building steps in the kit. Doing this in advance makes locating the pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1,2 and 3, and put them in one container.

This LEGO set comes with 4 bags labeled 1 to 4, 4 sets of instructions, and some loose pieces. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder! LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

Bag 1 - Leonardo
Group 1 - Steps 1-11.
Group 2 - Steps 12-14.
Group 3 - Steps 15-19.
Group 4 - Steps 20-22.
Group 5 - Steps 23-29 and 1 tan 2x2 brick from Step 30.
Group 6 - Rest of Step 30 and Steps 31-32.
Group 7 - Steps 33-38.
Group 8 - Steps 39-42 and 2 light grey 1x1 round plates from Step 43.
Group 9 - Rest of Step 43 and 2 blue 1x2 plates from Step 44.
Group 10 - Rest of Step 44 and Steps 45-48.

Bag 2 - Raphael
Group 11 - Steps 1-13.
Group 12 - Steps 14-15.
Group 13 - Steps 16-19.
Group 14 - Step 20.
Group 15 - Steps 21-23.
Group 16 - Steps 24-30 and 1 tan 2x2 brick from Step 31.
Group 17 - Rest of Step 31 and Steps 32-33.
Group 18 - Steps 34-38.

Group 19 - Step 39.
Group 20- Steps 40-42.
Group 21 - Step 43 and 2 red 1x2 plates from Step 44.
Group 22 - Rest of Step 44 and Steps 45-48.

Bag 3 - Michelangelo
Group 23 - Steps 1-10.
Group 24 - Steps 11-12.
Group 25 - Steps 13-14.
Group 26 - Step 15.
Group 27 - Steps 16-18.
Group 28 - Step 19.
Group 29 - Steps 20-22.
Group 30 - Steps 23-24.
Group 31 - Steps 25-29 and 1 tan 2x2 brick from Step 30.
Group 32 - Rest of Step 30 and Steps 31-32.
Group 33 - Steps 33-37 and 2 orange 1x2 plates from Step 38.
Group 34 - Rest of Step 38 and Steps 39-41.
Group 35 - Steps 42-43 and 1 orange 1x2 plate from Step 44.
Group 36 - Rest of Step 44 and Steps 45-46.

Bag 4 - Donatello
Group 37 - Steps 1-10 and 1 orange 1x2 jumper plate from Step 11.
Group 38 - Rest of step 11 and Step 12.
Group 39 - Steps 13-14.
Group 40 - Steps 15-18.
Group 41 - Step 19.
Group 42- Steps 20-22 and 1 brown 1x1 slope tile from Step 23.
Group 43 - Rest of Step 23 and Steps 24-26.
Group 44 - Steps 27-31 and 1 tan 2x2 brick from Step 32.
Group 45 - Rest of Step 32 and Steps 33-34.
Group 46 - Steps 35-39.
Group 47 - Step 40.
Group 48 - Step 41.
Group 49 - Step 42 and 1 lime green 1x2 plate from Step 43.
Group 50 - Rest of Step 43 and 2 purple 1x2 plates from Step 44.
Group 51 - Rest of Step 44 and Steps 45-50.

Let’s get to building!

Building Instructions (Bag 1, Book 1):

Group 1 - Leonardo

Step 1
Horizontally place a green 2x4 plate in front of you.

Step 2

Vertically place a green 1x2 plate underneath the leftmost column. Then repeat symmetrically to the right.

Step 3

Vertically place a green 1x2 plate on top of the leftmost column. Then repeat symmetrically to the right.

Step 4

Horizontally place a green 1x2 plate with 4 side studs hanging down on the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back.

Step 5

Place a tan 2x2 round tile printed with a cheese pizza with pepperoni on top so it is centered horizontally.

Step 6

Vertically place a black 1x2x1 ⅔ brick with 2x2 side studs on the rightmost column so the side studs face the right. Then repeat symmetrically to the left.

Step 7.1

Let's make a part! Place a red 2x2 round brick in front of you. Then horizontally place a green 1x2 plate with 2x4 side studs hanging down on the front row so the side studs face the front. Then repeat symmetrically to the back.

7.2. Horizontally place your part on top of the 2x2 pizza so it is centered horizontally. It should not attach to any studs!

Step 8

Place a green 2x2 plate upright on the bottom 2 rows of front-facing side studs so it is centered horizontally.

Step 9

Horizontally place a green 1x4 plate upright on the top row of front-facing side studs. Now place a green 1x1 plate upright on the bottom left front-facing side stud. Then repeat symmetrically to the right.

Step 10

Place a short black 1x1 brick upright on the leftmost column of front-facing side studs so it is centered vertically. Then repeat symmetrically to the right.

Step 11

Horizontally place 2 orange 1x2 tiles, 1 to the right of the other, upright on the top row of front-facing side studs so together they are centered horizontally. Now place an orange 2x2 plate upright on the bottom 2 rows of front-facing side studs so it is centered horizontally. Then place an orange 1x1 tile upright on the bottom left front-facing side stud. Then repeat symmetrically to the right.

Group 2 - Leonardo

Step 12

Horizontally place a black 1x2 jumper plate upright on the 2nd row of front-facing side studs from the bottom so it is centered horizontally. Then place a black 1x1 round tile printed with an orange L upright on the ppp.

Step 13

Place a black 1x1 tile upright on the leftmost front-facing side stud. Then repeat symmetrically to the right. Now place 2 black 1x1 quarter circle tiles, 1 to the right of the other, upright on the bottom row of front-facing side studs so the curves face the bottom left.

Step 14

Rotate your build 90 degrees clockwise so the ppp faces the left. Now vertically place a green 1x2 plate upright on the left column of front-facing side studs. Then place a green 1x1 plate upright on the top right front-facing side stud.

Group 3 - Leonardo

Step 15

Place a blue 1x1 plate with an upright side stud, upright on the bottom right front-facing side stud so the side stud faces the right. Then place a blue 1x1 tile upright on the right-facing side stud of the ppp.

Step 16

Horizontally place a green 1x2 tile upright on the top row of front-facing side studs. Then horizontally place a green 1x2 plate with a clip, upright below the ppp so the clip faces down.

Step 17

Place a blue 1x1 quarter circle tile upright on the bottom right front-facing side stud so the curve faces the bottom left.

Step 18

Rotate your build 90 degrees clockwise so the clip is on the left and faces down. Then horizontally place a green 1x4 plate upright on the top row of front-facing side studs. Then horizontally place a green 2x4 plate upright below the ppp.

Step 19

Horizontally place a black 1x2 jumper plate upright on the front-facing side studs so it is centered horizontally and vertically.

Group 4 - Leonardo

Step 20.1

Let’s make 2 identical parts! Horizontally place a green 1x4 plate in front of you. Then horizontally place a brown 1x2 plate on top so it is centered horizontally. Now place a brown 1x1 quarter circle tile on the leftmost column so the curve faces the back left. Then repeat symmetrically to the right. Now you should have 2 identical parts!

20.2. Horizontally place 1 part upright on the top row of front-facing side studs so it is centered horizontally and the curves face the top left and top right. Then repeat symmetrically to the bottom.

Step 21

Place 3 short black 1x1 bricks, 1 to the right of the other, upright on the middle row of front-facing side studs.

Step 22

Horizontally place a brown 1x2 slope tile upright on the top row of front-facing side studs so it is centered horizontally and slopes up. Then repeat symmetrically to the bottom. Now place a black 1x1 slope tile upright on the leftmost front-facing side stud so it slopes to the left. Then repeat symmetrically to the right.

Group 5 - Leonardo

Step 23

Rotate your build 90 degrees clockwise so the ppp faces the left. Now vertically place a green 1x2 plate upright on the right column of front-facing side studs. Then place a green 1x1 plate upright on the top left front-facing side stud.

Step 24

Place a blue 1x1 plate with an upright side stud, upright on the bottom left front-facing side stud so the side stud faces the left. Then place a blue 1x1 tile upright on the left-facing side stud of the ppp.

Step 25

Horizontally place a green 1x2 tile upright on the top row of front-facing side studs. Then horizontally place a green 1x2 plate with a clip, upright below the ppp so the clip faces down.

Step 26

Place a blue 1x1 quarter circle tile upright on the bottom left front-facing side stud so the curve faces the bottom right.

Step 27

Rotate your build 90 degrees clockwise so the upright 1x1 round tile faces the front. Now place a green 4x4 plate on top so it is centered horizontally and vertically.

Step 28

Place a tan 2x2 brick on top so it is centered.

Step 29

Vertically place a light grey 1x2x1 ⅔ brick with 2x2 side studs on the leftmost column so it is centered vertically and the side studs face the left. Then repeat symmetrically to the right. Now horizontally place 2 more, 1 to the right of the other, on the front row so the side studs face the front. Then repeat symmetrically to the back.

Step 30.1

Place a tan 2x2 brick on top so it is centered.

Group 6 - Leonardo

Step 30.2

Place a blue 2x2 round plate on top of the ppp. Then place a pink 2x2 brick on top of the ppp.

Step 31

Horizontally place a light grey 1x2x1 ⅔ brick with 2x2 side studs on the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back. Now vertically place 2 more, 1 in front of the other, on the leftmost column so the side studs face the left. Then repeat symmetrically to the right.

Step 32.1

Let’s make a part! Horizontally stack 2 green 1x4 plates in front of you. Then horizontally place a green 1x2 plate on top so it is centered horizontally. Now horizontally place a green 1x4 double sloped curved tile on top so it is centered horizontally.

32.2. Horizontally place your part upright on the bottom row of front-facing side studs so it is centered horizontally.

Group 7 - Leonardo

Step 33.1

Let’s make a part! Horizontally place a blue 1x4 plate in front of you. Then horizontally place a blue 1x4 tile with 2 studs on top of the ppp. Now place 2 black 1x1 round tiles printed with a white eye on top of the ppp.

33.2. Horizontally place your part upright on the bottom row of front-facing side studs, above the ppp so it is centered horizontally.

Step 34

Horizontally place a green 2x4 plate upright on the top 2 rows of front-facing side studs. Then horizontally place a green 2x4 tile upright on the ppp.

Step 35.1

Rotate your build 90 degrees clockwise so the ppp faces the left. Now let’s make 2 identical parts! Horizontally place a green 1x3 plate in front of you. Then place a green 1x1 tile on top so it is centered horizontally. Now horizontally place a green 1x2 sloped curved tile on the leftmost column so it slopes and overhangs to the left. Then repeat symmetrically to the right.

35.2. Now you should have 2 identical parts! Horizontally place 1 part upright on the 4th row of front-facing side studs from the top so it is centered horizontally and there is no overhang. Then repeat symmetrically to the back.

Step 36

Horizontally place a blue 1x4 tile upright on the front-facing side studs, above the ppp so it is centered horizontally on the studs. Then repeat symmetrically to the back.

Step 37

Horizontally place a green 2x4 tile upright on the top 2 rows of front-facing side studs. Then repeat symmetrically to the back.

Step 38

Rotate your build 90 degrees clockwise so the 4 rows of side studs face the front. Now horizontally place a green 1x2 plate upright on the 2 rightmost side studs of the 4th row of front-facing side studs from the top. Then horizontally place a green 1x2 tile upright on the ppp.

Group 8 - Leonardo

Step 39.1

Let’s make a part! Horizontally place a blue 1x3 plate in front of you. Then horizontally place a blue 1x2 angled sloped curved tile on the leftmost column so it slopes and overhangs to the left and the cutoff corner faces the back left.

39.2. Place a blue 1x1 slope tile to the right of the ppp so it slopes to the left. Then place a green 1x1 plate to the right of the ppp. Now place a blue 1x1 quarter circle tile on top of the ppp so the curve faces the front right.

39.3. Horizontally place your part upright on the 4th row of front-facing side studs from the top so it slopes and overhangs to the left.

Step 40.1

Let’s make a part! Horizontally place a blue 1x4 plate in front of you. Then horizontally place a blue 1x3 plate on the 3 leftmost columns. Now place a blue 1x1 tile on the rightmost column.

40.2. Horizontally place a blue 1x2 sloped curved tile on the leftmost column so it slopes and overhangs to the left, and the cutoff corner faces the front left. Then place a blue 1x1 tile to the right of the ppp. Now place a blue 1x1 tile with a round side to the right of the ppp so the round side faces the right.

40.3. Horizontally place your part upright on the 3rd row of front-facing side studs from the top so it is centered horizontally and slopes to the left.

Step 41

Horizontally place a green 2x4 plate upright on the top 2 rows of front-facing side studs so it is centered horizontally. Then horizontally place a green 2x4 tile upright on the ppp.

Step 42

Insert a tan 2L bar with a stop into the bottom front-facing side stud.

You will have 2 extra light grey 1x1 round plates. Save them for later!

Group 9 - Leonardo

Step 43.1

Let’s make a part! Vertically place a black 1x3 rounded plate in front of you. Then place a black 1x1 round plate on the front row. Then repeat symmetrically to the back.

43.2. Horizontally place a black 1x3 rounded plate on top so it is centered horizontally and vertically. Then place a black 1x1 round plate underneath the leftmost column of the ppp. Then repeat symmetrically to the right.

43.3. Place a black 1x1 tile on top so it is centered horizontally and vertically. Then vertically place a black 1x2 tile with a cutoff corner behind the ppp so it overhangs to the back and the cutoff corner faces the back right. Then horizontally place another 1 on the rightmost column so it overhangs to the right and the cutoff corner faces the back right.

43.4. Place a black 1x1 plate with a side stud hanging down on the leftmost column so the side stud faces the left. Then place another 1 on the front row so the side stud faces the front.

43.5. Place a light grey 1x1 round plate from group 8 upright on the front-facing side stud. Then place another 1 on the left-facing side stud.

43.6. This is the holder for the katanas! Diagonally place this upright on the front-facing bar so it is centered on it and the studs face the top left and top right.

Step 44.1

Flip your build upside down the previous part faces the back. Now vertically place a blue 1x2 plate on the leftmost column so it is centered vertically. Then repeat symmetrically to the right.

Group 10 - Leonardo

Step 44.2

Vertically place a green 1x2 plate on top of each of the 2 ppp.

Step 45

Flip your build over so it is right side up and the sword holder faces the back. Now horizontally place a green 2x4 plate on top so it is centered horizontally and vertically.

Step 46

Place 2 green 2x2 sloped curved tiles, 1 to the right of the other, on the back 2 rows so they slope to the back. Then repeat symmetrically to the front.

Step 47

Vertically attach a gold katana to the rightmost bottom-facing clip so the blade part faces the front and the curved end faces down. Then repeat symmetrically to the left.

Step 48.1

Let’s make a part! Let’s make a platform! Place a black 6x6 plate in front of you. Then horizontally place a black 2x4 tile on the 2nd and 3rd rows from the back so it is centered horizontally. Then horizontally place a black 1x4 tile with 2 studs in front of the ppp. Now horizontally place a black 1x4 tile in front of the ppp.

48.2. Place your figure on top of the stand so it is centered horizontally and vertically. Now put him away while we make the next ninja turtle!

Building Instructions (Bag 2, Book 2):

Group 11 - Raphael

Step 1

Horizontally place a green 2x4 plate in front of you.

Step 2

Vertically place a green 1x2 plate underneath the leftmost column. Then repeat symmetrically to the right.

Step 3

Vertically place a green 1x2 plate on top of the leftmost column. Then repeat symmetrically to the right.

Step 4

Horizontally place a green 1x2 plate with 4 side studs hanging down on the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back.

Step 5

Place a tan 2x2 round tile printed with a cheese pizza with pepperoni on top so it is centered horizontally.

Step 6

Vertically place a black 1x2x1 ⅔ brick with 2x2 side studs on the rightmost column so the side studs face the right. Then repeat symmetrically to the left.

Step 7.1

Let’s make a part! Place a red 2x2 round brick in front of you. Then horizontally place a green 1x2 plate with 2x4 side studs hanging down on the front row so the side studs face the front. Then repeat symmetrically to the back.

7.2. Horizontally place your part on top of the 2x2 pizza so it is centered horizontally. It should not attach to any studs!

Step 8

Place a green 2x2 plate upright on the bottom 2 rows of front-facing side studs so it is centered horizontally.

Step 9

Horizontally place a green 1x4 plate upright on the top row of front-facing side studs. Now place a green 1x1 plate upright on the bottom left front-facing side stud. Then repeat symmetrically to the right.

Step 10

Place a short black 1x1 brick upright on the leftmost column of front-facing side studs so it is centered vertically. Then repeat symmetrically to the right.

Step 11

Horizontally place 2 orange 1x2 tiles, 1 to the right of the other, upright on the top row of front-facing side studs so together they are centered horizontally. Now place an orange 2x2 corner plate upright on the bottom 2 rows of front-facing side studs so it is centered horizontally and looks like the braille letter f. Then place an orange 1x1 tile upright on the bottom left front-facing side stud. Now horizontally place an orange 1x2 tile upright on the bottom right corner of front-facing side studs.

Step 12

Horizontally place a black 1x2 jumper plate upright on the 2nd row of front-facing side studs from the bottom so it is centered horizontally. Then place a black 1x1 round tile printed with an orange R upright on the ppp.

Step 13.1

Let’s make a part! Place an orange 1x1 plate with an upright side stud in front of you so the side stud faces the right. Then place a black 1x1 slope tile upright on the right-facing side stud so it slopes to the back. Now place a black 1x1 quarter circle tile on top so the curve faces the front right.

13.2. Place your part upright on the bottom front-facing side stud so the 1x1 slope tile faces the right.

Group 12 - Raphael

Step 14

Place a black 1x1 tile upright on the leftmost front-facing side stud. Then repeat symmetrically to the right.

Step 15

Rotate your build 90 degrees clockwise so the ppp faces the left. Now vertically place a green 1x2 plate upright on the left column of front-facing side studs. Then place a green 1x1 plate upright on the top right front-facing side stud.

Group 13 - Raphael

Step 16

Place a red 1x1 plate with an upright side stud, upright on the bottom right front-facing side stud so the side stud faces the right. Then place a red 1x1 tile upright on the right-facing side stud of the ppp.

Step 17

Horizontally place a green 1x2 tile upright on the top row of front-facing side studs. Then horizontally place a green 1x2 plate with a clip, upright below the ppp so the clip faces down.

Step 18

Place a red 1x1 quarter circle tile upright on the bottom right front-facing side stud so the curve faces the bottom left.

Step 19

Rotate your build 90 degrees clockwise so the clip is on the left and faces down. Then horizontally place a green 1x4 plate upright on the top row of front-facing side studs. Then horizontally place a green 2x4 plate upright below the ppp.

Group 14 - Raphael

Step 20

Horizontally stack 2 black 1x4 plates upright on the front-facing side studs so they are centered horizontally and vertically. Now horizontally place a red 1x2 plate upright on the ppp so it is centered horizontally.

Group 15 - Raphael

Step 21.1

Let’s make 2 identical parts! Horizontally place a green 1x4 plate in front of you. Then horizontally place a brown 1x2 plate on top so it is centered horizontally. Now place a brown 1x1 quarter circle tile on the leftmost column so the curve faces the back left. Then repeat symmetrically to the right. Now you should have 2 identical parts!

21.2. Horizontally place 1 part upright on the top row of front-facing side studs so it is centered horizontally and the curves face the top left and top right. Then repeat symmetrically to the bottom.

Step 22

Horizontally place a brown 1x2 slope tile upright on the top row of front-facing side studs so it is centered horizontally and slopes up. Then repeat symmetrically to the bottom. Now place a black 1x1 slope tile upright on the leftmost front-facing side stud so it slopes to the left. Then repeat symmetrically to the right.

Step 23

Place 2 black 1x1 tiles with a clip, 1 to the right of the other, upright on the front-facing side studs, in between the 2 ppp, so the clip hands face the left and right.

Group 16 - Raphael

Step 24

Rotate your build 90 degrees clockwise so the ppp faces the left. Now vertically place a green 1x2 plate upright on the right column of front-facing side studs. Then place a green 1x1 plate upright on the top left front-facing side stud.

Step 25

Place a red 1x1 plate with an upright side stud, upright on the bottom left front-facing side stud so the side stud faces the left. Then place a red 1x1 tile upright on the left-facing side stud of the ppp.

Step 26

Horizontally place a green 1x2 tile upright on the top row of front-facing side studs. Then horizontally place a green 1x2 plate with a clip, upright below the ppp so the clip faces down.

Step 27

Place a red 1x1 quarter circle tile upright on the bottom left front-facing side stud so the curve faces the bottom right.

Step 28

Rotate your build 90 degrees clockwise so the upright 1x1 round tile faces the front. Now place a green 4x4 plate on top so it is centered horizontally and vertically.

Step 29

Place a tan 2x2 brick on top so it is centered.

Step 30

Vertically place a light grey 1x2x1 ⅔ brick with 2x2 side studs on the leftmost column so it is centered vertically and the side studs face the left. Then repeat symmetrically to the right. Now horizontally place 2 more, 1 to the right of the other, on the front row so the side studs face the front. Then repeat symmetrically to the back.

Step 31.1

Place a tan 2x2 brick on top so it is centered.

Group 17 - Raphael

Step 31.2

Place a red 2x2 round plate on top of the ppp. Then place a pink 2x2 brick on top of the ppp.

Step 32

Horizontally place a light grey 1x2x1 ⅔ brick with 2x2 side studs on the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back. Now vertically place 2 more, 1 in front of the other, on the leftmost column so the side studs face the left. Then repeat symmetrically to the right.

Step 33.1

Let’s make a part! Horizontally stack 2 green 1x4 plates in front of you. Then horizontally place a green 1x2 plate on top so it is centered horizontally. Now horizontally place a green 1x4 double sloped curved tile on top so it is centered horizontally.

33.2. Horizontally place your part upright on the bottom row of front-facing side studs so it is centered horizontally.

Group 18 - Raphael

Step 34.1

Let’s make a part! Horizontally place a red 1x4 plate in front of you. Then horizontally place a red 1x4 tile with 2 studs on top of the ppp. Now place 2 black 1x1 round tiles printed with a white eye on top of the ppp.

34.2. Horizontally place your part upright on the bottom row of front-facing side studs, above the ppp so it is centered horizontally.

Step 35

Horizontally place a green 2x4 plate upright on the top 2 rows of front-facing side studs. Then horizontally place a green 2x4 tile upright on the ppp.

Step 36.1

Rotate your build 90 degrees clockwise so the ppp faces the left. Now let's make 2 identical parts! Horizontally place a green 1x3 plate in front of you. Then place a green 1x1 tile on top so it is centered horizontally. Now horizontally place a green 1x2 sloped curved tile on the leftmost column so it slopes and overhangs to the left. Then repeat symmetrically to the right.

36.2. Now you should have 2 identical parts! Horizontally place 1 part upright on the 4th row of front-facing side studs from the top so it is centered horizontally and there is no overhang. Then repeat symmetrically to the back.

Step 37

Horizontally place a red 1x4 tile upright on the front-facing side studs, above the ppp so it is centered horizontally on the studs. Then repeat symmetrically to the back.

Step 38

Horizontally place a green 2x4 tile upright on the top 2 rows of front-facing side studs. Then repeat symmetrically to the back.

Group 19 - Raphael

Step 39

Rotate your build 90 degrees clockwise so the 4 rows of side studs face the front. Now horizontally place a green 1x4 plate upright on the bottom row of front-facing side studs so it is centered horizontally. Then horizontally place a green 1x4 tile upright on top of the ppp.

Group 20 - Raphael

Step 40

Horizontally place a red 1x4 plate upright on the bottom row of front-facing side studs, above the ppp so it is centered horizontally. Then place a red 1x1 tile upright on the rightmost column of the ppp. Now horizontally place a red 1x2 plate upright to the left of the ppp.

Step 41.1

Let's make a part! Horizontally place a green 2x4 plate in front of you. Then horizontally place a green 1x4 tile on the back row. Now horizontally place a green 1x2 tile on the front right corner. Then place a green 1x1 plate to the left of the ppp.

41.2. Horizontally place your part upright on the top 2 rows of front-facing side studs.

Step 42.1

Let’s make a part! Place a red 2x2 corner plate in front of you so it looks like the braille letter j. Then horizontally place a red 1x2 left wedge tile on the back row so it slopes and overhangs to the left and the cutoff corner faces the back left. Now horizontally place another 1 on the front left corner so it slopes and overhangs to the left and the cutoff corner faces the back left.

42.2. Horizontally place your part upright on the leftmost column of front-facing side studs so it slopes and overhangs 2 columns to the left. This is part of the ninja turtle’s face mask!

Group 21 - Raphael

Step 43

Place a red 1x1 tile with a round side upright on the rightmost front-facing side stud so the round side faces the right. Then horizontally place a red 1x2 tile upright to the left of the ppp. Now place a red 1x1 quarter circle tile upright above the ppp so the curve faces the top right.

Step 44.1

Flip your build upside down so the clips still face the front. Then vertically place a red 1x2 plate on the leftmost column. Then repeat symmetrically to the right.

Group 22 - Raphael

Step 44.2

Vertically place a green 1x2 plate on top of each of the 2 ppp. These are the feet! Now flip your build over so it is right side up and the 2 clips face the back.

Step 45

Horizontally place a green 2x4 plate on top so it is centered horizontally and vertically.

Step 46

Place 2 green 2x2 sloped curved tiles, 1 to the right of the other, on the back 2 rows so they slope to the back. Then repeat symmetrically to the front.

Step 47

Vertically attach a gold sai to the rightmost bottom-facing clip so it is vertical and the blade part faces the front Then repeat symmetrically to the left.

Step 48.1

Let’s make a part! Let’s make a platform! Place a black 6x6 plate in front of you. Then horizontally place a black 2x4 tile on the 2nd and 3rd rows from the back so it is centered horizontally. Then horizontally place a black 1x4 tile with 2 studs in front of the ppp. Now horizontally place a black 1x4 tile in front of the ppp.

48.2. Place your figure on top of the stand so it is centered horizontally and vertically. Now put him away while we make the next ninja turtle!

Building Instructions (Bag 3, Book 3):

Group 23 - Michelangelo

Step 1

Horizontally place a teal 2x4 plate in front of you.

Step 2

Vertically place a teal 1x2 plate underneath the leftmost column. Then repeat symmetrically to the right.

Step 3

Vertically place a teal 1x2 plate on top of the leftmost column. Then repeat symmetrically to the right.

Step 4

Horizontally place a green 1x2 plate with 4 side studs hanging down on the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back.

Step 5

Place a tan 2x2 round tile printed with a cheese pizza with pepperoni on top so it is centered horizontally.

Step 6

Vertically place a black 1x2x1 ⅔ brick with 2x2 side studs on the rightmost column so the side studs face the right. Then repeat symmetrically to the left.

Step 7.1

Let’s make a part! Place a red 2x2 round brick in front of you. Then horizontally place a green 1x2 plate with 2x4 side studs hanging down on the front row so the side studs face the front. Then repeat symmetrically to the back.

7.2. Horizontally place your part on top of the 2x2 pizza so it is centered horizontally. It should not attach to any studs!

Step 8

Place a teal 2x2 plate upright on the bottom 2 rows of front-facing side studs so it is centered horizontally.

Step 9

Horizontally place a teal 1x4 plate upright on the top row of front-facing side studs. Now place a teal 1x1 plate upright on the bottom left front-facing side stud. Then repeat symmetrically to the right.

Step 10

Place a short black 1x1 brick upright on the leftmost column of front-facing side studs so it is centered vertically. Then repeat symmetrically to the right.

Group 24 - Michelangelo

Step 11

Horizontally place 2 orange 1x2 tiles, 1 to the right of the other, upright on the top row of front-facing side studs so together they are centered horizontally. Now place an orange 2x2 plate upright on the bottom 2 rows of front-facing side studs so it is centered horizontally. Then place an orange 1x1 tile upright on the bottom left front-facing side stud. Then repeat symmetrically to the right.

Step 12

Horizontally place a black 1x2 jumper plate upright on the 2nd row of front-facing side studs from the bottom so it is centered horizontally. Then place a black 1x1 round tile printed with an orange M upright on the ppp.

Group 25 - Michelangelo

Step 13

Place a black 1x1 tile upright on the leftmost front-facing side stud. Then repeat symmetrically to the right. Now place a black 1x1 slope tile upright on the leftmost front-facing side stud so it slopes up. Then place a black 1x1 quarter circle tile upright to the right of the ppp so the curve faces the bottom left.

Step 14

Rotate your build 90 degrees clockwise so the ppp faces the left. Then horizontally place a teal 1x2 plate upright on the top row of front-facing side studs. Now place a teal 1x1 plate upright on the bottom left front-facing side stud.

Group 26 - Michelangelo

Step 15

Place an orange 1x1 plate with an upright side stud, upright on the bottom right front-facing side stud so the side stud faces the right. Then place an orange 1x1 tile upright on the right-facing side stud of the ppp.

Group 27 - Michelangelo

Step 16

Place a teal 1x1 tile upright on the top right front-facing side stud. Then place a teal 1x1 plate upright below the ppp. Now vertically place a teal 1x2 plate with a clip upright on the left column of front-facing side studs so the clip faces the left.

Step 17

Place an orange 1x1 quarter circle tile upright on the bottom right front-facing side stud so the curve faces the bottom left.

Step 18

Rotate your build 90 degrees clockwise so the clip is on the left and faces the back. Then horizontally place a teal 1x4 plate upright on the top row of front-facing side studs. Then horizontally place a teal 2x4 plate upright below the ppp.

Group 28 - Michelangelo

Step 19

Horizontally stack 2 black 1x4 plates upright on the front-facing side studs so they are centered horizontally and vertically. Now horizontally place an orange 1x2 plate upright on the ppp so it is centered horizontally.

Group 29 - Michelangelo

Step 20.1

Let’s make 2 identical parts! Horizontally place a teal 1x4 plate in front of you. Then horizontally place a brown 1x2 plate on top so it is centered horizontally. Now place a brown 1x1 quarter circle tile on the leftmost column so the curve faces the back left. Then repeat symmetrically to the right. Now you should have 2 identical parts!

20.2. Horizontally place 1 part upright on the top row of front-facing side studs so it is centered horizontally and the curves face the top left and top right. Then repeat symmetrically to the bottom.

Step 21

Horizontally place a brown 1x2 slope tile upright on the top row of front-facing side studs so it is centered horizontally and slopes up. Then repeat symmetrically to the bottom. Now place a black 1x1 slope tile upright on the leftmost front-facing side stud so it slopes to the left. Then repeat symmetrically to the right.

Step 22

Place 2 black 1x1 tiles with a clip, 1 to the right of the other, upright on the front-facing side studs, in between the 2 ppp, so the clip hands face the left and right.

Group 30 - Michelangelo

Step 23

Rotate your build 90 degrees clockwise so the clips face the left. Then horizontally place a teal 1x2 plate upright on the top row of front-facing side studs. Now place a teal 1x1 plate upright on the bottom right front-facing side stud.

Step 24

Place an orange 1x1 plate with an upright side stud, upright on the bottom left front-facing side stud so the side stud faces the left. Then place an orange 1x1 tile upright on the left-facing side stud of the ppp.

Group 31 - Michelangelo

Step 25

Place a teal 1x1 tile upright on the top left front-facing side stud. Then place a teal 1x1 plate upright below the ppp. Now vertically place a teal 1x2 plate with a clip upright on the right column of front-facing side studs so the clip faces the right.

Step 26

Place an orange 1x1 quarter circle tile upright on the bottom left front-facing side stud so the curve faces the bottom right.

Step 27

Rotate your build 90 degrees clockwise so the middle 2 clips face the back. Now horizontally place 2 teal 2x4 plates, 1 in front of the other, on top so together they are centered horizontally and vertically.

Step 28

Place a tan 2x2 brick on top so it is centered.

Step 29

Vertically place a light grey 1x2x1 ⅔ brick with 2x2 side studs on the leftmost column so it is centered vertically and the side studs face the left. Then repeat symmetrically to the right. Now horizontally place 2 more, 1 to the right of the other, on the front row so the side studs face the front. Then repeat symmetrically to the back.

Step 30.1

Place a tan 2x2 brick on top so it is centered.

Group 32 - Michelangelo

Step 30.2

Place an orange 2x2 round plate on top of the ppp. Then place a pink 2x2 brick on top of the ppp.

Step 31

Horizontally place a light grey 1x2x1 ⅔ brick with 2x2 side studs on the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back. Now vertically place 2 more, 1 in front of the other, on the leftmost column so the side studs face the left. Then repeat symmetrically to the right.

Step 32.1

Let’s make a part! Horizontally stack 2 teal 1x4 plates in front of you. Then horizontally place a teal 1x2 plate on top so it is centered horizontally. Now horizontally place a teal 1x4 double sloped curved tile on top so it is centered horizontally.

32.2. Horizontally place your part upright on the bottom row of front-facing side studs so it is centered horizontally.

Group 33 - Michelangelo

Step 33.1

Let’s make a part! Horizontally place an orange 1x4 plate in front of you. Then horizontally place an orange 1x2 tile on top of the ppp so it is centered horizontally. Now place an orange 1x1 plate to the left and right of the ppp. Now place 2 black 1x1 round tiles printed with a white eye on top of the ppp.

33.2. Horizontally place your part upright on the bottom row of front-facing side studs, above the ppp so it is centered horizontally.

Step 34

Horizontally place a teal 2x4 plate upright on the top 2 rows of front-facing side studs. Then horizontally place a teal 2x4 tile upright on the ppp.

Step 35.1

Rotate your build 90 degrees clockwise so the ppp faces the left. Now let's make 2 identical parts! Horizontally place a teal 1x3 plate in front of you. Then place a teal 1x1 tile on top so it is centered horizontally. Now horizontally place a teal 1x2 sloped curved tile on the leftmost column so it slopes and overhangs to the left. Then repeat symmetrically to the right.

35.2. Now you should have 2 identical parts! Horizontally place 1 part upright on the 4th row of front-facing side studs from the top so it is centered horizontally and there is no overhang. Then repeat symmetrically to the back.

Step 36

Horizontally place an orange 1x4 tile upright on the front-facing side studs, above the ppp so it is centered horizontally on the studs. Then repeat symmetrically to the back.

Step 37

Horizontally place a teal 2x4 tile upright on the top 2 rows of front-facing side studs. Then repeat symmetrically to the back.

Step 38.1

Flip your build upside down so the 2 middle clips face the back. Then vertically place a n orange 1x2 plate on the leftmost column. Then repeat symmetrically to the right.

Group 34 - Michelangelo

Step 38.2

Vertically place a teal 1x2 plate on top of each of the 2 ppp. These are the feet! Now flip your build over so it is right side up and the 2 middle clips face the front.

Step 39

Horizontally place a teal 2x4 plate on top so it is centered horizontally and vertically.

Step 40

Place 2 teal 2x2 sloped curved tiles, 1 to the right of the other, on the back 2 rows so they slope to the back. Then repeat symmetrically to the front.

Step 41

Horizontally place a teal 1x4 plate upright on the bottom row of front-facing side studs so it is centered horizontally. Then horizontally place a teal 1x4 tile upright on the ppp.

Group 35 - Michelangelo

Step 42.1

Let’s make a part! Horizontally place an orange 1x4 plate in front of you. Then horizontally place an orange 1x2 plate on top of the ppp so it is centered horizontally. Now place an orange 1x1 tile on the leftmost column. Then repeat symmetrically to the right.

42.2. Place an orange 1x1 quarter circle tile on the left stud so the curve faces the front left. Then place an orange 1x1 tile with a round side to the right of the ppp so the round side faces the right.

42.3. Horizontally place your part upright on the bottom row of front-facing side studs so it is centered horizontally. This is part of the face mask!

Step 43

Place the left column of a teal 2x2 plate upright on the right column of front-facing side studs. Then place a teal 2x2 tile upright on the ppp.

You will have an extra orange 1x2 plate. Save it for later!

Group 36 - Michelangelo

Step 44.1

Let’s make a part! Place an orange 2x2 plate with a cutoff corner in front of you so the cutoff corner faces the back right. Now vertically place a teal 1x2 plate on the rightmost column so it overhangs to the front. Then place a teal 1x1 tile to the left of the ppp. Now horizontally place an orange 1x2 angled sloped curved tile behind the ppp so it slopes and overhangs to the left and the cutoff corner faces the front left.

44.2. Horizontally place a teal 1x2 plate underneath the front row so 1 column is exposed to the left.

44.3. Horizontally place an orange 1x2 plate from group 35 on top of the ppp so 1 column overhangs to the left. Now horizontally place an orange 1x2 angled sloped curved tile on top of the ppp so it slopes and overhangs to the left and the cutoff corner faces the back left.

44.4. Horizontally place an orange 1x2 tile on the front row. Then vertically place an orange 1x2 angled sloped curved tile behind the right column of the ppp so it slopes to the back and the cutoff corner faces the back right.

44.5. Place your part upright on the front-facing side studs, to the left of the upright 2x2 tile so it slopes and overhangs 2 columns to the left, and 1 row to the top. This is part of the ninja’s face mask!

Step 45.1

Let’s make 2 identical parts! Let’s make nunchucks! Horizontally place a gold chain with 2 bars in front of you so the bars face the left and right. Then attach the thinner side of a brown lightsaber hilt to the left-facing bar. Then repeat symmetrically to the right.

45.2. Now you should have 2 identical parts! Rotate your main build 180 degrees so the 2 middle clips face the back. Now attach the hilt of 1 part to the leftmost front-facing clip so it hangs down. Then repeat symmetrically to the right.

Step 46.1

Let’s make a part! Let’s make a platform! Place a black 6x6 plate in front of you. Then horizontally place a black 2x4 tile on the 2nd and 3rd rows from the back so it is centered horizontally. Then horizontally place a black 1x4 tile with 2 studs in front of the ppp. Now horizontally place a black 1x4 tile in front of the ppp.

46.2. Place your figure on top of the stand so it is centered horizontally and vertically. Now put him away while we make the next ninja turtle!

Building Instructions (Bag 4, Book 4):

Group 37 - Donatello

Step 1

Horizontally place a lime green 2x4 plate in front of you.

Step 2

Vertically place a lime green 1x2 plate underneath the leftmost column. Then repeat symmetrically to the right.

Step 3

Vertically place a lime green 1x2 plate on top of the leftmost column. Then repeat symmetrically to the right.

Step 4

Horizontally place a lime green 1x2 plate with 4 side studs hanging down on the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back.

Step 5

Place a tan 2x2 round tile printed with a cheese pizza with pepperoni on top so it is centered horizontally.

Step 6

Vertically place a black 1x2x1 ⅔ brick with 2x2 side studs on the rightmost column so the side studs face the right. Then repeat symmetrically to the left.

Step 7.1

Let’s make a part! Place a red 2x2 round brick in front of you. Then horizontally place a green 1x2 plate with 2x4 side studs hanging down on the front row so the side studs face the front. Then repeat symmetrically to the back.

7.2. Horizontally place your part on top of the 2x2 pizza so it is centered horizontally. It should not attach to any studs!

Step 8

Place a lime green 2x2 plate upright on the bottom 2 rows of front-facing side studs so it is centered horizontally.

Step 9

Horizontally place a lime green 1x4 plate upright on the top row of front-facing side studs. Now place a lime green 1x1 plate upright on the bottom left front-facing side stud. Then repeat symmetrically to the right.

Step 10

Place a short black 1x1 brick upright on the leftmost column of front-facing side studs so it is centered vertically. Then repeat symmetrically to the right.

Step 11.1

Horizontally place an orange 1x2 jumper plate upright on the top right corner of front-facing side studs.

Group 38 - Donatello

Step 11.2

Horizontally place an orange 1x2 tile upright to the left of the ppp. Then place an orange 2x2 plate upright on the bottom 2 rows of front-facing side studs so it is centered horizontally. Now place an orange 1x1 tile upright on the bottom left front-facing side stud. Then repeat symmetrically to the right.

Step 12

Horizontally place a black 1x2 jumper plate upright on the 2nd row of front-facing side studs from the bottom so it is centered horizontally. Then place a black 1x1 round tile printed with an orange D upright on the ppp.

Group 39 - Donatello

Step 13

Place a black 1x1 tile upright on the leftmost front-facing side stud. Then repeat symmetrically to the right. Now horizontally place the right column of a black 1x2 tile with a cutoff corner upright on the top front-facing side stud so the cutoff corner faces the top left.

Step 14

Rotate your build 90 degrees clockwise so the ppp faces the left. Now vertically place a lime green 1x2 plate upright on the left column of front-facing side studs. Then place a lime green 1x1 plate upright on the top right front-facing side stud.

Group 40 - Donatello

Step 15

Place a magenta 1x1 plate with an upright side stud, upright on the bottom right front-facing side stud so the side stud faces the right. Then place a purple 1x1 tile upright on the right-facing side stud of the ppp.

Step 16

Horizontally place a lime green 1x2 tile upright on the top row of front-facing side studs. Then horizontally place a lime green 1x2 plate with a clip, upright below the ppp so the clip faces down.

Step 17

Place a purple 1x1 quarter circle tile upright on the bottom right front-facing side stud so the curve faces the bottom left.

Step 18

Rotate your build 90 degrees clockwise so the clip is on the left and faces down. Then horizontally place a lime green 1x4 plate upright on the top row of front-facing side studs. Then horizontally place a lime green 2x4 plate upright below the ppp.

Group 41 - Donatello

Step 19

Horizontally stack 2 black 1x4 plates upright on the front-facing side studs so they are centered horizontally and vertically.

Group 42 - Donatello

Step 20.1

Let’s make 2 identical parts! Horizontally place a lime green 1x4 plate in front of you. Then horizontally place a brown 1x2 rounded plate on top so it is centered horizontally. Now place a brown 1x1 quarter circle tile on the leftmost column so the curve faces the back left. Then repeat symmetrically to the right. Now you should have 2 identical parts!

20.2. Horizontally place 1 part upright on the top row of front-facing side studs so it is centered horizontally and the curves face the top left and top right. Then repeat symmetrically to the bottom.

Step 21

Vertically place a brown 1x2 rounded plate upright on the top 2 front-facing side studs of the 2nd column from the left. Then place a purple 1x1 plate upright to the right of the bottom row of the ppp.

Step 22

Horizontally place a brown 1x2 slope tile upright on the bottom row of front-facing side studs so it is centered horizontally and slopes down. Now horizontally place a black 1x2 tile upright above the ppp so it is centered horizontally.

Step 23.1

Place a brown 1x1 slope tile upright on the front-facing side studs, above the right column of the ppp so it slopes up.

Group 43 - Donatello

Step 23.2

Place a black 1x1 slope tile upright on the leftmost front-facing side stud so it slopes to the left. Then repeat symmetrically to the right.

Step 24

Place a brown 1x1 claw upright on the front-facing side stud of the top row so the claw hands face the bottom left and top right.

Step 25

Rotate your build 90 degrees clockwise so the claw faces the left. Then horizontally place a lime green 1x2 plate upright on the top row of front-facing side studs. Now place a lime green 1x1 plate upright on the bottom right front-facing side stud.

Step 26

Place a magenta 1x1 plate with an upright side stud, upright on the bottom left front-facing side stud so the side stud faces the left. Then place a purple 1x1 tile upright on the left-facing side stud of the ppp.

Group 44 - Donatello

Step 27

Place a lime green 1x1 tile upright on the top left front-facing side stud. Then place a lime green 1x1 plate upright below the ppp. Now vertically place a lime green 1x2 plate with a clip upright on the right column of front-facing side studs so the clip faces the right.

Step 28

Place a purple 1x1 quarter circle tile upright on the bottom left front-facing side stud so the curve faces the bottom right.

Step 29

Rotate your build 90 degrees clockwise so the claw faces the back. Now place a lime green 4x4 plate on top so it is centered.

Step 30

Place a tan 2x2 brick on top so it is centered.

Step 31

Vertically place a light grey 1x2x1 ⅔ brick with 2x2 side studs on the leftmost column so it is centered vertically and the side studs face the left. Then repeat symmetrically to the right. Now horizontally place 2 more, 1 to the right of the other, on the front row so the side studs face the front. Then repeat symmetrically to the back.

Step 32.1

Place a tan 2x2 brick on top so it is centered.

Group 45 - Donatello

Step 32.2

Place a purple 2x2 round plate on top of the ppp. Then place a pink 2x2 brick on top of the ppp.

Step 33

Horizontally place a light grey 1x2x1 ⅔ brick with 2x2 side studs on the front row so it is centered horizontally and the side studs face the front. Then repeat symmetrically to the back. Now vertically place 2 more, 1 in front of the other, on the leftmost column so the side studs face the left. Then repeat symmetrically to the right.

Step 34.1

Let’s make a part! Horizontally stack 2 lime green 1x4 plates in front of you. Then horizontally place a lime green 1x2 plate on top so it is centered horizontally. Now horizontally place a lime green 1x4 double sloped curved tile on top so it is centered horizontally.

34.2. Horizontally place your part upright on the bottom row of front-facing side studs so it is centered horizontally.

Group 46 - Donatello

Step 35.1

Let’s make a part! Horizontally place a purple 1x4 plate in front of you. Then horizontally place a purple 1x4 tile with 2 studs on top of the ppp. Now place 2 black 1x1 round tiles printed with a white eye on top of the ppp.

35.2. Horizontally place your part upright on the bottom row of front-facing side studs, above the ppp so it is centered horizontally.

Step 36

Horizontally place a lime green 2x4 plate upright on the top 2 rows of front-facing side studs. Then horizontally place a lime green 2x4 tile upright on the ppp.

Step 37.1

Rotate your build 90 degrees clockwise so the ppp faces the left. Now let’s make 2 identical parts! Horizontally place a lime green 1x3 plate in front of you. Then place a lime green 1x1 tile on top so it is centered horizontally. Now horizontally place a lime green 1x2 sloped curved tile on the leftmost column so it slopes and overhangs to the left. Then repeat symmetrically to the right.

37.2. Now you should have 2 identical parts! Horizontally place 1 part upright on the 4th row of front-facing side studs from the top so it is centered horizontally and there is no overhang. Then repeat symmetrically to the back.

Step 38

Horizontally place a purple 1x4 tile upright on the front-facing side studs, above the ppp so it is centered horizontally on the studs. Then repeat symmetrically to the back.

Step 39

Horizontally place a lime green 2x4 tile upright on the top 2 rows of front-facing side studs. Then repeat symmetrically to the back.

Group 47 - Donatello

Step 40.1

Let’s make a part! Horizontally place a lime green 1x4 plate in front of you. Then horizontally place a lime green 1x2 tile on the 2 rightmost columns. Now horizontally place a lime green 1x2 plate to the left of the ppp.

40.2. Horizontally place a purple 1x2 sloped curved tile on the leftmost column so it slopes and overhangs to the left. Then place a purple 1x1 quarter circle tile to the right of the ppp so the curve faces the bottom right.

40.3. Rotate your main build 90 degrees clockwise so the 4 rows of front-facing side studs face the front. Now horizontally place your part upright on the bottom row of front-facing side studs so it is centered horizontally and slopes and overhangs to the left.

Group 48 - Donatello

Step 41.1

Let’s make a part! Horizontally place a purple 1x4 plate in front of you. Then horizontally place a purple 1x2 plate on top of the ppp so it is centered horizontally. Now place a purple 1x1 tile on the leftmost column. Then repeat symmetrically to the right.

41.2. Place a purple 1x1 quarter circle tile on the left stud so the curve faces the back left. Then place a purple 1x1 tile with a round side to the right of the ppp so the round side faces the right.

41.3. Horizontally place your part upright on the bottom row of front-facing side studs so it is centered horizontally. This is part of the face mask!

Group 49 - Donatello

Step 42

Horizontally place a lime green 2x4 plate upright on the top 2 rows of front-facing side studs so it is centered horizontally. Then horizontally place a lime green 1x4 tile upright on the top row of the ppp. Now place a lime green 1x1 tile upright below the rightmost column of the ppp.

Step 43.1

Let’s make a part! Horizontally place a lime green 1x2 plate in front of you.

Group 50 - Donatello

Step 43.2

Horizontally place a purple 1x2 tile on the left column so it overhangs 1 column to the left. Then horizontally place a purple 1x2 plate underneath the ppp so 1 column is exposed to the left. Now horizontally place a purple 1x2 sloped curved tile on the leftmost column so it slopes and overhangs to the left.

43.3. Horizontally place your part upright on the front-facing side studs so it slopes and overhangs 2 columns to the left.

Step 44.1

Flip your build upside down the previous part faces the back. Now vertically place a purple 1x2 plate on the leftmost column. Then repeat symmetrically to the right.

Group 51 - Donatello

Step 44.2

Vertically place a green 1x2 plate on top of each of the 2 ppp. These are the feet! Now flip your build over so it is right side up and the claw faces the back.

Step 45

Place a black 1x1 quarter circle tile upright on the left side stud of the bottom row of front-facing side studs so the curve faces the bottom right. Then vertically place a black 1x2 tile with a cutoff corner upright to the right of the ppp so it hangs down and the cutoff corner faces the bottom left.

Step 46

Horizontally place a lime green 2x4 plate on top so it is centered horizontally and vertically.

Step 47

Place 2 lime green 2x2 sloped curved tiles, 1 to the right of the other, on the back 2 rows so they slope to the back. Then repeat symmetrically to the front.

Step 48.1

Let’s make a part! Let’s make his staff! Horizontally place a gold bar with 2 side studs in front of you so the side studs face left and right. Then stack 2 brown candle sticks on the left-facing bar. Then repeat symmetrically to the right.

48.2. Vertically attach your staff to the rightmost bottom-facing clip so it is centered vertically.

Step 49

Attach a tan 2x2 round tile printed with a cheese pizza with pepperoni upright on the leftmost front-facing clip so the anti-studs face the left.

Step 50.1

Let's make a part! Let's make a platform! Place a black 6x6 plate in front of you. Then horizontally place a black 2x4 tile on the 2nd and 3rd rows from the back so it is centered horizontally. Then horizontally place a black 1x4 tile with 2 studs in front of the ppp. Now horizontally place a black 1x4 tile in front of the ppp.

50.2. Place your figure on top of the stand so it is centered horizontally and vertically.

Thank you so much for building this set!

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our Builders page. It's easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

We hope you enjoyed building your LEGO set! Bricks for the Blind are able to create these text-based building instructions thanks to generous donations from our builders. If you enjoy the instructions we create, please consider making a $5 donation at: https://www.gofundme.com/f/bricks-for-the-blind-gofundme.

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

Please sign up for our newsletter and follow us on Facebook and Instagram to be the first to know when new instructions are available!

At the end of the instruction booklets, there are no ads.
