

43299 Ariel's Royal Wedding Boat

Adapted by Arturo and tested by Hannah Kinsey.

Make a splash with this Disney's The Little Mermaid building toy from the LEGO® I Disney Princess collection. Young fans ages 6 and over can create Ariel's Royal Wedding Boat (43299) and play out endless creative stories. Explore details and accessories inspired by the movie, including a dance floor, an opening upper deck with Vanessa's mirror (and Ursula's reflection!), a bedroom with treasure storage, a slide on the upper deck and a small dolphin chariot. Kids can recreate movie scenes or tell their own stories with Disney Princess Ariel, Eric, King Triton and Vanessa LEGO I Disney minidoll characters, as well as Flounder, Sebastian and Max. This building set makes a great Disney gift-giving idea for girls and boys. After playtime, create a fun display alongside other LEGO I Disney sets (sold separately).

The packaging has a colorful and celebratory esthetic inspired by Disney's The Little Mermaid. The front of the box shows the set, consisting of Ariel's large royal wedding boat, King Triton's small dolphin chariot, and the included characters arranged in an active scene. The boat has a blue violet hull with a white upper structure, lavender, bright pink, light aqua, and pearl gold details, rounded balconies, decorative windows, and an upper deck with a ship's wheel. Ariel and Prince Eric are posed together on the boat in their wedding outfits, while Vanessa stands nearby. King Triton holds his pearl gold trident beside the smaller chariot, accompanied by Sebastian and a light aqua dolphin, while Flounder and Max complete the character scene. The background shows the boat traveling across blue ocean water under a soft pink and purple sky filled with sparkles, giving the artwork a magical wedding atmosphere. On the top left corner, we have the iconic red LEGO logo, with the Disney logo next to it. The set information on the lower left shows the suggested age, the set number, name, and the number of pieces. A small character portrait of Ariel appears near the bottom right corner. The back of the box shows the finished boat from another angle and focuses on the different areas and play features. It shows that the upper deck can be opened or removed to reveal the bedroom below, where the bed cover can be moved to access the treasure-storage compartment. Other images show the spinning dance floor at the front of the boat, the turning ship's wheel, the upper-deck slide, and Vanessa's rotating mirror with Ursula's reflection on the opposite side. The back also highlights the separate dolphin chariot, Ariel's alternative mermaid form, and accessories such as the treasure chest with gems, telescope, candelabra with silverware, and King Triton's trident. On the top left corner, we have the iconic red LEGO logo, with the Disney logo next to it. The background is pink with shining sparkles. The left side of the box shows a vertical continuation of the ocean and sparkling sky artwork, together with the LEGO and Disney branding and a smaller view of the wedding boat. The right side of the box has the LEGO logo, set-identification information, and the usual safety warning stating that the set contains small parts and is therefore not recommended for children younger than 3 years old in different languages. The top of the box shows the LEGO and Disney branding again, a picture of the characters contained in the set, as well as a 1:1 scale image of Ariel in her wedding dress. The bottom side is a tidy strip that contains the barcode as well as the usual technical information, including manufacturing details, copyright information, trademark notices, recycling symbols, and additional product markings.

The build consists of 519 pieces in total and is recommended for ages 6+. Once finished, you will have King Triton's chariot, the wedding boat, and 4 minidolls. The set consists of 7 numbered bags.

Welcome to Text-Based Building Instructions from Bricks for the Blind. Here is some helpful information on how to best use screen readers and browsers: <https://bricksfortheblind.org/help-with-screen-readers/>. Before you start building, here are some terms we will be using:

- In Front of/Front: towards you.
- Behind/Back: away from you.
- Up: towards the ceiling.
- Down: towards the floor.

- Stud: the bump on a LEGO brick. Example: A 2x1 brick has two studs on it.
- Vertically: with the longest side going from front to back
- Horizontally: with the longest side going from left to right.
- Upright: pointing up towards the ceiling.
- Standing upright: The piece is perpendicular to the ground, like a wall.
- Lying flat: The piece is parallel to the ground, like a piece of toast which fell off the table.
- That one/ppp: previously placed piece.
- Plate: piece with studs.
- Tile: smooth piece without studs (unless otherwise specified)
- A jumper plate is a 1x2 plate with a single stud on top, or a 1x3 plate with only two studs on top.
- Open/hollow stud: a bump on a LEGO brick with a hole, which allows attaching bars. In the case

of open

studs, the hole goes all the way through. In the case of hollow studs, it does not.

- "Anti-stud" is a term for the portion of a LEGO piece which accepts studs, like the bottom of a plate or brick.

- Left/right wedge parts: these are parts that when placed in front of you and are pointing to the back, their wedge is on the left/right side of the part.

- Symmetrically: a mirror image. Example: If you place a 2x1 brick with technic connector on the front wall

at the right, connector to the front, and then place another such piece symmetrically on the back wall, at

the right, the technic connector of the second piece should point to the back, since it will be placed

symmetrically.

- Centered-vertically: even amount of space in front of and behind piece
- Centered-horizontally: even amount of space left and right of piece.
- Row: studs lined up horizontally (left to right/side to side).
- Column: studs lined up upright or vertically (top to bottom/back to front).

Additionally, it is worth mentioning that besides the printed visual instructions that come with each kit, a PDF version for the set's instructions is always available online at [\[https://www.lego.com/en-si/service/building-instructions/43299\]](https://www.lego.com/en-si/service/building-instructions/43299). This might help a sighted building partner that may want to follow along or low vision users that may benefit from viewing the instructions on a personal device where they can zoom in on content and use assistive technologies to enhance the visuals.

Sorting the pieces:

To begin a successful build, it helps to sort the pieces into groups, bags or small containers. Have a sighted friend or family member do this in advance following the instructions below. You will see that the pieces

should be sorted into groups according to the building steps in the set. Doing this in advance makes locating the

pieces for each step easier. See below on how to sort the pieces to correspond to the steps in this set. Number the containers using letters A-Z, numbers, or meaningful names. The parts will be sorted into one or a small number of steps in the instructions. Example: Steps 1-3 means collect all the parts used in steps 1, 2, and 3 and put them in one container.

This LEGO set comes with 7 numbered bags, 4 instruction booklets, and 4 minidolls. Sort the pieces into groups or piles as described below. Note that where there are multiple colors of the same brick in a step, the colors will be split into 2 groups to make telling the difference easier for the builder!

LEGO includes a few spare parts in case you lose something. Set these into their own group away from the rest, in case you need them later.

This build is 519 pieces and 152 building steps. The set has 1 sticker sheet and a total of 9 stickers a sighted person will need to help with.

Book 1, bag 1 (4 groups of bricks)

King Triton, Dolphin & Sebastian, King Triton's chariot

Group 1: page 6

Group 2: page 7

Group 34: steps 34-41

Group 35: steps 42-46

Group 36: steps 47-58

Alright, we are done with sorting. Let's get building!

Building Instructions

Book 1, bag 1

Group 1 – King Triton

Page 6

Place 1 dark azure mini doll merman tail standing in front of you, so that its tail faces to the right. Then, attach 1 medium tan mini doll torso on top of it. Continue by attaching 1 light nougat mini doll head to the neck, so that its nose faces to the front. Next, slide 1 mini doll white hair with beard and gold crown onto the ppp, so that its beard faces to the front. Lastly, place 1 pearl gold trident into King Triton's right hand. He is ready!

Group 2 – Dolphin & Sebastian

Page 7

Insert 1 transparent light blue water into the top-facing hole of 1 light aqua dolphin. You can pose the dolphin together with Sebastian next to King Triton.

Group 3 – King Triton's chariot

Step 1

Let's build King Triton's chariot. Place 1 bright light yellow 2x4 plate horizontally in front of you.

Step 2

Locate 2 bright light yellow 1x2 bricks with pin holes. Place the first one vertically on the leftmost column of the ppp, so that its pinhole faces to the left and right. Take the second one and repeat symmetrically on the right. Then, place 1 light bluish gray 2x2 brick between the 2 ppps.

Step 3

Insert the pin of 1 tan 2L axle with pin into each of the 2 pinholes from the previous step, so that their axles overhang to the left and right.

Step 4

Rotate 1 bright light yellow 2x4 double inverted slope brick with 2x2 cutout vertically. Place its cutout under the chariot build, so that it is centered horizontally, it slopes to the front and back, and it has 1 exposed row on the back and 1 exposed row on the front.

Step 5

Place 1 yellow 1x2 plate with clips on long edge horizontally on the front row, so that its clips face to the front. Rotate 1 pearl gold 1x2 plate with 2L bars on short edges horizontally, so that its bars face to the back. Place it on top of the back row.

Step 6

Rotate 2 bright light yellow 1x1 plates with 1x1 curved slope tile vertically, so that they slope to the back. Place their back rows on top of the ppp.

Step 7

Place 1 yellow 1x4 rounded plate with 2 open studs horizontally on the front row, so that it is centered horizontally and it overhangs to the left and to the right by 1 column.

Step 8

Place the front row of 1 blue violet 2x2 round tile with open stud on top of the 2 middle columns of the ppp.

Step 9

Find 2 lavender 1x2 rounded plates with open studs. Place the first one vertically to the left of the ppp. Take the second one and repeat symmetrically on the right.

Step 10

Grab 2 coral 1x2 curved slope tiles. Rotate the first one vertically, so that it slopes to the back. Place its front row on top of the back row of the ppp. Take the second one and repeat symmetrically on the left.

Step 11

Place 1 lavender 1x2 half cylinder brick horizontally between the back row of the 2 ppps, so that it slopes to the front and to the back.

Step 12.1

We need to assemble a small sub-build. Rotate 1 lavender 2x2 plate with clam shell so that its shell faces to the front. Then, place 1 satin transparent light blue 2x2 inverted round plate with rounded bottom under the 2x2 plate from the ppp.

Start Building

Step 12.2

Place 1 bright pink 1x2 plate with handle on long edge on top of the back row, so that its handle faces to the back.

12.3 Locate 2 coral 1x2 curved slope tiles. Rotate the first one so that it is vertical and it slopes to the front. Place its back row on top of the leftmost column of the ppp. Take the second one and repeat symmetrically on the right.

12.4 The sub-build is complete. Attach its back-facing handles to the chariot's front-facing clips. Raise the shell by rotating it from front to back as much as possible, so that it is vertically upright.

Group 4 – King Triton's chariot (continued)

Step 13

Let's build the chariot's front part. Place 1 transparent light blue 2x2 round brick with axle hole in front of you. Then, place 1 yellow 1x4 rounded plate with 2 open studs horizontally on top of the front row of the ppp, so that it is centered horizontally and it overhangs to the left and to the right by 1 column.

Step 14

Place 1 pearl gold 1x2 plate with 2L bars on short edges horizontally behind the ppp, so that its handles face to the back.

Step 15

Place the back row of 1 pearl gold 2x2 plate on top of the ppp.

Step 16

Slide 1 pearl gold weapon hilt onto each of the 2 back-facing bars.

Step 17

Attach 1 satin transparent light blue 2x2 inverted round tile with rounded bottom under the 2 front rows, so that it is centered horizontally and under the 2x2 round brick.

Step 18

Place 1 blue violet 1x2 half circle tile with stud horizontally on top of the back row, so that its curved edge faces to the front.

Step 19

The chariot's front part is complete. Bring back the chariot, so that its shell is on the back. Attach the back-facing weapon hilts of the chariot's front part to the front-facing bars of the chariot.

Step 20

Find 2 transparent light blue curved stems with swirls. Attach the first one to the leftmost column of the front row, so that it faces to the back. Take the second one and repeat symmetrically on the right.

Step 21

Grab 2 satin transparent light 4x4 dome top with 2x2 recessed center. Attach the first one to the left-facing axle on the back of the chariot, so that its recessed stud faces to the left. Take the second one and repeat symmetrically on the right. Attach 1 medium azure 2x2 round tile to each of the 2 ppps. Then, we need to apply 1 sticker 8 (a dark azure circle with some swirl pattern) to each of the 2 ppps. Ask a sighted friend to make sure that the stickers are applied correctly.

The chariot is complete! You can stand King Triton in front of the shell. You can also stand Sebastian on the 2nd row from the front. Lastly, you can also attach the dolphin to the chariot by placing its tail on the front row, so that the dolphin faces to the front.

Book 2, bag 2

Group 5 – Wedding boat

Step 1

Let's start building the rear of the boat. Place 1 dark blue 6x10 plate horizontally in front of you. Then, place 1 tan 1x8 plate horizontally on the back row, so that it is centered horizontally.

Step 2

Locate 2 lavender 1x12 plates. Rotate the first one vertically. Place its back row to the left of the ppp, so that it overhangs to the front by 6 rows. Take the second one and repeat symmetrically on the right.

Step 3

Rotate 1 dark blue 6x10 plate horizontally. Place its leftmost and rightmost columns under the overhang of the 2 ppps.

Step 4

Find 2 blue violet 1x2 plates. Place the first one horizontally on the 2nd row from the back on the 2nd and 3rd columns from the left. Take the second one and repeat symmetrically on the right.

Step 5

Grab 2 lavender 1x5 plates. Place the first one vertically in front of the leftmost column of the ppp. Take the second one and repeat symmetrically on the left. Then, place 1 pearl gold 1x1 round plate with open stud in front of each of the 2 ppps.

Step 6

Locate 2 black 2x2 corner tiles with panels. Rotate the first one so that its panels face to the left and to the back. Place its back row on the 2nd row from the back on the 4th and 5th columns from the left, to the right of the blue violet 1x2 plate. Take the second one and repeat symmetrically on the right.

Step 7

Find 2 black 1x2 tiles with panel. Place the first one vertically in front of the rightmost column of the ppp, so that its panel is to the right. Take the second one and repeat symmetrically on the left.

Step 8

Grab 2 black 2x2 corner tiles with panels. Rotate the first one so that its panels face to the left and to the front. Place its leftmost column in front of the ppp. Take the second one and repeat symmetrically on the right. The panels from the 3 previous steps should create a 4x6 rectangle.

Step 9

Place 2 bright pink 1x4 bricks with side studs horizontally, one to the right of the other, on the back row, so that their side studs face to the back and together they are centered horizontally.

Step 10

Locate 2 white 1x4 plates. Place the first one vertically on the 3rd column from the left on the 2nd to 5th rows from the back. Take the second one and repeat symmetrically on the right.

Step 11

Rotate 1 white 3x6 plate with 2x4 cutout so that it is horizontal and its cutout faces to the back. Place its leftmost and rightmost columns in front of the 2 ppps.

Step 12

Find 2 white 1x2 curved slope bricks. Place the first one on the 3rd column from the left on the 2nd and 3rd rows from the back, so that it slopes to the left. Take the second one and repeat symmetrically on the right.

Group 6 – Wedding boat (continued)

Step 13

Grab 4 bright light blue 1x2 curved slope bricks. Place the first 2 vertically, one in front of the other, in front of the ppp, so that they slope to the right. Take the remaining 2 and repeat symmetrically on the left.

Step 14

Locate 2 bright light blue 1x1 quarter dome tiles. Place the first one in front of the 2 ppps, so that it slopes to the left and to the front. Take the second one and repeat symmetrically on the right. Place 2 bright light blue 1x2 curved slope bricks horizontally, one to the right of the other, between the 2 ppps, so that they slope to the front.

Step 15

Find 6 bright pink 1x4 bricks with side studs. Place the first 3 vertically, one in front of the other, on the leftmost column, so that their side studs face to the left. Take the remaining 3 and repeat symmetrically on the right.

Group 7 – Wedding boat (continued)

Step 16

Put the rear of the boat to the side for now. Let's build the front of the boat. Place 1 blue violet 10x12 boat bow in front of you, so that its narrow end faces to the back. Then, place 1 white 1x2 grille tile horizontally on the 4th row from the back, so that it is centered horizontally.

Step 17

Place 1 red 1x6 plate horizontally in front of the ppp, so that it is centered horizontally. Then, place 1 dark blue 2x4 tile horizontally in front of the ppp, so that it overhangs to the front by 1 row.

Step 18

Rotate 1 blue violet 4x6 plate horizontally. Place its back row under the overhang of the ppp, so that it is centered horizontally.

Step 19

Grab 2 dark blue 2x2 plates. Place the first one on the 4th and 5th rows from the front, to the left of the 2x4 tile. Take the second one and repeat symmetrically on the right.

Step 20

Locate 2 white 2x2 curved tiles. Rotate the first one so that its long curved edge faces to the back and to the right. Place its front row on top of the back right corner of the ppp. Take the second one and repeat symmetrically on the left. Then, place 2 white 1x2 grille tiles horizontally, one to the right of the other, between the back rows of the 2 ppps.

Step 21

Place 2 dark turquoise 1x2 plates with stud and upright clip vertically, one to the right of the other, on the 2nd and 3rd rows from the front, so that together they are centered horizontally and their clips are on the back.

Step 22

Find 2 blue violet 1x2 curved slope tiles. Place the first one horizontally on the 5th and 6th columns from the left of the 2nd row from the front, so that it slopes to the left. Take the second one and repeat symmetrically on the right.

Step 23

Grab 4 blue violet 1x2 plates. Stack the first 2 and place them horizontally on the 2 leftmost columns of the front row. Take the remaining 2 and repeat symmetrically on the right.

Step 24

Rotate 1 dark turquoise 2x4 rounded tile horizontally. Place its back row on top of the front row, so that it is centered horizontally and it overhangs to the front by 1 row.

Group 8 – Wedding boat (continued)

Step 25

Bring back the rear of the boat, so that it is vertical and its side studs face to the left, front and right. Place its back row under the overhang of the ppp, so that it is centered horizontally.

Step 26

Locate 2 dark blue 2x4 tiles. Rotate the first one vertically. Place its 2 front rows to the left of the 2x4 rounded tile. Take the second one and repeat symmetrically on the right.

Step 27

Find 2 white 1x2 plates with stud and 1x1 slope tile. Place the first one vertically in front of the rightmost column of the ppp, so that it slopes to the front. Take the second one and repeat symmetrically on the left.

Step 28

Grab 2 white 1x6 plates. Rotate the first one vertically. Place its front row on top of the back row of the ppp. Take the second one and repeat symmetrically on the right.

Step 29

Rotate 1 blue violet 10x12 boat bow, so that its narrow end faces to the back. Place its 3 front rows of the 3rd column from the left and from the 3rd column from the right on top of the 3 back rows of the 2 ppps.

Step 30

Place 1 lavender 2x6 plate horizontally on the 5th and 6th rows from the back, so that it is centered horizontally. Locate 2 lavender 1x5 plates. Rotate the first one vertically. Place its back row to the left of the front row of the ppp. Take the second one and repeat symmetrically on the right.

Group 9 – Wedding boat (continued)

Step 31

Find 2 light aqua 2x4 tiles. Rotate the first one horizontally. Place its front right corner on top of the back row of the ppp. Take the second one and repeat symmetrically on the left. Grab 2 light aqua 1x4 tiles with 2 studs. Place the first one vertically in front of the leftmost column of the ppp. Take the second one and repeat symmetrically on the right.

Step 32

Locate 2 white 1x4x1 2/3 curved slope tiles. Rotate the first one vertically, so that it slopes to the front. Place its back row on top of the front row of the ppp. Take the second one and repeat symmetrically on the left.

Step 33

Find 2 light bluish gray 2x12 plates. Rotate the first one horizontally upright, so that its antistuds face to the right. Attach its top row to the left-facing side studs. Take the second one and repeat symmetrically on the right. Grab 6 blue violet 2x4 curved slope tiles. Take the first 3 and attach them horizontally upright to the ppp, one to the right of the other, so that they slope to the bottom. Take the remaining 3 and repeat symmetrically on the left.

Step 34.1

We need to assemble a small sub-build. Place 1 lime 2x4 plate horizontally in front of you. Then, place 1 yellow 2x6 plate horizontally on top of the ppp, so that it overhangs to the left and to the right by 1 column.

34.2 Locate 2 light bluish gray 2x2 plates with 1x2 upright side studs. Rotate the first one so that its side studs face to the left. Place its rightmost column under the leftmost overhanging column of the ppp. Take the second one and repeat symmetrically on the right.

34.3 Attach 1 blue violet 1x2 plate horizontally upright to the side studs of each of the 2 ppps. Then, attach 1 blue violet 1x2 curved slope brick horizontally to each of the 2 ppps, so that they slope to the top.

34.4 Lastly, place 2 blue violet 2x4 curved slope tiles horizontally, one to the right of the other, on top of the sub-build, so that they slope to the front.

34.5 The sub-build is complete. Rotate it 90 degrees from back to front, so that its antistuds face to the back and the 2 ppps slope to the bottom. Attach its top row to the front-facing side studs of the boat build, so that it is centered horizontally.

Step 35

Place 2 medium lavender 2x4 plates horizontally, one to the right of the other, on top of the front row, so that they are centered horizontally and only their back rows are attached. Find 2 medium lavender 2x2 corner plates. Rotate the first one so that it resembles a D in Braille. Place it to the left of the 2 ppps, so that it is attached by its back right corner. Take the second one and repeat symmetrically on the right.

Step 36

Grab 6 medium lavender 2x4 plates. Place the first 3 vertically, one behind the other, behind the ppp. Take the remaining 3 and repeat symmetrically on the left.

Book 1, bag 3

Group 10 – Wedding boat (continued)

Step 37

We need to assemble a small sub-build for one of Scuttle's artifacts. Hold 1 pearl gold candelabra horizontally. Then, stack 2 pearl gold 1x1 round plates with open stud and attach them to the middle column of the ppp. Insert 1 flat silver knife vertically upright into the 2 ppps, so that its blade faces to the left. Next, insert 1 flat silver fork vertically upright into the leftmost column of the candelabra. Lastly, insert 1 flat silver spoon vertically upright into the rightmost column of the candelabra. The artifact is complete. Place it horizontally in the 4x6 open space located on the front of the boat.

Step 38

We need to assemble a small sub-build to cover said open space. Place 1 blue violet 4x6 plate vertically in front of you.

Step 39

Place 2 bright light blue 2x2 plates, one behind the other, on top of the 4 front rows, so that together they are centered horizontally.

Step 40

Locate 2 bright light blue 1x4 tiles. Place the first one vertically to the left of the 2 ppps. Take the second one and repeat symmetrically on the right.

Step 41

Place 1 bright light blue 2x4 tile horizontally on the 2 back rows, behind the 2 ppps.

Step 42

Place 1 white 2x4 half cylinder brick horizontally on top of the 2 front rows, so that it slopes to the front and to the back.

Step 43

Place 1 lavender 2x2 round tile with hollow stud behind the ppp. Then, place 1 bright pink 2x2 round tile on top of the ppp. Lastly, we need to apply sticker 6 (a bright pink circle with a cushion pattern) to the ppp. Ask a sighted friend to make sure that the sticker is applied correctly.

Step 44

The sub-build is complete. Use it to cover the 4x6 open space located on the front of the boat containing the artifact sub-build, creating a bed.

Group 11 – Wedding boat (continued)

Step 45

Place 1 light aqua 2x2 round brick with axle hole behind the bed, so that it is centered horizontally. Find 2 blue violet 1x2 half circle tiles with hollow stud. Place the first one on top of the leftmost column of the ppp, so that its curved edge faces to the left. Take the second one and repeat symmetrically on the right.

Step 46

Place 1 bright light yellow 1x1 round plate on top of each of the 2 ppps. Then, place 1 bright pink 1x1 round tile with swirl on top of the leftmost ppp. Continue by placing 1 medium nougat 1x1 round tile with swirl to the right of the ppp.

Step 47

Rotate 1 white 10x12 boat bow horizontally, so that its narrow end faces to the back. Place its front row on top of the 9th row from the back (or the 16th row from the front, whichever is easier for you to count), so that it is centered horizontally.

Step 48

Find 2 light aqua 2x2 round tiles with hollow stud. Place the first one on top of the 2 leftmost columns of the 2 front rows of the ppp. Take the second one and repeat symmetrically on the right.

Step 49

Grab 2 white 2x2 plates. Place the first one in front of the ppp. Take the second one and repeat symmetrically on the left. Find 2 white 1x2 plates. Place the first one horizontally on the back row of the ppp. Take the second one and repeat symmetrically on the right.

Step 50

Locate 2 white 1x2 curved slope tiles. Rotate the first one vertically, so that it slopes to the front. Place its back row on top of the leftmost column of the ppp. Take the second one and repeat symmetrically on the left.

Step 51

Find 2 white 1x4 curved slope tiles. Rotate the first one vertically, so that it slopes to the front. Place its 2 back rows to the left of the ppp. Take the second one and repeat symmetrically on the right.

Group 12 – Wedding boat (continued)

Step 52

Place 1 light aqua 2x2 round tile with hollow stud on the 2nd and 3rd rows from the back, so that it is centered horizontally. Grab 2 light aqua 4x4 round corner tiles. Rotate the first one so that its long curved edge faces to the back left. Place its rightmost column behind the leftmost column of the ppp, so that it overhangs to the front by 1 row. Take the second one and repeat symmetrically on the right.

Step 53.1

We need to assemble 2 identical sub-builds. You can choose to build them simultaneously or one at a time. Let's begin with the first one. Place 1 lavender 1x5 plate vertically in front of you. Then, place 1 white 1x2 plate vertically on top of the 2 back rows of the ppp.

53.2 Place 1 white 1x2 plate with stud and slope tile vertically in front of the ppp, so that it slopes to the front. Then, place 1 satin transparent clear 1x1 round dome brick in front of the ppp.

53.3 Place 1 light aqua 1x4 tile with 2 studs vertically on top of the 3 back rows of the sub-build, so that it overhangs to the back by 1 row.

53.4 The sub-build is complete. Place it vertically on the 3rd column from the left so that its back-overhanging row is in front of the overhang of the left 4x4 round corner tile and it is behind the 1x4x1 2/3 curved slope tile.

53.5 If you decided to assemble the sub-builds one at a time, build a second one by repeating steps 53.1 to 53.3. Place it symmetrically on the right.

Step 54

Place 1 medium nougat 2x4 treasure chest bottom horizontally between the 2 front rows of the sub-builds from the previous step, behind the 2 upright clips, so that its hinges are to the back and it is centered horizontally. Then, place 1 transparent dark pink jewel and 1 transparent light blue jewel into the ppp. Lastly, place 1 medium nougat 2x4 treasure chest cover horizontally on top of its bottom counterpart, so that its hinges are to the back.

Step 55

Rotate 1 medium azure 3x4 stairs vertically upright. Attach it to the clips in front of the treasure chest from the previous step. Then, angle the steps as much as possible to the back.

Book 1, bag 4

Group 13 – Wedding boat (continued)

Step 56

Locate 2 white 1x3x2 inverted half arches. Rotate the first one vertically, so that it slopes to the back. Place it on the 11th to 13th rows from the front of the 2nd column from the left. Take the second one and repeat symmetrically on the right.

Step 57

Find 2 white 1x2x2 slope bricks. Rotate the first one horizontally, so that it slopes to the right. Place its leftmost column in front of the ppp. Take the second one and repeat symmetrically on the left.

Step 58

Grab 2 lavender 1x2 plates. Place the first one vertically in front of the rightmost column of the ppp. Take the second one and repeat symmetrically on the right. Locate 2 white 1x2x2 2/3 windows with rounded tops. Place the first one vertically on top of the ppp, so that its ridge faces to the right. Take the second one and repeat symmetrically on the left. Find 2 white 1x2 half circle tiles. Place the first one vertically to the left of the ppp, so that its curved edge faces to the left. Take the second one and repeat symmetrically on the right.

Step 59

Find 2 white 2x2x2 slope bricks. Rotate the first one so that it slopes to the right. Place its rightmost column in front of the ppp. Take the second one and repeat symmetrically on the left.

Step 60

Grab 2 lavender 1x2 plates. Place the first one vertically in front of the rightmost column of the ppp. Take the second one and repeat symmetrically on the right. Locate 2 white 1x2x2 2/3 windows with rounded tops. Place the first one vertically on top of the ppp, so that its ridge faces to the right. Take the second one and repeat symmetrically on the left. Find 2 white 1x2 half circle tiles. Place the first one vertically to the left of the ppp, so that its curved edge faces to the left. Take the second one and repeat symmetrically on the right.

Step 61

Attach 1 pearl gold 1x2x2 2/3 lattice with rounded top vertically upright to the outside of each of the 4 windows.

Group 14 – Wedding boat (continued)

Step 62

Grab 2 white 1x2x2 slope bricks. Place the first one horizontally on the 2 leftmost columns on the 3rd row from the front, so that it slopes to the left. Take the second one and repeat symmetrically on the right.

Step 63

Locate 4 white 2x2 round bricks with axle hole. Stack the first 2 and place their rightmost column in front of the leftmost column of the ppp. Take the remaining 2 and repeat symmetrically on the left.

Step 64

Find 2 light aqua 1x2 plates with 2x2 upright side studs. Place the first one vertically on top of the 2nd column from the left on the 6th and 7th rows from the front, on top of the 2x2x2 slope brick, so that its side studs face to the left. Take the second one and repeat symmetrically on the right.

Step 65

Grab 4 white 1x2 plates with 1x2 upright side studs. Place the first one vertically on the 2nd column from the left on the 10th and 11th rows from the front, so that its side studs face to the left. Take the second one and repeat symmetrically on the right. Place the third one vertically on the 2nd column from the left on the 2nd and 3rd rows from the front, so that its side studs face to the left. Take the last one and repeat symmetrically on the right.

Step 66

Locate 2 pearl gold 1x1 plates with tooth hanging down. Place the first one to the left of the back row of the ppp, so that its tooth faces to the back. Take the second one and repeat symmetrically on the left.

Step 67

Find 2 lavender 1x2 plates. Place the first one horizontally on the 4th and 5th columns from the left on the 2nd row from the front. Take the second one and repeat symmetrically on the right. Place 1 white 1x2x2 2/3 window with rounded top horizontally on top of each of the 2 ppps, so that their ridges face to the front. Then, place 1 white 1x2 half circle tile horizontally in front of each of the 2 ppps, so that their curved edges face to the front.

Step 68

Attach 1 pearl gold 1x2x2 2/3 lattice with rounded top vertically upright to the front of each of the 2 windows from the previous step.

Step 69

Stack 2 white 2x2 round bricks with axle hole and place them on the 2 front rows, so that they are centered horizontally. Then, place 1 light aqua 1x2 plate with 2x2 upright side studs horizontally on the back row of the 2 ppps, so that its side studs face to the back. Next, attach 1 bright pink 2x2 round tile upright to the back-facing side studs of the ppp. We need to apply sticker 7 (a bright pink circle with the portraits of Ariel and Erik looking at each other) to the ppp. Ask a sighted friend to make sure that the sticker is applied correctly.

Group 15 – Wedding boat (continued)

Step 70

Grab 2 white 1x4x2 arches. Rotate the first one horizontally. Place its rightmost column on top of the leftmost column of the 1x2 plate with 2x2 upright side studs from the previous step. Take the second one and repeat symmetrically on the right.

Step 71

Locate 2 white 1x1 round bricks. Place the first one to the right of the ppp. Take the second one and repeat symmetrically on the left.

Step 72

Find 4 white 1x4x2 arches. Place the first 2 vertically, one behind the other, behind the ppp. Take the remaining 2 and repeat symmetrically on the right.

Step 73

Grab 2 white 1x1 bricks with protruding scroll with stud. Place the first one behind the 2 ppps, so that its protruding scroll faces to the left. Take the second one and repeat symmetrically on the left.

Group 16 – Wedding boat (continued)

Step 74

Locate 2 white 2x2 corner plates. Rotate the first one so that it resembles an F in Braille. Place its back row on top of the ppp. Take the second one and repeat symmetrically on the right. Find 2 bright pink 1x2 plates with 1x2 side studs hanging down. Place the first one vertically in front of the rightmost column of the ppp, so that its side studs face to the right. Take the second one and repeat symmetrically on the left.

Step 75

Grab 2 bright pink 1x2 plates with 1x2 inverted curved slope tiles. Rotate the first one so that it slopes to the right. Place its leftmost column in front of the ppp. Take the second one and repeat symmetrically on the right.

Step 76

Locate 2 bright pink 1x2 plates with 1x2 side studs hanging down. Place the first one vertically in front of the rightmost column of the ppp, so that its side studs face to the right. Take the second one and repeat symmetrically on the left. Find 2 white 2x2 corner plates. Rotate the first one so that it resembles an H in Braille. Place its leftmost column in front of the ppp. Take the second one and repeat symmetrically on the right. Lastly, place 1 bright pink 1x6 plate horizontally between the front row of the 2 ppps.

Group 17 – Wedding boat (continued)

Step 77

Grab 3 white 2x2 inverted curved slope bricks. Place the first one in front of the 2 middle columns of the ppp, so that it slopes to the front. Place the second one similarly on the 2nd and 3rd columns from the left of the front row, so that it slopes to the front. Take the last one and repeat symmetrically on the right.

Step 78

Locate 2 light bluish gray 1x2 plates with 1x2 upright side studs and 1x2 side studs hanging down. Place the first one vertically on the rightmost column of the ppp, so that its side studs face to the right. Take the second one and repeat symmetrically on the left.

Step 79

Find 2 medium lavender 2x4 plates. Place the first one horizontally to the right of the ppp. Take the second one and repeat symmetrically on the right.

Step 80

Grab 2 medium lavender 2x4 plates. Rotate the first one horizontally. Place its 3 leftmost columns on top of the 3 rightmost columns of the ppp. Take the second one and repeat symmetrically on the left. Place 2 medium azure 1x2 plates with clip on short edge vertically, one to the right of the other, between the 2 ppps, so that their clips face to the front.

Group 18 – Wedding boat (continued)

Step 81

Place 1 blue violet 1x8 tile horizontally on top of the front row of the 2 ppps, so that it is centered horizontally. Then, place 1 dark pink 2x2 tile with 2 studs in front of the ppp, so that it is centered horizontally and its studs face to the back. Locate 2 white 2x3 tiles. Place the first one horizontally to the left of the ppp. Take the second one and repeat symmetrically on the right.

Step 82

Find 2 blue violet 1x4 tiles. Rotate the first one vertically. Place its 2nd and 3rd rows from the front to the right of the ppp. Take the second one and repeat symmetrically on the left. Grab 2 blue violet 1x8 tiles. Place the first one vertically behind the ppp. Take the second one and repeat symmetrically on the right.

Step 83

Locate 2 blue violet 1x1 half circle tiles. Place the first one to the left of the back row of the ppp, so that its curved edge faces to the left. Take the second one and repeat symmetrically on the left.

Group 19 – Wedding boat (continued)

Step 84

Rotate the boat 90 degrees clockwise on the horizontal plane, so that its bow faces to the right. Find 2 white 1x1 tiles with upright clips. Attach the first one upright to the rightmost front-facing side stud, so that its clip hands face to the left and right. Place the second one on the bottom row of the 3rd column from the left of front-facing side studs, so that its clip hands face to the left and right.

Step 85

Grab 4 bright pink 2x2 tiles with curved cutout. Rotate the first one upright, so that its cutouts face to the top left and to the bottom right. Attach its bottom row to the right of the ppp. Rotate the second one upright, so that its cutouts face to the bottom left and to the top right. Attach its top row to the right of the top row of the ppp. Place the remaining 2 in a similar pattern to the right of the 2 ppps.

Step 86

Rotate 1 light aqua 1x2 half circle tile with hollow stud horizontally upright, so that its antistuds face to the back and its curved edge faces to the bottom. Attach it to the front-facing side studs located between the curved cutouts from the pieces from the previous step.

Step 87

Attach 1 pearl gold 1x1 round plate with leaves upright to the ppp, so that its leaves face to the top. Then, attach 1 blue violet 1x1 round plate with petals upright to the ppp. Next, attach 1 satin transparent clear 1x1 dome top to the ppp.

Step 88

Locate 2 pearl gold curved stems with swirls. Attach them to the front-facing clips, so that their swirls face towards the ppp.

Group 20 – Wedding boat (continued)

Step 89

Rotate the boat 180 degrees on the horizontal plane, so that its bow faces to the left. Find 2 white 1x1 tiles with upright clips. Attach the first one upright to the leftmost front-facing side stud, so that its clip hands face to the left and right. Place the second one on the bottom row of the 3rd column from the right of front-facing side studs, so that its clip hands face to the left and right.

Step 90

Grab 4 bright pink 2x2 tiles with curved cutout. Rotate the first one upright, so that its cutouts face to the top right and to the bottom left. Attach its bottom row to the left of the ppp. Rotate the second one upright, so that its cutouts face to the bottom right and to the top left. Attach its top row to the left of the top row of the ppp. Place the remaining 2 in a similar pattern to the left of the 2 ppps.

Step 91

Rotate 1 light aqua 1x2 half circle tile with hollow stud horizontally upright, so that its antistuds face to the back and its curved edge faces to the bottom. Attach it to the front-facing side studs located between the curved cutouts from the pieces from the previous step.

Step 92

Attach 1 pearl gold 1x1 round plate with leaves upright to the ppp, so that its leaves face to the top. Then, attach 1 blue violet 1x1 round plate with petals upright to the ppp. Next, attach 1 satin transparent clear 1x1 dome top to the ppp.

Step 93

Locate 2 pearl gold curved stems with swirls. Attach them to the front-facing clips, so that their swirls face towards the ppp.

Step 94

Find 2 white 2x2 plates. Attach the first one upright to the 2 rightmost columns of front facing side studs. Take the second one and repeat symmetrically on the back. Then, attach 1 white 2x2 tile with 2 studs, rounded corners and half circle extension to each of the 2 ppps, so that its studs are on the top. Lastly, attach 1 white 1x2 half circle tile horizontally upright to each of the 2 ppps, so that their curved edge faces to the bottom.

Book 3, bag 5

Group 21 – Ariel

Pages 3-4

Let's build Ariel in her wedding dress. Place 1 white minidoll skirt with dark turquoise trim and silver stars in front of you. Ask a sighted friend to make sure that the piece is oriented correctly. Then, attach 1 white minidoll torso with dark turquoise trim, silver stars, white arms, and medium tan hands to the ppp. Next, attach 1 medium tan minidoll head with dark azure eyes and smile with red lips to the minidoll's neck. Continue by placing 1 red hair on top of the minidoll's neck. Lastly, insert 1 pearl gold tiara into the ppp. Ariel is ready!

Alternatively, you can assemble Ariel in her mermaid form. Place 1 dark turquoise minidoll mermaid tail standing in front of you, so that its tail faces to the right. Then, attach 1 medium tan mini doll torso with lavender shell bikini on top of it. Next, attach 1 medium tan minidoll head with dark azure eyes and smile with red lips to the minidoll's neck. Continue by placing 1 red hair on top of the minidoll's neck. Mermaid Ariel is ready!

Group 22 – Prince Eric

Pages 5-6

Let's build Prince Eric in his wedding uniform. Locate 1 blue minidoll pair of legs with black boots, 1 white minidoll torso with sash, pearl gold epaulettes, white arms, and white hands, and 1 medium tan minidoll head with bright light blue eyes and smile and assemble the minidoll. Next, place 1 black hair swept back on top of the minidoll's head. Prince Eric is ready!

Group 23 – Altar

Step 1

Let's build the altar. Place 1 white 8x8 plate with rounded edge in front of you, so that its rounded edge faces to the back.

Step 2

Locate 2 warm pink 4x4 quarter round fences. Rotate the first one so that its long curved edge faces to the left and to the back. Place it on top of the back left corner of the ppp. Take the second one and repeat symmetrically on the right.

Step 3

Place 1 lavender 2x2 round tile on the 2nd and 3rd row from the front, so that it is centered horizontally. Then, place 1 black 2x2 tile with turntable base behind the ppp. Lastly, place 1 lavender 2x2 round tile behind the ppp.

Group 24 – Altar (continued)

Step 4

Find 2 white 2x2 tiles with turntable base. Place the first one on the front left corner of the altar build. Take the second one and repeat symmetrically on the right.

Step 5

Rotate 1 medium nougat 2x4 rounded tile horizontally. Place its back row between the front rows of the 2 ppps, so that it overhangs to the front by 1 row.

Step 6

Attach 1 blue violet 4x4 round plate with 10 gear teeth to the turntable located on the back of the altar. Spin it so that its studs form rows and columns. Place 1 bright pink 2x2 round plate with axle hole on the 2 rightmost columns of the ppp, so that it is centered vertically. Grab 2 light aqua 1x2 half circle tiles with hollow stud. Place the first one horizontally to the left of the front row of the ppp, so that its curved edge faces to the front. Place the second one behind the ppp, so that its curved edge faces to the back.

Step 7

Locate 2 white 1x1x3 bricks. Place the first one on the leftmost column of the 4th row from the front. Take the second one and repeat symmetrically on the right.

Step 8

Find 2 medium azure 2x2 round plates with 6 gear teeth. Attach the first one to the turntable on the front left of the altar build. Take the second one and repeat symmetrically on the right. Then, place 1 blue violet 2x2 round tile with hollow stud on top of each of the 2 ppps.

Group 25 – Altar (continued)

Step 9

Rotate the altar build 180 degrees on the horizontal plane so that its curved edge faces to the front. Grab 2 light aqua 1x1 round bricks. Place the first one on the back row of the left fence, so that it is in front of the 1x1x3 brick. Take the second one and repeat symmetrically on the right.

Step 10

Locate 2 dark turquoise 1x1 round plates with leaves hanging down. Place the first one on top of the ppp, so that its leaves hang to the front and to the right. Take the second one and repeat symmetrically on the left.

Step 11

Find 2 white 1x2 short curved slope bricks with recessed stud. Rotate the first one vertically, so that it slopes to the back. Place its front row on top of the ppp. Take the second one and repeat symmetrically on the right.

Step 12

Place 1 pearl gold 1x1 round plate with open stud on top of each of the 2 ppps. Then, place 1 transparent yellow 1x1 round plate with round flower on top of each of the 2 ppps.

Step 13

Grab 2 transparent clear 1x1 dome bricks. Place the first one on top of the leftmost column of the 2nd row from the front. Take the second one and repeat symmetrically on the right.

Step 14

Place 1 bright pink 1x2 plate with 1x2 upright side studs horizontally on the front row, so that it is centered horizontally and its side studs face to the front.

Step 15

Rotate 1 white 1x2 curved slope left wedge tile so that it slopes to the left. Place its rightmost column on top of the leftmost column of the ppp. Take 1 white 1x2 curved slope right wedge tile and repeat symmetrically on the right.

Step 16

Locate 2 pearl gold 1x1 round plates with leaves. Attach the first one upright to the leftmost front-facing side stud, so that its leaves face to the top and to the left. Take the second one and repeat symmetrically on the right.

Step 17

Rotate 1 white 2x2 round tile with hollow stud upright. Attach its top row to the 2 ppps, so that it overhangs to the bottom by 1 row.

Step 18

Attach 1 bright pink 1x1 heart-shaped tile upright to the ppp, so that its point faces to the bottom.

Step 19

If you wish, you can stand Ariel on the bright pink 2x2 round plate and Prince Erick on the 2 light aqua 1x2 half circle tiles with hollow stud (both on top of the 4x4 round plate with 10 gear teeth). Then, you can rotate any of the cogs to make them spin.

Step 20

Rotate the altar build 180 degrees on the horizontal plane, so that its curved edge faces to the back. The altar is complete!

Step 21

Bring back the boat, so that it is vertical and its bow faces to the front. Place the altar build on top of the boat's bow, so that their curved edges are aligned and the altar's overhanging front row is on top of the ship's ladder.

Group 26 – Boat slide

Step 22

Let's build the boat's slide. Place 1 white 3x6 trapezoid plate horizontally in front of you, so that its narrow side is to the back.

Step 23

Place 2 lavender 1x2 plates horizontally, one to the right of the other, on the front row of the ppp, so that together they are centered horizontally. Locate 2 bright pink 1x1 curved slope bricks. Place the first one on the front left corner, so that it slopes to the back. Take the second one and repeat symmetrically on the right.

Step 24

Place 1 medium azure 1x2 rounded brick with hollow studs and open center with bars horizontally under the front row of the build, so that it is centered horizontally. Then, rotate 1 white 2x3 stair plate vertically, so that its elevated side faces to the back. Attach its front row under the ppp.

Step 25

Rotate 1 light aqua slide, so that its studs on the high side face to the front. Attach its row of studs located on its elevated side to the 2nd row from the front, so that it is centered horizontally, behind the 2 lavender 1x2 plates.

Step 26

Rotate 1 medium nougat 2x4 rounded tile horizontally. Place its back row on top of the row of studs of the ppp.

Step 27

Locate 2 medium azure 3x3 plates with round corner. Rotate the first one so that its round corner faces to the front left. Place its 2 rightmost columns of the back row under the 2 leftmost columns of the front row of the bottom side of the slide. Take the second one and repeat symmetrically on the right. Find 2 bright pink 1x1 round flower plates. Place the first one on top back right corner of the ppp. Take the second one and repeat symmetrically on the left. Then, place 1 satin transparent clear 1x1 dome brick on top of each of the 2 ppps. Lastly, place 1 transparent light blue 2x2 jumper plate in front of the bottom end of the slide, so that it is centered horizontally.

Step 28

If you wish, you can place Flounder on top of the ppp.

Step 29

The slide build is complete. Bring back the boat, so that its bow is to the back. Attach the bars of the slide's 1x2 rounded brick with hollow studs and open center with bars to the back-facing clips of the boat. This way, the slide's bottom end should be to the left and face to the back.

Book 4, bag 6

Group 27 – Vanessa

Page 2

Let's build Vanessa (who is Ursula in disguise). Take 1 lavender minidoll skirt, 1 blue violet torso with dress, dark purple necklace, and medium tan arms and hands and 1 medium tan minidoll head with blue violet eyes and smirk with magenta lips and assemble the minidoll. Then, place 1 dark brown hair with parted bangs on top of the minidoll's head. Vanessa is ready!

Group 28 – Boat's upper deck

Step 1

Let's build the boat's upper deck. Place 1 blue violet 6x10 plate horizontally in front of you. Locate 2 white 1x2 ingot tiles. Place the first one vertically on top of the 2 back rows of the leftmost column of the ppp. Take the second one and repeat symmetrically on the right.

Step 2

Find 2 white 1x2 plates. Rotate the first one horizontally. Place its rightmost column in front of the ppp. Take the second one and repeat symmetrically on the left.

Step 3

Place 1 lavender 2x2 round tile with hollow stud on the 3rd and 4th rows from the front, so that it is centered horizontally.

Step 4

Grab 2 white 1x6 tiles. Rotate the first one vertically. Place its 3 back rows on top of the 3 front rows of the leftmost column, so that it overhangs to the front by 3 rows. Take the second one and repeat symmetrically on the right.

Step 5

Rotate 1 blue violet 6x10 plate horizontally. Place its 3 back rows of the leftmost and rightmost columns under the overhang of the 2 ppps.

Step 6

Place 1 white 4x4 round plate on the 5th to 8th rows from the front, so that it is centered horizontally and in front of the 2x2 round tile with hollow stud.

Step 7

Locate 2 transparent purple 2x2 jumper plates. Place the first one to the left of the 2 middle rows of the ppp. Take the second one and repeat symmetrically on the right.

Group 29 – Boat's upper deck (continued)

Step 8

Place 1 lavender 1x4 tile horizontally on the front row of the build, so that it is centered horizontally. Find 2 bright pink 1x2 plates. Rotate the first one vertically. Place its front row to the left of the ppp. Take the second one and repeat symmetrically on the right.

Step 9

Grab 2 white 4x4 round plates. Place the 2 middle rows of the first one to the right of the ppp, so that it overhangs to the right by 2 columns and to the front by 1 row. Take the second one and repeat symmetrically on the left.

Step 10

Locate 4 light aqua 2x2 plates with round corner. Rotate the first one so that its curved edge faces to the back left. Place it under the overhanging back left corner of the ppp. Rotate the second one so that its curved edge faces to the front left. Place it in front of the ppp. Take the remaining 2 and repeat symmetrically on the right.

Group 30 – Boat's upper deck (continued)

Step 11

Rotate the build 180 degrees on the horizontal plane, so that the 4 ppps are to the back. Place 1 bright pink 2x2 turntable base on the 2nd and 3rd row from the back of the 2nd and 3rd columns from the right. Then, place 1 light bluish gray 2x2 turntable on top of the ppp. Rotate it so that its studs form rows and columns. Find 2 blue violet 1x2 half circle tiles with hollow stud. Place the first one vertically on the rightmost column of the ppp, so that its curved edge faces to the right. Take the second one and repeat symmetrically on the left.

Step 12

Grab 2 lavender 1x1 quarter round tiles. Place the first one to the left of the front row of the ppp, so that its curved edge faces to the front left. Take the second one and repeat symmetrically on the right. Then, place 1 bright pink 1x2 half circle tile horizontally on the 4th row from the back of the 2nd and 3rd columns from the right, so that its curved edge faces to the front.

Step 13

Place 2 dark purple 1x2 plates with stud and upright clip vertically, one to the right of the other, on the 2nd and 3rd rows from the back on the 2nd and 3rd columns from the left, so that their clips face to the front.

Step 14

Place 1 bright pink 1x2 half circle tile horizontally in front of the 2 ppps, so that its curved edge faces to the front.

Step 15

Locate 2 dark pink 1x1 dome bricks. Place the first one on the 3rd row from the back on the 4th column from the left. Take the second one and repeat symmetrically on the right. Then, place 1 white 1x2 ingot tile horizontally on the 2nd row from the back on the 2nd and 3rd columns from the left, on top of the back rows of the 2 dark purple 1x2 plates with stud and upright clip.

Group 31 – Boat's upper deck (continued)

Step 16

Find 2 warm pink 1x2 bricks. Place the first one vertically on the 5th column from the left on the 2nd and 3rd rows from the back. Take the second one and repeat symmetrically on the right. Then, place 1 bright pink 1x2 plate with clip on short edge vertically on top of each of the 2 ppps, so that their clips face to the front. Continue by placing 1 white 1x2x2 slope brick vertically on top of each of the 2 ppps, so that they slope to the front.

Step 17

Place 1 white 1x6x2 arch horizontally on top of each of the 2 ppps.

Step 18

Attach 1 flat silver fork to the left front-facing clip. Then, attach 1 pearl gold telescope to the right front-facing clip.

Step 19

Place 2 lavender 2x2 round bricks with axle hole, one to the right of the other, on the 6th and 7th rows from the front, so that together they are centered horizontally.

Step 20

Place 1 pearl gold 2x4 rounded tile horizontally on top of the 2 ppps. We need to apply sticker 3 (a pearl gold oval with a world map with dark red decoration) to the ppp. Ask a sighted friend to make sure that the sticker is oriented correctly.

Step 21

Grab 2 white 1x2x2 slope bricks. Place the first one horizontally on the 2 leftmost columns of the 3rd row from the front, so that it slopes to the left. Take the second one and repeat symmetrically on the right.

Book 4, bag 7

Group 32 – Boat's upper deck (continued)

Step 22

Place 1 pearl gold 1x1 round plate with open stud on top of each of the 2 ppps. Then, place 1 transparent yellow 1x1 round plate with round flower on top of each of the 2 ppps.

Step 23

Rotate 1 white 4x8 half circle plate horizontally so that its curved edge faces to the front. Place its 2 back rows on top of the 2 front rows of the upper deck build, so that it is centered horizontally. Locate 2 warm pink 4x4 quarter round fences. Rotate the first one so that its long curved edge faces to the front and to the left. Place it on top of the 4 leftmost columns of the ppp. Take the second one and repeat symmetrically on the right. Find 2 white 4x4 round corner tiles. Rotate the first one so that its long curved edge faces to the front and to the right. Place it on top of the ppp. Take the second one and repeat symmetrically on the left.

Step 24

Stack 2 lavender 2x2 round bricks with axle hole and place them on the 2nd and 3rd rows from the front, so that they are centered horizontally. Then, place 1 white 2x2 round brick with pinhole on top of the 2 ppps, so that its pinhole faces to the front and to the back. Next, place 1 satin transparent dark pink 2x2 dome brick on top of the ppp. Lastly, insert the pin of 1 medium nougat ship wheel into the back-facing pinhole, so that the wheel faces to the back.

Step 25.1

We need to assemble two identical sub-builds. You can choose to build them separately or one at a time. Let's begin with the first one. Place 1 lavender 2x4x5 half cylinder with 1x2 cutout and window horizontally in front of you, so that its side studs face to the front. Then, attach 1 pearl gold 1x2x2 2/3 window lattice to the front of the window of the ppp.

25.2 Locate 2 pearl gold 1x1 round plates with leaves. Attach the first one to the leftmost front-facing side stud, so that its leaves face to the left and to the bottom. Take the second one and repeat symmetrically on the right.

25.3 Attach 1 blue violet 1x2 half circle tile with hollow stud horizontally upright to the 2 ppps, so that its curved edge faces to the bottom. Then, attach 1 satin transparent clear 1x1 dome brick to the ppp.

25.4 The sub-build is complete. Rotate it 180 degrees on the horizontal plane so that the ppp faces to the back. Place it on the 2 back rows of the 4 leftmost columns.

25.5 If you decided to assemble the sub-builds one at a time, build a second one by repeating steps 25.1 to 25.3. Place it symmetrically on the right.

Group 33 – Boat's upper deck (continued)

Step 26

We need to assemble a small sub-build. Stack 2 white 1x2x2 2/3 bricks with side studs on opposite sides horizontally.

Step 27

Place 1 pearl gold 1x2 jumper plate horizontally on top of the stack from the previous step.

Step 28

Place 1 warm pink 1x1 round brick on top of the ppp.

Step 29

Attach 1 pearl gold 2x4 rounded tile vertically upright to the front-facing side studs. We need to apply sticker 2 (a mirror with a pearl gold frame with the reflection of Ursula's true appearance) to the ppp. Ask a sighted friend to make sure that the sticker is applied and oriented correctly.

Step 30

Rotate the sub-build so that its side studs face to the front. Attach 1 pearl gold 2x4 rounded tile vertically upright to the front-facing side studs. We need to apply sticker 1 (a mirror with a pearl gold frame) to the ppp. Ask a sighted friend to make sure that the sticker is applied and oriented correctly.

Step 31

The sub-build is complete. Place it horizontally on the 2nd row from the back on the 2nd and 3rd columns from the right, on top of the 2 blue violet 1x2 half circle tiles with hollow stud.

Step 32

Find 1 white 4x4 round plate with 2x2 round cutout in the middle. Place its 2 back rows on top of the 2 back rows of the 4 rightmost columns, so that warm pink 1x1 round brick lies in the round cutout. Grab 3 white 2x2 round corner tile bricks. Rotate the first one so that its long curved edge faces to the front and to the left. Place it on top of the front left corner of the ppp. Take the second one and repeat symmetrically to the right. Take the last one and place it symmetrically to the back of the ppp. Lastly, place 1 white 1x1 curved slope brick to the left of the ppp, so that it slopes to the back.

Step 33

Place 1 lavender 2x2 round brick with axle hole in the middle of the cutout of the 4x4 round plate from the previous step, so that it is on top of the warm pink 1x1 round brick.

Group 34 – Boat's upper deck (continued)

Step 34

We need to assemble a small sub-build. Place 1 medium lavender 2x4 plate vertically in front of you. Then, place 1 light bluish gray 2x2 plate with 1x2 upright side studs on top of the 2 back rows of the ppp, so that its side studs face to the back.

Step 35

Place 2 light bright blue 1x2 plates with handle on short edge vertically, one to the right of the other, in front of the ppp, so that its handles face to the front.

Step 36

Grab 2 medium azure 1x2 plates with 1x4 side studs hanging down. Place the first one vertically on the leftmost column, so that it is centered vertically and its side studs face to the left. Take the second one and repeat symmetrically on the right.

Step 37

Place 1 bright pink 1x2 plate horizontally on top of the front row.

Step 38

Place 1 white 2x4 tile vertically on top of the sub-build. Then, we need to apply sticker 5 (a white rectangle with two shelves; the top shelf has a ship in a bottle; the bottom shelf has a figurine of two dancing people) to the ppp. Ask a sighted friend to make sure that the sticker is applied and oriented correctly.

Step 39

Locate 2 blue violet 1x4 half cylinder tiles. Attach the first one horizontally upright to the left-facing side studs, so that it slopes to the top and to the bottom. Take the second one and repeat symmetrically on the right.

Step 40

Attach 1 medium lavender 1x4 plate horizontally upright to the back-facing side studs. Then, attach 1 lavender 1x4 tile horizontally upright to the ppp.

Step 41

The sub-build is complete. Stand it by flipping it 90 degrees from back to front, so that its handles face to the bottom. Attach its handles to the clips located on the 3rd row from the back of the 2nd and 3rd columns from the left.

Group 35 – Boat's upper deck (continued)

Step 42

Place 1 white 4x4 round plate on top of the 4 back rows of the 4 leftmost columns, so that it overhangs to the front by 1 row.

Step 43

Rotate 1 white 1x8 brick horizontally. Place its leftmost column on top of the 2nd row from the back of the rightmost column of the ppp.

Step 44

Place the back row of 1 lavender 2x2 round brick with axle hole to the left of the ppp.

Step 45

Place 1 white 1x1 curved slope brick behind the rightmost column of the ppp, so that it slopes to the back.

Step 46

Find 3 white 2x2 round corner tile bricks. Rotate the first one so that its long curved edge faces to the back and to the left. Place its back row to the left of the ppp. Take the second one and place it symmetrically in front of the ppp. Next, take the last one and place it symmetrically to the right of the ppp.

Group 36 – Boat's upper deck (continued)

Step 47

Place 1 white 1x6 plate horizontally on the 2nd row from the back, so that it is centered horizontally.

Step 48

Grab 2 dark turquoise 1x1 round plates with leaves hanging down. Place the first one to the left of the ppp, so that its leaves hang to the back. Take the second one and repeat symmetrically on the right.

Step 49

Place 1 white 1x2 plate with 2x4 side studs hanging down horizontally on the 2nd row from the back, so that its side studs face to the back.

Step 50

Locate 2 dark turquoise 1x1 round plates with leaves hanging down. Place the first one to the left of the ppp, so that its leaves hang to the front. Take the second one and repeat symmetrically on the right.

Step 51

Find 2 white 1x2 rounded plates with open studs. Place the first one horizontally to the right of the ppp. Take the second one and repeat symmetrically on the left.

Step 52

Place 1 white 1x4 plate horizontally to the right of the ppp.

Step 53

Place 1 light aqua 1x2 plate with 1x2 side studs hanging down horizontally on top of the ppp, so that it is centered horizontally and its side studs face to the front.

Step 54

Grab 2 white 1x3 curved slope tiles. Place the first one horizontally to the left of the ppp, so that it slopes to the left. Take the second one and repeat symmetrically on the right.

Step 55

Rotate 1 white 2x2 double slope tile with point upright, so that its antistuds face to the back and it points to the bottom. Attach its top row to the front-facing side studs.

Step 56

Rotate the upper deck build 180 degrees on the horizontal plane, so that the ppp faces to the back. Attach 1 pearl gold 2x4 rounded tile horizontally upright to the front-facing side studs. We need to apply sticker 4 (a pearl gold oval with a coat of arms with an "E" in the middle surrounded by 2 mermaids) to the ppp. Ask a sighted friend to make sure that the sticker is applied and oriented correctly.

Step 57

Locate 3 satin transparent dark pink 2x2 dome bricks. Place the first one on top of the 2x2 round brick located on the 2nd and 3rd rows from the front of the 2nd and 3rd columns from the left. You can rotate the ppp to activate the mechanism to flip the mirror underneath. Take the second one and repeat symmetrically on the right. Next, place the front row of the last one on top of the front row, so that it is centered horizontally. Note that its back row will not be attached.

Continue by placing 1 pearl gold 1x1 round plate with open stud on top of each of the 3 ppps. Then, place 1 transparent yellow 1x1 round plate with round flower on top of each of the 3 ppps.

Step 58

The upper deck is complete. Bring back the boat, so that its bow faces to the back. Make sure that the round edge of the upper deck faces to the back. Place the upper deck's front row behind the 2x4 rounded tile located behind the slide, so that the upper deck is centered horizontally.

We are done with the construction! Have fun recreating the iconic scene of The Little Mermaid.

At the end of the instruction booklet, you will find two pages advertising other sets. On the first page, sets 43289 (Belle & the Beast's Enchanted Castle), 43294 (Rapunzel's Mini Tower), 43299 (Ariel's Royal Wedding, this set), and 43295 (Jasmine's Jewelry Box) are advertised. On the second one, sets 43292 (Pua), 43297 (Rapunzel's Castle), and 43296 (Stitch & Scrump) are advertised. After these, you will find the set inventory. On the last page you will find an invitation to share feedback.

Thank you so much for building this set!

Congratulations on finishing your build! Would you like to inspire other blind people to build LEGO sets? Let's feature your build on our [Builders page](#). It's easy and we will do all the work! Just contact us at info@bricksfortheblind.org and together we will make it happen!

We hope you enjoyed building your LEGO set! Bricks for the Blind is able to create these text-based building instructions thanks to generous donations from our builders. If you enjoy the instructions we create, please consider making a \$5 donation at: <https://www.gofundme.com/f/bricks-for-the-blind-gofundme>.

Bricks for the Blind is a registered tax exempt 501(c)(3) corporation.

Please [sign up](#) for our newsletter and follow us on [Facebook](#) and [Instagram](#) to be the first to know when new instructions are available!
